CHAIRMAN'S REPORT

Dear Shareholders,

I present to you the Annual Report for Moab Minerals Limited ("MOM" or the "Company") for the year ended 30 June 2022.

Last year I highlighted that the Board had a clear vision and strategy for the Company. That strategy was, and continues to be, to leverage our expertise in the resources sector, a sector which continues to be performing strongly. We are very well resourced, and we continue to examine new opportunities on top of the highly prospective projects we already control. We believe our uranium and vanadium project is well located and well timed. We are in the process of planning a program of works to further develop that project. We are not resting on our laurels as we continue to examine other prospects both within Australia and further afield.

Your Board works hard to stay abreast of economic information together with industrial and social trends impacting mineral demand. The Company is well connected and regarded in the resources sector, which assists in project identification and acquisition.

It would be remiss of me to not personally thank our Managing Director, Malcolm Day. Mal works hard to achieve outcomes, and this year he has achieved some great outcomes. Subsequent to the year end, we have re-complied and been reinstated to trading on the ASX raising an additional \$4,000,000 in the process, we have acquired some excellent projects in Western Australia, and we have continued to develop our US assets, whilst still very actively looking at other new opportunities. Mal is the force behind these achievements and his efforts, commercial acumen, intellect and drive are critical.

As part of the new focus on minerals, the Company sold its Calvista business. I need to thank the Calvista team who were an important part of this Company for a long time. They are now privately owned and moving forward independently of MOM, and we wish them well.

Finally, thank you to our shareholders for your patience whilst we were suspended and re-complying. We appreciate your ongoing support, and we intend to repay that support by increasing the value of your stock.

Bryan Hughes

CHAIRMAN

MANAGING DIRECTOR'S REPORT

Dear Shareholders,

The past year has been transformative for Moab Minerals Ltd (the Company). The Company was successfully reinstated to trading on the ASX in September 2022 following a period of suspension. The reinstatement was following the Company re-complying with Chapters 1 and 2 of the ASX Listing Rules, including:

- Changing from an industrial company to a resources company
- Completion of a share consolidation on a 1 for 2.5 basis
- Raising a total of \$4m at 2c per share
- Disposal of the Company's wholesale division Calvista Australia Pty Ltd and Calvista New Zealand Limited effective 9 September 2022
- Acquisition of a 100% interest in Nabberu Minerals Pty Ltd (Nabberu) effective 9 September 2022

For the year ended 30 June 2022 the Company recorded a net loss of \$459k (2021: loss of \$139k). The current year loss includes \$561k in costs relating to the acquisition and disposal and ASX re-compliance process. In addition, the Company incurred exploration and evaluation expenditure during the year of \$317k mainly centred on the REX vanadium-uranium project in Colorado, USA.

Following the acquisition of Nabberu, the Company now has a diversified asset portfolio across various commodities (uranium, vanadium, gold, base metals, copper and cobalt) in Tier-1 jurisdictions, Australia and USA with its projects including:

- The REX uranium-vanadium project in Colorado
- The Speedway project in Utah
- The Highline project in Nevada
- The Woodlands project in Western Australia
- The Mt Amy project in Western Australia

Given the current price, and outlook, for uranium, the Company's current focus is exploring the REX project. The Company owns 60% of the REX project. It's a large (~ 5,000 acres) brownfields project that contains many historic uranium mines including Blackfoot/Rattlesnake, Wedge, Merry Widow, Sunbeam and Vanadium King that have not been subject to exploration since the 1970's other than sampling by the Company. The project is located in the Uravan Mineral belt that straddles the Colorado and Utah boundaries. This area has been a major source of uranium and vanadium in the US for more than 100 years. The Company expects to lodge a drill permit application for REX next month.

It's exciting times ahead for the Company! I look forward to sharing ongoing news regarding the exploration of the Company's projects.

Malcolm Day

MANAGING DIRECTOR

DIRECTOR'S REPORT

The directors of Moab Minerals Limited (formerly Delecta Limited) ("the Company") submit their report for the year ended 30 June 2022.

CHANGE IN COMPANY NAME

On 12 September 2022 the company changed its name from Delecta Limited to Moab Minerals limited.

DIRECTORS

The directors in office at the date of this report and at any time during the financial year are as follows. Directors were in office for the entire year unless otherwise stated.

Bryan Hughes
Malcolm Day
Hans-Rudolf Moser (resigned 25 November 2021)
David Wheeler

INFORMATION ON DIRECTORS

Bryan Hughes (Non-Executive Chairman)

Mr Hughes was appointed as the Company's Non-Executive Chairman on 5 November 2019.

Mr Hughes is the Chairman of Pitcher Partners Perth Accountants, Auditors and Advisors and specialises in corporate advisory, corporate finance, turnaround and reconstruction. His experience as a Corporate Advisor as well as his former directorship of both ASX-listed and private companies provide a comprehensive skillset which assists the resolution of disputes and negotiating commercial outcomes in complex circumstances.

Mr Hughes has undertaken postgraduate studies at Columbia University Executive Business School in New York. He has 30 years' experience in the resources sector where he has facilitated, engineered and overseen many projects to significant financial success. Mr Hughes has worked in 15 different jurisdictions and is the global Chair of the Bakertilly Global Natural Resources Group. He has a substantial international network of resource industry focussed investment funds.

Malcolm Day (Managing Director)

Mr Day worked in the civil construction industry for approximately ten years, six of which were spent in senior management roles, as a Licensed Surveyor and then later as a Civil Engineer. In June 1999 Mr Day became managing director of Adultshop.com Ltd (previously known as Western Minerals Ltd) which was listed on the ASX. In November 2011 the Company disposed of the business of adultshop.com (to Mr Day) and the Company was renamed Delecta Ltd.

Between November 2010 and May 2019 Mr Day privately owned 100% of adultshop.com which is one of Australia's largest retailers of adult products and Calvista Australia Pty Ltd's largest customer.

In July 2012, Mr Day was appointed as a non-executive director of European Lithium Limited (previously Paynes Find Gold Limited).

David Wheeler (Non-Executive Director)

Mr Wheeler has more than 30 years of senior executive management, directorships, and corporate advisory experience both in Australia and foreign countries and regions including the USA, UK, Europe and Asia.

DIRECTOR'S REPORT (CONTINUED)

He is a foundation director and partner of Pathways Corporate, a boutique corporate advisory firm that undertakes assignments on behalf of a range of clients including ASX listed companies.

Mr Wheeler is a Fellow of the Australian Institute of Company Directors and has experience on both public and private boards and currently holds a number of directorships and advisory positions in Australian companies.

He is currently a director of listed companies PVW Resources Limited (previously Thred Limited), Avira Resources Limited, POW Limited, Cycliq Limited, Ragnar Minerals Limited, Tyranna Resources Limited, Cradle Resources Limited, Athena Resources Ltd and Health House International Limited.

In the last three years Mr Wheeler has also been a director of Syntonic Ltd, Antilles Oil NL, Ausmex Mining Group Limited, Blaze International Limited, Castillo Copper Limited, Eneabba Gas Limited, and 333D Limited.

COMPANY SECRETARY

Mr John Burness resigned as company secretary on 15 September 2022 and was replaced by Ms Melissa Chapman and Ms Catherine Grant Edwards as joint company secretary.

