INVESTOR PRESENTATION

AUGUST 2021

DISCLAIMER

This presentation ("Presentation") has been prepared by 88 Energy Limited (the "Company" or "88 Energy") solely for informational meetings relating to it and is being delivered for information purposes only to a limited number of persons. By attending the meeting where this Presentation is made, or by reading the presentation slides, you agree to be bound by the following limitations.

This Presentation is being supplied to you solely for your information. The Presentation does not purport to contain all information that a prospective investor may require. While the information contained herein has been prepared in good faith neither the Company nor its respective shareholders, directors, officers, agents, employees, or advisors give, has given or has authority to give, any representations or warranties (express or implied) as to, or in relation to, the accuracy, reliability or completeness of the information in this Presentation, or any revision thereof, or of any other written or oral information made or to be made available to any interested party or its advisers (all such information being referred to as "Information") and liability therefore is expressly disclaimed. The information contained in this Presentation is not to be relied upon for any purpose whatsoever. In furnishing this Presentation, neither the Company or its respective shareholders, directors, officers, agents, employees or advisers undertakes or agree to any obligation to provide the recipient with access to any additional information or to update this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation is confidential and is made available strictly on the basis that it will not be photocopied, reproduced, redistributed or disclosed, in whole or in part, to any other person at any time, nor its contents disclosed or used for any purpose, without the prior written consent of the Company.

The information contained in this Presentation should not be assumed to have been updated at any time subsequent to the date shown on the cover hereof. The distribution of this Presentation does not constitute a representation by any person that such information will be updated at any time after the date of this Presentation.

The information contained herein is intended for information purposes only and is neither an offering document nor for public distribution and are not intended to be, nor should they be construed to be, investment advice or a recommendation by 88 Energy or any of its shareholders, directors, officers, agents, employees or advisors. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumption and each recipient should satisfy itself in relation to such matters. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this Presentation. Any recommendations, forecasts, projections or other forward-looking statements regarding the purchase or sale of 88 Energy's securities may change without notice.

All statements contained herein that are not clearly historical in nature are forward-looking. Forward-looking statements may be identified by use of forward-looking words, such as "expects", "estimates", "plans", "assumes", "anticipates", "believes", "opinions", "forecasts", "projections", "guidance", "may", "could", "will", "potential", "intend", "should", "predict" (or the negative thereof) or other statements that are not statements of fact. Similarly, forward-looking statements in this Presentation include, but are not limited to, anticipated developments of 88 Energy's drilling projects and the timing thereof, capital investment levels and the allocation thereof, pipeline capacity, government royalty rates, reserve and resources estimates, the level of expenditures for compliance with environmental regulations, site restoration costs including abandonment and reclamation costs, exploration plans, acquisition and disposition plans including farm out plans, net cash flows, geographic expansion and plans for seismic surveys. Drilling wells is speculative, often involving significant costs that may be more than estimated and may not result in any discoveries. In addition, please note that statements relating to "reserves" or "resources" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves and resources described can be profitably produced in the future. 88 Energy's discovered resources are not reserves. Such statements represent 88 Energy's internal projections, estimates or beliefs concerning, among other things, an outlook on the estimated amounts and timing of capital expenditures, anticipated future debt levels and incentive fees or revenues or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance.

These statements are only predictions. Actual events or results may differ materially. Although 88 Energy believes the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will be realized.

These statements are subject to certain risks and uncertainties and may be based on assumptions that could cause actual results to differ materially from those anticipated or implied in the forward-looking statements. New factors emerge from time to time and 88 Energy cannot assess the potential impact of any such factor on its activities or the extent to which any factor, or combination of factors, may cause actual future results to differ materially from those contained in any forward-looking statement.

Statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. These forward-looking statements are made as of the date hereof. Each of 88 Energy and its respective shareholders, directors, officers, agents, employees or advisors disclaim any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by law or by any appropriate regulatory authority. Nothing in this Presentation or in documents referred to in it should be considered as a profit forecast and 88 Energy's forward-looking statements are expressly qualified in their entirety by this cautionary statement.

Past performance of the Company or its securities cannot be relied on as a guide to future performance. This Presentation does not constitute, or form part of or contain any invitation or offer to any person to underwrite, subscribe for, otherwise acquire, or dispose of any securities in the Company or advise persons to do so in any jurisdiction, nor shall it, or any part of it, form the basis of or be relied on in connection with or act as an inducement to enter into any contract or commitment therefore. This Presentation does not constitute a recommendation regarding the securities of the Company. No reliance may be placed for any purpose whatsoever on the information or opinions contained in this Presentation or on its completeness and no liability whatsoever is accepted for any loss howsoever arising from any use of this Presentation or its contents or otherwise in connection therewith. The Company and its respective directors, officers, employees, agents, representatives and/ or advisers shall not be responsible for any costs or expenses incurred by any recipient of this Presentation in connection with the appraisal or investigation of any information contained herein and/ or for any other costs and expenses incurred by such recipient.

The delivery or distribution of this Presentation in or to persons in certain jurisdictions may be restricted by law and persons into whose possession this Presentation comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of the relevant jurisdiction.

This Presentation is for information purposes only and shall not constitute an offer to buy, sell, issue or acquire, or the solicitation of an offer to buy, sell, issue or acquire, any securities. By attending this Presentation (or by accepting a copy of this Presentation and not immediately returning it), the recipient represents and warrants that it is a person to whom this Presentation may be delivered or distributed without a violation of the laws of any relevant jurisdiction. This Presentation is not to be disclosed to any other person or used for any other purpose and any other person who receives this Presentation should not rely or act upon it.

Pursuant to the requirements of the ASX Listing Rules Chapter 5 and the AIM Rules for Companies, the technical information and resource reporting contained in this Presentation was prepared by, or under the supervision of, Dr Stephen Staley, who is a Non Executive Director of the Company. Dr Staley has more than 35 years' experience in the petroleum industry, is a Fellow of the Geological Society of London, and a qualified Geologist Geophysicist who has sufficient experience that is relevant to the style and nature of the oil prospects under consideration and to the activities discussed in this document. Dr Staley has reviewed the information and supporting documentation referred to in this Presentation and considers the prospective resource estimates to be fairly represented and consents to its release in the form and context in which it appears. His academic qualifications and industry memberships appear on the Company's website and both comply with the criteria for "under clause 3.1 of the Valmin Code 2015 Terminology and standards adopted by the Society of Petroleum Engineers "Petroleum Resources Management System" have been applied in producing this document.

88E confirms that it is not aware of any new information or data that materially affects the information included in the previous market announcement and, in the case of estimates of prospective resources or reserves, that all material assumptions and technical parameters underpinning the estimates in the previous market announcement continue to apply and have not materially changed.

88 ENERGY IS AN OIL AND GAS COMPANY FOCUSED ON UNLOCKING VALUE FROM A PORTFOLIO OF WORLD CLASS ASSETS ON THE NORTH SLOPE OF ALASKA

**THE MERLIN-2 APPRAISAL
WELL PLANNED FOR Q1
2022 IS TARGETING 652
MILLION BARRELS^{1,2}**

1. Mean unrisked resource - Net Entitlement to 88 Energy
2. Please refer to cautionary statement on page 4.

* Cautionary Statement: The estimated quantities of petroleum that may be potentially recovered by the application of a future development project relate to undiscovered accumulations. These estimates have both an associated risk of discovery and a risk of development. Further exploration, appraisal and evaluation are required to determine the existence of a significant quantity of potentially movable hydrocarbons.

INVESTMENT HIGHLIGHTS

1

WORLD CLASS PORTFOLIO OF ALASKAN ACREAGE

Combined portfolio with 3.4 billion BOE* ² prospective resource and 2P reserves of 94 million barrels of oil* ¹

2

MERLIN-2 APPRAISAL WELL PLANNED Q1 2022

Follow up to the successful Merlin-1 exploration well in Q1 2021 the Merlin-2 appraisal well targeting 652 million barrels of oil* ²

