CHAIRMAN'S REPORT

Byte Power Group Limited ('the Company') and its controlled entities ('the Group') present its financial report for the period ended 30 June 2018.

Revenues from ordinary activities in the financial year ended 30 June 2018 were \$1.16M compared to \$4.06M in the financial year ended 30 June 2017.

Revenues across all business segments fell. Management was actively involved in the litigation suit with Soar Labs Pte Ltd, discussions with ASX and ASIC queries, and cryptocurrency exchange activities. Correspondingly, professional expenses in the form of legal costs increased significantly year on year from \$31k for the year ended 30 June 2017 to \$540K for the year ended 30 June 2018. The Group also incurred other expenses of \$4.579M as a result of the impairment incurred due to the disposal of soar coins pursuant to the settlement with Soar Labs Pte Ltd and foreign exchange gains and losses. Due to the difficult circumstances the Group suffered a loss for the full 2017-18 financial year of \$10.448M.

There were no sales of the Wimobilize's Big Data solution during the period. As a result revenues decreased significantly in the IT&T segment year on year by \$2.4M. (30 June 2017: \$2.4M).

For the year ended 30 June 2018, sales revenue generated from the Asian Business Division contributed to 99% of total revenue for the group (30 June 2017: 40.4%). These sales revenues (\$1.15M) represented a decline of 29.6% on the sales revenue for the Asian Business Division for the year ended 30 June 2017 (\$1.64M). This decline was due in part to the continued austerity drive in China, one of our key markets affecting our wine sales. The group is looking at strengthening its distribution network and expanding its focus in other markets in Asia.

On 1st January 2018, Byte Power Group Ltd ("BPG") was notified by Soar Labs Pte Ltd ("Soar Labs") that the current balance of 179,183,168 Soar Coins held by BPG and its subsidiary, Byte Power Pty Ltd ("BPPL") and 34,602,426 Soar Coins held by Mr Alvin Phua, a Director of the Company, had been temporarily suspended based on a number of allegations which were posted by Soar Labs on its website. The Board of BPG subsequently started legal action against Soar Labs for the recovery of the Soar Coins in Singapore where Soar Labs was based.

On the 24th May 2018 Byte Power Group Ltd, its subsidiary Byte Power Pty Ltd, Mr Alvin Phua and Soar Labs reached an amicable settlement. As part of the settlement Soar Labs transferred the 49 shares it had previously acquired in BPPL for US\$5M, to BPG for no consideration. Soar Labs Pte Ltd are also required to pay a total of US\$1.85M in cash and cryptocurrency to BPPL, BPG and Mr Phua in three tranches over a twelve-month period. The settlement proceeds distribution was agreed between BPG, BPPL and Mr Phua and was based on the percentage of Soar Coins suspended. BPG, BPPL and Mr Phua have received the first tranche of settlement proceeds from Soar Labs Pte Ltd which included US\$97,000, 372 Ether and 3,000,000 Soar Coins. The second settlement payment in the sum of US\$579,800 is due on or before 24th November 2018 and the final settlement payment, consisting of US\$800,000 and 2,000,000 Soar Coins is due on or before 24th May 2019.

The Group incurred an impairment expense on settlement of \$4.73M.

The Group made significant progress on the development of its Cryptocurrency Exchange. The Cryptocurrency Exchange has been tested for the user interface and transactional functionality and further functionality is being implemented to enhance the Exchange. Discussions with banking institutions are still ongoing in relation to the provision of pairing facilities. In August 2018, the Group opened registration for users of the Exchange.

Outlook

The Group is targeting the completion of the Cryptocurrency Exchange user interface developments and is expecting to launch its Cryptocurrency Exchange in Q4 2018. BPG is committed to continued investment in the Cryptocurrency Exchange and is confident that this will enable Byte Power X Pty Ltd to establish itself as a major Cryptocurrency player in Australia and the Asia Pacific region. The Board considers the continued investment in the Cryptocurrency Exchange represents an exciting opportunity for the company to expand its IT&T business offering.

BPG will continue to explore new and existing business opportunities for the wine distribution business in Asia Pacific with its 8 Eagles range.

BYTE POWER GROUP LIMITED
And its controlled entities

The Group continues to build its company profile and management team to support the opportunities in Asia to further develop the Asian Business Division and its Asian presence. For the coming year, the Company will continue to grow its Asia presence as it explores both existing and new export and distribution opportunities in Australia and Asia.

With the progress of the establishment of the cryptocurrency exchange, as well as the new and existing business opportunities in wine export, distribution and Big Data, the Group remains positive towards the year ahead.

Alvin Phua
Executive Chairman & CEO

BYTE POWER GROUP LIMITED
And its controlled entities

REVIEW OF OPERATIONS

Company Background and Overview

Byte Power Group Limited (“BPG”) is a diversified technology, food and wine distribution company.

The 2018 financial year has been a difficult year for BPG’s technology division. Due to delays in implementing and releasing a working prototype of the Wimobilize Big Data solution for BPG’s first customer, opportunities for the sale of the solution to potential customers were delayed. BPG, through its subsidiary, Byte Power Pty Ltd, which owns 100% of Byte Power X Pty Ltd, the entity establishing its Cryptocurrency Exchange, is in a good position to take advantage of the Cryptocurrency/Blockchain technology sector as it nears the launch of the Exchange.

In 2019 financial year, BPG will continue to progress the existing and new opportunities for its Big Data solution and launch its Cryptocurrency Exchange.

BPG will also continue to develop new and existing business opportunities for the wine distribution businesses in Asian markets, particularly with its 8 Eagles range.

The Byte Power Group includes several related subsidiaries overseas as well as in Australia which are described below.

Subsidiaries Relating to Information Technology

Byte Power Pty Ltd (“Byte Power Australia”)

Byte Power Australia was established in Queensland in 1989 and provides IT products and services to SME’s as well as corporate and government clients. Byte Power Australia has exclusive distribution rights over Wimobilize’s Big Data solutions in the regions of Australia and New Zealand. Byte Power Pty Ltd owns 100% of the issued capital of Byte Power X Pty Ltd, a newly incorporated company that is establishing a Cryptocurrency Exchange in Australia.

Byte Power Pte Ltd (“Byte Power Singapore”)

This Singapore subsidiary was formed in April 2012 to cater for the Singapore and surrounding market in terms of IT&T trading and other business opportunities. Byte Power Singapore has exclusive distribution rights over Wimobilize’s Big Data solutions in the regions of Singapore and Malaysia.

Byte Power (Hong Kong) Ltd (“Byte Power Hong Kong”)

This subsidiary provides local presence and support within the regional market. Byte Power Hong Kong has exclusive distribution rights over Wimobilize’s Big Data solutions in the regions of Hong Kong, Macau, China and Taiwan.

Subsidiary Relating to Power Management

Power Tech Systems Pty Ltd (“Power Tech Systems”)

A supplier and importer of power management technology, Power Tech Systems specialises in providing network solutions with the design, distribution and maintenance of Uninterruptible Power Supplies (UPS). Power Tech Systems provides lifetime support for their range of products and offers on-site support and maintenance services Australia-wide on a majority of branded power management solutions.

REVIEW OF OPERATIONS (continued)

Subsidiaries Relating to Food & Beverage

Wine Power Pty Ltd (“Wine Power Australia”)

Established in August 2012, this subsidiary was formed to supplement the Asian Business Division and its overseas subsidiaries in wine distribution. Wine Power Pty Ltd has released its premium 8 Eagles range of wines and focuses on marketing its range in Australia and Asia.

Wine Power Pte Ltd (“Wine Power Singapore”)

This entity was established in August 2013 to distribute wines within Singapore, Malaysia and the rest of South-East Asia. The Company focuses on establishing its 8 Eagles range in these markets.

Treasure Hive Honey Pty Ltd (“Treasure Hive Honey”)

This subsidiary was established in May 2016 for the purpose of the distribution of 100% Australian Certified Organic (“ACO”) honey and honeycomb products to be branded under its own brand name of Treasure Hive Honey.

Byte Power Group, through its offices in Australia, Singapore and Hong Kong, has developed its extensive network of corporate relationships in Australia and Asia over a span of 30 years. Along with its strong IT&T background the Group has positioned itself to utilise its key competencies in sourcing growth into new and existing markets for the Wimobilize Big Data solutions and the cryptocurrency exchange market.