Melissa Chapman (appointed 15 September 2022)

Ms Chapman holds a Bachelor of Commerce (Accounting & Finance), is a member of CPA Australia, has completed a Graduate Diploma of Corporate Governance with the Governance Institute of Australia, and has completed the company directors course with the Australian Institute of Company Directors.

Ms Chapman has over 20 years of experience in the accounting profession. She has worked in Australia and the United Kingdom for both listed and private companies. Ms Chapman is a director of Bellatrix Corporate Pty Ltd, a company that provides company secretarial and accounting services to several ASX listed companies.

Catherine Grant-Edwards (appointed 15 September 2022)

Ms Grant-Edwards has a Bachelor of Commerce degree from the University of Western Australia, majoring in Accounting and Finance, and is a qualified Accountant with the Chartered Accountants Australia & New Zealand (CAANZ).

Ms Grant-Edwards has 15 years of experience in accounting and finance. Ms Grant-Edwards is a director of Bellatrix Corporate Pty Ltd, a company that provides company secretarial and accounting services to several ASX listed companies.

DIRECTORS' INTERESTS IN SHARES AND OPTIONS

As at the date of this report, the interests of the directors in the post consolidation shares and options of the Company were:

	Ordinary Shares -Indirect	Unlisted Options over ordinary shares
M Day	75,955,907	10,900,000
B Hughes	2,500,000	6,400,000
D Wheeler	-	5,600,000

DIRECTOR'S REPORT (CONTINUED)

CORPORATE INFORMATION

Corporate structure

Moab Minerals Limited is a company limited by shares that is incorporated and domiciled in Australia. Moab Minerals Limited has prepared a consolidated financial report incorporating the entities that it controlled during the financial year (the "Group" or the "Consolidated Entity"). The principal subsidiaries at year end are outlined in the following illustration of the Group's corporate structure:

Calvista Australia Pty Ltd and Calvista New Zealand were disposed of with effect from 9 September 2022.

Employees

The consolidated entity employed 23 employees as at 30 June 2022 (2021: 22 employees).

Nature of operations and principal activities

The principal activities during the year of entities within the consolidated entity were:

- The wholesale distribution of adult products
- Mining exploration and evaluation

GROUP OVERVIEW

Wholesale

In September 2000, the Company entered the adult products wholesale market with the acquisition of Calvista Australia Pty Ltd. Calvista, the largest wholesaler of adult products in Australia, has been in operation for over 30 years and operates with its head office and warehouse in Melbourne.

The acquisition in May 2005 of Video Wholesalers in New Zealand included a wholesale operation which the group continues to operate under the name Calvista New Zealand Limited.

The wholesale division comprised of Calvista Australia Pty Ltd and Calvista New Zealand Limited was disposed of subsequent to the year end.

DIRECTOR'S REPORT (CONTINUED)**Mining Exploration and Evaluation**

In February 2019, the Company completed the acquisition of the Highline Copper Project, comprising 5 patented mining claims in the Goodsprings mining district in Southern Nevada.

In July 2020, the company acquired a 60% interest in Sunrise Minerals Inc., an exploration company holding the REX Uranium-Vanadium Project in Colorado.

In January 2021, the Company's wholly owned subsidiary, Speedway Gold Inc., executed a mining lease and option to purchase agreement to acquire the Speedway Gold Project, located in Tooele County, Utah.

Subsequent to the year end, the Company acquired a 100% interest in Nabberu Minerals Pty Ltd the owner of the Woodlands Base Metal and Gold Project located in the Gascoyne Province of Western Australia and the holder of a beneficial right to an application for exploration licence E08/3319 (the Mount Amy Project) located 107 km southeast of Onslow, Western Australia.

REVIEW OF OPERATIONS AND SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

The consolidated entity recorded a net loss attributable to members of \$459,000 (2021: loss \$139,000) from operations.

The total loss per post-consolidation share for the year was 0.10 cents (2021: loss 0.035 cents).

The total group revenues decreased by 6% to \$15,619,000.

The following segment information is non-IFRS information that has been disclosed to assist users in understanding the Group's operations:

Year ended 30 June 2022

Operating Segment	Sales and services revenues to external customers	Other income	Earnings before interest, tax, depreciation, amortisation and impairment	Depreciation and amortisation	Interest (paid)/received	Profit / (loss) before income tax
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Wholesale	15,619	230	1,512	(248)	(34)	1,230
Exploration & evaluation	-	-	(340)	-	-	(340)
Unallocated	-	-	(1,345)	-	-	(1,345)
Total	15,619	230	(173)	(248)	(34)	(455)
Income tax expense						(13)
Non-controlling interests						9
						(459)

DIRECTOR'S REPORT (CONTINUED)

Year ended 30 June 2021

Operating Segment	Sales and services revenues to external customers \$'000	Other income \$'000	Earnings before interest, tax, depreciation, amortisation and impairment \$'000	Depreciation and amortisation \$'000	Interest (paid)/received \$'000	Profit / (loss) before income tax \$'000
Wholesale	16,543	213	2,251	(246)	(30)	1,975
Exploration & evaluation	-	-	(35)	(1,188)	-	(1,223)
Unallocated	-	-	(968)	-	2	(966)
Total	16,543	213	1,248	(1,434)	(28)	(214)
Income tax expense						(16)
Non-controlling interests						91
						(139)

Wholesale

Wholesale sales revenue for the year decreased by 6% in comparison to the prior year, the previous year having benefited from the Australian Federal Governments economic stimulus packages.

This decrease in sales revenue, combined with a decrease in margins, resulted in a \$745,000 (38%) decrease in the profitability of the segment.

Exploration & Evaluation

Exploration and evaluation activities during the year were mainly centred on the Sunrise Mineral's REX Vanadium-Uranium project in Colorado, USA, with most of the \$317,000 in exploration and evaluation expenditure spent on this project.

This included a program of rock chip sampling, scintillometer traverses and geological assessment, and the acquisition and review of a substantive database of historic drill and mining information with the aim of establishing a drill program.

An additional \$85,000 was also spent on the Speedway Gold Project in Tooele County, Utah, USA. This included airborne magnetic and orthophotographic surveys, the acquisition of an extensive database of historical exploration data, and ongoing rock-chip and soil sampling to establish potential drill targets.

Unallocated Expenditure

Head office / corporate expenditure for the year increased to \$1,345,000 from \$966,000 in the previous financial year, although the current year includes \$561,000 in costs relating to the planned acquisition and disposal, ASX re-compliance and prospectus.

REVIEW OF FINANCIAL CONDITION**Capital Structure**

196,287,500 (pre-consolidation) shares were issued during the year, 176,287,500 of which were on the conversion of options at \$0.008 per share.

Subsequent to the year end, the company underwent a share consolidation on the basis that every 2.5 ordinary shares were consolidated into 1 ordinary share.

DIRECTOR'S REPORT (CONTINUED)

On 9 September 2022, the company issued a further 245,000,000 (post-consolidation) ordinary shares, 40,000,000 as part consideration for the acquisition of Nabberu Minerals Pty Ltd and 200,000,000 as a result of a successful capital raising.

At the date of this report there were 726,963,069 (post-consolidation) ordinary shares on issue.

