Disclaimer

This presentation has been prepared by CV Check Ltd ('CV Check'). The information in this presentation is of a general nature and does not purport to be complete, nor does it contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. This presentation may contain statements, opinions, projections, forecasts and other material (forward looking statements), based on various assumptions. Those assumptions may or may not prove to be correct. None of CV Check, its respective officers, employees, agents, advisers or any other person named in this presentation makes any representation as to the accuracy or likelihood of fulfilment of any forward looking statements or any of the assumptions upon which they are based.

The information contained in this presentation does not take into account the investment objectives, financial situation or particular needs of any recipient and is not financial product advice. Before making an investment decision, recipients of this presentation should consider their own needs and situation and, if necessary, seek independent, professional advice.

To the extent permitted by law, CV Check and its respective officers, employees, agents and advisers give no warranty, representation or guarantee as to the accuracy, completeness or reliability of the information contained in this presentation. Further, none of CV Check and its respective officers, employees, agents and advisers accept, to the extent permitted by law, responsibility for any loss, claim, damages, costs or expenses arising out of, or in connection with, the information contained in this presentation. Any recipient of this presentation should independently satisfy themselves as to the accuracy of all information contained herein.

CV Check forms strategic partnership with Scantek

What the partnership means for CV Check:

- Delivers fully automated ID verification
- To be available across all CV Check products
- Access to facial recognition technology
- Automated, intelligent document recognition
- Further positions CV1 as a RegTech leader
- Scantek become an agent for monitored compliance sales
- The creation of an internationally recognised and accepted solution

Delivering on our biometric plans, launching Q2 FY23

How Scantek enhances CV Check product offering

- ✓ Integration into OnCite, CVCheck and Cited already well advanced
- ✓ The partnership helps CV Check deliver on its stated biometric plans
- ✓ These biometric-related initiatives have a target launch date of Q2 FY23
- ✓ Further positions CV Check as a market leader in the RegTech sector
- ✓ Liveness Check will take an applicant less than 10 seconds to complete
- ✓ Scantek becomes an agent for monitored compliance sales
- ✓ Delivers speed and convenience for customers
- ✓ Unlocks processing at scale with 24 hour availability
- ✓ Compliant with ISO 9001, ISO 14001, ISO 27001 and ISO 45001 ¹
- ✓ Supports CV1's Trusted Digital Identity Framework (TDIF) certification

¹ These standards specifically cover quality (9001), environmental (14001), information security (27001) and occupational health & safety (45001) management systems.

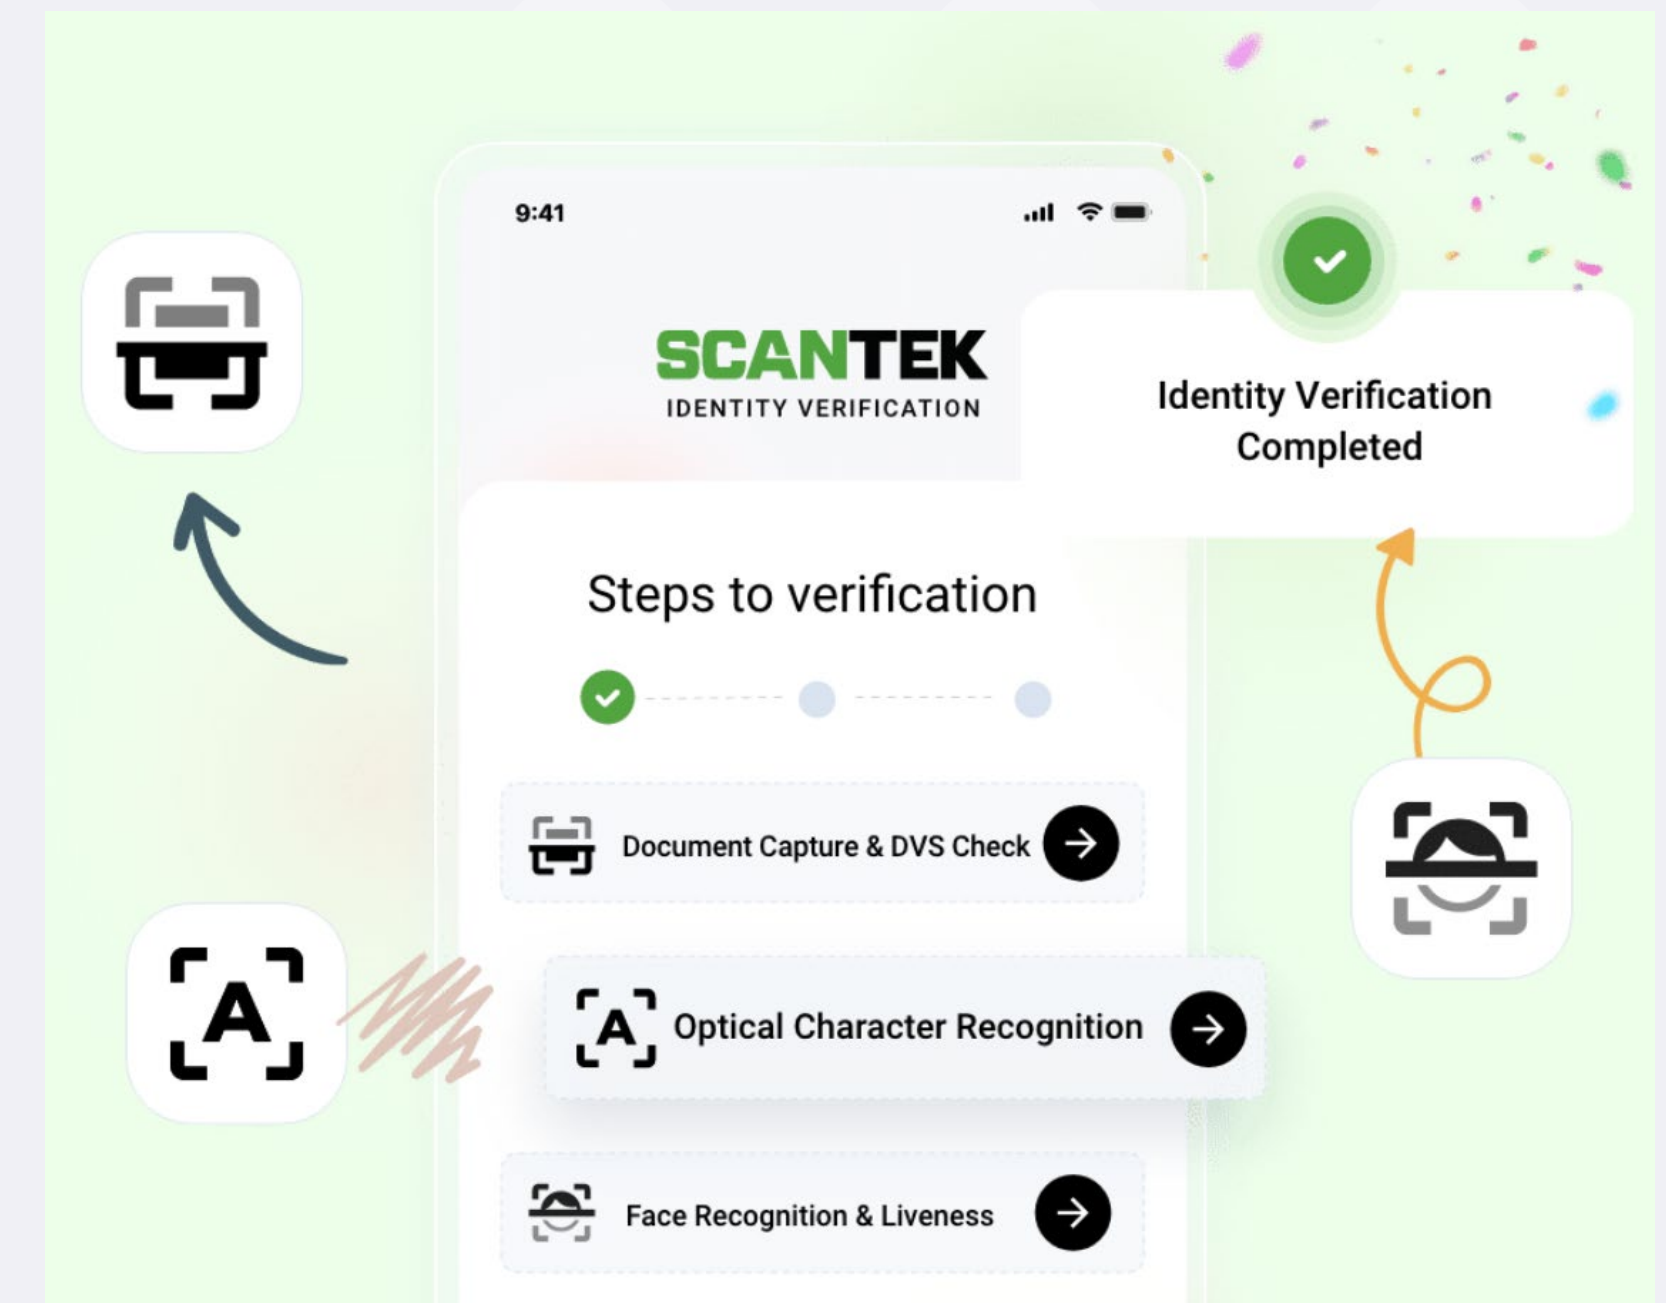

Simplifying the management of workforce compliance

Why Scantek is 'best of breed' in instant identity verification

Australian company Scantek is harnessing technology to offer fast, safe identity verification online.

- ✓ Scantek makes ID verification safe for businesses and their customers
- ✓ Clients and Partners include Australia Post, Telstra, ALH, Crown and The Star
- ✓ Scantek's advanced ID processing and facial biometrics system is 100% digital
- ✓ Delivers instant updates, providing absolute trust in digital interactions
- ✓ Accurately determines document type, by recognising thousands of different ID types, national and international
- ✓ Using advanced machine learning models, reads and extracts the text from the scanned images within seconds
- ✓ Uses advanced biometric facial matching to compare the face on the identity document to the face captured during the scanning process