Through its overseas subsidiaries the Company continues to generate opportunities by leveraging off existing business relationships with multinational, large corporate and government organisations within each region.

BYTE POWER GROUP LIMITED
And its controlled entities

REVIEW OF OPERATIONS (continued)

Operations Review

IT&T

As part of BPG's focus on their IT&T segment, the Company has established itself as a distributor of a robust and market leading solution in the Big Data space.

BPG entered into Exclusive Partnership Agreements with Wimobilize Singapore Pte Ltd ("Wimobilize") through several of BPG's subsidiaries, enabling BPG to sell and implement Wimobilize Big Data solutions exclusively in the various markets outlined below.

BPG Entity	Exclusivity Region
Byte Power Singapore:	Singapore Malaysia
Byte Power Australia:	Australia New Zealand
Byte Power Hong Kong:	Hong Kong Macau China Taiwan

Big Data is a growing industry with the International Data Corporation (IDC) predicting that revenue from the sales of Big Data and business analytics applications, tools, and services will increase more than 113%, from nearly \$122 billion in 2015 to more than \$260 billion in 2022.

Australian organizations expect to leverage on Big Data and Advanced Analytics projects to deliver outcomes that will improve competitive advantage, enhance customer service and support, and aid with customer acquisition and retention. According to the International Data Corporation (IDC), the Australian IT services market is projected to grow to reach \$19.7 billion at the end of 2019, and the New Zealand IT Services market projected to reach NZ\$3,574.3 million in 2019.

BPG, through its subsidiary Byte Power Pty Ltd, which owns 100% of the issued capital in Byte Power X Pty Ltd, is establishing a Cryptocurrency Exchange ("Exchange") in Australia. The Exchange is planned for launch in Q4 2018.

The Exchange is expected to launch with up to 20 cryptocurrencies, fiat trading pairs in AUD and USD, wallet management options, full trading capabilities, and direct to bank disbursement on fiat conversion with no daily fiat conversion limit.

Since Bitcoin's first block in blockchain was created on January 3rd, 2009, the cryptocurrency market has exploded to include over 1500 different cryptocurrencies, of varying purpose and utility. Between January 1, 2017, and January 1, 2018, the aggregate market capitalisation grew from USD\$18.3 billion to USD\$598 billion according to an article released by Emerging Technology from the arXiv - with daily trading volume going from USD\$140 million to USD\$24.8 billion between the same date range. The market capitalisation hit an all-time high on January 8, 2018, at USD\$820.9 billion, with the daily trading volume peaking at USD\$68 billion according to CoinMarketCap. This rise was followed by a drop of just under 80% in the following months, as Bitcoin hit its lowest point of 2018 at \$5,873 USD, on June 28. Daily trading volume also fell to \$3.5 million USD on the same day.

It's important to note that there is a high amount of risk inherent in cryptocurrency investments. While gains seen here are unprecedented in size, so are losses. Anyone investing in this market, no matter what level of experience, education, or accreditation, is at risk of losing their capital due to market forces. Extreme volatility is not out of the ordinary in this market, as cryptocurrencies are still in their infancy.

BYTE POWER GROUP LIMITED
And its controlled entities

Operations Review (continued)

While the traditional stock market is in an eight-year bull-run, the cryptocurrencies market experienced a steep market correction at the beginning of 2018. Notably, institutional investors were allowed their first crypto investment vehicle in late 2017: bitcoin futures. In an effort to ease into the market, CME Group and CBOE Group launched the first Bitcoin Futures contract, marking the first institutional foray into cryptocurrencies per an article in Reuters on 7th December 2017. The crypto market includes a high volume of retail investors or individual investors who can be lacking in financial training and general trading experience. Despite the large number of retail investors that exist, ownership of many top tokens are heavily concentrated in small groups. This, in part, is why the cryptocurrency market is volatile, prone to manipulation, and sentiment driven. Bitcoin price fluctuations and surges have been known to correlate with the volume of google searches for the word, "bitcoin".

Despite blockchain technology being touted for its transparency, the market is surprisingly opaque, with a lack of credible information and data for traditional or professional investors to utilise in guiding their trading decision-making.

Even with the limitations of the market holding back institutional investment, eager retail investors continue to flood into the market. Two of the largest exchanges at the time, Binance and BitHumb, saw a record-breaking number of new users in 2017-2018. Binance reported that they were on-boarding approximately 250,000 users a day before they, and Bithumb, were both forced to suspend the registration of new customers, in order to scale their infrastructure to meet the demand securely according to an article published by Joseph Young in Cointelegraph.

The demand for cryptocurrencies is undeniable. And in the past, institutional interest has followed individual interest. While the market capitalisation for these assets is sizeable, there is significant opportunity in this market. BPG is looking forward to being a participant in this market

With our extensive IT&T background, strong connections in Asia and Australia, we are positioned to utilise our key competencies in sourcing growth into new and existing markets for the Cryptocurrency Exchange market.

Asian Business Division

The group continues its focus in the Asia market, developing its current businesses in the food & beverage area of wine and organic honey. It will continue to build new partnerships and open new channels and markets for Australian produce, in particular our house wines, 8 Eagles.

Continual efforts are being placed into building up the company profile and management team.

Power Management

The group continues to run the Power Management business, constantly exploring business opportunities to expand the consumer market.

BYTE POWER GROUP LIMITED

There were no other significant changes in the nature of the activities of the Group during the year.

BYTE POWER GROUP LIMITED
And its controlled entities

REVIEW AND RESULTS OF OPERATIONS

Summary

For the year ended 30 June 2018, the group reports a loss from continuing activities before tax of \$10,448K compared to last year's reported profit of \$697K. Management was actively involved in the litigation suit with Soar Labs Pte Ltd, discussions with ASX and ASIC queries, and establishing a Cryptocurrency Exchange. Correspondingly, professional expenses in the form of legal costs increased significantly year on year from \$31k for the year ended 30 June 2017 to \$540K for the year ended 30 June 2018.

The loss for the year was \$10,448K compared to last year's reported profit of \$697K. This amount includes significant expense of \$4.579M as a result of impairment incurred due to the disposal of soar coins pursuant to the settlement with Soar Labs Pte Ltd and foreign exchange gains and losses.

EBITDA loss for the year was \$5.3M compared to an EBITDA of \$1.1M the previous year.

Revenues from continuing activities in the financial year ended 30 June 2018 were \$1.16M compared to \$4.06M in the financial year ended 30 June 2017. Revenues across all the business segments fell.

Comments on the Group's operations and results

Detailed results are as follows:

	2018 \$	2017 \$	% change
Revenue from ordinary activities	1,163,733	4,059,137	(71.3%)

REVIEW AND RESULTS OF OPERATIONS (continued)

Business Unit results from continuing operations are set out below:

	Revenues		Results before income tax	
	2018	2017	2018	2017
	\$	\$	\$	\$
Segment:				
Power Management	9,927	19,245	(4,604)	(6,773)
IT&T	-	2,401,048	(2,345,845)	1,477,851
Asia Business Division	1,153,805	1,638,844	(1,335,489)	(699,819)
Other	-	-	(6,761,647)	(74,205)
	1,163,733	4,059,137	(10,447,585)	697,053

Significant Changes in the State of Affairs

During the 2017-18 financial year, Byte Power Group Ltd received 49% of the issued capital of Byte Power Pty Ltd from Soar Labs Pte Ltd as part of the settlement agreement with Soar Labs Pte Ltd. On 15th February 2018 Byte Power X Pty Ltd was incorporated and is the owner of the Cryptocurrency Exchange being established by the Group.

Significant Events after Balance Date

On the 19th July 2018, Byte Power Group Ltd advised through an ASX release that BPG would be undertaking a token generating event for the Byte Power X Pty Ltd loyalty token. These tokens are utility tokens relating to the loyalty program for users of the Exchange which provides a discount on commissions for users of the Byte Power X Cryptocurrency Exchange. As at 19 September 2018 a total of US\$494,965 has been received as deposits for the purchase of the BPX tokens. The Group plans to raise up to A\$12M from the sale of these BPX tokens.

Other than the matters referred to above, no matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Likely Developments and Expected Results

The Board maintains a positive outlook for the new financial year.