3

OPERATOR WITH A TRACK RECORD OF DELIVERY

Five wells drilled on the North Slope since 2016, all operated by 88 Energy

4

STRONG BOARD AND MANAGEMENT TEAM

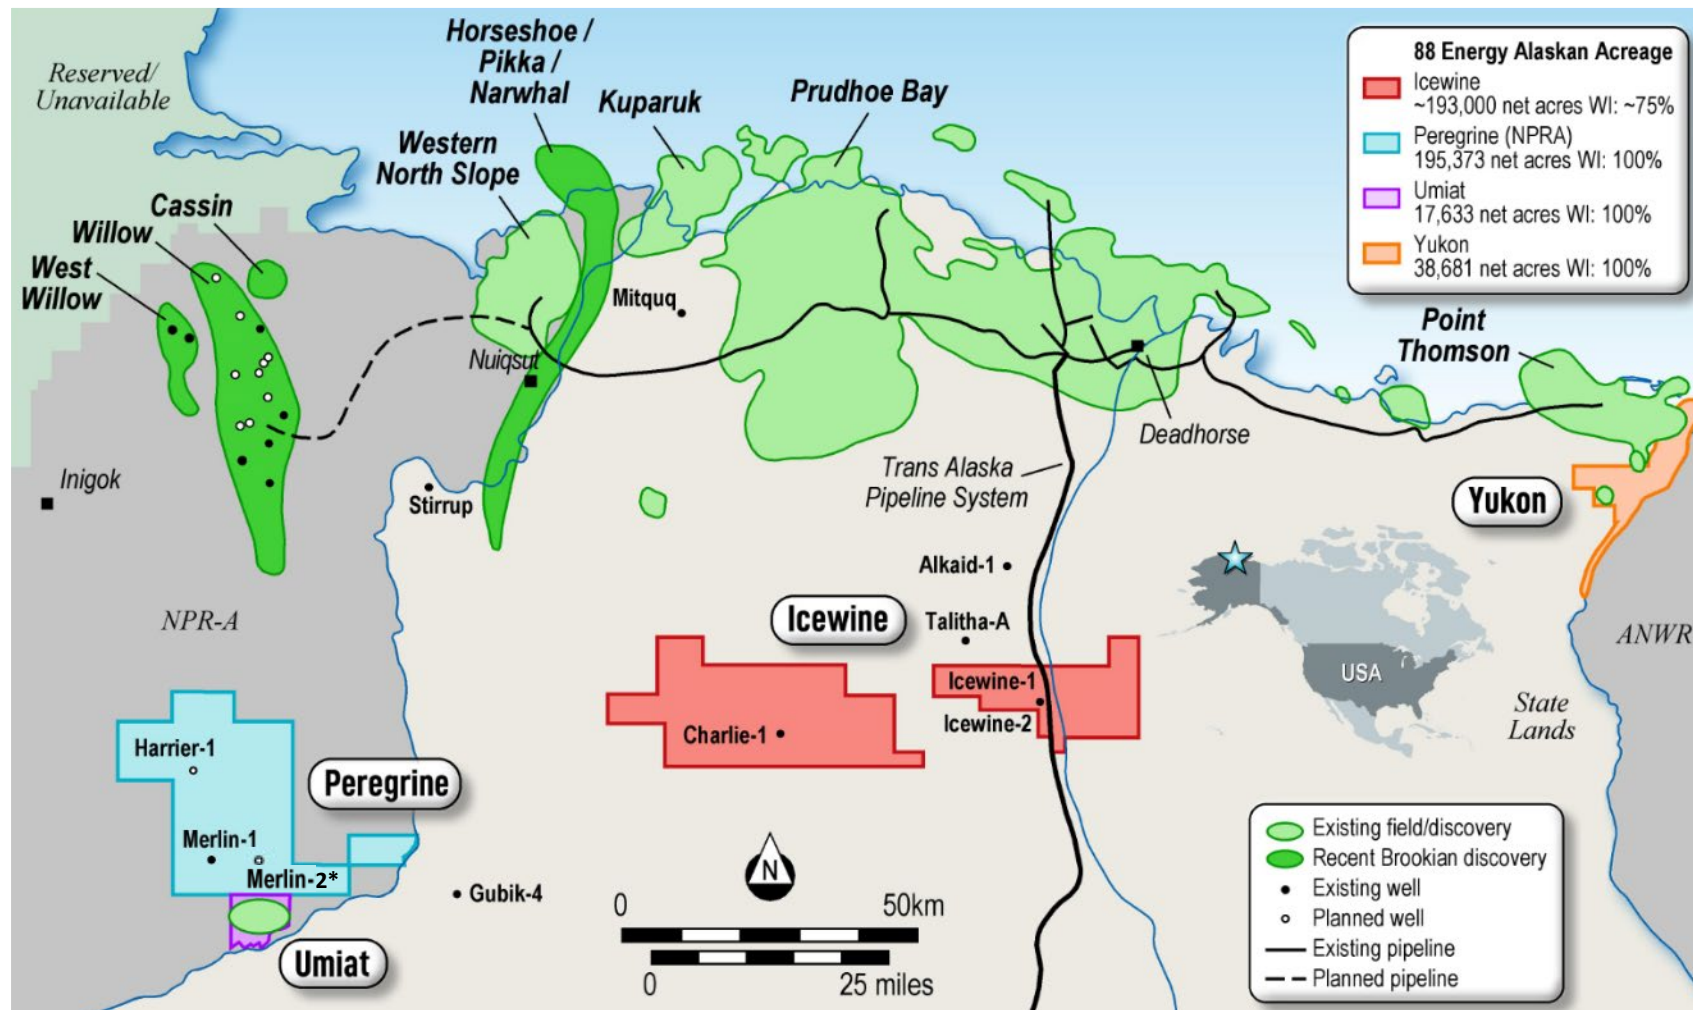

Technically and commercially strong team with extensive international oil and gas experience and networks

Note:

1. Net Reserves to 88 Energy entitlement
2. Mean unrisks resource - Net Entitlement to 88 Energy

NORTH SLOPE, ALASKA

Major discoveries and 88 Energy acreage map

Note:

1. Independent estimate (Conventional)
2. Armstrong, 2016
3. Conoco, 2018
4. Mean unrisks resource - Net Entitlement to 88 Energy

5. Please refer to cautionary statements on page 4

PLANNED ACTIVITY 2H 2021

- Secure rig for Merlin-2 drilling
- Pre-planning and permitting in advance of Merlin-2 drilling expected in 1Q 2022
- Advance Umiat development studies
- Explore farm-out opportunities
- Aggregate resources close to Yukon leases

BOARD OF DIRECTORS

Strengthened Board with extensive oil and gas experience

MR PHILIP BYRNE

Non-Executive Chairman

A petroleum geologist with over 40 years' experience in the international oil and gas industry.

Previously Executive VP Marketing & Trading, Commercial & Business Development, for Santos Energy, MD & CEO of Nido Petroleum, President of the North-West Shelf Australia LNG organisation (the JV marketing arm of the NW Shelf LNG Project) and roles with BHP

MR ASHLEY GILBERT

Managing Director

A Chartered Accountant with more than 20 years' experience in commerce and public practice.

