ASX Announcement / Media Release

MAJOR US RETAIL SOLUTIONS COMPANY SELECTS CIO PRODUCTS

HIGHLIGHTS

- **Sennco a US leader in retail asset protection has selected CIO to provide routers and cloud management capabilities**
- **CIO secures another commercial opportunity that has potential for significant scale in the US retail sector**

Irving, TX - July, 2019 Connected IO Limited (“CIO”), a leading provider of robust cloud connected wireless edge solutions today announces that they have been selected by Sennco Solutions, Inc (“Sennco”), a US based leader in retail asset protection to provide routers and cloud management capabilities to their portfolio of retail customers.

Sennco will leverage the agile hardware, software and services provided by CIO to deliver next generation shopping and security experiences to their customers.

About Sennco

Sennco strives to maximise security and operational excellence for the products in the retail display, while also elevating sales through functional and innovative solutions. Their unique approach to retail security and management has positioned Sennco as a thought leader in the evolution of retail asset protection. Sennco is based just outside of Chicago, IL and has been in the retail security industry for over 18 years. To learn more about Sennco please visit Sennco.com.

“Sennco is providing innovative retail solutions that will transform how retailers think about display security and loss prevention strategies” said Yakov Temov CEO of CIO. “We are happy to work with the Sennco team as they deliver the next generation retail solutions.”

For personal use only

“We need a partner who could provide a reliable and secure hardware and cloud platform that we could use to deliver our solutions with” said Chris Marszalek, Sennco’s President. “We worked very closely with the team at Connect IO who have extensive experience delivering connected solutions.”

About CIO -

CIO is a leader in cloud connected wireless edge solutions for mobile, machine to machine, and IoT networks. CIO’s Cloud-IO management portal provides the foundation to manage 4G and 5G services with secure, reliable control of your devices and applications. The CIO family of programmable modems and edge routers are innovative, secure and affordable, making them the preferred choice of businesses in the US. CIO is a Texas based company with offices in Silicon Valley and Australia. Get Connected! www.connectedio.com.au
