- Gascoyne expected to recommence trading on ASX on 24 September 2020

Gascoyne Resources Limited (Subject to Deed of Company Arrangement) (ASX:GKY) ("**Gascoyne**" or the "**Company**") is pleased to announce that the Company has entered into agreements that provide A\$125 million in funding to the Company. The A\$125 million funding package components are:

- An equity raising comprising a fully underwritten institutional placement and an accelerated pro rata non-renounceable entitlement offer to raise approximately A\$85 million (collectively the "**Offer**" or "**Equity Raising**");
- The Equity Raising is fully underwritten by Canaccord Genuity (Australia) Limited ("**Canaccord**"); and
- A \$40 million 3-year amortising debt facility with Investec Bank plc ("**Investec Bank**")

(together "**Funding Package**").

The Funding Package enables Gascoyne to facilitate its recapitalisation strategy and position the Company to deliver on its robust life of mine plan, announced to the ASX on 31 July 2020. Proceeds from the Funding Package will allow the Company to reduce debt to sustainable levels, effectuate the Deed of Company Arrangement and provide sufficient working capital to pursue growth initiatives. Growth initiatives include resource definition drilling at the Gilbey's and Sly Fox deposits at the Company's Dalgarranga Gold Project ("**Dalgarranga**"), exploration on the broader Dalgarranga tenements, as well as advancing the prospective Glenburgh Project.

Post completion of the recapitalisation and reinstatement, Gascoyne will have a pro-forma<sup>1</sup> cash position of approximately A\$30.3m. The strengthened balance sheet will enable Gascoyne to continue to drive production and operational performance at Dalgaranga. Through to July 2020, Gascoyne achieved 7 consecutive months of monthly gold production of greater than 6Koz and free cashflow for the June 2020 quarter of \$6.0m. As announced previously to the ASX, the revised Dalgaranga 7-year life of mine plan has a production rate for the first 4-years of 70-80Koz per annum in addition to 3-years of processing stockpiles with an average production rate of 25-35Koz per annum. Furthermore, the Company believes there are numerous exploration opportunities to improve and extend mine life at Dalgaranga and material exploration upside at the Glenburgh Project.

Gascoyne Chief Executive Officer, Richard Hay, commented:

*“Today’s landmark funding package is the culmination of significant hard work by the Gascoyne team and its advisors over a 15-month period. It will facilitate the recapitalisation of the Company and enable Gascoyne to pursue strategic growth opportunities with an enhanced balance sheet and funding capability.*

*Importantly, the Equity Raising allows all existing shareholders in the Company to participate in the recapitalisation on the same terms as those participating in the placement. The Equity Raising has been structured to provide all existing shareholders with the opportunity to subscribe for the majority of the New Shares to be issued - \$50 million out of the total amount to be raised of \$85 million.*

*Investec Bank is a well-known and renowned provider of debt facilities to the global mining industry and we welcome them on board as our senior finance partner moving forward. Investec Bank put forward the most competitive debt solution and we are pleased to have a facility that is aligned to our recently announced updated life of mine plan.*

*On behalf of the Gascoyne team, I wish to thank all key stakeholders for supporting the Company’s recapitalisation strategy to date. We look forward to building a solid future as a profitable West Australian gold producing business.”*
