CHAIRMAN'S LETTER

Dear Shareholders,

I am pleased to present to you the Bravura Solutions (Bravura) FY22 Annual Report, which details our organisation's return to revenue growth, whilst managing cost in a difficult market environment.

COVID-19 impact

The last two years have seen unprecedented macro-economic industry challenges caused by the COVID-19 pandemic. Global markets, particularly wealth managers in EMEA, have been strategically quiet amid observations of reduced appetite for long-term investments. These challenges provided Bravura the opportunity to focus on adapting and innovating our offerings to meet evolving market expectations, while continuing to reap the benefits of our strong client relationships and recurring revenue. The pandemic has driven an increase in wage costs, due to labour shortages in key markets, in addition to reduced mobility and inflationary pressures. Despite these challenges, we feel confident that FY23 will be a year where strong growth will occur across the market and for Bravura.

Financial performance

In FY22, Bravura delivered revenue growth of 10% to A\$266.7m, with Group EBITDA down by 8% to A\$45.3m. Wealth Management segment revenue increased by 6%, and Fund Administration segment revenue grew by 17%. Importantly, Bravura's Contracted Recurring Revenue increased by 8% to \$142.1m. Group reported NPAT was A\$29.9m. As at 30 June 2022, FY22 adjusted EPS was A\$0.121ps, down 14% on FY21. Group adjusted NPAT was A\$25.7m, after adjusting for non-recurring items. Bravura remains in a solid financial position, with net cash of A\$48.7m.

Strategic direction

During FY22, Bravura's key markets continued to be impacted by Covid 19 and its economic impact. In the UK there was reduced interest in large scale software implementations, as well as a slowdown in anticipated development programmes with existing clients. Nevertheless, our clients face an ongoing need for improved operating leverage, as they continue to face increasing fixed operational costs. This can only be achieved through an increase in automation and a much-improved end-customer digital experience, which will benefit Bravura. The Funds Administration industry continues to consolidate, with larger funds managers acquiring smaller asset managers. Bravura is well placed, as our customers include most of the major players. In Australia, we continue to see merger activity in the superannuation industry, with many undertaking strategic reviews of their legacy operating models. This has and will continue to result in a heightened demand for new systems to meet efficiency requirements. Sonata Alta, our BPaaS enabled solution is already live with Australia's 2nd largest Superfund.

In FY22, Bravura's strategic direction was underpinned by our substantial additional investment in R&D with A\$21.2m capitalised and the integration of our acquisitions being FinoComp and Delta. Our R&D spend was principally focused on enhancing Sonata Alta's automation, progressing our Cloud transition, the development of digital self-service modules and additional microservices.

On 22 June 2022, Bravura was pleased to announce the appointment of Ms Libby Roy as Bravura's Chief Executive Officer (CEO) and Managing Director, effective on 22 August 2022. After fifteen years of dedicated service, Mr Nick Parsons stepped down from the CEO role. Ms Roy was Managing Director of Optus Business in Australia. Prior to Optus, Ms Roy was Managing Director of PayPal in ANZ, and held senior global roles with American Express, and senior executive positions with AMP and AXA in Australia. Ms Roy joined the Board of Bravura in 2020.

During the year, Mr Brent Henley was appointed as the company's Chief Financial Officer, Joint Company Secretary and Executive Director following the retirement of Mr Martin Deda, who held those roles for many years during his 15-year career with Bravura. Mr Henley has more than 25 years' experience working in a range of senior finance and corporate roles in Australia and overseas, recently as CFO and then Group Executive and Chief Commercial Officer of ASX listed Macquarie Telecom.

The Board thanks Mr Parsons and Mr Deda for their significant contributions to the company over many years.

Share price and dividend

The Board declared a final unfranked dividend of A\$0.032ps for FY22. The dividend record date is 5 September 2022 and the dividend will be paid on 29 September 2022.

Positive outlook

I would like to thank our shareholders for their loyalty and support during the year. Looking ahead, the Company is well positioned to take advantage of a strong sales pipeline. We are looking to increase partnerships with our existing client base, which presents significant opportunity to cross sell and increase penetration.

We will continue to identify opportunities to meet our client objectives in driving cost reduction and achieve regulatory compliance, as well as accelerating our existing Cloud implementation work across major products in the portfolio.

NEIL BROEKHUIZEN
CHAIRMAN

“
Looking ahead, the Company is well positioned to take advantage of a strong sales pipeline. We are looking to increase partnerships with our existing client base, which presents significant opportunity to cross sell and increase penetration.
”

CEO REPORT

Dear Shareholders,

I have been on the Board of Bravura for the last 2 years and based on the current strengths and future opportunities for Bravura, I am excited about stepping into the CEO role.

Bravura is well placed to serve the competitive and highly regulated Wealth Management industry globally with technology solutions that leverage cloud, artificial intelligence and machine learning to deliver to their customers cost effectively.

I am pleased to report that in FY22, we signed a 7-year extension of a major Funds Administration client contract and went live with Sonata Alta at Aware, with strong feedback from the customer on resulting productivity improvements.

We also saw increased penetration of Microservices into EMEA and Australia markets, progress on our Cloud transition across multiple products and maintained a strong balance sheet and operating cashflow, driven by high quality earnings that are both visible and recurring.

The long-term nature of Bravura's client relationships, our high proportion and continued growth of recurring revenue and our strategic acquisitions helped us return to revenue growth in FY22.

Financial overview

In FY22, Bravura's financial results reflected revenue growth of 10%, offset by increased operating costs in a challenging technology labour market.

Group revenue grew 10% to A\$266.7m. Significantly, Bravura's strategy to grow our recurring revenue base was validated

in FY22, with Contracted Recurring Revenue up by 8%. Our acquisitions of Delta, Midwinter and FinoComp continued to drive revenue growth for the Group. Long term revenue growth will allow the business to focus on improved operating leverage, as we continue to experience a challenging labour market and higher costs.

Group EBITDA was down 8% to A\$45.3m, compared to A\$49.3m in FY21. The EBITDA result was driven by continued wage pressure driven by resource shortages and the global resource mix, staff attrition and investment in key delivery resources across APAC and EMEA. This resulted in the EBITDA Margin of 17% (20% in FY21).

Wealth Management

Bravura made considerable progress in our Wealth Management segment in FY22, with revenue up 6%

to A\$169.5m, reflecting the successful ongoing project implementation of Sonata Alta at Aware, Australia's second largest superannuation fund. We continued our investment in Sonata Alta functionality, refined our Business Process as a Service (BPaaS) offering and further integrated Midwinter advice tools to allow seamless implementation of advice journeys. We continued to promote Bravura's microservices to both new clients as well as across our existing customer base.

The Wealth Management segment's EBITDA reduced year on year due to global wage costs driven by localised resource shortages, the global resource mix between high cost and low-cost countries and our overall global staff attrition, in line with the market at just over 20%.

Funds Administration

Funds Administration revenue grew 17% and EBITDA grew 27%. EBITDA margin increased to 46% (43% in FY21). Included in the Funds Administration revenue was a licence associated with a major contract renewal. Bravura has always had great strength in the Funds Administration and Transfer Agency business through its Rufus, GTAS and GFAS products and this is an area of strong focus for the business.

Our staff

I extend a heartfelt thanks to Bravura's Leadership Team and our 1,500 staff, for their dedication, professionalism and resilience during the year. Productivity levels remained high, with employees seamlessly operating in hybrid and remote work environments.

We have also seen progress on our ESG initiatives including: implementing a global D&I Leadership team; increasing female leaders by 10% to 31% and achieved ISO 14001 certification in environmental management systems.

Looking ahead

It is important to highlight just how strong Bravura's footprint is both across the Wealth industry value chain as well as globally from a client base perspective. Funds Administration represents 36% of Bravura's revenue and we will continue to explore opportunities for expansion. Sonata is our flagship product in the platform space and with Alta we are expanding this to deliver BPaaS. We have also extended our product suite across distribution and customer engagement with our acquisitions of Delta, FinoComp and Midwinter. In Bravura's focus

geographies, the industry is more similar than different, which enables us to leverage investment globally and we will be exploring greater geographic expansion of our existing products in the next phase of the strategy. In reviewing our R&D spend we will optimise and future-proof our architecture across the suite of products.

The number one priority is to increase our partnership with our existing client base, which presents significant opportunity to cross sell and increase penetration both locally and internationally.

Our next priority is to identify opportunities that have significant scale against client needs. Our key clients' needs are to drive cost reduction and achieve regulatory compliance. Technology is a core enabler here and we have the solutions to meet these needs. To achieve our clients' objectives, we will do a deep dive of all inflight initiatives to determine the right sequence to deliver on the highest value opportunities.

The third area of strategic focus is accelerating our existing Cloud implementation work across major products in the portfolio which is already underway. The challenging operating

environment of the last 2 years has impacted our cost base. I will be ensuring future costs and investments, as part of the strategy review process, are closely aligned to the targeted areas for growth.

I am excited about the opportunity for Bravura's future growth.

LIBBY ROY
CHIEF EXECUTIVE OFFICER
AND MANAGING DIRECTOR

“
Bravura is well placed to serve the competitive and highly regulated Wealth Management industry globally with technology solutions that leverage cloud, artificial intelligence and machine learning to deliver to their customers cost effectively.

RESEARCH AND DEVELOPMENT

We maintained a strong pipeline of development activity to meet the needs of both current and future clients across our products. Continued investment in the Bravura product suite enhances our offering and maintains our market position.

The chart below shows the cumulative R&D investment Bravura has made across the product suite. This continued investment has led to an acceleration in Bravura's blue chip client base since 2011. In FY22, A\$53.9m was invested across Bravura's product ecosystem by Bravura and its client base.

KEY MANAGEMENT

LIBBY ROY

CHIEF EXECUTIVE OFFICER AND
MANAGING DIRECTOR

Libby Roy has over 20 years of experience in leadership roles in highly regulated technology driven businesses including payments, credit cards, financial planning, superannuation, travel and telecommunications.

Libby joined the board of Bravura Solutions as an Independent Non-executive Director in April 2020 and was appointed as CEO in August 2022. Prior to her appointment as CEO, Libby spent over 2 years as the Managing Director, Business for Optus. Before Optus, Libby spent 5 years as the Managing Director of Paypal, led the Corporate Superannuation business at AMP and ran the IPAC financial planning business at AXA. Across her executive career Libby has held a number of director roles in joint ventures and associated entities while at AMP, AXA and American Express.

Libby holds an MBA from University of New South Wales and a B.A.Sc from Curtin University and is a member of the Australian Institute of Company Directors.

BRENT HENLEY

CHIEF FINANCIAL OFFICER AND
EXECUTIVE DIRECTOR

Brent Henley has over 25 years of experience in senior finance, commercial and operational roles, predominantly within the IT sector.

Throughout his career, Brent has added significant value to the companies he has worked for across Australia, Asia Pacific and globally, improving business profitability. He has extensive experience in C-level financial, commercial and operational management.

Prior to joining Bravura, Brent was the Group Executive and Chief Commercial Officer at ASX-listed Macquarie Telecom Group. Prior to that he was the Chief Financial Officer for the Group. He has also held senior finance and operations roles at NetApp, Fuji Xerox and Lenovo.

Brent is a CPA, holds an MBA in International Business from the University of Technology Sydney and a Bachelor of Business in Accounting/Marketing from Southern Cross University.

MEGAN OWEN

CHIEF OPERATING OFFICER

Megan Owen has over 25 years of experience in the IT services industry and is a highly accomplished operations leader with a strong results focus and a collaborative style.

Megan is Chief Operating Officer for Bravura, responsible for implementing and supporting Bravura's software products globally. She has been with Bravura since July 2021.

Prior to joining Bravura Solutions, Megan worked for 17 years in Capgemini as a client-facing Programme Director, then as Head of Digital Consulting at Dell EMC and more recently as Managing Director at Sopra Steria where she ran a £120m private sector delivery and was responsible for 1700 people.

MATERIAL BUSINESS RISKS

The material business risks that have the potential to impact Bravura Solutions are outlined below, together with mitigating actions undertaken to minimise these risks:

RISK	NATURE OF RISK	MITIGATION
Increased competition	Bravura Solutions competes with a number of specialist software vendors.	<p>In order to mitigate the risk from increased competition, Bravura Solutions:</p> <ul style="list-style-type: none"> continues to invest in Sonata development to enhance the core platform; and has implemented employee incentives to attract and retain key personnel.
Foreign exchange	Bravura Solutions is exposed to foreign exchange movements which may affect the value of its assets, liabilities, revenues and costs, and consequently, its financial results.	<p>Bravura Solutions has a presence in a number of jurisdictions and the increase in relative revenue contributions from those jurisdictions tends to mitigate some of this exposure.</p> <p>Bravura Solutions has implemented relevant procedures, such as having debt facilities available in its main currencies and managing intercompany balances at the lowest level possible, to manage and minimise this risk.</p>
Economic climate	Domestic and international economic conditions can impact client revenue and costs.	Bravura Solutions has a presence in a number of jurisdictions to mitigate this risk.
Information security breach and failure of critical systems	Bravura Solutions could be impacted by the failure of critical systems, whether caused by error or malicious attack.	<p>Bravura Solutions has gained ISO 22301:2012 accreditation for its disaster recovery and business continuity management systems to mitigate this risk.</p> <p>Bravura Solutions has also established and maintained the following:</p> <ul style="list-style-type: none"> dedicated information security teams; mandatory information security awareness training across the business; Board oversight through the Audit and Risk Management Committee and executive oversight via an Internal Information Security Committee.
Global pandemic	A global pandemic like COVID-19 could impact Bravura Solutions' employees and clients, and the measures implemented by Governments may impact economic activity.	<ul style="list-style-type: none"> Bravura Solutions has the ability to provide its products and services remotely across all its locations to enable operations to continue under a lockdown; Bravura Solutions can implement health and safety measures as required in the jurisdictions in which it operates.

The information contained in this document should be read in conjunction with Bravura Solutions Limited Directors' Report and Financial Report for the year ended 30 June 2022 and any public announcements made by Bravura Solutions Limited and its controlled entities during the year in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001* and the *ASX Listing Rules*.

DIRECTORS' REPORT

The Directors present their report on the consolidated entity (referred to hereafter as "the Group" or "Consolidated Entity") consisting of Bravura Solutions Limited ("Bravura Solutions" or "the Company") and the entities it controlled at the end of, or during, the year ended 30 June 2022.

DIRECTORS

The Directors of Bravura Solutions at any time during or since the end of the financial year are:

Non-executive Directors

Neil Broekhuizen	Independent Chairman
Peter Mann	Independent, Interim CEO from 22 June to 21 August 2022, Regional Non-executive Chair of Bravura EMEA from 22 August 2022
Alexa Henderson	Independent

Executive Directors

Libby Roy	CEO and Managing Director (appointed 22 August 2022), Independent Non-executive Director to 22 August 2022
Brent Henley	CFO (appointed 25 February 2022)

Former Executive Directors

Tony Klim	CEO (resigned 3 September 2021)
Martin Deda	CFO (resigned 11 March 2022)
Nick Parsons	CEO (appointed 3 September 2021, terminated 22 June 2022)

PRINCIPAL ACTIVITIES

The principal activities of the Consolidated Entity during the course of the current and prior years consisted of the development, licensing and maintenance of highly specialised administration and management software applications and the provision of professional consulting services for the Wealth Management and Funds Administration sectors of the financial services industry.

OPERATING AND FINANCIAL REVIEW

Revenue for the reporting period was \$23.6 million or 10.0% higher than the prior comparative period, primarily driven by continuing Sonata Alta project work on Aware Super, which first transition went live in April 2022, an extension of a large institutional Funds Administration client and several other extensions and new sales in the APAC region across all products.

The total Revenue of \$266.7 million was made up of \$169.5 million generated in the Wealth Management segment and \$97.1 million in the Funds Administration segment, both of which increased revenue against the prior year. With expenses, predominately employee benefits, increased against the prior period, reflecting the increase in staff numbers and impacts from inflationary pressures, EBITDA reduced by \$3.8 million or 8.0% against the prior period, to \$45.3 million. The total of depreciation, amortisation, foreign exchange and finance costs was higher than the prior period, with the resulting profit before tax of \$34.0 million being \$4.8 million or 12.0% lower than the prior period.

The performance of Delta, an acquisition from the comparative reporting period, has not met its vendors' ambitious earnout targets. Consequently, the Group has recognised a \$6.6 million gain arising from the partial remeasurement of contingent consideration for the Delta acquisition.

