MESSAGE FROM THE CHAIR

Dear Shareholders,

I am delighted to report the Group's financial results for FY22 which show continuing strong underlying growth for Excelsior Capital Limited (the 'Company').

The Group performed exceptionally well throughout FY22. The electrical business, CMI Operations Pty Ltd ('CMI'), reported outstanding results, supported by buoyant government funded infrastructure projects within Australian and private spending in the mining and construction sectors, both in Australian and overseas.

CMI had great success with its market leading couplers and plugs, known in the industry as "Minto". In FY22, the Minto product saw CMI being selected as key supplier to a number of significant projects including one of the world's largest mines, Rio Tinto's Oyu Tolgoi in Mongolia.

The investment fund also performed well relative to Australian equity markets, delivering a near flat return for the year vs a 11% fall in the S&P ASX200. The investment portfolio had exposure to several diversified, non-market correlated investment funds in the second half of FY22 but predominately remained in cash ensuring the ability to support CMI with expansion capital including for inventory required for the increasing forward order book of sales.

FY22 Financial Results

The Group achieved revenues of \$93.9 million, with a pre-tax profit of \$11.4 million (FY21, \$7.6 million). Net Profit After Tax was \$8 million (FY21, \$5.4 million), representing a 48% increase compared to the prior comparative period ('PCP').

Results for CMI were outstanding recording gross sales for FY22 of \$104 million, (FY21, \$83.5 million), a 24% increase to the PCP. EBIT and EBITDA* for FY22 were \$12.8 million and \$13.1 million respectively, (FY21, \$8.7 million and \$9 million), a 46% increase to PCP.

**EBIT and EBITDA referenced above for FY22 and FY21 have been prepared on a normalised basis, ignoring the impact of AASB16 Accounting for Leases.*

FY23 Outlook

The Company remains focused on maintaining growth both within its electrical business and the investment portfolio through conservative strategies.

To that end, the first quarter of FY23 results in both CMI and the Investment Fund have been positive continuing the performance of FY22. With a strong balance sheet, disciplined cash management and selective investment strategies the Company is very well positioned for FY23.

FY23 will see CMI expand into new geographical markets especially with our patent protected industry leading "Minto" range of products. We are excited about the much anticipated "Minto II" which will be introduced to the market in Q2FY23.

AGM

This year's annual general meeting will be held as a traditional physical meeting on 10 November 2022. The Company will release a Notice of Meeting with AGM details shortly.

With thanks

On behalf of the Board, I would like to thank shareholders for their continued support. We congratulate management on an exceptional result and express our appreciation for their dedication throughout the year.

Yours faithfully,

D. Herceg
Chairman

Directors' report

Your directors submit their report for the year ended 30 June 2022.

DIRECTORS

The names and details of the Company's directors in office during the financial year and until the date of this report are set out below. Directors were in office for this entire period unless otherwise stated.

Names, qualifications, experience and special responsibilities

D. Herceg, LL.B (Non-executive Director)

Re-appointed 9 April 2021

Danny re-joined the Board in April 2021 having previously served as a Director of the company from 2007 to 2014 and again from 2019 as Chairman. Danny stepped down as Chairman and Director on the 9 March 2021 for a short period of time due to commitments before re-joining the Board on the 9 April 2021 as a Non-Executive Director and again later as Chairman of Excelsior Capital Limited.

Danny is a senior corporate and commercial lawyer. He now leads his own boutique firm focussing on initial public offerings, secondary market capital raisings, capital market divestments, public and private M&A, strategic divestments and restructures, demergers / spin-offs, takeover defences and commercial negotiations. He has been advising Australian and international enterprises for over 20 years.

Danny has been a partner in several major Australian law firms, as well as working as a foreign lawyer in the head office of an international law firm in Chicago, gaining experience in US capital markets. Danny has been on the board of several ASX listed companies.

L.J. Catelan (Executive Director)

Ms Catelan is a member of the Australian Institute of Company Directors. She is an experienced company director with exposure to both listed and private companies. Ms Catelan is also a director of Catelan Securities Pty Ltd.

Ms Catelan has experience in property development and mezzanine debt financing. She has been involved in asset sales, corporate restructuring, and a range of activities within private and public companies.

R. Mount (Non-executive Director)

Appointed 28 April 2022

Mr Mount joined the Board in April 2022 as Non-Executive Director and Chairs the Audit, Remuneration and Investment Committee's. Mr Mount is an experienced company Director with expertise in domestic and international capital markets along with operational experience in industrial and mining industries.

R. Mount is also a director of Axiom Mining Limited.

O. Schweizer (Non-executive Director) – appointed 13 January 2020, resigned 28 April 2022

Company Secretary

R. Mount

R Mount was appointed as Company Secretary on 28 April 2022.

O. Schweizer resigned as Company Secretary on 28 April 2022.

INTERESTS IN THE SHARES AND OPTIONS OF THE COMPANY AND RELATED BODIES CORPORATE

As at the date of this report, the interests of the directors in the shares and options of Excelsior Capital Limited were:

	NUMBER OF ORDINARY SHARES	NUMBER OF OPTIONS OVER ORDINARY SHARES
D. Herceg	60,702	Nil
L.J. Catelan	14,561,102	Nil
O. Schweizer	Nil	Nil
R. Mount	Nil	Nil

PRINCIPAL ACTIVITIES

The principal activities during the year of entities within the consolidated group were:

- Manufacture and distribution of electrical cables, connectors and associated components for industrial, mining, infrastructure, commercial, petrochemical and information technology applications throughout South East Asia and Oceania; and
- Management of an investment portfolio via a Listed Investment Company.

There have been no significant changes in the nature of these activities during the year.

Operating and financial review

The purpose of this section is to:

- Provide an overview of our business model;
- Discuss our strategy (including the risks associated with our strategy);
- Outline any significant changes in the state of affairs; and
- Provide a review of our financial condition.

Directors' report

CMI Operations Pty Ltd – Expertise and precision is our purpose

CMI Operations Pty Limited, a subsidiary of Excelsior Capital Limited has a long and proud history of providing innovative electrical cables, connectors and components. From our beginnings in 1991, as a local manufacturer of electrical cable serving the Queensland market, we have expanded to supply a range of innovative electrical products to customers around the globe. Today, we have operations in four states and employ close to 67 people, supplying the industrial, mining, infrastructure, commercial, petrochemical and information technology sectors with electrical solutions.

High value coupler and receptacle products are exported to the mining sectors in Indonesia, Mongolia, Papua New Guinea, and China. Operations are conducted from several manufacturing and distribution facilities in Australia. The division's primary manufacturing plant is located at Meadowbank in Sydney. This plant operates to international quality standards ISO9001 and ISO14001, AS/NZS 4801.

The CMI Operations business is divided into two key product categories:

1) **Electrical cables**

Leading cable brands dedicated to the requirements of all segments of the electrical industry including:

- **XLPE Cables:** supplying power in low and high voltage applications such as commercial and industrial sub-mains, factories, utility infrastructure, and variable speed drive (VSD) motors and control systems.
- **Hartland Cables:** synonymous in Australia since 1954 for its leading range of Audio, Coaxial, Control, Data, Instrumentation, UL Approved Connecting Wire, Copper Braid, Screened and Unscreened Multicore and Multipair cables.
- **Aflex Cables:** offering flexible cables for use in applications where tight or difficult access is restrictive or where movement occurs. These cables are generally supplied for switchboards, generators, sound & lighting, batteries, VSD motors, submersible pumps and low voltage control systems.
- The Group's customised cable division also manufactured locally flexible cords and cable assemblies to cover a comprehensive range for applications such as medical, technology, lighting & entertainment as well as traditional original equipment manufacturer (OEM) markets. This includes combining wiring and connectors such as basic cable assemblies and complex wiring harnesses to customised requirements.

2) **Minto Industrial Products**

Minto Industrial Products is synonymous with the mining industry in particular with its existing class leading underground couplers and receptacle products. When power and safety are required in a complex and hazardous environment Minto is the class leader in

most applications. The reputation of Minto is now global with the exports to mining installations in Indonesia, Mongolia, Papua New Guinea, and China.

CMI Operations Pty Ltd is also launching an upgraded version of its Minto Plug range specifically designed to be used in above ground applications including open cut surface mining, infrastructure tunnelling, construction and industrial operations. The new Minto plug will diversify the existing plug product range and broadens the market for above ground applications both domestically and internationally while also offering the same high quality of safety and technology.

Market drivers

Technological change: drives demand for continuous new and improved technology and creates the possibility for lower cost mass market electrical solutions. There is the potential for disruptive market entrants from the technology sector.

Increased safety expectations: new regulatory requirements in domestic and overseas markets drive demand for mass market solutions. Requirement for mining and infrastructure to maintain best practice solutions drive demand for innovative tailored products. This also means that existing solutions become obsolete more quickly and innovation and speed to market are new necessities, while price pressures continue to grow.