Cash from Operations

The Group recorded a net operating cash outflow of \$647,000 (2021: inflow \$472,000) for the year.

Liquidity and Funding

The Group has sufficient cash resources and forecast cash flows to fund its current and anticipated level of operations.

Material business risks

Moab Minerals is subject to material business risks, including but not limited to the following:

- Fluctuations in foreign currency
- Fluctuations in commodity prices
- Supply chain resilience

The company actively seeks to mitigate these risks in accordance with the acceptable risk profile as determined by the board.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company will focus on exploration and evaluation activities.

DIVIDENDS

No dividends have been paid or recommended during or since the end of the current financial year (2021: Nil).

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

On 2 August 2022, Delecta Limited's shareholders approved a 1 for 2.5 share consolidation, the acquisition of Nabberu Minerals Pty Ltd, the sale of Calvista Australia Pty Ltd and Calvista New Zealand Limited, and the change in the Company's name to Moab Minerals Limited, subject to the successful completion of a capital raising of between \$3,000,000 and \$4,000,000 and the reinstatement of the Company's securities to official quotation on Australian Stock Exchange.

On 11 August 2022 the company completed the share consolidation.

On 9 September 2022, the company raised \$4,000,000 through the issue of 200,000,000 ordinary shares and completed the acquisition of Nabberu Minerals Pty Ltd and the disposal of Calvista Australia and Calvista New Zealand Limited.

Other than outlined above, no matter or circumstance has arisen since the end of the financial year to the date of this report which has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations or the state of affairs of the consolidated entity in future financial years.

DIRECTOR'S REPORT (CONTINUED)

TAX CONSOLIDATION LEGISLATION

For the purposes of income tax in Australia, Moab Minerals Limited and its 100% owned Australian subsidiaries have formed a tax consolidated group from 1 July 2003. The head entity of the tax consolidated group is Moab Minerals Limited.

CORPORATE GOVERNANCE

In recognising the need for the highest standard of corporate behaviour and accountability, the directors of Moab Minerals Limited support and have endeavoured to adhere to the principles of corporate governance.

The Company's corporate governance statement is available on the Company's website at moabminerals.com.au.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

The Company indemnifies all directors and officers of the Company against liability for costs and expenses incurred in defending proceedings brought against them in their role as a director or officer of the Company to the extent permitted under the law. In the current and prior year insurance policies were taken out to cover these costs.

DIRECTORS' MEETINGS

The following table sets out the number of meetings of the Company's directors during the year ended 30 June 2022 and the number of meetings attended by each director.

	Maximum Possible	Number Attended
Mr B Hughes	11	11
Mr M Day	11	11
Mr H R Moser	4	-
Mr D Wheeler	11	11

Audit and Remuneration Committees

With the board consisting of only four directors, it is considered to be neither beneficial nor practical to maintain separate audit and remuneration committees.

SHARE OPTIONS

Unissued shares

At the date of this report, the following (post-consolidation) options over unissued ordinary shares are in existence:

Number	Exercise Price	Exercise Periods / Expiry Dates
<i>Unlisted Options</i>		
24,010,000	\$0.008	On or before 3 September 2023
4,000,000	\$0.025	On or before 31 December 2023
84,000,000	\$0.03	On or before 9 September 2025

Full details of issued share options in the current period are disclosed in Note 16 of the financial statements.

Shares issued as a result of the exercise of options

176,287,500 (pre-consolidation) shares were issued on the exercise of options during the current year. Between the year end and the date of this report no options were exercised.

DIRECTOR'S REPORT (CONTINUED)

ENVIRONMENTAL REGULATIONS

The consolidated entity's operations are not subject to any significant environmental regulations under Commonwealth or State legislation in Australia.

INDEMNIFICATION OF AUDITORS

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst and Young during or since the financial year.

ROUNDING

The amounts contained in this report and the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Instrument (Rounding in Financial/ Directors' Reports) 2016/191. The Company is an entity to which the Class Order applies.

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

Auditor Independence

Section 307C of the Corporations Act 2001 requires the Company's auditors to provide the Directors of Moab Minerals Limited with an Independence Declaration in relation to the audit of the full year financial report. The Independence Declaration is attached to and forms part of this Directors' Report (see page 18).

Non-Audit Services

No non-audit services were provided by the entity's auditor, Ernst & Young, during the year under review or up until the date of this report.

DIRECTOR'S REPORT (CONTINUED)

REMUNERATION REPORT (AUDITED)

This Remuneration Report outlines the director and executive remuneration arrangements of the Company and the Group in accordance with the requirements of the Corporations Act 2001 and its Regulations. For the purposes of this report Key Management Personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the Parent company.

For the purposes of this report, the term 'executive' encompasses the Chief Executive, senior executives, general managers and secretaries of the Parent and the Group.

Details of Key Management Personnel

(i) *Directors*

B Hughes	Chairman (non-executive)
M R Day	Managing Director
H R Moser	Director (non-executive) (resigned 25 November 2021)
D Wheeler	Director (non-executive)

(ii) *Executives*

R Sheldon-Collins	General Manager- Calvista Australia Pty Ltd
J Burness	Chief Financial Officer and Company Secretary (resigned 15 September 2022) – Moab Minerals Limited
	Financial Controller – Calvista Australia Pty Ltd

Except where stated above, there were no changes in directors or key executives during the financial year or after reporting date and before the date the financial report was authorised for issue.

Remuneration Policy

The performance of the Company and the Group depends upon the quality of its directors and executives. To prosper, the consolidated entity must attract, motivate and retain appropriately skilled directors and executives. To this end, the consolidated entity embodies the following principles in its remuneration framework:

- Provide competitive rewards to attract high calibre directors and executives;
- Establish appropriate performance hurdles against which performance is measured in arriving at executive's remuneration levels;
- Align the interests of executives with those of shareholders; and
- Ensure total remuneration is competitive by market standards.

There is a link between variable remuneration of executives and Group performance. The Group performance over the past 5 years is as follows:

Year ended 30 June:	2022 \$'000	2021 \$'000	2020 \$'000	2019 \$'000	2018 \$'000
Net loss attributable to equity holders of the parent	(459)	(139)	(298)	(735)	(2,468)
Closing share price	\$0.011	\$0.006	\$0.009	\$0.006	\$0.006

DIRECTOR'S REPORT (CONTINUED)

Remuneration Committee

The Board of Directors is responsible for reviewing and recommending compensation arrangements of directors, the managing director and the executive team and no separate remuneration committee has been appointed.

The Board assesses the appropriateness of the nature and amount of emoluments of such officers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality board and executive team.

Non-Executive Director Remuneration

The Company's constitution and the ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed. The latest determination was at the Annual General Meeting held on 28 November 2006 when shareholders approved an aggregate remuneration of \$300,000 per annum.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed from time to time. The board considers the time commitment and expertise of the individual directors and fees paid to non-executive directors of comparable companies when undertaking the review process.

Non-executive directors are not required to hold shares in the Company, nor are they encouraged or precluded from doing so. Non-executive directors may also be issued options from time to time as approved by shareholders in general meeting.

Executive Remuneration

It is the Board's policy that employment contracts are entered into with the Managing Director and key executives. Employment contracts have no set termination dates and require six months' notice in the case of the Managing Director and three months for the other executives. The employment contracts allow for payments in lieu of notice equal to the entitlements that the executive would have been entitled to had they remained employed for the notice period.

