CHAIRMAN'S LETTER

Dear Fellow Shareholder,

We are pleased to present the 2022 Annual Report for Black Cat Syndicate Limited ("Black Cat" or "the Company").

The past year has been significant for Black Cat:

- At Kal East we grew Resources by 9% to 1,294koz @ 2.1g/t Au.
- We committed to prepare Kal East for development and did so. This culminated in a Pre-Feasibility Study and initial Ore Reserve. Despite the favorable outcomes of the Pre-Feasibility Study, a decision was made to defer the planned development and build of Kal East. This decision was not taken lightly, however the constraints on labour supply, engineering and construction materials around Kalgoorlie caused the Company to wait for improved conditions. That said, we are continuing to progress a number of discussions regarding the Myhree/Boundary open pits.
- We also acquired two high-grade gold operations being Coyote and Paulsens. Both operations have camps and processing facilities and are on care and maintenance. In addition, the potential to substantially increase Resources is considered high while the capital required to bring the existing infrastructure back into operation is relatively low.
- We have identified significant, multi-metal, potential regionally at both operations with previous owners primarily focused on near mine gold.
- We have gathered and integrated all the geological data for both operations. This is a time consuming, low cost and high value-add exercise. As a consequence of applying new eyes, we have identified numerous, high quality opportunities - both near mine and regionally. This has borne fruit as demonstrated by drilling at Coyote where our revised interpretation has seen gold in every drill hole. Similar success at Paulsens would have significant ramifications given the close proximity to underground infrastructure.

Gold in US dollar terms and consequently gold equities came under pressure in 2022. A mix of rising interest rates, strong US dollar and no shortage of geo-political issues all played their part in this. However, Australian dollar gold is strong and we remain convinced that owning high-grade gold operations with significant growth potential will win out.

- So, we have the key pillars in place for building a new multi-operation gold miner with projects strategically located across WA which include high-grade open pit and underground Resources of 2Moz.

As we move to 2023, other opportunities and challenges will present themselves. We will continue to build our already strong Resource base:

- At Paulsens, adding near mine ounces at Apollo and/or the Gabbro Veins with a relatively low capital start up cost could see us rapidly progress into production. Our Lower Gabbro target could literally be "another Paulsens" in its own right.
- At Coyote, our new geological model and drilling success has us increasingly convinced that Coyote has both grade and scale potential.
- Regional targets around Coyote and Paulsens will begin to be tested and offer significant upside given the already identified potential but with lack of follow through.
- Toll treating at Myhree/Boundary remains in progress and we will continue to monitor the development/building environment around Kalgoorlie.

In closing, we would like to thank our local communities, employees, suppliers and other business partners. We also would like to take this opportunity to thank our fellow shareholders for your support.

Yours sincerely

Paul Chapman - Chairman

REVIEW OF OPERATIONS

OVERVIEW

Black Cat Syndicate Limited ("Black Cat" or "the Company") performed strongly across all operational areas during the year and made significant progress towards the goal of becoming a multi-operation gold miner with three WA-based projects. During the 2022 Financial year, Black Cat:

- Successfully completed the acquisition of Coyote and Paulsens Gold Operations from Northern Star Resources ("Northern Star"). This transformational acquisition:
 - Includes two strategically located, regionally significant processing plants, associated mining infrastructure and camps.
 - Contains existing Resources of 706,000oz @ 3.4g/t Au with significant exploration upside.
 - Provides a clear pathway to sequentially restart operations in a low cost and low risk manner.
- Completed 71,382m of drilling largely focused on Resource upgrades and Reserve definition:
 - Drilling focused primarily on the Kal East Gold Project with drilling commencing at the Coyote Gold Operation just after acquisition in June 2022
 - Restart study work commenced at Paulsens in preparation for underground drilling to commence in October 2022
- Increased JORC 2012 Mineral Resources ("Resource" or "Resources" as applicable) by 168% to 24.5Mt @ 2.5 g/t Au for 2,000,000oz¹ through both extensional drilling at Kal East and acquisitions of the Coyote and Paulsens operations.
- Took further steps towards production at the Kal East Gold Project ("Kal East") with the completion of a Pre-Feasibility Study providing a robust base case 5.5-year mine plan, producing 302koz and including the approved construction of an 800ktpa processing facility.
- Continued to expand organisational capability through a number of senior management appointments.
- Successfully raised \$35M by way of a placement to institutional and sophisticated investors. The placement was strongly supported by existing shareholders and new. Directors continued to participate with the total amount invested by directors at ~\$7.5M.
- Maintained a strong balance sheet with cash of \$18.2M at 30 June 2022

At 30 June 2022, key metrics of the Company included:

- 2.0Moz at 2.50g/t Au (total Resources)
- 1,770km² total landholding in prime gold regions of WA
- ~\$140M estimated infrastructure replacement cost
- 750ktpa of installed milling capacity across Coyote and Paulsens
- Planned 800ktpa milling capacity at Kal East (potentially expandable with spare 700ktpa mill)
- 243koz initial Ore Reserves at Kal East
- Potential operating cashflow of \$105.9M from Kal East base case production plan (refer PFS)
- \$7.5M invested by Directors to date, who together own ~12%

OUR STRATEGY

The Board of Directors of Black Cat are committed to executing the Company's strategy in a safe and responsible manner. Black Cat's three 100% owned operations are:

Coyote Gold Operation: Coyote is located in Northern Australia, ~20km on the WA side of the WA/NT border. Coyote consists of an open pit and an underground mine, 300,000tpa processing facility, +180-person camp and other related infrastructure. The operation is currently on care and maintenance.

The project has a current Resource of 3.0Mt @ 5.1g/t Au for 488koz and has numerous near mine targets with strong potential for Resource growth. The greater project contains significant discovery opportunity with geochemical, structural and geophysical targets across the 440km² tenement package.

Paulsens Gold Operation: Paulsens is located 180km west of Paraburdoo in WA. Paulsens consists of an underground mine, 450,000tpa processing facility, +110-person camp and other related infrastructure. The operation is currently on care and maintenance.

The project contains a combined Resource of 2.7Mt @ 2.5g/t Au for 217koz with high priority targets near mine that have strong potential for significant Resource growth. The 530km² tenement package is under-explored with numerous surface anomalies ready for drill testing.

Kal East Gold Project: Kal East is located <50km east of the world class mining centre of Kalgoorlie, WA. The Company has approved plans to construct a central processing facility near the Majestic Mining Centre, ~50km east of Kalgoorlie. The 800,000tpa processing facility will be a traditional carbon-in-leach gold plant which is ideally suited to free milling ores located around Kalgoorlie.

Kal East contains a Resource of 18.8Mt @ 2.1g/t Au for 1,294koz, including a preliminary JORC 2012 Reserve of 3.7Mt @ 2.0g/t Au for 243koz. The 800km² tenement package contains numerous untested and undertested prospects with significant discovery potential.

Key pillars are in place to build a multi-operation gold business and the Board has set Key Performance Indicators ("KPI's for potential operations) in respect of performance rights issued to its senior leadership team, as follows:

- Coyote Gold Operation Annual sustained production rate of 40,000 to 50,000oz of gold
- Paulsens Gold Operation Annual sustained production rate of 60,000 to 70,000oz of gold
- Kal East Gold Project Annual sustained production rate of 50,000 to 60,000oz of gold

Additional to the future production targets, the Company is also planning to:

- Undertake substantial drilling targeting Resource growth to >3Moz over the next 5 years
- Leverage the dominant underexplored ground position to target additional discoveries

Commensurate with building an organisation to operate three WA projects, several senior positions commenced during the year, including:

- Michael Bourke joined as General Manager Projects in May 2022. Michael has held a number of operational, commercial, remote area and planning roles during his extensive career of more than 25 years in the resources industry. He has significant experience working for public companies and their stakeholders.
- Matt Anderson joined as Project Manager in April 2022. Matt has extensive experience in project management and has held senior management positions over the past 25 years spanning from Corporate to Site based, encompassing feasibility studies, engineering, design, procurement construction and commissioning of mineral processing plants and mine infrastructure.
- Erryn Hewitt joined as Health Safety and Environment (HSE) Manager in July 2022. Erryn has over 20 years' experience working as a safety professional in the mining industry, working predominantly in leading the implementation of occupational health and environment requirements across a range of departments and sectors.

DRILLING ACTIVITIES

Black Cat was extremely active with 71,382m of drilling completed during the year ended 30 June 2022. A large proportion of this drilling was undertaken to upgrade Resources for definition of initial Reserves at Kal East, which total 242,900 ounces, and were released in May 2022. The company also added 109,000 ounces to the Resource base at Kal East in the 9 months since the previous Annual Resource calculation. The recent acquisitions of the Coyote and Paulsens operations will see additional drilling areas targeting Resource growth and discovery. The first drilling at Coyote for almost a decade commenced during the last week of June 2022.