Previously CFO and Company Secretary of 88 Energy. Prior to 88 Energy Mr Gilbert was the CFO of Neptune Marine Services and CFO of Nido Petroleum. He has also held various finance positions within Woodside Petroleum Limited and in public practice

MS JOANNE KENDRICK

Non-Executive Director

A petroleum engineer with over 25 years' experience in the global oil and gas sector.

Currently Non-Executive Director of Buru Energy Limited & Sactasco Limited. Previously held Board and senior management positions with various international oil and gas companies including MD and CEO of Blue Star Helium.

DR STEPHEN STALEY

Non-Executive Director

A Fellow of the Geological society with 38 years' of management and technical experience in global oil, gas and power sectors including with Conoco and BP.

Founding MD of upstream start-ups Fastnet Oil & Gas and Independent Resources and a Non-Executive Director of Cove Energy

A SOCIALLY RESPONSIBLE COMPANY

Adopting the global standard in ESG reporting: WEF

GOVERNANCE

- Setting purpose
- Governance body composition
- Material issues impacting stakeholders
- Anti-corruption practices
- Mechanisms to protect ethical behaviour
- Integrating risk and opportunity into business process

PEOPLE

- Diversity & inclusion
- Pay equality
- Wage level
- Child, forced or compulsory labour
- Health and safety
- Training provided

PLANET

- GHG emissions
- TCFD implementation
- Land use and ecological sensitivity
- Water consumption

PROSPERITY

- Rate of employment
- Economic contribution
- Financial investment contribution
- Total R&D expenses
- Total tax paid

“88 ENERGY IS PROUD TO BE INTRODUCING THE GLOBAL GOLD STANDARD IN ESG PRINCIPLES TO OUR WAY OF THINKING AND BUSINESS PRACTICE”

Ashley Gilbert, Managing Director
ASX announcement, 30 June 21

**QUALITY ASSETS IN A
WORLD CLASS LOCATION**

WORLD CLASS LOCATION

A well-established, prolific oil province with an attractive fiscal regime

PROLIFIC OIL PROVINCE

North Slope contains some of the largest oil fields in the U.S. Prudhoe Bay is the largest onshore oilfield in North America¹

ACCESS TO INFRASTRUCTURE

Existing road systems and proximity to the Trans-Alaska Pipeline System

ATTRACTIVE FISCAL REGIME

Relatively low royalty rates and attractive incentives for new oil production

A SUPPORTIVE STATE

The energy industry is an important source of revenue and employment for Alaska

PRICING PREMIUM

Alaska North Slope Crude trading at premiums to WTI²

UNDER EXPLORED

Compared to most basins, Alaska is relatively underexplored, with ~500 exploration wells on the North Slope³

Note:

A QUALITY PORTFOLIO

Within the North Slope, Alaska

P

PROJECT PEREGRINE

Operator, 100% working interest and ~195K acres

U

UMIAT OIL FIELD

Operator, 100% working interest and ~18K acres

I

PROJECT ICEWINE

Operator, ~75% working interest and ~193K net acres

Y

YUKON LEASES

Operator, 100% working interest and ~39K net acres

NORTH SLOPE BOROUGH

SIGNIFICANT ACTIVITY ACROSS THE ASSET LIFECYCLE

Delivering through the phases

P PROJECT PEREGRINE

- Acquired Q2 2020
- Farmed-out Q4 2020
- Drilled Merlin-1 Q1 2021
- Updated Net Mean prospective resources of 1.6 BBOE^{1,3}
- Planning underway to drill Merlin-2 Appraisal well Q1 2022

I PROJECT ICEWINE

- Acquired 2D and 3D seismic
- Drilled 2 unconventional wells
- Drilled Charlie-1 conventional well – condensate discovery
- Mean prospective reserves 1.77 BBOE^{1,3}
- Potential for Talitha-1 target extension onto Icewine East

Y YUKON LEASES

- Prospective resources 90 MMBO^{1,3}
- Advanced discussion with nearby owners to unlock acreage potential
- Expanded lease holding with acquisition of Tract 29 acreage

U UMIAT OIL FIELD

- Acquired Q1 2021
- 2P reserves 94 MMBO^{2,3}
- Strategic acquisition
- Historic oil discovery in 1946
- 60+ wells drilled
- Potential for development being assessed

Proven and capable operator on the North Slope

Note:

1. Unrisked Net Entitlement to 88 Energy Prospective Resources
2. Net reserves to 88 Energy entitlement
3. Please refer to cautionary statements on pages 4.

