Gearing ratio (net debt/net debt plus total equity) – %	16.8	10.6	12.3	27.7	32.8

¹ **Bailment finance** is a form of financing peculiar to the motor industry, which is provided by financiers on a vehicle-by-vehicle basis. It is short-term in nature, is generally secured by the vehicle being financed and is principally represented on the borrower's balance sheet as vehicle inventory with the liability reflected under current liabilities. Because of its short-term nature, it is excluded from net debt and the corresponding gearing ratio.

1. Underlying operating results refers to continuing operations outlined and reconciled to statutory results on slides 32 (FY22) and 33 (comparative financial information) of the Investor Presentation released to the ASX on 23 February 2023. Underlying operating figures are non-financial measures and have not been subject to audit by the Company's external auditors.

2. Defined as Cash and Undrawn Lines of Credit.

Chairman's Letter

"Your Company delivered a record underlying financial performance driven by a strong return on sales which has ultimately enabled the Board to declare a record dividend for our shareholders."

Dear Shareholders

2022 was a year of impressive financial and operational performance and continued strategic execution for Eagers Automotive.

Your Company delivered a record underlying financial performance driven by a strong return on sales which has ultimately enabled the Board to declare a record dividend for our shareholders.

Statutory profit before tax was \$442.2 million for the year compared to \$456.8 million in 2021. Underlying profit before tax was a record \$405.2 million, an increase from \$401.8 million in 2021.

We remain in an excellent financial position, underpinned by a substantial property portfolio and asset base, with available liquidity of \$631.1 million at 31 December 2022 providing the capability and flexibility to invest in organic growth initiatives and acquisition opportunities while being active in capital management programs. This will allow us to build on our industry leading market position and continue to create value for our shareholders.

Once again, we are pleased to be able to reward shareholders, with a record fully franked final dividend for 2022 of 49.0 cents per share, which was paid on 31 March 2023. The final dividend combined with our ordinary interim dividend takes total dividends for the full year to a record 71.0 cents per share, versus 62.5 cents per share in 2021 (excluding special dividends). This record final and full year dividend underlines the confidence your Board has in our business and its outlook for 2023 and beyond.

The record performance and shareholder returns are testament to the leadership of our Chief Executive Officer Keith Thornton and the rest of the management team. Two years since his appointment, and having navigated some formidable challenges including a global pandemic, we are delighted with Keith's leadership of the Company and our progress following the succession plan implemented in 2021.

Looking forward, we remain committed to delivering earnings growth and executing on key strategic and operational initiatives. We expect to continue to deliver top line revenue growth associated with the investments and new strategic partnerships established in 2022, while exploring accretive new opportunities for growth, including the New Energy Vehicle market.

Pleasingly, we continue to advance Environmental, Social and Governance (ESG) initiatives and I encourage you to read our second annual Sustainability Report. We will continue to focus on the three core pillars of our sustainability strategy – People, the Planet and our Performance and implementation of ESG initiatives that support our overarching corporate strategy and take into account the environmental, social and governance issues of most importance and relevance to our company.

On behalf of the Board, I would like to extend my thanks to Keith and the management team for their leadership and guidance. A further thank you to all our team members – these record results are not possible without your passion, diligent execution, focus and commitment.

I would also like to acknowledge my fellow Directors for their counsel and valuable input to the Board throughout the year.

In conclusion, I would like to thank our shareholders for their continued support. I am confident that with our strong foundation we are well positioned to capitalise on growth opportunities consistent with our strategy, and Eagers will continue to be a leader in the industry and deliver strong returns for our shareholders for many years to come.

Thank you

A handwritten signature in black ink, appearing to read "Tim Crommelin".

Tim Crommelin
Chairman

Chief Executive Officer's Message

"2022 was a rewarding year for Eagers Automotive. Our balance sheet and financial position remain very strong, with significant available liquidity, providing the capacity and flexibility to support disciplined reinvestment."

Dear Shareholders

I am delighted to report on a year of strong financial performance and strategic progress at Eagers Automotive, which culminated in the team delivering a record underlying profit and a record dividend for the financial year ended 31 December 2022.

Operating Environment

Consistent with the broader economy, the business was largely able to move on from the disruption experienced across the retail sector in 2020 and 2021 during the height of the global pandemic.

While there were some residual challenges from the pandemic, most specifically related to supply and logistics and labour absenteeism in the first half of 2022, the market dynamics for our industry remained favourable allowing the company to leverage the strength of the operating platform built in recent years.

Financial Performance

Eagers Automotive delivered another very successful financial performance in 2022 with records achieved across a number of key metrics.

Overall demand for new and pre-owned vehicles strengthened on 2021 levels, despite interest rate rises and ongoing supply chain delays. New car orders continued to outstrip deliveries in 2022 leading to a record order bank at the year's end, with an increase of 74.4% since December 2021.

While consolidated revenue from continuing operations was marginally down to \$8.5 billion, largely reflecting the divestment of Bill Buckle Auto Group in September 2022, we delivered a record underlying operating profit before tax of \$405.2 million, up from \$401.8 million in the prior year.

On a statutory basis, our profit before tax was \$442.2 million, which equated to a statutory profit after tax of \$324.3 million.

Strong cost management despite the high inflationary environment, aided by a reset cost base and strong focus on efficiency improvements, underpinned our sustainable strong return on sales margin during 2022.

We continued to grow our property portfolio in 2022 ending the year with \$607.6 million of land and buildings. This continued investment in strategic assets combined with \$631.1 million of available liquidity as at 31 December 2022 underpins the strength of the company's financial position.

In reflecting the strength of our balance sheet and the confidence in our outlook the Board approved a record, fully franked, ordinary dividend of 71.0 cents per share in 2022, up 13.6% on 2021.

Strategic Progress

Our financial performance in 2022 was underpinned by our relentless focus on executing our Next100 strategy which will support our growth ambitions for 2023 and beyond.

We expanded our national footprint through the acquisition of multi-franchised dealership groups in the ACT and South Australia. The ACT business includes a diverse portfolio of strong performing brands which account for approximately 30% of all new vehicles sold in the region. The acquisition in Adelaide added further scale and complementary brands to our existing South Australian operations. Both transactions included the acquisition of associated property holdings, consistent with our long-term property strategy.

During 2022 we delivered a key component of our Automall strategy, leading the transformation of automotive retail with the launch of our innovative new retail format Automall West at Indooroopilly Shopping Centre in Brisbane.

In addition, we made significant progress in growing Australia's largest national fixed price pre-owned automotive business, easyauto123. This business delivered revenue and volume growth in 2022 of 25% and 20.3% respectively, whilst also delivering a profitable return in a highly competitive market.

The strategic partnerships that we established with existing OEMs, as well as new market entrants, ensures Eagers Automotive is uniquely placed to deliver top line revenue growth and play a leading role in the industry transition to new energy and low emission vehicles in the immediate future.

Outlook

We have commenced 2023 with a robust foundation for the year ahead.

We continue to closely monitor the macroeconomic environment, however we have a record order book with a significant run-off period and demand remains strong relative to historical levels. When combined with our balance sheet strength we are extremely well positioned for the year ahead.

We continue to manage costs closely, driving productivity improvements across the business through our proprietary technology initiatives and leveraging our scale advantages to drive sustainable, strong return on sales.

Strategic acquisitions, new partnerships and greenfield opportunities established in 2022 will provide the platform for material top line revenue growth in 2023 and beyond.

The generational shift towards a lower emission future creates a unique opportunity for Eagers Automotive to play a leading role in the transition to new energy and low emission vehicles by leveraging our scale and expertise and partnering with existing OEMs and new market entrants.

Acknowledgments

I would like to thank our customers for their ongoing support. Our 2022 results reinforce the enormous trust our customers have in us. We understand that all customers make conscious decisions on where to direct their business and we continue to work hard to win and retain our customers. It is our great privilege to be able to provide products and services to each and every customer we serve.

I would also like to recognise and thank all of our great team members across Australia and New Zealand who have worked tirelessly to deliver this record result for 2022. Our team continues to focus on our customers and key stakeholders to ensure we meet and exceed their expectations.

To each of our OEM partners, we are proud to represent your brand. Our position as your retail partner is a privilege and responsibility we take very seriously. We will continue to focus on being a preferred partner for your business.

To our other suppliers and partners including financiers, landlords and suppliers, your ongoing support and partnership are fundamental to our continued success. Thank you.

Finally, thank you to each of our shareholders, large and small, for your ongoing support and commitment to Eagers Automotive.

We are very excited for what the future holds.

Yours faithfully

Keith Thornton
Chief Executive Officer

Company Profile

About us

Eagers Automotive Limited is the leading automotive retail group in Australia and New Zealand, with a long and proud history of 110 years.

Our name was changed to Eagers Automotive Limited from A.P. Eagers Limited in 2020 following our acquisition of the listed Automotive Holdings Group Limited (AHG). This new name better reflects our position in the automotive industry and recent growth, whilst also maintaining a connection to our foundation.

We are a pure automotive retail group representing a diversified portfolio of automotive brands across Australia and New Zealand.

Our core business consists of the ownership and operation of motor vehicle dealerships. We provide full facilities including the sale of new and used vehicles, service, parts and the facilitation of allied consumer finance.

Our operations are typically provided through strategically clustered dealerships, many of which are situated on properties owned by us in high profile, main road locations, with the balance leased by us.

Our main operations are located in Brisbane, regional Queensland, Adelaide, Darwin, Melbourne, Perth, Sydney, the Newcastle/Hunter Valley region of New South Wales, ACT, Tasmania and Auckland.

Dividends and EPS Growth

We have paid a dividend to our shareholders every year since we listed on the Australian Securities Exchange in 1957.

We have a track record of delivering Earnings Per Share (EPS) growth from acquisitions.

Origins

Our origins trace back to 1913 when Edward Eager and his son, Frederic, founded their family automotive business, E.G. Eager & Son Ltd, which continues today as one of our wholly-owned subsidiaries.

After establishing the first motor vehicle assembly plant in Queensland in 1922, we secured the distributorship of General Motors products in Queensland and northern New South Wales in 1930 and listed as a public company in 1957 under the name Eagers Holdings Limited.

A merger in 1992 with the listed A.P. Group Limited saw the addition of a number of new franchises and our name change to A.P. Eagers Limited. Further new franchises and geographic diversification followed.

Our acquisition of AHG in 2019 cemented our position as the leading automotive retail group in Australia and New Zealand.

Growth

Our sales revenue from continuing operations, which excludes operations during the period either divested or held for sale, has increased from \$500 million in 2000 to \$8.54 billion in 2022.

Our operations expanded into the Northern Territory with the acquisition of Bridge Toyota in 2005.

In 2010, we acquired the publicly listed Adtrans Group Limited, being South Australia's premier car retailer. This was our direct entry into South Australia.

Eblen Motors was acquired in 2011, Main North and Unley Nissan and Renault were added in 2013, and Reynella Subaru was acquired in 2014, complementing our existing operations in South Australia.

A new business, Precision Automotive Technology, was established in 2013 to source and distribute our own range of car care products.

In 2014, our Queensland operations continued to expand through the acquisition of Ian Boettcher Motors in Ipswich and the Craig Black Group in south-west and central Queensland.

2016 saw further growth with the acquisition of Motors Group Tasmania and the Victorian businesses Silver Star Motors, Mercedes-Benz Ringwood and Waverley Toyota.

Our presence in regional Queensland grew substantially in 2016 with the acquisition of the Crampton Automotive and Tony Ireland Groups, taking us into new geographic territories in Toowoomba and Townsville.

In 2018 we completed the acquisition of Toowoomba Motor Group (Mitsubishi and Kia), Metro Nissan (Brisbane) and Southern Vales Nissan (Adelaide).

We acquired a strategic holding in AHG in 2012 which provided indirect exposure to the West Australian market. This investment grew to full ownership of AHG in 2019, bringing significant operations in Perth, Sydney, Newcastle/Hunter Valley, Brisbane, Melbourne and Auckland.

2021 saw strategic acquisitions of Toowoomba Ford and multi-franchised dealerships in Cardiff and Maitland.

2022

In September 2022 Eagers Automotive acquired a portfolio of dealerships and properties located in the Canberra regions of Belconnen, Fyshwick, Phillip, and Gungahlin. The dealership group includes the Toyota, Ford, Volkswagen, Jeep, Lexus, Subaru, Mitsubishi, Volvo and GMSV brands and operates across 10 owned properties and three commercially leased sites. Following this acquisition Eagers Automotive now has operations in every state and territory of Australia.

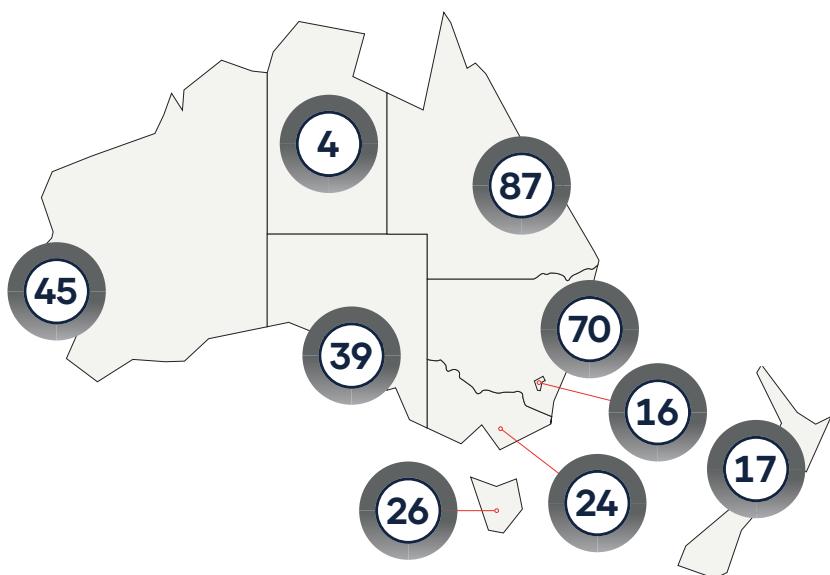

At the end of September 2022, Eagers Automotive acquired a multi-franchised dealership in Adelaide known as NewSpot. The new car dealership brand portfolio obtained through the acquisition includes RAM, MG, Kia, LDV, SsangYong, Suzuki, Fiat and Jeep. The dealerships operate across one owned property that was purchased as part of the acquisition, and six leased sites.

Where We Operate

Eagers Automotive dealerships can be found in all States and Territories in Australia as well as in New Zealand.

NEXT100 Strategy

Providing integrated mobility solutions
for the next 100 years

OPTIMISE

DEVELOP

GROW

Engage our customers, everywhere

Online. At the airport. In shopping malls. In multi-brand service hubs. At home. At work.

Our flexible owned and leased property portfolio allows us to continue to evolve to fit our customers' lifestyles, circumstances, wants and needs.

Redefine our workforce

Our workforce: re-defined and re-imagined, based on our customers' journey.

This transformation is aimed at delivering an all new and vastly superior customer experience on a more sustainable and productive cost base.

Deliver optimised vehicle finance solutions

Capitalise on the unique position our industry occupies in the distribution of motor vehicles, with the aim of becoming the preferred provider of automotive and mobility finance solutions.

Deliver ultra-competitive, highly tailored finance solutions sourced from our extensive funding relationships.

Support innovation

Support our partners to introduce ACE (autonomous, connected and electric) and other emerging product innovations.

Our partners cover circa 95% of the total market for new vehicles in Australia and are at the forefront of design, performance and innovation.

Reinvest with discipline

Disciplined use of shareholder funds combined with rigorous review of existing and new operations to support an unrelenting focus on long-term wealth creation.

