30 August 2019

Aeris Environmental Ltd (ASX:AEI) (Aeris or the Company) today releases its 2018-19 financial year results in the Preliminary Final Report (Appendix 4E).

### Highlights – Financial

- **Record invoiced sales revenue of \$6,851,000 – over 250% increase year-on-year with a strong forward sales order book.**
  - Large-scale mould remediation projects in Townsville, Queensland, with the Company as master contractor, invoiced a total of \$3,127,000, which was a combination of full margin product sales and low margin project management, in FY2019. Customers and insurance companies have noted outstanding efficacy and performance of Aeris' products in this large-scale application.
  - The Company's USA division invoiced over \$500,000 in the last quarter of FY2019. It is anticipated that revenue in the USA will grow to become a material component of Aeris' sales mix in FY2020 due to expanded sales channels, The Goodman Global Group, Inc. (Goodman) re-orders, new client wins and significantly-expanded product offering.
  - The Company's business in China commenced in the second half of FY2019. Aeris' distributor in China has undertaken significant investment in marketing, sales and promotion. Revenue for the pre-launch initial purchases in FY2019 was \$485,000, and it is anticipated that these will scale as the Company's programme rolls out.
  - \$2,739,000 in revenue was recorded from clients in Asia, the Middle East, Europe and Australia at attractive margins.
- **Operating loss – adjusted for one-off and abnormal items – \$3,041,000 down 15% year-on-year** despite investment in the establishment of North American operations and including research & development (R&D) expenditure of \$612,000.
- **FY2019 sales** reflected a mix of 'white label' products supplied to original equipment manufacturers (OEMs) and project work, blended with the higher margins from the Aeris branded products. The Company anticipates that there will be a positive impact on margins as the core Aeris range forms a greater part of the revenue mix going forward.
- **Budgeted operating expenses for FY2020 are targeted at less than \$5,000,000 per annum (including forecast R&D of \$500,000 less ATO cash-back). This operating expenditure budget provides expanded capability and cost savings of \$1,500,000 over the FY2019 year.** It is anticipated that growth in operating expenses will remain modest whilst sales revenue is projected to grow significantly. The Company now has in place a series of strategic relationships that provide highly cost-effective distribution capability across all Aeris' major markets, with recent emphasis on contracts in the USA and in Europe. This includes an expanded management and sales team in North America.

### Highlights – Commercial

- **Signed and commenced worldwide strategic alliance with Goodman, a division of Daikin Industries, Ltd.** The Company's USA-produced air-conditioning maintenance range was launched in North America across 210 stores and to over 80,000 contractors.
- **Scale-up of new manufacturing and supply chain** operations in the USA in support of growth in revenue in multiple key international markets.
- **First shipments of new Southern Cross hygiene** range to Aus Made Express International Group Pty Ltd for the Greater China market.
- **BUNZL (leading global distributor of cleaning products, catering supplies, food production and health hygiene products) Memorandum of Understanding** signed, including a joint marketing and new product development roadmap. Initial revenue and a joint marketing activity have been successfully established.
- **First commercial order from Carrier in the Philippines** (following over two years of testing) to supply corrosion coating for factory application to coils for brand new residential and commercial air-conditioning units.
- **Disruptive new business model** for corrosion protection, supported by several key technical advances providing a large-scale global OEM, on-site and after sales service markets.
- **Strategic opportunities are being addressed** in measurement, and data visualisation, control and optimisation.
- **Revenue is scaling strongly in multiple divisions and territories**, with key commercial partnerships in place, and now generating quarter-on-quarter growth.
- **Increasing customer recognition of the financial benefits, effectiveness, safety, and environmental and health benefits from the Aeris portfolio of solutions.**

### Highlights – Working Capital

- **Full year cash receipts of \$5,008,000**, with an additional amount of \$1,655,000 received in July 2019 (post-June 2019 year end).
- **\$3,468,000 cash-on-hand, with an additional \$1,500,000 in net receivables** (trade debtors less creditors) at the end of the June 2019 financial year.
- **Additional cash investment in inventory of \$454,000 (total \$770,000)** reflecting increasing activity in the USA, Australia and south-east Asia.
- **FY2019 normalised net operating cash outflow of \$3,974,000, after \$440,000 of one-off and abnormal items added back.**

### Highlights – Share Placement, Share Purchase Plan and Loan Repayment

- **Share placement of \$7,200,000 and Share Purchase Plan of \$257,000** for a total of \$7,457,000 made to a new cornerstone strategic investor group and existing shareholders of the Company.
- **Directors' loans of \$1,500,000 were converted into shares** at the same price as the placement and SPP of \$0.17 per share.
- **\$818,000 in Directors' loans, being principal and interest, were repaid in the March 2019 quarter** from the proceeds of the placement, making Aeris debt free.