Remuneration of executives consists of fixed remuneration and variable remuneration.

Variable Remuneration – Short Term Incentives

Short term incentives (STI) paid in the form of cash bonuses link the achievement of the consolidated entity's operational targets with the remuneration received by executives, other than the executive director, charged with meeting these targets. The potential incentive available is set at a level so as to provide sufficient incentive to the executive to achieve and then exceed operational targets and such that the cost to the Group is reasonable in the circumstances. These measures are chosen as they represent the key drivers for short term success of the business and provide a framework for delivering long term value.

Actual incentive payments granted to executives depends on the extent to which specific operating targets set at the beginning of the year are met. Short term incentives are paid at the discretion of the Board based on individual and Group performance.

No operational targets were set for KMP's for the current year and no performance bonuses were paid or accrued during the year.

DIRECTOR'S REPORT (CONTINUED)

Variable Remuneration – Long Term Incentives

Options may be issued to Directors and Key Management Personal from time to time following approval of shareholders in general meeting with the objective being to align this element of remuneration with the creation of shareholder wealth. There are no performance requirements attached to these options once issued as the exercise price of the options are set at a level in excess of the market value at date of issue.

Remuneration of Key Management Personnel

The remuneration report details the remuneration arrangements for those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the Parent.

Auditor's independence declaration to the directors of Delecta Limited

As lead auditor for the audit of the financial report of Delecta Limited for the financial year ended 30 June 2022, I declare to the best of my knowledge and belief, there have been:

- a. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;
- b. No contraventions of any applicable code of professional conduct in relation to the audit; and
- c. No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Delecta Limited and the entities it controlled during the financial year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

1. CORPORATE INFORMATION

The financial report of Moab Minerals Limited (“the Company” or “the Group”) for the year ended 30 June 2022 was authorised for issue in accordance with a resolution of the directors on 27 September 2022. Moab Minerals Limited is a company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian and German securities exchanges.

The nature of the operations and principal activities of the Group are described at page 7.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards. The financial report has also been prepared on a historical cost basis with the exception of assets at fair value through other comprehensive income set out in the policy below that are measured at fair value. Except as disclosed below, the financial report has been prepared using the same accounting policies as used in the previous year. For the purpose of preparing the financial report the company is a for profit entity.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated under the option available to the Company under ASIC (Rounding in Financial/Directors’ Reports) Instrument 2016/191.

(b) Statement of compliance

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

(c) Adoption of new Accounting standards

Since 1 July 2021, the Group has adopted all the Standards and Interpretations mandatory for annual reporting periods beginning on or after 1 July 2021.

Adoption of these Standards and Interpretations were considered and incorporated into the Group’s policies but they did not have a material effect on the financial position or performance of the Group.

The Group has not elected to early adopt any new standards or interpretations that are not mandatorily effective.

Applicable Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by Moab Minerals Limited for the annual reporting period ending 30 June 2022.

The standards that are effective from 1 July 2022 for the Consolidated Entity are not expected to materially impact the Consolidated Entity.

The consolidated financial statements comprise the financial statements of Moab Minerals Limited and its subsidiaries as at 30 June each year (the “Group”).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(d) Basis of consolidation

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption, and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

(e) Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred in a business combination shall be measured at fair value, which shall be calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, the liabilities incurred by the Group to former owners of the acquiree and the equity issued by the Group, and the amount of any non-controlling interest in the acquiree. For each business combination, the Group measures the non-controlling interest in the acquiree either at fair value or at the appropriate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in the host contracts by the acquiree.

(f) Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of directors.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(f) Operating segments (continued)

Operating segments have been identified based on the information provided to the chief operating decision makers being the executive management team.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements.

(g) Foreign currency translation

Both the functional and presentation currency of Moab Minerals Limited and its Australian subsidiaries is Australian dollars (\$). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date.

All exchange differences arising from the above stated procedures are taken to profit or loss.

The functional currency of the foreign operation, Calvista New Zealand Ltd (New Zealand), is New Zealand Dollars (NZD\$).

As at the reporting date the assets and liabilities of the subsidiary are translated into the presentation currency of Moab Minerals Limited at the rate of exchange ruling at the reporting date and the profit and loss is translated at the average exchange rate for the year.

The exchange differences arising on the translation are taken directly to a separate component of equity.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in profit or loss.

(h) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with a maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

(i) Trade and other receivables

Trade receivables

Trade receivables generally have terms of up to 30 days. They are recognised initially in accordance with the Group's revenue policy and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment. Customers who wish to trade on credit terms are subject to credit verification procedures. Receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is limited to debts outstanding greater than three months.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(i) Trade and other receivables (continued)

Other receivables

These amounts generally arise from transactions outside the usual operating activities of the Group. They do not contain impaired assets and are not past due. Based on the credit history, it is expected that these other balances will be received when due.

Impairment of trade receivables and other debtors

Collectability and impairment of trade receivables and other receivables are assessed on an ongoing basis. The Group applies a simplified approach in calculating forward-looking expected credit losses (ECLs). Therefore, the Group does not track changes in credit risk but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to customers and the economic climate.

(j) Inventories

Inventories are valued at the lower of cost and net realisable value.

Inventory consists of finished goods and includes the direct cost of each product and the costs incurred in bringing the product to its present location and condition, calculated as follows:

- purchase cost on a weighted average basis, after deducting any settlement discount and including logistics expenses incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

(k) Investments and other financial assets

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under AASB 15. Refer to the accounting policies in section (r) Revenue recognition.

In order for a financial asset (debt instrument) to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(k) Investments and other financial assets (continued)

(i) Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss include derivative and other financial assets determined as held for trading where they are acquired for the purpose of selling in the near term. Financial assets at fair value through profit and loss are recorded in the Statement of Financial Position at Fair values with changes in fair value recognised in profit or loss.

Other financial assets consist of investments in debt and equity securities and short-term investments with a maturity date of over 90 days and are classified as either “fair value through other comprehensive income” or “fair value through profit and loss”. Financial assets held at fair value through profit and loss are initially recognised at fair value and transaction costs are expensed.

For equity investments at “fair value through other comprehensive income”, gains or losses arising from changes in fair value are recognised in other comprehensive income, until the security is disposed of, at which time the cumulative gain or loss previously recognised in other comprehensive income is included directly in retained earnings and is not recycled to the income statement.

Impairments in debt securities are recognised based on management’s expectation of losses in each investment (“expected credit loss” model).

All equity investments must be measured at fair value under AASB 9.

(l) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets as follows:

Plant and equipment – 4 to 10 years

Leasehold improvements – over the lease term

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate at each financial year end.

(i) Impairment

The carrying values of plant and equipment are reviewed for impairment at each reporting date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(l) Property, plant and equipment (continued)

For plant and equipment, impairment losses are recognised in the profit and loss.

(ii) Derecognition and disposal

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

(m) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) *Right-of-use assets*

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

(ii) *Lease liabilities*

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 30 JUNE 2022****(m) Leases (continued)***(iii) Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(n) Trade and other payables

Trade payables and other payables are initially recognised at fair value and subsequently carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid. They arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

(o) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as a borrowing cost.