Globalisation: allows access to new, high growth markets. There is the potential for competition from new market entrants from developing countries, with lower cost base.

Strategic pillars

Innovation

We need to stay at the forefront of technology if we are to find new ways of staying ahead of the competition, and to meet emerging risks in the mining and construction industry. To help us meet this challenge, we have a substantial research and development (R&D) program that creates innovative solutions to electrical issues.

For the value of that innovation to be realised for our customers and our shareholders, solutions need to be developed and brought to market as quickly as possible. Our business is focused on building a pipeline of solutions from our leading edge, tailored offerings to affordable, mass market products.

Client focus

CMI Operations Pty Ltd has a proud history of collaboration with our clients in mining and infrastructure to create cutting-edge solutions. Through our involvement in industry sector associations, including our support of the Mine Electrical Safety Association (MESA), we continue to build strong relationships across these sectors backed by our own client relationship program.

Directors' report

Efficiency

To meet the challenges of a rapidly changing market, the Company invested in the development a new electrical plug for the mining and industrial sectors. We have implemented a set of initiatives focusing our business on continuous improvement and enabling us to adapt to the changing needs of our customers for new, lower cost products. Key initiatives are:

- Engagement with external consultants to develop more effective management of our working capital; and
- Improving our product development processes to increase our speed to market for new market products.

Enablers

People

Our people, their experience, enthusiasm and dedication, are the foundation of our business.

Technology

We ensure our people have the tools they need to deliver value.

Relationships

Strong relationships with suppliers and business partners help us to deliver on our promise of expertise and precision.

The market opportunity

Electrical components continue to be a growing market both domestically through private companies and government's commitments to infrastructure project spending and globally, driven by rapidly changing technology, increasingly stringent regulation, and continuing expectation from our clients and their stakeholders that they will be provided with expertise and precision in each product we design and manufacture. In particular, we see great opportunities in emerging markets as consumption of our products increase in line with economic growth.

At the same time, electrical componentry is a highly competitive business. We now compete on a global basis with manufacturers from emerging markets such as China and India. We also face the potential of disruptive market entrants from the technology sector, building on their existing customer base and technology platforms to deliver electrical products.

Our strategy

Operational

In order to respond to these challenges, we are focusing our business on the development of our Minto Industrial product. We are building our future product pipeline through a combination of strategic acquisitions and a strong R&D program.

We consider our strategy to be sufficiently agile to deal with the increasing demand for sophisticated electrical products. Our R&D programs are set to deliver customised products to our customers on a timely basis.

As we begin to recognise revenue from products developed in previous years, we are confident that our ongoing investment in R&D will continue to deliver sustainable returns in the future.

Risks relating to Electrical and divested operations:

- Exposure to the domestic resource industry impacting revenues and margin;
- Key third party suppliers interrupting the supply chain;
- Failure of the product designs to meet a specified level of quality or conformance; and

Investment portfolio

The Group's primary investment strategy is to achieve long term growth and capital appreciation, whilst managing risk through a portfolio approach to investing. The Group invests in a diversified portfolio of businesses where the Group may provide capital and strategic advice to those businesses to gain long term investment returns and capital appreciation. The capital can be allocated to both listed and unlisted businesses, in the form of equity, debt or a combination of the two.

Risks relating to the investment portfolio include:

- The market risk of investments declining in value because of economic developments or other events that affect the share market;
- The liquidity risk of being unable to sell investments at a fair price at times the Group requires cash; and
- Share price volatility caused by lack of diversity within the portfolio.

The Group manages risk by identifying risks and mitigating them through a combination of internal controls and management of a diversified portfolio of investments and businesses.

Significant changes in the state of affairs

There were no significant changes in the state of affairs during the year.

Review of financial condition

Profit from continuing operations

The Group reported a profit before tax of \$11.4 million for the year ended 30 June 2022, an increase of 50% from the prior year. The increase in profit before tax was a combination of significant sales growth from the Electrical Business driven in part by funding from the Investment Fund and above-market performance from selected investments in managed investment funds made by the Investment Fund. Profit before tax from the Electrical Components division was \$12.8 million.

Directors' report

Liquidity and capital resources

The consolidated cash flow statement illustrates that there was an increase in cash and cash equivalents in the year ended 30 June 2022 of \$2.5 million (2021: (\$3.8) million). Operating activities generated \$5.7 million (2021: \$1.8 million) of net cash flows.

The increase in cash inflow in comparison with the prior year is largely due to with a return of funds back to the parent via trade receivables and an increase in sales and order book for the Electrical Business which occurred throughout FY22. It is also consistent with the current phase of Excelsior Capital's working capital cycle, with the company funding the growth in sales of the Electrical Business with revenues resulting from the development of products in previous years now beginning to be realised. This primarily includes revenues from the sale of Minto Industrial products and increased cables sales.

There were cash outflows from investing activities of \$0.6 million (2021: \$2.8 million). This reflects the purchase of relatively low risk units in Managed Funds during 2022.

There was also a \$2.6 million cash outflow (2021: \$2.9 million cash outflow) from financing activities, during the current period relating mostly to lease and dividend payments.

Business divisions

Electrical Business

The Group continues to be assertive player in the electrical components market over the last 12 months. Revenue in the electrical component segment was \$93.4 million (net of rebates) for the year compared to \$75.2 million in the previous year and segment profit before tax of \$12.8 million (2021: \$8.8 million).

Investment portfolio

The investment portfolio had revenue of \$0.12 million and produced a pre-tax and post-tax net loss, with the inclusion of all corporate and administration costs of the parent entity, of \$1.4 million and \$1 million, respectively.

Environmental regulation and performance

The Group holds licences issued by the relevant environmental protection authorities in Australia. These licences specify the conditions imposed by the licence or regulation. The Group has an Environmental Management System at the Meadowbank operations and is certified to AS-NZS ISO 14001:2004.

There have been no known breaches of the consolidated entity's licence conditions or any environmental regulations to which it is subject.

Indemnification of auditors

To the extent permitted by law, the Company has agreed to indemnify its auditors, Hall Chadwick, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Hall Chadwick during or since the financial year.

Share Options

There were no share options on issue at balance date or since year end.

COVID-19 Statement

The Company is continuing to review the ongoing situation relating to the COVID-19 pandemic and the implications for the health and wellbeing of our employees, contractors, customers and suppliers. The Company has been pro-active with respect to its response to COVID-19 and has developed operational procedures and plans in line with official health advice and government directives. Excelsior Capital Limited will continue to operate within these guidelines and will adapt its procedures as required. The impact on the Company's operations to date has not been material and whilst the situation with regards to COVID-19 remains uncertain, the Company remains mostly unaffected by COVID-19 and does not foresee, at this time, that it will have a material impact on future operations.

Indemnification and insurance of directors and officers

During or since the financial year, the Company has paid premiums in respect of a contract insuring all the directors of Excelsior Capital Limited against legal costs incurred in defending proceedings for conduct other than:

- (a) A wilful breach of duty; or
- (b) A contravention of sections 182 or 183 of the *Corporations Act 2001*, as permitted by section 199B of the *Corporations Act 2001*.
- (c) To the extent permitted by law, the Group has agreed to indemnify its Directors against a liability incurred as such a director to the extent permitted by the *Corporations Act 2001* (Cth).

No payment has been made in relation to that indemnity during or since the financial year.

The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Significant events after the balance date

Final dividend declared

On 30 August 2022, the directors of Excelsior Capital Limited declared a final dividend on ordinary shares in respect of the 2022 financial year. The total amount of the dividend is \$869,834 which represents a fully franked dividend of 3 cents per share. The dividend has not been provided for in the 30 June 2022 financial statements.

Likely developments and expected results

Information on the strategy, prospects and risks of the Group is included in the Operating and Financial review.

Directors' report

Rounding off of amounts

The amounts contained in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) where noted (\$000) under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. The Company is an entity to which this legislative instrument applies.

Directors' meetings

The number of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director were as follows:

MEETINGS OF COMMITTEES				
	Directors' meetings	Audit	Remuneration	Investment
Number of meetings held:	13	2	1	12
Number of meetings attended:				
L.J. Catelan	13	2	1	12
D. Herceg	12	2	1	11
O. Schweizer	10	2	1	10
R. Mount	4	-	-	2

All directors attended meetings set by the Company where they were eligible to attend.

Committee membership

As at the date of this report, the Company had an:

- audit committee, and
- a remuneration committee, and
- an investment committee of the board of directors.

Members acting on the committees of the board during the year were:

AUDIT	REMUNERATION	INVESTMENT
O. Schweizer ^{(c)*}	O. Schweizer ^(c)	O. Schweizer ^(c)

Auditor's independence declaration and non-audit services

The directors received the following declaration from the auditor of Excelsior Capital Limited.

