## Overview

Throughout the first half of the year, Alternative Investment Trust ("AIT" or the "Trust") continued its steady progress of simplifying its structure. The key achievements included:

- Completion of the unwind of the legacy swap;
- Further reduction of operating costs;
- Distributions from Warana 2018 totalling US\$0.66 million or 20.2% of the committed capital; and
- Post 30 June 2019, the completion of a 1 for 1 Rights Offer.

The unwind of the legacy total return swap is now complete. AIT now owns all assets in the portfolio directly which has resulted in a simpler and more cost efficient structure.

On 14 August 2019, AIT completed a 1 for 1 non-renounceable rights issue ("Rights Issue") that raised approximately A\$11.8 million, bringing the Trust's pro forma cash position to A\$15.9 million (as at 21 August 2019) and total net assets to A\$25.4 million<sup>1</sup>. This was another important step in increasing the scale of the Trust to improve its overall economics and to allow it to continue to broaden its investment portfolio.

The Trust also announced its intention to recommence paying distributions to unitholders. Subject to cash reserves, the Trust will target paying 5% of the Trust's net asset value ("NAV") per annum, which will be paid in semi-annual instalments following the release of the half and full year results, respectively. AIT has also introduced a distribution reinvestment plan to allow existing investors to reinvest their distributions into the Trust without incurring brokerage.

## The Investment Portfolio

The Trust's portfolio as at 30 June 2019 had a net tangible asset backing per unit of \$0.1048<sup>2</sup>. Note that since the Rights Issue was completed subsequent to 30 June it is not included in the below.

AIT Investment Portfolio <sup>3</sup>	A\$ mm	%
Warana 2018 Fund <sup>4</sup>	4.71	34.94%
Legacy AIT Funds	2.37	17.58%
King Street Real Estate Fund (Offshore PF), LP	1.00	7.42%
Warana Co-Investment Fund I	0.35	2.60%
Unfunded Capital Commitments <sup>5</sup>	1.47	10.91%
Other Net Cash	3.58	26.56%
<b>Total</b>	<b>13.47</b>	<b>100.00%</b>

The Legacy AIT Funds are the tail end positions that have been included in AIT for several years now. Each continues in wind down, returning capital as available, and have now all transferred to direct ownership by the Trust, as described previously. These assets have valuations provided by the underlying fund managers and in each case these are audited. We, however, believe there is uncertainty that the Trust will recover the full net asset value of these funds as several involve complex situations in emerging market geographies.

The Trust has been actively increasing its absolute return fund portfolio via exposure to the Warana 2018 Fund. As at the date of this report, Warana 2018 Fund was approximately 74% called and had agreed 74 transactions to acquire over 170 distinct funds and 3 direct assets at an average price of approximately 50% of underlying manager NAV. Subsequent to 30 June 2019, Warana 2018 Fund made its final capital call, which has now been paid by the Trust. The Warana 2018 Fund is tracking to an internal rate of return of greater than 20%, but the portfolio is still subject to change as not all purchases have settled.

The King Street Real Estate Fund (Offshore PF), LP ("KS Fund") is an opportunistic global real estate fund which aims "to produce attractive, risk adjusted returns throughout diverse market environments – with a focus on situations which are out of favour, complex, misunderstood and / or in transitional markets." The KS Fund has made 13 investments across Europe and the US and was approximately 65% called at quarter end. It is expected that the remaining balance will be called over the next 12-18 months to fund improvements on these assets. KS Fund performance has been modestly positive to date with a fund net multiple of investor capital (net of fees) of 1.1x.

AIT's investment in Warana Co-Investment Fund I ("WCF I") holds one asset, a minority position in an eastern European broadband and telecom company that was sold by an absolute return fund in the final stages of its wind down for a low single digit EBITDA multiple. WCF I is an investor alongside some high profile private equity and investment firms. The business is performing well and has EBITDA in excess of US\$20 million. A successful exit will require a continued improvement in business investment in the region and continued improvements in the geopolitical environment.

(5) Figure is net of 5% capital commitment to Warana 2018 Fund that has been waived.