(p) Employee leave benefits*(i) Wages, salaries, sick leave and other short term benefits*

Liabilities for wages and salaries, including non-monetary benefits, accumulating sick leave and other short term benefits due to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date.

Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(q) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(r) Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

(i) Sale of goods

The Group generates a significant proportion of its revenue from the sale of the finished goods being merchandise direct to customers. Control of goods typically passes at the point of sale. The Group's contracts with customers for the sale of goods generally include one performance obligation. Revenue for the sale of goods is recognised at the point in time when control of the asset is transferred to the customer, typically at either the point of sale or at the time of delivery of the goods to the customer in the case of credit sales. Cash payment is generally received in arrears, however, any cash received in advance of the completion of the performance obligation is recognised on the balance sheet as a contract liability.

A right of return is not a separate performance obligation and the Group recognises revenue net of estimated returns. A refund liability and a corresponding asset in inventory representing the right to recover the returned products from the customer is also recognised.

(ii) Interest income

Revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

(s) Income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes:

Deferred income tax liabilities are recognized for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(s) Income tax (continued)

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax balances in the tax consolidated group are allocated using the group allocation method.

(t) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(u) Earnings per share

Basic earnings per share is calculated as net result attributable to members of the Parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net result attributable to members of the Parent, adjusted for:

- costs of servicing equity (other than dividends);
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(v) Exploration and evaluation expenditure

The consolidated entity has a policy of writing off all exploration expenditure in the financial year in which it is incurred, unless its recoupment out of revenue to be derived from the successful development of the prospect, or from sale of that prospect, is assured beyond reasonable doubt.

Expenditure on acquisition, exploration and evaluation relating to an area of interest is carried forward at cost where rights to tenure of the area of interest are current and;

- i) it is expected that expenditure will be recouped through successful development and exploitation of the area of interest or alternatively by its sale and/or;
- ii) exploration and evaluation activities are continuing in an area of interest but at reporting date have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. Where uncertainty exists as to the future viability of certain areas, the value of the area of interest is written off to the profit and loss or provided against.

Impairment

The carrying value of capitalised exploration and evaluation expenditure is assessed for impairment regularly and if after expenditure is capitalised, information becomes available suggesting that the recovery of expenditure is unlikely or that the Consolidated Entity no longer holds tenure, the relevant capitalised amount is written off to the profit or loss in the period when the new information becomes available.

(w) Share-based payment transactions

The Group provides benefits to its employees, whereby, at the discretion of the Board, employees are from time to time issued with share purchase options as part of their total remuneration package and/or render services in exchange for rights over shares.

**NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 30 JUNE 2022****(w) Share-based payment transactions (continued)**

The cost of these share-based payments is measured by reference to the fair value of the equity instruments at the date at which they are granted using a Black-Scholes pricing model. The equity instruments are generally subject to performance and/or service vesting conditions and their fair value is recognised as an expense, together with a corresponding increase in other reserve equity over the vesting period, ending on the date on which the relevant employees become fully entitled to the award (the vesting date). No expense is recognised for equity instruments that do not ultimately vest because of non-market performance or service conditions have not been met. Any market vesting conditions are considered as part of the fair value.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(x) Significant accounting estimates and judgements

In applying the Group's accounting policies management continually evaluates judgments, estimates and assumptions based on experience, including expectations of future events that may have an impact on the Group. All judgments, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgments, estimates and assumptions.

Significant judgments, estimates and assumptions made by management in the preparation of these financial statements are outlined below:

Provision for expected credit losses of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Note 8.

Provision for inventory obsolescence

The Group's judgement is applied in determining the inventory provision for shrinkage, obsolescence and mark-down. Estimates of shrinkage trends based on historical observations have been applied against inventory held at year end and where the estimated selling price of inventory is lower than the cost to sell, the difference is recognised in the provision.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

(x) Significant accounting estimates and judgements (continued)

Exploration and Evaluation Assets

The Group's accounting policy for exploration and evaluation assets is set out in Note 1(v). The application of this policy requires management to make certain judgements and estimates as to future events and circumstances the assessment of whether economic quantities of reserves have been found and the point at which exploration and evaluation assets should be transferred to mine development properties. The determination of an area of interest also requires judgement.

Make good provisions

Provision is made for the anticipated costs of future restoration of leased premises. The provision includes future cost estimates associated with returning the premises to their original condition, fair wear and tear excepted. These future cost estimates are discounted to their present value. The calculation of this provision requires assumptions such as cost estimates and vacation dates. The related carrying amounts are disclosed in note 15.

3. OPERATING SEGMENTS

Identification of Reportable Segments

The Group has identified its operating segments based on its internal reports used by the executive team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the manner in which the product is sold and the nature of the services provided. Discrete financial information about each of these operating businesses is reported to the executive management team on a monthly basis.

Types of Products and Services

Wholesale

The wholesale segment divisions are those divisions that sell adult products directly to wholesale customers in Australia and New Zealand.

Exploration and evaluation

The exploration and evaluation segment peruse mining exploration activities in areas where the Company hold the right to tenure.

Accounting Policies and Inter-segment Transactions

The accounting policies used by the Group in reporting segments are the same as those contained in note 2 to the financial statements and in prior periods except as detailed below:

Corporate Charges

Non-segmental expenses, such as head office expenses and expenses that are not directly attributable to a segment and not considered part of the core operations of any segment, are not allocated to operating segments by way of corporate charges.

These non-segment charges include:

- Head office expenses (group secretarial, insurances, audit fees, listing fees etc)
- Head office staff and directors salaries
- Group legal fees

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

3. OPERATING SEGMENTS (continued)

Operating segments

The following tables present revenue and profit and loss information, and certain asset and liability information regarding operating segments for the years ended 30 June 2022 and 30 June 2021:

Year ended 30 June 2022	Wholesale \$'000	Exploration & Evaluation \$'000	Total \$'000

The major components of income tax expense are:		
Current income tax expense / (benefit)	16	19
Deferred tax (credit) / expense arising from origination and reversal of temporary differences	(3)	(3)
Tax loss utilised	-	-
Deferred tax assets not brought to account	-	-
Amount of benefit arising from previously unrecognised temporary difference	-	-
Current year movement in deferred tax	-	-
	13	16

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

5. INCOME TAX (continued)

A reconciliation between tax expense and the product of accounting profit before income tax multiplied by the Group's applicable income tax rate is as follows:

Accounting loss before tax from continuing operations	(455)	(214)
Total accounting loss before tax	<u>(455)</u>	<u>(214)</u>
At the Group's statutory income tax rate of 25% (2021: 26%)	(114)	(56)
Other non-deductible items	151	343
Amount of benefit arising from previously unrecognised temporary difference	-	-
Tax losses utilised	(27)	(271)
Current year movement in deferred tax	3	-
Net deferred tax assets not booked	-	-
	<u>13</u>	<u>16</u>

The Group has tax losses arising in Australia of \$16,406,000 (2021: \$16,606,000) that are available for offset against future taxable profits.

Potential deferred tax assets attributable to tax losses carried forward in Australia have not been brought to account at 30 June 2022 because directors do not believe it is appropriate to regard realisation of the deferred tax assets as probable. These benefits will only be obtained if:

- (i) the consolidated entity derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deduction for the loss to be realised;
- (ii) the consolidated entity continues to comply with the conditions for the deductibility imposed by law; and
- (iii) no changes in tax legislation adversely affect the consolidated entity in realising the benefit from the deduction for the loss.