The Group is targeting the completion of the Cryptocurrency Exchange user interface developments and is expecting to launch its Cryptocurrency Exchange in Q4 2018.

BPG will continue to explore new and existing business opportunities for the wine distribution business in Asia Pacific with its 8 Eagles range.

The Group continues to build its company profile and management team to support the opportunities in Asia to further develop the Asian Business Division.

REVIEW AND RESULTS OF OPERATIONS (continued)

Environmental Regulation and Performance

The Group is not aware of any breaches of environmental regulations in respect of its activities.

Share Options

There were no listed and unlisted options as at 30 June 2018.

Shares issued as a result of the exercise of options

During the financial year no options were exercised.

Proceedings on Behalf of Company

During the financial year the Board of Byte Power Group Ltd and Byte Power Pty Ltd applied for leave of the court on behalf of the companies and brought legal proceedings against Soar Labs Pte Ltd for the recovery of Soar Coins that were, according to Soar Labs Pte Ltd ("Soar Labs"), suspended by Soar Labs on 1st January 2018. On the 24th May 2018 Byte Power Group Ltd, its subsidiary Byte Power Pty Ltd, Mr Alvin Phua and Soar Labs who were all the parties involved in the legal action reached an amicable settlement. Details of this settlement are set out in the Chairman's Report.

During the financial year Konzept APS brought legal proceedings against Byte Power Group Ltd to recover deposits paid to Byte Power Group Ltd for IT hardware. The amount of these deposits were US\$717,550. This hardware was not provided to Konzept APS. Byte Power Group Ltd paid for this hardware to its supplier however the IT hardware was not provided to Byte Power Group Ltd. Byte Power Group Ltd paid back these deposit amounts to Konzept APS during the financial year. There are no further claims on Byte Power Group Ltd by Konzept APS relating to these deposits.

Shares remain suspended from trading on ASX pending an outcome of the ASIC investigation.

The company was not a party to any other legal proceedings during the year other than those outlined above.

And its controlled entities

REMUNERATION REPORT (Audited)

Directors' and other Officers' Remuneration

Remuneration policy

The Remuneration Committee of the Board of Directors is responsible for determining and reviewing compensation arrangements for the directors, the chief executive officer and the executive team to ensure maximum shareholder returns through the retention of high quality Board and executive team members.

Remuneration is structured to give optimal benefit to the recipient without creating undue costs to the Group.

The Board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- Competitiveness and reasonableness
- Acceptability to shareholders
- Performance linkage/alignment of executive compensation
- Transparency *and*
- Capital management

The Group has structured an executive remuneration framework that is market competitive and complementary to the reward strategy of the organisation.

Both non-executive and executive director's fees reflect the demands which are made on, and the responsibilities of, the directors. These fees are reviewed annually and are inclusive of committee fees.

Details of Remuneration of Key Management Personnel

Name	Title and appointment date	Contractual arrangement with KMP
Alvin Phua	Executive Chairman and Chief Executive Officer 1 December 2002	No fixed term. 6 months' notice required to terminate.
Raphael Tham	Non Executive Director 7 June 2004	3 year term from 23 November 2015.
Yano Lim	Non Executive Director 9 November 2015	3 year term from 9 November 2015.
Michael Wee (appointed 15 December 2017)	Non Executive Director 15 December 2017	3 year term from 15 December 2017.

CORPORATE GOVERNANCE

Corporate Governance Statement

The board of directors of Byte Power Group Limited ("the Company") is responsible for the corporate governance of the Group. The Board guides and monitors the business and affairs of Byte Power Group Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

Byte Power Group Limited's Corporate Governance Statement is now structured with reference to the Australian Stock Exchange ("ASX") Corporate Governance Council's (the "Council") "Corporate Governance Principles and Recommendations – 3rd Edition" ("Corporate Governance Council Recommendations") which can be found on the ASX's website.

Given the size and structure of the Company, the nature of its business activities, the stage of its development and the cost of strict and detailed compliance with all of the recommendations, it has adopted a range of modified systems, procedures and practices which it considers will enable it to meet the principles of good corporate governance.

The following section addresses Byte Power Group Limited's practices in complying with the Corporate Governance Council Recommendations:

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
PRINCIPLE 1 – LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT			
1.1	A listed entity should disclose: (a) the respective roles and responsibilities of its board and management; and (b) those matters expressly reserved to the board and those delegated to management.	The Board exists to lead and oversee the management and direction of the Company. The skills, experience and expertise relevant to the position of director held by each director in office at the date of the Annual Report for the financial year ended 30 June 2018 ("Annual Report") is included in the Director's Report of the Annual Report.	
1.2	A listed entity should: (a) undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director; and (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.	In each instance, appropriate background checks were carried out on each candidate prior to their appointment or nomination for election. Material information relevant to a decision about each candidate for election or re-election is contained in the Notice of Meeting.	
1.3	A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.	Directors and senior executives have written agreements setting out the terms of their appointment.	
1.4	The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.	The Board has access to the Company Secretary (who is accountable directly to the Board, through the Chair, on all matters to do with the proper functioning of the Board) and has procedures for the provision of information, including requests for additional information.	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
1.5	<p>A listed entity should:</p> <p>(a) have a diversity policy which includes requirements for the board or a relevant committee of the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them;</p> <p>(b) disclose that policy or a summary of it; and</p> <p>(c) disclose as at the end of each reporting period the measurable objectives for achieving gender diversity set by the board or a relevant committee of the board in accordance with the entity's diversity policy and its progress towards achieving them and either:</p> <p>(1) the respective proportions of men and women on the board, in senior executive positions and across the whole organisation (including how the entity has defined "senior executive" for these purposes); or</p> <p>(2) if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.</p>	No formal diversity policy has been established.	<p>Given the size and scope of the Company's operations, its business interests and the ongoing involvement of all directors it is not considered necessary that such procedures be formalised.</p> <p>Although there were no written policies disclosed, gender diversity is accepted and practiced within the Company.</p>
1.6	<p>A listed entity should:</p> <p>(a) have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and</p> <p>(b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.</p>	There have been no formal disclosure of the performance evaluation of the Board, committees, individual directors and key executives. No formal review has been undertaken.	Given the size of the Company and the involvement of all directors, a policy has not been implemented. However, the Board will continually monitor, review and discuss performance and implement changes where necessary.
1.7	<p>A listed entity should:</p> <p>(a) have and disclose a process for periodically evaluating the performance of its senior executives; and</p> <p>(b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.</p>	<p>The Chairman is responsible for approving the performance objectives and measures of other senior executives in consultation with the Board.</p> <p>The Board has adopted an on-going, self-evaluation process to measure its own performance and the performance of its committees.</p>	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
PRINCIPLE 2 - STRUCTURE THE BOARD TO ADD VALUE			
2.1	<p>The board of a listed entity should:</p> <p>(a) have a nomination committee which:</p> <p>(1) has at least three members, a majority of whom are independent directors; and</p> <p>(2) is chaired by an independent director, and disclose:</p> <p>(3) the charter of the committee;</p> <p>(4) the members of the committee; and</p> <p>(5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.</p>	<p>A separate nomination committee has not been formed.</p>	<p>The role of the nomination committee is carried out by the full Board. The Board considers that given its size, no efficiencies or other benefits would be gained by establishing a separate nominations committee.</p> <p>Membership of the Board is reviewed on an ongoing basis by the Board to determine if additional core strengths are required to be added to the Board in light of the nature of the Company's existing businesses and objectives.</p>
2.2	<p>A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.</p>	<p>When a Board vacancy occurs, the Board identifies the particular skills, diversity, experience and expertise that will best complement Board effectiveness, and undertakes a process to identify candidates who can meet those criteria.</p>	
2.3	<p>A listed entity should disclose:</p> <p>(a) the names of the directors considered by the board to be independent directors;</p> <p>(b) if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and</p> <p>(c) the length of service of each director.</p>	<p>During the period of the Annual Report, the independent members of the Board were:</p> <p>- Mr Raphael Tham</p> <p>- Mr Yano Lim (Independent non-executive director) From 9 November 2015 to present</p> <p>- Mr Michael Wee (Independent non-executive director) From 15 December 2017 to present</p> <p>An independent director is a non-executive director and:</p> <p>(a) is not a substantial shareholder of the company or an officer of, or otherwise associated directly with, a substantial shareholder of the company;</p> <p>(b) within the last three years has not been employed in an executive capacity by the company or another group member, or been a director after ceasing to hold any such employment</p> <p>(c) within the last three years has not been a principal of a material professional adviser or a material consultant to the company, another group member, or an employee materially associated with the service provided;</p>	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
		<p>(d) is not a material supplier or customer of the company or other group, member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer;</p> <p>(e) has no material contractual relationship with the company or another group member other than as a director of the company;</p> <p>(f) has not served on the board for a period which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the company;</p> <p>(g) is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the company.</p> <p>In accordance with the Council's definition of independence above, the following directors are considered to be independent at the date of this report:</p> <p>Mr Yano Lim and Mr Michael Wee are independent directors.</p>	
2.4	A majority of the board of a listed entity should be independent directors.	The Board comprises of two independent non-executive directors and one executive director (the Chairman & CEO).	
2.5	The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.	The Chairman is not an independent director and is also the CEO.	Given the size and scope of the Company's operations, the Board considers that there is no real benefit to be gained by appointing an independent chairman. Being a founder of the group, Mr Phua remains a driving force in the future of the Company.
2.6	A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.	The Board provides an appropriate induction program for new directors, which includes onsite visits in order to familiarise them to the Company's operations. Directors are encouraged to develop professionally in the necessary skills required to maintain relevant knowledge.	
PRINCIPLE 3 – ACT ETHICALLY AND RESPONSIBLY			
3.1	<p>A listed entity should:</p> <p>(a) have a code of conduct for its directors, senior executives and employees; and</p> <p>(b) disclose that code or a summary of it.</p>	<p>The Board acknowledges and emphasises the importance of all Directors and employees maintaining the highest standards of corporate governance practice and ethical conduct.</p> <p>A Code of Conduct has been established requiring the Directors and employees to:</p> <ul style="list-style-type: none"> - act honestly and in good faith; - exercise due care and diligence in fulfilling the functions of office; - avoid conflicts and make full disclosure of any possible conflicts of interest; - encourage the reporting and investigating of unlawful and unethical behaviour; - comply with the law; and - comply with the Securities trading policy outlined in the Code of Conduct. 	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation	Statement Commentary	Explanation of Departure with ASX Recommendation
PRINCIPLE 4 – SAFEGUARD INTEGRITY IN CORPORATE REPORTING		
<p>4.1 The board of a listed entity should:</p> <p>(a) have an audit committee which:</p> <p>(1) has at least three members, all of whom are non-executive directors and a majority of whom are independent directors; and</p> <p>(2) is chaired by an independent director, who is not the chair of the board, and disclose:</p> <p>(3) the charter of the committee;</p> <p>(4) the relevant qualifications and experience of the members of the committee; and</p> <p>(5) in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.</p>	<p>The Board has established an audit committee, which operates under a charter approved by the Board. It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations such as the benchmarking of operational key performance indicators.</p> <p>The Board has delegated the responsibility for the establishment and maintenance of a framework of internal control, ethical standards for the management of the Group, nomination of the external auditor and reviewing the adequacy of the scope and quality of the annual statutory and half yearly review or audit to the audit committee.</p> <p>The Audit committee is chaired by an independent director and has three members.</p> <p>The members of the audit committee were, at the date of the Annual Report, Mr Raphael Tham (non-executive director), Chairman, Mr Yano Lim (non-executive director), Member and Mr Michael Wee (non-executive director), member.</p>	
<p>4.2 The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.</p>	<p>The CEO and Company Accountant state in writing to the Board each reporting period that the Company's financial reports present a true and fair view, in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards.</p> <p>The statements from the CEO and Company Accountant are based on a formal sign off framework established throughout the Company and reviewed by the Audit Committee as part of the six-monthly financial reporting process.</p> <p>The CEO and Company Accountant state in writing to the Board each reporting period that:</p> <ul style="list-style-type: none"> - the financial records of the Company for the year have been properly maintained in accordance with section 286 of the Corporations Act 2001; - the financial statements, and the notes for the year comply with the accounting standards in all material respects; and - the risk management and internal control systems, to the extent that they relate to financial reporting, are operating effectively in all material respects based on the risk management model adopted by the Company. 	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
4.3	A listed entity that has an AGM should ensure that its external auditor attends its AGM and is available to answer questions from security holders relevant to the audit.	The senior engagement partner (or his representative) of the Company's external auditor, PKF Hacketts, attends the Company's Annual General Meetings (AGM) and is available to answer questions from shareholders about the audit. The Chairman advises the shareholders of this at the commencement of each AGM.	
PRINCIPLE 5 – MAKE TIMELY AND BALANCED DISCLOSURE			
5.1	A listed entity should: (a) have a written policy for complying with its continuous disclosure obligations under the Listing Rules; and (b) disclose that policy or a summary of it.	<p>The Board has adopted a Continuous Disclosure Policy to ensure the Company complies with its disclosure obligations under ASX Listing Rules and the Corporations Act.</p> <p>The Continuous Disclosure Policy is designed to meet market best practice, ensuring that company announcements are:</p> <ul style="list-style-type: none"> - made in a timely manner; - factual; - do not omit material information; - are expressed in a clear and objective manner that allow investors to assess the impact of the information when making investor decisions. 	
PRINCIPLE 6 – RESPECT THE RIGHTS OF SECURITY HOLDERS			
6.1	A listed entity should provide information about itself and its governance to investors via its website.	<p>The Board makes timely announcements in line with continuous disclosure obligations. The Board is conscious of the need to continually keep shareholders and the market advised. Accordingly, timely announcements are made which ensure that shareholders and the market are adequately informed about its activities.</p> <p>All announcements are also being posted on our website www.bypowergroup.com which is accessible by the public.</p>	
6.2	A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors.	The Chairman holds post results (full year and interim) meetings with financial analysts and institutional investors and brokers in Australia and internationally.	
6.3	A listed entity should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders.	<p>Shareholders are also encouraged to participate in the AGM to ensure a high level of accountability and identification with the Company's strategies and goals. Important issues are presented to shareholders as separate resolutions.</p> <p>Shareholders who are unable to attend the AGM may vote by appointing a proxy using the form included with the Notice of Meeting.</p>	
6.4	A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.	The Company gives Shareholders the option to receive communications from and send communications to the Company and its security registry electronically.	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation		Statement Commentary	Explanation of Departure with ASX Recommendation
PRINCIPLE 7 – RECOGNISE AND MANAGE RISK			
7.1	<p>The board of a listed entity should:</p> <p>(a) have a committee or committees to oversee risk, each of which:</p> <p>(1) has at least three members, a majority of whom are independent directors; and</p> <p>(2) is chaired by an independent director, and disclose:</p> <p>(3) the charter of the committee;</p> <p>(4) the members of the committee; and</p> <p>(5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.</p>	<p>There has been no written implementation of policy on risk oversight and management or for senior management to make statements to the Board concerning those matters.</p>	<p>Given the nature and size of the Company, its business interests and the involvement of all directors, it is considered unnecessary to establish this practice at this time; however, the principles are adopted in circumstances where an event or issue is deemed to require it.</p>
7.2	<p>The board or a committee of the board should:</p> <p>(a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and</p> <p>(b) disclose, in relation to each reporting period, whether such a review has taken place.</p>	<p>There has been no written implementation of policy on risk oversight and management or for senior management to make statements to the Board concerning those matters.</p>	<p>Given the nature and size of the Company, its business interests and the involvement of all directors, it is considered unnecessary to establish this practice at this time; however, the principles are adopted in circumstances where an event or issue is deemed to require it.</p>
7.3	<p>A listed entity should disclose:</p> <p>(a) if it has an internal audit function, how the function is structured and what role it performs; or</p> <p>(b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.</p>	<p>The Company utilises both external and internal resources to provide an internal control function.</p>	<p>The external auditors are requested to report any internal control issues that are identified in the course of review of the Company's half-year results and the audit for the full year results.</p>
7.4	<p>A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.</p>	<p>The Board believes that the Company does not have any material exposure to environmental and social sustainability risks. The Company, by the nature of the business it conducts has exposure to various economic risks which could affect the Company's results materially. Such risks include, but are not limited to, business risk, changes in law, asset impairment, litigation, contractual risk, foreign exchange movements, changes in taxation law, economic and financial market conditions in various countries and political risks.</p> <p>The Company manages these risks by recognising them, monitoring them and adopting business practices which it believes are best suited to countering or minimising these risks.</p>	