KAL EAST GOLD PROJECT

Kal East Gold Project activities includes:

- Resource upgrade drilling was undertaken at Majestic, Fingals and Jones Find during the year to extend and upgrade Resources and define initial Reserves. Results from this drilling included ²:
 - 8m @ 5.81g/t Au from 68m (21IMDD002)
 - 2m @ 25.87g/t Au from 64m (21FIRC119)
 - 2m @ 6.53g/t Au from 81m and 2m @ 16.75 g/t Au from 118m (21FIRC131)
 - 3m @ 19.36g/t Au from 120m 3m @ 8.57 g/t Au from 148m (21FIRC142)
 - 0.41m @ 108.00g/t Au from 401.15m (21IMDD006)
 - 0.98m @ 33.70g/t Au from 374.6m & 0.82m @ 83.50 g/t Au from 391.8m (21IMDD015)
 - 1.08m @ 28.17g/t Au from 360.51m (21IMDD025)
 - 13m @ 37.43g/t Au from 151m (incl. 5m @ 91.58 g/t Au from 152m) (21FIRC157)
 - 8m @ 4.74g/t Au from 152m (21FIRC158)
 - 3m @ 9.96g/t Au from 109m and 4m @ 3.28 g/t Au from 114m (21FIRC145)
 - 7m @ 11.65g/t Au from 43m (21JFRC015)
 - 2m @ 18.62g/t Au from 45m (21FRRC078)
 - 2m @ 26.81g/t Au from 69m (21FRRC086)
 - 4m @ 8.43g/t Au from 10m (21JLRC004)
- Completion of final grade control drilling at the Myhree open pit in preparation for potential mining and toll treatment³ was also completed. Drilling results included:
 - 4m @ 17.47g/t Au from 46m (22MYGC064)
 - 4m @ 11.62g/t Au from 30m (22MYGC056)
 - 3m @ 10.73g/t Au from 22m (22MYGC107)
 - 6m @ 5.87g/t Au from 38m (22MYGC078)
 - 2m @ 10.11g/t Au from 52m (22MYGC064)
 - 7m @ 4.69g/t Au from 18m (22MYGC057)
- Open pit Ore Reserves of 0.7Mt @ 2.2g/t Au for 51,000oz have been defined at Myhree/Boundary.
- The Myhree open pit is fully approved and mining can commence once a processing solution is secured. Discussions with interested parties are ongoing.
- Completion of the Pre-Feasibility Study for Kal East Gold Project ("Kal East") containing a robust base case 5.5-year mine plan producing 302koz and includes the approved construction of an 800ktpa processing facility. The base case plan has the potential to generate \$106M in cashflow over the initial mine life with substantial future growth opportunities.⁴
 - Total production of 301.7koz @ 1.9g/t Au including initial Ore Reserves of 242.9koz @ 2.0g/t Au (A\$2,300/oz gold price).
 - 84% of initial production plan based on high confidence Ore Reserves (80%) and Indicated Resources (4%).
 - Resources of only 8.2Mt @ 2.3g/t Au for 599koz included in the Study with a production plan conversion ratio of 50%, with potential to increase with ongoing drill programs.

³ ASX announcement 10 June & 15 August 2022

⁴ ASX announcement 3 June 2022

- Forecast average production of 56kozpa at 0.8Mtpa processing rate over an initial period of 5.5 years.
- Maximum cash drawdown including pre-production capital is A\$82.7M (including contingency).
- Forecast All-in Sustaining Cost of A\$1,510/oz.
- Operating cashflow (after all capital and before tax) of A\$105.9M (A\$2,500/oz gold price).
- There is ample opportunity to build on the base case production plan in future studies prior to development:
 - Resources not included in the PFS (10.6Mt @ 2.0g/t Au for 694koz) and to be included in future studies will potentially increase Ore Reserves and mine life beyond 5.5 years.
 - The Study has focused primarily on open pits with limited consideration of their future underground potential.
 - Ongoing infill and extensional drilling programs targeting Ore Reserve and Resource growth and upgrades. For example, the large Fingals Fortune deposit remains open in all directions and at depth.
 - Future expansion of the processing facility from 0.8Mtpa to 1.5Mtpa by installing Black Cat's already owned 0.7Mtpa expansion mill.
- The Kal East Project is fully approved, and in the "Go Bay" with the final investment decision deferred until construction conditions improve.
- Work will continue at Kal East to progress additional approvals over future open pit mines and drilling to support Resource upgrades and Ore Reserve increases.

COYOYE GOLD OPERATION

Coyote Gold Operation was acquired on 15 June 2022. Exploration activities targeting Resource growth and discovery began immediately and included:

- Conversion of outstanding JORC 2004 Mineral Resources to JORC 2012 Mineral Resources⁵. Total JORC 2012 Resources now total 3Mt @ 5.1g/t Au for 488,000 ounces.
- Commencement of both RC and diamond drilling to upgrade and extend existing Resources.
- RC drilling commenced immediately on shallow mineralisation within the Axial Core Zone of the Coyote Anticline. Subsequent to the end of the financial year, initial drilling results included⁴:
 - 3m @ 29.43g/t Au from 82m (22CYRC0002)
 - 6m @ 8.33g/t Au from 152m (22CYRC0008)
 - 2m @ 4.41g/t Au from 177m (22CYRC0004)
 - 1m @ 11.40g/t Au from 100m (22CYRC0005)
 - 4m @ 17.65 g/t Au from 161m (22CYRC0007)
 - 1m @ 13.30 g/t Au from 162m (22CYRC0006)
- RC drilling will continue on shallow mineralisation at Coyote Central, near mine Resource growth at Bald Hill (198,000oz @ 3.6g/t Au) and then on to additional regional targets.

Figure 3: RC Rig drilling at Coyote Central targeting shallow Resources around the potential Speedy open pit.

- Subsequent to the end of the financial year, diamond drilling commenced on the deeper parts of the Axial Core Zone including around the Kavanagh lodes (77koz @ 13.5g/t Au). Assay results from the first infill diamond holes included⁶:
 - 2.48m @ 10.35g/t Au from 426.38m (22CYDD0001), and
 - 0.80m @ 17.10g/t Au from 434.40m (22CYDD0001)
 - 1.00m @ 114g/t Au from 388.00m (22CYDD0004)

⁶ ASX announcement 10 October 2022

- 1.68m @ 22.30g/t Au from 438.32m (22CYDD003a)
- Infill and extensional diamond drilling is ongoing at Coyote Central, principally targeting the unmined Axial Core Zone of the system in both shallow and deeper areas. Results will be reported regularly as they become available.

Figure 4: Diamond drilling the Kavanagh deposit at the Coyote Gold Operation

- Drilling is expected to pause during November for the expected start of the wet season before recommencing around March 2023.
- Other field activities have also commenced, including stockpile reviews and engineering assessments of processing plant and equipment.

PAULSENS GOLD OPERATION

- The Paulsens Gold Operation was acquired on 15 June 2022. Black Cat is undertaking an extensive geological review as part of its objective to find another +1Moz Paulsens-style deposit. This review includes new interpretations of Paulsens mineralisation and incorporation of all drilling intercepts into revised Resource models. Structural and 3D seismic reviews are underway to improve drill targeting.
- Subsequent to the end of the Financial Year Black Cat released results from previously unreported diamond core assays drilled by previous operators in 2020. These include significant, near mine, high-grade results from outside of the current reported Resource highlight strong potential to extend the current underground Resource (89,000oz @ 5.8g/t Au)⁷:
 - 1.42m @ 102.37g/t Au from 19.34m (PDU4518)
 - 6.19m @ 15.86g/t Au from 23.72m (PDU4550)
 - 0.94m @ 58.10g/t Au from 19.50m (PDU4544)
 - 1.33m @ 26.07g/t Au from 22.02m (PDU4542)
 - 1.26m @ 25.36g/t Au from 14.60m (PDU4491)
 - 0.88m @ 36.77g/t Au from 7.62m (PDU4501)
- Furthermore, thick, high-grade infill results emphasise the robust nature of the current Resource:
 - 5.72m @ 35.32g/t Au from 36.78m (PDU4536)
 - 5.99m @ 25.23g/t Au from 16.88m (PDU4537)
 - 3.00m @ 42.68g/t Au from 1.00m (PDU4518)
 - 4.20m @ 25.61g/t Au from 4.00m (PDU4539)
 - 8.05m @ 11.09g/t Au from 59.96m (PDU4555)
 - 2.00m @ 30.30g/t Au from 13.00m (PDU4524)
- Paulsens is a dewatered, ventilated and well maintained high-grade underground mine which produced more than 900koz @ 7.3g/t Au until being placed on care and maintenance in 2017.
- A program of ~7,000m of underground diamond drilling will commence in late October 2022, testing several opportunities to find “another Paulsens”, including:
 - An interpreted ‘Paulsens Repeat’ structural target located ~200m below and parallel to the mine workings as identified in a \$2m, 3D seismic survey. Paulsens itself has a strike length of at least 2,200m and the analogous Paulsens Repeat target extends for ~1,250m.
 - Down plunge extensions of the near surface ‘Apollo lodes’, containing several high-grade intersections outside of current Resources, including:
 - Testing of the continuity and extent of the ‘Gabbro Veins’ which are located adjacent to the existing workings, with a potential strike extent of ~1,000m and contain high-grade intersections, including:
- Additional to the near mine drilling, a detailed review of regional exploration data commenced in June 2022, following on from initial reviews. Several priority regional targets have been identified and initial exploration activities are being conducted in anticipation of a systematic exploration program the 2023 financial year.
- Engineering study work will also be undertaken during the coming year to establish detailed restart requirements.