The Group continues to invest in research and development, to ensure our products meet market needs and are continuously updated with the latest market and regulatory requirements. The total development spend during FY22 of \$53.9 million (2021: 50.4 million), was predominately focused on the development of a suite of microservices, further enhancing our Sonata Alta solution, the extension of digital advice capability and enhancements to our financial planning solution AdviceOS, extending Delta's product functionality of PlatinumPro, strengthening the Groups product functionality relative to competitors and expanding the Groups total addressable market. \$21.2 million (2021: \$19.3 million) was capitalised as intangible assets.

The profit for the Consolidated Entity after providing for income tax for the year ended 30 June 2022 amounted to \$29.9 million (2021: \$34.6 million).

STAFF AND CLIENT OPERATIONS

Bravura's employees are based in the UK, Australia, New Zealand, South Africa, India and Poland. At the end of the financial year, it was announced that after fifteen years of dedicated service, Mr Nick Parsons stepped down from the CEO role as part of an orderly transition. Ms Libby Roy took over as CEO on 22 August 2022.

Bravura has been experiencing a transition in its markets and has been developing its offering accordingly, with employee head count of the Group increasing to 1,553 as at 30 June 2022 compared to 1,445 staff as at 30 June 2021 on a permanent or contractor basis. Employee related expenses comprised 75.2% (2020: 72.1%) of total operating expenses in the year.

DIRECTORS' REPORT (CONTINUED)

The review of results of operations included in the Directors' Report includes a number of non-AASB financial measures. These non-AASB financial measures are used internally by Management to assess the performance of the business and make decisions on the allocation of resources. EBITDA is earnings before finance cost, interest and foreign exchange gains and losses, tax, depreciation, and amortisation. EBITDA includes \$3.0 million (30 June 2021: \$2.8 million) depreciation of property, plant and equipment dedicated to client hosting services. EBITDA includes \$6.3 million (30 June 2021: \$6.4 million) depreciation of right-of-use assets as well as \$1.5 million (30 June 2021: \$1.7 million) interest expense associated with property leases, which would otherwise be excluded under AASB 16.

	NOTES	2022	2021

BRAVURA SOLUTIONS COMPANY SECRETARY BIOGRAPHY

Position

Experience

Nigel Liddell

General Counsel and Joint Company Secretary

Based in London, Nigel Liddell qualified as a Solicitor in 1993 and has nearly 30 years of in house legal experience, mainly in the technology and services industries. He is responsible for managing the global legal affairs of the Group, serves as Joint Company Secretary and is the Head of Facilities for EMEA. He is also the global leader for Diversity & Inclusiveness.

Nigel joined Bravura Solutions in March 2008 as the Head of Legal EMEA and took over the global role in July 2011. Prior to joining Bravura Solutions, he was Director and Group General Counsel at DST Global Solutions and has held senior roles at GE Capital IT Solutions, Action Computers (a London-listed company) and Hertz Europe.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Bravura Solutions will continue to focus on expanding its ecosystem of products and solutions in the Wealth Management and Funds Administration markets, while offering a range of deployment options including managed services and cloud. The Company will continue to enhance its strategic relationships with existing clients with a focus on providing propositions which enhance time to market for clients and cost and process efficiencies through automation and enhancements to support regulatory change compliance.

CORPORATE GOVERNANCE STATEMENT

The Corporate Governance Statement of Bravura Solutions can be found on the Company's website, <https://investors.bravurasolutions.com/investor-centre/?page=asx-announcements>

SHARE OPTIONS

The Consolidated Entity has 2,604,269 performance rights outstanding under long-term incentive plans and these rights remain unvested and unexercised at the reporting date (30 June 2021: 2,408,977) (Refer to Note 26).

DIRECTORS' MEETINGS

The number of Directors' meetings (including meetings of committees of Directors) and number of meetings attended by each of the Directors of Bravura Solutions during FY22 are:

	BOARD MEETINGS		BOARD SUB-COMMITTEE MEETINGS		AUDIT AND RISK MANAGEMENT COMMITTEE		REMUNERATION AND NOMINATION COMMITTEE	
	ELIGIBLE TO ATTEND	ATTENDED	ELIGIBLE TO ATTEND	ATTENDED	ELIGIBLE TO ATTEND	ATTENDED	ELIGIBLE TO ATTEND	ATTENDED

T Klim	2	2	-	-	-	-	-	-

The CEO and CFO are invited to attend all Board and Committee meetings.

DIRECTORS' REPORT (CONTINUED)

EVENTS SUBSEQUENT TO REPORTING DATE

Other than the above, there have been no occurrences of matters or circumstances subsequent to year end that have significantly affected, or may significantly affect, the operations, the results of those operations or the state of affairs of the Consolidated Entity in subsequent financial years.

INSURANCE OF DIRECTORS AND OFFICERS

During the financial year, Bravura Solutions paid a premium in respect of a contract to insure the Directors of Bravura Solutions in line with the Constitution to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of liability and the amount of the premium.

PROCEEDINGS ON BEHALF OF BRAVURA SOLUTIONS

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of Bravura Solutions, or to intervene in any proceedings to which Bravura Solutions is a party, for the purpose of taking responsibility on behalf of Bravura Solutions for all or part of those proceedings.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Consolidated Entity is not subject to any significant environmental regulation under the laws of the Commonwealth, States or other territories.

NON-AUDIT SERVICES

Details of amounts paid or payable to the auditor for non-audit services provided during the year by Ernst & Young are outlined in Note 35 in the Financial Report.

The Directors, in accordance with advice from the Audit and Risk Management Committee, are satisfied that the provision of non-audit services as disclosed in Note 35 in the Financial Report does not compromise the external auditor's independence as outlined in the Corporation Act 2001 for the following reasons:

- Non-audit services were subject to the corporate governance procedures adopted by the Group and have been reviewed by the Audit and Risk Committee.
- Non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Group, acting as an advocate for the Company or jointly sharing risks and rewards.

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

The auditor's independence declaration is set out on page 47 and forms part of the Director's Report for the year ended 30 June 2022.

To the extent permitted by law, the Company has agreed to indemnify its auditor Ernst & Young, as part of the terms of its audit engagement agreement against claims made by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the financial year.

ROUNDING-OFF

Bravura Solutions is an entity of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191, dated 24 March 2016, and consequently the amounts in this report have been rounded off to the nearest thousand dollars.

REMUNERATION REPORT

The Remuneration Report on pages 28 to 46 forms part of the Directors' Report.

This report is issued in accordance with a resolution of the Directors.

1 LETTER FROM THE CHAIR OF THE REMUNERATION AND NOMINATION COMMITTEE

Dear Shareholder,

On behalf of the Board, I present Bravura Solutions' Remuneration Report (Report) for the financial year ended 30 June 2022 (FY22). This report outlines how outcomes for executive Key Management Personnel (KMP) reflected Bravura Solutions' performance during this financial year. The last two years have seen unprecedented macro-economic industry challenges caused by the COVID-19 pandemic. Global markets, particularly wealth managers in EMEA, have been strategically quiet amid observations of reduced appetite for long-term investments. These challenges provided Bravura the opportunity to focus on adapting and innovating our offerings to meet evolving market expectations, while continuing to reap the benefits of our strong client relationships and recurring revenue. We feel confident that FY23 will be a year where strong growth will occur across the market and for Bravura Solutions. Bravura Solutions' remuneration framework, as outlined in the accompanying Report, reflects our commitment to deliver competitive remuneration for outstanding performance to attract and retain talented individuals, while aligning the interests of executives and shareholders.

Bravura Solutions' remuneration strategy is designed to support and reinforce its business strategy. The at-risk components of remuneration are tied to measures that reflect the successful execution of our business strategy in both the short and long term. Our strategic drivers are reflected in incentive plan performance measures, ensuring that Executive pay directly aligns to Bravura's performance. In summary, our performance against key financial measures during FY22 did not meet the requirements of incentive metrics.

This Report is intended to provide shareholders with insight into the remuneration governance applied. Having confirmed shareholder acceptance of current approach, the Company is committed to a continuous improvement process to remuneration governance as circumstances evolve. This report is designed to assist shareholders to engage with the Board to propose refinements and improvements.

Each year the Board assesses several factors when determining remuneration outcomes. In addition to overall financial results, the Committee assesses quality of results, achievement against individual objectives and the effectiveness of strategic initiatives implemented, to determine the extent to which the overall outcomes adequately reflect actual performance and returns to shareholders. The following summary outlines matters of interest in relation to remuneration governance:

- FY22 also saw a changing of the guard in our KMP. This resulted in the appointment of new KMP in the CEO, CFO and COO roles;
- The Company competes in an international market for KMP talent, with both non-executive directors and executive KMP presence in both Australia and the United Kingdom. Remuneration quantum and structure varies between different countries in accordance with applicable standards and expectations. Meeting local market standards is a significant contributing factor in relation to KMP remuneration arrangements and should be considered by shareholders accordingly;
- Related to the above, the impact of currency fluctuation on remuneration paid in foreign currency remains a consideration when reviewing executive remuneration. The disclosures contained in this Report address changes to remuneration that are not the result of currency fluctuations;
- The Board determined that it remained appropriate to focus the entire FY22 Short-Term Incentive Plan (STIP) on Group NPAT to align the interests of executives and shareholders at that time. The average Group NPAT outcome was less than 60% of target (excluding the impact of recent acquisitions). As such the STIP did not pay out. Although this result was impacted by external forces such as the ongoing effects of the COVID-19 pandemic, the Board believe it was not necessary to make additional adjustments to the STIP for FY22 STIP outcomes for KMP;
- The hurdles for the Long-Term Incentive Plan (LTIP) measured for the three-year period ending 30 June 2022 were not achieved. While the Plan Rules provide Board discretion to amend the vesting outcome, the Board did not consider any adjustments were warranted; and
- Having considered cost of living, Director fees were increased by 2% in FY22. An increase of 2.5% has been deemed appropriate for FY23.

In line with the Charter, the Committee remains focused on identifying key talent, succession planning and measuring the future capability needs of the Company.

The Board will continue to engage with shareholders and their representatives on matters related to remuneration and we look forward to your comments and support for remuneration related resolutions at the upcoming AGM.

Yours sincerely,

PETER MANN
NON-EXECUTIVE DIRECTOR
CHAIR OF THE REMUNERATION AND NOMINATION COMMITTEE

REMUNERATION REPORT (AUDITED) (CONTINUED)

2 PERSONS ADDRESSED AND SCOPE OF THE REMUNERATION REPORT

The Report sets out, in accordance with section 300A of the Corporations Act, associated regulations, and good governance:

- The Company's governance relating to remuneration;
- The policy for determining the nature and amount or value of remuneration of KMP;
- The various components or framework of that remuneration;
- The prescribed details relating to the amount or value paid to KMP, as well as a description of any performance conditions;
- The relationship between KMP remuneration and the performance of the Company; and
- Such other/additional details as may be relevant to shareholders in order for them to form a complete understanding of the Company's remuneration governance, policies, procedures and practices as they relate to KMP.

KMP are the directors and employees who have authority and responsibility for determining, planning, directing and controlling the activities of the Company. As remuneration for non-executive directors is different to remuneration for executives the Report discusses each separately and for ease of reference the executives (including the executive directors) are known as Executive KMP. On that basis, the following roles/individuals are addressed in this Report:

Non-executive Directors:

- Mr Neil Broekhuizen, Independent Non-executive Director, since 19 November 2013 and Chairman since 23 August 2019;
- Mr Peter Mann, Independent Non-executive Director since 22 December 2015, Interim CEO from 22 June to 21 August 2022, Regional Non-executive Chair of Bravura EMEA from 22 August 2022; and
- Ms Alexa Henderson, Independent Non-executive Director since 19 September 2016.

Executive KMP:

- Ms Libby Roy, Chief Executive Officer and Managing Director (appointed 22 August 2022), Independent Non-executive Director to 22 August 2022;
- Mr Brent Henley, Chief Financial Officer and Executive Director (appointed 25 February 2022) having joined on 1 February 2022; and
- Ms Megan Owen, Chief Operating Officer having joined on 5 July 2021.

Former Executive KMP:

- Mr Tony Klim, Chief Executive Officer (since 18 May 2011) and Managing Director (since 30 June 2011), having joined on 18 February 2008, and left the Company on 3 September 2021;
- Mr Martin Deda, Executive Director and Chief Financial Officer, having joined on 22 September 2014, and left the Company on 11 March 2022; and
- Mr Nick Parsons, Chief Technology Officer (since 2007), Chief Executive Officer and Managing Director (since 3 September 2021), having joined on 30 July 2007 and left 22 June 2022.

3 COMPANY PERFORMANCE AND REWARD

3.1 COMPANY PERFORMANCE

Throughout FY22, Bravura Solutions delivered consistent performance against key financial measures, underpinned by the depth of the Bravura product suite across both Funds Administration and Wealth Management:

- Group revenue increasing by 10.0%;
- Group EBITDA decreasing by 8.0%;
- Group NPAT decreasing by 14.0%;
- Strong growth in recurring revenue; and
- Bravura Solutions' market leading solutions support new and existing clients to meet a range of challenges including more intuitive and sophisticated digital experiences and continuous regulatory change.

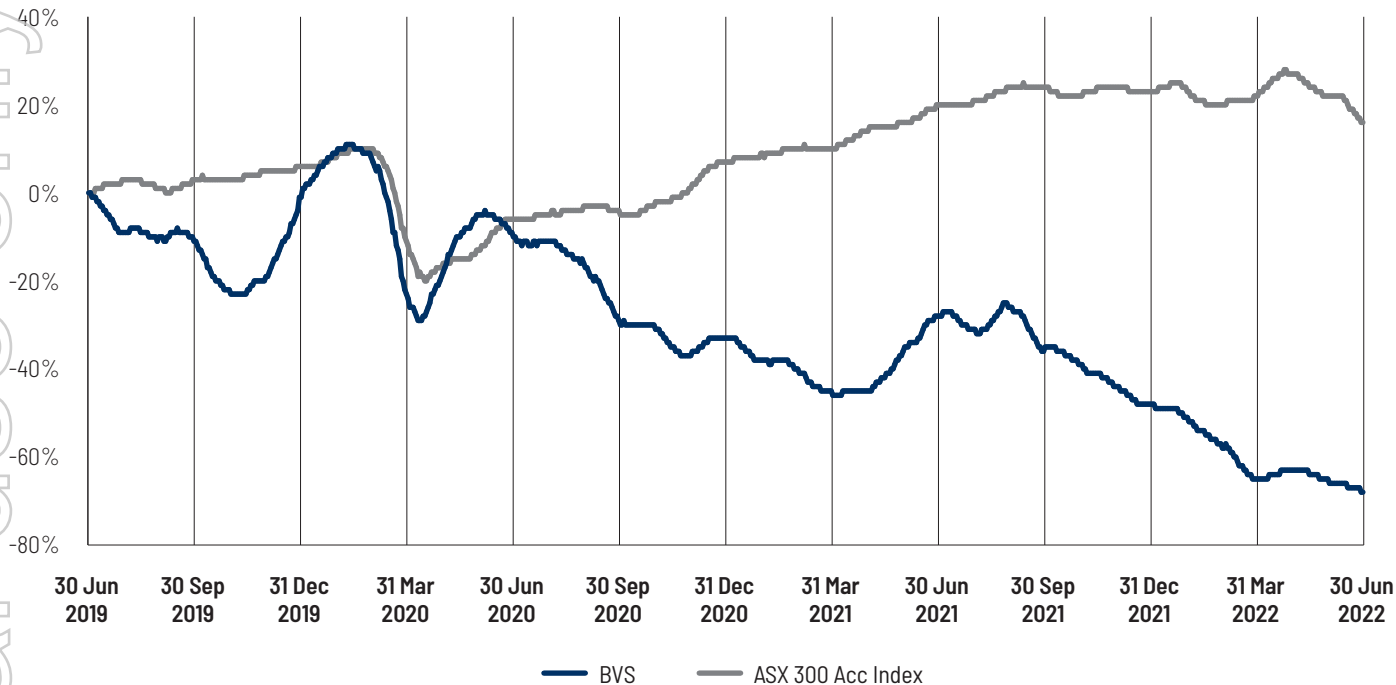

The following outlines the performance of the Company over the FY22 period and since the Company listed in November 2016.