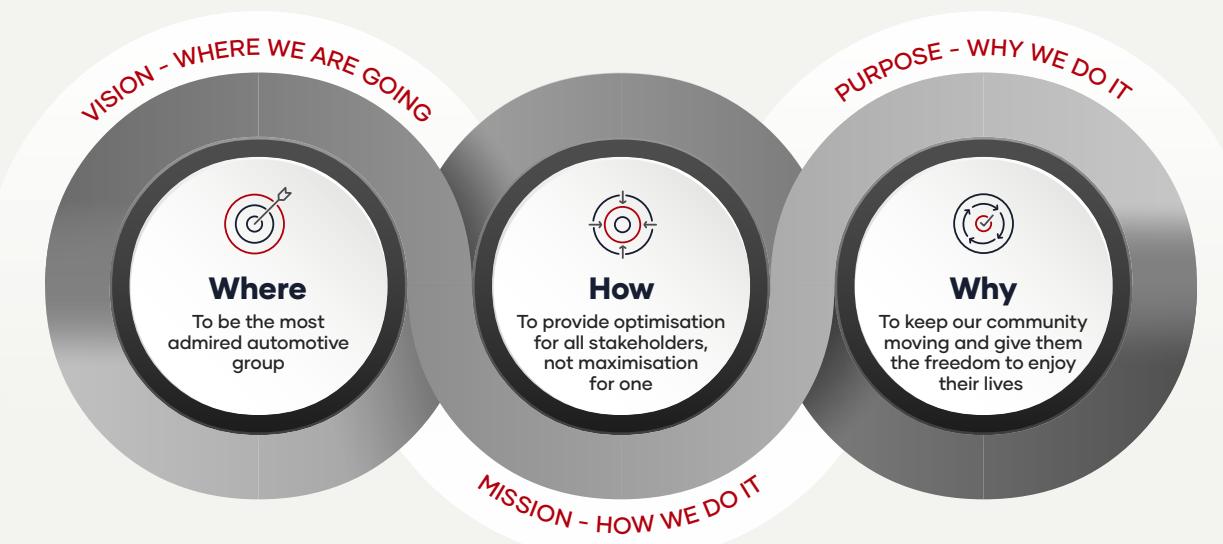

Utilise balance sheet strength to capitalise on evolving and emerging market trends.

Exceed Stakeholder Expectations

Customer. Employees. Partners. Shareholders. Community

Our Guiding Principles

This is what we stand for and the reason why we exist. They guide our people and create a culture where everyone understands what is important for achieving success.

Our Values

Integrity

Doing what you say you'll do

Inclusiveness

Being open and recognising the contribution of all individuals

Owner's Mindset

Taking pride and ownership in your work

Agility

Being flexible and open to change

Sustainability Report

Contents

1. Introduction	11
2. About Us	12
3. People	14
4. Planet – Climate Change and the Environment	22
5. Performance – Sustainable Growth	27
Appendix A: SASB Reference Table	29

We are pleased to present our sustainability report for 2022.

At Eagers Automotive, our vision is to be the most admired automotive group, and we know this cannot be realised without a strong people focus, considered environmental footprint and a business resilient to internal and external pressures.

This is why our sustainability strategy has People, the Planet and our Performance at its core.

1. Introduction

SUSTAINABILITY VISION STATEMENT

SUSTAINABLE TOGETHER

To be the most admired automotive retailer by delivering sustainable growth through the optimisation of our operations, our people and our environment.

MISSION & GOALS

PEOPLE

To attract and retain the best people, deliver superior customer service on a balanced and productive cost base and support sustainable communities through our dealerships and the Eagers Automotive Foundation.

PLANET

To reduce our impact on, and where practicable enhance the environment through operational optimisation and collaborative partnerships.

PERFORMANCE

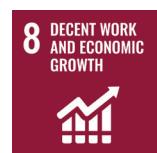

To build a resilient business that can withstand and adapt through market cycles as well as grow and thrive in the face of change and disruption.

Our report for 2021 established the Sustainability Accounting Standards Board (**SASB**) as the globally recognised reporting standard against which we will align for its guidance for companies in the multiline and speciality retailers and distributors sector (**SASB Standard**).

Sustainability is a journey of continuous improvement and accountability and over the past year we have focused on developing a Group-wide sustainability

strategy that supports our overarching corporate strategy and takes into account the environmental, social and governance issues of most importance and relevance to the Group.

We have also considered the Task Force on Climate-related Financial Disclosures (**TCFD**) reporting framework, and have identified the following five United Nations Sustainable Development Goals (**UN SDGs**) which our strategy best supports and aligns:

These five UN SDGs reflect the areas we believe Eagers Automotive Group is best placed to contribute given our prominent role in the automotive retail industry.

2. About Us

Eagers Automotive is the largest automotive retail group in Australia, with a long and proud history over 110 years, more recently expanding operations to New Zealand.

We employed 7,738 people and represented 43 automotive brands during the reporting period, with locations in every Australian capital city as well as regional Queensland, the Newcastle/Hunter Valley region of New South Wales, broader Tasmania and Auckland, New Zealand.

As well as the sale of new and used motor vehicles, our principal activities consist of the distribution and sale of parts, accessories and car care products, repair and servicing

of vehicles, provision of extended warranties, facilitation of motor vehicle finance, property ownership and investments.

Strong company growth in recent years has seen a shift towards greater centralised operational and regulatory oversight. We continue to mature our Group-wide approach and data collection and reporting capabilities, and it is within this context that our sustainability journey is evolving.

Key Facts/Highlights

- ✓ Sustainability vision, mission and goals developed
- ✓ 5 UN SDGs of focus
- ✓ 7,738 employees, 7,323 in Australia and 415 in New Zealand
- ✓ 43 automotive brands represented
- ✓ Dealerships in every Australian capital city

AutoMall West – Indoороopilly Shopping Centre, West Brisbane.

This new automotive retail and service format provides a tailored, flexible and convenient experience for our customers while leveraging a more economically sustainable retail footprint for the longer term.

 - ✓ 7% increase in management positions
 - ✓ >13% increase in non-management positions
- ✓ Our people:
 - ✓ represent > 40 places of origin
 - ✓ speak > 30 different languages
- ✓ Commitment made to remunerate all employees above the minimum wage by end of 2023
- ✓ 377 new apprentices employed
- ✓ 127 apprentices completed their training

(a) Employee Engagement

We recognise there is a strong link between employee engagement and business performance – a highly engaged workforce will ensure we achieve sustainable high-performance outcomes.

Our 2022 Employee Engagement Survey provided the opportunity to hear directly from our employees as to how they feel about working for Eagers Automotive Group, the recent growth in our business and how the COVID-19 pandemic had impacted them.

This survey was conducted by an independent third-party provider, giving employees comfort that the survey was both anonymous and confidential, and enabling feedback to be benchmarked against a portfolio of other automotive, transportation and logistics employers.

Of our 7,316 employees (at that time), 3,964 responded to the survey, representing approximately 54% of our workforce. The survey results highlighted the areas across our business that are most important to our employees, and provided insights about their views on company culture, how we go about our work, where we are headed as a company and where there are opportunities for growth.

(b) Diversity and Inclusion

We recognise the inherent benefits in having a diverse workforce, one that reflects the diversity of the communities within which we operate, and we value the different perspectives and contributions these differences in thoughts and approach can make to our business.

3. People

NAIDOC Week celebrations in Western Australia.

(i) Equal Opportunity and Treatment

To attract and retain the most talented and engaged people and achieve optimum diversity in our workforce, we are committed to fostering a work environment that provides for and respects equal employment opportunities and experiences. We work on the principle that all employment decisions must be based on merit and be non-discriminatory. All employees are valued according to how they perform their duties and their ability and enthusiasm for maintaining company expectations and standards.

Our managers are responsible for ensuring employees are treated fairly and with respect and dignity regardless of race, gender identity, sexual orientation, marital status, age, sex, disability, pregnancy, breast feeding, intersex status or other background or personal characteristics, in accordance with our Diversity Policy, Code of Conduct and other governance documents.

(ii) Diversity Policy

In accordance with our Diversity Policy, the Group's governing Board has set the following objectives for achieving diversity in the composition of our Board, senior executives and workforce generally:

A. Board Composition

As against our diversity target to increase female representation on the Board to 30% by 2025, women now make up 25% of the Board.

Gender	February 2023	February 2022	February 2021
Board			
Female	25.0%	22.2%	20.0%
Male	75.0%	77.8%	80.0%

B. Diversity and Inclusion Training

'Inclusiveness' is one of our four company values and to help embed this value across the Group, our objective is to deliver diversity and inclusion training to all managers over a four-year period, focusing on increasing awareness of unconscious biases and understanding how differences can contribute to the development of a high-performance culture.

Diversity-related management training and coaching provided in 2022 included in the areas of:

- Leadership
- Unconscious Bias
- Duty of Care
- Workplace Harassment & Bullying
- Discrimination
- Probation
- Mental Health Awareness

C. Workforce Gender Composition

We are committed to improving the gender balance of our workforce. Our objective is to recognise and better understand relevant gender issues in our workforce so that we can ensure a supportive environment for all and minimise any barriers to gender equality.

The following table shows the gender representation across the Group, and the increase in female representation across our management and non-management roles from our 2021 results.

Gender	2022 Rate*	2021 Rate*
Management		
Female	15.2%	8.2%
Male	84.8%	91.8%
Non-Management		
Female	39.3%	25.6%
Male	60.7%	74.4%
Non-Specific	0.1%	—
Apprentices and Trades People Graduates		
Female	4.3%	5.1%
Male	95.7%	94.9%

* Rates are calculated to the nearest one decimal place.

A formidable force – Fearless Female+ Forum group photo 2022.

R U OK Day morning tea event at corporate head office, Brisbane to encourage our people to start meaningful conversations with someone they feel may be struggling with the pressures of life.

As we continue to recover from the impacts of the COVID-19 pandemic, priority during the year was given to regional initiatives to support and promote a gender diverse workplace including these targeted programs:

• Fearless Female+ Forum

Established in April 2021, the Fearless Female+ Forum is a networking forum to inspire, motivate and connect aspiring female and non-binary leaders across our Western Australian businesses and work toward bridging the gender gap in the automotive industry.

During 2022 the Forum held sessions focusing on mindset, recognising potential, psychological safety, personal brand, realising purpose and achieving work life balance.

• GROW Program

The GROW Program operates across our South Australian dealership network and is a 12-month in-house development program aimed at our female employees to help develop self-confidence and personal leadership skills to further their careers.

Consisting of three modules run over three separate days throughout the year, it is also supported by other initiatives including guest speaking groups, charity events and a celebration dinner at the end of the year.

Other diversity and inclusion activities are guided centrally and practised at the dealership level. For example, we support various charity and community awareness activities which are outlined in our annual Health & Wellbeing Calendar and published on our company intranet. In 2022, these events included R U OK Day, Mental Health Awareness Week, International Women's Day, International Men's Health Week, National Sorry Day, NAIDOC Week, Darkness to Daylight and Safe Work Month.

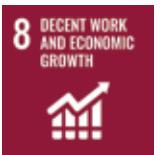

GROW Ladies Day 2022 raised over \$15,000 for local charities in South Australia.

D. Cultural Diversity Recognition

Similarly, we are also working to better understand the cultural heritage and diversity of our workforce. According to our 2022 Employee Engagement Survey, while Australia, New Zealand, United Kingdom and Asia are the prominent countries or places of origin of our employees, more than 40 other places of origin are also represented, and our employees speak more than 30 different languages.

Long Service Dinner – Western Australia's longest serving employee, Maureen Rice, who has 48 years of tenure with our business.

Western Australia's 30 Year Club – Recognising and celebrating our employees who have served our businesses for 30+ years.

(c) Reward and Recognition

Appropriate and adequate rewards and recognition are an important driver of employee engagement and we are proud that many of our employees have chosen to have long careers with us. To celebrate our long tenured employees, we recognise annual service anniversaries that begin after 10 years with us, and every subsequent five-year anniversary. This acknowledgement includes CEO recognition, a gift of appreciation and celebratory events.

Throughout 2022 all our employees were remunerated in accordance with the relevant industrial awards and enterprise agreements. The broad variety of roles within the Group that are captured by the SASB reporting standards means the reporting of averaged labour rates¹ may not reflect accurately and is therefore of limited extrinsic value. This does not detract, however, from its importance to entities with less diverse business operations and in international markets that do not have the extensive industrial relations regime applying in Australia.

We are committed to exceeding all legal and employee payment obligations, which is reflected in the reduction in the number of our employees paid the minimum wage, and subsequently, an increase in the number of our employees paid above the minimum wage. By the end of 2023, our aim is that all Group employees will be remunerated above the minimum wage.

Precision Automotive Technology (PAT) Diamond Awards Night 2022 for our QNT region. These awards are held annually in our regions and recognise the exceptional work performance of our PAT sales teams.

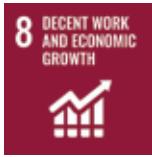

Minimum Wage Employee Rate	2022 Rate*	2021 Rate*
Whole of Group	0.9%	1.4%

* Rate is calculated to the nearest one decimal place.

¹ For example, the average hourly wage of retail and distribution employees, as required by CG-MR-310a.1.

(d) Career Development and Training

As Australia's leading automotive retailer, we are committed to the future of the automotive industry and actively look to encourage people to pursue and maintain careers in our sector.

(i) Learning and Development

We value continuous learning that supports role performance, customer service improvements and achievement of professional goals. In that regard, we provide training in many areas including:

- Sales and Service Development
- Car Care
- Finance and Insurance
- Leadership
- Workplace, Health and Safety
- Managing Award Based Workforces
- Manufacturer and product-specific training
- Systems training

Company-sponsored training and educational opportunities are also available on a case-by-case basis, in areas such as executive education, future leadership and sponsored higher education.

(ii) Apprenticeships

We have various apprenticeship and traineeship opportunities available in Automotive Trades and Services, as well as Administration.

We employ 769 apprentices across the Eagers Automotive Group. In 2022, 377 new apprentices were employed, and 127 apprentices completed their training to become qualified Automotive Technicians, Automotive Electricians and Parts Interpreters.

We provide many benefits to support our apprentices during their training, including payment of technical fees, interest-free loans to purchase toolkits, the opportunity to salary sacrifice some expenses, and discounts on vehicles, parts and servicing.

(e) Labour Practices

We recognise the importance of monitoring certain aspects of labour practices to ensure that we are providing our employees with a great place to work and that any issues that may arise can be appropriately and promptly addressed. The below sets out the Group's employment turnover breakdowns and addresses, as applicable, employment violations for the reporting period, in satisfaction of the SASB reporting requirements.

(i) Turnover

The table below shows our employee turnover across our Group in 2022 and the Group is working on implementing employee retention strategies that focus on recruitment and employee engagement in an effort to reduce turnover rates across the business going forward. Voluntary turnover includes resignations and retirements, while involuntary turnover includes dismissal, redundancy and non-renewal of contracts.

Group-wide Turnover	2022 Rate*	2021 Rate*
Voluntary	33.0%	30.2%
Involuntary	3.2%	3.0%

* Rates are calculated to the nearest one decimal place.

(ii) Labour Law and Other Violations

We did not incur any monetary loss in 2022 as a result of legal proceedings associated with labour law violations.

We also did not incur any monetary loss in 2022 as a result of legal proceedings associated with employment discrimination.

3. People

(CONTINUED)

(f) Balancing Work Goals with Life Goals

To be truly aligned with our "Inclusive" corporate value and to attract and retain the best employees, we know that we need to meet our people at whatever stage they are in their life, whether that be raising children, caring for elderly parents, pursuing further education or achieving personal life goals – because high performing people don't just perform highly in their work life.

(i) Parental Leave Policy

It is important to us that our employees maintain a balance between their work and family commitments. During the reporting period we developed a new harmonised Parental Leave Policy, incorporating our Maternity Support Program, which is intended to subsidise any payments made under the relevant Government Scheme to assist eligible employees to maintain their usual average pay for a period of up to 12 weeks during their parental leave.

(ii) Employee Assistance Program

We continue to provide employees and immediate family members with access to 'Best You' by Benestar – an independent, free and confidential counselling and support program in areas such as mental health, relationships, exercise, sleep and financial counselling, and the online platform BeneHub which contains a library of health and wellbeing resources.

(g) Health, Safety and Wellbeing

We are dedicated to ensuring the health, safety and wellbeing of our people at work, through the ongoing identification and management of workplace health and safety risks in accordance with our Workplace Health, Safety and Environment (**WHSE**) Policy, Risk Management Procedure, integrated WHSE software platform and other supporting documents and systems.