**EXCELSIOR CAPITAL LIMITED
ABN 32 006 711 995
AND ITS CONTROLLED ENTITIES**

**AUDITOR'S INDEPENDENCE DECLARATION
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF EXCELSIOR CAPITAL LIMITED**

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Excelsior Capital Limited. As the lead audit partner for the audit of the financial report of Excelsior Capital Limited for the year ended 30 June 2022, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Remuneration report

Non-audit services

The following non-audit services were provided by the entity's auditors. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

Auditors received or are due to receive the following amounts for the provision of non-audit services:

AS AT 30 JUNE	\$
Tax compliance services	15,230
Total Non-audit services	15,230

1. REMUNERATION REPORT OVERVIEW

The Directors of Excelsior Capital Limited (Excelsior) present the Remuneration Report (the Report) for the Company and its controlled entities (the Group) for the year ended 30 June 2022. This Report forms part of the Directors' Report and has been audited in accordance with section 300A of the *Corporations Act 2001*. The Report details the remuneration arrangements for Excelsior Capital Limited's key management personnel (KMP):

- Non-executive directors (NEDs); and
- Executive directors and senior executives (collectively the executives).

KMP are those persons who, directly or indirectly, have authority and responsibility for planning, directing and controlling the major activities of the Company and Group.

The table below outlines the KMP of the Group and their movements during FY22:

NAME	POSITION	TERM AS KMP
Non-Executive directors		
D. Herceg	Non-Executive Director / Chairman	Full financial year
O. Schweizer	Non-Executive Director	Appointed 13 January 2020 Ceased on 28 April 2022
R. Mount	Non-Executive Director	Appointed 28 April 2022
Executive director		
L.J. Catelan	Executive Director	Full financial year
Senior executives / Company Secretary		
J.E. Johnson	General Manager – Electrical	Full financial year
O. Schweizer	Company Secretary	Resigned 28 April 2022
R. Mount	Company Secretary	Appointed 28 April 2022

Remuneration report

2. OVERVIEW OF EXECUTIVE REMUNERATION

2A. How we determine executive remuneration policies and structures

Four principles guide our decisions about executive remuneration at Excelsior Capital:

- **Fairness:** provide a fair level of reward to all employees;
- **Transparency:** build a culture of achievement by transparent links between reward and performance; and
- **Alignment:** promote mutually beneficial outcomes by aligning employee, customer and shareholder interests
- **The Excelsior Capital Culture:** drive leadership performance and behaviours that create a culture that promotes safety, diversity and employee satisfaction.

2B. Our executive remuneration policies and structures

We reward executives with a level and mix of remuneration appropriate to their position, responsibilities and performance, in a way that aligns with the business strategy.

Executives receive fixed remuneration and variable remuneration consisting of short-term incentive opportunities. Executive remuneration levels are reviewed annually by the Remuneration Committee with reference to the remuneration guiding principles and market movements.

2C. Elements of remuneration

Fixed remuneration

Fixed remuneration consists of base salary, superannuation and other non-monetary benefits and is designed to reward for:

- The scope of the executive's role;
- The executive's skills, experience and qualifications; and
- Individual performance.

It is set with reference to comparable roles in similar companies.

Short-term incentive (STI)

Under the STI, the General Manager – Electrical has the opportunity to earn an annual incentive award which is delivered in cash. The STI recognises and rewards annual performance.

Remuneration report

How is it paid?	100% of any STI award is paid in cash after the assessment of annual performance.
How much can the executive earn?	A maximum STI opportunity of 20% of fixed remuneration. Target STI is awarded for achieving the challenging objectives set prior to the beginning of each year.

How is performance measured?

The STI performance measures were chosen as they reflect the core drivers of short-term performance and also provide a framework for delivering sustainable value to the Group, its shareholders and customers.

We measure four key performance indicators (KPIs) covering financial and non-financial, Group and business unit measures of performance. For each KPI, a target and stretch objective is set. A summary of the measures and weightings are set out in the table below:

	FINANCIAL		NON-FINANCIAL
	Business Unit PBT	Growth ¹	Business unit KPIs
Business unit leader	50%	25%	25%

¹ Net revenue and gross margin

When is it paid?

The STI award is determined after the end of the financial year following a review of performance over the year against the STI performance measures by the Board. The Board approves the final STI award based on this assessment of performance and 100% is paid in cash three months after the end of the performance period.

What happens if the executive leaves?

If an executive resigns or is terminated for cause before the end of the financial year, no STI is awarded for that year.

If an executive ceases employment during the performance period by reason of redundancy, ill health, death, or other circumstances approved by the Board, the executive will be entitled to a pro-rata cash payment based on assessment of performance up to the date of ceasing employment for that year (subject to Board discretion).

What happens if there is a change of control?

In the event of a change of control, a pro-rata cash payment will be made based on assessment of performance up to the date of the change of control.

Long-term incentives (LTI)

The LTI is an equity arrangement of either options or performance shares and an allocation is considered each year. The aim of the LTI is both:

- Retention; and
- To align to long term company performance.

No LTI was provided with respect to the full year ended 30 June 2022 (2021: nil).

2D. Changes for FY22

The Board does not anticipate any changes to the STI and LTI Plans for FY22.

Further details will be provided in the FY22 remuneration report.

Remuneration report

3. PERFORMANCE AND EXECUTIVE REMUNERATION OUTCOMES IN FY22

3A. Actual remuneration earned by executives in FY22

The actual remuneration earned by executives in FY22 is set out in section 6 of this Remuneration report. This provides shareholders with a view of the remuneration actually paid to executives for performance in FY22.

3B. Performance against STI measures

A combination of financial and non-financial measures is used to measure performance for STI awards.

Business unit performance against those measures is as follows for FY22:

	FINANCIAL		NON- FINANCIAL	
	Business Unit PBT	Growth	Safety	Discretionary
Electrical Business	◆	◆	◆	◆
Below threshold hurdle	×			
At target	○			
Between threshold and target	●			
Between target and stretch	◆			

3C. Overview of company performance

The table below sets out information about Excelsior Capital's earnings and movements in shareholder wealth for the past five years up to and including the current financial year.

	2022	2021	2020	2019	2018
NPAT (\$'000)	8,000	5,400	3,629	4,132	4,245
Share price at year end (\$)	1.88	1.63	1.18	1.21	1.36
Basic EPS (cents)	27.59	17.84	12.69	14.21	13.53
Total dividends (cents per share)	5.00	4.00	5.00	6.00	6.00

Remuneration report

4. HOW REMUNERATION IS GOVERNED

4A. Remuneration decision making

The following diagram represents the Group's remuneration decision making framework:

The composition of the Remuneration Committee is set out on page 8 of this Remuneration report. Further information on the Remuneration Committee's role, responsibilities and membership can be seen at www.cmilimited.com.au

4B. Use of remuneration advisors

The Remuneration Committee may engage external advisers to provide remuneration recommendations regarding the remuneration mix and quantum for executives.

Any remuneration recommendations are provided to the Committee as an input into decision making only. The Remuneration Committee considers the recommendations, along with other factors, in making its remuneration decisions.

There were no fees paid during the year to remuneration advisers (2021: \$nil).

4C. Clawback of remuneration

In the event of serious misconduct or a material misstatement in the Group's financial statements, the Board has the discretion to reduce, cancel or clawback any unvested STI.

4D. Share trading policy

The Group securities trading policy applies to all NEDs and executives. The policy prohibits employees from dealing in Excelsior Capital Limited securities while in possession of material non-public information relevant to the Group.

The Group would consider a breach of this policy as gross misconduct, which may lead to disciplinary action and potentially dismissal.

4E. Executive employment agreements

Remuneration arrangements for executives are formalised in employment agreements. The following outlines the details of contracts with executives:

General Manager – Electrical Business

The General Manager is employed on an individual open-ended employment contract which can be terminated with notice by either party.

Under the terms of the present contract:

- Receives fixed remuneration of \$313,250 per annum (gross, inclusive of superannuation); and
- Maximum STI opportunity is 20% of fixed remuneration.

TERMINATION PROVISIONS	RESIGNATION	TERMINATION FOR CAUSE	TERMINATION IN CASE OF DEATH, DISABLEMENT, REDUNDANCY OR NOTICE WITHOUT CAUSE	TERMINATION PAYMENT
General Manager	3 months	None	6 months	3 months

Remuneration report

5. OVERVIEW OF NON-EXECUTIVE DIRECTOR REMUNERATION

Excelsior Capital's NED fee policy is designed to attract and retain high calibre directors who can discharge the roles and responsibilities required in terms of good governance, strong oversight, independence and objectivity. NEDs receive fees only and do not participate in any performance-related incentive awards. NED fees reflect the demands and responsibilities of the directors.

The Remuneration Committee reviews NED remuneration annually against comparable companies. At times, the Board also considers advice from external advisors when undertaking the review process.