FY END DATE		30-JUN-17	30-JUN-18	30-JUN-19	30-JUN-20	30-JUN-21	30-JUN-22
Revenue \$m		191.9	221.5	257.7	274.2	243.0	266.7
Profit after tax \$m		14.4	27.0	32.8	40.1	34.6	29.9
Share Price \$		1.60	3.21	4.86	4.50	3.51	1.42
Dividends \$		-	0.09	0.10	0.11	0.09	0.10
Total Shareholder Return - 1 year	%	10.3	106.3	54.5	(5.1)	(20.1)	(56.8)
Total Shareholder Return - 3 year	%	n/a	n/a	n/a	200.0	18.6	(64.8)

REMUNERATION REPORT (AUDITED) (CONTINUED)

TOTAL SHAREHOLDER RETURN

BRAVURA VS ASX 300 ACC INDEX

3.2 LINKS BETWEEN PERFORMANCE AND REWARD INCLUDING STIP AND LTIP OUTCOMES

The remuneration of Executive KMP is composed of three parts, being:

- Base package, which is not intended to vary with performance but tends to increase as the scale/complexity/value of the business increases and to maintain competitive practices (i.e. typically following growth and success);
- STIP, which is intended to vary with indicators of annual Company and individual/role performance. Based on short to mid-term objectives linked to strategy via KPIs and annual performance assessments; and
- LTIP, which is also intended to deliver a variable reward based on long-term measures of Company performance and value creation for shareholders, linking a material component of remuneration to share ownership.

REMUNERATION REPORT (AUDITED) (CONTINUED)

3.2.1 FY22 STIP

In the context of the COVID-19 pandemic, the Board decided that the FY22 STIP should be focused entirely on Group Net Profit After Tax (NPAT).

STIP measure and outcome:

	THRESHOLD	TARGET	STRETCH	ACTUAL	RESULTING VESTING (BEFORE ANY DISCRETION APPLIED)
Group NPAT \$m	37	40	43	29.9	0%

While the Board remains of the view that Group NPAT and EBITDA, delivery of the expectations established at the start of the year and successful strategy implementation are the key short-term drivers of long-term value creation for shareholders, they were particularly conscious of the uncertainty and planning challenges caused by the COVID-19 pandemic. The Board wanted to ensure alignment of the Executives outcomes to those of shareholders. They determined that for FY22 the focus should be Group NPAT for all Executive KMP. Following the end of the measurement period (the financial year), the Company accounts were audited and reports on the Company's activities during the year were prepared for the Board. The Board considered whether it was appropriate to adjust the outcome to take account of things that may not have been considered in setting the target. The Board decided that no discretion was required. This method of performance assessment was chosen because it is the most objective approach to short-term incentive governance, and reflective of market best practices.

In relation to the completed FY22 period the payment of STIP was calculated as follows:

FY22 SHORT-TERM INCENTIVE SUMMARY							
NAME	POSITION	KPI SUMMARY	WEIGHTING	TARGET AWARD	ACHIEVEMENT	TOTAL STIP AWARD	% OF MAXIMUM STI FORFEITED
			%	\$	%	\$	
Brent Henley	CFO and Executive Director	Group NPAT	100%	89,583	0%	-	100%
Megan Owen	Chief Operating Officer	Group NPAT	100%	144,889	0%	-	100%
Former KMP							
Nick Parsons	CEO and Managing Director	Group NPAT	100%	760,382	0%	-	100%
Martin Deda	CFO and Executive Director	Group NPAT	100%	250,869	0%	-	100%
Tony Klim	CEO and Managing Director	Group NPAT	100%	-	0%	-	100%

Figures in this table for Tony Klim, Nick Parsons and Megan Owen are displayed using an AUD/GBP rate of 1.8.

REMUNERATION REPORT (AUDITED) (CONTINUED)

3.2.2 LTIP

The LTIP achieved in relation to the FY20 grant was subject to the performance hurdles outlined in the framework. The results were as follows:

HURDLE	OUTCOME	(A) VESTING ACHIEVED ON THIS PORTION	(B) WEIGHT	(C) = (A) X (B) VESTING ON TOTAL GRANT
EPS	19.5%	0%	50%	0%
Company TSR	-31.5%			
Indexed TSR	5.0%	0%	50%	0%
Total				0%

The LTIP remains largely unchanged from that voted on by shareholders at the 2018 AGM. The two measures used over the three-year measurement period are Earnings Per Share (EPS) and Indexed Total Shareholder Return (iTSR) rather than ranked relative TSR (rTSR). Given the small number of ASX listed Fintech comparators, the Board believes that use of a generic indication of the return that shareholders expect from investing in the market generally is the most appropriate. The ASX 300 Accumulation Index was used for the FY22 grant.

LONG-TERM INCENTIVE SUMMARY					
NAME	POSITION	# OF RIGHTS GRANTED (FY20)	VESTING OF GRANT	# OF RIGHTS VESTED	# OF RIGHTS FORFEITED ¹
		#	%	#	#
Brent Henley	CFO and Executive Director	-	0%	-	-
Megan Owen	Chief Operating Officer	-	0%	-	-
Former KMP					
Nick Parsons	CEO and Managing Director	76,162	0%	-	76,162
Martin Deda	CFO and Executive Director	67,216	0%	-	67,216
Tony Klim	CEO and Managing Director	180,263	0%	-	180,263
Mike Margetts	Global Chief Operating Officer	75,445	0%	-	75,445

1. Rights are expected to be forfeited in August 2022.

REMUNERATION REPORT (AUDITED) (CONTINUED)

3.3 VESTED/AWARDED INCENTIVES AND REMUNERATION OUTCOMES IN RESPECT OF THE COMPLETED FY22 PERIOD (NON-STATUTORY DISCLOSURE)

The statutory disclosure requirements and accounting standards can make it difficult for shareholders to obtain a clear understanding of what the actual remuneration outcomes for executives were in relation to a given reporting period. The following table brings together outcomes reflecting the year of performance in which the outcome is measured i.e. STIP is presented as being part of the remuneration for the year in which performance was tested, and vested LTIP is presented as being part of the remuneration for the year during which performance testing was completed.

NAME	YEAR	BASE PACKAGE EXCL RETIREMENT BENEFIT \$	TOTAL STI AWARDED \$	TOTAL LTI VESTED \$	OTHER BENEFITS INCL RETIREMENT BENEFIT \$	TERMINATION BENEFIT \$	TOTAL REMUNERATION RECEIVED \$

Global Chief Operating Officer	FY21	392,030	-	-	126,528	-	518,558

1. Brent Henley joined the business on 1 February 2022.

2. Nick Parsons left the business on 22 June 2022. His termination benefits include his pay in lieu of notice.

3. Martin Deda ceased to be a KMP on 11 March 2022 and FY22 reflects his earnings to that date.

4. Tony Klim was not eligible for STI for FY22. He ceased to be a KMP on 3 September 2021 and FY22 reflects his earnings to that date.

5. Mike Margetts ceased to be a KMP on 17 November 2020 and FY21 reflects his earnings to that date.

6. Figures in this table for Tony Klim, Nick Parsons, Megan Owen, and Mike Margetts are displayed using average AUD/GBP exchange rate for the reporting period.

Total	FY22	2,691,829	89,084	-	93,609	(56,035)	416,338	3,234,825
	FY21	2,234,808	183,613	-	52,909	296,100	124,055	2,891,485

Further details regarding incentive opportunities and outcomes are presented in the relevant sections of the Remuneration Report to assist shareholders to obtain a more complete understanding of remuneration as it relates to senior executives. Non-monetary benefits include car parking, annual leave and other benefits.

1. Brent Henley joined the business on 1 February 2022. Brent Henley will receive an allocation under the FY22 LTIP equivalent to 60% of his fixed annual salary of \$430,000, subject to shareholder approval at the 2022 AGM.
2. Nick Parsons left the business on 22 June 2022. His termination benefits include his pay in lieu of notice.
3. Martin Deda ceased to be a KMP on 11 March 2022 and FY22 reflects his earnings to that date. No long service entitlement was payable and no release of expense is included in this table.
4. LTI represents the expensing of grant date fair values as per AASB 2 Share-based Payments, and therefore is included on an expensed basis, rather than at target.
5. Tony Klim was not eligible for STI for FY22. He ceased to be a KMP on 3 September 2021 and FY22 reflects his earnings to that date.
6. Mike Margetts ceased to be a KMP on 17 November 2020 and FY21 reflects his earnings to that date.
7. Figures in this table for Tony Klim, Nick Parsons, Megan Owen, and Mike Margetts are displayed using average AUD/GBP exchange rate for the reporting period.

4 REMUNERATION GOVERNANCE

The following summarises the Bravura Solutions formal Remuneration Governance Framework which has been published to the market and is available on the website at <https://investors.bravurasolutions.com/investor-centre/?page=corporate-governance>

REMUNERATION REPORT (AUDITED) (CONTINUED)

It is important that shareholders, proxy advisors and other interested parties consider this online governance disclosure information that has been incorporated by reference, as part of forming a judgement regarding the remuneration policies, procedures and practices of the Company.

The Board seeks input regarding the governance of KMP remuneration from a wide range of sources, including:

- Shareholders;
- Remuneration and Nomination Committee Members;
- Stakeholder groups including proxy advisors;
- External remuneration consultants;
- Other experts and professionals such as tax advisors and lawyers; and
- Company management to understand roles and issues facing the Company.

4.1 REMUNERATION AND NOMINATION COMMITTEE CHARTER

The Remuneration and Nomination Committee (the "Committee") is appointed and authorised by the Board to assist the Board in fulfilling its statutory and fiduciary duties. The Committee is responsible for making recommendations to the Board about:

- Identifying individuals who may be qualified to become directors through assessing the Board's "skills matrix" and identifying any gaps;
- The appointment process and re-election of members of the Board and its committees;
- Board and senior executive succession issues and planning;
- The development of a process for the evaluation of the performance of the Board, its Committee and directors;
- The review of the performance of senior executives and members of the Board, which should take place at least annually;
- Remuneration, recruitment, retention and termination policies and procedures for senior executives;
- The remuneration packages of senior executives, non-executive directors, executive directors, equity-based incentive plans and other employee benefit programs; and
- The remuneration policy for directors, including as it is applied and the process by which any shareholder approved pool of directors' fees is allocated.

The Committee must consist of at least three members and must be made up of a majority of independent directors. The Committee has the authority to seek any information which is relevant to its function from any employee of Bravura Solutions or external parties. The Committee has the authority to obtain outside professional advice as it determines necessary to carry out its duties. The Committee is also responsible for developing and overseeing the diversity policy. The full Charter is available on the Company website.

4.2 APPROACH TO DETERMINING COMPARATORS FOR REMUNERATION BENCHMARKING

When the Company seeks external market data in relation to NED or senior executive benchmarking, the following principles are generally intended to apply, however the Board seeks independent expert advice regarding design of comparator groups as part of engaging an external remuneration consultant:

- A benchmarking comparator group will take into account the Company's estimated sustainable market capitalisation at the time of the exercise, which may involve smoothing the market capitalisation of the Company over a period, so as to ensure that anomalies in Company value at particular times do not unduly influence outcomes;
- It will include direct competitors of comparable scale to the extent possible;
- The group should be large enough to produce valid statistics, and small enough to be reasonably specific;
- To the extent that direct competitors are not sufficient to produce a statistically robust sample, companies of comparable scale from the same industry or sector will be included. The group should be balanced with an equal number of comparators, larger and smaller, generally limited to those within a range of half to double the Company's market capitalisation value used in designing the group; and
- Benchmarking will be undertaken in respect of both Australian and international data, as may be appropriate to each role, and which will in combination inform decisions regarding setting a policy benchmark.

These principles are specific to remuneration benchmarking exercises and therefore may produce different outcomes than those applied to the design of other types of comparator groups.

4.3 SECURITIES TRADING POLICY

The Company's policy on trading in Bravura Solutions securities by directors and other KMP of the Company:

- Sets out the guidelines for dealing in any type of Bravura Solutions securities by the Company's KMP; and
- Summarises the law relating to insider trading which applies to everyone, including to all Bravura Solutions group employees as well as to KMP.

Under the current policy, directors and all employees are prohibited from engaging in short term trading of company securities and KMP must not trade during "prohibited periods" (with some limited exceptions, and with prior written approval, as set out in the policy). The following periods in a year are "prohibited periods":

- From the Company's year end until the release of the full year results;

REMUNERATION REPORT (AUDITED) (CONTINUED)

- From the Company's half year end until the release of the half yearly results; and
- Any additional periods imposed by the Board from time to time (for example when the Company is considering matters which are subject to Listing Rule 3.1A).

The policy also prohibits KMP from using any derivatives or other products which operate to limit the economic risk of invested Bravura Solutions securities.

4.4 EQUITY HOLDINGS

The Company does not currently have an equity holding policy applicable to KMP, as historically the majority of KMP had material holdings, however this matter remains subject to consideration given the changing circumstances of the Company, and market practices.

4.5 CLAWBACK AND MALUS

Payments or vesting related to performance conditions associated with STIP and LTIP are intended to be subject to any clawback policy if and as developed by the Company from time to time.

The STIP and LTIP Rules contain a malus provision, that is to say they allow for the Board to use its discretion to forfeit any unvested awards at any time before vesting.

The Board continues to seek advice regarding remuneration practices including the possible development of a clawback policy, however at this time it remains the view of the Board that a clawback policy is unnecessary. Clawback policies are generally intended to relate to the recovery of overpayments when there has been a material misstatement in the financial reports of the Company, a demonstrably low risk based on the frequency of occurrence in the Australian market. The Company has sufficient controls in place as to be confident that this risk is negligible. It is recognised that some institutions and proxy advisors tend to prefer to see a clawback policy in place as a matter of good governance, however the practical value of this is to be considered.

4.6 EXTERNAL REMUNERATION CONSULTANT ADVICE

During the report period, the Board received information from external remuneration consultants including:

- Market data for directors fees;
- Market data for executive remuneration;
- Advice regarding market practice pay mix for KMPs;
- Advice regarding incentive design, particularly LTIP;
- Development of LTIP documentation and support for implementation, including drafting of the related resolutions for inclusion in the Notice of Meeting; and
- Advice regarding the Company's Remuneration Report as presented in respect of FY21.

The information provided did not constitute Remuneration Recommendations as described in the Act. The Board is satisfied that the information provided was free from undue influence from management.

4.7 OTHER REMUNERATION RELATED MATTERS

The following outlines other remuneration related matters that may be of interest to stakeholders, in the interests of transparency and disclosure:

- There were no loans to Directors or other KMP at any time during the reporting period; and
- There were no relevant material transactions involving KMP other than compensation and transactions concerning shares, performance rights/ options as discussed in this Report.

4.8 DIVERSITY POLICY

The Company has adopted a formal and documented diversity policy, which is available on the Company website. The Company values and is proud of its strong and diverse workforce and is committed to supporting and further developing this diversity through attracting, recruiting, engaging and retaining diverse talent and aligning the Company's culture and management systems to this commitment. In summary, the policy outlines the following, and compliance is overseen by the Committee:

- The Company intends to promote the principles of merit and fairness when making decisions about recruitment, development, promotion, remuneration and flexible work arrangements, and to foster a commitment to diversity by leaders at all levels;
- The Company will maintain programs and initiatives to support the policy including mentoring programs, professional development and flexible work opportunities;
- Measurable objectives are to be set in relation to gender diversity, and are to be reviewed annually;
- The policy will be communicated to the market, including a summary in the Annual Report (this summary); and
- The Company intends to meet its obligations in respect of diversity as outlined under the ASX Corporate Governance Council's Principles and Recommendations (4th edition).

REMUNERATION REPORT (AUDITED) (CONTINUED)

5 EXECUTIVE KMP REMUNERATION FRAMEWORK

5.1 GOVERNANCE OF EXECUTIVE KMP REWARD

The senior executive remuneration framework applies to senior executives who are defined as follows:

- CEO and Managing Director - accountable to the Board for the Company's performance and long-term planning;
- Those roles classified as executive KMP under the Corporations Act;
- Direct reports to the CEO and Managing Director - roles that are business unit, functional, or expertise heads; and
- Any other roles as determined by the Board.

