## AMP Capital, Westfield Group and Westfield Retail Trust complete A\$1.75bn shopping centre transaction

- AMP Capital attracts A\$872m from two new international investors
- A\$390m redevelopment of Sydney's Macquarie Centre to begin immediately
- A\$580m to be invested in the redevelopment of the Gold Coast's Pacific Fair
- Boost to local economies with 3,000 new permanent retail jobs and 3,450 construction jobs
- AMP Capital, Westfield Group and Westfield Retail Trust continue long term partnership
- An exciting transaction offering investors access to high quality regional shopping centres positioned for growth

AMP Capital managed funds have acquired Westfield Group (WDC) and Westfield Retail Trust's (WRT) interest in three of Australia's best known retail assets (Macquarie Centre in Sydney, Pacific Fair on the Gold Coast and Garden City Booragoon in Perth) for A\$1.025 billion.

At the same time, WDC and WRT have acquired AMP Capital managed funds' interests in four centres (Garden City Mt Gravatt in Brisbane, a part interest in Warringah Mall in Sydney and Knox and Casey Central in Melbourne) for A\$710 million<sup>1</sup>.

AMP Capital managed funds are a A\$315 million net buyer of assets and following the simplification of its partnerships with WDC and WRT, the number of co-owned shopping centres is reduced from 10 to four.

AMP Capital has attracted A\$872 million in new equity from the Canada Pension Plan Investment Board (CPPIB) and Harina Company Limited, a wholly-owned subsidiary of the Abu Dhabi Investment Authority (ADIA).

The new equity will be invested in the AMP Capital Retail Trust (ACRT), which has interests in Macquarie Centre and Pacific Fair. Their respective investments will allow these highly regarded international investors to participate in the growth of leading shopping centres located in high population growth areas with significant development opportunities.

AMP Capital managed funds will also invest A\$970 million on the redevelopment of Macquarie Centre and Pacific Fair.

The redevelopment of Macquarie Centre will begin immediately and plans for the redevelopment of Pacific Fair are being finalised. The redevelopments will create premier retail and leisure destinations, positioning both assets in the top 10 of Australian leading regional shopping centres. Planning is also underway for a proposed redevelopment at Garden City Booragoon.

<sup>1</sup> The price for all acquisitions and divestments is supported by independent valuations. This transaction will not have any material impact on AMP Limited's financial position.

The redevelopments will boost the local economies, including the creation of 3,450 construction jobs and 3,000 new permanent retail jobs.

The redevelopments at Macquarie Centre and Pacific Fair are fully funded as a result of the new investors and the support of other AMP Capital managed funds and their investors.

AMP Chief Executive Officer Craig Dunn said the support from existing and new investors for the transaction is an endorsement of AMP Capital's well-recognised property investment capability as well as a vote of confidence in the Australian retail sector.

"We have partnered very successfully with Westfield Group for over 50 years to deliver our clients superior investment returns across our shopping centre portfolio. Now is the right time to simplify our relationship to ensure we continue to deliver the best possible outcome for our investors well into the future," Mr Dunn said.

AMP Capital will continue to manage the centres now wholly owned by AMP Capital managed funds. WDC will now manage Warringah Mall in which AMP Capital managed funds own a 50 per cent interest. This aligns with the existing management arrangements in place at Southland, Tea Tree Plaza/Plus and Liverpool where AMP Capital managed funds own a 50 per cent interest and WDC is the manager.

AMP Capital Director Property Andrew Bird said the transaction was proof that global and domestic capital was available if outstanding investment opportunities were on the table.

"The transaction has been developed in consultation with the new investors and existing investors across a number of AMP Capital managed funds including AMP's A\$4.5 billion flagship Australian Core Property Portfolio, the A\$2.3 billion AMP Capital Shopping Centre Fund and the A\$1.2 billion AMP Capital Retail Trust," Mr Bird said.

"I'm delighted that we have received ongoing support from our existing investors as well as attracting significant new capital to our business."

The transaction provides the opportunity to achieve enhanced investment returns following the redevelopment of Macquarie Centre and Pacific Fair into world class shopping and leisure destinations.