NED fees consist of base fees and committee fees. The chair of the Board attends all committee meetings but does not receive any additional committee fees in addition to base fees.

The table below summarises Board and Committee fees payable to the Chairman and NEDs for FY22 (inclusive of superannuation):

BOARD FEES		2022	2021
Chair ¹		89,833	108,679
NED		176,137	185,329
Committee fees			
Audit ²	Chair	N/A	N/A
	Member	N/A	N/A
Remuneration ²	Chair	N/A	N/A
	Member	N/A	N/A
Investment ²	Chair	N/A	N/A
	Member	N/A	N/A

1. Chairman fees for Danny Herceg relate to the period from 1 July 2021 to 30 June 2022. Danny Herceg Salary was increased from \$70,000 to \$90,000, (plus super) per annum from November 2021.

2. NEDs do not receive additional fees for participation in the Audit, Remuneration or Investment Committees.

NEDs may be reimbursed for expenses reasonably incurred in attending to the Group's affairs.

Maximum aggregate NED fee pool

NED fees are determined within an aggregate NED fee pool limit, which is periodically approved by shareholders. The maximum aggregate amount that may be paid to NEDs for their services is \$390,000 during any financial year, as approved by shareholders at a general meeting.

The Board will not seek an increase to the aggregate NED fee pool limit at the 2022 AGM.

Following the receipt of "no" votes at its 2020 and 2021 Annual General Meeting for the adoption of the remuneration reports and the subsequent 'Spill Meeting' held on 28 February 2022, the Company has taken the following actions:

- No directors or officers' fees were to increase during FY22 and FY23;
- CMI Electrical executive salary was significantly reduced on a relative basis to NPAT achieved for FY22.

The Company will continue to maintain its STI plan as incentives for its KMP for the Electrical business linked to operational performance for both non-financial and financial KPI's which are designed to encourage and reward high performance and for this reason its places a reasonable proportion of the KMP's STI's at-risk against the Company's performance objectives.

Notes to the consolidated financial statements – About this report

FOR THE YEAR ENDED 30 JUNE 2022

1. CORPORATE INFORMATION

The consolidated financial statements of Excelsior Capital Limited and its subsidiaries (collectively, the Group) for the year ended 30 June 2022 were authorised for issue in accordance with a resolution of the directors on 30 August 2022.

Excelsior Capital Limited (the Company or the parent) is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange (ASX).

The Group is principally engaged in the design and distribution of electrical components and cables for resource infrastructure applications and the management of an investment portfolio (see segment information note).

The registered office is located at Level 29, Chifley Tower, 2 Chifley Square, Sydney, NSW, Australia.

Further information on the nature of the operations and principal activities of the Group is provided in the directors' report.

Information on the Group's structure is provided in **Note 19**.

Information on other related party relationships of the Group is provided in **Note 23**.

2. BASIS OF PREPARATION

The financial report is a general-purpose financial report which:

- Has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board;
- Has been prepared on a historical cost basis, except for debt and equity financial instruments which have been measured at fair value;
- Is presented in Australian dollars and all values are rounded to the nearest thousand (\$000), except when otherwise indicated under the option available to the company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. The Company is an entity to which this legislative instrument applies and

Compliance with International Financial Reporting Standards (IFRS)

The financial report also complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to the Group's exposure to risks and uncertainties includes:

- Financial instruments risk management and policies (**Note 18.5**)
- Sensitivity analyses disclosures (**Note 18.5**)

Judgements, estimates and assumptions

In the process of applying the Group's accounting policies, management has made judgements, estimates and assumptions which have the most significant effect on the amounts recognised in the consolidated financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described in the disclosures below.

- Impairment of non-financial assets (**Note 9**)
- Provision for expected credit losses of trade receivables and financial assets (**Note 18**)
- Taxes (**Note 4**)
- Fair value measurement of financial instruments (**Note 17.4**)
- Development costs (**Note 9**)

The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Notes to the consolidated financial statements – About this report

FOR THE YEAR ENDED 30 JUNE 2022

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 30 June 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

Current versus non-current classification

The Group presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the costs of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Notes to the consolidated financial statements – About this report

FOR THE YEAR ENDED 30 JUNE 2022

Other accounting policies

Significant and other accounting policies that summarise the measurement basis used are relevant to an understanding of the financial statements and are provided throughout the notes to the financial statements.

The notes to the financial statements

The notes include information which is required to understand the financial statements and is material and relevant to the operations, financial position and performance of the Group.

Information is considered material and relevant if, for example:

- the amount in question is significant because of its size or nature;
- it is important for understanding the results of the Group;
- it helps to explain the impact of significant changes in the Group's business – for example, acquisitions and impairment write-downs; or
- it relates to an aspect of the Group's operations that is important to its future performance.

The notes are organised into the following sections:

- **Key numbers:** provides a breakdown of individual line items in the financial statements that the Directors consider most relevant and summarises the accounting policies, judgements and estimates relevant to understanding these line items;
- **Capital:** provides information about the capital management practices of the Group and shareholder returns for the year;
- **Risk:** discusses the Group's exposure to various financial risks, explains how these affect the Group's financial position and performance and what the Group does to manage these risks;
- **Group structure:** explains aspects of the Group structure and how changes have affected the financial position and performance of the Group;
- **Unrecognised items:** provides information about items that are not recognised in the financial statements but could potentially have an impact on the Group's financial position and performance; and
- **Other disclosures:** provides information on items which require disclosure to comply with Australian Accounting Standards and other regulatory pronouncements however, are not considered critical in understanding the financial performance or position of the Group.

For personal use only

Notes to the consolidated financial statements – Segment information

FOR THE YEAR ENDED 30 JUNE 2022

For management purposes, the Group is organised into business units based on its products and services and has two reportable segments, as follows:

- The electronics segment, which is a supplier of electronic equipment for defence, aviation, electrical safety markets and consumer electronic equipment for home use. It offers products and services in the areas of electronics, safety, thermal and electrical architecture; and
- The investment portfolio segment, which invests in listed and unlisted equity instruments.

No operating segments have been aggregated to form the above reportable operating segments.

The Group's reportable segments under AASB 114 are therefore as follows:

Electrical components

Represents the design and distribution of electrical components and cables. The business is divided into two key areas:

1) Electrical cables

This is currently captured under the following primary brands:

- XLPE Cables;
- Hartland Cables; and
- Aflex Cables.

2) Minto Industrial Products

This specialises in couplers and receptacle products in the mining and construction industry.

Investment portfolio

Represents investing in listed and unlisted equity instruments, quoted debt instruments and or investment trusts to achieve long term dividend returns and capital appreciation.

Investments are acquired for long-term holding for dividends and short-term holding for revenue generation.

The Board of Directors is the Chief Operating Decision Maker (CODM) and monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

The following table presents revenue and results information for the Group's operating segments at 30 June 2022 and 30 June 2021, respectively:

	ELECTRICAL COMPONENTS		INVESTMENT PORTFOLIO		ADJUSTMENTS AND ELIMINATIONS		CONSOLIDATED	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000

The following table presents assets and liabilities information for the Group's operating segments at 30 June 2022 and 30 June 2021, respectively:

	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
Total assets	57,968	44,863	24,678	25,750	(3,638)	(7,045)	79,008	63,568
Total liabilities	(21,030)	(16,931)	(1,752)	(380)	3,638	7,045	(19,144)	(10,266)

Adjustments and eliminations

Finance costs, certain employee benefits and operating expenses are not allocated to individual segments as these are managed on an overall group basis.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

1. REVENUE FROM CONTRACTS WITH CUSTOMERS

Disaggregated revenue information

Set out below is the disaggregation of the Group's revenue from contracts with customers:

SEGMENTS:	ELECTRICAL COMPONENTS	
	2022 \$'000	2021 \$'000
Type of goods or service		
Sale of electrical components and cables	93,426	75,064
Total revenue from contracts with customers	93,426	75,064
Geographical markets		
New South Wales	22,819	17,740
Victoria	13,332	13,599
Queensland	29,441	26,235
Western Australia	27,834	17,490
Total revenue from contracts with customers	93,426	75,064
Timing of revenue recognition		
Goods transferred at point in time	93,426	75,064
Total revenue from contracts with customers	93,426	75,064

2. OTHER INCOME

	2022 \$'000	2021 \$'000
Gain on foreign exchange	1	18
Gain on sale of debt and equity instruments	-	-
Interest received	120	149
Sale of off-cuts (operations)	135	101
Other	195	9
	451	277

Recognition and measurement

Interest received

Interest received is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends income from equity instruments

Dividend income is recorded when the Group's right to receive the dividend is established.

