10. ASX guide

ASX has published a guide that may be useful to prospective investors considering whether to invest in RRCPS. The guide is entitled 'Investing in hybrids', and is available from <https://www2.asx.com.au/investors/learn-about-our-investment-solutions/hybrids>. ASX's guide applies to a range of different and varying securities and does not specifically consider the terms of RRCPS.

11. Notice to Shareholders resident in New Zealand

The Offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and the *Corporation Regulations 2001* (Cth). In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014 of New Zealand.

The Offer and the content of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the *Corporation Regulations 2001* (Cth) (Australia) set out how the Offer must be made.

There are differences in how securities are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies and compensation arrangements available to New Zealand investors in Australian securities may differ from the rights, remedies and compensation arrangements for New Zealand securities.

Both the Australian and New Zealand securities regulators have enforcement responsibilities in relation to the Offer. If you need to make a complaint about the Offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian securities is not the same as for New Zealand securities. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Offer may involve a currency exchange risk. The currency for the RRCPS is not New Zealand dollars. The value of the RRCPS will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the RRCPS to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the RRCPS are able to be traded on a securities market and you wish to trade the RRCPS through that market, you will have to make arrangements for a participant in that market to sell the RRCPS on your behalf. If the securities market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the RRCPS and trading may differ from securities markets that operate in New Zealand.

12. Enquiries

Enquiries relating to this Prospectus should be directed to the Company Secretary by telephone on (02) 8027 1000.

For general Shareholder enquiries, please contact the Registry on 1300 737 760 (within Australia) or +61 2 9290 9600 (outside Australia).

INFORMATION ABOUT THE ISSUER

4.1 Issuer overview

Glennon Small Companies Limited (“**GC1**”) is a listed investment company that was established in 2015 and its shares are listed on the ASX (ASX: GC1). GC1 predominately invests in listed companies outside the S&P/ASX 100.

GC1’s investment portfolio is managed on behalf of GC1 by its investment manager, Glennon Capital Pty Limited (“**Investment Manager**”). The Investment Manager was established in 2008.

4.2 Investment strategies

The GC1 investment portfolio generally invests in ASX listed companies outside the S&P/ASX 100. The Investment Manager seeks to take advantage of what they believe are structural inefficiencies in the market. The micro and small-cap segments typically have limited research coverage and lower levels of liquidity that prevents large institutions from meaningful participation in this market segment. The Investment Manager seeks to hold a concentrated portfolio of investments while employing disciplined risk controls to preserve capital. The Investment Manager has the ability to hold high levels of cash if they believe that markets are overvalued.

4.3 Structure

As a listed investment company, GC1 has a closed ended company structure, which means that the number of shares on issue is fixed. This allows management to concentrate on the performance of the funds invested over the longer term without having to factor in inflows or outflows of monies through applications and redemptions. In addition, this structure allows management to select investments based on factors including business quality and long-term outlook, regardless of share liquidity profile. Open ended funds can force a manager to sell their investments if they have redemptions, which can be difficult due to the illiquidity of smaller companies, GC1’s closed end nature avoid this situation.

4.4 Management expense ratio

The management expense ratio for the year ended 30 June 2020 was 1.96%. GC1 does not charge entry or exit fees when Shareholders acquire or dispose of their holdings although transaction costs will be incurred when buying or selling through a stockbroker. GC1 does offer investors the ability to acquire shares without brokerage through participation in dividend reinvestment and from time to time bonus option issues, both of which incur no brokerage to acquire shares. GC1 does not pay trailing commissions to financial advisers.

4.5 GC1's investment portfolio

GC1's investment portfolio, which represented 77% of total assets as at 30 September 2020, included investments in 41 listed entities. The top five holdings by market value as at 30 September 2020 are set out in the table below:

Ranking	Company	Holding (\$'000s)	% of total assets
1	Service Stream Limited	1,856	5.05%

Section Five

EFFECT OF THE OFFER

5.1 Historical and pro forma financial information

(a) Basis of preparation

The financial information in Section 5.1(c) has been prepared in accordance with the recognition and measurement principles prescribed in Australian Accounting Standards and Interpretations (“**AASI**”) issued by the Australian Accounting Standards Board (“**AASB**”) and other mandatory professional reporting requirements in Australia.

The financial information in Section 5.1(c) is presented in an abbreviated form and does not contain all of the disclosures required by AASI issued by the AASB in an annual financial report prepared in accordance with the Corporations Act.

The historical Statement of Financial Position as at 30 June 2020 has been extracted from GC1’s 30 June 2020 audited financial report. GC1’s annual financial report for 30 June 2020 was audited by Pitcher Partners in accordance with AASI issued by the AASB. The audit opinion issued to GC1 in relation to the financial report was unqualified. A complete version of GC1’s financial report for the year ended 30 June 2020 is available from www.glennonsmallcompanies.com.au or from ASX’s website, www.asx.com.au.

The pro forma Statement of Financial Position as at 30 June 2020 has been prepared by the Directors and assumes completion of the transactions detailed in Section 5.1(b). The accounting policies used in preparation of the pro forma Statement of Financial Position are consistent with those set out in GC1’s audited financial report for the year ended 30 June 2020.

(b) Pro forma adjustments

The pro forma Statement of Financial Position is adjusted from the historical consolidated Statement of Financial Position as at 30 June 2020 for the impact of the Offer as if the Offer was completed at 30 June 2020. The adjustments made to the pro forma Statement of Financial Position reflect the target subscription level, which is \$5.7 million of RRCPS, net of the expected costs incurred.

Costs associated with the Offer will be incurred on issuance of RRCPS.

(c) Historical and pro forma Statement of Financial Position

Set out in the following is a summary of GC1's historical Statement of Financial Position as at 30 June 2020, together with pro forma adjustments and pro forma Statement of Financial Position as at 30 June 2020.

In accordance with the GC1's accounting policies the investment and trading portfolio is revalued to market value continuously. Investors should be aware that the market value of this portfolio has increased from that reported at 30 June 2020 (as reflected in the pro forma Statement of Financial Position in Section 5.1.(c)) to the date of this Prospectus as a result of

market gains. The unaudited net tangible asset (“NTA”) backing per share as at 30 September 2020 was 0.88 compared to 0.82 as at 30 June 2020. The before tax NTA as at 30 September includes \$0.06 per share deferred tax asset comprised of prior years’ tax losses and current year tax losses/profit, compared to \$0.07 as at 30 June 2020. The unaudited NTA backing per share will be announced on a monthly basis to ASX.

GC1’s profit is derived, to a great extent, from the dividends and distributions that it receives from companies that it invests in and the market movement of any investments that are valued as part of profit (e.g. the trading portfolio). The dividends that it receives, and the value of investments that are accounted for as part of profit, will therefore vary from year to year as a result of the dividend policies of the companies that GC1 invests in, the acquisition and disposal of investments and market volatility.

5.2 Summary of financial information and metrics

(a) Assets, liabilities and equity

GC1 had total assets of \$36.96 million, total liabilities of \$0.70 million and total equity of \$36.26 million as at 30 June 2020. The market value of GC1’s equity as at 23 October 2020 (GC1’s market capitalisation) was \$34.4 million.

(b) LTV Ratio

To assist potential investors to understand the financial position and performance of GC1, the following disclosure regarding the LTV Ratio has been included.