	Statement of Financial Position		Statement of Comprehensive Income	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
(b) Deferred Income tax				
Deferred income tax at 30 June relates to:				
Deferred tax assets				
Employee entitlements	82	75	7	12

Deferred tax income expense			<u>3</u>	<u>3</u>

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

5. INCOME TAX (continued)

Tax Consolidation Legislation

Moab Minerals Limited and its 100% owned Australian resident subsidiaries have formed a tax consolidated group with effect from 1 July 2003. Moab Minerals Limited is the head entity of the tax consolidated group. Members of the Group have entered into a tax sharing arrangement in order to allocate income tax expense to the wholly owned subsidiaries on a pro-rata basis based on the taxable income of each entity. The agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations.

Members of the tax consolidation group have entered into a tax funding arrangement. Tax balances are allocated to members of the tax consolidation group using the group allocation method. No amounts have been recognised during the period (2021: nil) as tax consolidation contributions by, or distributions to, equity participants.

6. LOSS PER SHARE

Basic loss per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the Parent by the weighted average number of ordinary shares outstanding during the year.

Diluted loss per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the Parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Potential ordinary shares are antidilutive when their conversion to ordinary shares would increase earnings per share or decrease loss per share from continuing operations. The calculation of diluted earnings per share does not assume conversion, exercise, or other issue of potential ordinary shares that would have an antidilutive effect on earnings per share.

	2022	2021
	\$'000	\$'000
Net loss attributable to ordinary equity holders of the Parent from continuing operations	(459)	(139)
Net loss attributable to ordinary equity holders of the Parent	(459)	(139)
	2022	2021
	Number of	Number of
	shares	shares
Weighted average number of basic and diluted ordinary shares for basic loss per share ⁽¹⁾	463,330,701	387,137,523

The options to acquire ordinary shares in the company on issue at the end of the prior year have not been taken into account in calculating diluted earnings per share as they are considered to be either not dilutive or antidilutive.

⁽¹⁾ The weighted average number of ordinary shares outstanding used in calculating basic and diluted earnings per share for the current period and the prior period have been adjusted for the 2.5 to 1 share consolidation on the 2nd of August 2022.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

7. CASH AND CASH EQUIVALENTS

	2022 \$'000	2021 \$'000
Cash at bank and in hand	2,084	1,293
Deposits on call	181	552
	<u>2,265</u>	<u>1,845</u>

Cash at bank earns interest at floating rates based on daily bank deposit rates.

Deposits on call are made for varying periods depending on the immediate cash requirements of the Group, are available as and when required, and earn interest at the respective short-term deposit rates.

Reconciliation of net loss after tax to net cash flows used in operations	2022 \$'000	2021 \$'000
Net loss	(468)	(139)
<i>Adjustments for:</i>		
Depreciation and amortisation	86	84
Right of use asset depreciation	163	163
Foreign exchange conversion loss	8	1
Impairment of trade debtors	(2)	10
Share capital / option expense	240	136
Movement in provisions	190	87
Write off of exploration & evaluation asset	-	1,126
<i>Changes in assets and liabilities</i>		
Increase in inventories	(967)	(1,142)
(Increase) / decrease in trade and other receivables	(40)	489
Increase in prepayments	(164)	(141)
Increase / (decrease) in trade and other payables	307	(202)
	<u>(647)</u>	<u>472</u>

8. TRADE AND OTHER RECEIVABLES

	2022 \$'000	2021 \$'000
Current		
Trade receivables (i) (ii)	2,061	2,092
Allowance for credit losses	(274)	(277)
	<u>1,787</u>	<u>1,815</u>
Other debtors (ii) (iii)	83	12
	<u>1,870</u>	<u>1,827</u>

(i) Receivables are non-interest bearing and are generally on 30-60 day terms. The Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

(ii) Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value. The maximum exposure to credit risk is the carrying value of receivables. Collateral is not held as security, nor is it the Group's policy to transfer (on-sell) receivables to special purpose entities.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

8. TRADE AND OTHER RECEIVABLES (continued)

(iii) For terms and conditions relating to related party receivables refer to note 19.

Details regarding the effective interest rate and credit risk of current receivables are disclosed in note 17.

Set out below is information on the credit risk exposure of the Group's trade receivables using a provision matrix:

Days past due	Estimated total gross carrying amount at default \$m	Expected credit loss rate	Lifetime expected credit loss \$m
Current	1,323	8.3%	(111)
Under one month	580	16.4%	(95)
One to two months	145	37.9%	(55)
Three months and over	13	98.0%	(13)
Total	2,061		(274)

Movement in the allowance account for credit losses

	2022 \$'000	2021 \$'000
Opening balance 1 July	277	266
(Decrease) / increase in provision	(3)	10
Closing balance 30 June	274	277

9. INVENTORIES

	2022 \$'000	2021 \$'000
Finished goods	4,079	3,202

Inventory write-downs recognised as an expense totalled \$114,000 (2021: \$70,000) for the Group. This expense is included in the cost of sales.

10. FINANCIAL ASSETS

	2022 \$'000	2021 \$'000
Listed		
11,000,000 ordinary shares in European Lithium Limited		
Fair value at beginning of the year	572	539
Fair value income for the period	22	33
	594	572

At 30 June 2022 the asset was re-valued to market value with the movement being recorded in other comprehensive income. These investments were irrevocably designated at fair value through OCI as the Group considers these investments to be strategic in nature. This is a level 1 measurement basis on the fair value hierarchy.

Written off during the period	-	(1,188)
Carrying amount at end of year	<u>433</u>	<u>336</u>

The recoverability of the carrying amount of the exploration and evaluation asset is dependent on the successful development and commercial exploitation, or alternatively the sale of the respective area of interest.

14. TRADE AND OTHER PAYABLES

	2022 \$'000	2021 \$'000
Current		
Trade payables (i)	603	393
Goods and services tax	100	81
Other creditors and accruals	394	321
	<u>1,097</u>	<u>795</u>

(i) Trade payables are non-interest bearing and are normally settled on 30-day terms.

The carrying values of trade and other payables approximate their fair values.

15. PROVISIONS

	Employee entitlements \$'000	Make good provisions \$'000	Total \$'000
Current 2022	275	-	275
Non-current 2022	104	50	154
	<u>379</u>	<u>50</u>	<u>429</u>
Current 2021	223	-	223
Non-current 2021	67	50	117
	<u>290</u>	<u>50</u>	<u>340</u>

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

15. PROVISIONS (continued)

Movements in each class of provision during the financial year, other than provisions relating to employee benefits, are set out below:

Make good provisions	2022	2021
	\$'000	\$'000
At 1 July	50	56
Utilised	-	(6)
At 30 June	50	50

Nature and timing of provisions

Make good provision

In accordance with the various lease agreements for office and warehouse premises, the Group must restore the leased premises to their original condition on vacating such premises. Provision for make good is made at the commencement of the lease based on the estimated current cost of the make good, and is reviewed biannually and adjusted where necessary.

Because of the long term nature of the liability, the greatest uncertainty in estimating the provision is in estimating the costs that will ultimately be incurred.