Gain on sale of debt and equity instruments

Net gain on financial assets held at fair value through profit and loss are calculated as the difference between the fair value at the end of the reporting period and the fair value at the previous valuation point. Net gains do not include interest or dividend / distribution income.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

3. EXPENSES

	NOTE	2022 \$'000	2021 \$'000
Employee benefits			
Wages and salaries		6,843	6,034
Pension costs		514	441
		7,357	6,475
Occupancy expense			
Short-term and low value asset leases expense		91	123
Variable lease payment expense		627	228
		718	351
Depreciation and amortisation			
Depreciation of plant and equipment	8	1,478	1,518
Amortisation of intangible assets	9	244	253
		1,722	1,771
Other			
Legal expenses		35	187
Insurances, professional services and IT		946	710
Management and performance fees		109	199
Other administrative expenses ¹		619	(134)
		1,709	962

1. Included other administrative expenses in prior period are amounts related to debt forgiveness (\$237,000) upon deregistration of entity.

Recognition and measurement

Employee benefits

Employee benefits expenses includes wages and salaries including bonuses, annual and long service leave and associated on-costs as incurred, pensions costs, and termination benefits.

Occupancy expense

Occupancy expenses premises operating leases and other occupancy expenses (e.g. utilities, cleaning and security which are expensed as incurred).

Other administrative expenses

This mainly comprises:

- bank fees;
- licence fees and permits;
- custodian fees;
- ASX, ASIC and share registry expenses; and
- general administration expenses.

These items are expensed when incurred.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

4. INCOME TAX

The major components of income tax expense for the years ended 30 June 2022 and 2021 are:

	2022 \$'000	2021 \$'000
CONSOLIDATED PROFIT OR LOSS		
<i>Current income tax:</i>		
Current income tax charge	3,519	2,145
Adjustments in respect of current income tax of previous year	(1)	-
<i>Deferred tax:</i>		
Relating to origination and reversal of temporary differences	(78)	54
Adjustments in respect of deferred tax of previous year	-	4
Income tax expense reported in the statement of profit or loss	3,440	2,203
Consolidated statement of other comprehensive income		
Deferred tax related to items recognised in OCI during the year	-	(105)
	-	(105)
Reconciliation of tax expense and the accounting profit multiplied by Australia's domestic tax rate for 2022 and 2021:		
Accounting profit before tax	11,440	7,603
At Australia's statutory income tax rate of 30% (2021: 30%)	3,432	2,281
Adjustments in respect of current income tax and deferred tax of previous year	(1)	-
Other items	9	(78)
Income tax expense reported in the statement of profit or loss	3,440	2,203

Notes to the consolidated financial statements – Key numbers

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

4. INCOME TAX (CONTINUATION)

Reflected in the statement of financial position as follows:

	2022 \$'000	2021 \$'000
Deferred tax assets	619	541
Deferred tax liabilities	(456)	(456)
Net deferred tax assets (liabilities)	163	85

Recognition and measurement

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change.

The adjustment is either treated as a reduction in goodwill (as long as it does not exceed goodwill) if it reflects new information obtained about facts and circumstances that exist at the acquisition date that, if known, would have affected the amount recognised at that date where recognised during the measurement period.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

4. INCOME TAX (CONTINUATION)

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Tax consolidation

(i) Members of the tax consolidated group and the tax sharing arrangement

Excelsior Capital Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2002. Excelsior Capital Limited is the head entity of the tax consolidated group. Members of the tax consolidated group have entered into a tax sharing agreement that provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement on the basis that the possibility of default is remote.

(ii) Tax effect accounting by members of the tax consolidated group

Measurement method adopted under AASB Interpretation 1052 Tax Consolidation Accounting

The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the broad principles in AASB 112 *Income Taxes*. The nature of the tax funding agreement is discussed further below.

In addition to its own current and deferred tax amounts, the head entity also recognises current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Nature of the tax funding agreement

Members of the tax consolidated group have entered into a tax funding agreement. Under the funding agreement, the funding of tax within the Group is based on accounting profit. The tax funding agreement requires payments to/from the head entity to be recognised via an inter-entity receivable (payable) which is at call. To the extent that there is a difference between the amount charged under the tax funding agreement and the allocation under AASB Interpretation 1052, the head entity accounts for these as equity transactions with the subsidiaries.

The amounts receivable or payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax installments.

Key estimates and assumptions

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

The Group has \$33.3 million (2021: \$33.2 million) of capital losses carried forward. These losses relate to subsidiaries that have a history of losses, do not expire, and may not be used to offset taxable income elsewhere in the Group. The subsidiaries neither have any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

5. CASH AND CASH EQUIVALENTS

For the purpose of the statement of cash flows, cash and cash equivalents comprise the following at 30 June:

	2022 \$'000	2021 \$'000
Cash at bank and on hand	4,791	2,595
Investment trading account	13,116	12,799
	17,907	15,394

Cash at bank earns interest at floating rates based on daily bank deposit rates.

At 30 June 2022, the Group had available \$2,394,000 (FY21: \$3,549,000) of undrawn committed borrowing facilities.

	NOTE	2022 \$'000	2021 \$'000
Cash flow reconciliation			
Reconciliation of profit after tax to net cash flows from operations			
Profit after tax		8,000	5,400
Adjustments to reconcile profit after tax to net cash flows			
Depreciation of plant and equipment	3	1,478	1,518
Amortisation of intangible assets	3	244	253
Finance costs		134	206
Loss on disposal of plant and equipment		1	-
Changes in assets and liabilities:			
Deferred tax assets and liabilities		(78)	58
Current tax assets and liabilities		1,431	509
Provisions		171	82
Working capital adjustments:			
Trade and other receivables and prepayments		(3,629)	(4,066)
Inventories		(8,639)	(2,298)
Trade and other payables		6,626	166
Net cash flows from operating activities		5,739	1,828

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

6. TRADE AND OTHER RECEIVABLES

	2022 \$'000	2021 \$'000
Current		
Trade receivables	19,551	15,643
Allowance for expected credit losses	(146)	(25)
	19,405	15,618
Prepayments	117	275
	19,522	15,893

Recognition and measurement

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in **Note 18** Financial instruments – initial recognition and subsequent measurement.

Terms and conditions relating to the above

As at 30 June 2022, the Group has trade receivables of \$19,405,000 (2021: \$15,618,000) which is net of an allowance for expected credit losses of \$146,000 (2021: \$25,000).

Set out below is the movement in the allowance for expected credit losses of trade receivables:

	2022 \$'000	2021 \$'000
As at 1 July	25	25
Provision for expected credit losses	141	-
Utilisation of provision	(20)	-
As at 30 June	146	25

The significant changes in the balances of trade receivables are disclosed in **Note 18.1** while the information about the credit exposures are disclosed in **Note 18.5**.

Past due but not impaired

There was a past due balance greater than 90 days at 30 June 2022, however this has been assessed as not being impaired. This balance is expected to be fully recoverable \$16,000.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

7. INVENTORIES

	2022 \$'000	2021 \$'000
Raw materials	1,749	1,117
Work in progress	289	237
Finished goods	25,232	17,277
Total inventories at the lower of cost and net realisable value	27,270	18,631

Recognition and measurement

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for, as follows:

- Raw materials: purchase cost on a first-in/first-out basis; and
- Finished goods and work in progress: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the costs necessary to make the sale.

There was no write down of net realisable value during the year.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

8. PLANT AND EQUIPMENT

	PLANT AND EQUIPMENT \$'000	RIGHT-OF-USE ASSETS \$'000	TOTAL \$'000
Cost			
At 1 July 2020	2,942	3,149	6,091
Additions	70	1,351	1,421
Disposals	(41)	-	(41)
At 30 June 2021	2,971	4,500	7,471
Additions	49	1,262	1,311
Disposals	(18)	(459)	(477)
At 30 June 2022	3,002	5,303	8,305
Depreciation and impairment			
At 1 July 2020	2,703	1,450	4,153
Depreciation charge for the year	81	1,445	1,526
Disposals	(41)	-	(41)
At 30 June 2021	2,743	2,895	5,638
Depreciation charge for the year	74	1,404	1,478
Disposals	(16)	(1,157)	(1,173)
At 30 June 2022	2,801	3,142	5,943
Net book value			
At 30 June 2022	201	2,161	2,362
At 30 June 2021	228	1,605	1,833

Recognition and measurement

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

Plant and machinery 3-20 years

An item of plant and equipment is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement date, as well as any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

9. INTANGIBLE ASSETS

	DEVELOPMENT COSTS \$'000	GOODWILL \$'000	TOTAL \$'000
Carrying value			
At 1 July 2020	3,884	8,660	12,544
Additions – internally developed	351	-	351
At 30 June 2021	4,235	8,660	12,895
Additions – internally developed	340	-	340
At 30 June 2022	4,575	8,660	13,235
Amortisation and impairment			
At 1 July 2020	2,348	1,810	4,148
Amortisation	253	-	253
At 30 June 2021	2,601	1,810	4,411
Amortisation	244	-	244
At 30 June 2022	2,845	1,810	4,655
Net book value			
At 30 June 2022	1,730	6,850	8,580
At 30 June 2021	1,634	6,850	8,484

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of

profit or loss in the expense category that is consistent with the function of the intangible assets.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss.

Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- Its intention to complete and its ability and intention to use or sell the asset;
- How the asset will generate future economic benefits;
- The availability of resources to complete the asset; and
- The ability to measure reliably the expenditure during development.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

9. INTANGIBLE ASSETS (CONTINUATION)

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. During the period of development, the asset is tested for impairment annually.

There are two design and development projects:

- Cable coupling devices; and
- Components for mining.

Key estimates and assumptions – Development costs

The Group capitalises costs for product development projects. Initial capitalisation of costs is based on management's judgement that technological and economic feasibility is confirmed, usually when a product development project has reached a defined milestone according to an established project management model.

At 30 June 2022, the carrying amount of capitalised development costs was \$1,730,000 (2021: \$1,634,000).

The remaining amortisation period is:

- Within one year – \$212,000
- After one year but not more than five years – \$247,000
- Under development not completed – \$1,271,000

Goodwill

For impairment testing, goodwill acquired through business combinations are allocated to the electronics components CGU, which is also an operating and reportable segment.

Carrying amount of goodwill allocated to the CGU:

	ELECTRICAL COMPONENTS	
	2022 \$'000	2021 \$'000
Goodwill	6,850	6,850

The Group performed its annual impairment test in June 2021. The Group considers the relationship between its market capitalisation and its book value, among other factors, when reviewing for indicators of impairment.

Electrical components CGU

The recoverable amount of the electrical components CGU, as at 30 June 2022, has been determined based on a value in use calculation using cash flow projections from financial budgets approved by senior management covering a five-year period.

The pre-tax discount rate applied to cash flow projections is 17.2% (2021: 15.3%) and cash flows beyond the five-year period are extrapolated using a 2.5% growth rate (2021: 2.5%) that is the same as the long-term average growth rate for the electrical components industry.

It was concluded that the book value of the CGU did not exceed the value in use. As a result of this analysis, management determined that there is no impairment charge in the current year against goodwill with a carrying amount of \$6,850,000 as at 30 June 2022.

Key assumptions used in value in use calculations and sensitivity to changes in assumptions

The calculation of value in use for the electrical component's unit is most sensitive to the following assumptions:

- Discount rates; and
- Growth rate estimates used to extrapolate cash flows beyond the forecast period.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

9. INTANGIBLE ASSETS (CONTINUATION)

Discount rates – Discount rates represent the current market assessment of the risks specific to the CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segment and is derived from the cost of equity. The cost of equity is derived from the expected return on investment by the Group's investors.

The cost of debt is nil as the Group has no debt.

Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate.

A rise in the pre-tax discount rate to 46% in the electrical components unit would result in nil headroom for impairment.

Growth rate estimates – Rates are based on published industry research. These have been updated for the current economic outlook.

Management recognises that the speed of technological change and the possibility of new entrants can have a significant impact on growth rate assumptions. The effect of new entrants is not expected to have an adverse impact on the forecasts, but could yield an alternative to the estimated long-term growth rate of 2.5% for the electrical components unit.

A reduction in the long-term growth rate in the electrical components unit from +2.5% to nil would not result in impairment to goodwill.

Key estimates and assumptions – Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a DCF model.

The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the assets of the CGU being tested.

The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill recognised by the Group. The key assumptions used to determine the recoverable amount for the different CGUs, including a sensitivity analysis, are disclosed and explained above.

Notes to the consolidated financial statements – Key numbers

FOR THE YEAR ENDED 30 JUNE 2022

10. TRADE AND OTHER PAYABLES

	NOTE	2022 \$'000	2021 \$'000
Trade payables		5,548	5,929
Creditors and accruals		8,450	1,443
	18	13,998	7,372
Current		13,998	7,372

Recognition and measurement

Trade and other payables and other accounts payable are recognised when the Group becomes obliged to make future payments resulting from the purchase of goods and services.

Terms and conditions of the above financial liabilities:

- Trade payables are non-interest bearing and are normally settled on 30-60 day terms; and
- For explanations on the Group's liquidity risk management processes, refer to **Note 18.5**.

11. LEASE LIABILITIES

	2022 \$'000	2021 \$'000
Current	1,048	1,040
Non-current	1,231	589
	2,279	1,629

Recognition and measurement

At inception of a contract, the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability is recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (ie a lease with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially, the lease liability is measured at the present value of the lease payments still to be paid at commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options, if lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

12. PROVISIONS

	ANNUAL AND LONG SERVICE LEAVE \$'000
At 1 July 2021	1,007
Arising during the year	516
Utilised	(345)
At 30 June 2022	1,178
Current	1,122
Non-current	56
At 1 July 2020	925
Arising during the year	390
Utilised	(308)
At 30 June 2021	1,007
Current	962
Non-current	45

Recognition and measurement

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Long service leave and annual leave

The Group recognises a liability for long service leave and annual leave measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date.

Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service.

Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

Notes to the consolidated financial statements – Capital

FOR THE YEAR ENDED 30 JUNE 2022

13. CAPITAL MANAGEMENT

The Group's capital management objectives

For the purpose of the Group's capital management, capital includes issued capital, and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

To maintain or adjust the capital structure, the Group may adjust:

- the dividend payment to shareholders;
- return capital to shareholders; or
- issue new shares.

The Group is not subject to any externally imposed capital requirements.

The Board is responsible for monitoring and approving the capital management framework within which management operates. The purpose of the framework is to prudently manage capital whilst optimising the debt and equity structure.

	2022 \$'000	2021 \$'000
Bank guarantees	191	251
Net debt	191	251
Equity	59,864	53,302
Total capital	59,864	53,302
Capital and net debt	60,055	53,553

In order to achieve this overall objective, the Group's capital management, among other things, aims to ensure that it meets financial covenants that define capital structure requirements. There have been no breaches of the financial covenants in the current period.

No changes were made in the objectives, policies, or processes for managing capital during the years ended 30 June 2022 and 2021.

Notes to the consolidated financial statements – Capital

FOR THE YEAR ENDED 30 JUNE 2022

14. DIVIDENDS

	2022 \$'000	2021 \$'000
Cash dividends on ordinary shares declared and paid:		
Final dividend for 2021: 2.0 cents per share (2020: 2.0 cents per share)	580	580
Interim dividend for 2022: 2.0 cents per share (2021: 2.0 cents per share)	580	580
	1,160	1,160
Proposed dividends on ordinary shares		
Final cash dividend for 2022: 3 cents per share (2021: 2.0 cents per share)	870	580
Franking credit balance		
The amount of franking credits available for the subsequent financial year are:		
• Franking account balance as at the end of the financial year at 30% (2021: 30%)	28,390	27,022
• Franking debits that will arise from the payment of dividends as at the end of the financial year	373	249

15. ISSUED CAPITAL, RESERVES AND NON-CONTROLLING INTEREST

15.1 Issued shares

	2022	2021
	Thousands	
Ordinary shares as at 30 June 2022	28,994	28,994
	28,994	28,994
	Thousands	
	\$'000	
At 1 July 2018		
Ordinary shares	31,367	31,687
Share buy-back on 23 November 2018	(2,373)	(3,417)
At 30 June 2021 and 30 June 2022	28,994	28,270

In a prior year, 30 June 2019, the issued capital was decreased by \$3,417,000 by the off-market buy back of 2,372,902 shares.

Notes to the consolidated financial statements – Capital

FOR THE YEAR ENDED 30 JUNE 2022

15. ISSUED CAPITAL, RESERVES AND NON-CONTROLLING INTEREST (CONTINUATION)

15.2 Reserves and non-controlling interest

The disaggregation of changes of OCI by each type of reserve in equity and non-controlling interest is shown below:

	FAIR VALUE RESERVE OF FINANCIAL ASSETS AT FVOCI \$'000	NON- CONTROLLING INTEREST \$'000
As at 1 July 2020	(245)	(8)
Profit for the year	-	227
Other comprehensive income	(82)	-
Derecognition upon deregistration of entity	-	(219)
At 30 June 2021 and 1 July 2021	(327)	-
Other comprehensive income	(147)	-
At 30 June 2022	(474)	-

16. EARNINGS PER SHARE (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The following table reflects the income and share data used in the basic and diluted EPS calculations:

	2022 \$'000	2021 \$'000
Profit attributable to ordinary equity holders of the parent	8,000	5,173
Profit attributable to ordinary equity holders of the parent for basic earnings	8,000	5,173
Profit attributable to ordinary equity holders of the parent adjusted for the effect of dilution	8,000	5,173

	2022 THOUSANDS	2021 THOUSANDS
Weighted average number of ordinary shares for basic EPS	28,994	28,994
Weighted average number of ordinary shares adjusted for the effect of dilution	28,994	28,994

There have been no transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these financial statements.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

17. FAIR VALUE MEASUREMENT

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

17.1 Fair value measurement hierarchy for assets as at 30 June 2022:

	Date of valuation	Total \$'000	FAIR VALUE MEASUREMENT USING		
			Quoted prices in active markets (Level 1) \$'000	Significant observable inputs (Level 2) \$'000	Significant unobservable inputs (Level 3) \$'000
Assets measured at fair value					
Quoted equity shares (Note 18)	30 June 2022	45	45	-	-
Unquoted equity shares (Note 18)	30 June 2022	280	-	280	-
Unlisted investment unit trusts (Note 18)	30 June 2022	2,879	-	2,879	-

There was no transfer from Level 1 to Level 2 during the year 2022:

The Company held units in the following unlisted investment managed funds;

- Regal Resources Long Short Fund.
- CAIS Millennium International Commitment Fund Limited.
- Alium Market Neutral Fund – Platform Class, and
- Catalyst FM Global Opportunities Fund.