The framework outlines the Company's intentions regarding senior executive remuneration, including how remuneration is to be structured, benchmarked and adjusted in response to changes in the circumstances of the Company, and in line with current best-practices. The framework is summarised in the formal and documented remuneration policy of the Company, available on the Company website. The following outlines the intentions of the Board in relation to applying the framework:

- Remuneration should be composed of:
 - Base package (inclusive of superannuation, allowances, benefits and any applicable fringe benefits tax (FBT);
 - STIP which provides a reward for performance against annual objectives and which may be subject to deferral as determined by the Board from time to time;
 - LTIP which provides an equity-based reward for performance against indicators of shareholder benefit or value creation, over a three-year period, intended to create alignment with shareholders; and
 - In total the sum of the elements will constitute a total remuneration package (TRP).
- Both internal relativities and external market factors should be considered;
- The performance of the Company and of senior executives should be considered in respect of the design of remuneration; and
- Termination benefits will generally be limited to the default amount allowed for under the Corporations Act (without shareholder approval) and will not be made when an executive is removed for misconduct.

The Board continues to consider its approach in relation to setting remuneration when there are two or more markets that need to be considered, generally the Australian market which shareholders may be expected to reference when assessing remuneration, and international markets as may be relevant to each role. This is challenging because only by meeting market expectations in each location can the Company hope to build and retain an appropriately talented executive team in respect of its international locations, and yet remuneration must also appear reasonable and appropriate to Australian stakeholders given that the Company is listed in Australia. The approaches most evident in the market are:

- Remunerate according to the Australian market, which is likely to lead to a loss of internationally sourced talent, but which produce internal relativities between roles that are logical;
- Remunerate according to the market relevant to each executive location, which may lead to outcomes that appear high or unusual in terms of structure relative to Australian standards, and which may produce unusual internal relativities; or
- A hybrid approach such as setting base packages according to the Australian market (locally reasonable and producing good internal relativities), and set TRPs relative to each executive location (ensuring competitiveness in total pay, but with varying degrees of focus on incentives) or some other criteria.

To date, the Company continues to be most closely aligned to the second approach, as was necessary to build the business and maintain local market expertise. The Board anticipates, and welcomes, feedback from shareholders in this regard.

5.2 EMPLOYMENT TERMS FOR KEY MANAGEMENT PERSONNEL

A summary of contract terms in relation to executive KMP is presented below:

NAME	POSITION	EMPLOYING COMPANY	DURATION OF CONTRACT	PERIOD OF NOTICE	Payments ¹
Ms Libby Roy ²	CEO and Managing Director	Bravura Solutions Operations Pty Ltd	Open ended	6 months	Up to 12 months
Mr Brent Henley	CFO and Executive Director	Bravura Solutions Operations Pty Ltd	Open ended	6 months	Up to 12 months
Ms Megan Owen	Chief Operating Officer	Bravura Solutions (UK) Limited	Open ended	6 months	Up to 12 months
Former KMP					
Mr Nick Parsons	CEO and Managing Director	Bravura Solutions (UK) Limited	Open ended	6 months	Up to 12 months
Mr Martin Deda	CFO and Executive Director	Bravura Solutions Operations Pty Ltd	Open ended	6 months	Up to 12 months
Mr Tony Klim	CEO and Managing Director	Bravura Solutions (UK) Limited	Open ended	12 months	Up to 12 months

1. Under the Corporations Act the termination benefits limit is 12 months average salary (last 3 years) unless shareholder approval is obtained.

2. Ms Libby Roy receives sign-on share options to a value of \$1 million, on commencement of employment, one third vesting on start date, one third on 1 year anniversary, and one third on second year anniversary.

REMUNERATION REPORT (AUDITED) (CONTINUED)

The treatment of incentives in the case of termination is addressed in separate sections of this Report that give details on incentive design.

5.3 DEFINING THRESHOLD, TARGET AND STRETCH FOR INCENTIVE PURPOSES

In relation to the design, implementation and operation of incentives there should, where possible, be a range of performance and reward outcomes identified and defined. These should be set with regard to the elasticity of the measure, the impact of the measure on shareholder value creation and the ability of senior executives to influence the measure. In order to create clarity and consistency, the following concepts and principles are generally intended to apply to the design of incentive scales:

- “Target”, being a challenging but achievable outcome, and which is the expected outcome for a senior executive/team that is of high calibre and high performing;
- “Threshold”, being a minimum acceptable outcome for a “near miss” of the target, associated with a fraction of the target reward appropriate to the threshold outcome; and
- “Stretch” (the maximum) levels of objectives, which is intended to be a “blue sky” or exceptional outperformance not expected to be achieved, the purpose of which is to create a continuous incentive to outperform when outperformance of the target has already been achieved. This is particularly important for shareholders to understand when comparing with other companies whose maximum levels of incentives may be associated with a planned or target outcome.

Awards for outcomes between these levels should generally be scaled on a pro-rata basis dependent on actual performances. This is intended to provide a motivating opportunity to attain a reward, and to ensure that reward outcomes align with performance, under a range of circumstances.

It is recognised that there is a link between the budget setting culture of the Company and the setting of incentive hurdles. In this regard, the Board is confident that budgets developed and agreed to are sufficiently challenging but also achievable, and therefore appropriate to be linked to target rather than to threshold.

5.4 SHORT-TERM INCENTIVE PLAN (STIP)

Short-Term Incentive Plan (STIP)

Aspect	Plan, offers and comments
Purpose	This element of remuneration aims to provide an incentive for senior executives to deliver or outperform annual business plans that will lead to sustainable superior returns for shareholders. Target-based STIPs are also intended to modulate the cost to the Company of employing senior executives, such that risk is shared with the executives themselves and the cost to the Company is reduced in periods of poor performance.
Measurement period	The Company's financial year.
Award opportunities	<p>FY22 Invitations</p> <p>The Group CEO was offered a target-based STIP equivalent to 100% of the base package for target performance, with a maximum/stretch opportunity of up to 120% of the target award, i.e. 120% of the base package.</p> <p>The Group CFO was offered a target-based STIP equivalent to 50% of the base package for target performance, with a maximum/stretch opportunity of up to 120% of the target award, i.e. 60% of the base package.</p> <p>Other senior executives who are KMP were offered a target-based STIP equivalent to 30% of their base package for target performance, with a maximum/stretch opportunity of up to 120% of the target award, i.e. 36% of the base package.</p> <p>Comments</p> <p>Shareholders should refer to the definitions of threshold, target and stretch presented elsewhere in this document when assessing incentive practices.</p>
Key Performance Indicators (KPIs), Weighting and performance goals	<p>FY22 Invitations</p> <p>FY22 Invitations to participate in the STIP were based on Group NPAT with threshold, target and stretch as outlined in section 3.2.1.</p> <p>Note: Total outcomes cannot exceed 120% of the pool and awards will be scaled back on a pro-rata basis for each participant until this condition is met.</p> <p>Comments</p> <p>The Board selected these measures as being those that are critical to the delivery of the expectations set and expected to drive economic profitability and ultimately shareholder value creation over the long term, within a financial year period.</p>

REMUNERATION REPORT (AUDITED) (CONTINUED)

Short-Term Incentive Plan (STIP)

Aspect	Plan, offers and comments
Award determination and payment	<p>Calculations are performed following the end of the measurement period and the audit of Company accounts. The Board retains discretion to modify outcomes to ensure that the STIP does not produce outcomes that shareholders would be likely to consider inappropriate.</p> <p>FY22 Invitations</p> <p>Awards are made in cash with PAYG tax deducted.</p>
Cessation of employment during a measurement period	<p>In the event of cessation of employment due to dismissal for cause, all entitlements in relation to the measurement period are forfeited.</p> <p>In the case of cessation of employment for other reasons, the incumbent may receive a pro-rata payment at the discretion of the Board.</p>
Change of control	The treatment of STIP in the case of a takeover or change of control is subject to Board discretion.
Plan gate & board discretion	<p>For each measurement period the Board will have the discretion to modify outcomes to ensure that they are appropriate. When such discretion is applied, it will be disclosed and explained.</p> <p>A specified gate condition applies to offers of STIP such that no award will be payable in relation to any KPI if the gate condition is not met or exceeded.</p> <p>FY22 Invitations</p> <p>A gate applied of threshold Group NPAT and no award for any measure would be payable if the gate was not exceeded.</p>
Fraud, gross misconduct etc.	If the Board forms the view that a participant has committed fraud, defalcation or gross misconduct in relation to the Company then all entitlements in relation to the measurement period will be forfeited by that participant.

5.5 LONG-TERM INCENTIVE PLAN (LTIP)

Performance rights were granted to executives with hurdles that apply as follows:

- (1) 50% of the LTIP grant is subject to an Earnings Per Share (EPS) hurdle; and
- (2) 50% of the LTIP grant is subject to a Total Shareholder Return (iTSR) hurdle.

The use of two performance hurdles weighted equally is consistent with market practice. The hurdles motivate executives with a clear line of sight to the outcome through the combination of an internal (EPS) and external (iTSR) measure. When expectations are met, and all other things being equal, the LTIP is intended to vest and deliver the appropriate level of remuneration and market positioning.

In total, the Consolidated Entity granted 1,173,168 performance rights during the year under the LTIP, of which 415,210 were to KMP (Refer to section 6.2 of this Remuneration Report).

The structure and details of LTIP performance rights issued to executives in FY22 under the plan are summarised in the following table:

Long-Term Incentive Plan (LTIP)

Aspect	Plan, offers and comments
Purpose	The LTIPs purpose is to align executive interests with those of shareholders by linking reward to sustainable value creation for shareholders. As well as facilitating executives becoming shareholders, the LTIP provides an incentive for senior executives to exceed expectations (the upside above target), and shares long-term risks with executives (the downside below target, noting that under AASB2, costs related to non-market conditions can be written back when vesting is lower than expectations). Other purposes of the LTIP are to assist in the attraction and retention of a stable team of sustainability focused senior executives.
Nature	Each LTIP performance right entitles the participant to one share in the Company upon vesting.
Grant frequency	Annual grant, ad-hoc on commencement of employment and future potential grants.
Eligibility criteria	Selected executives.
Exercise price	5-day VWAP preceding grant date.

REMUNERATION REPORT (AUDITED) (CONTINUED)

Long-Term Incentive Plan (LTIP)

Aspect	Plan, offers and comments
Exercise of vested Performance Rights	Vested performance rights are exercised automatically following vesting to the extent that the performance hurdles are met. Rights that do not vest, lapse. Exercised rights will be satisfied in the form of ordinary Company shares, except where the Board exercises its discretion to settle in the form of cash.
Right to dividends	No dividend rights until exercised.

Long-Term Incentive Plan (LTIP)

Aspect	Plan, offers and comments																																										
Performance hurdles	<p>Earnings per share (EPS) – 50% of LTIP performance rights granted</p> <table border="1"> <thead> <tr> <th>Performance level</th> <th>TOTAL GROWTH OVER 3 YEARS</th> <th>VESTING</th> </tr> </thead> <tbody> <tr> <td>Stretch</td> <td>≥56%</td> <td>100%</td> </tr> <tr> <td>Between target & stretch</td> <td>>33% & <56%</td> <td>>50% & <100%</td> </tr> <tr> <td>Target</td> <td>33%</td> <td>50%</td> </tr> <tr> <td>Between target & stretch</td> <td>>22% & <33%</td> <td>>25% & <50%</td> </tr> <tr> <td>Threshold</td> <td>22%</td> <td>25%</td> </tr> <tr> <td>Below threshold</td> <td><22%</td> <td>0%</td> </tr> </tbody> </table> <p>Performance right vesting levels are interpolated between each percentile above.</p> <p>Indexed Total Shareholder Return (iTSR) – 50% of LTIP performance rights granted</p> <p>Based on relative iTSR performance over a three year measurement period against a comparator group (ASX 300 iTSR Index):</p> <table border="1"> <thead> <tr> <th>Performance level</th> <th>COMPANY'S TSR COMPARED TO THE ASX300 TOTAL RETURN INDEX</th> <th>VESTING</th> </tr> </thead> <tbody> <tr> <td>Stretch</td> <td>≥100% of Index Plus 10% CAGR</td> <td>100%</td> </tr> <tr> <td>Between target & stretch</td> <td>>100% Plus 5% CAGR & < 100% of Index Plus 10% CAGR</td> <td>Pro-rata</td> </tr> <tr> <td>Target</td> <td>100% of Index Plus 5% CAGR</td> <td>50%</td> </tr> <tr> <td>Between threshold & target</td> <td>>100% of Index & <100% of Index Plus 5% CAGR</td> <td>Pro-rata</td> </tr> <tr> <td>Threshold</td> <td>100% of Index</td> <td>25%</td> </tr> <tr> <td>Below threshold</td> <td><100% of Index</td> <td>0%</td> </tr> </tbody> </table> <p>Performance right vesting levels are interpolated between each percentile above.</p>	Performance level	TOTAL GROWTH OVER 3 YEARS	VESTING	Stretch	≥56%	100%	Between target & stretch	>33% & <56%	>50% & <100%	Target	33%	50%	Between target & stretch	>22% & <33%	>25% & <50%	Threshold	22%	25%	Below threshold	<22%	0%	Performance level	COMPANY'S TSR COMPARED TO THE ASX300 TOTAL RETURN INDEX	VESTING	Stretch	≥100% of Index Plus 10% CAGR	100%	Between target & stretch	>100% Plus 5% CAGR & < 100% of Index Plus 10% CAGR	Pro-rata	Target	100% of Index Plus 5% CAGR	50%	Between threshold & target	>100% of Index & <100% of Index Plus 5% CAGR	Pro-rata	Threshold	100% of Index	25%	Below threshold	<100% of Index	0%

1. For performance hurdles, refer structure and details of LTIP performance rights in earlier sections of this Remuneration Report.

2. Grant date fair value in respect of grants made during the year, refer to Note 26 in the financial report for details of assumptions.

3. Performance rights have no exercise price.

4. Brent Henley will receive an allocation under the FY22 LTIP equivalent to 60% of his fixed annual salary of \$430,000, subject to shareholder approval at the 2022 AGM.

REMUNERATION REPORT (AUDITED) (CONTINUED)

7 NON-EXECUTIVE DIRECTOR REMUNERATION

The Remuneration Policy outlines the framework for remuneration as it applies to Non-executive Directors of the Company in their capacity as directors and as members of committees, and may be summarised as follows:

- Remuneration may be composed of:
 - Board fees;
 - Committee fees;
 - Superannuation;
 - Other benefits; and
 - Equity (if appropriate at the time).
- Remuneration will be managed within the aggregate fee limit (AFL) or fee pool approved by shareholders of the Company;
- Remuneration will be reviewed annually;
- Termination benefits will not be paid to Non-executive Directors;
- A policy level of Board fees (being the fees paid for membership of the Board, inclusive of superannuation and exclusive of committee fees) will usually be above P50 (median or middle) of the market of comparable ASX listed companies when benchmarking is undertaken; and
- Committee fees may be used to recognise additional contributions to the work of the Board by members of committees, usually producing a clustering of total fees above P50 reflecting the workload of each NED.

Currently the Company does not provide equity as part of non-executive director remuneration and shareholder approval would be sought for any plan that may facilitate this element of remuneration being paid.

7.1 NON-EXECUTIVE DIRECTOR REMUNERATION

Given the growth in operational scale and complexity of Bravura Solutions since re-listing in 2016, and the finite pool from which Non-executive Directors are sourced, the Non-executive Director fee policy was reviewed with the support of Independent Remuneration Consultants (UK and Australia). The Board increased director fees, in line with market trends evident in data provided. The following table outlines the current fee structure:

POSITION	YEAR	FY23 FEE
		\$
Chairman	2023	258,448
Independent Non-executive Director - EMEA Chair Base Fee ¹	2023	150,000
Independent Non-executive Director Base Fee	2023	129,224
Committee Chair	2023	20,910
Committee Member	2023	10,455

1. Peter Mann assumed the role of Regional Non-executive Chair of Bravura EMEA on 22 August 2022.

Alexa Henderson and Peter Mann receive their fees in GBP as agreed in their letters of appointment. Actual amounts paid or payable vary as a result of exchange rate movements.

REMUNERATION REPORT (AUDITED) (CONTINUED)

7.2 NON-EXECUTIVE DIRECTOR REMUNERATION - STATUTORY TABLE

Remuneration paid or payable to Non-executive Directors, prepared in accordance with the statutory disclosure requirements, is presented below:

NAME	YEAR	DIRECTORS' FEES \$	OTHER BENEFITS \$	TOTAL \$
N Broekhuizen (Non-executive Director and Chairman)				
	2022	252,450		252,450
	2021	247,500	-	247,500
A Henderson (Non-executive Director)				
	2022	179,611		179,611
	2021	173,055	-	173,055
L Roy (Non-executive Director)				
	2022	136,894		136,894
	2021	134,559	-	134,559
P Mann (Non-executive Director)¹				
	2022	179,611	19,726	199,337
	2021	173,055	-	173,055
Total Non-executive Directors				
	2022	748,566	19,726	768,292
	2021	728,170	-	728,170

1. Peter Mann's remuneration includes fees earned for his services as Interim CEO from 22 June to 22 August 2022 pro-rata for the reporting period.