OUR APPROACH TO RESPONSIBLE OPERATING, NOW AND FOR THE FUTURE

At Black Cat our goal is to do right by our people, our stakeholders, and the wider community, and leave a positive legacy for future generations. This means that we create value not just through our activities, but through the responsible management of our Environment, Social, and Governance (ESG) practices that are integrated into our operating framework.

Black Cat is developing its Environmental and Social Management System (ESMS) as an integrated Health, Safety, Environment and Stakeholder Management System ("HSESMS") framework to support delivery of our vision to be a multi-operation gold mining company creating value and opportunities for our stakeholders through creative thinking and responsible practises.

ENVIRONMENTAL AND CULTURAL HERITAGE RESPONSIBILITY

We recognise the impact that mining and exploration activities have on the natural environment, so we are committed to environmental stewardship, and aim to minimise our footprint on the land around us. This includes being aware of areas of cultural and heritage importance and treating them with sensitivity and respect. Eight heritage surveys were undertaken during the financial year.

We have recently completed all environmental studies and approvals for a fully permitted mining operation located at the Kal East Gold Project. Technical studies are currently underway to support the development of the Paulsens and Coyote Gold Operations and the required approvals for recommencing operations at both sites.

Rehabilitation of drilling sites was a focus this year, particularly in regional areas. In-depth discussions and coordination were completed with the Department of Biodiversity, Conservation and Attractions around the best way to rehabilitate drilling and legacy issue inherited within the Coonana Timber Reserve at the Rowes Find prospect.

No environmental incidents were reported during FY2022.

SOCIAL RESPONSIBILITY

We advocate for the safety, health and social wellbeing of our people and the communities in which we operate, ensuring meaningful engagement with all stakeholders is undertaken.

Safety and Health

In FY2022 we achieved no LTI's or MTI's and effective management of COVID-19 through a Management Plan resulted in no disruption of activities.

Black Cat increased its health, safety and environment capability through the appointment of a Health, Safety and Environment Manager. Additionally, we completed development and deployment of our Health and Safety Management System, Crisis and Emergency Management Plans which in early FY2022 will be supported through the implementation of a cloud based and mobile application system that will be used for health and safety, environment and stakeholder engagement, onboarding, rosters and compliance management.

Social Wellbeing

Progressing our commitment to build capability and diversity in the organisation as at end of FY2022 women represented 24% of the full-time positions. Our growing team is culturally diverse with a variety of backgrounds including England, New Zealand, China, Japan, Germany and Indigenous Australia providing a variety of perspectives promoting creativity and innovation.

Black Cat is committed to creating a positive and inclusive workforce culture where personnel uphold our values and Code of Conduct, promoting fairness, equity, and respect for all aspects of diversity and an

elimination of unfair treatment and inappropriate behaviour. To support our commitment activities undertaken in this reporting period included:

- Involvement of our people in creating a Vision and Values framework that will help Black Cat shape the foundation of our organisational culture.
- Supporting flexible working arrangements understanding how important flexibility and work-life balance is to our people.
- Commencing appropriate workplace behaviour training with plans to continue in FY2022, including the revised Code of Conduct.
- Development of key HR processes and procedures for recruitment, remuneration and employee relations.

Stakeholder Engagement

In recognising the importance of stakeholder engagement, an Environment and Heritage Specialist was appointed increasing our capability to demonstrate effective Stakeholder Engagement, as an ongoing process in a structured and culturally appropriate manner.

We acknowledge the Traditional Custodians of the lands in which we operate, the Marlinyu Ghoorlie, Maduwongga, Kakarra Part A, PKKP, Tjurabalan and Jururru Peoples.

Throughout FY2022 Black Cat consulted with Marlinyu Ghoorlie, Maduwongga and Kakarra Part A regarding exploration activities at Kal East Gold Project.

With the recent acquisitions of Paulsens and Coyote Gold Operations, communication was initiated, and plans made for meetings in FY2023 with PKKP and Juurru (Pulsens) and Tjurabalan (Coyote) where new cooperation agreements for Paulsens and a review cooperation agreement for Coyote will be a focus. Welcoming ceremonies are planned for both sites in FY2023.

In addition, extensive consultation throughout the year was held with other key stakeholders including various government departments (DMIRS, DWER, DPAW), local shires and pastoralists.

GOVERNANCE RESPONSIBILITY

We have put robust corporate governance measures in place which underpin strict operating practices across all our business functions. Our aim is to build an open, honest and transparent business, and lead by example.

In addition to the already existing policies of Risk Management, Diversity and Whistle-blower, we developed the following policies: Safety, Health and Wellbeing Policy, Environment Policy, People Policy, Stakeholder Engagement Policy and Supply Chain Management Policy.

The Code of Conduct was revised and underpins the policies driving company expectations of people associated with Black Cat to make and do the right decisions, actions and behaviours. The new policies and revised code of conduct are in line with the principles and objectives of the IFC Performance Standards and are outlined in our operating framework.

Our operating framework sets out the way we do business and promotes high standards of corporate governance, encompassing all aspects of our business from health and safety, environment, people and stakeholder management including our investors and business partners.

Continuing to integrate the operating framework into all the levels on how we operate is a key objective for FY2023.

MINERAL RESOURCES & ORE RESERVES STATEMENT (BC8: 100%)

Black Cat Syndicate's total Measured, Indicated, and Inferred Resources at 30 June 2022 are 24.5M tonnes @ 2.5g/t Au containing 2,000,000 oz (refer below). Resources have been routinely reported throughout the year and represent a 67% growth in total Resources compared to Resources reported on 30 June 2021 of 17.5Mt @ 2.1 g/t Au containing 1,185,000 oz.

Black Cat Syndicate's total Probable Ore Reserves as at 30 June 2022 are 3.7M tonnes @ 2.0g/t Au containing 243,000 oz. This represents the maiden Reserves for Black Cat Syndicate that were announced during the year.

Notes on Resources:

- The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
- All tonnages reported are dry metric tonnes.
- Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
- Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource
- Resources are reported inclusive of any Reserves

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Resources are:

Notes on Reserve:

1. Cut-off Grade:
 - o Open Pit - The Ore Reserves are based upon an internal cut-off grade greater than or equal to the break-even cut-off grade.
 - o Underground - The Ore Reserves are based upon an internal cut-off grade greater than the break-even cut-off grade.
2. The commodity price used for the Revenue calculations was AUD \$2,300 per ounce.
3. The Ore Reserves are based upon a State Royalty of 2.5% and a refining charge of 0.2%.
4. Mineral Resources are reported as inclusive of Ore Reserves.
5. Tonnes have been rounded to the nearest 100 t for open pit and 1000 t for underground, grade has been rounded to the nearest 0.1 g/t, ounces have been rounded to the nearest 100 oz. Discrepancies in summations may occur due to rounding.
6. This Ore Reserve statement has been compiled in accordance with the guidelines of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code – 2012 Edition).

GOVERNANCE

Black Cat Syndicate ensures that the Mineral Resource estimates quoted are subject to governance arrangements and internal controls activated at a site and corporate level.

All aspects of the Mineral Resource processes follow a high level of industry standard practices. Contract RC and diamond drilling is overseen by experienced Black Cat employees, with completed holes subject to downhole gyroscopic survey and collar coordinates surveyed with RTK GPS. Geological logging and sampling are completed by Black Cat geologists. Black Cat employs field quality control (QC) procedures, including addition of standards, blanks and duplicates ahead of assaying which is undertaken using industry standard fire assay at Bureau Veritas laboratories in Kalgoorlie.