Our health and wellbeing activities during 2022 included:

- Review, reduction and simplification of our Safe Work Instructions to aid usability and compliance.
- Launch of a new online WHSE Risk Profile Register for greater ease of reporting, monitoring, task assignment and control measure alignment.
- Roll out of a suite of short training videos to support our WHSE Policy and related policies, procedures and practices.
- Development of an Electric Vehicle Safety Guide to respond to the identification of electric vehicle safety as an emerging risk.
- Safe Work Month safety campaign and competition to recognise and reward employees for their promotion and ownership of a safety culture.

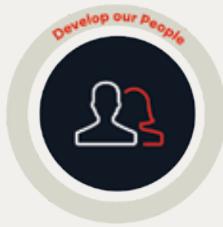

(h) Modern Slavery

As a reporting entity under the *Modern Slavery Act 2018* (Cth), the Eagers Automotive Group continued to mature its approach to the identification and understanding of modern slavery risks in its operations and supply chain, and to strengthen its controls to mitigate these risks.

This year we reviewed and revised our supplier questionnaire process with the aim of uplifting supplier engagement and enabling more efficient risk assessments in line with a risk-based approach.

We also strengthened our modern slavery governance through the development of a Modern Slavery Policy, reaffirmed our commitment to protecting against modern slavery practices in our revised Code of Conduct, and are in the process of developing modern slavery training and awareness for roll out to employees in 2023.

5 GENDER EQUALITY

8 DECENT WORK AND ECONOMIC GROWTH

(i) Supporting our Community – Eagers Automotive Foundation

Established in 2013, the Eagers Automotive Foundation provides meaningful and sustainable support to our communities, and as all administration expenses of the Foundation are paid for by Eagers Automotive Limited, we ensure that 100% of donations are delivered to intended recipients.

The Foundation's vision is to create a lasting spirit of giving within the Eagers Automotive network for those in need. Employees have the option to donate a portion of their salary to the Foundation through our Workplace Giving Program and are encouraged to propose charities and causes close to their heart for the Foundation to support, through a formal grant process.

Our dealerships also have a longstanding history of giving and together with the Foundation, our support exceeded \$1,480,000 in monetary and in-kind contributions during 2022.

Tree planting day – our employees planted over 650 native trees at Bannister Creek Reserve, Western Australia.

Supporting National Breast Cancer Foundation (NBCF) – Our WA parts distribution centre, AMCAP, donated \$13,500 to the NBCF in 2022, via NBCF CEO Cleola Anderiesz. AMCAP not only raise valuable funds to support the NBCF's mission towards zero deaths from breast cancer by 2030, but create breast cancer awareness through its pink NBCF branded cabinets and containers.

Tim Franklin is undertaking an incredible feat to run the world – known as 'Tim Runs The World.' The 26,232 kilometre (16,300 mile) journey will take Tim from his home city of Brisbane with the objective to be arriving back within 433 days to break the current world record. Tim is fundraising for his journey with a percentage of all donations going to his three chosen charities – Inspiring Brighter Futures, Lung Foundation Australia and Wings for Life. easyauto123 supported Tim's world record attempt by providing a drive car for his support team during the New Zealand leg of his journey.

Supporting Cancer Council ACT through the provision of a vehicle.

Supporting Variety – The Children's Charity of Queensland, through the funding of two \$20,000 bikes for the Championing Cycling for Kids with Disability Program. This program provided the children at Nursery Road State Special School, Brisbane with adaptive bikes that are engineered to give all children the opportunity to share in the joy of riding a bike.

Eagers Automotive Foundation 2022 Initiatives

Organisations, causes and events benefiting from Group initiatives during 2022 include:

Eager for personal development

Queensland

- Ginger Cloud Foundation
- St Vincent de Paul Society – Christmas Appeal and Flood Appeal
- Darkness to Daylight
- Hope in a Suitcase Australia
- National Breast Cancer Foundation
- Waalitj Foundation
- CPL Giving Day
- Jack Reed Foundation
- Mangrove Housing
- Variety Bash
- Peak 2 Park
- Loads of Love
- Xavier Foundation
- Variety – The Children's Charity
- The Humpty Dumpty Foundation
- Wheely Fun Kids Cycling Program
- Tour De Pif
- Tour De Brisbane
- Rural Aid Australia
- Ecumenical Coffee Brigade
- Cystic Fibrosis Australia
- Baby Give Back
- Mater's International Women's Day

South Australia

- Minda
- Backpacks 4 SA Kids
- Kickstart for Kids
- Living Without Limits
- The Royal Society for the Blind
- Youth Opportunities
- GROW Ladies Day
- Big Night Out

Western Australia

- Dress for Success
- The Salvation Army Australia
- Lifeline Australia
- Immune Deficiency Foundation Australia
- Cancer Council - Australia's Biggest Morning Tea
- Camp Quality
- Waalitj Foundation
- Western Australian Association for Mental Health (WAAMH) - Mixed Mental Health Charity Game
- National Breast Cancer Foundation
- Harry Perkins Institute of Medical Research
- Oz Harvest
- Activ Foundation
- North Perth Christmas Lunch-for homeless and in need
- Special Children's Christmas Parties (Perth)
- Wheels for Hope
- Perth Children's Hospital Foundation
- Headspace
- BulldustNBack 2022 – Children's cancer and mental health charities
- Cystic Fibrosis
- Lionheart Camp for Kids
- Muscular Dystrophy Association of WA
- National Tree Day
- Pink Ribbon Breakfast
- Hearts for the Homeless
- Movember

Northern Territory

- Fight Cancer Foundation
- Camp Quality
- Cancer Council NT
- PAWS
- Special Children's Christmas Party

New South Wales

- Immune Deficiencies Foundation Australia
- Mark Hughes Foundation
- Elouera Surf Lifesaving Club
- Penrith Men's Walk and Talk
- Better Foundation – Blacktown and Mount Druitt Hospitals
- Kids Rehab at The Children's Hospital at Westmead
- Society 389 Children's Charity Club

Australian Capital Territory

- Canberra Pet Rescue
- Roundabout Canberra
- Walk with me
- Percy Begg Pantry
- Soldier On
- Community First Program
- Beryl Women Inc
- Ronald McDonald House Charities
- Carers ACT
- Cancer Council
- St Vincent De Paul
- Marymead

Victoria, Tasmania and New Zealand

- Variety the Children's Charity – Bikes4Kids and Motor Mouth Camp
- Camp Quality
- Pathways Tasmania
- Cancer Council
- Tasmanian Institute of Sport
- St Giles Society
- Sally's Ride
- Tim Runs the World
- Breast Cancer Foundation

For every new or demonstrator vehicle sold and delivered in December 2022, two of our Melbourne dealerships donated a bike, helmet & lock valued at \$218 to **Variety Bikes4Kids** program to show children the joy, fun with friends and fitness that owning a bike can bring. 92 bikes were donated in 2022, with a total value over \$20,000.

The Push-up Challenge 2022 – 24 Days, 26,182 push ups. 25 of our Western Australian employees participated in The Push Up Challenge raising over \$2,800 for **Lifeline WA**.

4. Planet – Climate Change and the Environment

The increasing occurrence of serious weather events affecting our service territories is a continuing reminder of the risks that natural disasters pose to our property, assets and operations, and the importance of appropriately incorporating business resilience activities into our strategic planning.

Key Facts/Highlights

- ✓ 14 underground petroleum storage systems (UPSS) decommissioned, handed back or divested
- ✓ 15 solar photovoltaic systems installed

(a) Environment

Our business activities can be both impacted by, and have an impact on, the environment in which we operate. Our efforts have and will continue to focus on mitigation activities that optimise our physical environment, deliver greater business resilience, and improve customer and employee experience and satisfaction.

(i) Hazardous Chemicals

A. Chemical Risk Management

Our operations involve the handling, storage and sale of many hazardous chemicals such as paints, solvents, fuel, degreasers, aerosols and oil. Our WHSE Risk Management approach aligns with our overarching risk management approach.

Our centralised safety management system and use of Chemwatch, an externally run online platform, enables the application of specific control measures for each site, including the development and maintenance of chemicals registers, Safety Data Sheets, chemical composition awareness to aid decision making, signage and employee training in the safe handling and use of chemicals.

Group, State and site safety partners and advisors, as well as Operations Management are supported in their ownership of chemical risk management by a suite of governance documents and processes including our WHSE Policy, Environmental Register, WHSE Risk Management Procedure, and site and business-based risk profile registers which are tested through an internal audit program using audit criteria aligned to our safety management system.

4. Planet – Climate Change and the Environment

(CONTINUED)

Underground Petroleum Storage System (UPSS) –
One of the 37 UPSSs decommissioned, handed back or divested under our program of works to mitigate safety and environmental risks associated with UPSS.

B. Hazardous Chemical Handling and Elimination

Within dealership and service operations, chemical use and management is primarily guided by vehicle manufacturer requirements and those of the third-party products we on-sell.

Programs have also commenced to help mitigate environmental and safety implications of certain hazardous chemicals used within our operations. For example, a chemical control and substitution program is being piloted to eliminate the use of harmful chemicals in products (such as detailing products) provided by a supply partner, and a review of our spray-painting activities was completed to ensure their continued safe operation.

At the beginning of 2021 there were 56 underground petroleum storage systems (**UPSSs**) across our network of dealerships and service centres with the potential to present safety and environmental risks if they were to deteriorate over time. As such, we commenced a program of works that will ultimately see all UPSSs decommissioned, handed back (if within a leased site), or divested (if subject to a property sale). To date 37 UPSSs have been decommissioned, handed back or divested, 14 of these during the reporting period.

(ii) Waste Management

The Group's waste management initiatives address specific site and operational impacts and requirements and are focused on reducing, reusing or recycling waste materials:

—**Reduce and reuse** – The Group is in the process of rolling out electronic contracts for customers and document management systems to not only improve customer and employee experience, but reduce paper usage, increase information security, and reduce physical storage expenses.

At our parts distribution and service centres goods may be unpackaged and repackaged for distribution to customers and other Group locations. Packaging initiatives have focused on reducing use of single-use plastic, substituting plastic products with paper equivalents (i.e. plastic bags and tape) and reusing cardboard boxes for repackaging goods where appropriate (dependant on size, shape and weight considerations).

At Precision Automotive Technology (**PAT**), the Group's wholly-owned provider of premium aftermarket car care products, cardboard product boxes are made in Australia by a company that is a signatory to the Australian Packaging Covenant and plastic product bottles are also made in Australia by a carbon neutral plastics factory.

—**Recycle** – Paper and comingled recycling initiatives are deployed throughout our sites and other recycling initiatives include the recycling of plastics (such as pallet wrapping, bumpers and mouldings), timber pallets, cardboard boxes, metal (predominantly manufacturer's transport frames, damaged panels, and doors), lead acid batteries and tyres.

4. Planet – Climate Change and the Environment

(CONTINUED)

7 AFFORDABLE AND CLEAN ENERGY

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

(b) Climate Change

As a business operating across Australia and New Zealand we recognise the impact of climate change on our environment and the impact severe weather events can have on buildings and assets, as well as business operations and people. In this section we provide an overview of the Group's greenhouse gas (**GHG**) emissions and mitigation activities to reduce the impact of our operations on the environment.

(i) Climate Change Governance – Risks and Opportunities

We acknowledge that as a retailer of new and used vehicles, regulatory and consumer demands are a driving force behind our original equipment manufacturers (**OEMs**) transitioning to significantly reduced carbon emissions and this, as well as any increase in extreme weather events, will continue to impact our business, presenting both climate change risks and opportunities.

The Group underwent a climate change risk identification process during the reporting period. The climate related physical and transition risks recognised as having the potential to impact our business are not unusual or dissimilar to other retail entities operating within the automotive industry and across our operational territory and include:

- Increases in extreme weather events impacting property and other physical assets, as well as causing supply chain disruption.
- Changes in operational requirements resulting from increased OEM requirements to meet climate related regulatory changes.
- A shift in market demand (internal combustion engine (**ICE**) to low emission vehicles (i.e. electric, hybrid, hydrogen and emerging)) and resulting operational impacts.
- Utility, transportation and insurance cost pressures (for example water, power, fuel and waste).
- Changing workplace health, safety and environment hazards.

Building asset resilience – Construction works underway at our corporate head office in Newstead, Brisbane, after the site was impacted by the February, 2022 Brisbane flood event. Resilience activities include the construction of a flood mitigation wall around the perimeter of the property and the installation of backflow prevention valves on plumbing infrastructure.

Many of these climate change risks present opportunities for our business, including cost savings through energy, recycling and asset resilience initiatives, as well as retail sales product mix with the demand for and supply of lower emissions products and services.

Our diversified vehicle brand approach places us in a strong competitive position to adapt to shifting consumer preferences, while our diversified business approach enables us to leverage new opportunities. Our broad geographic operations base also ensures we are well placed to mitigate the impacts of extreme weather events, all together increasing business resilience and ensuring financial stability.

See section 5(a) of this report for more information about the Group's approach to climate change risk management.

4. Planet – Climate Change and the Environment

(CONTINUED)

(ii) Greenhouse Gas (GHG) Emissions

Although our business, as a retailer, generates a relatively modest level of GHG emissions, we are committed to playing our part in the broader emission reduction response. An annual review of the emissions and energy consumption of the Group's Australian operations is undertaken as part of our compliance with Australia's national greenhouse and energy reporting requirements (**NGERS**).

Our main sources of Scope 1 emissions include emissions from transport fuel (i.e. Diesel, petrol and LPG). Our NGERS reporting for the 2021-2022 highlights reductions across all three fuel uses.

Our main source of Scope 2 emissions derives from purchased electricity. Our NGERS reporting for the 2021-2022 also showed a decrease in electricity usage across the Group, down 11% from the 2020-2021 reporting period. These decreases may be attributed in part to energy efficiency and renewable initiatives as well as site consolidations.

Our total Scope 1 (direct) and Scope 2 (indirect) emissions for the NGERS reporting year 2021-2022, in comparison to the previous year were:

T CO ₂ -e	2021-2022	2020-2021
Scope 1	29,067	33,009
Scope 2	26,104	29,561
TOTAL	55,171	62,570

Our emissions data collection and reporting processes are maturing, and we are currently investigating the most appropriate metric by which to report our emissions trends that also takes into account our company's growth strategy.

A. Reducing CO₂ Emissions – Eagers Automotive Group initiatives

The majority of our operational GHG emissions come from electricity used to power our sites and offices. Heating, ventilation and air conditioning (**HVAC**) are the largest users of electricity in our business, at approximately 60% of total usage. Although HVACs are the most significant consumers of electricity, it is important that we continue to provide our employees and customers with a comfortable and safe place in which to work and visit.

Solar system installed on one of our Toowoomba dealerships in South-East Queensland.

We have continued to roll out our solar replacement and installation program with an additional 15 Solar Photovoltaic systems installed in 2022, each providing between 30Kw and 100Kw of electricity.

The Group also continued its installation of more energy efficient lighting and air conditioning systems and use of sensor and timing devices, all together contributing in part to a reduction in energy consumption from the last reporting period despite overall business growth and aiding in the management of rising electricity prices.

B. Reducing CO₂ Emissions – Partner initiatives

Our OEM partners have set ambitious targets for reducing CO₂ emissions and increasing the sale of electric vehicles, and we are committed to supporting and facilitating their journey to a lower emissions economy by bringing these vehicles to market.

The table on the following page provides a summary of the targets from 13 of the top 15 brands sold in Australia and represented by the Group, which accounted for 76% of all new vehicle sales in 2022.

