

2 August 2017

TWO NEW LARGE-SCALE SOLAR FARM PROJECTS FOR RCR

Swan Hill Solar Farm

Diversified engineering and infrastructure company RCR Tomlinson Ltd (ASX: RCR), is pleased to announce that it has been awarded a \$28 million contract with Solar Powerstations Victoria for the 19MWdc Swan Hill Solar Farm in Victoria. Leading Australian funds manager, Impact Investment Group ("IIG"), will fund the solar farm's construction. On completion, it will be one of the seed assets in a new IIG solar fund.

RCR's scope of work includes engineering, procurement, construction ("EPC") and commissioning of the Solar Farm, including associated substations and grid connection works. Construction is expected to commence in September 2017. Once commissioned, RCR will undertake maintenance services of the Solar Farm for an initial period of two years.

Emerald Solar Farm

In addition, RCR is also pleased to announce that it has signed an Early Works Letter with RES Australia Pty Limited to work together to develop an EPC contract to deliver an 80MW solar farm near Emerald in Queensland.

RCR Managing Director & CEO, Dr Paul Dalgleish said "these large-scale solar projects add to RCR's substantial order book and preferred contractor status of renewable energy projects, clearly positioning RCR as the market leader and therefore first choice for this sector. Our growing capability, resources and equipment gives RCR even greater leverage to remain the foremost contractor in the solar market."

The market for large-scale renewable energy projects in Australia continues to grow and the pipeline of new projects is expanding rapidly. We see renewable energy as a long-term major sector for the Australian market and one which we will always play a significant role" said Dr Dalgleish.