P PROJECT PEREGRINE

Operator with 100% working interest

- The project area encompasses 195,373 acres with multiple large drillable prospects
- On trend to successful discovered field to the north in same play type, Willow (COP 2013)
- The Merlin-1 well drilled in Q1 2021, demonstrated;
 - the presence of oil in multiple stacked targets
 - evidenced the presence of moveable hydrocarbons
 - confirmation of geological model

PROSPECTIVE RESOURCE (MMBO, UNRISKED) ¹					
Prospects	Formation	Low	Best	High	Mean
Merlin-2 (N20, N19 & N18)	Nanushuk	64	329	1,467	652
Merlin-1A (N14S)	Nanushuk	25	87	282	132
Harrier	Nanushuk	41	175	796	353
Harrier Deep	Torok / Basin Floor Fan	35	226	1,132	486
TOTAL MEAN PROSPECTIVE OIL RESOURCE					1,624 ¹

Note:

1. Please refer to the ASX release dated 16 August 2021 for full details with respect to the Prospective Resource estimate, associated risking and applicable Cautionary Statement on page 4.

American oilfield Rig 111 onsite at Merlin-1

Shows in cuttings, core chips and whole sidewall cores over multiple intervals at Merlin-1

PROJECT PEREGRINE

Merlin-1 results

- Merlin -1 testing demonstrated the presence of oil in multiple stacked targets in N20 and N18 intervals
- A new target, the N19 sand was intersected returning a hydrocarbon signature
- 41 feet of net log pay across the three reservoir intervals
- Core data and limited RDT™ evidenced the presence of moveable hydrocarbons
- Geochemical analysis of fluid extracted from Merlin-1 cores demonstrates definitive evidence of light oil, with an estimated API gravity between mid 30 to low 40 API across two independent studies²
- These successful well results¹ have been incorporated into an updated Merlin prospective resource estimate and decreased risking
- Planning for a follow-up appraisal well, Merlin-2 is underway
- Farm-out targeting strategic partner underway

Merlin-1 encounters movable hydrocarbons in net pay

Note:

1. Reference ASX announcement 16 August '21
2. VAS analysis and phase 2 geochemistry

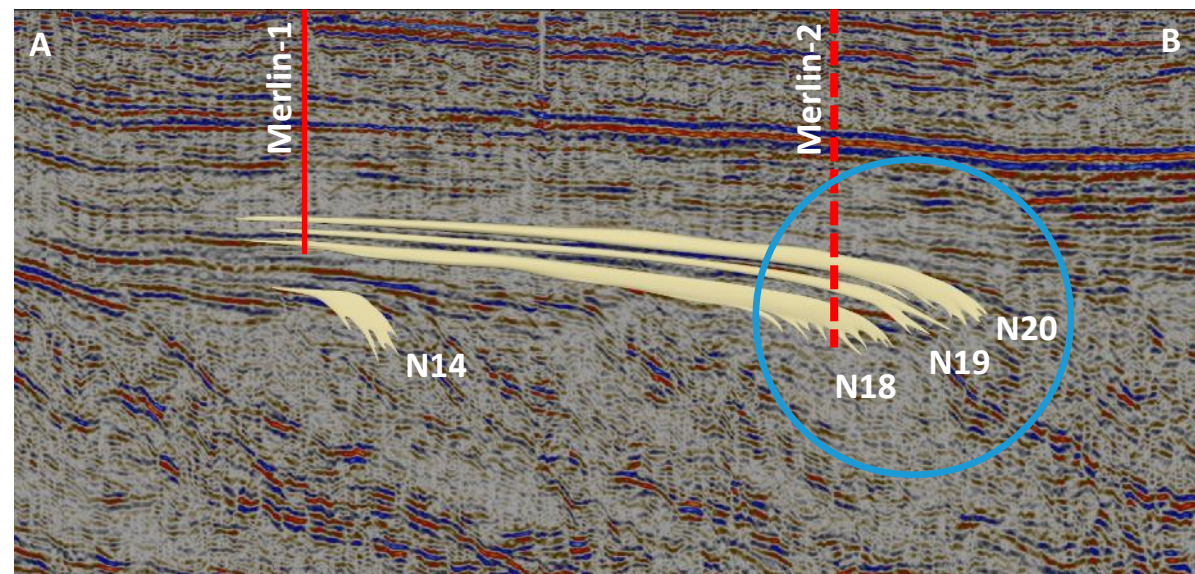

“ WE ARE THRILLED WITH THE RESULTS FROM THE MERLIN-1 EXPLORATION WELL, WITH LIGHT OIL DETECTED IN THE NANUSHUK ACROSS THREE SEPARATE HORIZONS ”

Ashley Gilbert, Managing Director
ASX announcement, 16 August '21

P PROJECT PEREGRINE

Merlin-2 appraisal well

- Merlin-2 appraisal well planned for upcoming winter field season, Q1 2022
- 3 potential future appraisal well locations selected to the east of Merlin-1, closer to the shelf break, where enhanced reservoir thickness and quality are expected
- Merlin-2 targeting gross mean prospective resource of 652 million barrels^{1, 2} in the N20, N19 and N18 horizons
- Permitting of and rig selection underway
- Farm-out commenced to secure strategic partner

★ Merlin-2 appraisal well planning underway

Note:

1. Mean unrisin- resource - Net Entitlement to 88 Energy
2. Please refer to cautionary statement on page 4

P PROJECT PEREGRINE

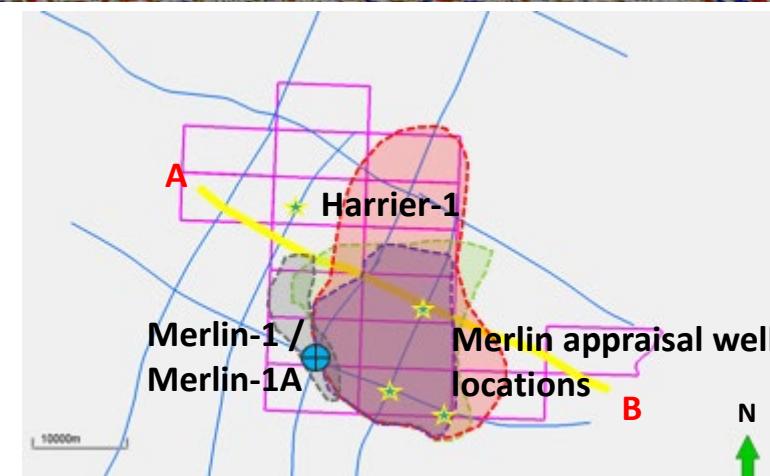

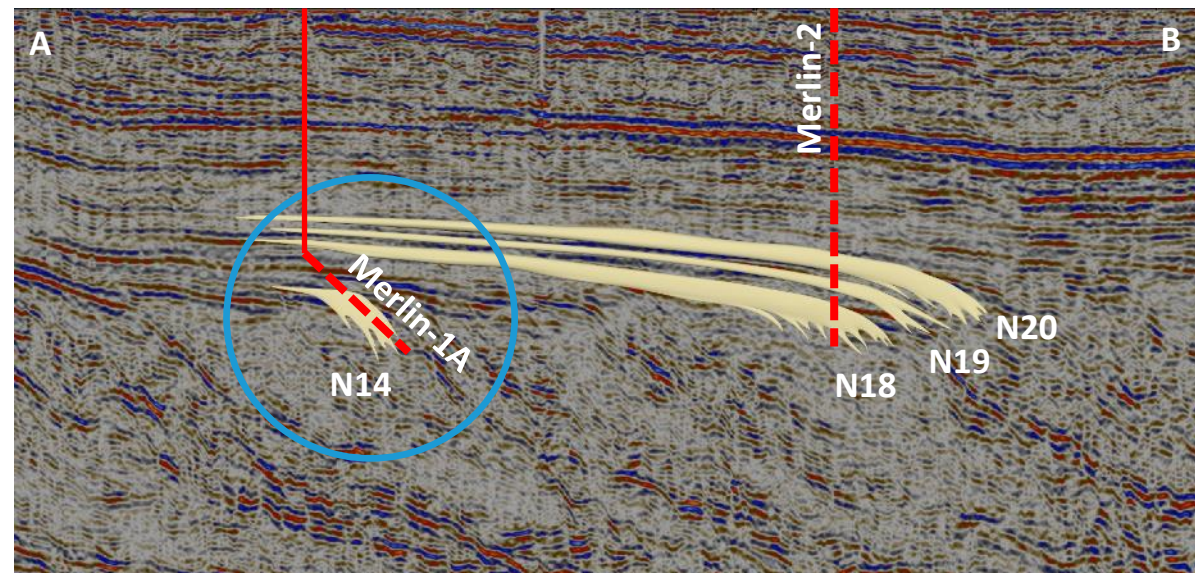

Additional drilling locations

- Merlin-1 did not penetrate the deeper N14 horizon which is anticipated to be a further ~600 feet deeper than drilled
- Potential to drill a Merlin-1A well to a depth of ~6,000 feet to intersect the N14 horizon
- Merlin-1A well targeting N14 horizon with a gross mean prospective resource of 132 million barrels^{1, 2}
- Harrier-1 drilling location remains a future drilling location for Project Peregrine
- Harrier-1 is designed to intersect 2 stacked reservoir targets, the N15 and N14 North, in the Nanushuk Formation targeting a gross mean prospective resource of 353 million barrels^{1, 2}

★ Multiple future drilling locations identified

Note:

1. Mean unrisksd resource - Net Entitlement to 88 Energy
2. Please refer to cautionary statement on page 4

U UMIAT OIL FIELD

Operator with 100% working interest

- 88 Energy is the operator of Umiat and holds a 100% working interest in the acreage
- Located immediately adjacent to Project Peregrine
- Historic flow testing demonstrated a sustained rate of 200 barrels per day with no water (with a maximum rate of 800 barrels of oil per day)
- Further studies conducted in conjunction with the Merlin-1 post well testing and analysis have identified additional upside at the Umiat oil field
- Studies underway to review historical Umiat oil field development plans have identified potential cost savings on planned development CAPEX
- An opportunity exists for the optimisation of historic development plans
- A combined Project Peregrine and Umiat have the potential for a large oil field development

