

ASX Ticker Code Change from “KIS” to “G6M”

Group 6 Metals Limited, ABN 40 004 681 734 (“**G6M**” or “the **Company**”) is pleased to announce that, following the change of the Company’s name from “King Island Scheelite Limited” to “Group 6 Metals Limited”, effective 8 November 2021, the Company’s ASX Code changes, effective 15 November 2021:

New ASX Code: G6M

Old ASX Code: KIS

Home branch: ASX (Sydney)

Group 6 Metals Executive Chairman, Johann Jacobs, said:

“We are pleased to commence the next phase of the Company’s development as Group 6 Metals.

Shareholders need take no action in response to this change, and I would like to assure all stakeholders that we remain intently focused both on our operations at Dolphin on King Island and on the benefits that we expect tungsten mining to deliver to our investors and the broader community.

“We have taken the opportunity to select a name which reflects the potential for the company’s operations to broaden beyond tungsten development on King Island. The aim of our new branding is to allow for geographic diversity, encompassing a range of commodities while catering for both exploration and development projects.

“Group 6 Metals honours tungsten as the company’s first commodity project under development, as tungsten is a member of Group 6 of the periodic table, along with chromium, molybdenum and seaborgium. The name also reflects the company’s focus on critical minerals, referencing the geopolitical Group of 6 which was established in 2003 to empower the six largest European Union member states to discuss economic and trade issues. The European Commission is just one of several legislative bodies across the West which has identified critical minerals, including tungsten, as key inputs vital to national security.

“We expect our new Company name to underpin our appeal to global investors as we continue to develop and strengthen our operations. We remain grateful for all of our stakeholders’ ongoing support as we commence redevelopment of the Dolphin Tungsten Project on King Island and continue to deliver value for our partners, offtakers, supporters, investors, staff and the broader community.”

Approved by the board of Group 6 Metals Limited.