These Funds are registered managed investment scheme that is an unlisted Australian and International unit trusts. Unit prices vary depending on the underlying asset investments.

The Company also held shares in Invigor Group Limited a company listed on the ASX as code ASX:IVO.

There were no transfers between Level 1, Level 2 or Level 3 during 2022.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

17. FAIR VALUE MEASUREMENT (CONTINUATION)

17.2 Fair value measurement hierarchy for assets as at 30 June 2021:

	Date of valuation	Total \$'000	FAIR VALUE MEASUREMENT USING		
			Quoted prices in active markets (Level 1) \$'000	Significant observable inputs (Level 2) \$'000	Significant unobservable inputs (Level 3) \$'000
Assets measured at fair value					
Unquoted equity shares (Note 18)	30 June 2021	280	-	280	-
Unlisted unit trust (Note 18)	30 June 2021	2,968	-	2,968	-

There was no transfer between Level 1, Level 2 or from Level 3 during 2021:

- Ardea Real Outcome Fund (unlisted) is a registered managed investment scheme that is unlisted Australian unit trust. Unit prices vary depending on the underlying asset investments.

There were no transfers between Level 1, 2 or 3 during 2021.

17.3 Fair value measurement hierarchy for liabilities as at 30 June 2022 and 30 June 2021

There are no liabilities in the Group that are subject to fair value measurement for 30 June 2022 and 2021.

17.4 Summary of financial assets at FVOCI held and changes in fair value at 30 June 2022 and 30 June 2021

	2022 \$'000	2021 \$'000
Ardea Real Outcome Fund	-	2,968
Local Agent Finder Limited	280	280
CAIS Millennium International Commitment Fund Limited	474	-
Alium Market Neutral Fund – Platform Class	1,005	-
Regal Resources Long Short Fund	450	-
Catalyst FM Global Opportunities Fund	950	-
Invigor Group Limited	45	-
Total financial assets at FVOCI	3,204	3,248

	2022 \$'000	2021 \$'000
Opening	3,248	867
Additions	3,103	3,000
Disposals	(2,869)	(651)
Revaluation of financial assets	278	32
Closing	3,204	3,248

During the year, brokerage fees amounting to \$nil (2021: \$2,000) on purchase and sale of debt, equity, hybrid securities and or investment trust units were netted off against the cost base or sale consideration received. The Company also incurred \$9,000 in management fees paid to Macquarie Private Bank.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

17. FAIR VALUE MEASUREMENT (CONTINUATION)

17.4 Fair value measurement

The Group measures financial instruments such as investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- **Level 1** – Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- **Level 2** – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- **Level 3** – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Board determines the policies and procedures for recurring fair value measurement, such as unquoted financial assets.

At each reporting date, the Board analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the Board verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Board also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

The Manager of the Group's investment portfolio presents the valuation results to the Audit Committee and the Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

18.1 Financial assets

	NOTE	2022 \$'000	2021 \$'000
Financial assets at fair value through OCI			
Quoted equity shares	17	45	-
Unquoted equity shares	17	280	280
Unlisted unit trusts	17	2,879	2,968
Financial assets at amortised cost			
Cash and cash equivalents	5	17,907	15,394
Trade receivables	6	19,522	15,893
Total financial assets		37,429	31,287
Total current		37,429	31,287
Total non-current		3,204	3,248

Recognition and measurement

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss inclusive of transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under AASB 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments);
- Financial assets at fair value through profit or loss (quoted hybrid securities); and
- Trade receivables at amortised cost.

Financial assets measured at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments at fair value through OCI when they meet the definition of equity under AASB 132 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

Gains and losses on these financial assets are never recycled to profit or loss.

Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established.

Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group elected to classify irrevocably its quoted and unquoted equity investments under this category as the Group considers these investments to be strategic in nature.

Financial assets at fair value through profit or loss (quoted hybrid securities)

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value.

Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes quoted hybrid debt securities which the Group had irrevocably elected to classify at fair value through profit or loss.

Interest received on quoted hybrid securities is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Fair values of the quoted hybrid securities are determined by reference to published price quotations in an active market.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are also provided in the following notes:

- Trade receivables (**Note 6**)

Trade receivables

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. This was based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

18.2 Financial liabilities

	NOTE	2022 \$'000	2021 \$'000
Financial liabilities at amortised cost			
Trade and other payables	10	13,998	7,372
Lease liabilities	11	2,279	1,629
Total financial liabilities		16,277	9,001
Total current		15,046	8,412
Total non-current		1,231	589

Recognition and measurement

Initial recognition and measurement

The Group's financial liabilities include trade and other payables only. These are classified, at initial recognition as payables, net of directly attributable transaction costs as appropriate.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

18.3 Fair values

Set out below is a comparison, by class, of the carrying amounts and fair values of the Group's financial instruments:

	2022		2021	
	Carrying amount \$'000	Fair value \$'000	Carrying amount \$'000	Fair value \$'000
Financial assets				
Unquoted equity shares	280	280	280	280
Unlisted unit trusts	2,879	2,879	2,968	2,968
Quoted equity shares	45	45	-	-
	3,204	3,204	3,248	3,248

18.4 Fair values measurements and valuation processes

Management assessed that the fair values of:

- cash deposits;
- trade receivables; and
- trade payables

approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the unlisted investment unit trust securities are based on the value of the trust's net assets per redeemable unit at each reporting date. Investment positions are valued based on the last traded market price, net of transaction costs, for the purpose of determining the trust's net asset value for unit pricing purpose.
- In addition to being sensitive to a change in the forecast cash flows or the discount rate, the fair value of the unquoted equity instruments and unlisted trust units is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- There is an active market for the Group's quoted equity shares and unlisted managed investment unit trust.

18.5 Financial instruments risk management objectives and policies

The Group's principal financial liabilities comprise trade and other payables only. The Group's principal financial assets include trade receivables, and cash that derive directly from its operations. The Group also holds investments in managed fund via unit trust and unquoted equity instruments.

The Group is exposed through its asset investments to:

- market risk,
- currency risk,
- derivative risk,
- fixed income security risk,
- credit risk; and
- liquidity risk.

The Board of Directors oversees the management of these risks along with guidance from independent financial advisers. The Board of Directors advises on financial risks and the appropriate financial risk governance framework for the Group. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the overall performance of financial market prices. Market risk comprises three types of risk:

- interest rate risk;
- currency risk; and
- other price risk, such as equity price risk.

Financial instruments affected by market risk include deposits and debt, equity and unit trust investments.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in financial market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's cash as well as its investment in a unit trust. The risk that changes in interest rates may have an adverse impact on the capital value or income of a security.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency) as well as its investment in a unit trust.

Some securities held by the trust may be denominated in a currency different to Australian Dollars. A change in the value of these currencies relative to the Australian dollar can affect the value of the unit trust.

The Group does not have a defined policy on foreign currency derivatives; however, the Board assesses the risk of individual transactions as they arise for the requirement to use currency derivative instruments.

Equity price risk

The Group's listed and non-listed equity investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's Board of Directors on a regular basis. The Group's Board of Directors reviews and approves all equity and hybrid investment decisions.

At the reporting date, the company held \$45,000 in listed equity investments. Its exposure to non-listed equity and unit trust investments at fair value were \$3,159,000 (2021: \$3,248,000).

Given that the changes in fair values of the equity and certain unlisted investments held are strongly positively correlated with changes to the variables such as ASX market index, the broader financial markets and the underlying assets held by the investment trust, the Group has determined that an increase/ (decrease) of 10% in these market variables could have an impact of approximately \$221,000 (2021: \$227,000) increase/ (decrease) on the income and equity attributable to the Group.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument, fixed income security or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and in investment in a unit trust.

Trade receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables and contract assets are regularly monitored and any shipments to major customers are generally covered by letters of credit.