As at 30 June 2020, GC1’s LTV Ratio was -49.6% (it had no borrowings or preference shares on issue at that date).

The LTV Ratio included below has been calculated based on the unaudited pro forma Statement of Financial Position as at 30 June 2020, incorporating the impact of the Offer but assuming that the net proceeds of the Offer of \$5,394,000 are invested immediately into Marketable Securities (rather than held as cash).

Under these assumptions, and applying the formula set out below, GC1 would have an LTV Ratio of -18.0%:

$$\text{LTV Ratio} = \frac{\text{Total Debt} - (\text{Cash and Cash Equivalents})}{\text{Market Value of all Marketable Securities held by or on behalf of the Company as at such time}}$$

The LTV Ratio indicates the extent to which GC1’s investments in securities are funded by net borrowings (including preference shares). A higher ratio indicates a greater reliance on net borrowings. A negative ratio indicates Cash and Cash Equivalents exceed Total Debt.

Under the Terms of Issue, for so long as any of the RRCPS remain outstanding, GC1 must:

- (i) ensure that the LTV Ratio does not exceed 50.0% at the close of business on any Business Day;
- (ii) not make a Distribution if the LTV Ratio would exceed 50.0% immediately after such Distribution.

Should the LTV Ratio exceed 50.0% for 10 consecutive Business Days, at any time while the RRCPS are on issue, a Trigger Event will have occurred, and a Holder may request Conversion or Repayment. Additionally, while a Trigger Event is outstanding, the Dividend Rate will be increased by 2.0% per annum.

5.3 Effect of Offer on GC1's capital structure

The following table sets out GC1's capital structure immediately before the Offer and after the issuance of RRCPS, based on the target subscription level of \$5.7 million.

	Pre-Offer	Post-Offer
Ordinary Shares	45,267,862	45,267,862
Bonus Options ¹	8,635,389	8,635,389
Loyalty Options ²	8,765,489	8,765,489
RRCPS	None	570,000

¹Exercise price of \$0.75 and expiry date of 29 October 2021 (see Section 6.3(n) for the dilution risk associated with the exercise of these Bonus Options).

²Exercise price of \$0.95 and expiry date of 28 April 2023 (see Section 6.3(n) for the dilution risk associated with the exercise of these Loyalty Options).

5.4 Effect of Offer if less than \$5.7 million is raised

GC1 may accept less than \$5.7 million of Applications which may decrease the aggregate outstanding Face Value of RRCPS. Such a decrease will impact on the ratios detailed in Section 5.2.

Section Six
RISK FACTORS

There are a number of factors of a general nature, specific to GC1 and specific to the RRCPS, which may affect the future operating and financial performance of GC1 and the value of an investment in GC1 and the RRCPS. Some of these factors can be mitigated by appropriate commercial action such as diversification of the Issuer's investments across a broad range of companies. However, many are outside the control of GC1, are dependent on general economic and financial market conditions or otherwise cannot be mitigated. This section describes some of the risks associated with an investment in GC1 and the RRCPS.

Before deciding to invest in GC1 and the RRCPS, prospective investors should consider carefully the following factors, as well as the other information contained in this Prospectus and, if they consider it appropriate, take professional advice from their accountant, stockbroker, solicitor or other professional adviser.

6.1 General risks

General risk factors outside the control of GC1 which may have a significant impact on the future performance of GC1 include but are not limited to the following:

(a) Market risk and impact of COVID-19

Investment returns are influenced by general market factors both in Australia and internationally and by factors specific to each security. In particular, the events relating to the COVID-19 pandemic (and government responses) have resulted in significant market volatility including in the prices of securities trading on the ASX and there is continued uncertainty as to the economic outlook in Australia and globally.

The market prices of the shares of many listed entities experience fluctuations which in many cases reflect a diverse range of non-entity specific influences including:

- (i) general economic conditions, including changes in inflation rates, short-term or long-term interest rates, exchange rates and commodity prices;
- (ii) variations in the local and global markets for listed securities;
- (iii) domestic and international economic conditions;
- (iv) changes in investor confidence generally and in relation to specific sectors of the market;
- (v) pandemics, natural disasters, global hostilities and acts of terrorism;
- (vi) changes to government policy, legislation or regulation including in relation to taxation and other policy changes; and
- (vii) the inclusion or removal of stocks from major market indices.

This may have a negative effect on the price at which the Ordinary Shares trade on ASX particularly with regard to investments made by GC1 into small capitalisation, microcap and emerging companies.

(b) Geopolitical risk

The investment portfolio's return could suffer as a result of political changes or instability in countries (whether the investment portfolio is invested in companies in or outside those countries). This may arise as a result of changes in government, legislative bodies, foreign policies and military control.

(c) Currency and foreign jurisdiction risk

In addition to investments in Australian entities, the Investment Manager may invest in entities outside Australia. Hence GC1 may assume currency exposure and there is a risk that adverse movements in exchange rates will reduce their value in Australian dollar terms. In addition, GC1 may be exposed to risks relating to its investments in securities of entities which are located in a foreign jurisdiction, where the laws of the foreign jurisdiction offer fewer legal rights and protections to security holders as compared to the laws in Australia.

(d) Industry risk

There are a number of industry risk factors that may affect the future operation or performance of GC1 that are outside its control. These include increased regulatory and compliance costs and variations in legislation and government policies generally.

(e) Regulatory risk

GC1 is subject to a range of regulatory controls imposed by government (federal and state) and regulatory authorities (for example, ASX and ASIC). The relevant regulatory regimes are complex and are subject to change over time depending on changes in the laws and the policies of the governments and regulatory authorities. GC1 is exposed to the risk of changes to the applicable laws and/or the interpretation of existing laws which may have a negative effect on GC1, its investments and/or returns to Shareholders and Holders of RRCPS or the risks associated with non-compliance with these laws (including reporting or other legal obligations). Non-compliance may result in financial penalties being levied against GC1.

(f) Changes in taxation laws and policies

Tax laws are in a continual state of change and reform which may affect GC1 and Holders of RRCPS.

Tax liabilities arising from investing in GC1 are the responsibility of each individual Holders of RRCPS. There may be tax implications arising from ownership of and upon Repurchase or Conversion of RRCPS.

Changes to tax laws may adversely affect GC1's financial performance and/or the returns achieved by Holders of RRCPS.

GC1 is not responsible for either taxation or penalties incurred by Holders. You should carefully consider these tax implications and obtain advice from a professional tax adviser in relation to the application of the tax legislation to your investment in GC1.

In addition, investors should be aware that there are risks associated with any investment in securities. Prospective investors should recognise that the trading price of RRCPS and GC1's shares may fall as well as rise with movements in the equity capital markets in Australia and internationally.

It should be noted that there is no guarantee that the Ordinary Shares will trade at or above the Conversion Price. It should also be noted that the historic Ordinary Share price performance of GC1's Ordinary Shares provides no guidance as to its future share price performance.

As a listed investment company, the market value of Ordinary Shares in GC1 may be adversely impacted by the volume of shares being bought or sold at any point in time. Where there are relatively fewer buyers, the price at which an investor may be able to sell its shares in GC1 may be adversely impacted.