All drilling information is continually validated and managed by a database consultant. Geological models and wireframes are built using careful geological documentation and interpretations, all of which are validated by peer review. Resource estimation is undertaken by qualified Black Cat employees under the direct supervision of the Competent Person. Estimation techniques are industry standard and include block modelling using Ordinary Kriging. Application of other parameters including cut off grades, top cuts and classification are all dependent on the style and nature of mineralisation being assessed. All Resources are reported under JORC 2012.

All Ore Reserves have been reported from Measured and Indicated Resources only. All Ore Reserves have been generated from design studies using appropriate cost, geotechnical, slope angle, stope span, dilution, cut-off grade and recovery parameters. Mining approvals are in place for all Ore Reserve-related projects. A maximum A\$2,300/oz gold price has been used to estimate Ore Reserves and determine appropriate cut-offs. Mining, milling and additional overhead costs are based on current tenders for the Reserve operations. Mill recoveries for all ore types are based upon metallurgical test work.

COMPETENT PERSONS' STATEMENTS

The information in this Annual Ore Reserves and Mineral Resources Statement is based on and fairly represents information and supporting documentation prepared by the competent persons named in the relevant sections of this report.

This Ore Reserve and Mineral Resource Statement as a whole has been approved by Mr Iain Levy. Mr Levy is a holder of shares and options in, and is a full-time employee of, the Company. Mr Levy is a Member of the Australasian Institute of Mining and Metallurgy and a Member of the AIG with sufficient experience with the style of mineralisation, deposit type under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code)".

The information in this report that relates to all geology, exploration results, planning, and the estimation and reporting of Resources were compiled by Mr. Iain Levy. Mr. Levy has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Levy consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this report that relates to the Open Pit Ore Reserves is based on and fairly represents information compiled by Mr. Alistair Thornton. Mr Thornton is a full-time employee of Black Cat Syndicate Pty Ltd. Mr Thornton has confirmed that he has read and understood the requirements of the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Thornton is a Competent Person as defined by the JORC Code 2012 Edition, having more than five years' experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity for which he is accepting responsibility. Mr Thornton is a Member of the AusIMM and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to the Underground Ore Reserves is based on and fairly represents information compiled or reviewed by Dr. Kelly Fleetwood. Dr Fleetwood is a full-time employee of Black Cat Syndicate Pty Ltd. Dr Fleetwood has confirmed that he has read and understood the requirements of the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr Fleetwood is a Competent Person as defined by the JORC Code 2012 Edition, having more than five years' experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity for which he is accepting responsibility. Dr Fleetwood is a Member of the AusIMM and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

In relation to Resources and Ore Reserves, the Company confirms that it is not aware of any new information or data that materially affects the information in the original reports, and that the form and context in which the Competent Persons' findings are presented have not been materially modified from the original reports.

Where the Company refers to the exploration results, Mineral Resources, and Reserves in this report (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource and Reserve estimates with that announcement continue to apply and have not materially changed.

The Company confirms that all material assumptions underpinning the production target at Kal East Gold Project, or the forecast information derived from the production target, included in the original ASX announcement dated 3 June 2022 continue to apply and have not materially changed

Philip is also a former partner of Mallesons Stephen Jaques (now King & Wood Mallesons).

Philip is a senior barrister practising in commercial law and was admitted to practice in 1988. Philip was Non-Executive Chairman of financial services company Zip Co Limited (ASX:Z1P) and is currently a non-executive director of Applyflow Limited (ASX:AFW), Hamelin Gold Limited (ASX:HMG) and Encounter Resources Limited (ASX:ENR).

Tony Polglase (Non-Executive Director)

B.Eng (Hons) First Class Honours (Appointed 25 May 2020)

Tony has more than 40 years of multi-disciplined mining experience across ten different countries and is qualified in mechanical and electrical engineering with an honours degree in metallurgy. Tony has significant experience in the development and operation of mining projects, having been responsible for, or closely involved with, the commissioning of more than seven mines. Tony was a director of Avanco Resources until its acquisition by OZ Minerals Ltd for ~\$430m. Tony's operational experience involves both open-pit and underground mines as well as processing and maintenance management. Tony is a non-executive director of New World Resources Limited (ASX:NWC) and Bravo Mining Corp. (TSXV:BRVO).

COMPANY SECRETARIES

Mark Pitts (Joint Company Secretary)

BBus, FCA, GAICD (Appointed 9 November 2017)

Mark has over 30 years' experience in business administration and corporate compliance. Having started his career with KPMG, Mark has worked at a senior management level in a variety of commercial and consulting roles including mining services, healthcare and property development. PRINCIPAL ACTIVITIES

The principal activity of the Company during the financial period was undertaking mineral exploration and economic studies at the Company's Kal East Gold Project ("Kal East") in Western Australia. In addition, the Company undertook extensive due diligence on the eventual acquisition of the Coyote and Paulsens Gold Projects from Northern Star Limited, which was completed on 15 June 2022.

There were no significant changes in these activities during the financial period.

RESULTS OF OPERATIONS

Financial Position and Performance

The consolidated net loss after income tax for the financial period was \$3,944,906 (2021: \$2,324,794).

At the end of the financial period the Group had \$18,172,023 (2021: \$16,049,091) in cash and at call deposits. Capitalised mineral exploration and evaluation expenditure at the end of the financial year was \$92,508,166 (2021: \$29,124,255).

Included in capitalised exploration costs for 30 June 2022 is an amount of \$51,412,076 which represents the excess of the fair value of the consideration paid by the Company over the fair value of the net assets acquired in relation to the Coyote and Paulsens Gold Project acquisitions. This excess is considered to be in the nature of exploration and evaluation expenditure and has been accounted for in accordance with AASB 6. The consideration for the acquisitions was \$32,419,000 and comprises cash (\$14,500,000), deferred cash consideration (\$15,000,000) and shares (fair value at time of acquisition of \$2,919,000).

During the year the Company raised a total of \$35,000,000 before costs from the issue of placement shares and a further \$220,000 from the issue of shares on the exercise of unlisted options.

REVIEW OF ACTIVITIES

Exploration

Exploration activities for the financial period have been primarily focussed at the Company's Kal East near Kalgoorlie, Western Australia, whilst undertaking various exploration programs targeting future resource growth and commencing economic studies to assess Kal East's economic potential.

Acquisitions

During the financial period the Company completed the acquisition of the Coyote and Paulsens Gold Projects in Western Australia from Northern Star Limited.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the Company and Group during or since the end of the financial period other than as stated in this report.

OPTIONS OVER UNISSUED CAPITAL

Unlisted Options

As at 30 June 2022 14,677,147 unissued ordinary shares of the Company are under option as follows:

	Number of Shares on Issue	
	2022	2021
Ordinary fully paid shares	213,634,175	140,807,811

The Company has not issued any shares since the end of the financial period.

DIVIDENDS

No dividend has been paid and no dividend is recommended for the financial periods ended 30 June 2022 and 30 June 2021.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL PERIOD

Subsequent to 30 June 2022 the Company issued a total of 4,198,389 performance rights expiring 30 June 2027 to senior employees. Details of the 2022 LTI awards have been disclosed in the remuneration report.

Other than the above, there has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

The Company expects to maintain exploration and feasibility programs at its Coyote, Paulsens and Kal East Gold Projects.

Disclosure of any further information has not been included in this report because, in the reasonable opinion of the Directors, to do so would be likely to prejudice the business activities of the Group and is dependent upon the results of the future exploration and evaluation.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulations with respect to the rehabilitation of areas disturbed during the course of its exploration activities.

So far as the Directors are aware, all exploration activities have been undertaken in compliance with all relevant environmental regulations.

REMUNERATION REPORT (AUDITED)

Remuneration paid to Directors and Officers of the Company is set by reference to such payments made by other ASX listed companies of a similar size and operating in the mineral exploration industry. In addition, reference is made to the financial position of the Company and the specific skills and experience of the Directors and Officers.

Details of the nature and amount of remuneration of each Director, and other Key Management Personnel if applicable, are disclosed annually in the Company's Annual Report.

Remuneration Committee

The Board has adopted a formal Remuneration Committee Charter which provides a framework for the consideration of remuneration matters.

The Company does not have a separate Remuneration Committee and as such all remuneration matters are considered by the Board as a whole, with no Member deliberating or considering such matter in respect of their own remuneration.

