PALLADIUM-PLATINUM DISCOVERY WEBINAR

Galileo Mining Ltd (ASX:GAL, "Galileo" or the "Company") is pleased to invite shareholders and investors to attend an investor webinar to be held **10:30am AWST / 12:30pm AEST Thursday 12th May 2022** regarding the Company's significant palladium-platinum discovery at the Norseman project, as announced to the market earlier today.

Galileo's Managing Director Mr Brad Underwood will provide a presentation on the new Callisto discovery, as well as the Company's upcoming exploration activities.

Following the presentation, attendees will have the opportunity to ask questions to Mr Underwood during a moderated Q&A session.

The event will be held via Zoom. To register, please visit:

About Galileo Mining:

Galileo Mining Ltd (ASX: GAL) is focussed on the exploration and development of nickel, palladium, copper, and cobalt resources in Western Australia. GAL has Joint Ventures with the Creasy Group over tenements in the Fraser Range which are highly prospective for nickel-copper sulphide deposits similar to the operating Nova mine. GAL also holds tenements near Norseman with palladium-platinum-nickel-copper prospects and over 26,000 tonnes of contained cobalt, and 122,000 tonnes of contained nickel, in JORC compliant laterite resources (see JORC Table below).

JORC Mineral Resource Estimates for the Norseman Cobalt Project (“Estimates”) (refer to ASX “Prospectus” announcement dated May 25th 2018 and ASX announcement dated 11th December 2018, accessible at <http://www.galileomining.com.au/investors/asx-announcements/>). Galileo confirms that all material assumptions and technical parameters underpinning the Estimates continue to apply and have not materially changed).