4. Planet – Climate Change and the Environment

(CONTINUED)

OEM Target	Target Year
1 Reduce global average CO ₂ emissions from new vehicles by 90%, compared to 2010 levels	2050
Global Battery Electric Vehicle sales target of 3.5 million each year	2030
Achieve carbon neutrality across Australian operations	2025
2 Achieve carbon neutrality across global manufacturing facilities	2035
Reduce 'well-to-wheel' CO ₂ emissions and achieve a 50% reduction, compared to 2010 levels	2030
All vehicles will be electrified, and pure-electric vehicles will account for 25 to 40% of those sales	2030
3 All vehicles, production facilities and suppliers will be carbon neutral	2045
All electricity at production facilities to be replaced by 100% renewable energy	2040
Phase out production of all combustion engine vehicles in key markets (exc. Australia)	2040
Global sales target for electric vehicles of 1.4 million each year	2030
4 Achieve target of net-zero in terms of emissions across the value chain	2050
CO ₂ emissions from new vehicles to be 40% below 2010 levels, and electric vehicles to be 50% of all vehicles sold	2030
CO ₂ emissions from business activities to be 40% below 2014 levels	2030
5 Eliminate or offset GHGs generated at all stages of the value chain, including purchase, procurement, production, sales, use and disposal	2045
All electricity at production facilities to be replaced by 100% renewable energy	2045
Achieve 100% electrification of new vehicles worldwide	2040
Global sales target for electric vehicles of 1.87 million each year	2030
6 All vehicles, production facilities and suppliers will be carbon neutral	2050
Source 100% carbon-free electricity for global operations	2035
50% of global sales will be battery/electric powered	2030
Global sales target for electric vehicles of 2 million each year	2026
7 Pursue goal of reducing the average CO ₂ emissions from new passenger cars by at least 90%, compared to 2010 levels	2050
All commercial cars will be equipped with electric powertrain technology	Early 2030s
Increase the ratio of electric vehicles (EV) and hybrid cars to 40% of the gross number of vehicles sold, globally	2030
8 Achieve target of net-zero across the entire life cycle of new vehicles	2050
Achieve target of net-zero arising directly from business and manufacturing operations	2050

OEM Target	Target Year
Reduce CO ₂ emissions from business activities by 50%, on 2013 levels	2030
Offer a complete fleet of carbon neutral vehicles	2030
9 Achieve target of net-zero in terms of emissions across the value chain	2050
Reduce vehicles' CO ₂ emissions in production and use phase by 30%, compared to 2018 levels	2030
Increase the proportion of the fleet that is electric to at least 50%	2030
Reduce the production-related environmental impact with respect to energy, water, waste by 45% per vehicle	2025
10 All new vehicles to be CO ₂ neutral along all stages of the value chain	2039
Reduce CO ₂ emissions of new vehicles by 40%, on 2018 levels	2030
Plug in hybrids or all-electric vehicles to account for more than 50% of car and van sales	2030
Customers to be offered the choice of at least one all-electric vehicle in every vehicle segment	2025
Manufacturing operations at all production plants to be CO ₂ neutral	Achieved
11 Achieve target of net-zero in terms of emissions across the value chain	2050
Every all-new vehicle offering in key markets will be electrified	Early 2030s
Aim to have an electrification mix of more than 50% globally	2030
Introduce 20 new EV and e-POWER equipped models in key markets	2026
12 Achieve target of net-zero in terms of emissions across the value chain	2050
Reduce CO ₂ emissions per vehicle and kilometre driven by 40% throughout the entire lifecycle – supply chain, production and use phase – from 2019 levels	2030
50% of sales volumes to come from fully electric vehicles	2030
10 million fully electric vehicles to be on global roads	2030
13 Zero CO ₂ emissions from production	2050
Start full scale inclusion of electrification technologies in vehicles	2030
Reduce 'well-to-wheel' CO ₂ emissions by 40%, compared to 2010 levels	2030
Reduce CO ₂ from business activities by 45% in base unit per sales unit, compared to 2016 levels	2030
Launch the first EV for international markets	2025

5. Performance – Sustainable Growth

Robust risk management processes and practices integrated into our work culture are important for the resilience and long-term sustainability of our business.

Key Facts/Highlights

- ✓ Independent review of our cybersecurity practices
- ✓ Establishment of a standing Privacy Management Working Group
- ✓ Commenced review of key employee and governance policies

Following assessment, risk management plans and controls for individual risks are developed and implemented by management. Risks are assessed on a bi-annual basis by each functional area and provided to the Executive Leadership Team for review, after which the risk ratings are submitted to the Audit & Risk Committee. The Audit & Risk Committee monitors, assesses, and reports to the Board on the effectiveness of the risk management system and the group risk register. Risks are communicated through the business as agenda items at key management meetings (including Executive, Board and Audit & Risk Committee meetings).

The Eager Automotive Board oversees the Group's risk management approach and is responsible for ensuring a sound system of risk oversight, management and internal control is in place. The Board sets the risk appetite within which management is expected to operate. Climate and sustainability related issues are considered by the Board as relevant, for example, when reviewing and guiding strategy, setting performance objectives, and overseeing major capital expenditure.

(a) Risk Management Framework

Our risk management framework provides the tools to identify and report on key business risks, including climate change risks. The Group risk register is prepared by management and includes specific risk groups across seven (7) risk categories. Of these risk categories, climate related risks are included under the 'strategic', 'operational', 'people', 'legal' and 'social' categories.

When identifying risks, changes in external and internal context and indicators of emerging risks are considered. The risk analysis examines consequences and likelihood to determine a risk rating that supports the priority of actions for managing risks. The risk matrix provides parameters for risk analysis to ensure a consistent approach.

(b) Data and Information Security

We take a proactive approach to protecting our commercial, customer and employee information, with multiple strategies deployed to reduce the risk of cyber security breaches, including:

- Next-Generation Antivirus protection across all endpoints in the business
- Strong mail-filter settings
- Modern firewall and internet gateways
- Secure remote access mechanisms
- Online cyber-security training to all employees
- Internal simulated phishing exercises
- Company IT, cyber security and privacy related policies, guidelines, and incident response documents.

5. Performance – Sustainable Growth

(CONTINUED)

Results of vulnerability scanning, and cyber incident and breach trends are reported regularly to management and the Board. During the reporting period there were no known successful cyber security breaches of our customer and employee data. There were also no reportable data breaches that involved the theft of personal information.

In light of increasing cyber security risks globally and in line with our continuous improvement approach, 2022 saw the development of a Cyber Incident Response Plan and an external and independent review of our cybersecurity practices. Further, our Internal Audit team conducted 55 physical audits of information security at dealership locations covering physical security of IT servers, password security awareness and physical security of hardcopy documents. For 2023 we will be increasing our commitment to Cyber Security with the appointment of a Chief Information Security Officer.

We also commenced a review of our privacy and information management practices and established a standing Privacy Management Working Group tasked with identifying and promoting privacy and information management process improvements.

(c) Ethics and Integrity Policies

Our commitment to a culture of honesty and ethical behaviour is reflected in our adoption of "Integrity" as one of our four corporate values. Ethical behaviours are promoted through a suite of Group-wide policies and procedures, including our Code of Conduct, Employee Manual, Whistleblower Policy and Bribery and Corruption Policy, all of which are currently under review as part of our continuous improvement approach.

We encourage and support our employees, customers and stakeholders to speak up about unethical behaviour and have implemented an integrity reporting framework to provide eligible whistleblowers with a safe avenue to raise concerns confidentially and anonymously via an external and independently operated complaints avenue. Employees can also choose to report issues directly to their managers or other senior personnel in accordance with our Grievance and Complaints Management Policy.

Appendix A: SASB Reference Table

Topic	Accounting Metric	Page
Energy Management in Retail and Distribution	Total energy consumed	25
Data Security	Description of approach to identifying and addressing data security risks	27, 28
	1. Number of data breaches 2. Percentage involving personally identifiable information (PII) 3. Number of customers affected	28
Labour Practices	1. Average hourly wage 2. Percentage of in-store employees earning minimum wage, by region	17
	1. Voluntary 2. Involuntary turnover rate for in-store employees	18
	Total amount of monetary losses as a result of legal proceedings associated with labour law violations	18
Workplace Diversity and Inclusion	Percentage of gender representations for 1. Management 2. All other employees	15
Product Sourcing, Packaging and Marketing	Discussion of processes to assess and manage risks and/or hazards associated with chemicals in products	22, 23
	Discussion of strategies to reduce the environmental impact of packaging	23

Disclaimer and Disclosures

This report contains forward-looking statements in relation to Eagers Automotive Limited and its controlled entities (collectively the Eagers Automotive Group or Group), including statements setting out the Group's intent, goals, objectives, initiatives, commitments and current expectations in relation to the Group's business and operations, external conditions and risk management practices.

This report also includes forward-looking statements regarding climate change and other environmental and social consideration. While these statements are based on the Group's good faith assumptions as to the risks and opportunities likely to affect the Group's business and operations in the future, the Group does not give any assurance that any assumptions will eventuate or prove correct or accurate, as there are many intervening factors which are outside the control of the Group. As such, no undue reliance should be placed on these statements.

The Eagers Automotive Group also recognises and acknowledges that due to its decentralised business structure and sustainability reporting being in its infancy, data and information gathered and reported may be incomplete or inaccurate, despite the Group's best efforts. The continued development and implementation of appropriate data gathering tools and systems is a key focus for the Group to ensure streamlined sustainability reporting and a continuous improvement approach to data accuracy, relevance and reliance.

Board of Directors

Timothy Boyd Crommelin BCom, FSIA, FSLE

Chairman of Board
Independent Director
Member of Remuneration & Nomination Committee

Non-executive Director since February 2011. Chairman of Morgans Holdings (Australia) Limited. Director of University of Queensland Endowment Foundation (UQEF). Trustee of Australian Cancer Research Foundation. Former Director of Senex Energy Ltd (2010 to April 2022). Former Deputy Chairman of Queensland Gas Company Ltd (2006 to 2009). Broad knowledge of corporate finance, risk management and acquisitions and over 40 years' experience in the stockbroking and property industry.

Nicholas George Politis AM, BCom

Director

Non-executive Director since May 2000. Motor vehicle dealer. Executive Chairman of WFM Motors Pty Ltd, Eagers Automotive Limited's largest shareholder. Vast automotive retail industry experience and Director of a substantial number of proprietary limited companies.

Daniel Thomas Ryan BEc, MBus, FAICD

Director

Member of Remuneration & Nomination Committee

Non-executive Director since January 2010. Director and Chief Executive Officer of WFM Motors Pty Ltd, Eagers Automotive Limited's largest shareholder. Director of a substantial number of proprietary limited companies. Significant management experience in automotive, transport, manufacturing and retail industries.

Marcus John Birrell

Independent Director

Member of Audit & Risk Committee

Non-executive Director since July 2016. Former Director of Australian Automotive Dealer Association Limited (2014 to 2017). Distinguished career in the automotive industry, including 38 years at manufacturer, financier and retail level and 21 years as Executive Chairman of Birrell Motors Group.

Director

Chief Financial Officer

Joined the Company as Chief Financial Officer in August 2015. Appointed as an executive Director in March 2017. Executive responsibility for accounting, taxation, internal audit, payroll and treasury functions. Previous senior finance roles with PricewaterhouseCoopers and Flight Centre Travel Group Limited. Admitted as a chartered accountant in 1997.

Gregory James Duncan OAM, BEc, FCA

Independent Director
Chairman of Remuneration & Nomination Committee
Member of Audit & Risk Committee

Non-executive Director since December 2019. Director of advisory and investment firm JWT Bespoke Pty Ltd (2013 to present). Former owner and Executive Chairman of Trivett Automotive Group, Australia's largest prestige automotive business. Former Director of Automotive Holdings Group Ltd (2015 to 2019). Mr Duncan was also Chairman of Cox Automotive Australia Board of Management from 2016, retiring on 31 March 2021.

David Scott Blackhall BCom, MBA, FAICD

Independent Director

Chairman of Audit & Risk Committee since 29 March 2022, having joined the Committee on 23 February 2022

Non-executive Director since December 2019. Over half a century of automotive industry experience with manufacturers, including at Managing Director level, as dealer principal and owner of various automotive franchises. Chairman (since November 2021) and Chief Executive (2016 to 2019) of Australian Automotive Dealer Association. Managing Director of corporate advisory firm Raglan Ridge Advisors. Former Director of Automotive Holdings Group Ltd (2019).

Michelle Victoria Prater BBus, CPA, ACIS, AICD

Director

Non-executive Director since February 2020. Executive Chairman of APPL Group (2004 to present), a property development and investment group with an extensive automotive property portfolio including significant properties leased to Eagers Automotive dealerships. Former executive roles at corporate and operational levels with Automotive Holdings Group Ltd (1993 to 2004) including as an executive Director (2002 to 2004).

David Arthur Cowper BCom, FCA

Independent Director (until his retirement from the Board on 18 May 2022)

Chairman of Audit & Risk Committee (until 29 March 2022)

Non-executive Director since July 2012 until his retirement on 18 May 2022. Chartered accountant, with more than 35 years in the profession. Former partner of Horwath Chartered Accountants and Deloitte Touche Tohmatsu. Former Chairman of Horwath's motor industry specialisation unit for six years. Area of professional specialisation while at Horwath and Deloitte was in providing audit, financial and taxation services to public and large private companies in the motor industry.

Executive Management

Keith Thomas Thornton BEc

Chief Executive Officer

Commenced with the Company in July 2002. Prior to his appointment as Chief Executive Officer in February 2021, Keith had been responsible for the group's automotive operations since June 2007, most recently as Chief Operating Officer from January 2017 until February 2021. Keith is a licensed motor dealer with substantial automotive retail and wholesale experience in volume, niche and prestige industry sectors. Keith also brought significant industry experience to the Company, having previously worked for various automotive manufacturers. Keith is an Alternate Director of Australian Automotive Dealer Association Limited (2014 to present).

Edward Geschke BA, MBA

Chief Operating Officer, Automotive (since 1 May 2022)

Responsible for the Company's Franchised Automotive and Independent Used operations across Australia and New Zealand. Since commencing in the automotive industry as a trainee sales consultant with the Company in 2004, Edward has risen to hold many operational management positions with the Company across Australia. Most recently, he was Executive General Manager of the Company's operations in Western Australia from 2019 to 2022, leading integration of AHG's largest State operation into the merged Eagers Automotive. Edward is also a graduate of the Harvard Business School's General Management Program.

Denis Gerard Stark LLB, BEc

Company Secretary

Commenced with the Company in January 2008. Responsible for overseeing the company secretarial, legal, investor relations and property administration functions. Previous company secretarial, senior executive and legal experience with public companies. Admitted as a solicitor in Queensland in 1994 and Victoria in 1997.

Directors' Report

The Directors of Eagers Automotive Limited ABN 87 009 680 013 (**the Company** or **Eagers**) present their report together with the consolidated financial report of the Company and its controlled entities (**the Group**) for the year ended 31 December 2022 and the auditor's report thereon.

Directors

The Directors of the Company at any time during or since the end of the year, and their qualifications, experience and special responsibilities, are detailed on page 30.

Company Secretary

The Company Secretary and his qualifications and experience are detailed on page 31.

Directors' Meetings

The number of Board meetings (including meetings of Board committees) held during the year under review and the number of meetings attended by each Director were:

	Board Meetings		Audit & Risk Committee Meetings		Remuneration & Nomination Committee Meetings	
	Attended	Held	Attended	Held	Attended	Held
T B Crommelin ²	16	16	–	–	5	5
N G Politis	11 ³	16	–	–	–	–
D T Ryan ²	13 ³	16	–	–	5	5
D A Cowper ^{1,4}	8	8	1	1	–	–
M J Birrell ¹	15	16	5	5	–	–
S A Moore	16	16	–	–	–	–
G J Duncan ^{1,2}	15	16	5	5	5	5
D S Blackhall ¹	15	16	4	4	–	–
M V Prater	14	16	–	–	–	–

¹ Audit & Risk Committee members.

² Remuneration & Nomination Committee members.

³ Mr Politis and Mr Ryan did not attend meetings which considered proposals for the Company to acquire businesses associated with them.

⁴ Retired from the Board on 18 May 2022.

Principal Activities

The Group's principal activities during the year consisted of the selling of new and used motor vehicles, distribution and sale of parts, accessories and car care products, repair and servicing of vehicles, provision of extended warranties, facilitation of finance and leasing in respect of motor vehicles, and the ownership of property and investments. The products and services supplied by the Group were associated with, and integral to, the Group's motor vehicle dealership operations. There were no significant changes in the nature of the Group's activities during the year.