RESERVES (MBO) ¹

Classification	Gross	Net ^{1,2}
Probable reserves (2P)	123,692	94,006
Possible reserves (3P)	57,156	43,439

Note:

1. Refer to ASX Announcement on 11 January 2021 for further detail in relation to pricing assumptions and ASX Reserves & Resources Reporting Notes
2. Note cautionary statement on page 4

PROJECT ICEWINE

Operator with ~75% working interest

- Independent resource of 1.77 billion BOE²
- A reassessment of the potential across the acreage is planned ahead of an expected strategic farm-out
- Results from the nearby Talitha-A well¹ are encouraging and have the potential to extend into the 88E leases
- 88E internal geoscience team will reassess the potential across the acreage

PROSPECTIVE RESOURCE (MMBO, UNRISKED)					
Prospects	Formation	Low	Best	High	Mean
Lima Complex	Seabee / Basin Floor Fan	214	978	2,804	1,419
Stellar Fan 1-6	Torok / Basin Floor Fan	79	248	722	355
TOTAL MEAN PROSPECTIVE OIL RESOURCE					1,774 ²

Note:

1. Talita-A well was drilled and tested by Pantheon Resources LLC in Q1 2021
2. Please refer to the ASX release dated 10 November 2020 for full details with respect to the Prospective Resource estimate, associated risking and applicable Cautionary Statement on page 4.

Y YUKON LEASES

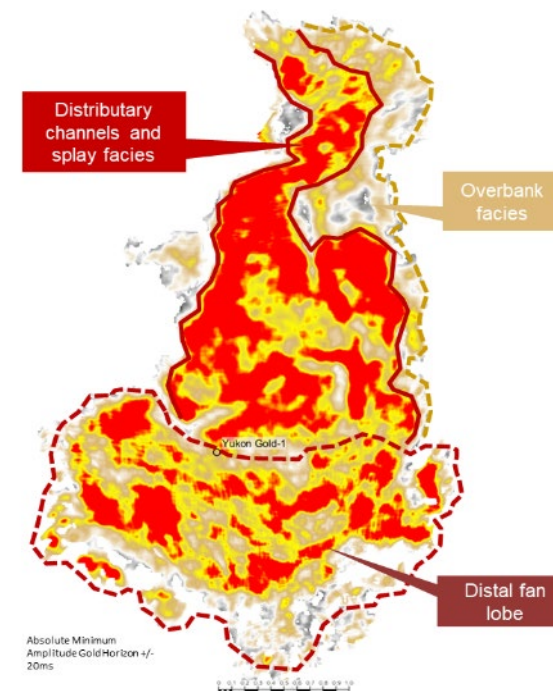

Operator with 100% working interest

- A historic oil discovery is located in the acreage
- Increased acreage position in January 2021 with the acquisition of Tract 29
- Discussions continue with nearby lease owners for joint development area
- Future exploration drilling plans are ongoing and subject to farm-out and other discussions

PROSPECTIVE RESOURCE (MMBO, UNRISKED)					
Prospects	Formation	Low	Best	High	Mean
Cascade	Canning / Fan	24	64	162	82
PETM1	Staines Tongue / Topset	3	6	10	6
PETM2	Staines Tongue / Topset	1	1	2	1
TOTAL MEAN PROSPECTIVE OIL RESOURCE ^{1,2}					90

Note:

1. Classified in accordance with SPE-PRMS as at 7th November 2018 using probabilistic and deterministic methods on an unrisked basis. Prospects and Leads identified from interpretation of modern 3D seismic acquired in 2018 across the Yukon Leases, which comprises 38,681 gross acres on the Central North Slope of Alaska. 88 Energy is Operator of record at the Yukon Leases (through its wholly owned subsidiary Regenerate Alaska, Inc.
2. Note cautionary statement on page 4

STRONG INVESTMENT CASE

SHORT TERM CATALYSTS

A strong newsflow pipeline

- Drilling of Merlin-2 appraisal well in Q1 2022 targeting 652 million barrels^{1,2} in the N20, N19 and N18 horizons
- Potential farm-out of Peregrine acreage to secure strategic partner
- Unlock value of Yukon area by advancing negotiations with nearby resource owners for aggregation into joint development area
- Reassessment of Icewine acreage following neighbouring Talitha-1 well ahead of potential farm-out

“88 ENERGY IS AT AN INCREDIBLY EXCITING JUNCTURE WITH MANY FUTURE ACTIVITIES PROVIDING REAL OPPORTUNITY FOR SHAREHOLDER VALUE CREATION ”

Ashley Gilbert, Managing Director

Note:

1. Mean unrisks resource - Net Entitlement to 88 Energy

2. Note Cautionary Statement on page 4.

COMPELLING INVESTMENT CASE

P

PEREGRINE: FOLLOW UP APPRAISAL WELL

- Merlin-2 appraisal well planned for Q1 2022 targeting gross mean prospective resource of 652 million barrels^{1, 2}

U

UMIAT: COMMERCIALISATION POTENTIAL

- Additional upside at the Umiat oil field identified
- Review and optimisation of historic development plans underway

