Aspermont MD, Alex Kent, said:

“As per prior guidance, FY22 was an excellent year for Aspermont, at all levels. Given the challenging global conditions, our consistent growth confirms the resilience of our business models and key management to deliver progress regardless of overall financial conditions.

Aspermont has achieved growth in each of the last six years since the turnaround of the business in FY17. We are heading into our second financial year of inward investment, self-financed by our cashflow and cash reserves, as we prepare our organic growth models for a sustained and accelerated period of long-term growth.

Aspermont was founded in Australia, co-listed in Germany and is operationally run from London. Over the next few years our Corporate HQ may relocate to Singapore, and we will draw closer to North America. The next phase of Aspermont growth will likely be supported through a NASDAQ listing.”

This announcement has been authorised by the Board of Directors.