Directors' Report

(CONTINUED)

Eagers Automotive Limited (ASX: APE) (**Eagers Automotive** or the **Company**), Australia's leading automotive retail group, announced on 23 February 2023, its results for the twelve months ended 31 December 2022 (**FY22**). The Company delivered record Underlying Operating Profit Before Tax¹ of \$405.2 million, compared to \$401.8 million in the prior corresponding period (**pcp**).

Key financial highlights

	Full year to December 2022 \$'000	Full year to December 2021 \$'000
Statutory Results		
Revenue	8,541.5	8,663.5
EBITDA ^{2, 3}	652.4	651.6
Statutory Profit Before Tax	442.2	456.8
Statutory Profit After Tax	324.3	330.7
Total Ordinary Dividend per Share (cents)	71.0	62.5
Special Interim Dividend per Share (cents)	—	8.4
Underlying Operating Results¹		
Underlying Revenue ¹	8,541.5	8,663.5
Underlying EBITDA ^{2, 3}	471.1	455.9
Underlying Profit Before Tax ¹	405.2	401.8
Underlying Profit After Tax ¹	283.1	288.9

1 Underlying operating results refers to continuing operations, adjusted for significant items outlined and reconciled to statutory results on slides 32 (FY22) and 33 (comparative financial information) of the Investor Presentation. Underlying operating figures are non-financial measures and have not been subject to review by the Company's external auditors.

2 EBITDA means earnings before interest, tax, depreciation, amortisation and impairment.

3 Interest income associated with the impact of AASB16 Leases has been deducted in the comparative EBITDA calculation, aligning with current year presentation.

Dividend

The Board has approved a record ordinary final dividend of 49.0 cps fully franked for FY22, up 15.3% on FY21 (42.5 cps). The ordinary dividend has been approved for payment on 31 March 2023 to shareholders who are registered on 16 March 2023 (**Record Date**). When combined with the ordinary interim dividend paid in September 2022, the total ordinary dividend based on FY22 earnings is 71.0 cps (FY21 ordinary dividend: 62.5 cps and special dividend 8.4 cps) fully franked.

The record payout reflects the Company's strong financial performance which has been underpinned by a relentless focus on execution and the continued confidence of the Board and management team in the outlook for both the Company and the broader industry. Eagers Automotive is in an extremely strong financial position, well placed to navigate the impacts of any cyclical market or economic headwinds.

The Company's dividend reinvestment plan (**DRP**) will not operate in relation to the ordinary dividend.

Dividends paid to members during the year under review were as follows:

Year ended 31 December	2022 \$'000	2021 \$'000
Final ordinary dividend for the year ended 31 December 2021 of 42.5 cents (2020: 25.0 cents) per share paid on 20 April 2022	109,197	64,233
Interim ordinary dividend for 2022 of 22.0 cents (2021: 20.0 cents) per share paid on 23 September 2022	56,487	51,387
Special dividend of nil cents (2021: 8.4 cents) per share	—	21,582
	165,684	137,202

Directors' Report

(CONTINUED)

Financial performance

On a statutory basis, the Company achieved a Statutory Net Profit Before Tax of \$442.2 million for FY22, compared to \$456.8 million in the pcp. The FY22 statutory result included significant items totalling \$37.0 million net income before tax, predominately relating to the gain on sale of Bill Buckle Auto Group and associated property totalling \$47.7 million, partially offset by a \$15.0 million provision recognised in relation to a non-core business that was divested in a prior period. Statutory Net Profit After Tax including discontinued operations for FY22 was \$324.3 million, compared to \$330.7 million in FY21.

Statutory and Underlying¹ revenue declined by 1.4% to \$8,541.5 million, with FY22 revenue impacted by a combination of the Bill Buckle Auto Group divestment in June 2022 along with continued supply constraints impacting new vehicle deliveries, partially offset by the acquisition of the ACT and South Australian businesses in the second half of 2022. On a like-for-like basis, Statutory and Underlying¹ revenue decreased by 1.3% to \$8,078.4 million.

Underlying¹ Operating NPBT²/Sales ratio increased marginally to 4.7% in FY22 (FY21: 4.6%). The margin uplift in the context of a higher inflationary environment reflects continued favourable margin dynamics and the benefit from ongoing productivity and cost-out programs.

While overall revenue has been impacted by supply constraints, momentum in the underlying business has continued with a record order bank at December 2022, reflecting an increase of 74.4% since December 2021.

Segment performance

The Car Retailing segment delivered an Underlying¹ Operating Profit Before Tax of \$397.4 million, compared to \$388.4 million in 2021. The increase in profit was achieved despite ongoing supply constraints and inflationary pressures, reflecting strong margins, the successful integration of recent business acquisitions and the organic and greenfield growth delivered through strategic automotive retail partnerships.

The Car Retailing segment recorded a Statutory Profit Before Tax of \$432.3 million compared to a profit of \$403.0 million in 2021. The result benefited from the gain on sale of businesses of \$35.2 million, predominately relating to the strategic divestment of Bill Buckle Auto Group.

The Company continued to focus on the growth of its national, independent pre-owned business, headlined by easyauto123 and supported by its national auction business Carlins. The easyauto123 business delivered volume and revenue growth due to a combination of the roll out of new sites across Australia and New Zealand along with investment in organic growth at established locations.

Car Retailing Statutory and Underlying¹ revenue increased by 1.2% to \$8,540.6 million (2021: \$8,438.3 million).

The value of the property portfolio increased to \$607.6 million at 31 December 2022, compared with \$448.3 million at 31 December 2021 (excluding assets held for sale). This material increase primarily reflects the acquisition of property associated with the ACT and South Australian businesses in 2022, partially offset by divestment of properties associated with Bill Buckle Auto Group.

The Property segment recorded an Underlying¹ Operating Profit Before Tax of \$13.5 million (excluding impairment and gains on sale), compared to \$12.6 million in 2021. This increase in underlying profit was driven by income associated with recent property purchases, offset by the interest costs associated with debt drawn.

The Property segment recorded a Statutory Profit Before Tax of \$30.5 million for 2022 compared to \$18.4 million in the pcp. The movement was driven by gains on sale of property associated with Bill Buckle Auto Group and a non-core parcel of land in Queensland.

¹ Underlying operating results refers to continuing operations, adjusted for significant items outlined and reconciled to statutory results on slides 32 (FY22) and 33 (comparative financial information) of the Investor Presentation. Underlying operating figures are non-financial measures and have not been subject to review by the Company's external auditors.

² NPBT means Net Profit Before Tax.

Directors' Report

(CONTINUED)

Financial position

Eagers Automotive is in a very strong financial position holding a substantial property portfolio and asset base, together with \$631.1 million of available liquidity at 31 December 2022. This liquidity position includes available cash and undrawn commitments under corporate debt facilities.

Corporate debt (Term and Capital loan facilities) net of cash on hand increased to \$253.4 million as at 31 December 2022, up from \$128.4 million at 31 December 2021, and the Company's leverage metrics are in a strong position, with the gearing ratio at 0.54 times as at 31 December 2022 (FY21: 0.28 times). The increase in corporate debt during the period was driven by the prudent and disciplined allocation of capital to invest in the strategic property and businesses acquisitions in the ACT and South Australia and the on-market share buy-back.

Total inventory levels increased to \$1,059.3 million as at 31 December 2022, up from \$874.0 million at 31 December 2021, driven by the acquisition of the ACT and South Australian businesses in the second half of 2022. Eagers Automotive continues to maintain significant equity ownership in used vehicle inventory.

The Company continues to focus on cash management, retaining a strong cash position of \$190.4 million as at 31 December 2022. Strong operating cash flows of \$407.5 million, supplemented by proceeds from the sale of Bill Buckle Auto Group and associated property, enabled the acquisition of strategic property and businesses, the continued investment in the delivery of new automotive retail formats and payment of dividends.

In June 2022, Eagers Automotive announced its intention to conduct an on-market share buy-back of up to 10% of issued share capital. To date the Company has bought back 1.5 million shares, which represents 0.6% of shares on issue at the time of the buy-back announcement. The buy-back reflects the Board's prudent focus on active capital management and is testament to the Company's strong balance sheet and available liquidity.

Outlook

We have commenced FY23 with a very strong foundation for the year ahead. Demand continues to outstrip supply supporting a structural change to a new normal in order book levels across the industry. Our record order book provides significant earnings resilience through the cycle, as we deliver higher productivity and a sustainable, higher return on sales margin when compared to the pre-COVID trading environment.

In addition to these market dynamics, the strategic acquisitions and partnerships developed during 2022 provide the foundation for top line revenue growth and position Eagers Automotive to lead the generational shift to lower emission and new energy vehicles, which is expected to gain considerable momentum in 2023 and underpin demand through the next decade.

We continue to closely monitor the external macroeconomic environment and will ensure we continue to operate the business with discipline, focusing on active cost management, targeted investment in growth and accelerating our technology-enabled productivity initiatives across the business, particularly around people and property.

The strength of our balance sheet, evidenced by our liquidity position, low gearing and high value property portfolio, provides the Company with the capacity and flexibility to pursue accretive growth opportunities while insulating the business in the event of any material headwinds.

In 2023 and beyond, Eagers Automotive is focused on continuing to create value for shareholders by:

- Delivering material top line revenue growth associated with acquisitions, new strategic partnerships and greenfield opportunities established during FY22;
- Maintaining our sustainably higher return on sales margin by leveraging new and existing margin levers, combined with cost base discipline and deliberate productivity improvements;
- Continued evolution of our Independent Used Car Strategy with definitive inventory streams to drive performance in our traditional Franchise dealership used vehicle segment, and growing easyauto123 in a sustainable and profitable manner;
- Leveraging our leading position in New Energy Vehicle retail as market adoption of low and zero emission vehicles accelerates rapidly via organic changes in consumer preference, supported by incentives and mandates stimulating incremental demand;
- Implementing our proprietary technology initiatives to realise further productivity improvements; and
- Disciplined review of accretive acquisition opportunities consistent with our Next100 Strategy, while executing on greenfield opportunities with both existing and new partners with a view to creating a distinct market advantage.

Directors' Report

Significant Changes in the State of Affairs

In the Directors' opinion there was no significant change in the state of affairs of the Group during the financial year that is not disclosed in this report or the consolidated financial report.

Matters Subsequent to the End of the Financial Year

The Directors are not aware of any matter or circumstance not dealt with in this report or the consolidated financial report that has arisen since the end of the year under review and has significantly affected or may significantly affect the Group's operations, the results of those operations or the state of affairs of the Group in future financial years.

Environmental Regulation

The Group's property development and service centre operations are subject to various environmental regulations. Environmental licences are held for particular underground petroleum storage tanks.

Planning approvals are required for property developments undertaken by the Group in relevant circumstances. Authorities are provided with appropriate details and to the Directors' knowledge developments during the year were undertaken in compliance with planning requirements in all material respects.

Management works with regulatory authorities, where appropriate, to assist compliance with regulatory requirements. There were no material adverse environmental issues during the year to the Directors' knowledge.

3. Remuneration governance

The Company's remuneration governance structure provides oversight of the Company's remuneration practices and policies.

The following diagram illustrates the remuneration governance framework.

4. FY22 business performance

During FY22, despite an unusual and challenging external environment, the Company achieved strong growth in respect of key financial and non-financial metrics, which has been reflected in our strong financial results for the year.

The table below details Eagers' performance against key financial and operational metrics for the five-year period ended 31 December 2022.

Name	2022	2021	2020	2019	2018
Statutory net profit after tax (NPAT) (\$ million)	324.3	330.7	156.2	(139.6)	97.5
Statutory earnings per share (EPS) – basic (cents)	121.3	125.2	57.6	(67.4)	50.1
Dividend per share (cents)	71.0	70.9	25.0	25.3	36.5

Remuneration Report (CONTINUED)

6. Remuneration structure and outcomes for FY22

As reported above in this Directors' Report, the Company delivered strong results against key financial and non-financial metrics for FY22. The following are details of the FY22 remuneration structures and outcomes awarded to executive KMP based on both Company and individual performance.

(a) STI Plan - performance outcomes for FY22

Design feature	Further detail		
Eligibility	Executive KMP.		
Instrument	A mix of cash and performance rights, as described in section 5 of this remuneration report.		
Performance period	Performance is measured annually.		
Maximum opportunity	As described in section 5 of this remuneration report.		
Performance Hurdle Rationale	Financial hurdles are quantitative measures that align executive KMP members with each other, and also with the interests of shareholders. These common objectives are easily shared and communicated. They reward executives only when the Company, as a whole, performs to achieve the financial hurdles. Sustainability hurdles incentivise executive KMP members to play a productive role in developing sustainable business practices across operational, safety, risk, culture, governance and other ESG measures. Strategic hurdles are a blend of hurdles which measure progress against the Company's Next100 Strategic Plan and nominated strategic projects. Each executive KMP member has a combination of group-wide and individual hurdles applicable to their role and the function they lead across the Company. Incorporating this blend of both group and individual performance hurdles assists in creating one team working towards common objectives whilst also rewarding and recognising individual performance. This blend of performance hurdles drives executive focus in both short-term performance and appropriate investments and initiatives for the protection and growth of the Company in the medium and longer term, thereby aligning executive and shareholder interests.		
Performance Review	The Board, following review by the Remuneration & Nomination Committee, approved the achievement of the financial performance hurdles by the CEO and all executive KMP, the achievement of the CEO's non-financial performance hurdles and the payment of the CEO's STI award. The CEO, in consultation with the Remuneration & Nomination Committee, approved the achievement of the non-financial performance hurdles of the other executive KMP.		
Achievement of Financial Performance Hurdles	Achievement of the financial performance hurdles by the CEO and all other executive KMP was determined with reference to the Company's annual growth in underlying EPS and interest cover ratio performance hurdles, as described in section 5 of this remuneration report, having regard to the group's audited financial statements.		
FY22 Financial Performance Hurdle		FY22 Actual	Achieved
8% Compound Annual Growth in Underlying EPS	60.7 cents per share	104.8 cents per share	Yes
Interest cover ratio	At least 2.5 times	14.8 times	Yes

Remuneration Report (CONTINUED)

6. Remuneration structure and outcomes for FY22 (CONTINUED)

(a) STI Plan - performance outcomes for FY22 (CONTINUED)

Design feature	Further detail
Achievement of Sustainability Performance Hurdles	<p>Achievement of the Sustainability performance hurdles was determined with reference to achievement of both group and individual performance and engagement against sustainability and performance initiatives, including in these areas:</p> <p>Group-wide Sustainability Achievements</p> <p>Achievements in FY22 included:</p> <ul style="list-style-type: none">– Development of the Company's sustainability and ESG roadmap in support of the Next100 Strategic Plan and aligned with our corporate values.– The ESG roadmap focuses on developing our people (people), optimising our environment (planet) and sustainable growth (performance), adopting a practical and pragmatic approach.– Driving stakeholder engagement levels across the group, including annual employee engagement survey through an independent external operator.– Multiple safety initiatives implemented, including improved reporting and risk management, and safety leadership program.– Environmental initiatives, including continued program for decommissioning of underground petroleum storage systems and installation of solar photovoltaic systems across multiple sites.– Group-wide adherence to relevant regulatory and contractual requirements.– Ongoing cost-out program and optimisation of businesses and property portfolio to provide for a more sustainable business and greater flexibility for implementation of omni-channel approach. <p>Individual Sustainability Achievements</p> <ul style="list-style-type: none">– For the CEO, achievement through leading specific progress against the group-wide sustainability initiatives as described above, including driving group-wide stakeholder engagement, group-wide adherence to relevant regulatory and contractual requirements, and roadmap for key sustainability initiatives including ESG and diversity, while balancing desired outcomes with appropriate commerciality.– For the CFO, achievement through contributions towards specific group-wide sustainability initiatives as described above, organisational compliance with accounting and taxation obligations, adherence to relevant regulatory and contractual requirements, contributions towards nominated non-strategic projects, while balancing desired outcomes with appropriate commerciality.– For the COO, achievement through contributions towards specific group-wide sustainability initiatives as described above, including the rollout of operational projects across used automotive and other business units, driving employee engagement levels, safety initiatives and the cost-out program, while balancing desired outcomes with appropriate commerciality.– For the CS, achievement through contributions towards specific group-wide sustainability initiatives as described above, advisory to Board and management in respect of sustainability/ESG initiatives, governance, corporate values and operations, adherence to relevant regulatory and contractual requirements, in an environment of high transparency, ethics and integrity, and while balancing desired outcomes with appropriate commerciality.