In the absence of a separate Remuneration Committee, the Board is responsible for:

1. Setting remuneration packages for Executive Directors, Non-Executive Directors and other Key Management Personnel; and
2. Implementing employee incentive and equity-based plans and making awards pursuant to those plans.

Non-Executive Remuneration

The Company's policy is to remunerate Non-Executive Directors, at rates comparable to other ASX listed companies in the same industry, for their time, commitment and responsibilities.

Non-Executive remuneration is not linked to the performance of the Company, however, to align Directors' interests with shareholders' interests, remuneration may be provided to Non-Executive Directors in the form of equity based long term incentives.

1. Fees payable to Non-Executive Directors are set within the aggregate amount approved by shareholders at the Company's annual general meeting;
2. Non-Executive Directors' fees are payable in the form of cash and superannuation benefits;
3. Non-Executive superannuation benefits are limited to statutory superannuation entitlements; and
4. Participation in equity-based remuneration schemes by Non-Executive Directors is subject to consideration and approval by the Company's shareholders.

The maximum Non-Executive Directors' fees payable in aggregate, are currently set at \$350,000 per annum.

Engagement of Non-Executive Directors

Non-Executive Directors conduct their duties under the following terms:

1. A Non-Executive Director may resign from his/her position and thus terminate their contract on written notice to the Company; and
2. A Non-Executive Director may, following resolution of the Company's shareholders, be removed before the expiration of their period of office (if applicable). Payment is made in lieu of any notice period if termination is initiated by the Company, except where termination is initiated for serious misconduct.

Engagement of Non-Executive Directors (Continued)

In consideration of the services provided by Paul Chapman as Non-Executive Chairman, the Company will pay \$60,000 inclusive of statutory superannuation per annum.

In consideration of the services provided by Les Davis, Tony Polglase and Philip Crutchfield as Non-Executive Directors, the Company will pay each \$40,000 inclusive of statutory superannuation per annum.

Messrs Chapman, Davis, Polglase and Crutchfield are also entitled to fees for other amounts as the Board determines where they perform special duties or otherwise perform extra services or make special exertions on behalf of the Company. There were no such fees paid during the financial period ended 30 June 2022.

Executive Director and Other Key Management Personnel Remuneration

Executive remuneration consists of base salary, plus other performance incentives to ensure that:

1. Remuneration packages incorporate a balance between fixed and incentive pay, reflecting short and long-term performance objectives appropriate to the Company's circumstances and objectives; and
2. A proportion of remuneration is structured in a manner to link reward to corporate and individual performances.

Executives are offered a competitive level of base salary at market rates (based on comparable ASX listed companies) and are reviewed regularly to ensure market competitiveness. To date, the Company has not engaged external remuneration consultants to advise the Board on remuneration matters.

Engagement of Executive Director

The Company has entered into an executive service agreement with Gareth Solly in respect of his engagement as Managing Director on the following material terms and conditions:

- is effective for three years from 1 January 2021 and receives a base salary of \$280,000 per annum plus statutory superannuation (increased to \$320,000 per annum effective 1 July 2022) and may also receive an annual short term performance-based bonus which may be calculated as a percentage of current base salary, the performance criteria, assessment and timing of which is negotiated annually with the Non-Executive Directors; and
- subject to shareholder approval, may participate in the Black Cat Syndicate Incentive Option Plan and other incentive plans adopted by the Board.

Short Term Incentive Payments

Non-Executive Directors set the Key Performance Indicators ("KPI's") for the Executive Director and other senior employees. The KPI's are chosen to align the reward of the individual Executive to the strategy and performance of the Company.

Performance objectives, which may be financial or non-financial, or a combination of both, are weighted when calculating the maximum Short-Term Incentives ("STI") payable to Executives. At the end of the specified measurement period, the Non-Executive Directors will assess the actual performance of the Executives against the set Performance Objectives. The maximum amount of the STI, or a lesser amount depending on actual performance achieved is paid to the Executives as either a cash payment or in unlisted options. Refer to the Details of Performance Related Remuneration section of this Remuneration Report for specific details of KPI's set and/or measured during the period.

No STI's are payable to Executives where it is considered that the actual performance has fallen below the minimum requirement.

Incentive Option Plan

The Company provides incentives to Directors and Employees pursuant to the Black Cat Syndicate Incentive Option Plan, which was approved by shareholders on 25 November 2020.

The Board, acting in remuneration matters:

1. Ensures that incentive plans are designed around appropriate and realistic performance targets and provide rewards when those targets are achieved;
2. Reviews and approves existing incentive plans established for employees; and
3. Approves the administration of the incentive plans, including receiving recommendations for, and the consideration and approval of grants pursuant to such incentive plans.

Long Term Incentive Plan (LTI)

Under the Company's LTI plan, grants of options or performance rights are made to certain executives to align remuneration with the creation of shareholder value over the long term, whilst also attracting, motivating and retaining key executives.

Performance targets, whilst challenging, represent key milestones in respect of the progression of the Company, and considered consistent with sustained growth in shareholder value.

The LTIs issued subsequent to the end of the financial year (2022 LTI Awards) represent the first such awards made under the Company's LTI Plan. The 2022 LTI Awards proposed to be issued to the Managing Director are subject to shareholder approval.

Details of the 2022 LTI Awards are as follows:

Eligibility	Members of the Senior Leadership Team who are responsible for setting the strategic direction of the Company
Awards	The 2022 LTI Awards are in the form of Performance Rights. Performance rights are issued for nil consideration and if Vesting Conditions are satisfied, may be exercised before the Expiry Date into ordinary fully paid shares in the Company. 2022 LTI Awards are issued pursuant to the terms and conditions of the Company's Incentive Option Plan
Performance Period	The Vesting Conditions of the 2022 LTI Awards are measured, and can be achieved, at any time prior to the Expiry Date
Expiry Date	2022 LTI Awards expire 30 June 2027, unless lapsing earlier in accordance with the terms and conditions of the Company's Incentive Option Plan
Vesting Conditions (Key Performance Indicators (KPIs))	2022 LTI Awards are measured from 1 July 2022, may vest and become exercisable in three equal tranches based on the following specific performance conditions (KPIs) relating to production of gold from its three distinct gold projects as follows: • 1/3 vest on achieving a sustained production rate of 40,000 to 45,000 ounces per annum at the Coyote Gold Project • 1/3 vest on achieving a sustained production rate of 60,000 to 70,000 ounces per annum at the Paulsens Gold Project • 1/3 vest on achieving a sustained production rate of 50,000 to 60,000 ounces per annum at the Kal East Gold Project

Long Term Incentive Plan (Continued)

A total of 5,254,173 2022 LTI Awards issued, or proposed to be issued by the Company, include to the following Key Management Personnel (KMP):

Name of KMP	Position of KMP	Value of 2022 LTI Awards ²	Value of 2022 LTI Awards as % of total Base Salary ¹	Total Number of 2022 LTI Awards ³
Gareth Solly	Managing Director	\$320,000	100%	1,055,784 Performance Rights ⁴
Michael Bourke	General Manager - Projects	\$290,000	100%	956,804 Performance Rights
David Sanders	Chief Financial Officer	\$250,000	100%	824,831 Performance Rights

¹ Base Salary relates to the annual fixed remuneration (exclusive of superannuation) payable to the respective KMP as at the 2022 LTI Awards grant date of 1 July 2022.

² The value of 2022 LTI Awards equates to 100% of the respective KMP's Base Salary at grant date.

³ The number of 2022 LTI Awards has been calculated based on the total value of the respective KMP's Base Salary at the grant date, divided by the underlying share price of the Company's shares (calculated as the 5-day VWAP to 30 June 2022).

⁴ Notionally awarded subject to approval of the Company's shareholders prior to the issue of the underlying performance rights.

LTI Outcomes

The 2022 LTI Awards represent the first award pursuant to the Company's LTI Plan, and as such no securities have been issued during the 2022 financial year in respect of the vesting of LTI awards.

Accordingly, no cancellation of LTI awards has occurred during the 2022 financial year in respect of LTI awards for which vesting conditions have not been achieved or become incapable of being achieved.

Short Term Incentive Plan (STI)

STI Outcomes – 2022 Financial Year

The Company has determined STI cash bonuses payable in respect of the financial year ended 30 June 2022 totalling \$98,700 to executives and senior employees, including to the following KMP:

Name of KMP	Position of KMP	Maximum FY2022 STI Bonus Achievable ¹	Actual FY2022 STI Bonus Achieved ²
Gareth Solly	Managing Director	\$56,000	\$19,600
David Sanders	Chief Financial Officer	\$40,000	\$14,000

¹ Maximum STI bonus achievable calculated as 20% of base salary at 30 June 2022.