BYTE POWER GROUP LIMITED
And its controlled entities

Corporate Governance Council Recommendation	Statement Commentary	Explanation of Departure with ASX Recommendation
PRINCIPLE 8 – REMUNERATE FAIRLY AND RESPONSIBLY		
<p>8.1 The board of a listed entity should:</p> <p>(a) have a remuneration committee which:</p> <p>(1) has at least three members, a majority of whom are independent directors; and</p> <p>(2) is chaired by an independent director, and disclose:</p> <p>(3) the charter of the committee;</p> <p>(4) the members of the committee; and</p> <p>(5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.</p>	<p>The Remuneration Committee is responsible for reviewing and recommending compensation arrangements for the directors, the CEO and the senior management team. The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of such officers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high-quality Board and management team.</p> <p>The Remuneration Committee is chaired by an independent director and has three members.</p> <p>The members of the Remuneration Committee were, at the date of the Annual Report, Mr Alvin Phua (executive director), Chairman, Mr Yano Lim (non-executive director), Member and Mr Michael Wee (non-executive director), member.</p>	
<p>8.2 A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.</p>	<p>The Company has not disclosed remuneration policies for executive and non-executive directors.</p>	<p>Given the size and scope of the Company's operations, its business interests, remuneration and other benefits paid to its directors, the Board does not consider it yet to be necessary to formulate the policies. At the appropriate time, this approach will be re-evaluated.</p> <p>Remuneration for non-executive directors has been, and continues to be, in accordance with the general principles recommended by the ASX, that is, directors receive a fixed fee for their services and do not receive performance-based remuneration. To the extent that such directors perform services that exceed the commitment expected of them, they are eligible to receive additional fees. In 2017, the Board (including the non-executive Directors) were issued one-time performance bonuses.</p>
<p>8.3 A listed entity which has an equity-based remuneration scheme should:</p> <p>(a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and</p> <p>(b) disclose that policy or a summary of it.</p>	<p>The Company does not currently have an equity-based remuneration scheme.</p>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies

The financial report includes the consolidated financial statements and notes of Byte Power Group Limited ("the Company") and its controlled entities ("the Group"). The separate financial statements of Byte Power Group Limited as an individual entity ("the Parent entity") have not been presented within the financial report as permitted by amendments made to the *Corporations Act 2001*. The entity is a for profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report is presented in Australian dollars which is the Group's functional and presentation currency.

The principle accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented unless otherwise stated.

(a) Basis of Accounting

This general purpose financial report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001*.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Compliance with IFRSs

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB.

Going Concern

This financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activities and realisation of assets and discharge of liabilities in the ordinary course of business.

The consolidated entity has made a loss from continuing operations before tax of \$10,447,585 for the year ended 30 June 2018 (2017: profit of \$697,053). The consolidated entity was in a net current asset deficiency position of \$1,014,147 and net asset deficiency position of \$4,226,783 as at 30 June 2018 (2017: net current asset position of \$19,780,862 and net asset position of \$12,762,442).

Given the consolidated entity's net current liability position, the ability of the consolidated entity to continue as a going concern, including Byte Power Group Limited's ability to pay its debts as and when they fall due needs to be considered. The continuation of the consolidated entity as a going concern is dependent upon its ability to achieve the following:

- The continued support of major creditors and loans from the major shareholders;
- Obtaining an overdraft or working capital facility to assist the consolidated entity to pay its debts on a timely basis;
- Obtaining additional equity in the form of capital raising or longer term debt to enable the Group to fund operating and investing activities and cash flow requirements;
- Obtaining additional working capital in the form of cash receipts from the sale of other assets of the consolidated entity including the sale of BPX tokens to enable the consolidated entity to fund operating and investing activities cash flow requirements; and
- The generation of future positive cash flow by the underlying businesses.

It is on the basis of the Group's ability to secure the above arrangements, facilities and the generation of future profits, that the Directors have prepared the financial report on a going concern basis. In the event that the above arrangements and facilities are not entered into, there is significant uncertainty as to whether the Group will continue as a going concern and, therefore, whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements. The final report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(b) Principles of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable AASBs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities are included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 28 to the financial statements.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(c) Income Tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where (a) a legally enforceable right of set-off exists and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(d) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- Where the GST incurred on the purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; *and*
- Receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on the gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(e) Foreign currency transactions and balances

i. Functional and presentation currency

The functional currency of the controlled entities is measured using the currency of the primary economic environment in which that entity operates. The Consolidated Financial Statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

ii. Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the Consolidated Statement of Comprehensive Income.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity; otherwise the exchange difference is recognised in the Consolidated Statement of Comprehensive Income.

iii. Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each Statement of Financial Position presented are translated at the closing rate at the date of the balance sheet
- income and expenses for each Income Statement and Statement of Comprehensive Income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange difference are recognised in other comprehensive income

On consolidation, exchange differences arising from the transaction of any net investment in foreign entities and of borrowings are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

(f) Revenue Recognition

Revenue is recognised to the extent that the economic benefits will flow to the entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

- (i) **Sale of goods**
Revenue is recognised when the goods have been dispatched or has been provided to a customer pursuant to a sales order and the associated risks have passed to the carrier or customer.
- (ii) **Sale of services**
Maintenance revenue represents non-refundable maintenance fees earned.
- (iii) **Interest**
Control of the right to receive the interest payment.

All revenue is stated net of the amount of goods and services tax (GST).

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(g) Receivables

All trade debtors are recognised at the amounts receivable as they are due for settlement no more than 90 days from the date of recognition.

Collectability of trade debtors is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off. A provision for doubtful debts is raised where collection of the amount is no longer probable.

(h) Inventories

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Costs are determined on a first-in, first-out basis. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated cost necessary to make the sale.

(i) Impairment

Assets with an indefinite useful life are not amortised but are tested annually for impairment or whenever there is an indication of impairment. Assets subject to annual depreciation or amortisation are reviewed for impairment whenever events or circumstances arise that indicate that the carrying amount of the asset may be impaired. An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs to sell and value in use.

(j) Investments

All non-current investments are carried at the lower of cost and recoverable amount.

(k) Plant and Equipment and Depreciation

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The expected useful lives are as follows:

Plant and equipment	3 to 5 years
Motor vehicles	4 to 5 years
Office furniture and equipment	3 to 8 years

(l) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum lease payments of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as an expense on a straight-line basis.

The lease incentive liability in relation to the non-cancellable operating lease is being reduced on an imputed interest basis over the lease term at the rate implicit in the lease.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

Finance leases

Leases which effectively transfer substantially all of the risks and benefits incidental to ownership of the leased item to the Group are capitalised at the present value of the minimum lease payments and disclosed as property, plant and equipment under lease. A lease liability of equal value is also recognised.

If there is reasonable certainty that the Group will obtain ownership by the end of the lease term, the leased asset is depreciated over its useful life, otherwise leased assets are depreciated over the shorter of the estimated useful life of the assets and the lease term. Minimum lease payments are allocated between interest expense and reduction of the lease liability with the interest expense calculated using the interest rate implicit in the lease and charged directly to the Statement of Comprehensive Income.

The cost of improvements to or on leasehold property is capitalised, disclosed as leasehold improvements, and amortised over the unexpired period of the lease or the estimated useful lives of the improvements, whichever is the shorter.

(m) Payables

Liabilities for trade creditors and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods received, whether or not billed to the Group. Trade creditors are due for settlement no more than 30 to 60 days from the date of recognition.

Payables to related parties are carried at the principal amount. Interest, when charged by the lender is recognised as an expense on an accrual basis.

(n) Interest - Bearing Liabilities

Loans are carried at their principal amounts which represent the present value of future cash flows associated with servicing the debt. Interest, where applicable, is accrued over the period it becomes due and is recorded as part of the related loan.

(o) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(p) Employee benefits

Provision is made for employee entitlement benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave, sick leave and long service leave.

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts, based on remuneration rates which are expected to be paid when the liability is settled.

