

Investor Day Presentation

Taking Iress to its next growth horizon

20 April 2023

Disclaimer

For personal use only

The material in this presentation is intended to be general background information on Iress Limited and its activities, current at the date of the presentation. The information is provided in summary form and does not purport to be complete or to contain all of the information that an investor should consider when making an investment decision. It should be read in conjunction with Iress' other periodic and continuous disclosure announcements lodged with the ASX, which are available at www.asx.com.au.

It is not intended to be relied upon as advice to investors or potential investors and does not consider the individual circumstances of any particular investor. Prior to making a decision in relation to Iress' securities, products or services, investors or potential investors should consider their own investment objectives, financial situation and needs and obtain professional advice. Nothing contained in this document constitutes investment, legal, tax or other advice.

NO REPRESENTATIONS OR WARRANTIES

The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

To the maximum extent permitted by law, Iress, any of its related bodies corporate or its directors, officers, employees, professional advisors and agents (Related Parties) do not accept any liability for any loss arising from or in connection with this presentation including, without limitation, any liability arising from fault or negligence, or make any representations or warranties regarding, and take no responsibility for, any part of this presentation and make no representation or warranty, express or implied, as to the currency, accuracy, reliability, or completeness of information in this presentation.

FORWARD LOOKING STATEMENTS

This presentation contains forward-looking statements, which may be identified by words such as 'anticipate', 'believe', 'estimate', 'expect', 'intend', 'will', 'plan', 'may', 'could', 'should', 'predict', 'forecast', 'target' and similar expressions. Indications of, and guidance on, future earnings, financial position, distributions and performance are also forward-looking statements as are statements regarding Iress' businesses, future developments, market outlook, market conditions, results of operations, the outcome of the strategies described in this presentation and the use of proceeds. Such forward-looking statements are based on Iress' current views and assumptions, and involve known and unknown risks and uncertainties, many of which are beyond the control of Iress and its Related Parties.

These risks include domestic and international economic conditions, exchange rates (including foreign exchange rates), competition in the markets in which Iress will operate, the substantial technological changes taking place in the financial software industry, the continuing growth in the technology markets where Iress will operate, and the risk of information security breaches and/or failure of critical systems. A number of these factors are described in the "material business risks" section of our Annual Report for the year ended 31 December 2022 and is available on Iress' website: www.iress.com/resources/investors/reports-presentations

In addition to the risks and uncertainties outlined above, there are particular risks and uncertainties in connection with the implementation of the strategies and targets described in this presentation including: the response of customers to changes in Iress' products, services and platform, including if Iress determines that a product or service should be discontinued, that detailed business plans have not been developed for the entirety of the strategy; that the full scope and cost of implementation may vary as plans are developed and as Iress engages with third parties; that Iress may not successfully execute and manage implementation of these strategies and plans in a sequenced, controlled and effective manner and in accordance with the relevant project and business plans (once developed), including due to a lack of sufficient qualified personnel or loss of key personnel; and Iress' ability to execute productivity initiatives and realise operational synergies, cost savings and revenue benefits in accordance with its plans.

These risks and uncertainties could cause actual results, performance or events to differ materially from those expressed or implied. There are usually differences between forecast and actual results because events and actual circumstances frequently do not occur as forecast and their differences may be material. Forward-looking statements contained in this presentation are not guarantees or representations of future performance and should not be relied upon as such. Neither Iress, nor its Related Parties, give any representation, warranty, assurance, nor will guarantee that the occurrence of the events expressed or implied in any forward-looking statement will occur. Readers should not place undue reliance on these forward-looking statements (including projections, guidance on future earnings and estimates), which speak only as of the date of this presentation. Each recipient of this publication should make its own enquiries and investigations regarding all information included in this publication including the assumptions, uncertainties and contingencies which may affect Iress' future operations and the values and the impact that future outcomes may have on Iress.