On appointment to the Board, all Non-executive Directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms, including compensation relevant to the office of the Director. The appointment letters specify a term of three years with no notice periods. Non-executive Directors are not eligible to receive termination payments under the terms of the appointments.

Non-executive Director fees are managed within the current aggregate fees limit (or fee pool) of \$1,000,000 as was approved by shareholders at the 2019 Annual General Meeting.

Alexa Henderson and Peter Mann receive their fees in GBP as agreed in their letters of appointment. Actual amounts paid or payable vary as a result of exchange rate movements.

This Report forms part of the Directors' Report and has been audited in accordance with Section 300A of the Corporations Acts 2001.

Auditor's Independence Declaration to the Directors of Bravura Solutions Limited

As lead auditor for the audit of Bravura Solutions Limited for the financial year ended 30 June 2022, I declare to the best of my knowledge and belief, there have been:

- a) No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;
- b) No contraventions of any applicable code of professional conduct in relation to the audit; and
- c) No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Bravura Solutions Limited and the entities it controlled during the financial year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the Consolidated Entity consisting of Bravura Solutions and its subsidiaries.

The Financial Report was authorised for issue on 30 August 2022 by the Board of Directors.

(a) Basis of preparation

This general purpose Financial Report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

(i) Compliance with IFRS

The consolidated financial statements of the Consolidated Entity comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(ii) Historical cost convention

These financial statements have been prepared under the historical cost convention, except for contingent consideration that have been measured at fair value.

(iii) Critical accounting estimates

The preparation of financial statements in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates. It also requires Management to exercise its judgement in the process of applying the Consolidated Entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.

(iv) Comparatives

The Consolidated Entity has made reclassifications in prior year comparatives in order to align with the presentation in this Financial Report.

(b) Going concern

These financial statements have been prepared on a going concern basis.

(c) Basis of consolidation

The consolidated financial statements comprise the financial statements of Bravura Solutions ("Company" or "Parent Entity") and its subsidiaries ("the Group") as at 30 June 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of Other Comprehensive Income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation unless the transaction provides evidence of the impairment of that asset transferred.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Profit and Loss and Other Comprehensive Income and Consolidated Statement of Financial Position respectively.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the consolidated entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Bravura Solutions functional and presentation currency.

Each entity in the Consolidated Entity determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currencies of the overseas subsidiaries are as follows:

- (a) Bravura Solutions (NZ) Ltd – New Zealand dollars (NZ\$)
- (b) Bravura Solutions (UK) Holdings Ltd – Australian dollars (AU\$)
- (c) Bravura Solutions (UK) Investments Ltd – British pounds (GB£)
- (d) Bravura Solutions (UK) Ltd – British pounds (GB£)
- (e) Bravura Solutions (HK) Ltd – United States dollars (US\$)
- (f) Bravura Solutions Luxembourg Holdings S.à.r.l. – Euro (€)
- (g) Bravura Software Solutions (SA)(Proprietary) Ltd – South African Rand (ZAR)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

- (h) Bravura Solutions (Poland) Holdings S.P. ZOO – Polish Zloty (PLN)
- (i) Bravura Solutions Polska S.P. ZOO – Polish Zloty (PLN)
- (j) Mutual Fund Technologies Ltd – British pounds (GB£)
- (k) Bravura Solutions Services (UK) Ltd – British pounds (GB£)
- (l) Bravura Solutions India LLP – Indian Rupee (INR)
- (m) Bravura Solutions (Deutschland) GmbH – Euro (€)
- (n) Delta Financial Systems Ltd – British pounds (GB£)

As at the reporting date the assets and liabilities of these overseas subsidiaries are translated into the presentation currency of Bravura Solutions at the rate of exchange ruling at the reporting date and revenues, expenses and other comprehensive income are translated at the average exchange rates for the period.

The exchange differences arising on the re-translation are taken directly to a separate component of equity.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the Consolidated Statement of Profit and Loss and Other Comprehensive Income.

(e) Revenue

- (i) *Revenue from contracts with customers*

The Consolidated Entity derives its revenues from the maintenance, support and hosting, professional services and licence fees (Refer to Note 6).

A single, principles-based five-step model to revenue recognition is applied to all contracts with customers.

- (1) Identify the contract(s) with a customer
- (2) Identify the performance obligations in the contract
- (3) Determine the transaction price
- (4) Allocate the transaction price to the performance obligations in the contract
- (5) Recognise revenue when (or as) the entity satisfies a performance obligation

Maintenance, support and hosting

Maintenance, including Software as a Service (SaaS), support and hosting revenue, are included in most software licence arrangements. Maintenance provides customers with rights to unspecified software product upgrades and maintenance enhancements. Support provides customers with rights to access the help desk during the term of the support period and is recognised rateably on a straight-line basis over the term of the arrangement.

Software as a Service (SaaS) revenue is earned through the use of the Group's software to provide a service to the customer, whereby the customer does not have the ability to take separate infrastructure of the software under a licensed arrangement. This includes the support and development of the software as well as the hosting infrastructure. The hosting infrastructure in the arrangement may be the Group's own infrastructure or that of a third-party hosting infrastructure.

Professional services

Software implementation and development services represents revenue from consulting, training and implementation services sold separately under service contracts. Fixed price arrangements are accounted for over

time on a percentage-of-completion basis. Time and material contracts are recognised as utilised by the client.

Software licence

Software licence revenues are earned for the fees from granting customers licences to use the Group's software, either through an initial licence or through the purchase of additional modules or user rights, but excludes any amounts that are related to maintenance. Revenue is recognised at the point the software is delivered, functional and control has been passed to the customer. The Group includes software that is either sold on a term basis or perpetual basis but excludes software licences that are sold on a subscription payment basis.

Licence revenue is determined by allocating the consideration to the performance obligations attached to the licence, which allocation is similarly determined using the residual method. However, the Group consider that licence fees may be recognised upfront if:

- The arrangement with the customer does not require significant development, modification or customisation of the software solution;
- There are no contingencies on the licences that could cause deferral of revenue (e.g. refund clauses attached to the licence) i.e. no amounts are refundable;
- The contract is non-cancellable and there are no break clauses considered substantive; and
- There is no remaining obligation for the Group attached to the licence.

AASB 15 *Revenue from Contracts with Customers* requires estimates and judgments to be made and consistently applied by the Group in accounting for the revenue from contracts with customers. The areas that require estimates and judgments by the Group are detailed below.

Identification of contract

The Group often enters into multiple contracts with a customer and will assess these for the need to combine if the contracts are negotiated in and around the same time, are for the same economic purpose or are dependent upon one another. Initial agreements often have additional purchases, addenda or terms modified throughout their term. At each point a contract is modified, the Group assesses the contract under AASB15 to determine whether these modifications are treated as a modification or a separate contract.

Identifying performance obligations

The Group can sell clearly defined separate performance obligations as identified by the disclosed revenue streams, or bundled deals, where the client pays a fee for multiple services contracted. If the contract is bundled, the Group identifies each performance obligation in the contract and allocate a stand-alone selling price for each. If additional products or services are acquired, such as additional usage rights, renewals, products, modules, etc, each of these options are assessed to see if it provides that customer a material right. If a material right has been granted Bravura will identify this as a separate performance obligation later in the revenue accounting process and allocate the appropriate consideration to the performance obligation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

Determining the transaction price

Judgement is required in assessing the total consideration that will be paid in exchange for the satisfied performance obligations. This includes not only assessing the variable amounts which may be included in the consideration but also assessing if any concessions, discounts or other variable factors may reduce the fixed fees in the contract. The Group uses internal historical experiences as well as external factors in making the necessary estimates.

Allocating the consideration to the performance obligation

The Group applies the consideration based on a standalone selling price. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both.

Expected cost plus margin is the approach used for all performance obligations, except licence. This approach focuses more on internal factors (e.g., the Group's cost basis), but has an external component as well. That is, the margin included in this approach must reflect the margin the market would be willing to pay, not just the Group's desired margin. The margin may have to be adjusted for differences in products, geographies, customers and other factors.

Once all other performance obligations have been identified and consideration has been allocated to each performance obligation, the residual is then allocated to the licence.

Recognising revenue when the performance obligation is satisfied

The Group recognises all licence revenue at a point in time when the software is delivered, functional and the customer has control. Under AASB15, the transfer of control to the customer represents the transfer of the rights regarding the good or service. The customer's ability to receive the benefit from the good or service is represented by its right to substantially all the cash inflows, or the reduction of the cash outflows, generated by the goods or services.

Maintenance services, including SaaS, support and hosting services, are recognised over the period the service is provided on a straight-line basis. The standard maintenance offering is an obligation to provide technical currency and unspecified updates, upgrades and enhancements on a when and if available basis. Customers simultaneously receive and consume the benefits of these services as performed.

Professional services are recognised over time using a percentage of completion based on the input method for the fixed price service offering. These can also be performed on a time and material basis where they are recognised as utilised by the client.

Contract assets

Accrued services and licence revenue and deferred incremental costs of obtaining a contract are recorded within contract assets on the Consolidated Statement of Financial Position.

Incremental costs of obtaining a contract and the costs directly related to fulfilling a contract are capitalised and amortised over the length of the contract. The Group remunerates employees who actively participate in the sales process with commissions calculated based on revenues and contract margins where they have been involved in the successful contract execution. This typically includes revenues and contract margins which will be recognised in subsequent financial reporting years. Commissions related to sales are recognised as an asset on contract execution with the amortisation period being consistent with the period over which the associated revenue will be recognised.

Contract liabilities

Fees for services received in advance are recorded as a liability within contract liabilities on the Consolidated Statement of Financial Position and these amounts are amortised to profit or loss over the relevant period of the contract which is in line with the provision of the services.

(i) Interest income

Interest income is recognised using the effective interest method. When a receivable is impaired, the Consolidated Entity reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(ii) Dividends

Dividends are recognised as revenue when the right to receive payment is established.

(iii) Other revenue

Other revenue is recognised when the right to receive payment is established.

(f) Income tax

The income tax expense or revenue for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the reporting date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences:

- Except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax assets and unused tax losses can be utilised:

- Except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

The carrying amount of deferred tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Tax consolidation legislation

Certain Australian entities in the Group formed a tax consolidated group in Australia from 10 October 2013. The tax consolidated group's current tax expense and other deferred tax assets are required to be allocated to the members of the Australian tax consolidated group in accordance with IIG 1052. The Consolidated Entity uses a group allocation method for this purpose where the allocated current tax payable, current tax loss, deferred tax assets and other tax credits for each Australian member of the tax consolidated group is determined as if the Australian Group is a stand-alone tax payer but modified as necessary to recognise membership of a tax consolidated group. Recognition of amounts allocated to members the tax consolidated group has regard to the tax consolidated group's future taxable profits.

(g) Leases

The Group assesses whether a contract is or contains a lease based on the definition contained under AASB 16. Under AASB 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e. the ROU asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the ROU asset. Lessees will also be required to remeasure the lease liability upon the occurrence of certain events (i.e., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). Lessees will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the ROU asset.

At inception, the Group assessed whether a contract is or contains a lease. This assessment involves the exercise of judgement about whether it depends on a specified asset, whether the Group obtains substantially all the economic benefits from the use of that asset, and whether the Group has the right to direct the use of the asset. The Group has elected to separate lease and non-lease components for all leases.

The Group recognises an ROU asset and lease liability at the inception of the lease. The ROU asset is initially measured based on the present value of the minimum lease payments, plus initial direct costs and the cost of obligations to refurbish the asset, less any incentives received. The ROU asset is depreciated over the shorter term of the lease term or the useful life of the underlying asset. The ROU asset is subject to testing of impairment if there is an indicator of impairment.

Lease payments generally include fixed payments and variable payments that depend on an index (such as an inflation index). When the lease contains an extension or purchase option that the Group considers reasonably certain to be exercised, the cost of the option is included in the lease payments. The Group leases various offices and equipment. Rental contracts are typically made for fixed periods but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In the future, if an extension option previously not assessed as reasonably certain, is exercised, the

impact on the financial statements would be the recognition of a ROU asset equal to the lease liability for the exercised option period.

(h) Business combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Consolidated Entity. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition by acquisition basis, the Consolidated Entity recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the aggregate of consideration transferred and the amount recognised for non-controlling interests in the acquiree and any previous interest held in the acquiree, over the net identifiable assets acquired and liabilities assumed, is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the Entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

(i) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

At each reporting date, the Consolidated Entity assesses whether there is any indication that an asset may be impaired, or more frequently if events or changes in circumstances indicate that they might be impaired. Where an indicator exists, the Consolidated Entity makes a formal estimate of the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered to be impaired and is written down to its recoverable amount.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Non-financial assets other than goodwill that suffer impairment are tested for possible reversal of the impairment whenever events or changes in circumstances indicate that the impairment may have reversed.

(j) Cash and cash equivalents

For the purpose of presentation in the Consolidated Statement of Cash Flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Consolidated Statement of Financial Position.

(k) Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before payment of the consideration is due).

Trade receivables are generally due for settlement within 30 to 60 days.

(l) Financial instruments - initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI) and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policies in section (e) Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent measurement

For purposes of subsequent measurement, the Group currently holds and classifies financial assets in the following categories:

- Financial assets at amortised cost
- Financial assets at fair value through OCI

Financial assets at amortised cost

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
And
- The contractual terms of the financial asset give rise on the specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, and loan to an associate and loan to a director included under other non-current financial assets.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under AASB 132 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group elected to classify irrevocably its investment in subsidiaries within the parent entity (Refer to Note 34) at fair value through OCI.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's Consolidated Statement of Financial Position) when:

- The rights to receive cash flows from the asset have expired
Or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings, lease liabilities and contingent consideration.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

All of the Group's financial liabilities are classified as loans and borrowings.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains

and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral party of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to interest-bearing loans and borrowings. For more information, Refer to Note 19.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such as exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(m) Derivatives

The Group may use derivative financial instruments, such as interest rate swaps, to hedge its interest rate risks. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Consolidated Entity designates certain derivatives as either:

- Hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedges);
- Hedges of the cash flows of recognised assets and liabilities and highly probable forecast transactions (cash flow hedges); or
- Hedges of a net investment in a foreign operation (net investment hedges).

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss. Per Note 3, the Group does not apply hedge accounting. Derivatives are carried as financial assets when the fair value is positive and financial liabilities when the fair value is negative.

(n) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher amount determined in accordance with AASB 137 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

Where guarantees in relation to loans or other payables of subsidiaries or related parties are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

(o) Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Consolidated Entity and the cost of the item can be measured reliably. The carrying amount of the replaced part is de-recognised. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives or, in the case of leasehold improvements and certain leased plant and equipment, the lease term or as follows:

Plant and equipment	20% to 50%
Furniture and fittings	20% to 30%
Leasehold improvements	Term of lease
Hosting plant and equipment	20%
Right-of-use assets	Term of lease

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Refer to Note 1(i).

Gains and losses on disposals are determined by comparing proceeds with the asset's carrying amount. These are included in profit or loss.

(p) Intangible assets

(i) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Consolidated Entity's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised. Instead, goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose, identified according to operating segments.

(ii) Business contracts and relationships

Business contracts and relationships acquired in a business combination are amortised on a straight-line basis over the period of their expected benefit, being their finite life of between two and twenty years.

(iii) Intellectual property and software development

Intellectual property and software development are capitalised as an asset and are amortised on a straight-line basis over the period of their expected benefit, being their finite life of five to fifteen years.

Research costs are expensed as incurred. An intangible asset arising from development expenditure on an internal project is recognised only when the Consolidated Entity can demonstrate the following: technical feasibility of completing the intangible asset so that it will be available for use or sale, the intention to complete and the ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Following initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure so capitalised is amortised over the period of expected benefits from the related project date.

Technological feasibility for software products is reached shortly before the products are released for commercial sale to customers. Development costs incurred after technological feasibility are established as capitalised. Research costs are expensed when incurred.

(q) Trade and other payables

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Consolidated Entity prior to the end of the financial year that are unpaid and arise when the Consolidated Entity becomes obliged to make future payments in respect of the purchase of these goods and services.