² The Company set performance criteria for maximum STI bonuses achievable for the financial year ended 30 June 2022 which included resource growth, initial ore reserves, completion of economic studies, advancement of the Kal East Gold Project and share price performance. Based on a review of actual performance, the STI bonus achieved was calculated to 35% of maximum bonus achievable.

STI Targets – 2023 Financial Year

The Company has determined performance criteria for maximum STI bonuses achievable for the financial year ending 30 June 2023, including safety and environmental, exploration success, completion of economic studies, commencement of production, debt repayment and share price performance.

DIRECTORS' REPORT (CONTINUED)

NON-AUDIT SERVICES

During the period, Crowe the Company's auditor, has not performed any other services in addition to their statutory duties, other than as stated below.

Total remuneration paid to auditors during the financial period:	2022 \$	2021 \$
Audit and review of the Company's financial statements	42,250	24,250
Total	42,250	24,250

The board considers any non-audit services provided during the period by the auditor and satisfies itself that the provision of any non-audit services during the period by the auditor is compatible with, and does not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services are reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they do not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied throughout the reporting period, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Black Cat Syndicate Limited and its subsidiary ("the Group").

(a) Basis of Preparation

This general-purpose financial report has been prepared in accordance with Australian Equivalents to International Financial Reporting Standards ("AIFRS"), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report is presented in Australian dollars and all values are rounded to the nearest dollar.

The separate financial statements of the parent entity have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial report of the Group was authorised for issue in accordance with a resolution of Directors on 30 September 2022.

Statement of Compliance

The consolidated financial report of Black Cat Syndicate Limited complies with Australian Accounting Standards, which include AIFRS, in their entirety. Compliance with AIFRS ensures that the financial report also complies with International Financial Reporting Standards ("IFRS") in their entirety.

Adoption of New and Revised Accounting Standards

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

The adoption of the Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

New standards and interpretations not yet adopted

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application date for future reporting periods and which the Group has decided not to early adopt.

Reporting Basis and Conventions

These financial statements have been prepared under the historical cost convention, and on an accrual basis.

Critical Accounting Estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Principles of Consolidation

The financial statements of subsidiary companies are included in the consolidated financial statements from the date control commences until the date control ceases. The financial statements of subsidiary companies are prepared for the same reporting period as the parent company, using consistent accounting policies. The Consolidated Entity controls an entity when it is exposed to, or has rights to, variable returns from its investment with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Inter-entity balances resulting from transactions with or between controlled entities are eliminated in full on consolidation. Investments in subsidiary companies are accounted for at cost in the individual financial statements of the Company.

(b) Segment Reporting

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8.

(c) Revenue Recognition

Interest Income

Interest income is recognised using the effective interest method.

(d) Income Tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to the temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary timing differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantially enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to those timing differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate.

Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

(f) Impairment of Assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets, other than goodwill, that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

(g) Cash and Cash Equivalents

For cash flow statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(h) Government Grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received, and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are deducted from the carrying value of the relevant asset.

Amounts receivable from the Australian Tax Office in respect of research and development tax concession claims are recognised in the year in which the claim is lodged with the Australian Tax Office. Amounts receivable are allocated in the financial statements against the corresponding expense or asset in respect of which the research and development concession claim has arisen.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Right of Use Assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

(j) Property, Plant and Equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight line or diminishing value methods to allocate their cost, net of residual values, over their estimated useful lives, as follows:

Asset Class	Depreciation Rate
Field equipment and vehicles	20%
Office equipment	33%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Assets under construction (work in progress) are not depreciated until they are ready for use.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 1(f)). Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Mineral Exploration and Evaluation Expenditure

Mineral exploration and evaluation expenditure are written off as incurred or accumulated in respect of each identifiable area of interest and capitalised. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest is continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Immediate restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure. Exploration activities resulting in future obligations in respect of restoration costs result in a provision to be made by capitalising the estimated costs, on a discounted cash basis, of restoration costs and depreciating over the useful life of the asset. The unwinding of the effect of the discounting on the provision is recorded as a finance cost in the income statement.

Farm-in arrangements (in the exploration and evaluation phase)

For exploration and evaluation asset acquisitions (farm-in arrangements) in which the Group has made arrangements to fund a portion of the selling partner's (farmer's) exploration and/or future development expenditures (carried interests), these expenditures are reflected in the financial statements as and when the exploration and development work progresses.

Farm-out arrangements (in the exploration and evaluation phase)

The Group does not record any expenditure made by the farmee on its account. It also does not recognise any gain or loss on its exploration and evaluation farm-out arrangements but redesignates any costs previously capitalised in relation to the whole interest as relating to the partial interest retained.

Monies received pursuant to farm-in agreements are treated as a liability on receipt and until such time as the relevant expenditure is incurred.

(l) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Employee Benefits

Wages, Salaries and Annual Leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Long Service Leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future salaries, experience of employee departures and periods of service. Expected future payments are discounted at the corporate bond rate with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Share Based Payments

Share based compensation payments are made available to Directors and employees.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free rate for the term of the option. A discount is applied, where appropriate, to reflect the non-marketability and non-transferability of unlisted options, as the Black-Scholes option pricing model does not incorporate these factors into its valuation.

The fair value of the options granted is adjusted to reflect market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital and the proceeds received, net of any directly attributable transaction costs, are credited to share capital. Upon the cancellation of options on expiry of the exercise period, or lapsing of vesting conditions, the balance of the share-based payments reserve relating to those options is transferred to accumulated losses.

(n) Issued Capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(o) Earnings Per Share

i. Basic earnings per share

Basic earnings per share is calculated by dividing the earnings attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Goods and Services Tax ("GST")

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as a part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flow.

(q) Financial Instruments

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain. Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12 month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

(r) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year

(s) Current Versus Non-Current Classification

The Group presents assets and liabilities in the statement of financial position based on a current or non-current classification.

An asset is current when it is:

- expected to be realized, or intended to be sold or consumed in the Group's normal operating cycle;
- expected to be realized within 12 months after the reporting period; or
- cash or a cash equivalents (unless restricted for at least 12 months after the reporting period.

A liability is current when it is:

- expected to be settled in the Group's normal operating cycle;
- it is due to be settled within 12 months after the reporting date; or
- there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

All other assets and liabilities are classed as non-current.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Business Combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or business under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. These provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Where the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with AASB 9, or AASB 137 'Provisions, Contingent Liabilities and Contingent Assets', as appropriate, with the corresponding gain or loss being recognised in profit or loss.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Fair value estimation

The nominal value less estimated credit adjustments of receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

Fair Value Measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

(v) Rehabilitation provisions

A provision for restoration and rehabilitation is recognised when there is a present obligation as a result of development activities undertaken, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the provision can be measured reliably. The estimated future obligations include the costs of abandoning sites, removing facilities and restoring the affected areas.

The provision for future restoration costs is the best estimate of the present value of the expenditure required to settle the restoration obligation at the balance date. Future restoration costs are reviewed annually and any changes in the estimate are reflected in the present value of the restoration provision at each balance date.

The initial estimate of the restoration and rehabilitation provision is capitalised into the cost of the related asset and amortised on the same basis as the related asset, unless the present obligation arises from the production of inventory in the period, in which case the amount is included in the cost of production for the period. Changes in the estimate of the provision for restoration and rehabilitation are treated in the same manner, except that the unwinding of the effect of discounting on the provision is recognised as a finance cost rather than being capitalised into the cost of the related asset.

NOTE 2 FINANCIAL RISK MANAGEMENT

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Company's exposure to the specific risks, and the policies and processes for measuring and managing those risks. The Board of Directors has the overall responsibility for the risk management framework and has adopted a Risk Management Policy.

(a) Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from transactions with customers and investments.

Trade and Other Receivables

The current nature of the business activity of the Group does not result in trading receivables. The receivables that the Group does experience through its normal course of business are short term and the most significant recurring by quantity is receivable from the Australian Taxation Office, the risk of non-recovery of receivables from this source is considered to be negligible.

Cash Deposits

The Directors believe any risk associated with the use of predominantly only one bank is addressed through the use of at least an A-rated bank as a primary banker and by the holding of a portion of funds on deposit with alternative A-rated institutions. Except for this matter the Group currently has no significant concentrations of credit risk.

(b) Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Company's current and future operations, and consideration is given to the liquid assets available to the Company before commitment is made to future expenditure or investment.

(c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Interest Rate Risk

The Group has significant cash assets which may be susceptible to fluctuations in changes in interest rates. Whilst the Group requires the cash assets to be sufficiently liquid to cover any planned or unforeseen future expenditure, which prevents the cash assets being committed to long term fixed interest arrangements; the Group does mitigate potential interest rate risk by entering into short to medium term fixed interest investments.