To the maximum extent permitted by law, Iress and its Related Parties disclaim any obligation, undertaking or responsibility to update or revise any forward-looking statement to reflect any change in Iress' financial condition, status or affairs or any change in the expectations, assumptions, events, conditions or circumstances on which a statement is based after the date of this presentation, except as required by Australian law (including applicable disclosure requirements).

SECURITIES

This presentation is not intended to (nor does it) constitute an offer, invitation or recommendation by or on behalf of Iress or its Related Parties to subscribe for, purchase, sell or otherwise deal in any equity instrument or other securities, nor are they intended to be used for the purpose of or in connection with offers, invitations or recommendations to subscribe for, purchase, sell or otherwise deal in any equity instruments or other securities.

FIGURES

Iress' financial results are reported under International Financial Reporting Standards (IFRS). This presentation includes certain non-IFRS measures including Segment Profit, EBITDA, Underlying EBIT, Free Cash Flow, and Constant Currency. These measures are presented to enable understanding of the performance of the Company without the impact of non-trading items and foreign currency impacts. Non-IFRS measures have not been subject to audit or review.

All amounts and dollar values are in Australian dollars (A\$). Certain figures, amounts, percentages, estimates, calculations of value and fractions may be subject to rounding differences.

Chair's Address

Chair's Address

For personal use only

Iress vision

Innovative technology company which connects and empowers millions to generate and manage wealth

Iress group financial goal

Consistently achieve 'Rule of 40' returns for shareholders and build new businesses that achieve 'Rule of 40' returns

Strategy Overview

What you will hear today

For personal use only

Reset

1

Structure for accountability and performance

- New P&L, BU-driven structure
- New performance remuneration framework
- New transparent reporting framework
- New path to enterprise improvement - 2025 targets no longer appropriate

2

Cost and assets

- \$32m in cost reduction by 30 June
- Divestment of MFA & Platform Businesses
- Asset write down of ~\$123m