I

ICEWINE: POSITIVE NEAR-LEASE RESULTS

- Nearby Talitha-A well results encouraging, 88 Energy monitoring 2022 activity
- Internal review to reassess the potential across the acreage

Y

YUKON: POTENTIAL JOINT PROJECT

- Discussions continue to advance with nearby lease owners for joint development area

Note:

1. Mean unrisks resource - Net Entitlement to 88 Energy
2. Note cautionary statement on page 4

APPENDIX

ROBUST ENVIRONMENTAL CREDENTIALS

Minimising our footprint

- Targeting net zero Scope 1 and 2 emissions for all current and future 88 Energy operations
- Environmental compliance, analysis and permitting continues across Project Peregrine and all North Slope acreage held by 88 Energy
- Recent court decision relating to approval of Conoco's Willow Project reviewed by 88 Energy, with the following noted in relation to the decision and 88 Energy's operations:
 - Willow located in the highly sensitive Teshekpuk Lake Special Area, Project Peregrine is not;
 - Court has clarified the standards required for GHG analysis;
 - 88 Energy committed to meeting GHG analysis requirements and to target net zero Scope 3 emissions from future Alaskan production; and
 - 88 Energy has been compliant with the stringent Alaskan environmental requirements for all its past drilling operations.

"88 ENERGY IS COMMITTED TO MINIMISING OUR ENVIRONMENTAL FOOTPRINT AND WILL STRIVE FOR NET ZERO SCOPE 1 AND 2 EMISSIONS FOR ALL CURRENT AND FUTURE OPERATIONS"

Ashley Gilbert, Managing Director

SIMPLE STRATEGY

To grow and realise shareholder value

IDENTIFY

Highly prospective, world class assets

- Of large scale, proximate to existing infrastructure
- Where 88 Energy can leverage existing expertise

ADD

Significant value to our assets

- Strategic drilling programs
- Negotiating strategic farm out agreements
- Proving up resources

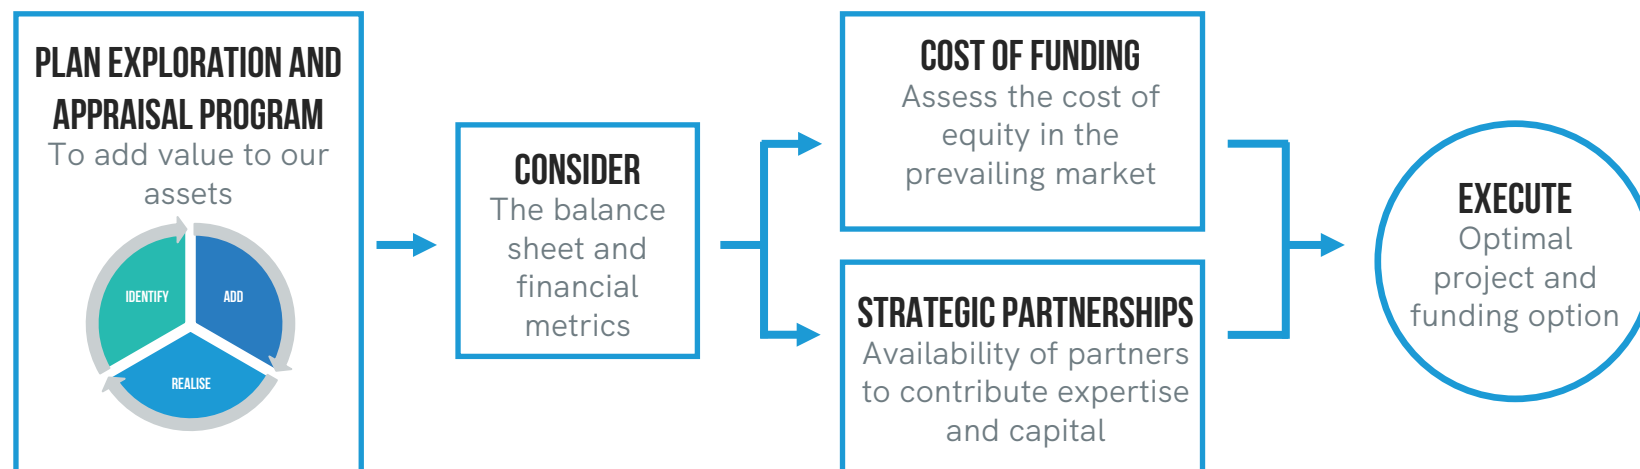

REALISE

Value for our shareholders

- Identifying exit options
- Maximising transaction value

SIMPLE STRATEGY

Capital management framework

MAINTAIN A STRONG BALANCE SHEET TO RETAIN STRATEGIC OPTIONALITY

“AS A RESULT OF THE TRANSACTION, THE COMPANY IS NOW SET TO BE DEBT FREE WITH REDUCED ANNUAL OVERHEADS OF OVER US\$1 MILLION IN ASSOCIATED FINANCE COSTS.

Ashley Gilbert, Managing Director
ASX announcement, 21 June 21

Our framework ensures a considered, targeted execution