Foreign Exchange Risk

The Group does not have any direct contact with foreign exchange fluctuations other than their effect on the general economy and capital markets.

NOTE 3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Accounting for Capitalised Exploration and Evaluation Expenditure

The Group's accounting policy is stated at Note 1(k). There is some subjectivity involved in the carrying forward as capitalised or writing off to the income statement exploration and evaluation expenditure. Key judgements are applied in determining expenditure directly related to exploration and evaluation activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant mining interest. Management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure reflect fairly the prevailing situation.

For the year ended 30 June 2022 the Group expensed unallocated and uncapitalised exploration expenditure of \$87,080 (2021: \$386,680).

Accounting for Share Based Payments

The values of amounts recognised in respect of share based payments have been estimated based on the fair value of the equity instruments granted. Fair values of options issued are estimated by using an appropriate option pricing model. There are many variables and assumptions used as inputs into the models. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised. See Note 19 for details of inputs into option pricing models in respect of options issued during the reporting period.

Provision for restoration and rehabilitation

A provision has been made for the present value of anticipated costs for future rehabilitation of land explored or mined as outlined in Note 20. The Group's activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management's best estimate for assets retirement obligations and site rehabilitation in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of this provision.

Business Combinations

As discussed in Note 35, business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the Group taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

NOTE 4 SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. The Group's sole activity is mineral exploration and resource development wholly within Australia; therefore, it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

Refer to Note 18 for details of the corresponding right of use liability arising from the abovementioned lease. The lease is for a term of two years commencing 1 June 2021 with an option to extend for one further year.

Management have exercised the option to renew the lease at the end of the initial two-year term.

Monthly lease costs of \$8,050 per month are subject to 3% rent increases on each 12 month anniversary. A lease incentive of \$3,220 per month applies until 30 April 2023.

The recoverability of the carrying amount of the exploration and evaluation assets is dependent upon successful development and commercial exploitation, or alternatively, sale of the respective areas of interest. The capitalised exploration expenditure written off includes expenditure written off on surrender of, or intended surrender of, tenements

NOTE 15 ACQUISITION OF EXPLORATION ASSETS

During the period, the Group completed the acquisition of exploration assets. Total acquisition costs for the period amounted to \$51,412,076, which includes various acquisition and related costs and the following significant transactions:

	Cash Consideration (incl option fees) ¹	Share Based Consideration ¹	Acquisition liability ²	Fair value of net liabilities recognised on acquisition ³	Total excess consideration over the fair value of net assets acquired
Acquisition of Coyote Gold Project	\$10,634,000	\$2,140,734	\$11,000,689	\$13,003,481	\$36,778,904

Total	\$14,500,000	\$2,919,000	\$15,000,000	\$18,993,076	\$51,412,076

¹During the financial period the Company completed the acquisition of the Coyote and Paulsens Gold Projects by the issue of 8,340,000 shares at a fair value of \$0.35 each and payment of cash consideration of \$14,500,000 to Northern Star Resources Limited.

²In addition, an amount of \$15,000,000 in deferred cash consideration is payable to Northern Star Resources Limited on or before 30 June 2023.

³Refer to Note 35 for further information regarding the assets and liabilities recognised on acquisition.

The agreement to acquire the Coyote and Paulsens Gold Projects also provides for contingent consideration as follows:

Milestone	Contingent consideration payable A\$
Production of 5,000 ounces of gold from Coyote Gold Project	\$2,500,000
Production of 5,000 ounces of gold from Paulsens Gold Project	\$2,500,000
Production of 50,000 ounces of gold from Coyote Gold Project (inclusive of initial 5,000 ounce production milestone)	\$2,500,000
Production of 50,000 ounces of gold from Paulsens Gold Project (inclusive of initial 5,000 ounce production milestone)	\$2,500,000

Directors have determined that the fair value of the Milestone consideration is nil as at the reporting date. Production from the Paulsens and Coyote gold projects is likely to be contingent upon further exploration success and as such the timing and likelihood of commencement of mining and production activities is uncertain. The Company will continue to assess the production outlook for the Paulsens and Coyote projects and contingent consideration may be recognised in future reporting periods, if required by accounting standards (refer Note 28).

The above amounts of contingent consideration are included as a contingent liability of the Group at 30 June 2022 (refer Note 28).

(i) The equity remuneration reserve is used to recognise the fair value of options issued and vested but not exercised.

NOTE 24 FINANCIAL INSTRUMENTS

Credit Risk

The Directors do not consider that the Group's financial assets are subject to anything more than a negligible level of credit risk, and as such no disclosures are made.

Impairment Losses

The Directors do not consider that any of the Group's financial assets are subject to impairment at the reporting date. No impairment expense or reversal of impairment charge has occurred during the reporting period.

Interest Rate Risk

At the reporting date the interest profile of the Group's interest-bearing financial instruments was:

Number of Options Granted	2022 \$	2023 \$
Variable rate instruments		
Cash and cash equivalents	18,172,023	16,049,091

Cash Flow Sensitivity Analysis for Variable Rate Instruments

A change of 100 basis points in interest rates at the reporting date would have increased/(decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables remain constant.

	Profit or loss		Equity	
	1% Increase	1% Decrease	1% Increase	1% Decrease
2022				
Variable Rate Instruments	181,720	(181,720)	181,720	(181,720)

The Group's policy for recognition of fair values is disclosed at Note 1(u).

NOTE 25 DIVIDENDS

No dividends were paid or proposed during the financial years ended 30 June 2021 or 30 June 2022.

The Company has no franking credits available as at 30 June 2021 or 30 June 2022.

NOTE 26 KEY MANAGEMENT PERSONNEL DISCLOSURES

(a) Directors and Key Management Personnel

The following persons were considered Key Management Personnel of Black Cat during the financial year:

- (i) *Chairman – Non-Executive*
Paul Chapman
- (ii) *Executive Director*
Gareth Solly, Managing Director
- (iii) *Non-Executive Directors*
Les Davis
Philip Crutchfield (appointed 6 April 2021)
Alex Hewlett (resigned 28 February 2021)
Tony Polglase
- (iv) *Senior Executives*
Michael Bourke (GM-Projects) (appointed 29 April 2022)
David Sanders (CFO)

There were no other persons employed by or contracted to the Company during the financial year, having responsibility for planning, directing and controlling the activities of the Company, either directly or indirectly.

(b) Key Management Personnel Compensation

A summary of total compensation paid to Key Management Personnel during the year is as follows:

	Year Ended 30 June 2022 \$	Year Ended 30 June 2021 \$
Total short-term employment benefits	713,219	676,589 ^{1,2}
Total share-based payments	41,412	141,121 ^{1,2}
Total post-employment benefits	75,049	54,755
	829,680	872,465

¹ In the tables above an amount of \$50,000 was accrued in respect of short-term incentive bonus payable to the Managing Director as at 30 June 2020. This was satisfied by the payment of \$25,000 in cash in July 2020 and \$30,799 paid in the form of unlisted options in September 2020 following shareholder approval (based on the valuation of the options at the date of grant). An amount of \$30,799 has been recognised in total share-based payments, and a corresponding reduction of \$25,000 in short-term employment benefits for the year ended 30 June 2021.

² Includes \$75,000 for G Solly and \$35,210 for D Sanders in relation to the short-term incentive bonus payable at 30 June 2021, with the full amount paid in October 2021.

³ STI bonus \$19,600 and \$14,000 accrued for G Solly and D Sanders respectively at 30 June 2022.

⁴ Includes \$41,412 value of Options granted as remuneration on 16 May 2022.

(c) Other Transactions with Key Management Personnel

During the prior years the Company paid Stone Poneys Nominees Pty Ltd, an entity associated with Paul Chapman, in respect of the now terminated lease for the Group's offices. Lease payments for the period ended 30 June 2022 was nil. (2021: \$6,233).

During the prior period the Company employed the spouse of Paul Chapman in an administrative role. Remuneration for the period ended 30 June 2022 was \$nil (2021: \$16,151).

During the period the Company employed the spouse of Gareth Solly in an administrative role. Remuneration for the period ended 30 June 2022 was \$74,913 (2021: \$60,361).

NOTE 28 CONTINGENCIES

(i) Contingent Liabilities

There were no material contingent liabilities not provided for as at 30 June 2021 and 30 June 2022 other than:

Royalties

Kal East Gold project

The Group is subject to a 1% gross revenue royalty in respect of minerals produced from the following tenements: E25/0499, E25/0512, E27/0532, P25/2287, P25/2288, P25/2293, P25/2377, P25/2378 and P25/2641.