16. CONTRIBUTED EQUITY AND RESERVES

(a) Ordinary shares	2022	2021
	\$'000	\$'000
Ordinary shares - issued and fully paid	72,816	71,229
	Number	\$'000
At 1 July 2020	795,996,205	70,497
Movements during the year	212,625,000	732
At 30 June 2021	1,008,621,205	71,229
Movements during the year	196,287,500	1,587
At 30 June 2022	1,204,908,705	72,816

Fully paid ordinary shares carry one vote per share and carry the right to dividends. During the period, 196,287,500 ordinary shares were issued (176,287,500 of which were on the conversion of options at \$0.008/share, and 20,000,00 of which were issued as compensation to consultants at \$0.012/share in October 2021). Subsequent to year end, the company underwent a share consolidation on the basis that every 2.5 ordinary shares were consolidated into 1 ordinary share.

(b) Options

<i>Movement in options on issue</i>	2022	2021
	Number	Number
At 1 July	246,312,500	
Unlisted options exercised during the year (i)	(176,287,500)	
Unlisted options issued during the year – September 2020 (i)	-	236,312,500
- January 2021 (ii)	-	10,000,000
At 30 June	70,025,000	246,312,500

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

16. CONTRIBUTED EQUITY AND RESERVES (continued)

- (i) Unlisted options exercisable at \$0.008 at any time from date of issue and expire on 3 September 2023.
(ii) Unlisted options exercisable at \$0.01 at any time from date of issue and expire on 31 December 2023.

(c) Accumulated losses	2022	2021
	\$'000	\$'000
Movements in accumulated losses were as follows:		
Balance 1 July	(63,805)	(63,666)
Net loss for the year	(459)	(139)
Balance 30 June	(64,264)	(63,805)

(d) Reserves	Option premium reserve \$'000	Foreign currency translation \$'000	Fair value gains/ (losses) \$'000	Share based payments \$'000	Total \$'000
At 30 June 2020	115	(237)	55	210	143
Currency translation differences for continuing operations	-	1	-	-	1
Fair value gains and losses	-	-	33	-	33
Issue of options	272	-	-	-	272
At 30 June 2021	387	(236)	88	210	449
Currency translation differences for continuing operations	-	9	-	-	9
Fair value gains and losses	-	-	22	-	22
At 30 June 2022	387	(227)	110	210	480

Option premium reserve

The option premium reserve is used to accumulate proceeds received from the issue of options.

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

Share based payments reserve

The share based payments reserve was used to record the value of share based payments provided to employees, including key management personnel, as part of their remuneration.

Fair value gains and losses

The fair value gains and losses reserve is used to record movements in the market value of financial assets carried at fair value.

e) Capital management

Capital managed by the board includes shareholder equity, which is \$9,032,000 at 30 June 2022 (2021: \$7,882,000). The board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future operations of the business. There were no external borrowings (2021: nil) at balance date. There were no changes in the Group's approach to capital management during the year. Neither the company nor any of its subsidiaries are subject to externally imposed capital requirements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

17. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise receivables, payables, financial assets held at fair value through other comprehensive income, cash and short-term deposits.

The Group manages its exposure to key financial risks, including interest rate, credit and currency risk in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Group uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessments of market forecasts for interest rate and foreign exchange. Ageing analysis and monitoring of specific credit allowances are undertaken to manage credit risk, while liquidity risk is monitored through the development of future rolling cash flow forecasts.

Primary responsibility for identification and control of financial risks rests with the Managing Director and Chief Financial Officer under the authority of the Board.

Risk Exposures and Responses

Interest rate risk

The Group's exposure to market interest rates relates primarily to the Group's cash and cash deposits.

At balance date, the Group had the following financial assets exposed to Australian variable interest rate risks:

	2022 \$'000	2021 \$'000
<i>Financial assets</i>		
Cash	2,265	1,845
Security deposits	188	188

At balance date, the Group did not have any financial liabilities materially exposed to Australian variable interest rate risks.

At 30 June 2022/2021, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax results and equity would have been affected as follows:

Judgements of reasonable possible movements:	Post Tax Profit /Equity Higher / (Lower)	
	2022 \$'000	2021 \$'000
+1% (100 basis points)	23	18
-0.5% (50 basis points)	(12)	(9)

The movements in results are due to higher interest income from variable rate cash and deposit balances. The sensitivity is higher in 2022 than in 2021 because of an increase in cash balances.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

17. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Risk Exposures and Responses (continued)

Foreign currency risk

As a result of cash held in United States Dollar and New Zealand Dollar bank accounts, and the purchases of inventory (some of which is paid for in advance) denominated in United States Dollars, Euros and British Pounds, the Group's balance sheet can be affected by movements in the United States Dollar, the New Zealand Dollar, the Euro and the British Pound to Australian Dollar exchange rates.

It is the Group's policy not to enter into forward currency contracts to eliminate the currency exposures on any individual transactions, as the majority of imported product is either pre-paid or paid for on delivery, and no product is pre-sold prior to receipt, so the majority of the price fluctuations can be passed on to the Group's customers.

At 30 June 2022, the Group had the following exposure to foreign currencies:

	USD	GBP	2022 \$'000 Total	USD	GBP	2021 \$'000 Total
<i>Financial Assets</i>						
Cash and cash equivalents	1	-	1	2	-	2
	1	-	1	2	-	2
<i>Financial Liabilities</i>						
Trade and other payables	(193)	-	(193)	(195)	(2)	(197)
Net exposure	(192)	-	(192)	(193)	(2)	(195)

The following sensitivity is based on the foreign currency risk exposures in existence at the balance sheet date:

At 30 June 2022, had the Australian Dollar moved, as illustrated in the table below, with all other variables held constant, post tax profit and equity would have been affected as follows:

Judgements of reasonable possible movements:	Post Tax Profit Higher / (Lower)		Equity Higher / (Lower)	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
AUD/USD +10%	19	19	19	19
AUD/USD -10%	(19)	(19)	(19)	(19)

The movements in results in 2022 are as sensitive as in 2021 due to the same level of foreign currency exposure at the current year balance date.

Management believes the balance date risk exposures are representative of the risk exposure inherent in the financial instruments.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

17. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Risk Exposures and Responses (continued)

Credit risk

The Group does not hold any credit derivatives to offset its credit exposure.

The Group only extends credit to creditworthy third parties, and as such collateral is not requested nor is it the Group's policy to securitise its trade and other receivables.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Risk limits are set for each individual customer in accordance with set parameters. These risk limits are regularly monitored.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

There are no significant concentrations of credit risk within the Group except for cash which is only deposited with one of the major financial institutions in Australia, New Zealand and the United States.

Liquidity risk

The Group's objective is to maintain sufficient cash resources to fund its ongoing operations and capital expenditure, although from time to time use is made of hire purchase loans for the acquisition of fixed assets.

The table below reflects the undiscounted cash flows for the respective upcoming fiscal years for all contractually fixed pay-offs and repayments and interest resulting from recognised financial liabilities. Cash flows for financial assets and liabilities without fixed amount or timing are based on the conditions existing at 30 June 2022.