Employee benefits expenses and revenues arising in respect of the following categories:

- Wages and salaries, non-monetary benefits, annual leave, long service leave, sick leave and other leave benefits; *and*
- Other types of employee benefits are charged against profits on a net basis in their respective categories.

In respect of the Group, any contributions made to externally managed superannuation funds by entities within the Group are charged against profits when due.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(q) Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks, and short-term deposits.

For the purposes of the Statement of Cash Flows, cash includes cash on hand and in banks, and short-term deposits.

Bank overdrafts are carried at the principle amount. Interest is charged as an expense as it accrues.

(r) Contributed Equity

Issued and paid up capital is recognised at fair value of the consideration received by the company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity or as a reduction of the share proceeds received.

(s) Earnings per Share (EPS)

Basic EPS is calculated as net profit or loss attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted EPS is calculated as net profit or loss attributable to members, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; *and*
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(t) Intangible Assets – Software Development

Costs incurred in developing products or systems and costs incurred in acquiring software or licences that will contribute to future period financial benefits through revenue generation and / or cost reduction are capitalised as an intangible asset – software development. Similarly costs incurred on development projects (related to the design or testing of new or improved products) are recognised as intangible assets when it is probable that the project will, after considering its commercial and technical feasibility, be completed and deliver future economic benefits and its costs can be measured reliably. Amortisation will commence on capitalised costs upon project completion and the point at which the asset is ready for use, and a useful life will be determined at this point. Research expenditure is expensed as incurred.

(u) Intangible Assets – Cryptocurrency

Cryptocurrencies are indefinite life intangible assets initially recognised at cost. Cryptocurrencies are subsequently measured at Fair Value by reference to the quoted price in the appropriate active cryptocurrency market.

Increases in the Fair Value of the assets are credited to a revaluation reserve in equity. Decreases that offset previous increases are recognised against the revaluation surplus in equity with all other decreases being recognised in the profit and loss.

On disposal of cryptocurrencies the cumulative revaluation surplus associated with those currencies is translated directly to the retained earnings.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(v) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at either of fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense item in profit or loss.

i. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

ii. Financial liabilities

Non-derivative financial liabilities are subsequently measured at amortised cost.

Impairment

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(w) New and Amended Accounting Policies Adopted by the Group

In the current year, the group has adopted all new and revised Standards and interpretations issued that are relevant to its operations and effective for the current reporting period. This has had no impact on the financial results.

BYTE POWER GROUP LIMITED
And its controlled entities

1. Summary of Significant Accounting Policies (continued)

New Accounting Standards for Application in Future Periods

Accounting Standards issued by the AASB that are not yet mandatorily applicable to the Group, together with an assessment of the potential impact of such pronouncements on the Group when adopted in future periods, are discussed below:

AASB 9: Financial Instruments and associated Amending Standards (applicable for annual reporting periods beginning on or after 1 January 2018).

The Standard will be applicable retrospectively (subject to the provisions on hedge accounting outlined below) and includes revised requirements for the classification and measurement of financial instruments, revised recognition and derecognition requirements for financial instruments and simplified requirements for hedge accounting. The key changes that may affect the Group on initial application include certain simplifications to the classification of financial assets. AASB 9 also introduces a new model for hedge accounting that will allow greater flexibility in the ability to hedge risk, particularly with respect to hedges of non-financial items. Should the entity elect to change its hedge policies in line with the new hedge accounting requirements of the Standard, the application of such accounting would be largely prospective.

The directors anticipate that the adoption of AASB 9 will not affect the Group's financial instruments based on current operations.

AASB 15: Revenue from Contracts with Customers (applicable to annual reporting periods beginning on or after 1 January 2018, as deferred by AASB 2015-8: Amendments to Australian Accounting Standards – Effective Date of AASB 15)

When effective, this Standard will replace the current accounting requirements applicable to revenue with a single, principles-based model. Except for a limited number of exceptions, including leases, the new revenue model in AASB 15 will apply to all contracts with customers as well as non-monetary exchanges between entities in the same line of business to facilitate sales to customers and potential customers. The core principle of the Standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services. To achieve this objective, AASB 15 provides the following five-step process:

- identify the contract(s) with a customer;
- identify the performance obligations in the contract(s);
- determine the transaction price;
- allocate the transaction price to the performance obligations in the contract(s); and
- recognise revenue when (or as) the performance obligations are satisfied.

The transitional provisions of this Standard permit an entity to either: restate the contracts that existed in each prior period presented per AASB 108: *Accounting Policies, Changes in Accounting Estimates and Errors* (subject to certain practical expedients in AASB 15); or recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. There are also enhanced disclosure requirements regarding revenue.

The directors anticipate that the adoption of AASB 15 will not affect the Group's financial statements, based on existing revenue generating activities.

AASB 16: Leases (applicable for annual reporting periods beginning on or after 1 January 2019).

When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117: *Leases and related Interpretations*. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

New and Amended Accounting Policies Adopted by the Group (continued)

When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117 : *Leases* and related Interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases. The main changes introduced by the new Standard are as follows:

- recognition of a right-of-use asset and liability for all leases (excluding short-term leases with less than 12 months of tenure and leases relating to low-value assets);
- depreciation of right-of-use assets in line with AASB 116 : *Property, Plant and Equipment* in profit or loss and unwinding of the liability in principal and interest components;
- inclusion of variable lease payments that depend on an index or a rate in the initial measurement of the lease liability using the index or rate at the commencement date;
- application of a practical expedient to permit a lessee to elect not to separate non- lease components and instead account for all components as a lease; and
- inclusion of additional disclosure requirements.

The transitional provisions of AASB 16 allow a lessee to either retrospectively apply the Standard to comparatives in line with AASB 108 or recognise the cumulative effect of retrospective application as an adjustment to opening equity on the date of initial application.

Although the directors anticipate that the adoption of AASB 16 will affect the Group's financial statements, the process of assessing its impact remains ongoing as at the date of this report.

(x) Critical Accounting estimates and judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates & Key Judgements:

(i) Tax Losses not brought to account

The group is subject to income taxes in numerous jurisdictions. The determination of the group's provision for income tax as well as deferred tax assets and liabilities involves significant judgements and estimates on certain matters and transactions, for which the ultimate outcome may be uncertain. If the final outcome differs from the group's estimates, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

(ii) Provision for Doubtful Debts

The recognition of provisions involves assumptions about the probability, amount and timing of the inflow of resources embodying economic benefits. A provision is recognised to the extent that an inflow of economic benefits is probable, and a reliable estimate can be made. Due to the aging of Trade Debtors as at 30 June 2018, an impairment amount equating to 10% of the debtor ledger balance of debtors aged 6mths to 1yr, 50% of the debtor ledger balance of debtors aged between 1yr and 2yrs and 100% of all debtor balances over 2yrs was provided for in the event of amounts being non-recoverable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

1. Summary of Significant Accounting Policies (continued)

(iii) Valuation and Classification of Cryptocurrency

Valuation of Cryptocurrency

The value of Cryptocurrency is measured at fair value using the quoted price obtained from the Coinmarketcap exchange at balance date, translated from its denominated USD rate to an AUD rate.

Valuation of Cryptocurrency (continued)

This is considered to represent a quoted price in an active market for identical assets. Management has selected this exchange as it is a major Soar coin exchange with appropriate size and liquidity to provide reliable evidence of fair value for the size and volume of transactions that are reasonably contemplated by the Group.

Soar coins have a fixed supply in the market. Accordingly, there are not currently significant volumes of trades of Soar coins which creates significant volatility in the underlying quoted price of Soar coins. This volatility in price can have a material impact on the total value of coins presented at any point in time.

Classification of Cryptocurrency

Cryptocurrencies are considered to be identifiable non-monetary assets without physical substance. The group has determined that cryptocurrencies held are treated as intangible assets under the scope of AASB138: *Intangible Assets*.

Soar coins held have been classified as a current intangible asset as it is expected that management will substantially dispose of or liquidate the coins held during the twelve months from balance date. This assumption relies on the ability of the Group to obtain acceptance of the coins in securing extinguishment of creditors and to liquidate the coins to other cash and cash equivalents. There is inherent risk associated with both of these activities due to the acceptance of cryptocurrency by market participants, and the ability of the Group to liquidate coins for an acceptable price on an exchange where significant volumes are not currently traded.