Having regard to the group and individual achievements outlined above, all executive KMPs received 100% of their STI plan awards for FY22 following assessment by the Board, Remuneration & Nomination Committee and CEO, as described in section 5 of this remuneration report. It was considered that no reduction to maximum entitlements was warranted based on review of the individual's performance during the year against these measures.

In these circumstances, payment of the full STI awards was determined to be appropriate, particularly in light of the Company's record 2022 operational and financial performance.

	% Awarded FY22 under STI Plan %	STI Paid \$	No. of Rights Vested
CEO	100%	600,000	52,265
CFO	100%	250,000	17,422
COO	100%	200,000	-
CS	100%	125,000	4,355

Directors' Report

(CONTINUED)

Remuneration Report (CONTINUED)

6. Remuneration structure and outcomes for FY22 (CONTINUED)

(b) Accounting Treatment of STI Plan

The cost of the CEO's STI plan will average a maximum of \$600,000 per annum over the four-year period FY21 to FY24, and will only reach the maximum cost if 100% of the performance rights under the plan are to vest over the four year period (which would require at least 8% compound annual growth in underlying EPS for the four years, as described above). This is based on the fair value methodology on the initial grant date.

However, accounting standards require that the remuneration table on page 48 must include the cost of the STI plan each year based on progressive recognition of the performance rights in the period from the grant date to their vesting date, rather than their average annual cost. This has resulted in the remuneration table showing a decrease in the CEO's share-based pay for FY22 as compared to FY21. Despite this accounting treatment, the number of performance rights which vested for the CEO has actually risen from 50,463 rights in FY21 to 52,265 rights in FY22.

(c) LTI Plan for FY22

The LTI Plan was introduced in FY21, as detailed in section 5 of this remuneration report, for better alignment with ASX200 market practice. There were no changes to the LTI Plan in FY22. Performance will be measured at the end of FY24.

7. Remuneration framework changes for FY22

There have been no material changes to the executive remuneration framework for FY22. The appointment of the COO on 1 May 2022 resulted in his addition as an executive KMP member for FY22.

As reported in last year's remuneration report, a comprehensive review of the executive remuneration framework was undertaken in FY20 in response to the 'first strike' received at our 2020 Annual General Meeting. This included the Board engaging with shareholders, proxy advisors and other stakeholders to better understand their concerns and the Board also obtained independent external advice in FY20 in relation to our remuneration framework.

As a result, many changes were made to the remuneration framework for FY21 and these are reflected in the current STI and LTI Plans, as described in section 5 of this remuneration report. These changes better align our remuneration framework with ASX200 market practice, while maintaining a strong pay-for-performance culture.

Key Changes to Remuneration Framework following 'First Strike' in FY20

STI	<ul style="list-style-type: none"> Improved disclosure on STI framework and performance measures. Clear STI performance hurdles, assessed against both financial and non-financial performance hurdles, improving the alignment of executive KMP remuneration with shareholder interests. STI plan is a mix of cash and equity (performance rights). No re-testing of STI performance hurdles.
LTI	<ul style="list-style-type: none"> Improved disclosure on LTI framework and performance measures. LTI plan has a four-year performance period for financial hurdles for alignment of executive KMP remuneration with shareholder interests. LTI plan is awarded wholly in equity (share options) for alignment with shareholders, with the option exercise price set at \$12.32 per option (which was the share price on the initial grant date in February 2021). Clear LTI performance hurdles for the four-year performance period, assessed wholly against financial measures with graduated vesting. No re-testing of LTI performance hurdles.
Other	<ul style="list-style-type: none"> Current remuneration framework was introduced for FY21. Improved transparency and disclosure of the remuneration framework and structures. Appropriate change-in-control and claw-back provisions in line with market practice. No equity retention grants. The Board has not used its discretion to award one-off bonuses.

Directors' Report

(CONTINUED)

Remuneration Report (CONTINUED)

8. Executive contractual arrangements

Executive KMP are employed under common employment agreements. Any termination benefits would be subject to compliance with the limits set by the *Corporations Act 2001*.

The following table details key contractual terms.

Name	Duration of service agreement	Notice period by employee	Notice period by company	Payments upon termination
CEO	Ongoing	12 months	12 months	At the Board's discretion
CFO	Ongoing	3 months	3 months	At the Board's discretion
COO	Ongoing	6 months	6 months	At the Board's discretion
CS	Ongoing	3 months	3 months	At the Board's discretion

9. Non-executive director remuneration

The objectives of the Company's policy regarding Non-executive Director (**NED**) fees are:

- to preserve the independence of NEDs by not providing them with any performance-related remuneration. NEDs do not participate in schemes designed for the remuneration of executives, equity schemes, incentive programmes or retirement allowance programmes, nor do they receive performance-based bonuses.
- to be market competitive with regard to NED fees, which are reviewed annually.

NED fees are limited to a maximum aggregate amount approved by shareholders, with the current limit of \$1,000,000 per annum having been approved at the 2020 Annual General Meeting.

Each NED receives a single fee based on their position, without any extra fee payable for being a member of a Committee.

NED fees for FY22 are as reflected in the following table (exclusive of superannuation).

Role	Fees
Chair of the Board	\$125,000 per annum
Chair of the Audit & Risk Committee	\$115,000 per annum
Chair of the Remuneration & Nomination Committee	\$115,000 per annum
Other NEDs	\$100,000 per annum

Directors' Report

Remuneration Report (CONTINUED)

10. Statutory disclosures

Statutory remuneration disclosures are prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards and include share-based payments expensed during the financial year, calculated in accordance with AASB 2 Share-based payments.

(a) Executive KMP in FY21 and FY22

Table 1 – Statutory Table of executive KMP remuneration

Executive KMP	Year	Short-term benefits		Non-monetary and other benefits \$ ¹	Post-employment benefits	Share-based payments			Performance-related percentage %
		Salary and fees \$	Bonus and commission \$			Superannuation \$	Other post-employment benefits \$	Performance rights and options \$ ²	
Keith Thornton	2022	1,200,000	600,000	223,798	25,000	–	1,250,000 ³	3,298,798	56
	2021	1,050,000	835,918	233,638	25,000	–	1,850,005	3,994,561	67
Edward Geschke ⁴	2022	133,333	1,151,487 ⁵	103,056	18,333	–	66,666	1,472,876	83
	2021	–	–	–	–	–	–	–	–
Sophie Moore	2022	600,000	250,000	133,692	27,500	–	316,667	1,327,860	43
	2021	591,667	200,000	23,334	22,631	–	450,216	1,287,848	50
Denis Stark	2022	425,000	125,000	68,725	27,500	–	79,167	725,393	28
	2021	412,500	125,000	40,031	22,631	–	129,165	729,327	35
Martin Ward ⁶	2022	–	–	–	–	–	–	–	–
	2021	200,000	–	(9,628)	4,167	–	–	194,539	–
Total	2022	2,358,334	2,126,487	529,272	98,333	–	1,712,501	6,824,927	
	2021	2,254,167	1,160,918	287,375	74,429	–	2,429,386	6,206,275	

¹ Includes benefits such as the provision of motor vehicles, insurance policy costs, health and fitness programme costs and the movement in the provision for employee entitlements. If a negative amount is shown, leave taken for the year exceeded the sum of leave accrued for the year and other benefits. This does not represent an amount paid or owed by the KMP to the Company.

² Performance rights and options are valued using a binomial tree methodology. A pre-determined value of the portion of the rights and options attributable to the year under review has been expensed in the income statement in conformity with AASB 2 and reflected in the recipient's remuneration. Vesting is subject to the achievement of performance hurdles as detailed in this Remuneration Report.

³ Includes the cost of performance rights vested for FY22 under the STI plan. In accordance with accounting standards, the amount for vested rights each year is based on progressive recognition of the rights over the period from the grant date to their vesting date. This results in a higher cost in the earlier years of the STI plan and a lower cost in later years on the assumption that all performance hurdles will be achieved over the four-year period (FY21 to FY24). Despite this accounting treatment, the number of performance rights which vested for the CEO increased from 50,463 rights in FY21 to 52,265 rights in FY22. For further details, refer to the section "Accounting Treatment of STI Plan" on page 44.

⁴ Mr Geschke commenced as a KMP on 1 May 2022.

⁵ Includes \$200,000 STI payment, with the balance being the COO's commission plan.

⁶ Mr Ward ceased as a KMP on 1 March 2021.

(c) Performance Rights and Options of KMP

The following are details of all current performance rights and options which were granted to KMP over unissued ordinary shares in the Company in or before the year under review. A performance right is a right to acquire a share at a nil exercise price upon the achievement of performance hurdles. An option is a right to acquire a share upon payment of an exercise price and achievement of performance hurdles.

No rights or options were granted to, lapsed or were exercised by KMP during or after the year under review, except as detailed below.

(i) Movement in Performance Rights of KMP

Table 3 – Grants and vesting of Performance Rights in FY22

Name	Opening balance	Performance Rights granted	Performance Rights vested ¹	Performance Rights lapsed	Closing balance
CEO	162,390	nil	52,265	nil	110,125
CFO	54,130	nil	17,422	nil	36,708
COO ²	nil	nil	nil	nil	nil
CS	13,533	nil	4,355	nil	9,178

1 These rights vested and converted to ordinary shares on 23 February 2023 and remain subject to a trading restriction as described in section 5 of this Remuneration Report.

2 COO was appointed on 1 May 2022.

(ii) Movement in Options of KMP

Table 4 – Grants and exercise of Options in FY22

Name	Opening balance	Options granted	Options exercised	Options lapsed	Closing balance
CEO	869,564	nil	nil	nil	869,564
CFO	262,497	nil	96,216 ¹	21,354	144,927
COO ²	144,927	nil	nil	nil	144,927
CS	36,232	nil	nil	nil	36,232

1 These options were granted in 2015, had an exercise price of \$9.25 per option and vested by the end of 2019. 45,900 of these options were exercised on 10 June 2022 and were valued at \$0.18 per option on the day of exercise, whilst the balance were exercised on 1 September 2022 and were valued at \$3.71 per option on the day of exercise.

2 COO was appointed on 1 May 2022.

(iii) Performance Rights and Options granted to KMP

Table 5 – Details of share-based payments (Performance Rights and Options)

CEO

Grant Date	Performance Rights				Options				End of performance period	Status
	No. granted	No. lapsed	No. exercised	Fair value	No. granted	No. lapsed	No. exercised	Fair value		
24 February 2021	50,463	nil	50,463	\$11.89					31 December 2021	Vested 24 February 2022
	52,265	nil	52,265 ¹	\$11.48					31 December 2022	Vested 23 February 2023
	54,103	nil	nil	\$11.09					31 December 2023	Unvested
	56,022	nil	nil	\$10.71					31 December 2024	Unvested
					869,564	nil	nil	\$2.76	31 December 2024	Unvested

1 Performance rights are automatically exercised upon vesting. 52,265 rights granted for 2022 were exercised on 23 February 2023, valued at the closing price of the underlying shares on the day of exercise.

(e) Hedging of shares of unvested equity awards

The Board has adopted a policy which prohibits any Director or employee who participates in an equity plan from using derivatives, hedging or similar arrangements to reduce or eliminate the risk associated with the plan in relation to unvested equity award or shares that are subject to trading restrictions, without the Chair's approval. Any breach will result in the forfeiture or lapsing of the unvested equity awards or additional performance hurdles or trading restrictions being imposed, at the Board's discretion.

(f) KMP transactions

Mr Politis has a controlling interest in WFM Motors Pty Ltd (WFM Motors), which has a relevant interest in approximately 27% of the share capital of Eagers Automotive. WFM Motors divested a portfolio of dealerships and properties within the ACT to the Company during FY22. An independent expert opined on the transaction which was completed at fair value. Further detail is included in Note 44 of the consolidated financial report. There were no other related party transactions with KMP during the reporting period requiring disclosure in this Remuneration Report.

Directors' Report

(CONTINUED)

Directors' Interests

The relevant interest of each Director in shares, rights and options issued by the Company as at the date of this report are as follows:

	Ordinary Shares	Share Options	Performance Rights
Tim Crommelin	448,286	—	—
Nick Politis	70,585,321	—	—
Dan Ryan	1,200	—	—
Marcus Birrell	2,000,000	—	—
Sophie Moore	182,005	144,927	36,708
Greg Duncan	350,000	—	—
David Blackhall	40,000	—	—
Michelle Prater	2,786,602	—	—

Shares Under Option

No options or performance rights were granted by the Company over unissued fully paid ordinary shares during the year under review. No options or rights have been granted since the end of the year under review.

No shares were issued as a result of the exercise of options or performance rights during or since the year under review.

At the date of this report, there are 2,211,840 unissued shares under option and 156,011 unvested performance rights.

Indemnification and Insurance

The Company's constitution provides that, to the extent permitted by law, the Company must indemnify each person who is or has been a Director or Secretary against liability incurred in or arising out of the discharge of duties as an officer of the Company or out of the conduct of the business of the Company and specified legal costs. The indemnity is enforceable without the person having to incur any expense or make any payment, is a continuing obligation and is enforceable even though the person may have ceased to be an officer of the Company.

At the start of the financial year under review and at the start of the following financial year, the Company paid insurance premiums in respect of Directors and Officers liability insurance contracts. The contracts insure each person who is or has been a Director or executive officer of the Company against certain liabilities arising in the course of their duties to the Company and its controlled entities. The Directors have not disclosed details of the nature of the liabilities covered or the amount of the premiums paid in respect of the insurance contracts as such disclosure is prohibited under the terms of the contracts.

Auditor

Deloitte Touche Tohmatsu continues in office as auditor of the Group in accordance with section 327 of the *Corporations Act 2001*.

Non-Audit Services

A copy of the auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is attached and forms part of this report.

The Company may decide to employ its auditor on assignments additional to their statutory audit duties where the auditor's expertise or experience with the Group is important.

Details of the amounts paid or payable to the auditor for audit and non-audit services provided to the Group during the year are set out in Note 40 to the consolidated financial report.

In accordance with advice received from the Audit & Risk Committee, the Directors are satisfied that the provision of the non-audit services was compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001* and did not compromise the auditor independence requirements of the Act because all non-audit services were reviewed by the Committee to ensure they did not impact the partiality and objectivity of the auditor.

Rounding of Amounts to Nearest Thousand Dollars

The Company is of a kind referred to in Class Order 98/100 issued by the Australian Securities & Investments Commission, relating to the "rounding off" of amounts in the Directors' report and financial report. Amounts in the Directors' report and financial report have been rounded off to the nearest thousand dollars in accordance with that Class Order.

This report is made in accordance with a resolution of the Directors.

The Board of Directors
Eagers Automotive Limited
5 Edmund Street
Newstead, QLD 4006

23 February 2023

Dear Board Members

Auditor's Independence Declaration to Eagers Automotive Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Eagers Automotive Limited.

As lead audit partner for the audit of the financial report of Eagers Automotive Limited for the year ended 31 December 2022, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) The auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) Any applicable code of professional conduct in relation to the audit.

Yours faithfully

Deloitte Touche Tohmatsu

DELOITTE TOUCHE TOHMATSU

The December 2021 Consolidated Statement of Cash Flows has been prepared to include cash flows from continuing and discontinued operations in accordance with AASB 107 *Statement of Cash Flows*. Refer to Note 37.

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022

1 Summary of significant accounting policies

(a) General information and basis of preparation

The financial report covers the Group (consolidated entity) of Eagers Automotive Limited ("the Company" and "the Group") and its subsidiaries (consolidated financial statements). Eagers Automotive Limited is a publicly listed company incorporated and domiciled in Australia.