(r) Borrowing costs

Borrowing costs are expensed as incurred, except where they are directly attributable to the acquisition, contribution or production of a qualifying asset, in which case they are capitalised as part of the cost of that asset. The Consolidated Entity does not currently hold qualifying assets.

(s) Provisions

Provisions are recognised when the Consolidated Entity has a present obligation (legal or constructive) as a result of a past event, it is probable the Consolidated Entity will be required to settle the obligation, and a reliable estimate can be made regarding the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Onerous contract provisions are recognised for losses on contracts where the forecast costs of fulfilling the contract throughout the contract period exceed the forecast income receivable. The provision is calculated based on discounted cash flows to the end of the contract.

(t) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit obligations

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Share-based Payments

Employees (including Executive Directors and other senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for performance rights (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model, further details of which are given in Note 26. That cost is recognised in employee benefits expense (Refer to Note 7), together with a corresponding increase in equity (reserves), over the period in which the service and, where applicable, the performance conditions are fulfilled (the vesting period). The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied. When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss. The dilutive effect of outstanding performance rights is reflected as additional share dilution in the computation of diluted earnings per share (Refer to Note 9).

(u) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

(v) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from or payable to the taxation authority is included with other receivables or payables in the Consolidated Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(w) Fair value measurement

AASB 13 *Fair Value Measurement* establishes a single framework for measuring fair value and making disclosures about fair value measurements, when such measurements are required or permitted by other AASBs. It unifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It replaces and expands the disclosure requirements about fair value measurements in other AASBs, including AASB 7 *Financial Instruments: Disclosures*. These changes have no significant impact on the Consolidated Entity's disclosures as the carrying amount of the assets and liabilities are a reasonable approximation of their fair value.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(x) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer.

There are no inter-segment transactions. Corporate charges are expensed after the segment profit is measured.

(y) Rounding of amounts

The Consolidated Entity of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191, dated 24 March 2016, and consequently the amounts in this report have been rounded off to the nearest thousand dollars.

(z) New accounting standards, interpretations and amendments adopted by the Group.

No new accounting standards, interpretations and amendments have been adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

(aa) New and amended standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting year and have not been early adopted by the Consolidated Entity. The Consolidated Entity's assessment of the impact of these new standards and interpretations is set out below, which standards will be adopted on their respective dates.

(i) *Amendments to IAS 1: Classification of Liabilities as Current or Non-current*

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferred right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The amendments will be applicable to the Group for the reporting period ending 30 June 2024 and are not expected to have a material impact on the Group.

(ii) *Reference to the Conceptual Framework - Amendments to IFRS 3*

In May 2020, the IASB issued Amendments to IFRS 3 *Business Combinations - Reference to the Conceptual Framework*. The amendments are intended to replace a reference to the *Framework for the Preparation and Presentation of Financial Statements*, issued in 1989, with a reference to the *Conceptual Framework for Financial Reporting* issued in March 2018 without significantly changing its requirements.

The IASB also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 *Levies*, if incurred separately.

At the same time, the IASB decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the *Framework for the Preparation and Presentation of Financial Statements*.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively. The amendments will be applicable to the Group for the reporting period ending 30 June 2023.

(iii) *Property, Plant and Equipment: Proceeds before Intended Use - Amendments to IAS 16*

In May 2020, the IASB issued *Property, Plant and Equipment - Proceeds before Intended Use*, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the

beginning of the earliest period presented when the entity first applies the amendment.

The amendments will be applicable to the Group for the reporting period ending 30 June 2023 and are not expected to have a material impact on the Group.

(iv) *Onerous Contracts - Costs of Fulfilling a Contract - Amendments to IAS 37*

In May 2020, the IASB issued amendments to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the reporting period ending 30 June 2023.

(v) *Definition of Accounting Estimates - Amendments to IAS 8*

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of "accounting estimates". The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

(vi) *Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2*

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 *Making Materiality Judgements*, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their "significant" accounting policies with a requirement to disclose their "material" accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The amendments are not expected to have a material impact on the Group.

(ab) Parent Entity financial information

The financial information for the Parent Entity of Bravura Solutions is disclosed in Note 34 and has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) *Investments in subsidiaries, associates and joint venture entities*

Investments in subsidiaries, associates and joint venture entities are accounted for at fair value through other comprehensive income in the financial statements of Bravura Solutions. Fair value is determined based on the closing share price on the reporting date. Dividends

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

received from associates are recognised in the Parent Entity's profit or loss, rather than being deducted from the carrying amount of these investments.

(ii) Tax consolidation legislation

The Group has adopted and complied with the tax consolidation legislation.

The head entity, Bravura Solutions Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand-alone taxpayer in its own right.

(iii) Financial guarantees

Where the Parent Entity has provided financial guarantees in relation to loans and payables of subsidiaries for no compensation, the fair values of these guarantees are accounted for as contributions and recognised as part of the cost of the investment.

2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates and assumptions

The Consolidated Entity makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Revenue recognition

Revenue is measured at the stand-alone selling price as allocated to the contractual performance obligations. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The Consolidated Entity derives its revenues from the licence, maintenance and managed services/hosting of its software products and of support, consulting, development, training and other professional services. The vast majority of its software and maintenance arrangements include support services and a few also include professional services. Judgement is involved in assessing the recognition of the variable consideration, to ensure that revenue is only recognised to the extent that it is highly probable that a significant reversal will not happen.

The Consolidated Entity recognises revenue by applying the five-step model to the Consolidated Entity's activities as described in Note 1(e). The Consolidated Entity bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(ii) Goodwill and intangibles with indefinite useful life

The Consolidated Entity determines whether goodwill and intangibles with indefinite useful lives are impaired at least on an annual basis. This requires an estimation of the recoverable amount of the cash-generating units to which the goodwill with indefinite useful lives are allocated.

(iii) Taxes

Management regularly assesses the adequacy of income tax provisions having regard to the differing tax rules and regulations applicable in the various jurisdictions in which the Group operates. Due to the complexities of tax rules and regulations in numerous jurisdictions, matters such as the availability and timing of tax deductions and the application of the arm's length principle to cross-border transactions often require significant judgements and assumptions to be made.

Deferred tax assets are recognised for deductible temporary differences and tax losses to the extent that it is probable that future taxable profits will be available to utilise those temporary differences and tax losses. Significant judgement is required by management to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

(iv) Long-service leave provision

A provision has been made for the present value of the anticipated costs to meet the Consolidated Entity's long-service leave liabilities under Australian federal and state laws. The calculation of this provision requires assumptions such as an estimation of the probability that an employee will remain with the Consolidated Entity until they reach the entitlement period. The probability factors applied to pro-rated entitlements are based on company and industry specific data. Adjustments are made to these probabilities when considered necessary.

(v) Onerous contracts

The Consolidated Entity determines the amount of any onerous contract provision by estimating the costs of fulfilling a contract which include all directly attributable costs that are unavoidable under the terms of the contract.

(vi) Leases

The Consolidated Entity applies the incremental borrowing rate for discounting lease liabilities where the implicit rate of the lease contract is not available. Lease contracts may include an extension option. The recognition of such an extension option will be determined on a lease by lease basis.

(vii) Contingent Consideration

Contingent consideration resulting from business combinations, is valued at fair value at the acquisition date as part of the business combination. When the contingent consideration meets the definition of a financial liability, it is subsequently remeasured to fair value at each reporting date. The determination of the fair value is based on discounted cash flows. The key assumptions take into consideration the probability of meeting each performance target and the discount factor.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

(b) Critical judgments in applying the Entity's accounting policies

(i) *Useful lives of assets*

The estimation of the useful lives of assets has been based on historical experience as well as average length of customer contracts and specific industry technology factors for intangible assets, manufacturers' warranties (for plant and equipment) and lease terms (for leased equipment). In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

(ii) *Litigation and claims*

The Consolidated Entity continually monitors ongoing and potential litigation and claims and assesses whether there is any present obligation (legal or constructive) as a result of a past event which would give rise to a probable outflow of economic benefits in order to settle the obligation and whether a reliable estimate can be made of the amount of the obligation. Factors considered by the Consolidated Entity with regard to potential or ongoing litigation include a probability assessment carried out in consultation with legal advisors. Based on advice received and status of the situation at the time of finalising the financial statements provisions will be made accordingly. Where conditions requiring a provision are not met, no such provision will be recognised by the Consolidated Entity.

Where the possibility of any outflow in any settlement is contingent upon one or more conditions being met, judgement is applied to determine the estimated financial impact of any settlement and whether the possibility of outflow is remote. Where the possibility of outflow is remote, no disclosure of any contingent liability has been made.

(iii) *Share-based payments*

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the options at the date at which they are granted. The fair value of options has been valued taking into account among other valuation assumptions the vesting period, expected dividend payout and the share price at the date the options were granted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

3 FINANCIAL ASSETS AND FINANCIAL LIABILITIES

3.1 FINANCIAL ASSETS

	2022	2021
	\$'000	\$'000
Cash and cash equivalents	48,672	73,570
Trade receivables	39,783	40,237
	88,455	113,807

Cash (Refer to Note 10) and trade receivables (Refer to Note 11) are non-derivative financial assets carried at cost which generate a fixed or variable interest income for the Group. The carrying value may be affected by changes in the credit risk of counterparties. Fair values approximate their carrying values of these instruments and management has determined the impact of estimated credit losses to be immaterial.

3.2 FINANCIAL LIABILITIES

	2022	2021
	\$'000	\$'000
Trade and other payables (non-interest bearing)	15,737	13,452
Lease liabilities	30,580	36,762
Contingent consideration	4,949	18,039
	51,266	68,253

During the year and at the reporting date, the Group had an unsecured multi-currency facility agreement with the Commonwealth Bank of Australia (CBA). On 20 August 2021, the Group refinanced its credit arrangements with JP Morgan Chase Bank (herein JPM). The terms of the new JPM facility, which expires 20 August 2024, are set out in Note 19.

Trade and other payables are carried at amortised cost. Fair values of these approximate their carrying values due to the short-term maturities of these instruments. Lease Liabilities are measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate. The fair value of the contingent consideration was estimated calculating the present value of the future expected cash flows.

As part of the purchase agreement completed in FY20 with the previous owners of Finocomp Holdings Pty Limited a portion of the consideration was determined to be contingent, based on the performance by each entity.

As part of the purchase agreement completed in FY21 with the previous owners of Delta Financial Systems Limited, a portion of the consideration was determined to be contingent, based on the performance of the company (Refer to Note 16).

During the year, there has been a fair value adjustment made to the carrying amount of the Delta contingent consideration and the liability has been partially released to the Consolidated Statement of Profit or Loss and Other Comprehensive Income as part of the payment is no longer considered probable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

3.3 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

The Consolidated Entity's activities expose it to the following risks arising from the financial instruments:

- Credit risk;
- Market risk (including foreign currency risk and interest rate risk); and
- Liquidity risk.

(i) Risk management framework:

The Consolidated Entity's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The senior management team provides written principles for overall risk management, as well as policies addressing specific areas such as currency risk management, interest rate risk management and the related use of derivative financial instruments. The Consolidated Entity may use derivative financial instruments such as interest rate swaps to hedge certain risk exposures. Derivatives are exclusively used for hedging purposes, that is, not as trading or other speculative instruments. The Consolidated Entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, and ageing analysis for credit risk.

(ii) Credit risk

Credit risk is managed on a Consolidated Entity basis. Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Consolidated Entity. The Consolidated Entity has a strict code of credit and risk controls that assess the credit quality of the customer.

Credit risk is considered limited for trade receivables at the reporting date, based on the nature and payment history of the Consolidated Entity's customers. The Consolidated Entity manages this risk through regularly assessing the credit quality of customers. The Consolidated Entity's maximum exposure to credit risk at balance date for the recognised financial assets is the carrying amount and management has determined the impact of estimated credit losses to be \$16 thousand for the year ended 30 June 2022 (2021: \$62 thousand).

At 30 June 2022, the ageing of trade receivables that were not impaired was as follows:

	2022	2021
	\$'000	\$'000
Neither past due nor impaired	35,585	38,010
Past due 1-30 days	1,265	881
Past due 31-90 days	2,655	1,059
Past due 91+ days	278	287
	39,783	40,237

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the returns.

(a) Foreign exchange risk

Foreign exchange rate risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Consolidated Entity's functional currency. The Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations. The Consolidated Statement of Financial Position is affected by movements in the relevant currency exchange rate when converting these into Australian dollars (the Consolidated Entity's presentation currency) for consolidation purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

The carrying amount of the Consolidated Entity's foreign currency denominated financial assets and financial liabilities at the reporting date was as follows:

	AUSTRALIAN \$	POUND STERLING £	NEW ZEALAND \$
	\$'000	\$'000	\$'000
2022			
Financial assets	37,480	40,044	4,578
Financial liabilities	13,219	29,979	1,595
	AUSTRALIAN \$	POUND STERLING £	NEW ZEALAND \$
	\$'000	\$'000	\$'000
2021			
Financial assets	48,738	57,082	4,164
Financial liabilities	14,319	46,712	640

The significant exchange rates during the year are as follows:

	AVERAGE RATE		YEAR-END SPOT RATE	
	\$	\$	\$	\$
	2022	2021	2022	2021
New Zealand Dollar	0.938	0.933	0.904	0.931
Pound Sterling	1.834	1.811	1.762	1.843
US Dollar	1.379	1.338	1.451	1.332
Euro	1.554	1.599	1.516	1.582
South African Rand	0.091	0.087	0.089	0.093
Polish Zloty	0.337	0.354	0.324	0.350
Hong Kong Dollar	0.177	0.173	0.185	0.172
Indian Rupee	0.018	0.018	0.018	0.018

The following tables demonstrate the sensitivity to a reasonably possible change in US Dollar, Euro, GB Pound Sterling, New Zealand Dollar, Polish Zloty, Indian Rupee and South African Rand exchange rates, with all other variables held constant. A positive number below indicates an increase in profit, a negative number indicates a reduction in profit. The Group's exposure to foreign currency changes for all other currencies is not material.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

Effect (before tax)	PROFIT OR LOSS	
	\$'000	\$'000
	STRENGTHENING	WEAKENING
2022		
New Zealand Dollar (5% movement)	(10)	9
GB Pound Sterling (5% movement)	234	(212)
US Dollar (5% movement)	(27)	25
Polish Zloty (5% movement)	(216)	196
Euro (5% movement)	32	(29)
South African Rand (5% movement)	63	(57)
Other currencies (5% movement)	241	(218)
2021		
New Zealand Dollar (5% movement)	(135)	129
GB Pound Sterling (5% movement)	290	(262)
US Dollar (5% movement)	(1)	1
Polish Zloty (5% movement)	(316)	286
Euro (5% movement)	(38)	34
South African Rand (5% movement)	104	(95)
Other currencies (5% movement)	21	(20)

(b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

The Consolidated Entity's main interest rate risk arises from borrowings.

	2022		2021	
	WEIGHTED AVERAGE INTEREST RATE %	BALANCE \$'000	WEIGHTED AVERAGE INTEREST RATE %	BALANCE \$'000
Cash - corporate	0.17	-	0.43	30,000
Net exposure to cash flow interest rate risk		-		30,000

An increase in the interest rates by one percentage point would have a positive effect on profit of \$nil million (2021: \$0.3 million) per annum. A decrease in the interest rates by one percentage point would have a negative effect on profit of \$(nil million) (2021: \$(0.3 million)).

(iv) Liquidity risk

The Consolidated Entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Financing arrangements

Undrawn borrowing facilities at the reporting date to which the Consolidated Entity had access are disclosed in Note 19.

Trade and other payables are carried at amortised value. Trade and other payables are carried at cost. Fair values of both approximate their carrying values due to the short-term maturities of these instruments.