3

Focus on strong core markets

- Wealth
- Trading & Market Data
- Superannuation

4

Manage portfolio for value

- UK, Canada, South Africa
- MFA & Platforms

5

Finish technology uplift

- Completed by Q1 2024

6

Innovate and build

- Wealth
- Data and AI
- Trading

Build

5 Finish technology uplift

6 Build new businesses

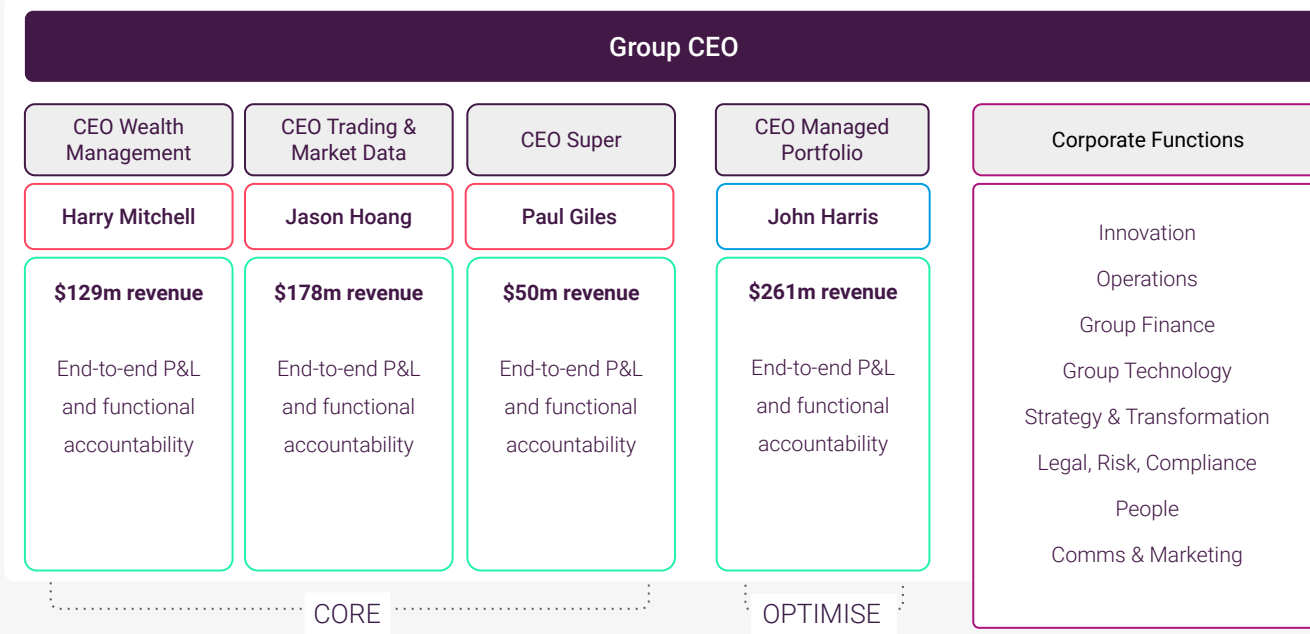

① Reset | Structure for accountability and improved performance

For personal use only

New structure based on business units with P&L accountability

- Clear product-led P&L ownership driving end-to-end accountability and improved performance
- Orient businesses closer to clients, driving improved experience
- Tighter spans of control to drive efficiency and focus
- Functional overlays - culture, major accounts, shared corporate services
- New structure effective 1 July 2023.

① **Reset | Structure** for accountability and improved performance

Introduction of new performance-based remuneration framework

- Existing remuneration framework (including Equity Rights and Performance Rights) to be replaced
- Remuneration framework to be refreshed in line with market norms and expectations
- Aligned to business unit P&Ls
- Cash-based short-term incentives: Balanced scorecard including financial metrics (revenue and earnings), Net Promoter Scores and behaviours.
- Equity-based long-term incentives: Aligned with shareholder returns
- Feedback and approval to be sought from shareholders.

② Reset | Reset cost and asset base

Resetting of costs and asset base to improve efficiency

Program of cost savings through headcount reduction:

- \$32m annualised savings (~10% of group headcount costs)⁽¹⁾ by 30 June
- Current elevated levels of technology project work in non-operating items will come to an end in Q1 2024
- Further additional efficiencies to be gained through new organisational structure in due course.

Program of asset realisation

- Commenced a process to divest MFA and Platforms businesses
- Ongoing process of management and capital repatriation from non-strategic assets
- Write down of ~\$123m - primarily UK assets.

⁽¹⁾Based on 2022 headcount costs

③ Refocus | Refocus on core: Wealth Management

For personal use only

Positive outlook for Australian Wealth Management industry with large unmet need

Industry trends

- 12m¹ Australians want advice but can't access it.
- \$3.5trn intergenerational wealth transfer underway.
- Regulatory tailwinds expected post Quality of Advice Review (QAR).

Strengthen the core

- Strong market position in Australian financial market
- Loyal client base; 90% of Top 20 clients 10+ years tenure; 98% recurring revenue.
- Advisers adapting to changing environment, less well positioned to lead and support.
- Investments in improving core Xplan experience, functionality and service to drive higher NPS.

Innovate to grow

- Advice firms seeking greater scale and profitability.
- Xplan Affinity connecting wealth ecosystem and drive efficiency and reduce cost of advice.
- Digital advice and next-gen advice software in development to drive scale and accessibility across multiple segments

“Financial advisers... cannot provide the answer to the advice needs of all Australians. We need a regime that permits variety and diversity. Not all financial advice is difficult and digital advice tools will help even when it is.”

Michelle Levy, Quality of Advice Review, 2022.

¹ Quality of Advice Review 2022, ² McCrindle (2016)

③ Refocus | Refocus on core: Trading & Market Data

Maintain and enhance leading position in core AU trading; emerging opportunities in data

Industry trends

- Global trading infrastructures require ongoing modernisation - Iress no exception.
- Users demanding single desktops, requiring integration with multiple data sources and software providers.
- Increasing demand for data and insights.