6.2 Specific Company risks

Key risks relating to GC1 are set out below. It is not, however, possible to describe all the risks to which GC1 may become subject and which may impact adversely on GC1's prospects and performance. Specific risk factors which may have a significant impact on the future performance of GC1 include the following:

(a) Risk investing in other companies

The value of the investments selected by the Investment Manager may decline, resulting in a reduction in the value of GC1's investment portfolio and its Ordinary Shares. Securities prices fluctuate and are dependent upon the financial circumstances of the relevant company, its profits earnings and cash-flow. The value of a security issued by a company may also be affected by the size and quality of the company's management, government policy and the outlook of the sector in which it operates.

Given the nature of GC1 as a listed investment company, this risk applies both to GC1 itself, and also in respect of each investment made by GC1 in another company. Any change in the price or value of the underlying securities of the companies in which GC1 invests will have an impact on the price or value of GC1's securities.

(b) Discount to net asset value per Ordinary Share

The Ordinary Shares of GC1 may trade on ASX at a discount to the net asset value of the investment portfolio on a per share basis and the performance of the Ordinary Shares may not be correlated with the performance of the investment portfolio.

(c) Investment strategy risk

There are risks inherent in the investment strategy that the Investment Manager employs for GC1. These include, but are not limited to, the following:

- (i) the success and profitability of GC1 depends on the ability of the Investment Manager to select securities for the investment portfolio which generate a return for investors, in accordance with GC1's investment strategy and investment guidelines;
- (ii) small companies generally have less diversified income streams, less stable funding sources and weaker bargaining positions with their counterparties when compared to larger companies. GC1 predominantly invest in companies outside the S&P/ASX 100 which may therefore be exposed to these risks;
- (iii) the securities of small companies may be less liquid than those of larger companies which may cause higher volatility in the value of the investment portfolio;

- (iv) due to the lack of third party research on smaller companies they can be riskier investments than larger companies for which more information may be available;
- (v) the investment portfolio may be less diversified than those of other listed investment entities; and
- (vi) the investment portfolio may have exposure to unlisted securities (more information on this risk is set out below).

(d) Investment Manager

The Investment Manager is required to hold an AFSL to operate its business and to continue to manage the investment portfolio. To the extent that the Investment Manager loses or has restrictions imposed on its AFSL so as to prevent it from continuing to manage the investments of GC1, GC1 will need to identify and engage a suitably qualified and experienced manager to implement the investment strategy. If the Investment Management Agreement is terminated for any reason, GC1 will need to identify and engage a suitably qualified and experienced manager to implement the investment strategy. There can be no guarantee that GC1 will be able to identify an appropriately qualified replacement for the Investment Manager or, if such person or entity is appointed, that it will be able to perform its duties as investment manager to the standard required by GC1 or to a level that matches or exceeds the performance of the Investment Manager. The Investment Management Agreement is terminable by the Investment Manager on six months' notice.

The performance fee may create an incentive for the Investment Manager to make investments on behalf of GC1 that are riskier and more speculative than would be the case in the absence of a fee payable to the Investment Manager based on the performance of GC1, which may add to the risk and volatility of the investment portfolio's underlying investments.

The Investment Manager also manages other portfolios. It is possible therefore that the Investment Manager may, in the course of its business, have potential conflicts of interest which may not be managed effectively and therefore may be detrimental to Shareholders and Holders of RRCPS. The Investment Manager currently has a policy in place which provides that the Investment Manager will use its best endeavours to treat all clients equally and this will apply in respect of the Investment Manager's role as manager of GC1's investment portfolio.

(e) Unlisted securities risk

The investment portfolio may have exposure to unlisted securities. In general there is less government regulation and supervision of transactions in the unlisted securities markets than of transactions entered into on organised exchanges. In addition, many of the protections afforded to participants on some organised exchanges may not be available in connection with unlisted securities.

There may be little or no liquidity in unlisted securities (potentially compounded by GC1 having only a minority position with little control over the nature or timing of an exit event). Many unlisted securities are relatively illiquid or have low (or no) trading volume. This could enhance the volatility of the price of the unlisted securities and/or make it difficult to sell the unlisted securities.

The valuation of unlisted securities is more difficult to calculate than listed securities. Difficulties in establishing a robust market price or valuation of unlisted securities, coupled with the performance fee, which is calculated by reference to the net asset value of the investment

portfolio (as determined by the Investment Manager), exposes GC1 to the risk of a potential misstatement of the fair value of unlisted investments in the investment portfolio.

(f) Liquidity risk

GC1 is a listed investment company. The ability of a Shareholder to sell Ordinary Shares on ASX will be a function of the turnover or liquidity of the Ordinary Shares at the time of sale. Turnover is a function of a wide variety of factors including the size of a company and the cumulative investment intention of all current and possible investors in GC1 at any one point in time.

Given the nature of GC1, and the traditionally lower trading volumes experienced by listed investment companies, it is possible that there will be a low level of liquidity in trading of the Ordinary Shares. As a result, Shareholders may not be able to easily sell their Ordinary Shares at the time and in the volumes or at a price they desire.

(g) Concentration risk

There is potential for volatility due to the lack of diversity within the investment portfolio. The lower the number of investments, the higher the concentration and, in turn, the higher potential volatility.

(h) Future capital requirements

There can be no assurance that GC1 will not need to raise additional capital to fully exploit the investment opportunities available to it. There can be no assurance that GC1 will be able to raise such capital on favourable terms (or at all) or, if it is able to raise the capital, that it will be able to invest that capital efficiently.

If GC1 is unable to obtain or invest such additional capital, GC1 may be required to reduce the scope of its investment activities or forgo an investment opportunity, which could adversely affect GC1, its financial condition and results of operation.

6.3 Risks associated with investing in RRCPS

(a) Dividend payments

GC1 expects to make Dividend payments using available cash balances and cash flow from its investments. GC1's ability to generate cash flows from its operations will depend substantially on the performance of its investments in ASX listed companies. The Dividend payments on the RRCPS are cumulative and not guaranteed by GC1 or any other entity. There is a risk that Dividends may not be paid.

(b) Dividend Rate risk

The Dividend Rate for RRCPS is fixed at 5.60% per annum payable semi-annually in arrears. No adjustment may be made to the Dividend Rate paid to Holders until the first Reset Date as other market-based interest rates rise or fall.

The market price of the RRCPS on ASX may fluctuate due to changes in interest rates generally, credit spreads on other corporate securities or investor sentiment towards GC1.

(c) Inflation rate risk

An increase in the inflation rate may erode in real terms the value of the capital invested in RRCPS. It may also negatively impact the profitability of the companies in which GC1 invests and the market value of the shares of those companies.

(d) Financial market conditions

The market price of RRCPS will fluctuate due to various factors, including worldwide economic conditions, interest rates, credit spreads on other corporate securities, general movements in the Australian and international equity markets, movements in the market price of Ordinary Shares, factors which may affect GC1's financial position and earnings and investor sentiment.

The market price of RRCPS may be more sensitive than that of Ordinary Shares to changes in interest rates, and RRCPS could trade on ASX at a price below the Issue Price.

The Ordinary Shares held as a result of any conversion of RRCPS will, following conversion, rank equally with existing Ordinary Shares. Accordingly, their value after any conversion date will depend upon the market price of Ordinary Shares.