The Consolidated Entity's financing arrangements impose certain covenants on the Entity, if breached, the financiers may at any time declare that the loans become due and payable. There were no covenants breached during the Reporting Period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

The table below analyses the Consolidated Entity's financial assets and financial liabilities into relevant maturity groupings based on their contractual undiscounted maturities:

At 30 June 2022	1 YEAR OR LESS	BETWEEN 1 TO 2 YEARS	BETWEEN 2 AND 5 YEARS	MORE THAN 5 YEARS	TOTAL CONTRACTUAL	CARRYING AMOUNT
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Financial assets						
Cash	48,672	-	-	-	48,672	48,672
Trade receivables	39,783	-	-	-	39,783	39,783
Financial liabilities						
Trade payables	(6,898)	-	-	-	(6,898)	(6,898)
Lease liabilities	(8,143)	(6,013)	(14,325)	(7,066)	(35,547)	(30,580)
Contingent consideration	(4,949)	-	-	-	(4,949)	(4,949)
	68,465	(6,013)	(14,325)	(7,066)	41,061	46,028

At 30 June 2021	1 YEAR OR LESS	BETWEEN 1 TO 2 YEARS	BETWEEN 2 AND 5 YEARS	MORE THAN 5 YEARS	TOTAL CONTRACTUAL	CARRYING AMOUNT
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Financial assets						
Cash	73,570	-	-	-	73,570	73,570
Trade receivables	40,237	-	-	-	40,237	40,237
Financial liabilities						
Trade payables	(5,519)	-	-	-	(5,519)	(5,519)
Lease liabilities	(7,901)	(7,719)	(15,555)	(11,983)	(43,158)	(36,762)
Contingent consideration	(6,697)	(12,498)	-	-	(19,195)	(18,039)
	93,690	(20,217)	(15,555)	(11,983)	45,935	53,487

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

4 FAIR VALUE MEASUREMENTS

	CARRYING VALUE		FAIR VALUE	
	30 JUNE	30 JUNE	30 JUNE	30 JUNE
	2022	2021	2022	2021
	\$'000	\$'000	\$'000	\$'000
Financial liabilities				
Contingent Consideration				
Delta Financial Systems Limited	1,449	14,820	1,449	14,820
FinoComp Holdings Pty Ltd	3,500	3,219	3,500	3,219
	4,949	18,039	4,949	18,039

The fair values of cash, trade receivables and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the contingent consideration was estimated calculating the present value of the future expected cash flows.

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

No financial assets or liabilities were transferred from level 1, 2 and 3 during the year ended 30 June 2022 (2021: \$nil).

The carrying value of non-current receivables for 2022 of the Consolidated Entity was a reasonable approximation of their fair value.

The fair value of the contingent consideration is based on a discount rate of 13.90% (2021: 13.90%) for FinoComp and 12.47% (2021: 12.47%) for Delta. The contingent consideration is valued using level 3 valuation techniques based on discounted cash flows. The key assumptions take into consideration the probability of meeting each performance target and the discount factor.

During the reporting period, the Consolidated Entity also reviewed the performance targets related to the second and remaining tranche of the contingent consideration payable to Delta sellers and established that it was probable that a reduced economic outflow would occur. As such, the recognition criteria for a financial liability was only partially met and \$6.6m was released to other expenses in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

The Consolidated Entity recorded interest expenses of \$223 thousand (2021: 209 thousand) related to FinoComp and \$413 thousand (2021: 797 thousand) related to Delta during the reporting period for the present value unwind of the contingent consideration payable.

An increase of the discount rate by two percentage points would have a negative effect on profit of \$168 thousand (2021: 160 thousand). A decrease of the discount rate by two percentage points would have a positive effect on profit of \$175 thousand (2021: 169 thousand).

An increase of the probability factor by five percentage points would have no effect on profit. A decrease of the probability factor by five percentage points would have a positive effect on profit of \$351 thousand (2021: 334 thousand).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

5 SEGMENT INFORMATION

Description of segments

The Board considers the business from a product group perspective and has identified two reportable segments, as follows:

- Wealth Management - Wealth Management platforms provide end-to-end processing to support all back office functions relating to daily management of superannuation, pensions, life insurance, investment, private wealth and portfolio administration; and
- Funds Administration - Funds Administration platforms support administration requirements for a range of investment vehicles in Europe and distributed globally for both retail and institutional investors.

No operating segments have been aggregated to form the above reportable operating segments.

The Board monitors the operating results of its divisions separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating EBITDA. Operating EBITDA is earnings before finance cost, interest and foreign exchange gains and losses, tax, depreciation, and amortisation. Operating EBITDA is reconciled with profit or loss in the consolidated financial statements below.

The review of results of operations included in the Segment Information includes a number of non-AASB financial measures. Segment operating EBITDA includes \$3.0 million (30 June 2021: \$2.8 million) depreciation of property, plant and equipment dedicated to client hosting services. Segment and Operating EBITDA includes \$6.3 million (30 June 2021: \$6.4 million) depreciation and \$1.5 million (30 June 2021: \$1.7 million) interest expense associated with property leases, which would otherwise be excluded under AASB 16. EBITDA excludes the remeasurement of contingent consideration.

Australia	278,388	263,004
UK	26,728	32,474
New Zealand	3,859	1,905
Others	12,923	15,046
	321,898	312,429

1. Segment revenue excludes finance income in this segment (Refer to Note 6.1) and is based on Management's view.

2. Includes hosting asset depreciation.

3. Includes ROU asset depreciation as well as interest expense associated with property leases, which would otherwise be excluded under AASB 16.

4. Refer to Note 4.

5. Corporate assets represent the net proceeds of the 2019 Institutional Placement not yet invested.

6. Non-current assets for this purpose consist of primarily property, plant and equipment, intangible assets, contract assets and right-of-use assets, but exclude deferred tax assets.

6.2 CONTRACT BALANCES

	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	2022	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	2021
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Contract balances						
Trade receivables	29,653	10,130	39,783	36,950	3,287	40,237
Contract assets - current	15,583	6,182	21,765	14,978	2,985	17,963
Contract assets - non-current	4,213	4,668	8,881	5,008	440	5,448
Contract liabilities - current	17,181	13,689	30,870	20,756	10,932	31,688
Contract liabilities - non-current	2	72	74	2	-	2

Trade receivables are non-interest bearing and are generally on terms of 30 to 90 days (Refer to Note 11).

The Consolidated Entity has written off \$nil bad debts during the year ended 30 June 2022 (2021: \$nil) and recognised an allowance for estimated credit loss on trade receivables of \$16 thousand (2021: \$62 thousand).

Contract assets are initially recognised for revenue earned from professional services as receipt of consideration is conditional on successful completion of certain milestones. Upon completion of such milestones and acceptance by the customer, the amounts recognised as contract assets are reclassified to trade receivables once invoiced. Contract assets also include licence fees. They are recognised upfront at the present value of the related future contractual revenue streams, discounted at the discount rate between 1.40% and 9.40% taking into consideration corporate borrowing rates, size of the customers and jurisdiction of the customers, with the discount being unwound through profit or loss over the period of the agreements and presented as revenue.

Contract liabilities include long-term advances received to deliver maintenance, support and hosting services. Fees for services received in advance are recorded as a liability within contract liabilities on the Consolidated Statement of Financial Position and these amounts are amortised to profit or loss over the relevant period of the contract which is in line with the provision of the services.

6.3 PERFORMANCE OBLIGATIONS

Information about the Group's performance obligations are summarised below:

(1) *Software licences*

Contracts with customers typically contain the sale of a software licence, which typically occurs at a point in time when control of the licence is transferred to the customer, generally on delivery of the software.

(2) *Maintenance and support services*

Contracts with customers typically contain the provision of software maintenance and support services over time, which are generally fixed price in nature and recognised on a straight-line basis over the period of the contract.

(3) *Professional services*

Contracts with customers typically contain the provision of implementation and development services over time, which are generally invoiced on a time and materials basis and recognised over the period of rendering of service of the contract. From time to time, these services may be provided on a fixed price basis, which in that instance are accounting for using the percentage of completion method, including labour hours expended in the costs-incurred input method.

(4) *Hosting and managed services*

Contracts with customers may contain the provision of hosting and/or managed services over time, which are generally fixed price in nature and recognised on a straight-line basis over the period of the contract.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially satisfied), excluding remaining performance obligations included in contract liabilities on the Consolidated Statement of Financial Position, as at 30 June 2022 and 2021 are as follows:

	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	2022	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	2021
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000

8 INCOME TAX EXPENSE

The Group calculates the period income tax using the tax rate that would be applicable to the expected total annual earnings. The major components of the income tax expense in the Consolidated Statement of Profit or Loss and Other Comprehensive Income are:

	2022	2021
	\$'000	\$'000
Income tax expense		
Current tax	5,667	5,926
Deferred tax	(100)	(415)
Under/(over) provision in prior years	(1,502)	(1,015)
Total income tax expense	4,065	4,496
Deferred income tax expense/(benefit) included in income tax expense comprises:		
Decrease in deferred tax assets (Refer to Note 14)	545	807
Decrease in deferred tax liabilities (Refer to Note 22)	(645)	(1,222)
	(100)	(415)
Net amount charged to equity	(102)	(79)
	(202)	(494)
Numerical reconciliation of income tax expense to prima facie tax payable		
Profit from continuing operations before income tax expense	33,991	39,058
Tax at the Australian tax rate of 30% (2021: 30%)	10,196	11,717
Difference in overseas tax rates	(7,764)	(7,115)
Tax effect of amounts which are not deductible/(taxable) in calculating taxable income:		
Current year unrecognised tax losses	1,824	1,555
Non-deductible expenses	270	727
Attributable CFC income	743	701
Withholding tax written off	533	271
Other assessable income	905	552
AMT credit	(270)	(240)
Non-assessable income	(1,398)	(1,386)
Effect of tax rate changes	41	(835)
Other	487	(436)
Over provision in prior years	(1,502)	(1,015)
Total income tax expense	4,065	4,496
Tax rate change		
The rate of UK Corporations Tax will increase from 19% to 25% with effect from 1 April 2023. Consequently, Bravura UK's deferred tax balances that are scheduled to reverse after 1 April 2023 have been remeasured at the rate of 25%.		
The rate of South African Corporations Tax will decrease from 28% to 27% with effect from 1 July 2022. Consequently, Bravura South Africa's deferred tax balances that are scheduled to reverse 1 July 2022 have been remeasured at the rate of 27%.		
The impact of the remeasurements has been recognised in the current year income statement.		
Losses and tax offsets		
<i>Australia</i>		
Unused tax and capital losses for which no deferred tax asset has been recognised	78,639	82,832
Unused non-refundable tax offset for which no deferred tax asset has been recognised	7,716	7,716
Potential tax benefit of unused Australian tax losses @30% (2021: 30%) and tax offsets	31,308	32,566
<i>United Kingdom</i>		
Unused tax losses for which no deferred tax asset has been recognised	9,559	9,559
Potential tax benefit of unused UK tax losses @25% (2021: 19%)	1,816	1,816

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

Tax losses for which no deferred tax asset has been recognised are available indefinitely for offset against future taxable income subject to continuing to meet relevant statutory tests.

As a result of the 2019 Institutional Placement Bravura Solutions incurred costs which for accounting purposes were recognised in equity under AASB 132. For income tax purposes, these costs would be either outright deductible or deductible over a period of five years. As at 30 June 2022, the unbooked deferred tax asset in respect of such costs is \$242,615.

Tax consolidation legislation

Australian entities in the Group form a tax consolidated group from 10 October 2013. Bravura Solutions Limited is the "head entity" of the tax consolidated group. Members of the group have entered into a tax sharing agreement that provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement on the basis that the possibility of default is remote.

The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The group allocation approach has been applied in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the broad principles in AASB 112 *Income Taxes*.

9 EARNINGS PER SHARE (EPS)

	2022	2021
	\$'000	\$'000
Profit attributable to ordinary equity holders of the parent	29,926	34,562
Profit attributable to ordinary equity holders of the parent for basic and diluted EPS calculations	29,926	34,562

Basic EPS	12.1	14.0
Diluted EPS	12.0	13.9

10 CURRENT ASSETS – CASH AND CASH EQUIVALENTS

	2022	2021
	\$'000	\$'000
Cash	48,672	73,570

(a) Reconciliation to cash at the end of the period

The above figures are reconciled to cash at the end of the financial period as shown in the Consolidated Statement of Cash Flows.

(b) Risk Exposure

Cash at bank earns interest at floating rates based on daily bank deposit rates.

Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of Bravura Solutions, and earn interest at the respective short-term deposit rates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(i) *Goodwill*

After initial recognition, goodwill acquired in a business combination is measured at cost less any accumulated impairment losses. Goodwill is not amortised but is subject to impairment testing on an annual basis or more regularly whenever there is an indication of impairment.

(ii) *Business contracts and relationships*

Business contracts and relationships are carried at cost less accumulated amortisation and, if applicable, accumulated impairment losses. This intangible asset has been assessed as having a finite life and is amortised using the straight-line method over periods between two and twenty years. The amortisation has been recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income in the line item "depreciation and amortisation expense". If an impairment indicator should arise, the recoverable amount would be estimated and an impairment loss would be recognised to the extent that the recoverable amount was lower than the carrying amount.

(iii) *Intellectual property and software development*

Intellectual property and software are carried at cost less accumulated amortisation and, if applicable, accumulated impairment losses. This intangible asset has been assessed as having a finite life and is amortised using the straight-line method over a period of five to fifteen years. The amortisation has been recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income in the line item "depreciation and amortisation expense". If an impairment indicator should arise, the recoverable amount would be estimated and an impairment loss would be recognised to the extent that the recoverable amount was lower than the carrying amount. No goodwill and intangible impairment charges were recognised in the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

(a) Impairment tests for goodwill and other intangible assets

(i) Description of the cash generating units and other relevant information

Goodwill and other intangible assets acquired through business combinations have been allocated and are tested at the level of their respective cash generating units at which goodwill and other intangible assets are monitored. Each of the cash generating units are determined based on the following factors:

- The availability of detailed financial forecasts based on this aggregation; and
- Operational drivers and reporting functionality.

In the current year the following cash generating units were identified:

- Wealth Management (WM); and
- Funds Administration (FA)

(ii) Methodology followed

The recoverable amount of each of the cash generating units (CGU) has been determined using a value-in-use approach. The value-in-use of each CGU has been based on detailed financial projections approved by the Board of Directors covering a five year period and the terminal value for WM and FA.

(b) Key assumptions used for value-in-use calculations

The following describes each key assumption on which cash flow projections are based to undertake impairment testing for goodwill. Revenue projections are based on detailed plans for 2023 and growth projections based on the key drivers in the current business, including an assessment of:

- Contracted maintenance and support services - estimated based on recurring revenue from current contracts with existing clients;
- Revenues for professional services to existing clients - estimated after considering the levels of revenue currently being achieved and known projects; and
- Uncontracted forecast revenue which is Management's estimate of forecast revenue.

Discount rates are based on a weighted average cost of capital calculation for the relevant markets and in the same currency as the cash flows, and adjusted for a risk premium to reflect both the increase in risk of investing in equities and the risk specific to the CGU. The pre-tax, risk-adjusted discount rate applied to these cash flow projections for WM is 12.0% (2021: 10.5%). The pre-tax, risk-adjusted discount rate applied to these cash flow projections for FA is 12.0% (2021: 10.5%).

The terminal value of WM after the five year projection period has been calculated using a growth rate of 2.0% (2021: 2.0%) which is determined by Management based on their assessment of expected long term annual growth for the software industry.

The terminal value of FA after the five year projection period has been calculated using growth rate of 1.0% (2021: 1.0%) which is determined by Management based on their assessment of expected long term annual growth for the software industry. In the comparative year no terminal value was included.

Cost of sales and expenses are based on detailed knowledge of the business, historic activity and detailed plans for the 2023 year. This has been extrapolated in future years based on knowledge and assumptions around the growth in revenue and the level of expense required to support this.

Given the dynamic and evolving nature of COVID-19 and the continued economic and financial impacts of the pandemic, changes to the estimates and outcomes that have been applied in the measurement of the Group's assets and liabilities may arise in the future. However during the pandemic, the Group's clients continued to experience our usual high service levels, without disruption. Equally, amid market volatility, the Group maintained robust financial and operational performance throughout the reporting period. Further, the Group's investment in product and recent acquisitions positions it well for future growth.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

(c) Carrying amount of goodwill and other intangibles allocated to each of the cash generating units are as follows:

June	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	TOTAL
2022	\$'000	\$'000	\$'000
Goodwill	163,031	-	163,031

Intellectual property and software development	88,751	-	88,751
Consolidated carrying amount	264,061	-	264,061
Amortisation of intangible assets - full-year	7,545	-	7,545

June	WEALTH MANAGEMENT	FUNDS ADMINISTRATION	TOTAL
2021	\$'000	\$'000	\$'000
Goodwill	164,590	-	164,590
Customer contracts and relationships	14,304	-	14,304
Intellectual property and software development	73,668	-	73,668
Consolidated carrying amount	252,562	-	252,562
Amortisation of intangible assets - full-year	6,153	-	6,153

(d) Sensitivity to changes in assumptions

The key estimates and assumptions used to determine the value-in-use calculation are based on Management's current expectations after considering past experience, future investment plans and external information. They are considered to be best estimates. To complete this assessment, Management has further applied a 100 bps sensitivity increase and decrease of the WM and FA discount rate. Management believe that no reasonable change in any of the above key assumptions would cause the carrying values to materially exceed their recoverable amounts.