Strengthen the core

- Leading position in core Australian trading technology market.
- Loyal client base; 90% of Top 20 clients 10+ years tenure; 98% recurring revenue.
- Iress investing in improving core IOS stability, functionality and service to drive higher NPS.

Innovate to grow

- Clients seeking differentiation through access to connectivity and data.
- Iress expanding FIX connectivity capabilities to support clients to reach new markets
- Further growth through investments in market data, connectivity and analytics.

③ Refocus | Refocus on core: Superannuation

Scaling up to win the wave of automation in super administration

Industry trends

- Super assets under management forecast to reach \$8.6trn over next 20 years¹
- Super funds to hit the \$1trn FUM benchmark¹
- Spotlight on efficiency pushing super funds to reduce cost to serve and increase value to members
- Increased industry consolidation accelerating drive to digitisation.

Strengthen the core

- Super funds shifting from manual to digital operating models.
- Iress well positioned to lead the wave of modernisation.
- Focus on embedding new clients; 84% of revenue now recurring.
- Investing to scale up and capture strong and growing pipeline of super admin software opportunities
- Expectations of double-digit growth in super admin software revenues.

Innovate to grow

- Iress expanding digital member education and advice capabilities to super fund members.
- Additional investments in enhanced data and analytics capabilities.

④ Refocus | Manage portfolio businesses for value

Focus on empowering management with the tools of private equity

	Strengthen the core	Drive organic growth
Mindset	Market Leader	Market Builder
Strategy	Maintain existing high market position Invest for client value Drive revenue growth	Capture market opportunities Scale up Invest for high revenue growth
Iress Business	<ul style="list-style-type: none"> APAC Wealth Management APAC Trading & Global Market Data 	<ul style="list-style-type: none"> Super Iress Innovations
Rule of 40 Status	At or above "Rule of 40" - high margins with lower revenue growth	Below "Rule of 40" - High revenue growth with margins to improve as business scales
	Clear financial guardrails	

Manage for value	
Private Equity	
Empower management Drive improved performance Manage for value Patient approach to release capital	Divest non-strategic businesses
<ul style="list-style-type: none"> United Kingdom South Africa Canada 	<ul style="list-style-type: none"> MFA & Platform
Below "Rule of 40" - need to improve both revenue growth and margins	
Clear financial guardrails	

⑤ **Build | Finish** technology uplift program

Transition to platform architecture and cloud optimisation program to be completed by Q1 2024

Work completed

- Technology platform design complete and single technology platform foundation built
- All core advice and investment management services successfully migrated to Iress Cloud Platform
- 12 legacy products decommissioned.

Final items to finish

- Migrate and optimise additional trading & market data services for cloud
- Build out of Xplan Affinity.
- Retire nine remaining legacy applications.

Program extension to improve client experience

- Program to refresh core trading software (IOS)
- Program to refresh core advice software (Xplan)
- One-off investment to be complete by Q1 2024.

⑥ **Build | Innovate** to drive future growth

Investment will innovate and build new organic business development opportunities in Wealth, Data/AI and Trading

Innovation discipline

- Additional growth opportunities beyond organic growth in core
- Cultivating and accelerating disciplined approach to innovation
- Small team within existing envelope of R&D expenditure.

Grow next generation of capabilities

- Immediate opportunities focused on next-generation wealth capabilities to meet growing demand for advice
- Explore opportunities in data & AI
- Enhance connectivity capabilities in wealth and trading.