(e) Volatility of market price of Ordinary Shares

The market price of the Ordinary Shares may be volatile.

The volatility of the market price of the Ordinary Shares may cause volatility in the price of RRCPS and affect the ability of Holders of RRCPS to sell the RRCPS at an acceptable price. Additionally, this may result in greater volatility in the market price of the RRCPS than would be expected for non-convertible redeemable preference securities.

(f) Liquidity

The market for RRCPS is likely to be less liquid than the market for Ordinary Shares. There can be no assurance that investors will be able to buy or sell RRCPS on ASX. GC1 will seek quotation of the RRCPS on ASX to permit on market trading of the RRCPS.

(g) Repurchase risk

The Repurchase of the RRCPS may be subject to regulation, including under the Corporations Act. Subject to such regulation, GC1 expects to be able to Repurchase the RRCPS using the proceeds from future equity raisings, cash flows from operations (if available) or proceeds from the sale of investments. There is a risk that GC1 would be unable to procure or raise sufficient cash resources from future equity raisings or sale of investments and would, in that case, have insufficient cash flows to Repurchase the RRCPS on the relevant Exchange Date.

None of GC1 or any other entity have guaranteed the Repurchase of the RRCPS.

(h) Early Repurchase

RRCPS may be Repurchased early by GC1 in certain circumstances. In such circumstances, the Repurchase price may be less than the previously prevailing market value of RRCPS.

Additionally, in the event of an early Repurchase of RRCPS, you may not receive the returns you expected to achieve on your RRCPS (if held until maturity) by investing the proceeds in alternative investment opportunities available at that time.

(i) Ranking

On any winding-up of GC1, Holders will rank behind creditors of GC1, but ahead of Shareholders and holders of any other classes of shares ranking behind RRCPS, to the extent of the Face Value and any amount equivalent to the Dividend Entitlement since the preceding Dividend Payment Date. If there is no return of capital on a winding-up, Holders will have no such entitlement.

In the event of a shortfall of funds on a winding-up, there is a risk that Holders will not receive a full return of capital and any amount equivalent to the Dividend Entitlement since the preceding Dividend Payment Date.

(j) Conversion

The Ordinary Shares held by Holders following conversion of their RRCPS will have the same rights as other Ordinary Shares, which are different from the rights attached to RRCPS.

The market price of the Ordinary Shares may fluctuate over time as a result of a number of factors.

(k) Future payment of Dividends

The amount of future Dividends actually paid will be determined by the Board of GC1 having regard to its operating results and financial position. A change in dividend policy or dividend levels may impact the market value of RRCPS.

(l) Dividends on Ordinary Shares

Payment of any dividends on Ordinary Shares issued on conversion of the RRCPS is at the discretion of the Board. Holders whose RRCPS are converted after the record date for a dividend will have no entitlement to that dividend. The Board may only declare or determine a dividend if there are funds legally available to pay dividends. RRCPS will not be entitled to participate in any dividends on the Ordinary Shares.

(m) Further issues of securities

GC1 may issue further securities with the same or different terms of issue as the RRCPS. GC1 may issue other securities, including further RRCPS that rank for dividend, redemption or payment in a winding-up of GC1 equally with or behind the RRCPS, without the approval of Holders.

(n) Dilution

GC1 may undertake additional offerings of securities in the future. The increase in the number of issued Ordinary Shares or securities convertible into Ordinary Shares and the possibility of sales of such securities may depress the price of Ordinary Shares already on issue and of RRCPS. In addition, as a result of the issue of Ordinary Shares, the voting power and proportionate economic interest of the Issuer's existing Shareholders (and, indirectly, of holders of RRCPS) will be diluted. The Terms of Issue provide for an adjustment to the Conversion

For personal use only

Price in relation to only a limited class of future offerings of securities (refer Terms of Issue in Section 12).

As at the date of this Prospectus, GC1 has 8,635,389 Bonus Options on issue. Each Bonus Option confers upon the holder the right to subscribe for one Ordinary Share at an exercise price of \$0.75 on or before 5:00pm on Friday, 29 October 2021 ("**Bonus Options Expiry Date**"). Additionally, for each Bonus Option exercised by a holder on or before the Bonus Options Expiry Date, subject to it holding, at the time of the exercise of the Bonus Options, at least the same number of Ordinary Shares it held as at the relevant record date, one Loyalty Option will be issued that confers upon the holder the right to subscribe for one Ordinary Share at an exercise price of \$0.95, exercisable on or before 5:00pm on Friday, 28 April 2023.

Should all or some of these Options be exercised in the future, a proportionate number of Ordinary Shares would be issued and this may depress the price of Ordinary Shares already on issue and of the RRCPS. In addition, as a result of any issue of Ordinary Shares, the voting power and proportionate economic interest of GC1's existing Shareholders (and, indirectly, of Holders of RRCPS) would be diluted.

No adjustment to the Conversion Price would occur should these Options be exercised in the future.

(o) Changes in the Australian tax system

Prospective investors should be aware that any future changes in Australian tax law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the acquisition, holding and disposal of RRCPS.

Section Seven

AUSTRALIAN TAX IMPLICATIONS

This section contains a general summary of the Australian income taxation consequences of acquiring, holding and disposing of RRCPS.

This summary assumes that all relevant transactions are carried out in the manner described in this Prospectus and is based upon the Australian taxation law, interpretations and administrative practices in effect at the date of this Prospectus.

Prospective investors should note that the taxation law and its interpretation is subject to change at any time and sometimes with retrospective effect.

The description applies only to Australian Holders who acquire, hold and dispose of the RRCPS on capital account for Australian income tax purposes. It does not apply to Holders who acquire, hold or dispose of the RRCPS as part of the conduct of a business, or who otherwise hold the RRCPS on revenue account or as trading stock, nor to Holders who are subject to the Taxation Of Financial Arrangements (“**TOFA**”) rules contained under Division 230 of the *Income Tax Assessment Act 1997* (Cth) (“**Tax Act**”) in relation to gains and losses on their RRCPS.

The actual taxation consequences of acquiring, holding and disposing of the RRCPS will vary depending upon the particular circumstances of each Holder. Therefore, prospective Holders should obtain independent professional advice relating to their own specific circumstances and should not rely on the summary below.

GC1 has not received a class ruling from the Australian Taxation Office (“**ATO**”) for Holders who may participate in the Offer, nor does it intend to seek such a ruling.

7.1 Taxation consequences for Australian residents

(a) Australian income tax character of RRCPS

Although the Offer is in the legal form of resettable, redeemable, convertible preference shares, the security will be characterised as a ‘debt interest’ for the purposes of the application of the Tax Act. This is on the basis that GC1 has an ‘effectively non-contingent obligation’ to provide ‘financial benefits’ to the Holders of the RRCPS for the purposes of the Tax Act.

(b) Dividends

In line with its income tax character, Dividend payments from holding RRCPS will be included in the assessable income of the Holder as ‘interest payments’, akin to interest received on a debt security.

The Dividends to be paid by GC1 cannot be franked, and therefore no franking credits will be attached to the Dividend payments to Holders of RRCPS.