## New Investments

Given the Trust's recent capital raise and projected near term liquidity, Warana Capital Pty Limited ("Investment Manager" or "Warana") has agreed two new allocations totalling US\$11 million. As described in the recent Rights Issue related materials, the primary allocation of the Trust's new capital will be to the next Warana fund, Warana 2019 Fund, which will continue Warana's strategy of investing in illiquid investment funds purchased in the secondary market at discounts to their reported valuations. AIT has committed US\$10 million to Warana 2019 Fund – an initial capital call of 10% has now been paid by the Trust, and a further 20% is expected to be called in the near term.

Additionally, AIT has made a US\$1.0 million commitment to a transaction that is in the process of closing. The transaction involves the purchase of two absolute return funds primarily with an exposure to a US transport infrastructure asset managed by a large US funds management business. The average price of this transaction is approximately 51.6% of the manager quoted 2018 year-end net asset value. The transaction is in the documentation phase and, as a result, may not proceed to completion. Further information will be provided once the transaction closes.

## Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Alternative Investment Trust (the Trust), which comprises the statement of financial position as at 30 June 2019, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

## Directors' Responsibility for the Half-Year Financial Report

## Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Trust's financial position as at 30 June 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

## Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Alternative Investment Trust is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Trust's financial position as at 30 June 2019 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

### Emphasis of Matter – Uncertainty in Relation to Valuation of Investments

We draw attention to Note 7 in the financial report which describes the basis upon which the fair value of the Investments in Funds and Unlisted Unit Trusts has been determined and the conditions of the underlying investment funds and trusts. The liquidity and the uncertainty of the timing of redemptions from the underlying investments indicate the existence of a material uncertainty that may cast significant doubt about the valuation and recoverability of the Investments in Funds.

The financial report does not include any adjustments relating to the valuation and recoverability of the Investment in Funds. Our opinion is not modified in respect of this matter.

### Trust Investments

The Trust has direct exposure to the absolute return funds. The fair value of these assets was based on the net asset value information received from the underlying fund's administrator, and, where appropriate, estimated performance data from the underlying fund's manager. These fair values were reconciled monthly by the Trust's third party administrator and any changes in fair value reviewed for reasonableness by the Investment Manager.

### Investments in Funds and Unlisted Unit Trusts

The Trust has investments in WSPOF 2018, Warana Co-Investment Fund 1 ("WCF I"), AIT Sub-Trust No. 1 and One HF Trust.

### Fair Value Hierarchy

Financial instruments carried at fair value are categorised under a three level hierarchy. Financial instruments are categorised based on the observable market inputs when estimating their fair value. If different levels of inputs are used to measure a financial instrument's fair value, the instrument's classification within the hierarchy is based on the lowest level of input that was significant to the fair value measurement.

The investments in funds and unlisted unit trusts are classified under level 3 as valuations are based on the net asset values of those funds and unit trusts.

**7. Investments in Financial Instruments (continued)****Fair Value Hierarchy (continued)**

The following table shows an analysis of financial instruments held at 30 June 2019, recorded at fair value and presented by level of the fair value hierarchy:

	30 June 2019			Total \$'000
	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	
<b>Financial assets</b>				
Investment in funds	-	-	8,422	8,422

Investment in unlisted unit trusts	-	-	18	18
<b>Total financial assets held at fair value through profit or loss</b>	-	-	7,955	7,955

There were no transfers between levels 1, 2 and 3 for recurring fair value measurements during the half-year. The Responsible Entity and Investment Manager assess hierarchical classification at each reporting date.

**Valuation techniques used to derive level 1, level 2 and level 3 fair values****Level 1**

The fair value of financial instruments that are traded in an active market (for example, listed equities) is determined using the last traded quoted price in an active market. As at 30 June 2019 the Trust had \$Nil (31 December 2018: \$Nil) financial assets held at fair value through profit or loss included in level 1.

**Level 2**

The fair value of financial instruments that are not traded in an active market (for example, unlisted investments) is determined using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. As at 30 June 2019 the Trust had \$Nil (31 December 2018: \$Nil) financial instruments in level 2.

**Level 3**

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. As at 30 June 2019 the Trust had \$9,048,000 (31 December 2018: \$7,955,000) financial assets held at fair value through profit or loss included in level 3. The instruments are valued using published redemption prices. The values have not been adjusted for liquidity as the Investment Manager is in regular contact with underlying investment managers and deem the current values reasonable.

Financial assets measured on a recurring basis using significant unobservable inputs (Level 3) are shown below:
