Jumbo enters Canadian charity lottery market with acquisition of Stride

Jumbo Interactive Limited (**ASX:JIN**) today announced it has entered into an agreement to acquire 100% of Canadian lottery management provider Stride Management Inc. (**Stride**) for a cash consideration of A\$11.7 million¹ (C\$11.0 million) subject to satisfaction of certain conditions under the agreement.

The acquisition of Stride is another key strategic step in Jumbo's international expansion strategy following the successful acquisition of UK-based Gatherwell Ltd in November 2019.

Calgary-based Stride provides services to over 750,000 active lottery players in the Alberta and Saskatchewan provinces. It operates within the A\$1.2 billion^{1,2} estimated Total Addressable Market of the Canadian Charitable Lottery and Raffle sector. Stride is forecasting to generate ~A\$122 million^{1,3} (~C\$115 million³) in Total Transaction Value with estimated service revenue of ~A\$6.5 million^{1,3} (~C\$6.1 million³) and Net Profit Before Tax (**NPBT**) of ~A\$2.5 million^{1,3} (~C\$2.3 million³).

Jumbo Interactive CEO and Founder Mike Veverka said "Since 1997 Stride has grown to service over 750,000 active lottery players generating ~A\$122 million in annual ticket sales. The acquisition will significantly add scale to our Managed Services business and gives us a strategic foothold to grow in the Canadian charity lotteries market."

"Stride has a proven track record working with charitable organisations for over 20 years and we look forward to supporting the not-for-profit sector in Canada in meeting the challenges from COVID-19 and digitising their fundraising programs utilising Jumbo's world leading software and services."

The total consideration of A\$11.7 million¹ (C\$11.0 million) will be funded entirely from available cash with 70% (A\$8.2 million¹, C\$7.7 million) payable on completion and the remaining 30% (A\$1.76¹ million, C\$1.65 million) to be paid in two instalments in FY22 and FY23 subject to earnings hurdles being met. The total consideration reflects a NBPT multiple of ~4.8x based on the forecast performance for the year ended 30 September 2021.