The financial report has been prepared on a going concern basis, in line with AASB 101 *Presentation of Financial Statements*.

Compliance with IFRS

These consolidated financial statements are general purpose financial statements which have been prepared in accordance with the *Corporations Act 2001*, Accounting Standards and Interpretations, and comply with other requirements of the law.

The financial report comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity. Accounting Standards include Australian Accounting Standards. Compliance with Australian Accounting Standards ensures that the consolidated financial statements and notes of the Company and the Group comply with International Financial Reporting Standards (IFRS).

Historical cost convention

These consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets, derivatives and certain classes of property, plant and equipment to fair value.

Fair value is the price received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of AASB 2 *Share-based Payment* and measurements that have some similarities to fair value but are not fair value, such as net realisable value in AASB 102 *Inventories* or value-in-use in AASB 136 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- **Level 1** inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- **Level 2** inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- **Level 3** inputs are unobservable inputs for the asset or liability.

Functional and presentation currency

The functional and presentation currency of the Group is the Australian Dollar.

The consolidated financial statements were authorised for issue by the Directors on the 23rd of February 2023.

Accounting policies

The following is a summary of the material accounting policies adopted in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Going concern

The consolidated financial statements have been prepared on the basis that the Group is a going concern, able to realise assets in the ordinary course of business and settle liabilities as and when they fall due.

The Group has net current liabilities of (\$31.0 million) at 31 December 2022 which is primarily due to a fixed rate, fixed term capital loan becoming due and payable within the next twelve months. Management has commenced discussions with the financier and expects to refinance the loan in the first half of 2023.

The Group has maintained a robust balance sheet with total available liquidity of \$631.1 million (cash in bank of \$190.4 million and undrawn facilities of \$440.7 million) at 31 December 2022 and a substantial asset base and property portfolio valued at \$607.6 million (including construction in progress).

The Group has generated positive net cash flows from operating activities of \$407.5 million and profit from operations of \$324.3 million for the year ended 31 December 2022.

Based on the strength of the Group's balance sheet and its cash flow modelling, the Directors are of the view that the Group will be able to settle all obligations as they fall due for a period of 12 months following this report. The Directors are therefore of the opinion that the preparation of the consolidated financial statements as a going concern is appropriate.

The Directors of the Company have assessed the ongoing impact of the Coronavirus disease (COVID-19) on continuing operations and consider any future impacts will not have a material impact on the overall Group and its available liquidity.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

1 Summary of significant accounting policies (CONTINUED)

(b) Basis of consolidation

The consolidated financial statements incorporate the financial statements of Eagers Automotive Limited and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

In the current year, the Group invested in EV Dealer Group Pty Ltd (EV Dealer Group) which operates as the exclusive Australian retailer for Build Your Dreams (BYD). The Group has determined that it has accounting control over EV Dealer Group given that contractual rights give it the ability to direct the activities that significantly affect the investee's returns.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Statement of Profit or Loss and Other Comprehensive Income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(i) Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between:

- the aggregate of the fair value of the consideration received and the fair value of any retained interest; and
- the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e., reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable accounting standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 9 *Financial Instruments* (when applicable), the cost on initial recognition of an investment in an associate, or a joint venture.

(ii) Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies. If the Group holds, directly or indirectly, 20% or more of the voting power of the investee, it is presumed the Group has significant influence, unless it can be clearly demonstrated that this is not the case.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with AASB 5 *Non-current Assets Held for Sale and Discontinued Operations*. Under the equity method, an investment in an associate is initially recognised in the Consolidated Statement of Financial Position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

1 Summary of significant accounting policies (CONTINUED)

(b) Basis of consolidation (CONTINUED)

(ii) Investments in associates (CONTINUED)

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of AASB 128 *Investments in Associates and Joint Ventures* are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment of assets as a single asset by comparing its recoverable amount (higher of value-in-use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with AASB 136 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with AASB 9. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the portion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be classified to profit or loss on the disposal of the related assets or liabilities.

When the Group increases its ownership interest such that an existing associate becomes a subsidiary, the Group remeasures its previously held interest at its acquisition date fair value and recognises the resulting gain or loss in profit or loss. The acquisition of the investment in the subsidiary is recognised in accordance with Note 35(c)(i).

When a Group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

(c) Rounding of amounts

The Company is of a kind referred to in the Australian Securities and Investments Commission (ASIC) Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, issued by ASIC, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that instrument to the nearest thousand dollars, or in certain cases, to the nearest dollar.

(d) Goods and services tax

Revenues, expenses, assets and liabilities are recognised net of the amount of goods and services tax (GST) except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or is part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Consolidated Statement of Financial Position.

Cash flows are included in the Consolidated Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from or payable to the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(e) Other accounting policies

Significant other account policies that summarise the recognition, treatment and measurement basis used, and are relevant to understanding the consolidated financial statements, are included throughout the relevant notes to the consolidated financial statements.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

1 Summary of significant accounting policies (CONTINUED)

(f) New or revised standards and interpretations that are first effective in the current reporting period

New and revised standards and amendments thereof and interpretations effective for the current year that are relevant to the Group, but have not had a material impact, are:

- AASB 2021-3 *Amendments to Australian Accounting Standards – Covid-19-Related Rent Concessions beyond 30 June 2021*;
- AASB 2020-3 *Amendments to Australian Accounting Standards – Annual Improvements 2018-2020 and Other Amendments*;
- AASB 2021-7 *Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections*; and
- AASB 2022-2 *Amendments to Australian Accounting Standards – Extending Transition Relief under AASB 1*.

The standards in issue but not yet effective, and do not have a material impact on the Group, are as follows:

- AASB 17 *Insurance Contracts*;
- AASB 2021-5 *Amendments to Australian Accounting Standards – Deferred Tax related to Assets and Liabilities arising from a Single Transaction*;
- AASB 2021-2 *Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates*;
- AASB 2014-10 *Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*;
- AASB 2015-10 *Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128*;
- AASB 2017-5 *Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections*;
- AASB 2020-1 *Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current*;
- AASB 2020-6 *Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current – Deferral of Effective Date*; and
- AASB 2022-1 *Amendments to Australian Accounting Standards – Initial Application of AASB 17 and AASB 9 – Comparative Information*.

2 Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

The Group makes estimates, assumptions and judgements concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates, assumptions and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are included in the following notes:

Note	Key judgements and estimates
Note 11	Vehicle inventory write-down to net realisable value
Note 17	Significant judgement in determining the lease term of contracts with renewal options
Note 17	Recoverability of right-of-use assets and other non-current assets
Note 18	Calculation of loss allowance
Note 19	Fair value estimation of land and buildings
Note 20	Recoverability of goodwill and other intangibles with indefinite useful lives
Note 21	Recoverability of deferred tax asset
Note 35	The fair value of assets and liabilities acquired in business combinations

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

3 Revenue (CONTINUED)

Recognition and measurement

(i) Revenue

Sales revenue

Revenue from the sale of motor vehicles and parts is recognised when the performance obligation has been satisfied. The performance obligation is considered to be satisfied at a point in time when the vehicles or parts are invoiced and physically dispatched or collected. Revenue is measured at the fair value of consideration receivable, net of any discounts, rebates and incentives.

Agency commission represent fees from third parties where the Group acts as an agent by arranging a third party to provide goods and services to a customer. In such cases, the Group is not primarily responsible for providing the underlying good or service to the customer. Agency commission is recognised on an accruals basis on completion of the referral. Agency commissions are reported as sales revenue.

Service revenue

Service work on customers' vehicles is carried out under instruction from the customer. Service revenue is recognised over time based on when the performance obligation is satisfied, which is when services are rendered. Revenue arising from the sale of parts fitted to customers' vehicles during service is recognised at a point in time upon satisfaction of the performance obligation, which is considered by the Group to be upon delivery of the fitted parts to the customer upon completion of the service.

(ii) Other Revenue items

Warranties revenue

The Group sells extended warranties beyond those provided by the manufacturer, which further protects the customer for repairs and defects in the vehicle over a specified period. Under AASB 15 *Revenue from Contracts with Customers*, warranties are considered to be a distinct service as they are both regularly supplied by the Group to customers on a stand-alone basis and are available to customers from other providers in the market. As a result, where vehicles are being sold with an extended warranty included, a portion of the vehicle sale price is required to be allocated to the warranty based on the stand-alone selling price of those services. Revenue relating to the warranties is recognised over time, while the transaction price allocated to these services is recognised as a contract liability (referred to as deferred revenue, refer to Notes 26 and 29) at the time of the initial sales transaction and is released on a straight-line basis over the period of the service.

Dividend revenue

Dividend revenue is recognised when the right to receive a dividend has been established.

Dividends received from associates are accounted for in accordance with the equity method of accounting in the consolidated financial statements.

Rental income

Rental income from operating leases is recognised on a straight-line basis over the lease term.

Finance and insurance commissions

The Group acts as an agent in the sale of vehicle finance and insurance products. The revenue (i.e., commission from the sale of these products) is recognised at a point in time when the performance obligation is satisfied, which is upon delivery of the vehicle and the transfer of control to the customer.

Interest revenue

Interest revenue is recognised on a time proportional basis, taking into account the effective interest rates applicable to the financial assets.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

4 Finance income

	Consolidated	
	2022 \$'000	2021 \$'000
Finance income	11,387	10,368

Finance income relates to income earned on sublease arrangements on finance leases, in accordance with AASB 16 *Leases*.

5 Other gains

	Consolidated		
	Notes	2022 \$'000	2021 \$'000
Gain on disposal of non-financial assets		2,813	15,168
Gain on disposal of properties		17,121	10,957
Gain on disposal of businesses	36	35,248	31,894
Brand restructure compensation		–	215
		55,182	58,234

Recognition and measurement

Property, plant and equipment

Gains and losses on disposals are determined by comparing proceeds with carrying amounts. These are included in profit or loss. When revalued assets are sold, it is Group policy to transfer the amounts included in the asset revaluation reserve in respect of those assets to retained earnings.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

6 Expenses

(a) Profit before income tax includes the following specific expenses:

	Notes	2022 \$'000	2021 \$'000	Consolidated
<i>Depreciation</i>				
Buildings	19	9,097	4,754	
Plant and equipment	19	15,670	19,165	
Leasehold improvements	19	4,289	5,383	
Right-of-use assets	17(a)(ii)	85,624	89,664	
Total depreciation		114,680	118,966	
<i>Amortisation</i>				
Customer relationships	20	1,462	1,462	
Other intangible assets	20	461	–	
Total amortisation		1,923	1,462	
Total depreciation and amortisation		116,603	120,428	
<i>Finance costs</i>				
Vehicle bailment		25,504	17,022	
Interest on lease liabilities	17(a)(ii)	45,837	48,715	
Other		16,904	13,882	
Total finance costs		88,245	79,619	
Superannuation		59,164	55,499	
<i>Provision expenses</i>				
Allowance for expected credit losses	10(b)	726	765	
<i>Employee benefits expense</i>				
Employee benefits expense – gross		678,452	672,077	
Employee benefits expense recognised in raw materials and consumables purchased		102,196	107,530	
Total employee benefits expense		780,648	779,607	
Share-based payments		2,396	3,204	
Business acquisition and divestment costs		3,034	1,803	
Business restructuring and integration costs		1,850	–	

(b) Impairment of non-current assets

	Notes	2022 \$'000	2021 \$'000	Consolidated
Impairment of right-of-use assets	17(a)(i)	1,727	–	
Revaluation decrement of land and buildings		–	5,156	
Allowance for expected credit losses	18	15,000	–	
		16,727	5,156	

(c) Recognition and measurement

(i) Property, plant and equipment

Land is not depreciated. Depreciation on other assets is calculated using the straight line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives, as follows:

- Buildings 30–40 years
- Plant and equipment 3–10 years
- Leasehold improvements The shorter of the lease term and the useful life of the asset (5–30 years)

(ii) Finance costs

Borrowing costs are recognised as expenses in the period in which they are incurred. Borrowing costs include:

- interest on bank overdrafts, short and long-term borrowings;
- interest on vehicle bailment arrangements;
- interest on finance lease liabilities; and
- amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

7 Income tax

(a) Income tax expense

	Notes	Consolidated	
		2022 \$'000	2021 \$'000
Current income tax expense		113,558	108,736
Deferred income tax expense	21	4,324	9,334
		117,882	118,070

Deferred income tax expense included in income tax expense comprises:

In respect of the current year	21	4,324	9,334
--------------------------------	----	--------------	-------

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

(b) Numerical reconciliation of income tax expense to *prima facie* tax payable

	Notes	Consolidated	
		2022 \$'000	2021 \$'000
Profit before income tax expense		442,222	456,807
Tax at the Australian tax rate of 30% (2021: 30%)		132,667	137,042
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:			
Non-deductible capital expenditure		910	541
Non-taxable dividends		–	(325)
Non-allowable expenses		783	608
Property impairment		–	1,547
Application of capital losses against current year capital gains		(16,267)	(17,488)
Sundry items		(211)	(3,855)
Income tax expense		117,882	118,070

(c) Tax expense relating to items of other comprehensive income

	Notes	Consolidated	
		2022 \$'000	2021 \$'000
Aggregate deferred tax arising in the reporting period and recognised in other comprehensive income		(5,382)	(1,500)

(d) Recognition and measurement

Taxes

Eagers Automotive Limited and its wholly-owned Australian entities are part of a tax consolidated group in accordance with Part 3-90 of the *Income Tax Assessment Act 1997*. The existence of a tax consolidated group allows for wholly-owned corporate groups to operate as a single entity for income tax purposes.

The head entity, Eagers Automotive Limited, and the wholly-owned entities in the tax consolidated group continue to account for their own income tax expense, current and deferred tax amounts in accordance with the Eagers Automotive Tax Funding Agreement. These tax amounts are measured by adopting a notional tax approach which requires each member to calculate their separate tax amounts as if each entity in the tax consolidated group continues to be a standalone taxpayer. Assets or liabilities arising for wholly-owned subsidiaries under the Tax Funding Arrangement are recognised as accounts receivable from or payable to other entities in the Group. In addition to its own income tax expense, current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and tax credits assumed from controlled entities in the tax consolidated group.

Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the notional income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements, and to unused tax losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

8 Dividends

(a) Ordinary dividends fully franked based on tax paid @ 30%

	Consolidated	
	2022 \$'000	2021 \$'000
Final dividend for the year ended 31 December 2021 of 42.5 cents (2020: 25.0 cents) per share paid on 20 April 2022	109,197	64,233
Interim dividend for the year ended 31 December 2022 of 22.0 cents (2021: 28.4 cents – ordinary dividend of 20.0 cents and a special dividend of 8.4 cents) per share paid on 23 September 2022	56,487	72,969
Total dividends paid	165,684	137,202
Dividends paid in cash during the years ended 31 December 2022 and 2021 were as follows:		
Paid in cash	165,684	137,202

(b) Dividends not recognised at year end

In addition to the above dividends, since year end the Directors have recommended the payment of a final dividend of 49.0 cents per share, fully franked based on tax paid at 30%. The aggregate amount of the proposed dividend expected to be paid on 31 March 2023 out of the retained profits at 31 December 2022 but not recognised as a liability at year end is:

125,145 109,197

(c) Franked dividends

The final dividend recommended after 31 December 2022 will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 31 December 2022.

Franking credits available for subsequent reporting periods based on a tax rate of 30% (2021: 30%)

529,115 487,161

The above amounts represent the balances of the franking account as at the end of the financial year, adjusted for:

- (i) franking credits that will arise from the payment of the current tax liability;
- (ii) franking debits that will arise from the payment of dividends recognised as a liability at the reporting date; and
- (iii) franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date.

Impact on franking credits of dividends not recognised

(53,634) (46,799)

9 Current assets – Cash and cash equivalents

	Consolidated	
	2022 \$'000	2021 \$'000
Cash at bank and on hand	190,434	197,620

The above figures are reconciled to cash at the end of the financial year as shown in the Consolidated Statement of Cash Flows.