(y) **Share-based Payments**

Share-based payments are recognised based on the last traded price of shares on the Australian Stock Exchange at the grant date or on the date the Notice of Meeting was finalised. Where the share-based payments give rise to the issue of new share capital, the fair value determined for the share capital issued in lieu of cash payments, is credited to share capital.

Loss on Settlement - Cryptocurrency	4,734,364	-

In January 2018, Soar Labs transferred an aggregate of 213,785,594 soarcoins from cryptocurrency wallets owned by BPG, BPPL and Alvin Phua into a cryptocurrency wallet owned/controlled by Soar Labs Pte Ltd ("Soar Labs"). The Group was subsequently notified by Soar Labs that the soarcoins had been temporarily suspended based on a number of allegations made by Soar Labs. The Directors conservatively elected to record a provision for impairment relating to intangible assets (cryptocurrency) as at 31 December 2017 of \$6.69 million.

The Group subsequently commenced legal proceedings against Soar Labs in the High Court of the Republic of Singapore and on 9 February 2018 were granted Proprietary and Mareva injunctions freezing the assets of Soar Labs. On 24 May 2018, the parties entered an agreement to settle the dispute, whereby Soar Labs agreed to pay BPG, BPPL and Alvin Phua an equivalent of US\$1.85 million in cash and cryptocurrencies in three tranches over a twelve-month period. Soar Labs also agreed to transfer the 49% minority interest it held in BPPL to BPG for no consideration.

The settlement proceeds distribution was agreed between BPG, BPPL and Mr Phua and was based on the percentage of Soar Coins suspended held by each party.

4. Expenses (continued)

To reflect the nature and substance of the outcome of the transactions, the net of the previous impairment recognised on cryptocurrency and the fair value of the settlement received has been labelled 'Loss on Settlement – Cryptocurrency'.

CONSOLIDATED
2018 2017
\$ \$

5. Income Tax Expense

The prima facie tax, on operating loss differs from the income tax provided in the financial statements as follows:

Profit / (loss) for the year	(10,447,585)	697,053
Prima facie tax on profit / (loss) from continuing operations at 27.5% (2017: 27.5%)	(2,873,086)	191,690
Tax effect of profit / losses of current period not brought to account	2,873,086	-
Tax losses utilised	-	(191,690)
Income tax expense / (benefit)	-	-
Unused tax losses for which no deferred tax asset has been recognised	35,151,899	24,704,314
Potential tax benefit at 27.5%	9,666,772	6,793,686

All unused tax losses were incurred by Australian entities. A deferred tax asset relating to available income tax losses will only be recognised if:

- a) Future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- b) The conditions for deductibility imposed by tax legislation continue to be complied with; and
- c) No changes in tax legislation adversely affect the Group in realising the benefit.

Byte Power Group Limited and its wholly owned Australian controlled entities have decided to implement the tax consolidation legislation as of 27 November 2002. The Australian Taxation Office has been notified of this decision.

6. Parent entity financial information (continued)

Contingent liabilities

The Parent entity has not provided for any contingent liabilities for the year ending 30 June 2018. Byte Power Group Ltd is working with ASIC on its continuing investigations into the Company's disclosure requirements. Should there be any findings against the Company this may result in fines applied to the Company. There were no contingent liabilities for the year ended 30 June 2017.

During the year ended 30 June 2017, the Group successfully negotiated the timing of settlement of short and long-term liabilities at a discounted rate provided that the Group complied with payment terms outlined in the agreement. Should the Group be unable to comply with the payment terms in the agreement, the Group may be liable for the original full liability or a renegotiated amount. The Directors are not able to reliably determine the extent of any additional liability at this point, should non-compliance occur.

Commitments

The Parent entity entered into a Commercial Tenancy Agreement for its headquarters situated at 43 Nariel Street, Albion. The term of the Agreement is 3 years commencing on the 1st July 2018. The annual rental is \$60,000 gross + gst and is subject to an annual rent review including an increase of rental of 3% per annum or CPI (whichever is greater).

	<u>3,855,149</u>	<u>4,531,036</u>

The Group has significant concentration of credit risk with respect to any single counterparty or group of counterparties, specifically Soar Labs Pte Ltd. The other main source of credit risk to the Group is considered to be related to the class of assets described as Trade and other receivables.

On a geographic basis, the Group has significant credit risk exposures to China and Singapore given the substantial operations in the region. The Group's exposure to credit risk for receivables at reporting date to those regions is as follows.

Australia	3,711	1,394
Singapore	1,529,320	-
China	5,577,983	5,323,988
Provision for impairment	<u>(3,255,865)</u>	<u>(794,346)</u>
	<u>3,855,149</u>	<u>4,531,036</u>

Provision for impairment of receivables

Current trade receivables are non-interest bearing loans and generally on 90-day terms. A provision for impairment is recognised when there is objective evidence that an individual trade receivable is impaired. These amounts have been included in the other expenses item. Movement in the provision for impairment of receivables is as follows (refer to policy in note 1 (x)(ii)):

(ii) Key Management Personnel Compensation

Short term employee benefits	302,228	355,937
Post employment benefits	27,723	32,159
Share based payments	830,000	-
	1,159,951	388,096

The Group paid equity settled share-based payments to directors of Byte Power Group Ltd during the financial year ending 30 June 2018. This was in accordance with a resolution passed by shareholders at the 2017 Annual General Meeting ("AGM"). The fair value of these equity settled transactions was determined at 0.1 cent based on the last traded price of shares on the Australian Stock Exchange on the date the Notice of Meeting was finalised. Where the share-based payments give rise to the issue of new share capital, the fair value determined for the share capital issued in lieu of cash payments, is credited to share capital.

Treasure Hive Honey Pty Ltd*	Australia	Ordinary	100	100
Byte Power X Pty Ltd****	Australia	Ordinary	100***	-

* These companies are classified as small proprietary companies under the *Corporations Act 2001* and therefore are not required to prepare or lodge accounts.

^ These companies are incorporated overseas.

** Due to the passive nature of the non-controlling interest in these subsidiaries, and arrangements in place with the other shareholders, the Group accounts for both entities on the basis that it has 100% ownership of each company.

*** New shares were issued during the 2017 / 2018 Financial Year which constituted 49% of the issued capital of the company for US\$5M which diluted Byte Power Group Ltd's holding to 51%. Byte Power Group Ltd acquired these shares on 24 May 2018 as part of the settlement with Soar Labs Pte Ltd (refer to Note 4).

**** Byte Power X Pty Ltd was incorporated on 15th February 2018. Byte Power Pty Ltd owns all issued capital of Byte Power X Pty Ltd.

29. Related Party Transactions

Ultimate parent

Byte Power Group Limited is the ultimate Australian parent entity.

Director-Related Entity Transactions

All transactions with related parties were made on normal commercial terms and conditions except where stated, and are as follows:

Current Related Party Liabilities

The current related party payables represent amounts payable to director's related entities within the next 12 months as at 30 June 2018.

Current Non-Interest Bearing Related Party Payables

Related party payables represent the amount payable to director's related entities. These are provided on interest free terms.

BYTE POWER GROUP LIMITED
And its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2018

29. Related Party Transactions (continued)

Non-Current Interest Bearing Related Party Liabilities

Mr Alvin Phua (related party) and Ms Ethel Lau provided vendor finance to Willhart Limited (now "BPG") pursuant to a loan agreement dated 26 November 2002 for \$3,400,000 (Tranche 1 amount), \$1,500,000 (Tranche 2 amount) to enable BPG to complete the Share Sale Agreement. The same parties also provided vendor finance to BPG for \$1,095,000 in relation to the purchase of inventory.

These unsecured loan funds have been provided at a floating interest rate which is 2% above the prime lending rate and interest for the period amounted to \$246,136 (2017: \$226,837). As at 30 June 2018, the outstanding loan balance was \$2,188,760 (2017: \$2,071,414) after repayments during the year of \$128,790 (2017: \$0). Interest outstanding as at 30 June 2018 totals \$1,229,254 (2017: \$1,111,907).

The Non-Current Interest Bearing Related Party Liability relates to Mr Alvin Phua's principal and interest component of the loan as at 30 June 2018.