The remaining contractual maturities of the Group's financial liabilities are:

	Lease Liabilities \$'000	Trade & Other Payables \$'000	Total \$'000
30 June 2022			
6 months or less	86	1,126	1,212
6 – 12 months	88	-	88
1 -5 years	369	-	369
	543	1,126	1,669
	Lease Liabilities \$'000	Trade & Other Payables \$'000	Total \$'000
30 June 2021			
6 months or less	77	807	884
6 – 12 months	79	-	79
1 -5 years	549	-	549
	705	807	1,512

Equity price risk and fair value

The Group's listed equity securities are susceptible to market price risk. The methods for estimating fair value are outlined in the relevant notes to the financial statements. At the reporting date, the exposure to the listed equity securities at fair value was \$594,000 (2021: \$572,000). A decrease of 10% of the value would have an impact of approximately \$59,000 (2021: \$57,000) before tax on other comprehensive income attributable to the Group.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

18. COMMITMENTS AND CONTINGENCIES

Capital commitments

At the reporting date the Group had no capital commitments contracted for but not recognised as liabilities (2021: nil).

Contingent liabilities and contingent assets

No known contingent liabilities or contingent assets which have not been provided for exist at year end nor have any arisen between the year end and the date of this report (2021: nil).

Guarantees

Calvista Australia Pty Ltd has issued a number of guarantees totalling \$100,620 for various operational and legal purposes. It is not expected that these will be called upon.

Cross guarantees given by Moab Minerals Limited, Today's Success Pty Ltd, Calvista Australia Pty Ltd and Stell Bay Pty Ltd are described in note 19.

19. RELATED PARTY DISCLOSURE

The consolidated financial statements include the financial statements of Moab Minerals Limited and the subsidiaries listed in the following table:

Name	Country of incorporation	% Equity interest	
		2022	2021
Calvista Australia Pty Ltd	Australia	100	100
Calvista New Zealand Limited	New Zealand	100	100
Canadian River Inc. (1)	United States	100	100

Speedway Gold Inc.	United States	100	100

Moab Minerals (formally Delecta Limited) is the ultimate Australian Parent entity and ultimate Parent of the Group.

(1) Dormant companies

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

19. RELATED PARTY DISCLOSURE (Continued)

Entities subject to class order

Pursuant to ASIC instrument 2016/785, relief has been granted to Today's Success Pty Ltd, Calvista Australia Pty Ltd, Stell Bay Pty Ltd and Silver Queen Mining Pty Ltd from the Corporations Act 2001 requirements for preparation, audit and lodgement of their financial reports.

As a condition of the ASIC instrument, Moab Minerals Limited, Today's Success Pty Ltd, Calvista Australia Pty Ltd and Stell Bay Pty Ltd (the "Closed Group") entered into a Deed of Cross Guarantee on 27 March 2002. The effect of the deed is that Moab Minerals Limited has guaranteed to pay any deficiency in the event of winding up of either controlled entity or if they do not meet their obligations under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee. The controlled entities have also given a similar guarantee in the event that Moab Minerals Limited is wound up or if it does not meet its obligation under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee.

The consolidated statement of comprehensive income and statement of financial position of the entities that are members of the "Closed Group" are as follows:

21. EVENTS AFTER THE REPORTING PERIOD

On 2 August 2022, Delecta Limited's shareholders approved a 1 for 2.5 share consolidation, the acquisition of Naberu Minerals Pty Ltd, the sale of Calvista Australia Pty Ltd and Calvista New Zealand Limited, and the change in the Company's name to Moab Minerals Limited, subject to the successful completion of a capital raising of between \$3,000,000 and \$4,000,000 and the reinstatement of the Company's securities to official quotation on Australian Stock Exchange.

On 11 August 2022 the company completed the share consolidation.

On 9 September 2022, the company raised \$4,000,000 through the issue of 200,000,000 ordinary shares and completed the acquisition of Naberu Minerals Pty Ltd and the disposal of Calvista Australia and Calvista New Zealand Limited.

Other than outlined above, no matter or circumstance has arisen since the end of the financial year to the date of this report which has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations or the state of affairs of the consolidated entity in future financial years.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Moab Minerals Limited, I state that:

In the opinion of the directors:

- (a) the financial statements and notes of the consolidated entity are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2022 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and Corporations Regulations 2001.
- (b) the financial statements and notes also comply with the International Financial Reporting Standards as disclosed in note 2(b).
- (c) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.
- (d) This declaration has been made after receiving the declarations required to be made to the directors in accordance with sections 295A of the Corporations Act 2001 for the financial period ending 30 June 2022.
- (e) In the opinion of the directors, as at the date of this declaration, there are reasonable grounds to believe that the members of the Closed Group identified in note 18 will be able to meet any obligations or liabilities to which they are or may become subject, by virtue of the Deed of Cross Guarantee

Independent auditor's report to the members of Moab Minerals Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Moab Minerals Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 30 June 2022 and of its consolidated financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

Building a better working world

Inventory valuation

Why significant	How our audit addressed the key audit matter
<p>As at 30 June 2022, the Group held \$4.1 million in inventories.</p> <p>As detailed in Note 2(j) of the financial report, inventories are carried at the lower of cost and net realisable value.</p> <p>Inventories are a significant component of total assets and the future selling price of inventories requires judgment. Assessments of forecast sales, expected future market trends as well as consideration of historical sales performance factor into the determination of the provision for obsolescence and when recognising a provision for inventories carried at the lower of cost and net realisable value.</p> <p>Due to the level of judgement involved in assessing inventory provisions, this was considered a key audit matter.</p>	<p>We evaluated the Group's assumptions in determining the inventory provision by analysing the level of provisions on an aggregate, category and individual product basis. Our procedures included the following:</p> <ul style="list-style-type: none"> ▶ Assessed the policy and basis for the provision for obsolescence and any provision for inventories where the net realisable value was lower than cost ▶ Assessed the provision after considering historic sales trends and historic provisioning assumptions ▶ Through observation, we sought out any indicators of damaged or obsolete stock ▶ Considered whether there were any other indicators of obsolescence at an individual stock item or stock category level ▶ Assessed whether inventory was measured in accordance with Australian Accounting Standards, at the lower of cost or net realisable value ▶ Assessed the adequacy of the disclosure included in the financial report.

Recoverability of trade receivables

Why significant	How our audit addressed the key audit matter
<p>As disclosed in Note 8 of the financial report, the Group held trade receivables amounting to \$1.8 million as at 30 June 2022.</p> <p>As detailed in Note 2(i) of the financial report, collectability and impairment of trade receivables are assessed by the Group on an ongoing basis. The Group applies a simplified approach in calculating forward-looking expected credit losses being a loss allowance based on lifetime expected credit losses at each reporting date.</p> <p>The recoverability of trade receivables was considered a key audit matter given the size of the balance relative to the Group's total assets and the degree of judgement required in assessing the recoverability of trade receivables.</p>	<p>Our audit procedures included an assessment of the Group's evaluation of the recoverability of trade receivables, including consideration of contractual agreements, past collection history, the credit-worthiness of counterparties, payments received subsequent to year end and future expected credit losses.</p> <p>We considered the adequacy of the financial report disclosure relating to trade receivables, including those relating to past due but not impaired receivables at 30 June 2022.</p>

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2022 annual report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

For personal use only

**Building a better
working world**

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

For personal use only

**Building a better
working world**

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Moab Minerals Limited for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