(c) Conversion of RRCPS and subsequent disposal of Ordinary Shares

In the event Holders of RRCPS decide to convert RRCPS to Ordinary Shares in GC1 in accordance with the terms under this Prospectus, the conversion should trigger a Capital Gains Tax (“**CGT**”) event. However, under the Australian income taxation rules, any capital gain or loss arising from this conversion should be disregarded.

For CGT purposes, the Ordinary Shares in GC1 are taken to be acquired by the Holder at the time the conversion happened.

Further, a CGT event would occur for the Holder on the subsequent disposal of Ordinary Shares in GC1 acquired on conversion. Upon disposal, a capital gain or loss may arise, calculated as the difference between the capital proceeds received and the cost base of Ordinary Shares in GC1.

The cost base of Ordinary Shares in GC1 should include the Holder's acquisition cost (which would generally be the cost base of RRCPS at the time of conversion), incidental acquisition and disposal costs (i.e. brokerage fees).

Any net capital gain would be included in the assessable income of the Holder in the income year it disposes the Ordinary Shares in GC1. Any net capital loss may be used to offset other capital gains made by the Holder.

Furthermore, after applying any capital loss, Holders (companies are excluded) may then be entitled a capital gain discount equivalent to 50% for individuals and trusts, and 33 1/3% for complying superannuation funds, provided the relevant asset is disposed of after 12 months.

(d) Redemption of RRCPS

If the amount received by the Holder upon redemption of RRCPS exceeds the amount paid upon acquisition of RRCPS, that amount should be included in the assessable income of the Holder.

Conversely, if the amount received by the Holder upon redemption of RRCPS is less than the amount paid upon acquisition of RRCPS, a capital loss will arise.

7.2 Tax File Numbers and Australian Business Numbers

Holders are not required to provide their Tax File Numbers ("TFN") or Australian Business Numbers ("ABN") when subscribing for RRCPS. However, if Holders do not provide their TFN or ABN, GC1 may be required to deduct and withhold tax at the top marginal rate plus Medicare Levy on any payments made. Any tax withheld will be remitted to the ATO and should be available to the Holder as a tax credit.

7.3 Other taxes

On the basis that RRCPS are considered as 'debt interests' under the Tax Act, any payments to non-residents in the form of 'interest', are subject to non-resident withholding tax in Australia.

Holders of RRCPS will generally not be subject to any Australian Goods and Services Tax or stamp duties in any Australian State or Territory in respect of their acquisition, holding, sale, redemption or conversion of RRCPS or the receipt of dividend payable on RRCPS.

In compliance with the Foreign Account Tax Compliance Act ("FATCA") and Common Reporting Standard ("CRS"), GC1 may be required to collect and provide certain information to the ATO, in regard to non-resident Holders. The ATO may exchange this information with the participating foreign tax authorities of those non-residents.

Section Eight

ADDITIONAL INFORMATION

8.1 Rights attaching to Ordinary Shares

The shares issued on conversion of the RRCPS will be Ordinary Shares and will rank equally with all existing Ordinary Shares. The rights attaching to Ordinary Shares are set out in the GC1's Constitution which is available free of charge from GC1 (a copy is also accessible on the ASX website).

The following is a broad summary of rights which attach to Ordinary Shares. It is not intended to be an exhaustive or definitive summary of the rights attaching to Ordinary Shares.

(a) Voting rights

Subject to restrictions on voting from time to time affecting any particular Shareholder or any class of shares and subject to any contrary provisions of the Constitution, at a meeting of Shareholders, each Shareholder entitled to vote may vote in person or by proxy or attorney or, being a corporation, by a duly authorised representative, and has one vote on a show of hands and one vote per Ordinary Share on a poll.

(b) Dividends

The Board may from time to time determine or declare that a dividend is payable. The Board may fix the amount, the time for payment and the method of payment of a dividend. The method of payment may include the payment of cash, the issue of shares, the grant of options and the transfer of assets, including shares or other securities in another body corporate (or any combination of them). No dividend bears interest against the Issuer. Subject to any special rights or restrictions attached to any shares, every dividend on a share in the Issuer is to be paid as follows, unless otherwise determined by the Board:

- (i) if the share to which a particular dividend relates is fully paid and was fully paid during the whole period in respect of which the dividend is to be paid, that dividend is equal to the dividend paid on each other share which was fully paid during the whole period in respect of which the dividend is to be fully paid; and
- (ii) if the share to which a particular dividend relates is partly paid, or is fully paid but was not fully paid during the whole of the period in respect of which the dividend is to be paid, that dividend is apportioned, and paid proportionately to the amounts paid (not credited) on the share in respect of which the dividend is to be paid with respect to the issue price of the share (excluding amounts credited) during any part or parts of the period in respect of which the dividend is to be paid.

(c) Transfer

Subject to the Constitution, the Corporations Act, the Listing Rules and ASX Settlement Operating Rules, Ordinary Shares are freely transferable. Subject to the Listing Rules and the Corporations Act, the Directors may refuse to register a transfer or apply a holding lock to prevent a transfer of Ordinary Shares only in limited circumstances (for example, where GC1 has a lien on those shares).

(d) Winding-up

If GC1 is wound up, whether voluntarily or otherwise, the liquidator may divide among all or any of the contributories as the liquidator thinks fit in kind any part of the assets of GC1, and may

vest any part of the assets of GC1 in trustees on any trusts for the benefit of all or any of the contributories as the liquidator thinks fit.

The ranking of Ordinary Shares is set out in Section 3.

(e) Variation of rights

The rights, privileges and restrictions attaching to the Ordinary Shares can only be varied by a special resolution passed at a meeting of Shareholders by those Shareholders present at the meeting or by proxy who hold at least 75% per cent of the votes attaching to Ordinary Shares.

8.2 Offer Management Agreement

The Issuer does not hold an AFSL under the Corporations Act necessary to carry out the Offer under this Prospectus. Accordingly, the Offer is being made under an arrangement between the Issuer and the Lead Manager as holder of an AFSL under section 911A(2)(b) of the Corporations Act. GC1 and the Lead Manager entered into an offer management agreement on or about the date of this Prospectus (the “**Offer Management Agreement**”). Under the Offer Management Agreement, the Lead Manager has been appointed by the Issuer to conduct the Offer as Authorised Intermediary and has agreed to manage the Offer, including to conduct the Bookbuild.

1. The Security

1.1 Form of security

- (a) Each Resettable Redeemable Convertible Preference Share (**RRCPS**) is a fully paid, redeemable, preference share in the capital of the Company.
- (b) Each RRCPS is issued by the Company under, and in accordance with, its Constitution and on the terms set out in these Terms of Issue.

1.2 Face Value and Issue Price

- (a) Each RRCPS has a Face Value of A\$10.00.
- (b) The issue price of an RRCPS will be determined by the Directors in their absolute discretion and may be the Face Value, more than the Face Value or less than the Face Value (**Issue Price**). The Issue Price must be paid in full on application.

1.3 Currency

The RRCPS are denominated in Australian dollars.

1.4 Quotation of RRCPS

The Company must use all reasonable endeavours and furnish any documents, information and undertakings as may be reasonably necessary in order to procure official quotation on ASX of:

- (a) the RRCPS; and
- (b) all Shares issued on Conversion of the RRCPS,

and to ensure such quotation of RRCPS is maintained until Exchanged by the Company and cancelled.