The Group is subject to a 1% net smelter royalty in respect of minerals produced from the following tenements: E25/0594, P25/2685 and P25/2323.

The Group is subject to a 1.5% gross royalty in respect of minerals produced from the following tenements: P25/2324, P25/2325, P25/2326, P25/2327, P25/2328, P25/2331, P25/2357, P25/2358, P26/4117, P26/4118, P26/4119 and P26/4122.

Coyote Gold Operations

The Group is subject to a 1.75% gross royalty in respect of all minerals produced from the following tenements, with a scaled dollar/oz based on production above 300koz: E80/1737, M80/0560, M80/0561 and M80/0645.

The Group is subject to a 1.5% gross royalty in respect of minerals produced from M80/0563.

The Group is subject to a scaled dollar/oz based on production above 300koz: E80/1483, E80/3665 and M80/0559.

Paulsens Gold Operations

The Group is subject to a 2.5% net smelter royalty in respect of all production from E08/1649, with an additional 0.75% net smelter royalty in respect of all production over 250koz.

The Group is subject to a 1.75% gross royalty in respect of all minerals produced from E08/1650.

The Group is subject to a 1% net smelter royalty in respect of minerals produced from the following tenements: M08/0191, M08/0192 and M08/0193.

In addition, there may be other historical agreements relating to certain other tenements of the Group, which may, or may not, create an obligation on the Group to pay royalties on some or all minerals derived from some tenements upon commencement of production.

Native Title and Aboriginal Heritage

Native title claims have been made with respect to certain areas which include tenements in which the Group has an interest. The Group is unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not and to what extent the claims may significantly affect the Group or its projects. Agreement is being or has been reached with various native title claimants in relation to Aboriginal Heritage issues regarding certain areas in which the Group has an interest.

NOTE 28 CONTINGENCIES (CONTINUED)

Contingent Consideration

Pursuant to the agreement to acquire the Coyote and Paulsens Gold Projects the Company may be liable to pay contingent consideration based on achieving production milestones from the respective projects as follows (refer Note 15):

Milestone	Contingent consideration payable A\$
Production of 5,000 ounces of gold from Coyote Gold Project	\$2,500,000
Production of 5,000 ounces of gold from Paulsens Gold Project	\$2,500,000
Production of 50,000 ounces of gold from Coyote Gold Project (inclusive of initial 5,000 ounce production milestone)	\$2,500,000
Production of 50,000 ounces of gold from Paulsens Gold Project (inclusive of initial 5,000 ounce production milestone)	\$2,500,000

Directors have determined that the fair value of the Milestone consideration is nil as at the reporting date. Production from the Paulsens and Coyote gold projects is likely to be contingent upon further exploration success and as such the timing and likelihood of commencement of mining and production activities is uncertain. The Company will continue to assess the production outlook for the Paulsens and Coyote projects and contingent consideration may be recognised in future reporting periods, if required by accounting standards (refer Note 15).

(ii) Contingent Assets

There were no material contingent assets as at 30 June 2021 or 30 June 2022.

NOTE 29 COMMITMENTS

(a) Exploration

The Group has certain obligations to perform minimum exploration work on mineral leases held. These obligations may be varied as a result of renegotiations of the terms of the exploration licences or their relinquishment. The minimum exploration obligations are less than the normal level of exploration expected to be undertaken by the Group.

As at balance date, total exploration expenditure commitment on tenements held by the Group which has not been provided for in the financial statements and which cover the following 12-month period amount to \$3,802,600 (2021: \$1,608,220). This includes \$1,723,180 for Kal East, and \$2,079,420 for tenements obtained as a part of the acquisition.

(b) Contractual Commitments

There are no material contractual commitments as at 30 June 2022 or 30 June 2021 not otherwise disclosed in the Financial Statements.

NOTE 30 RELATED PARTY TRANSACTIONS

Transactions with Directors during the period are disclosed at Note 26 – Key Management Personnel.

There are no other related party transactions, other than those already disclosed elsewhere in this financial report.

NOTE 31 EVENTS OCCURRING AFTER THE BALANCE SHEET DATE

Subsequent to 30 June 2022 the Company issued a total of 4,198,389 performance rights expiring 30 June 2027 to senior employees. Details of the 2022 LTI awards have been disclosed in the remuneration report.

Other than the above, there has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

NOTE 35 BUSINESS COMBINATIONS

Black Cat Syndicate Limited completed the acquisition of 100% of the high-grade Coyote and Paulsens Gold Operations ("Coyote", "Paulsens", together, "the Operations") from the seller, Northern Star Resources Limited ("NSR" or "the seller") and its controlled entities on 15 June 2022.

Coyote: The operation is located approximately 20 km on the Western Australia (WA) side of the WA/ Northern Territory (NT) border, on the Tanami Highway. The operation consists of an open pit and an underground mine, 300,000 tpa processing facility, 180+ person camp and other related infrastructure, in addition to a well-maintained airstrip used by government and private enterprises. The operation is currently on care and maintenance and has a Resource of 3.0Mt @5.1g/t Au for 488koz with numerous high-grade targets in the surrounding area. BC8 acquired 100% of the issued shares in Black Cat (Coyote) Pty Ltd (formerly Northern Star (Western Tanami) Pty Ltd), which operates the Coyote Gold Mine, from the vendor. The business contributed revenues of \$72,986 to the Group.

Paulsens: The operation is located 180km west of Paraburdoo in WA. The operation consists of an underground mine, 450,000tpa processing facility, 110+ person camp, numerous potential open pits and related infrastructure. The operation is also currently on care and maintenance and has a Resource of 2.7Mt @2.5g/t Au for 217koz and significant exploration and growth potential. BC8, through its wholly owned subsidiary, obtained control of 100% of the legal and beneficial interest in the Paulsens Gold Mine, currently on care and maintenance, free from encumbrances (other than permitted encumbrances) from the vendor. The business contributed revenues of \$111,211 to the Group.

The Company has been unable to apply the revenue and loss contributions retrospectively on the basis it is impracticable to do so per the AASB 108 definition of 'impracticable'. The Company does not have access to the seller's calculations and The Company only held the Operations for two weeks prior to 30 June 2022.

The acquisition of the Operations enables BC8 to focus on significant drilling campaigns at both operations to grow and upgrade the current high-grade Resources. With these two acquisitions, BC8 controls 1,770 km² in three prime WA gold regions, being Tanami, Paraburdoo and Kalgoorlie. BC8 plans to construct a central processing facility near the Majestic Mining Centre, approximately 50km east of Kalgoorlie. The 800,000tpa processing facility is proposed to be a traditional carbon-in-leach gold plan which will be suited to BC8's resources as well as to third party free milling ores around Kalgoorlie, WA.

The values identified in relation to the acquisition of both Coyote and Paulsens are provisional under AASB 3 Business Combinations as at 30 June 2022.

Managing Director

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Black Cat Syndicate Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How we addressed the Key Audit Matter
Valuation of capitalised mineral exploration and evaluation expenditure	
The consideration of impairment of the carrying value of the Group's Capitalised Mineral Exploration and Evaluation Expenditure assets was material to our audit and represented an area of significant estimate and judgement within the financial report. This matter is considered a key audit matter due to: - the degree of judgement required by the Directors to assess whether impairment indicators are present; - the significance of the additions to capitalised exploration expenditure during the year of \$12.05m; - the significance of the acquisition costs during the year of \$51.4m; and - the materiality of the closing balance at year end of \$92.5m. The related accounting policies, critical accounting estimates and judgements and disclosures are contained in Notes 1, 3, 14 and 15 of the financial report.	Our procedures included, but were not limited to: - assessing the nature of the capitalised costs through testing on a sample basis and assessing whether the nature of the expenditure met the capitalisation criteria under <i>AASB 6 Exploration for and Evaluation of Mineral Resources</i>; - conducting discussions with Management regarding the criteria used in their impairment assessment and ensuring that this was in line with the requirements of <i>AASB 6 Exploration for and Evaluation of Mineral Resources</i>; - reviewing evidence of exploration activities carried out during the year and Management's future intentions for areas of interest the Group holds and to corroborate the representations made by management during our discussions; - assessing the Group's right of tenure by obtaining and assessing third party information supporting the Group's rights to tenure; and - considering the appropriateness of the disclosures in Notes 1,3,14 and 15 to the financial statements in accordance with the relevant requirements of Australian Accounting Standards.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that

an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the group financial report. The auditor is responsible for the direction, supervision and performance of the group audit. The auditor remains solely responsible for the audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We are also required to provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Black Cat Syndicate Limited for the year ended 30 June 2022, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Group are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