16 BUSINESS COMBINATIONS DURING COMPARATIVE PERIOD

On 30 October 2020, the Group acquired 100% of the issued shares in Delta Financial Systems Limited, a UK software company that provides technology to power complex pensions administration in the UK market, for total consideration of up to £23 million (\$41.5 million). £14.5 million (\$26.6 million) is the initial consideration with the remaining £8.5 (\$15.7 million) representing the maximum contingent consideration payable. The acquisition broadens the Group's client base and product suite, while being a natural extension of their core product offerings.

Purchase consideration	DELTA
	\$'000
Cash paid	26,628
Contingent consideration	14,013
Total purchase consideration	40,641

19 CURRENT LIABILITIES – FINANCIAL ARRANGEMENTS

Financing arrangements

Unrestricted access was available at balance date to the following lines of credit:

	2022	2021
	\$'000	\$'000
Total facilities	30,000	30,072
Used at balance date	1,308	1,279
Unused at balance date	28,692	28,793

In the comparative period the facility agreement with CBA was an unsecured revolving credit facility, and provided AUD 17.1 million, GBP 4.5 million and NZD 5.0 million borrowing. The interest rate is a variable rate determined each month (Refer to Note 3.3(iii)).

On 20 August 2021, the Consolidated Entity signed a three year unsecured multi-currency facility agreement with JPM, replacing the previous agreement with CBA. The new Facility Agreement with JPM expires 20 August 2024 and provides AUD 30 million borrowing capacity, to be available in AUD, GBP and NZD. The interest rate is a variable rate determined each quarter. The new Facility Agreement also imposes certain covenants on the Consolidated Entity that, if breached, the financiers may at any time declare that the loans become immediately due and payable. There were no covenants breached during the period. The facilities for guarantees are drawn by an amount of \$1.3 million (30 June 2021: \$1.3 million).

20 CURRENT LIABILITIES – PROVISIONS

	2022	2021
	\$'000	\$'000
Employee benefits	12,611	11,823

(a) Amounts not expected to be settled within the next 12 months

The entire provision for employee benefits comprises annual and long-service leave and is presented as current since the Consolidated Entity does not have an unconditional right to defer settlement. However, based on past experience, the Consolidated Entity does not expect all employees to take the full amount of accrued leave within the next 12 months. The amount expected to be settled in greater than 12 months is estimated to be approximately \$3 million (2021: \$3 million).

21 CURRENT LIABILITIES – OTHER CURRENT LIABILITIES

	2022	2021
	\$'000	\$'000
Accrued expenses	8,095	8,231

Accrued expenses include bonus and expense accruals.

At 30 June 2021	247,361,817	354,584
At 1 July 2021	247,361,817	354,584
Dividend reinvestment plan	992,185	2,997
At 30 June 2022	248,354,002	357,581

(b) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up Bravura Solutions in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value.

The number of authorised ordinary shares is the same as the number of fully paid ordinary shares.

During the year, the Company issued 992,185 shares under the dividend reinvestment plan on 29 September 2021.

(c) Capital risk management

The Consolidated Entity's objectives when managing capital is to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

The Consolidated Entity monitors capital on the basis of the gearing ratio which is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and cash equivalents. Total capital is calculated as equity as shown in the Consolidated Statement of Financial Position plus net debt.

The financing arrangements impose certain covenants on the Consolidated Entity that, if breached, the financiers may at any time, unless remedied, declare that the loans become immediately due and payable. There were no covenants breached during the current period (Refer to Note 19).

The Consolidated Entity's focus is to ensure capital is managed effectively and to maximise shareholder returns over the long term which may include share buy-backs, issue of new shares and/or dividends depending on the capital structure at the time.

Balance 1 July	6,854	4,690
Share-based payments	(221)	2,164
Balance at 30 June	6,633	6,854
(b) Accumulated losses		
Balance 1 July	(39,048)	(53,627)
Profit for the year	29,926	34,562
Dividends paid	(24,036)	(19,983)
Balance at 30 June	(33,158)	(39,048)

(c) Nature and purpose of reserves

Foreign currency translation reserve

The foreign currency reserve is used to record exchange differences arising from translation of the financial statements of foreign operations.

Share-based payments reserve

The share-based payments reserve is used to recognise the value of equity-settled share-based payments provided to employees, including KMP, as part of their remuneration (Refer to Note 26) and the Remuneration Report for further details of these long-term incentive plans.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

26 SHARE-BASED PAYMENTS

Executive LTI (Long-term incentive) plan

Bravura Solutions operates an executive LTIP during the reporting and comparative period. Under the executive LTIP, awards are made to executives and other key talent who have an impact on the Group's performance. LTIP awards are delivered in the form of performance rights options over ordinary shares in Bravura Solutions which vest over a period of three years subject to meeting EPS (Earnings per share) or TSR (Total shareholder return) performance measures.

The fair values of EPS and TSR-hurdled share options granted are estimated at the date of grant using a Binomial pricing model and a Monte Carlo simulation model respectively, taking into account the terms and conditions upon which the share options were granted.

For the portion of the LTIP subject to the relative TSR performance measure, the model simulates the TSR and compares it against a comparator group. It takes into account historical and expected dividends, and the share price fluctuation covariance of the Group and its competitors to predict the distribution of relative share performance. For more information, refer to the Remuneration Report.

The exercise price of the performance rights is nil. The contractual term of the performance rights is six years and there are no cash settlement alternatives for the employees.

2,119,692 performance rights granted in FY18 vested during the comparative period. Performance rights granted in FY19 were forfeited in the reporting period as they did not vest.

The expense recognised for employee services received during the year is shown in the following table:

	2022	2021
	\$'000	\$'000
Expense arising from equity-settled share-based payment transactions	(161)	1,503
Total expense arising from share-based payment transactions	(161)	1,503

There were no cancellations or modifications to the awards in 2022.

The following table illustrates the number of, and movements in, share options:

Directors, other key management personnel and other executives	NO. OF SHARE OPTIONS
Outstanding at 1 July 2020	3,580,476
Granted during the year	1,023,638
Forfeited during the year	(75,445)
Exercised during the year	(2,119,692)
Expired during the year	-
Outstanding at 30 June 2021	2,408,977
Granted during the year	1,173,168
Forfeited during the year	(977,876)
Exercised during the year	-
Expired during the year	-
Outstanding at 30 June 2022	2,604,269
Exercisable at 30 June 2021	-
Exercisable at 30 June 2022	-

The weighted average remaining contractual life for the performance rights outstanding as at 30 June 2022 was 2.73 years (2021: 2.7 years).

The weighted average fair value of performance rights granted during the year was \$1.23 (2021: \$1.60).

Performance rights do not have exercise prices.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

The following tables list the inputs to the models used for the LTIP for the year ended 30 June 2022:

Directors and Executives	2022	2022	2021	2021
	TSR	EPS	TSR	EPS
Weighted average fair values at the measurement date	\$0.71	\$2.34	\$0.88	\$3.09
Dividend yield (%)	3.43%	3.43%	3.01%	3.01%
Expected volatility (%)	41.00%	41.00%	42.00%	42.00%
Risk-free interest rate (%)	0.86%	0.86%	0.10%	0.10%
Expected life of options (years)	2.73	2.73	2.71	2.71
Weighted average share price (\$)	\$2.56	\$2.56	\$3.35	\$3.35
Model used	Monte Carlo	Binomial	Monte Carlo	Binomial

The expected life of the performance rights is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022 (CONTINUED)

27 LEASES

The Group has lease contracts for property and equipment used in its operations. Property leases generally have a lease term between 2 and 7 years, while equipment leases are considered not material for the Group. For carrying amounts of right-of-use assets recognised and the movements during the period please refer to Note 13 and Note 7. Lease contracts for both property and equipment are fixed payments. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally the Group is restricted from assigning and subleasing the leased assets and some contracts required the Group to maintain certain financial ratios.

(a) Movement in lease liabilities

	2022	2021
	\$'000	\$'000
Carrying amount at beginning of year	36,762	42,330
Additions	1,257	853
Disposals	-	(35)
Lease payment made	(8,221)	(7,960)
Charged/(credited) to profit or loss	-	
Accretion of interest	1,535	1,696
Exchange difference	(753)	(122)
Carrying amount at end of year	30,580	36,762
Current	8,293	7,902
Non-current	22,287	28,860
Closing balance at 30 June	30,580	36,762

For cash outflows relating to leases refer to the Consolidated Statement of Cash Flows. For the non-cash additions of the right-of-use assets refer to Note 13. The future cash outflows relating to leases are disclosed in Note 3.3.

(b) Extension options

The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised. The undiscounted potential future rental payments relating to periods following the exercise date of extension and termination options that are not included in the lease term are \$16.9 million (2021: \$16.7 million) for extension options and \$12.9 million (2021: \$12.9 million) for termination options. These options are expected not to be exercised.

28 DIVIDENDS

Ordinary shares

A final dividend of 3.2c per share has been declared for FY22. The Dividend Reinvestment Plan has been suspended. A final FY21 dividend of 6.0c per share was paid on 29 September 2021. An interim dividend of 3.7c per share was paid to shareholders on 25 March 2022.

1. This wholly-owned subsidiary has entered into a deed of cross guarantee with Bravura Solutions Limited pursuant to ASIC Corporations (Wholly owned Companies) Instrument 2016/785 and is relieved from the requirement to prepare and lodge an audited financial report.

2. Subsidiary was dissolved during reporting period.

(a) Deed of Cross Guarantee

Pursuant to ASIC Corporations (Wholly-owned Companies) Instrument 2016/785, relief has been granted to Australian subsidiaries of Bravura Solutions Limited (the "Closed Group") from the *Corporations Act 2001* requirements for the preparation, audit and lodgement of their financial report.

As a condition of the Corporations Instrument, the "Closed Group" entered into a deed of cross guarantee on 20 June 2014. The effect of the deed is that Bravura Solutions Limited has guaranteed to pay any deficiency in the event of winding up of a controlled entity or if they do not meet their obligations under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee. The controlled entities have also given a similar guarantee in the event that Bravura Solutions Limited is wound up or if it does not meet its obligations under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee.

The Consolidated Statement of Profit or Loss and Other Comprehensive Income and Consolidated Statement of Financial Position of subsidiaries controlled by Bravura Solutions Limited that are party to a deed of cross guarantee are:

36 EVENTS OCCURRING AFTER THE REPORTING PERIOD

A final dividend of 3.2c per share has been declared for FY22. The Dividend Reinvestment Plan has been suspended.

Other than the above, there have been no occurrences of matters or circumstances subsequent to year end that have significantly affected, or may significantly affect, the operations, the results of those operations or the state of affairs of the Consolidated Entity in subsequent financial years.

DIRECTORS' DECLARATION

In the Directors' opinion:

The financial statements and notes of Bravura Solutions Limited for the year ended 30 June 2022 are in accordance with the *Corporations Act 2001*, including:

- (i) Complying with Accounting Standards, the *Corporations Regulations 2001*;
- (ii) Complying with International Financial Reporting Standards as disclosed in Note 1(a); and
- (iii) Giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2022 and of its performance and cash flows for the year ended on that date.

There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors by the Chief Executive Officer and Chief Financial Officer in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2022, in accordance with a resolution of the Directors.

Independent Auditor's Report to the Members of Bravura Solutions Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Bravura Solutions Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 30 June 2022 and of its consolidated financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS (CONTINUED)

**Building a better
working world**

1. Revenue recognition for multiple-element arrangements

Why significant

The majority of the Group's sales contracts involve multiple-element arrangements. For example a single software sales transaction may combine the delivery of a software license and rendering of maintenance and other professional services.

In determining how revenue is to be recognised, the sales consideration received from customers is allocated to the various products and services (performance obligations) that comprise the arrangement, based upon their relative fair values. This process requires significant judgement by the Group to determine:

- the fair value of the license and when to recognise the revenue; and
- the relative fair value of the individual performance obligations of the contract, specifically concerning the cost to deliver and the margin used to determine the stand-alone selling price of each element;
- the total contract cost and variations recognised as contract revenue for fixed price agreements.

Revenue recognition for multiple-element arrangements was considered to be a Key Audit Matter due to the complexity of the contracts and the judgement required to allocate the revenue amongst relevant performance obligations.

Revenue disclosures and the associated judgement disclosures are included in Notes 1(e), 2(a) and 6.

How our audit addressed the key audit matter

Our audit procedures included the following:

- ▶ Assessment of whether the Group's revenue recognition accounting policies relating to multiple-element arrangements complied with Australian Accounting Standards.
- ▶ For a sample of contracts, we tested the allocation of the revenue to separately identifiable components of multiple-element arrangements by assessing the individual fair value of performance obligations and historical pricing arrangements.
- ▶ For a sample of contracts, we assessed whether the revenue recognition criteria relevant to each element in the multiple-element arrangements had been met which included considering whether the performance obligation associated with the relevant licensed software had been met in the correct reporting period.
- ▶ For a sample of fixed price arrangements, we assessed the reasonableness of calculations of costs to complete through enquiry with the project manager which included the understanding of the risks pertaining to the outstanding work remaining on the contract and the related cost assumptions or contingencies and considered the Group's identification of measurement of onerous contracts.
- ▶ Assessment of the adequacy of the related disclosures within the financial report.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS (CONTINUED)

**Building a better
working world**

2. Capitalised software development costs

Why significant

Capitalised software development costs represent 17% of the total assets. These costs were capitalised as they meet the criteria set out in Australian Accounting Standards and are amortised over a period of 5 to 15 years.

Judgement is exercised by the Group in determining the nature and amount of costs to be capitalised and in determining the useful lives over which costs are amortised.

Capitalised software development costs were considered to be a Key Audit Matter given the value of these assets relevant to total assets, the significant value of amounts capitalised during the year, and the judgements required when determining whether costs should be capitalised, the useful lives over which costs should be amortised and the recoverability of capitalised software development costs.

Disclosure of capitalised development costs and the associated judgements are included in Notes 1(p), 2(b) and 15.

How our audit addressed the key audit matter

Our audit procedures included the following:

- ▶ Assessment as to whether the Group's accounting policy for capitalisation of software development costs complied with Australian Accounting Standards.
- ▶ Assessment of the operating effectiveness of controls in respect of the processes to identify the eligibility of the development costs to be capitalised.
- ▶ For a sample of capitalised software development costs, we assessed whether the labour hours incurred were authorised, the costs incurred met the criteria for capitalisation set out in Australian Accounting Standards and recalculated the capitalisation rate used by management in determining the amount of the costs to be capitalised.
- ▶ Assessment of the appropriateness of the useful life attributed to these costs by taking into consideration the economic life of the software and the terms of customer contracts.
- ▶ For a sample of capitalised software development costs, we determined whether amortisation expenses were correctly calculated.
- ▶ Evaluation of the Group's assessment for the indicators of impairment of capitalised software development costs.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS (CONTINUED)

EY

**Building a better
working world**

3. Taxation

Why significant

The Group operates in a number of different tax jurisdictions, all of which have specific risks and regulations that need to be considered and complied with in determining the income tax position.

Tax was considered to be a Key Audit Matter given the number of jurisdictions, the specific regulations that exist in each jurisdiction and the inter-dependency of companies within the group.

In particular, transfer pricing arrangements within the Group are significant with a large number of cross-border charges between Group entities in different tax jurisdictions.

The Group's disclosures with respect to tax and the associated judgements are included in Note 1(f), 2(a), 8, 14, 18 and 22 of the financial Report.

How our audit addressed the key audit matter

Our audit procedures included the following:

- ▶ Assessment of the Group's various tax exposures to determine whether adequate income tax provisions have been recorded.
- ▶ Involving our taxation specialists in relevant countries in which the Group operates.
- ▶ Consideration of any third-party taxation advice received by the Group.
- ▶ Assessment of the Group's determination of current and deferred income tax expense, with particular focus on transfer pricing.
- ▶ Consideration of the Group's transfer pricing policy and documentation with regard to the requirements of local tax legislation.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report for the year ended 30 June 2022 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

A member firm of Ernst & Young Global Limited
Liability limited by a scheme approved under Professional Standards Legislation

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS (CONTINUED)

**Building a better
working world**

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 28 to 46 of the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Bravura Solutions Limited for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