"The addition of these two assets expands our retail portfolio in Australia and represents a rare opportunity to acquire interests in two high quality and well located retail shopping centres with excellent future expansion and growth potential," CPPIB Senior Vice-President Real Estate Investments Graeme Eadie said.

"These assets are aligned with CPPIB's long-term investment strategy. AMP Capital is one of the top shopping centre managers in Australia and we look forward to building on our relationship with them in the future."

### **Macquarie Centre**

The A\$390 million world class redevelopment of Macquarie Centre will commence immediately, expanding the centre to 135,000 square metres gross leasable area (GLA) with more than 375 speciality retailers.

Upon completion, Macquarie Centre will be the second largest shopping centre in Sydney. It serves a unique growth corridor including the major customer bases of Macquarie University, Macquarie Business Park and a growing residential population.

"Our vision is to develop Macquarie Centre into one of the finest retail and leisure destinations for the community it serves," Mr Bird said.

Macquarie Centre has delivered investors consistent outperformance with an average total investment return of 12.1 per cent per annum over 10 years.

## **Pacific Fair**

Plans are being finalised for the A\$580 million major redevelopment of Pacific Fair to be completed by 2016, two years before the Gold Coast is to host the Commonwealth Games. The completed centre will have 145,000 square metres GLA and more than 400 speciality retailers.

“The Gold Coast is Australia’s number one tourism destination and our redevelopment will re-establish Pacific Fair’s market leading dominance by creating a stand out international leisure and retail experience that capitalises on the centre’s location in the heart of one of Australia’s fastest growing trade areas,” Mr Bird said.

Pacific Fair’s average total investment return has been 11.2 per cent per annum over 10 years.

## **Garden City Booragoon**

Garden City Booragoon is already Perth’s iconic shopping centre and planning is underway for a proposed A\$350 to A\$400 million redevelopment to ensure it remains Perth’s premier retail destination.

Mr Bird said Garden City Booragoon has the second highest retail sales turnover per square metre for specialities for any regional shopping centre in Australia.

“Perth is the fastest growing capital city in Australia, and the centre has been boosted by the introduction of Sunday trading and the addition of Western Australia’s largest Apple store,” Mr Bird said.

Garden City Booragoon’s average total investment return has been 14.6 per cent per annum over 30 years.

Following the redevelopment of Macquarie Centre and Pacific Fair, AMP Capital managed funds will own three of the top 10 centres in Australia.

“As a result of the transaction AMP Capital managed funds continue to own some of Australia’s best known and most attractive retail assets,” Mr Bird said.

“This is an exciting transaction offering our investors access to a portfolio of high quality regional shopping centres positioned strongly for long term growth.”

Macquarie Capital acted as exclusive financial adviser to AMP Capital for the transaction and as sole lead manager and arranger for the capital raising.

- Macquarie Centre has delivered investors consistent outperformance with an average total investment return of 12.1 per cent per annum over 10 years. Pacific Fair's average total investment return has been 11.2 per cent per annum over 10 years

## **About Canada Pension Plan Investment Board**

Canada Pension Plan Investment Board (CPPIB) is a professional investment management organisation that invests the funds not needed by the Canada Pension Plan (CPP) to pay current benefits on behalf of 18 million Canadian contributors and beneficiaries. In order to build a diversified portfolio of CPP assets, CPPIB invests in public equities, private equities, real estate, infrastructure and fixed income instruments.

Headquartered in Toronto, with offices in London and Hong Kong, CPPIB is governed and managed independently of the Canada Pension Plan and at arm's length from governments. At 30 June 2012, the CPP Fund totalled C\$165.8 billion. For more information, please visit [www.cppib.ca](http://www.cppib.ca).

## **About Harina Company Limited**

Harina Company Limited is an investment company that invests in Australian real estate interests and is wholly owned by the Abu Dhabi Investment Authority (ADIA).

Established in 1976, ADIA is a globally diversified investment institution that is wholly owned by the Government of Abu Dhabi.

ADIA manages a substantial global investment portfolio, which is highly diversified across more than two-dozen asset classes and sub-categories, including quoted equities, fixed income, real estate, private equity, alternatives and infrastructure. With a long tradition of prudent investing, ADIA's decisions are based solely on its economic objectives of delivering sustained, long-term financial returns.