Core and Manage Portfolio Businesses - Financial Profile

For personal use only

2022 actuals

	Core	Manage	Group
Non-Current Assets ⁽¹⁾	\$306m	\$447m	\$754m
Non-Current Assets (adjusted for impairment) ^{(1)/(2)}	\$300m	\$330m	\$630m
Indicative Underlying 2022 NPAT ⁽³⁾	\$64m - \$78m	(\$7m) - \$7m	\$71m
Indicative Underlying 2022 ROIC ⁽⁴⁾	23% - 27%	0% - 4%	13%

⁽¹⁾ As at 31 December 2022. Excludes right-of-use assets and deferred tax assets, and predominantly relates to intangible assets

⁽²⁾ Non-current assets adjusted for impairment of \$123m largely relating to intangible assets of which \$117m relates to the manage portfolio and \$6m relates to the Core

⁽³⁾ Underlying NPAT figures are based on initial estimates of fully allocating costs and removes tax affected non-operating expenses

⁽⁴⁾ Underlying ROIC is calculated using Earnings Before Interest less non operating expenses and tax divided by non-current assets adjusted for impairment of \$123m

Changes to External Reporting Segments

Effective from 2023 annual results, the business will be making changes to segment reporting to support the new organisation structure. Restated financials for new structure will be provided later in the year.

Revenue ⁽¹⁾							
\$129m	\$178m	\$50m	\$159m	\$24m	\$43m	\$35m	

⁽¹⁾ Represents 2022 revenue. Please note that revenue based on new reporting structure may change as the business ensures revenue represents products rather than customers where customers purchase multiple products

⁽²⁾ Represents 2022 functional costs. Please note that functional costs based on new reporting structure may change as the business ensures revenue represents products rather than customers where customers purchase multiple products

Capital Allocation Framework

For personal use only

Investment grade capital structure

- Leverage expected to increase in the short term due to technology investments, restructuring and transformation costs
- Targeting net debt of 1.5-2.0x in the medium term. Deleveraging driven by divestments and earnings growth

Disciplined capital investment

- Maintain capex discipline. Capitalised development costs as % of total P&T spend has been ~10% in last two years. Historically lower
- M&A not a current priority
- Look to exit non-strategic businesses over time

Deliver shareholder returns

- Over time divestments will reduce debt and increase ROIC
- Earnings growth to support dividends
- Supplement with capital management where appropriate

Summary debt profile

(\$m)	2021	2022
A\$350m bank facilities	298.1	282.2
GBP 60.5m fixed rate notes	-	107.3
Debt drawn	298.1	389.5
Cash and cash equivalents	64.4	63.4
Net debt	233.8	326.1
Net debt/EBITDA	1.5x	2.2x

2023 Guidance Update

For personal use only

Pro Forma Segment Segment Profit +10-13% growth v 2022 driven by cost reduction programme

(\$m)	2023 CC
2022 Segment Profit	165
2023 BAU Segment Profit	150-155
Cost out Benefit	16
<i>2023 Segment Profit</i>	<i>166-171</i>
Pro Forma Segment Profit ⁽¹⁾	182-187
Share-based payments	(22)
<i>2023 Underlying EBITDA</i>	<i>144-149</i>
Pro Forma Underlying EBITDA ⁽¹⁾	160-165

- Pro Forma Segment Profit +10-13% v 2022
- Reported Segment Profit +0-3% v 2022
- Going forward, moving away from Segment Profit
- Cost reduction benefit is expected to be \$16m in 2023; annualised benefit of \$32m

⁽¹⁾ Adds back annualisation of 2023 cost out benefit program

2023 Guidance Update - Non Operating Items and NPAT

For personal use only

(\$m)	2023 CC
Total Non Operating Items	~(184)
EBITDA	(35)-(40)
D&A	(40)
EBIT	(75)-(80)
Net Interest and Financing Costs	~(24)
Tax (expense) / benefit	~(3)
Statutory NPAT	(102)-(107)

Non Operating Items

- ~\$123m¹ write down of intangibles, largely relating to UK goodwill based on Q1 performance and revised FY23 revenue outlook for that business (non cash)
- ~\$28m redundancy and transformation costs relating to the cost reduction program and resources to support the execution of strategy
- ~\$28m to finish technology uplift program. including program extension to improve customer experience in core trading and advice software
- ~\$5m other non operating items.

¹ Estimated amount and subject to calculation of actual carrying amounts in June 2023 balance sheet and subject to review by independent auditor