Non-Current Non-Interest Bearing Related Party Payables

Related party payables represents the amount payable to director's related entities. These are provided on interest free terms.

30. Segment Information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and in determining the allocation of resources.

The Group is managed primarily on the basis of individual subsidiary investment since the diversification of the Group's operations inherently have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis. As such operating segments have been determined to be:

Power Management

Supply state of the art power management technology including UPS devices and services and primarily sells into large corporations and hospitals.

IT&T

Provides IT consulting services, IT products trading and cryptocurrency exchange services.

Asian Business Division

Focusing on the wine and organic honey export business as well as pursuing both investment and business trade opportunities in Asia.

Other

All other operations of the Group.

Disclosure of Major Customers

The Group's revenues from three customers accounted for \$1,147,983 or 98.6% of total sales revenues in the twelve months ended 30 June 2018. The revenue is predominantly generated by Wine Power Pty Ltd in Australia.

The following is an analysis of the revenue and results for the years ended 30 June 2018 and 30 June 2017, analysed by operational segment.

32. Subsequent Events

On the 19th July 2018, Byte Power Group Ltd advised through an ASX release that BPG would be undertaking a token generating event for the Byte Power X Pty Ltd loyalty token. These tokens are utility tokens relating to the loyalty program for users of the Exchange which provides a discount on commissions for users of the Byte Power X Cryptocurrency Exchange. As at 19 September 2018 a total of US\$494,965 has been received as deposits for the purchase of the BPX tokens. The Group plans to raise up to A\$12M from the sale of these BPX tokens.

Other than the matters referred to above, no matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

33. Financial Instruments

(a) Credit Risk Exposures

The Group's maximum exposure to credit risk at reporting date in relation to each class of recognised financial assets is the carrying amount, net of any provision for doubtful debts, of those assets as indicated in the Statement of Financial Position.

Trade and other receivables that are neither past due nor impaired are considered to be of high credit quality.

(b) Interest Rate Risk

The Group's exposure to interest rate risk and the effective weighted average interest rate for each class of financial asset and financial liabilities is set out in the following table.

Exposures arise predominantly from assets and liabilities bearing variable interest rates as the Group intends to hold fixed rate assets and liabilities to maturity.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Byte Power Group Limited, in the opinion of the directors of the company:

1. the financial statements and notes, as set out on pages 28 to 59, are in accordance with the Corporations Act 2001 and:
 - a. comply with Australian Accounting Standards, which, as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and
 - b. give a true and fair view of the financial position as at 30 June 2018 and of the performance for the year ended on that date of the consolidated group;
2. there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
3. the directors have been given the declarations required by s 295A of the Corporations Act 2001 from the Chief Executive Officer and Chief Financial Officer (or equivalent).

Alvin Phua
Executive Chairman & CEO

Brisbane, 28 September 2018

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BYTE POWER GROUP LIMITED

Report on the Financial Report

Opinion

We have audited the accompanying financial report of Byte Power Group Limited (the company), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company and the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

In our opinion, the financial report of Byte Power Group Limited is in accordance with the Corporations Act 2001, including:

- i) Giving a true and fair view of the consolidated entity's financial position as at 30 June 2018 and of its performance for the year ended on that date; and
- ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the Auditor's Responsibility section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

Without modifying our opinion, we draw attention to the following matter:

As outlined in Note 1, the consolidated group has recorded a net current asset deficiency as at 30 June 2018 of \$1,014,147. This, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.

Independence

We are independent of the consolidated entity in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

1. Valuation of trade receivables

Why significant

As at 30 June 2018 the consolidated entity recorded trade and other receivables of \$3,855,149 (2017: \$4,531,036) net of provision for impairment of \$3,255,865 (2017: \$794,346). The receivables are denominated in both Australian dollars (AUD) and Chinese Ren Min Bi (RMB). This represents 91.3% of total assets of the consolidated entity.

As outlined in Note 8, \$5,581,694 (2017: \$4,201,307) of trade receivables were over 90 days overdue, \$2,325,829 of which have not been provided against at balance date.

This is a key audit area due to significance of the value of trade debtors to the group's financial position, and the significant estimates required in determining the net realisable value of the receivables.

The consolidated entity's accounting policy in respect of receivables is outlined in Note 1(g) with critical accounting estimates and judgements in relation to impairment of receivables outlined in Note 1(w)(ii). The policy and estimates used in the current year are consistent with prior year.

How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- Testing the mathematical accuracy of receivables balances converted to AUD.
- Obtaining confirmations on a sample basis directly from customers confirming balances owing to the consolidated entity at 30 June 2018;
- Vouching, on a sample basis, subsequent receipts of trade receivables to bank statements;
- Assessing and challenging key estimates and judgements used by the consolidated entity in determining the recorded provision for impairment.
- Assessing the appropriateness of disclosures in relation to receivables and provision for impairment.

We considered the adequacy of the consolidated entity's receivables accounting policy and assessed compliance with the policies in terms of applicable Australian Accounting Standards.

2. Accounting for suspended soarcoins and settlement with Soar Labs

Why significant

During the year ended 30 June 2018, the Group recorded in the profit and loss a 'loss on settlement – cryptocurrency' of \$4,734,364. The circumstances giving rise to this loss have been disclosed in Note 4 to the financial statements.

Various assumptions were made by management in the determination of the loss recorded based on events which occurred during the financial year.

This area is a key audit matter due to the significant size of the loss, the degree of management estimates and judgement required, including determination of the fair value of the cryptocurrency involved, and the impact of these judgements on the annual report disclosures.

The Group's accounting policy in relation to valuation and classification of cryptocurrency is outlined in Note 1(u) and Note 1(x)(iii).

How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:-

- Reviewing legal documentation and correspondence, the settlement agreement and other publicly available company announcements during the year in relation to the events disclosed in Note 4.
- Agreeing balances of cryptocurrency held to digital wallets and livecoin holdings;
- Assessing managements' calculations, accounting treatment and valuation of the cryptocurrency held at the time the Company lost control of the assets, and at the time the assets were returned to the Company;
- Obtained external technical assistance and reviewed other available accounting guidance to confirm managements' accounting treatment and accounting policies for cryptocurrency (in Notes 1(u) and 1(x)(iii)) are materially consistent with international financial reporting standards ('IFRS').

3. Accounting for the acquisition of additional 49% interest in Byte Power Pty Ltd

Why significant

As outlined in Note 28(iii) during 2018, the consolidated entity re-acquired 49% of shares in a subsidiary, Byte Power Pty Ltd ('BPPL') as part of settlement compensation with Soar Labs Pte Ltd, for nil consideration. The Group now owns 100% of BPPL and no non-controlling interest ('NCI') is recorded at 30 June 2018.

This is a key audit area due to the significant impact to the statement of financial position of the Group resulting from the transaction, which resulted in the de-recognition of non-controlling interest of \$1,141,490 during the year.

The circumstances giving rise to the re-acquisition of shares in BPPL are outlined in Note 4. The Group's accounting policy on consolidation is outlined in Note 1(b).

How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- Reviewing legal documentation and correspondence, the settlement agreement and other publicly available company announcements during the year in relation to the events disclosed in Note 4;
- Verifying the updated ownership of Byte Power Pty Ltd through obtaining company extracts from the Australian Securities and Investment Commission;
- Assessing the accounting treatment and disclosure for the change in NCI for consistency with the principles of AASB 10 Consolidated Financial Statements;

- Assessing the adequacy of the disclosures in Note 1(b) and Note 28(iii).

Other Information

Other information is financial and non-financial information in the annual report of the consolidated entity which is provided in addition to the Financial Report and the Auditor's Report. The directors are responsible for Other Information in the annual report.

We have obtained all the Other Information prior to the date of this Auditor's Report, which includes the Chairman's report, Review of Operations, Director's Report, Corporate Governance and Shareholder Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, the auditor does not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information in the Financial Report and based on the work we have performed on the Other Information that we obtained prior the date of this Auditor's Report we have nothing to report.

Directors' Responsibilities for the Financial Report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the Directors are responsible for assessing the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using a going concern basis of accounting unless the Directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individual or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the consolidated entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated entity to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the consolidated entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Byte Power Group Limited for the year ended 30 June 2018, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