### About Aeris Environmental Ltd

The Company develops, manufactures and markets proprietary, environmentally-friendly technology that drives measurable improvements in asset performance and sustainability. Aeris' whole-of-system approach ensures that systems perform better, are safer, last longer and cost less to run.

The Company's products solve real world problems more effectively than conventional toxic chemicals. Uniquely based on validated green formulations, Aeris' enzymes and treatments with residual protection provide long-term remediation and prevention of mould, bacteria growth, corrosion and improved hygiene.

AerisVIEW, the Company's cloud-based visualisation network, is uniquely scalable across all climate-controlled environments, including buildings of all sizes, and vehicles. Aeris' solution delivers dramatic and proven energy savings, alongside documented benefits to system efficiency, and independently-validated indoor air quality, with proven immediate improvements in sustainability and cash flow savings.

The Southern Cross range of products offers a direct replacement alternative for many plastic-based wipes, and incorporates the capability to disinfect both surfaces and hands by simply moistening Aeris' paper-based wipes.

## Notes to the Consolidated Financial Statements

### NOTE 1: Basis of Preparation

This Financial Report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

The Financial Report has been prepared on an accruals basis, and is based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

### NOTE 2: Going Concern Basis

The Group has incurred an operating loss (after tax) of \$3,628,000 for the year ended 30 June 2019 (2018 re-stated: \$3,591,000) and has net assets of \$5,564,000 as at 30 June 2019 (2018 re-stated: \$281,000 net liabilities). The operating cash burn rate for the financial year ended 30 June 2019 was \$4,414,000 (2018: \$2,538,000). The cash balance as at 30 June 2019 was \$3,468,000 (2018: \$158,000). If the cash burn rate for the financial year ended 30 June 2019 continues during the year ending 30 June 2020, which it is not budgeted to do, there may be an uncertainty in relation to the Group's ability to continue as a going concern.

Implementation of strategic business development measures are expected to improve the cash burn rate significantly. The Directors have an expectation that the sum of its activities will result in a positive cash position during the financial year ending 30 June 2020.

As a consequence of the above, the Directors are of the opinion that the Company will have adequate resources to continue to be able to meet its obligations as and when they fall due. For this reason they continue to adopt the going concern basis in preparing the Annual Financial Report.

### NOTE 3: Accounting Policies

The Appendix 4E does not include notes of the type normally included within the Annual Financial Report, and therefore cannot be expected to provide a full understanding of the financial performance and financial position of the Group as in the full Annual Financial Report. The Appendix 4E should be read in conjunction with the Half Year Financial Report of the Group as at 31 December 2018 and the Annual Financial Report, due to be released in September 2019, for the year ended 30 June 2019. It is also recommended that the Preliminary Final Report be considered together with any public announcements made by Aeris Environmental Ltd during the year ended 30 June 2019 in accordance with the continuous disclosure obligations under the ASX Listing Rules and under the *Corporations Act 2001*.

### NOTE 4: Restatement of comparatives

The Group has made a retrospective adjustment to a receivable from a customer to reflect the information that was available as at 30 June 2018 but was not provided for in the 2018 financial report. The retrospective adjustment has resulted in an additional impairment charge of \$360,000 for the year ended 30 June 2018 with a corresponding decrease in the carrying value of trade receivables. For details of the restatement refer to the table below:

	June 2018 \$'000 Reported	\$'000 Adjustment	June 2018 \$'000 Restated
<b>Extract from the financial statements for the year ended 30 June 2018</b>			
Trade and other receivables	2,131	(360)	1,771
Net assets	79	(360)	(281)
Accumulated losses	(42,792)	(360)	(43,152)
Total Equity	79	(360)	(281)
Impairment of trade receivables	108	360	468
Loss after tax	(3,231)	(360)	(3,591)

### NOTE 5: Significant changes in the State of Affairs

On 12 December 2018, Company allotted 23,529,417 new fully paid ordinary shares to institutional and sophisticated investors under the Placement announced on 3 December 2018. The issue was completed at a price of \$0.17 per share and raised \$4,000,000. These shares were issued under the Company's 15% placement capacity in accordance with the ASX Listing Rules.

On 31 January 2019, following shareholder approval at the EGM held on 29 January 2019, the Company allotted 18,874,656 fully paid shares to sophisticated and professional investors, which raised \$3,208,692. This issue was at a price of \$0.17 per share.

On 29 January 2019, Company allotted 1,514,698 fully paid ordinary shares under its Share Purchase Plan. The issue was completed at a price of \$0.17 per share and raised \$257,500.