1.5 Clearing System

So long as the RRCPS are quoted on a Stock Exchange, the rights of a person holding an interest in the RRCPS are subject to the rules and regulations of the Clearing System.

1.6 Evidence of holdings

- (a) The Company or the Registrar (as applicable) must issue to each Holder a Statement of Holding as soon as reasonably practicable after the Issue Date for the RRCPS. A Statement of Holding is no assurance or guarantee that any amounts will be paid to the Holder.
- (b) Certificates in respect of the RRCPS will not be issued unless the Company determines that certificates should be made available or are required to be made available by law.

1.7 Provision of information by Holders

If requested by the Company, the Holders must provide information required by the Company in order to comply with any applicable law.

2. Dividends

2.1 Entitlement

Subject to these Terms of Issue, each Holder of an RRCPS on the relevant Record Date for a particular Dividend Period is entitled to a Dividend in respect of that Dividend Period (**Dividend Entitlement**).

2.2 Calculation of Dividend Entitlement

The Dividend Entitlement of a Holder is calculated in accordance with the following formula:

$$\text{Dividend Entitlement} = \left(\frac{\text{Dividend Rate} \times \text{Face Value} \times \text{N} + \text{ADR} \times \text{Face Value} \times \text{TD}}{365} \right)$$

Where:

Dividend Rate (expressed as a percentage per annum) is:

- (a) for the period to (but not including) the first Reset Date, 5.6%;
- (b) for the period from (and including) a Reset Date until (but not including) the next Reset Date, a rate expressed as a percentage per annum specified in accordance with clause 6.1 (which, for the avoidance of doubt, may be a rate calculated by reference to a formula specified by the Company).

N means the number of days in the Dividend Period.

ADR is 2% per annum.

TD means the number of days in the Dividend Period on which a Trigger Event subsists.

2.3 Franking treatment

For the avoidance of doubt, the Company is not required by these Terms of Issue to frank any Dividend.

2.4 Payment of Dividend

The payment of a Dividend (including any Shortfall) is subject to:

- (a) there being no impediment under the Corporations Act or any other law to the Company paying the Dividend; and
- (b) the Directors, at their discretion, determining the Dividend to be payable.

2.5 Dividend Payment Dates

Subject to this clause 2, Dividends in respect of a Dividend Period will be payable in arrears on the following dates (each a **Dividend Payment Date**):

- (a) 31 March 2021 and then on each following 30 September and 31 March until the next Reset Date or until the RRCPS are Exchanged; and
- (b) the Exchange Date.

2.6 Cumulative Dividends

Subject to clause 7.8, the Dividend Entitlement of a Holder is cumulative so that if, because of the provisions of clause 2.4, a Dividend is not paid in respect of a Dividend Period or the Dividend paid in respect of a Dividend Period is less than the Dividend Entitlement for that Dividend Period, the Holder has a claim in respect of that Dividend Entitlement, or the balance of that Dividend Entitlement.

2.7 Deductions

The Company may deduct, from any Dividend (or other amount payable to a Holder on Exchange), the amount of any withholding or other tax, duty or levy required by law to be deducted from it, and where it does so:

- (a) the Company must pay the amount required to be deducted, to the relevant revenue or collection authority within the time allowed for such payment;
- (b) the Company must pay to the Holder the balance of the Dividend (or other amount payable) after allowance for the payment referred to in clause (a) above; and
- (c) upon compliance by the Company with clauses (a) and (b) above, the Holder is taken to have been duly paid the Dividend (or other amount payable) by the Company.

2.8 Calculation of Dividends

- (a) All calculations of Dividends will be rounded to four decimal places.
- (b) For the purposes of making any Dividend payment in respect of a Holder's aggregate RRCPS, any fraction of a cent will be disregarded.

2.9 Record Dates

A Dividend is only payable to those persons registered as Holders at 7.00pm (Sydney time) on the relevant Record Date in respect of each Dividend or, in the case of a Dividend payable under clause 2.5(b) to Holders who have given notice to, or have been given notice by, the Company to Exchange those RRCPS.

2.10 Determination final

The determination by the Company of all amounts, rates and dates to be calculated or determined by it under these Terms of Issue is, in the absence of manifest or proven error, final and binding on the Company, and each Holder.

3. Exchange Rights

3.1 Holder Exchange Rights

- (a) A Holder may, subject to these Terms of Issue, require the Company to:
 - (i) on a Dividend Payment Date (including, for the avoidance of doubt, the Maturity Date), Convert (as provided for in clause 4) some or all of the Holder's RRCPS into Ordinary Shares;
 - (ii) after a Trigger Event occurs, Convert (as provided for in clause 4) or Repurchase (as provided for in clause 5) all (but not some only) of the Holder's RRCPS;

- (iii) on a Reset Date, Repurchase (as provided for in clause 5) all (but not some only) of the Holder's RRCPS,
- by giving the Company a Holder Exchange Notice.
- (b) The form of Holder Exchange Notice required under clause 3.1(a) is set out in Annexure A to these Terms of Issue.

- (d) If a Holder gives a Holder Exchange Notice under clause 3.1(a), the Company must, on the Exchange Date, Convert (as provided for in clause 4) or Repurchase (as provided for in clause 5) the Holder's RRCPS as stipulated by the Holder in the Holder Exchange Notice.
- (e) If a Holder gives a Holder Exchange Notice:
- (i) under clause 3.1(a)(i), the Exchange Date will be the relevant Dividend Payment Date; or

- (A) in the event that the Trigger Event is a Change of Control Event, the last Business Day of the week following the week in which the Holder Exchange Notice is received by the Company; or
- (B) in all other cases, the last Business Day of the month following the month in which the Holder Exchange Notice is received by the Company;
- (iii) under clause 3.1(a)(iii), the Exchange Date will be the relevant Reset Date.

3.2 Company Repurchase Rights

- (a) The Company may:
- (i) on a Reset Date, Repurchase (as provided for in clause 5) some or all RRCPS;
- (ii) subject to each Holder's right to Convert, after a Tax Event, Clean-Up Event or Change of Control Event occurs, Repurchase (as provided for in clause 5) all (but not some only) RRCPS,

- (b) The Exchange Date in respect of a Repurchase under this clause 3.3 is the Maturity Date.

3.4 Company Notification to Holders of an Event

The Company must notify Holders, by announcement on ASX, of the occurrence of a Trigger Event or Tax Event (**Company Event Notice**), specifying the particular event and providing reasonable particulars, as soon as practicable after becoming aware of the event.

4. Conversion

 - (iv) must be signed by the Holder or an authorised representative or officer of the Holder; and
 - (v) cannot be withdrawn without the written consent of the Company (at its absolute discretion).
- (d) A Holder Conversion Notice received by the Company:
 - (i) 10 or more Business Days before a Dividend Payment Date that is not a Reset Date or the Maturity Date will be effective on such date as may be determined by the Company (in its absolute discretion), provided such date is no later than the Dividend Payment Date immediately following the date on which the Company has received the Holder Conversion Notice; or
 - (ii) 50 or more days before a Dividend Payment Date that is a Reset Date or the Maturity Date will be effective on such date as may be determined by

the Company (in its absolute discretion), provided such date is no later than the Dividend Payment Date immediately following the date on which the Company has received the Holder Conversion Notice.

- (e) If a Holder Conversion Notice is received by the Company:
- (i) less than 10 Business Days before a Dividend Payment Date that is not a Reset Date or the Maturity Date, the Holder Conversion Notice will be effective on such date as may be determined by the Company (in its absolute discretion), provided such date is no later than the second Dividend Payment Date after the date on which the Company has received the Holder Conversion Notice; or
 - (ii) less than 50 days before a Dividend Payment Date that is a Reset Date or the Maturity Date:
 - (A) (for a Dividend Payment Date that is a Reset Date) the Holder Conversion Notice will, at the Company's absolute discretion be:
 - (I) effective on such date as may be determined by the Company (in its absolute discretion), provided such date is no later than the Dividend Payment Date immediately following the date on which the Company has received the Holder Conversion Notice; or

 - (ii) if it is received by the Company less than 50 days before the Maturity Date.
- (g) A Holder Conversion Notice received by the Company outside normal Business Hours or on a day which is not a Business Day will for all purposes be taken to have been received by the Company on the immediately following Business Day.

4.2 Conversion Mechanics

Subject to these Terms of Issue, upon Conversion, each RRCPS will entitle the Holder to be issued that number of Ordinary Shares (**Conversion Shares**) determined by the application of the following formula:

$$\text{Conversion Shares} = \frac{A}{B}$$

where:

A means the Face Value of the RRCPS being Converted plus the balance of any Dividend that is due but remains unpaid (**Conversion Amount**); and

B means the Conversion Price (as adjusted).

4.3 Effect of Conversion

Upon the Conversion of an RRCPS:

- (a) the Holder will be taken to have paid the Conversion Amount to the Company by way of subscription for Conversion Shares at an issue price per Conversion Share that is equal to the Conversion Price;
- (b) the Company will be taken to have issued to the Holder, and must register the Holder as the holder of, the Conversion Shares, and will notify the Registrar accordingly;
- (c) the Holder will be deemed to have consented to be registered as the holder of the Conversion Shares in the register of Members;
- (d) the Company (or the Registrar, on the Company's behalf) will send a holding notice in respect of the Conversion Shares to the Holder at the address for the Holder shown in the Register at the close of business on the day which is five Business Days before the Exchange Date;
- (e) the Company must use all reasonable endeavours to procure quotation of the Conversion Shares on a Stock Exchange; and
- (f) upon issue of the Conversion Shares, all other rights conferred, or restrictions imposed, by the RRCPS the subject of the Conversion, under these Terms of Issue will no longer have effect.

4.4 Ranking of Conversion Shares

Each Conversion Share issued will be fully paid and rank *pari passu* in all respects with all other fully paid Ordinary Shares on issue, except the holder of the Conversion Share will not be entitled to any dividend or other Distribution to which holders of Ordinary Shares are entitled that has not been paid as at the Exchange Date, where the applicable record date for determining such entitlements or other Distributions occurred prior to the relevant Exchange Date.

4.5 No fractional shares

No fractional Ordinary Shares will be issued on Conversion of an RRCPS and no cash adjustment will be made. If a calculation under this clause 4 results in an entitlement to a number of Ordinary Shares which includes a fraction of an Ordinary Share, the fraction will be disregarded.

4.6 Adjustments to Conversion Price for Bonus Issues

- (a) Subject to clause 4.6(b), if the Company makes a bonus issue of Ordinary Shares to shareholders, the Conversion Price will be adjusted immediately under the following formula:

$$CP = CPo \times \frac{RD}{(RD + RN)}$$

where:

CP means the Conversion Price applying immediately after the application of this formula;

CPo means the Conversion Price applying immediately before the application of this formula;

RD means the number of Ordinary Shares on issue immediately before the issue of new Ordinary Shares under the bonus issue;

RN means the number of Ordinary Shares issued under the bonus issue.

- (b) For the purpose of clause 4.6(a), an issue will be regarded as a bonus issue notwithstanding that the Company does not make offers to some or all shareholders with registered addresses outside Australia, provided that in so doing the Company is not in contravention of the applicable Listing Rules.

4.7 Adjustment to Conversion Price for Issues at less than current market price

If, at any time, the Company issues (otherwise than as mentioned in clauses 4.6) any Ordinary Shares (other than Conversion Shares or other Ordinary Shares issued on the exercise of any existing rights of conversion into, or exchange or subscription for or purchase of, Ordinary Shares (which includes, for the avoidance of doubt, Ordinary Shares issued on the exercise of any bonus options and / or loyalty options issued under the Prospectus issued by the Company dated 27 April 2020)) for cash at a price per Ordinary Share which is less than 90% of the VWAP during the five Business Days immediately preceding the date of the first public announcement of the terms of such issue or grant or for no consideration, the Conversion Price will be adjusted immediately using the following formula:

$$CP = CPo \times \frac{1}{P} \times \frac{(RD \times P) + (RN \times A)}{(RD + RN)}$$

where:

CP means the Conversion Price applying immediately after the application of this formula;

CPo means the Conversion Price applying immediately before the application of this formula;

P means the VWAP during the five Business Days immediately preceding the date of the first public announcement of the terms of such issue or grant;

RD means the number of Ordinary Shares on issue immediately before the issue of new Ordinary Shares under the issue of Ordinary Shares;

RN means the number of Ordinary Shares issued at a price per Ordinary Share which is less than 90% of the VWAP during the five Business Days immediately preceding the date of the first public announcement of the terms of such issue or grant; and

A means the subscription price per Ordinary Share for the issue.

4.8 Adjustment to Conversion Price for issues under a share purchase plan or dividend reinvestment plan at a discount

If, at any time, the Company issues any new Ordinary Shares under a share purchase plan or dividend reinvestment plan where the pricing of new Ordinary Shares under that plan is expressly calculated as a discount to a market price and that discount is greater than 5%, the Conversion Price will be adjusted immediately using the following formula:

$$CP = CPo \times \frac{(RD + ((1-D) \times RN))}{(RD + RN)}$$

where:

CP means the Conversion Price applying immediately after the application of this formula;

CP₀ means the Conversion Price applying immediately before the application of this formula;

RD means the number of Ordinary Shares on issue immediately before the issue of new Ordinary Shares under the share purchase plan or dividend reinvestment plan;

RN means the number of Ordinary Shares issued under the plan; and

D means the discount at which new Ordinary Shares are issued under the plan.

4.9 Adjustment to Conversion Price for return of capital and special dividends

If the Company makes a pro rata return of capital or special dividend to holders of Ordinary Shares without cancellation of any Ordinary Shares, the Conversion Price will be adjusted under the following formula:

$$CP = CP_0 \times \frac{(P-C)}{P}$$

where:

CP means the Conversion Price applying immediately after the application of this formula;

CP₀ means the Conversion Price applying immediately before the application of this formula;

P means the VWAP during the period from (and including) the first Business Day after the announcement to the Stock Exchange of the return of capital up to and including the last Business Day of trading cum the return of capital (or if there is no period of cum return of capital, an amount reasonably determined by the Directors as representing the value of a Ordinary Share cum the return of capital); and

C means with respect to a return of capital or special dividend (being a dividend that is paid other than in accordance with the Company's dividend policy from time to time), the amount of the cash and/or the value (as reasonably determined by the Directors) of any other property distributed to holders of Ordinary Shares per Ordinary Share (or such lesser amount such that the difference between P and C is greater than zero).

4.10 Deemed Amendment

Any adjustment of the Conversion Price under this clause 4 will be taken to be an amendment to these Terms of Issue and will be binding on the Company and all Holders and these Terms of Issue will be construed accordingly. Any such adjustment will be notified promptly to the Holders and the Stock Exchange.

4.11 On Market Buy-Backs

No adjustment to the Conversion Price shall occur as a result of an on market buy-back of Ordinary Shares.

5. Repurchase

5.1 Holder Exchange Notice requiring Repurchase

- (a) A Holder Exchange Notice requiring the Company to Repurchase all of the Holder's RRCPS under clause 3.1(a)(ii) or clause 3.1(a)(iii) (**Holder Repurchase Notice**) must be given to the Company:
- (i) (for a Holder Repurchase Notice given under clause 3.1(a)(ii)), on a Business Day that is within 10 Business Days after a Company Event Notice is issued; or
 - (ii) (for a Holder Repurchase Notice given under clause 3.1(a)(iii)), at least 50 days prior to the relevant Reset Date.
- (b) A Holder Repurchase Notice:
- (i) must be in writing;
 - (ii) must specify the number of RRCPS to be Repurchased (such number of RRCPS must have an aggregate Face Value of at least A\$10,000 or otherwise be all of the RRCPS held by the Holder);
 - (iii) must be accompanied by evidence of title for the RRCPS the subject of the Holder Repurchase Notice as may reasonably be required by the Company and the Registrar;
 - (iv) must be signed by the Holder or an authorised representative or officer of the Holder; and
 - (v) cannot be withdrawn without the written consent of the Company (at its absolute discretion).
- (c) Unless the Company, in its absolute discretion, determines otherwise:
- (i) a Holder Repurchase Notice given under clause 3.1(a)(ii) will not be effective if the Holder Repurchase Notice is received later than within 10 Business Days after a Company Event Notice is issued; and
 - (ii) a Holder Repurchase Notice given under clause 3.1(a)(iii) will not be effective if the Holder Repurchase Notice is received less than 50 days prior to the relevant Reset Date.
- (d) A Holder Repurchase Notice received by the Company outside normal Business Hours or on a day which is not a Business Day will for all purposes be taken to have been received by the Company on the immediately following Business Day.

5.2 Meaning of Repurchase

"**Repurchase**", in respect of a RRCPS, means, at the option of the Company, the RRCPS is redeemed, bought back (other than by an on-market buy back), cancelled pursuant to a reduction of capital or sold to a third party (or any combination of these) for an amount of cash equal to the RRCPS Face Value plus outstanding Dividends payable on those RRCPS.

5.3 Repurchase Mechanics

- (a) If the Company elects to Repurchase the RRCPS by redemption or cancellation:

- (i) the Company will Repurchase the RRCPS on the relevant Exchange Date;
 - (ii) the Company will pay:
 - (A) (for a Company Repurchase Notice or Holder Repurchase Notice issued pursuant to a Change of Control Event) 104% of the RRCPS Face Value; or
 - (B) (for a Company Repurchase Notice or Holder Repurchase Notice issued in any other circumstances) the RRCPS Face Value, **(Repurchase Price)** plus outstanding Dividends payable on the RRCPS per RRCPS to the Holder no later than 14 days after the relevant Exchange Date;
 - (iii) upon payment of the Repurchase Price plus outstanding Dividends payable on the RRCPS per RRCPS to the Holder, all other rights conferred, or restrictions imposed, by those RRCPS held by that Holder under these Terms of Issue will no longer have effect;
 - (iv) if the Repurchase is to be by way of a buy-back of RRCPS:
 - (A) the Company will make an offer prior to the Exchange Date to buy-back the RRCPS for the Repurchase Price plus outstanding Dividends payable on the RRCPS on the Exchange Date by announcing the offer on ASX;
 - (B) if the Company makes a buy-back offer referred to clause 5.3(a)(iv)(A), subject to any approval of the buy-back offer required in accordance with the Corporations Act, each Holder agrees to accept and will be deemed to have accepted that buy-back offer for their RRCPS and will be deemed to have sold those RRCPS to the Company on the Exchange Date; and
 - (C) if under applicable law Holders are entitled to vote on a resolution to approve that buy-back, each Holder agrees to vote in favour of that resolution.
 - (v) if the Repurchase involves a reduction of capital with respect to RRCPS and under applicable law Holders are entitled to vote on a resolution to approve that reduction of capital, each Holder agrees to vote in favour of that resolution.
- (b) If the Company elects to Repurchase RRCPS by procuring a sale to a third party:
- (i) each Holder agrees to sell, on the Exchange Date, the number of RRCPS nominated by the Company to the third party nominated by the Company for any price determined by the Company that is not less than the Repurchase Price;
 - (ii) the Company must cause to be paid to the Holder on the relevant Exchange Date:
 - (A) the Repurchase Price for their RRCPS sold; and
 - (B) the Dividend to which the Holder would have been entitled if the Dividend Period ended on the relevant Exchange Date; and

- (iii) the Company is absolutely entitled to retain for its own benefit any difference between the price for which the RRCPS are sold and the Repurchase Price and the Holders have no entitlement to the difference.

5.4 On market buy back

Subject to compliance with any applicable law or requirement of the Stock Exchange, the Company may buy-back RRCPS at any time and at any price by an on-market buy-back.

6. Resetting of Terms

6.1 Resetting of Terms

If any RRCPS will be on issue on a relevant Reset Date, the Company may at least 75 Business Days before that Reset Date give notice to the Holders of:

- (a) the next Reset Date after the relevant Reset Date, provided that each Reset Date will be no less than 12 months after the immediately preceding Reset Date, and will also be a Dividend Payment Date before the Maturity Date;
- (b) the Dividend Rate applying to the RRCPS from and including the relevant Reset Date until (but not including) the next Reset Date (**Reset Period**) or the Maturity Date; and
- (c) the Conversion Price applying during the Reset Period; and
- (d) the timing of Dividend payments during the Reset Period.

If such notice is given, the terms referred to in paragraphs (a) to (d) inclusive above shall apply from the relevant Reset Date.

6.2 Deemed reset

- (a) If the Company does not give notice to the Holders of the matters set out in clause 6.1, the Company will be deemed to have given a notice under clause 6.1, specifying that the next Reset Date to be the third anniversary of the relevant Reset Date and that the Dividend Rate, Conversion Price and the timing of Dividend payments to apply in the Reset Period are the same as those applying immediately before the relevant Reset Date.
- (b) If the next Reset Date determined under clause 6.2(a) would be on or after the Maturity Date, there will be no further Reset Dates.

7. Ranking and participation

7.1 Ranking

RRCPS rank equally amongst themselves in all respects.

7.2 Preferential Dividend

- (a) Until Exchange, RRCPS rank in priority to Ordinary Shares for the payment of dividends.
- (b) In any Dividend Period, the Directors of the Company must not pay a dividend on any other shares of the Company which rank equally with RRCPS as to dividends, unless Dividends are paid in relation to the RRCPS (including any Shortfall) and

those other shares in proportion to the amounts to which the Holders and the holders of those other shares respectively are entitled in respect of that Dividend Period.

7.3 Unpaid Dividends
