CIO AWARDED LISTING ON THE TEXAS STATE DIR CONTRACT

HIGHLIGHTS

- **Connected IO products now available on the Texas DIR Contract with Complete Tablet Solutions**
- **State, County and local agencies now have access to complete product portfolio**

Irving, TX - July 15, 2019 Connected IO (**CIO**), a leading provider of robust cloud connected wireless edge solutions today announces that it has been awarded listing on the Texas State DIR contract (DIR-TSO-4369) with our partner Complete Tablet Solutions (**CTS**). The Texas Department of Information Resources (**DIR**) provides technology leadership, solutions, and value to Texas state government, education, and local government entities to enable and facilitate the fulfillment of their core missions. This is a new significant sales channel for the Connected IO portfolio of programable modems, edge routers, and Cloud-IO management portal provide connected 4G and 5G solutions in the area of Network Failover, Digital Signage, Kiosks, Traffic Control, Public Safety, and Disaster Response.

“The Connected IO products are well suited to meet the diverse needs within the State of Texas”, said Tom Hunt, Chief Marketing Officer, Connected IO. “The CTS team has vast experience in mobility solutions and will work closely with the various government groups to provide innovative solutions that make state and local government services more accessible to their citizens.”

“Connected IO has a good mix of products that are in demand within Texas”, said Jonathan Smith, VP of Sales and Business Development at CTS, We are looking forward to working together to build connected smart cities across the state.”