At 30 June 2022, the Group had 41 customers (2021: 29) that owed the Group more than \$100,000 each and accounted for approximately 84% (2021: 78%) of all the receivables outstanding. There were 13 customers (2021: 9 customers) with balances greater than \$500,000 accounting for just over 61% (2021: 56%) of the total amounts of trade receivables.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if past due for more than one year and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in **Note 6**. The Group does not hold collateral as security. The letters of credit are considered integral part of trade receivables and considered in the calculation of impairment.

The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Notes to the consolidated financial statements – Risk

FOR THE YEAR ENDED 30 JUNE 2022

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

	DAYS PAST DUE				Total \$'000
	Current \$'000	<30 days \$'000	30-60 days \$'000	61-90 days \$'000	
30 June 2022					
Expected credit loss rate	0.11%	0.16%	6.8%	100%

18. FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUATION)

Liquidity risk

The Group monitors its risk of a shortage of funds using a liquidity planning tool.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank guarantees and finance lease facility. The Group has access to a sufficient variety of sources of funding that borrowing within 12 months can be rolled over with existing lenders.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

FINANCIAL LIABILITIES	ON DEMAND \$'000	< 3 MONTHS \$'000	3-12 MONTHS \$'000	1-5 YEARS \$'000	>5 YEARS \$'000	TOTAL \$'000
2022						
Non-derivatives						
Trade and other payables	13,998	-	-	-	-	13,998
Lease liabilities	-	250	798	1,231	-	2,279
	13,998	250	798	1,231	-	16,277
2021						
Non-derivatives						
Trade and other payables	7,372	-	-	-	-	7,372
Lease liabilities	-	303	737	589	-	1,629
	7,372	303	737	589	-	9,001
FINANCING FACILITIES				2022 \$'000		2021 \$'000
Finance lease facility which may be extended by mutual agreement annually						
• Amount unused				1,500		2,000
				1,500		2,000
Bank guarantee facility which may be extended by mutual agreement annually

Notes to the consolidated financial statements – Unrecognised items

FOR THE YEAR ENDED 30 JUNE 2022

20. COMMITMENTS AND CONTINGENCIES

20.1 Commitments

At 30 June 2022, the Group had no commitments (2021: Nil).

20.2 Guarantees

The Group has provided the following guarantee at 30 June 2022:

- Leases over several of its premises of \$191,000 (2021: \$251,000)

20.3 Contingent liabilities

The Company has issued the following guarantees in relation to the debts of its subsidiaries:

- Pursuant to ASIC Corporations (Wholly-owned Companies) Instrument 2016/785, Excelsior Capital Limited has entered into a deed of cross guarantee. The effect of the deed is that Excelsior Capital Limited has guaranteed to pay any deficiency in the event of winding up of any controlled entity if they do not meet their obligations under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee.
- The controlled entities have also given a similar guarantee in the event that Excelsior Capital Limited is wound up or if it does not meet its obligations under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee.

Guarantees on lease of premises

The company has a contingent liability arising as a result of guarantees made directly for lease of premises. The amount disclosed represents the aggregate amount of such guarantees.

The extent to which an outflow of funds will be required is dependent on the satisfaction of the obligations under the terms of the leases.

21. EVENTS AFTER THE REPORTING PERIOD

21.1 Final dividend declared

On 30 August 2022, the directors of Excelsior Capital Limited declared a final dividend on ordinary shares in respect of the 2022 financial year. The total amount of the dividend is \$869,834 which represents a fully franked dividend of 3 cents per share. The dividend has not been provided for in the 30 June 2022 financial statements.

Notes to the consolidated financial statements – Other disclosures

FOR THE YEAR ENDED 30 JUNE 2022

23. RELATED PARTY DISCLOSURES (CONTINUATION)

23.1 Terms and conditions of transactions with related parties

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables.

23.2 Other directors' interests

Purchases

During the year there has been no purchases made from related parties.

As at 30 June 2022 management and performance fees totalling \$99,996 (2021: \$87,000, excluding GST) were expensed in Excelsior Capital Limited relating to amounts pre-paid to Glennon Capital Pty Ltd, of which M.X. Glennon is a director and controlling shareholder and is a previous director of Excelsior Capital Limited.

Amounts owed to related parties

During the year there have been no amounts lent by related parties.

23.3 Compensation of key management personnel of the Group

	2022 \$	2021 \$
Short-term employee benefits	728,253	760,918

Retained earnings	(4,870)	(2,573)
Reserves	(474)	(327)
Equity attributable to equity holders of the parent	22,926	25,370
Loss after tax	(1,006)	(1,188)
Total comprehensive income	(278)	(23)

Refer to **Note 20** for guarantees that the Parent has issued in relation to the debts of its subsidiaries.

25. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

25.1 New and amended standards and interpretations

AASB 2021-3: Amendments to Australian Accounting Standards – COVID-19 Related Rent Concessions beyond 30 June 2021

The amendment amends AASB 16 to extend by one year, the application of the practical expedient added to AASB 16 by AASB 2020-4: Amendments to Australian Accounting Standards – COVID-19-Related Rent Concessions. The practical expedient permits lessees not to assess whether rent concessions that occur as a direct consequence of the COVID-19 pandemic and meet specified conditions are lease modifications and instead, to account for those rent concessions as if they were not lease modifications.

AASB 2020-8: Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2

The amendment amends various standards to help listed entities to provide financial statement users with useful information about the effects of the interest rate benchmark reform on those entities' financial statements. As a result of these amendments, an entity:

- will not have to derecognise or adjust the carrying amount of financial statements for changes required by the reform, but will instead update the effective interest rate to reflect the change to the alternative benchmark rate;
- will not have to discontinue its hedge accounting solely because it makes changes required by the reform, if the hedge meets other hedge accounting criteria; and
- will be required to disclose information about new risks arising from the reform and how it manages the transition to alternative benchmark rates.

Directors' declaration

In accordance with a resolution of the directors of Excelsior Capital Limited, I state that:

1. In the opinion of the directors:

- (a) the financial statements and notes of Excelsior Capital Limited for the financial year ended 30 June 2022 are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2022 and of its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and the *Corporations Regulations 2001*.
- (b) the financial statements and notes also comply with International Financial Reporting Standards as disclosed on page 25; and
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2022.

On behalf of the board

D. Herceg

30 August 2022

Independent auditor's report

EXCELSIOR CAPITAL LIMITED
ABN 98 050 542 553
AND ITS CONTROLLED ENTITIES

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EXCELSIOR CAPITAL LIMITED

Report on the Financial Report

Opinion

We have audited the financial report of Excelsior Capital Limited (the company) and its subsidiaries (the group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information and the director's declaration.

In our opinion, the accompanying financial report of the group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2022. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EXCELSIOR CAPITAL LIMITED

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
Impairment Assessment of Goodwill <i>Refer to Note 9 Goodwill, Note 3 Significant accounting judgments, estimates and assumptions</i>	
<p>As required by Australian Accounting Standards, the group is required to perform an impairment test of goodwill on at least an annual basis. This annual impairment assessment was a key audit matter due to the size of the asset (carrying value of \$6.849m) and the degree of estimation and assumptions, specifically forecast earnings and discount rates, which are affected by expected future demand for products in the electrical business as a separate cash generating unit.</p>	<p>Our audit procedures included, amongst others:</p> <ul style="list-style-type: none">• We assessed management's determination of the group's cash-generating units ("CGUs");• We involved Hall Chadwick's valuation experts to evaluate the methodologies used by the group and to review the mathematical accuracy of the cash flows forecasts;• We evaluated management's key assumptions used in the cash flows forecasts to determine the recoverability of electrical business assets and agreed relevant data to supporting documents;• We challenged management on the key assumptions used in the cash flow forecast by considering this information and evidence available to us internally and externally;• We evaluated historical reliability of prior period cash flows by considering this information and evidence available to us internally and externally;• We performed sensitivity analysis around the key assumptions of growth rates and discount rates used in the cash flow forecasts and assessed the sensitivity and likelihood of a change of these assumptions that either individually or collectively would result in the electrical business assets to be impaired or otherwise; and• We assessed the adequacy of the group's disclosure in relation to the carrying value of goodwill.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EXCELSIOR CAPITAL LIMITED

Responsibilities of the Directors for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

For personal use only

Independent auditor's report

HALL CHADWICK  (NSW)

EXCELSIOR CAPITAL LIMITED
ABN 98 050 542 553
AND ITS CONTROLLED ENTITIES

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EXCELSIOR CAPITAL LIMITED

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have compiled with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the communication with the directors, we determined those matters that were of most significant in the audit of the financial report for the current period and are therefore the key audit matters. We have described these matters in our auditor's report unless laws or regulations precludes public disclosure about the matter, or when in extremely rare circumstances, we determined that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2022.

In our opinion, the remuneration report of Excelsior Capital Limited for the year ended 30 June 2022 complies with s 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with s 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report based on our audit conducted in accordance with Australian Auditing Standards.