Recognition and measurement

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Consolidated Statement of Financial Position.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

10 Current assets – Trade and other receivables

	Consolidated	
	2022 \$'000	2021 \$'000
Trade and other receivables	279,961	233,024
Allowance for expected credit losses	(4,661)	(4,064)
Total	275,300	228,960

(a) Ageing of trade receivables

The ageing of trade receivables at 31 December 2022 is detailed below:

	Consolidated			
	2022 Gross \$'000	2022 Provision \$'000	2021 Gross \$'000	2021 Provision \$'000
Not past due	266,328	3,703	223,166	3,573
Past due 0-30 days	9,061	227	6,604	165
Past due 31 days plus	4,572	731	3,254	326
Total	279,961	4,661	233,024	4,064

Included in the Group's trade receivables balance are debtors with a net carrying amount of \$12,675,000 (2021: \$9,367,000) which are past due at the reporting date. The Group has applied the expected credit losses methodology to these trade receivables, in line with AASB 9. The average age of these receivables is 62 days (2021: 61 days).

(b) Movement in expected credit losses

	Consolidated	
	2022 \$'000	2021 \$'000
Opening balance	4,064	5,639
Additional loss allowance	726	765
Amounts written off during the year	(35)	(676)
Disposal due to divestment	(94)	(1,664)
Closing balance	4,661	4,064

The Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivable. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit losses experience. In line with this, the Group has provided 10% for all receivables over 90 days and 2.5% of total trade receivables excluding motor vehicle debtors.

(c) Recognition and measurement

Receivables

Trade receivables are recognised initially at the transaction price, less the expected lifetime credit losses to be recognised from initial recognition of the receivables.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

11 Current assets – Inventories

	Consolidated	
	2022 \$'000	2021 \$'000
New and demonstrator motor vehicles and trucks – at cost	675,629	528,027
Less: Write-down to net realisable value	(15,585)	(15,013)
	660,044	513,014
Used vehicles and trucks – at cost	256,929	247,445
Less: Write-down to net realisable value	(15,290)	(14,347)
	241,639	233,098
Parts and other consumables – at cost	168,426	136,374
Less: Write-down to net realisable value	(10,808)	(8,437)
	157,618	127,937
Total inventories	1,059,301	874,049

(a) Recognition and measurement

Inventories

New motor vehicles and demonstrator vehicles are stated at the lower of cost and net realisable value. Costs are assigned on the basis of specific identification.

Used motor vehicles are stated at the lower of cost and net realisable value on a unit by unit basis. Net realisable value has been determined by reference to the likely net realisable value given the age of the vehicles at year end. This is effected through the application of a specific provision percentage against cost of vehicles based on age. Costs are assigned on the basis of specific identification.

Spare parts and accessories are stated at the lower of cost and net realisable value. Costs are assigned to individual items on the basis of weighted average cost.

Work in progress is stated at cost. Cost includes labour incurred to date and consumables utilised during the service. Costs are assigned to individual customers on the basis of specific identification.

(b) Critical accounting estimates and judgements

(i) New and demonstrator motor vehicles and trucks write-down to net realisable value

In determining the amount of write-downs for new and demonstrator vehicle inventory, management has made judgements based on the expected net realisable value of inventory. Historic experience and current knowledge of the products have been used in determining any write-downs to net realisable value.

(ii) Used vehicles and trucks write-down to net realisable value

In determining the amount of write-downs required for used vehicle inventory, management has, in consultation with published used vehicle valuations, made judgements based on the expected net realisable value of that inventory. Historic experience, current knowledge of the products and the valuations from an independent used car publication has been used in determining any write-downs to net realisable value.

12 Current assets – Other current assets

	Consolidated	
	2022 \$'000	2021 \$'000
Prepayments and deposits	21,680	18,787

13 Current assets – Assets classified as held for sale

	Consolidated	
	2022 \$'000	2021 \$'000
Assets classified as held for sale	–	18,670

There are no assets currently held for sale in the current reporting period.

Assets classified as held for sale at 31 December 2021 represented a vacant property sale that was unconditional at reporting date, and settled in February 2022. The asset was presented within total assets of the Property segment in Note 30(b).

Recognition and measurement

Assets held for sale

Assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell. Where assets are sold above the lower of their previous carrying amounts and fair value less costs to sell, this gain is recognised in profit or loss when the sale is recognised.

14 Non-current assets – Receivables

	Consolidated	
	2022 \$'000	2021 \$'000
Loans receivables	32,468	23,910

31 December 2022 (CONTINUED)

15 Non-current assets – Financial assets at fair value through other comprehensive income

	Consolidated	
	2022 \$'000	2021 \$'000
Financial assets at fair value through other comprehensive income		
Shares in a listed company ¹	11,943	–
Shares in an unlisted company ²	175	577
	12,118	577

1 The Directors have assessed the fair value of the investment as at 31 December 2022 based on the market price of the shares on the last trading day of the reporting period. This is a level 1 fair value measurement asset being derived from inputs based on quoted prices that are observable.
 2 The Directors have assessed the fair value of the investment as at 31 December 2022 is materially consistent with its cost of acquisition. This is a level 3 fair value measurement asset being derived from inputs other than quoted prices that are unobservable from the asset either directly or indirectly.

(a) Valuation of financial assets at fair value through other comprehensive income

Details of the Group's assets held at fair value through other comprehensive income and information about the fair value hierarchy as at 31 December 2022 are as follows:

Class of financial assets and liabilities	Unobservable inputs used in determination of fair values			
	Carrying amount 31/12/22 \$'000	Carrying amount 31/12/21 \$'000	Valuation technique	Key input
Level 1 Financial assets at fair value through other comprehensive income – listed	11,943	–	Quoted bid prices in an active market.	Quoted bid prices in an active market.
Level 3 Financial assets at fair value through other comprehensive income – unlisted	175	577	Net asset assessment and available bid prices from equity participants.	Pre-tax operating margin taking into account managements' experience and knowledge of market conditions and financial position. Market information based on available bid prices.

There were no transfers between levels in the year.

(b) Recognition and measurement

Investments and other financial assets

Investments are recognised and derecognised on settlement date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned. They are initially measured at fair value, net of transaction costs, except for those financial assets classified as fair value through profit or loss (FVPL), which are initially measured at fair value.

Subsequent to initial recognition, investments in associates are accounted for under the equity method in the consolidated financial statements.

The Group classifies its remaining financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (OCI) or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, the classification will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

15 Non-current assets – Financial assets at fair value through other comprehensive income (CONTINUED)

(b) Recognition and measurement (CONTINUED)

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Equity instruments

The Group subsequently measures all equity investments at fair value. The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques. These include reference to the fair values of recent arm's-length transactions involving the same instruments or other instruments that are substantially the same, discounted cash flow analysis, and pricing models to reflect the issuer's specific circumstances.

Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. The Group recognises the payment of dividends in the profit and loss for those equity instruments measured at FVOCI.

Impairment

The Group assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets is impaired. For trade receivables and other receivables, finance lease receivables and other loans receivable, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of these financial assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience.

16 Non-current assets – Investments in associates

	Consolidated	
	2022 \$'000	2021 \$'000
Shares in associate – Vehicle Parts (WA) Pty Ltd	1,846	1,555
Shares in associate – Mazda Parts	485	519
	2,331	2,074

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting (refer Note 48).

Reconciliation of the carrying amount of investments in associates is set out in Note 48(b).

31 December 2022 (CONTINUED)

17 Right-of-use assets and lease liabilities (CONTINUED)

(a) Leases (CONTINUED)

(ii) Amounts recognised in the Consolidated Statement of Profit or Loss

The Consolidated Statement of Profit or Loss shows the following amounts relating to leases:

	Notes	Consolidated	
		2022 \$'000	2021 \$'000
Depreciation charge of right-of-use assets			
Buildings		84,378	89,415
Equipment		1,246	249
		85,624	89,664
Interest expense	6(a)	45,837	48,715
Expense relating to short-term leases		5,196	3,645

(iii) Maturity analysis of contracted undiscounted cashflows

		Consolidated	
		2022 \$'000	2021 \$'000
Maturity analysis			
Not later than one year		168,089	167,179
Later than 1 year and not later than 5 years		537,006	585,321
Later than 5 years		577,351	665,649
Total undiscounted lease payments		1,282,446	1,418,149
Less: Present value adjustment		(259,676)	(292,004)
Present value of lease payments		1,022,770	1,126,145

In addition to the above lease payments is a minimum lease payment of \$44.7 million expected to occur to within 2-5 years, under a non-cancellable lease that has not yet commenced. The lease relates to vacant land for future development and is expected to commence in 2023. The lease agreement contains an option to prepay the lease at the end of the first 12 months after commencement instead of regular monthly lease payments. The Directors have not yet made a decision over the rent payment options as outlined in the contract.

(b) Recognition and measurement

Leases

The Group as a lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. The incremental borrowing rate is defined as the rate of interest that the lessee would have to pay to borrow over a similar term and with a similar security over the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

The lease liability is presented as a separate line in the Consolidated Statement of Financial Position.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

17 Right-of-use assets and lease liabilities (CONTINUED)

(b) Recognition and measurement (CONTINUED)

Leases (CONTINUED)

Lease liabilities (CONTINUED)

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liabilities are remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected payment under guaranteed residual value, in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); and
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

Right-of-use assets

The Group recognises right-of-use assets at cost at the commencement date of the lease (i.e., the date the underlying asset is available for use).

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are subsequently measured at cost, less any accumulated depreciation and impairment losses, and are adjusted for any remeasurement of lease liabilities.

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under AASB 137 *Provisions, Contingent Liabilities and Contingent Assets*. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

The right-of-use assets are presented as a separate line in the Consolidated Statement of Financial Position.

Right-of-use assets are subject to impairment in accordance with AASB 136. Any identified impairment loss is accounted for in line with our accounting policy for 'Property, plant and equipment'

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of property, machinery/equipment and motor vehicles (i.e., those leases that have a lease of 12 months or less from the commencement date and do not contain a purchase option). It also applies the low-value assets recognition exemption to leases that are considered of low-value. Lease

payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Sale and leaseback transactions

Where the Group enters into a sale and leaseback transaction, the Group firstly applies the requirements of AASB 15 *Revenue from Contracts with Customers* to determine whether control has passed, and whether the transfer is accounted for as a sale. Further, when the Group enters into a sale and leaseback transaction and the fair value of the consideration for the sale of the property does not equal the fair value of the asset, or the payments for the lease are not at market rates, the following adjustments are made to measure the sale proceeds at fair value:

- any below market terms are accounted for as a prepayment of lease payments; and
- any above market terms are accounted for as additional financing provided by the buyer-lessor to the Group.

Incremental borrowing rate

The Group has determined its incremental borrowing rate by considering the interest rate on their financing facility and applying, where considered necessary, adjustments to align this with an asset specific rate. The adjustments consider the term of the agreement, security of asset and the funds necessary to obtain the asset of a similar value in a similar economic environment. Significant judgement is required to assess and apply these adjustments.

The application of the incremental borrowing rate impacts the initial valuation of the lease liability and associated interest expense.

(c) Critical accounting estimates and judgements

Recoverability of right-of-use assets and other non-current assets

The Group assessed the recoverability of the right-of-use assets and other non-current assets associated with Holden sites and restructuring activities related to its leased property portfolio. In applying the standard, the Directors have made certain assumptions and judgements in relation to the determination of the recoverable amount for these assets. Further information on impairments recognised in respect to right-of-use assets and other non-current assets can be found in Notes 17(a)(i) and 19(a) respectively.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its property leases to lease the asset for additional terms. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

18 Finance lease receivables

In determining the expected credit losses for these assets, the directors of the Group have taken into account the understanding of the credit risk rating of counterparties, as well as the historical default experience and the future prospects of the industries in which the lessees operate, together with the value of collateral held over these finance lease receivables.

(a) Amounts receivable under finance leases

	Consolidated	
	2022 \$'000	2021 \$'000
Year 1	39,104	34,715
Year 2	37,548	34,430
Year 3	28,945	33,223
Year 4	27,903	28,525
Year 5	22,918	27,428
Onwards	169,941	192,135
Total undiscounted lease payments	326,359	350,456
Less: Unearned finance income	(74,017)	(79,809)
Allowance for expected credit losses	(15,000)	–
Present value of lease payments receivable	237,342	270,647
Current	39,104	34,715
Non-current	198,238	235,932
Total finance lease receivables	237,342	270,647

All subleases are back-to-back arrangements, and as such there is no residual value risk. The Group is not exposed to foreign currency risk as a result of the lease arrangement, as all leases are denominated in Australian Dollars.

The back-to-back subleases have terms between 1 and 13 years. Leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions.

18 Finance lease receivables (CONTINUED)

(c) Recognition and measurement

Leases

The Group as a lessee

Sublease arrangements

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. As a result of the subleasing arrangements entered into as a result of business divestments, the Group has recognised a current finance lease receivable of \$39.1 million, and a non current finance lease receivable of \$198.2 million.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return of the Group's net investment outstanding in respect of the leases.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVOCL, lease receivables, trade receivables and contract assets. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime expected credit losses (ECL) for trade receivables, contract assets and lease receivables. The Group have taken into account the understanding of the credit risk rating of counterparties, as well as the historical default experience and the future prospects of the industries in which the lessees operate, together with the value of collateral held over these finance lease receivables.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e., the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

(d) Critical accounting estimates and judgements

Calculation of loss allowance

When measuring ECL the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements. Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes credit rating, assumptions and expectations of future conditions.

Total property, plant and equipment	698,393	514,374

1 Valuation of land and buildings.

Valuation of land and buildings

The Group considers the valuation of land & buildings every reporting date and the Group's policy requires land & buildings to be externally valued every three years. At reporting dates where an asset is not externally valued, the Group considers whether market conditions or asset specific factors support the position that the carrying value of the asset is materially in line with fair value. This includes consideration of changes in market variables such as capitalisation rates and terminal growth observable through comparable independent valuations obtained and also considers comparable market transactions. The Group also considers whether the usage of a property has changed that may alter the valuation of the property. In the current year, the Group commissioned additional valuations of additional properties above the usual cyclical valuations in response to uncertainty driven by market conditions.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

19 Non-current assets – Property, plant and equipment (CONTINUED)

Valuation of land and buildings (CONTINUED)

Details of the Group's freehold land and buildings and information about the fair value hierarchy as at 31 December 2022 are as follows:

Class of assets and liabilities	Carrying amount		Unobservable inputs used in determination of fair values				
	2022 \$'000	2021 \$'000	Inputs used to measure fair value	2022	2021	Valuation technique	Key input
Level 3 Car – HBU Alternate Use	41,881	40,541	Adopted capitalisation rate	6.2% - 8.1%	N/A	Direct comparison	External valuations
			Net market rental (per sqm)	\$120 - \$298	N/A		
			Price per sqm land	\$1,473 - \$4,826	\$1,489 - \$4,002		
Level 3 Franchised Automotive Dealership	535,174	380,956	Adopted capitalisation rate	4.9% - 10.1%	0.0% - 9.0%	Summation method, income capitalisation and direct comparison	External valuations, industry benchmarks
			Net market rental (per sqm)	\$4 - \$270	\$0 - \$300		
			Net rent per sqm GBA	\$54 - \$1,029	\$0 - \$980		
Level 3 Truck Dealership	-	9,888	Adopted capitalisation rate	N/A	4.7% - 4.7%	Direct comparison	External valuations
			Net market rental (per sqm)	N/A	\$0 - \$20		
			Price per sqm land	N/A	\$430 - \$430		
Level 3 Other Logistics	-	1,067	Adopted capitalisation rate	N/A	8.0% - 8.0%	Income capitalisation method supported by market comparison	External valuations
			Net market rental (per sqm)	N/A	\$71 - \$71		
Total	577,055	432,452					

Truck Dealership and Other Logistics have been reclassified to Franchised Automotive Dealership in the current year.

There were no transfers between levels in the year.

Explanation of asset classes: Car – Higher and Best Use (HBU) alternate use refers to properties currently operated as car dealerships which have a HBU greater than that of a car dealership; Franchised Automotive Dealership refers to properties operating as car dealerships with a HBU consistent with that use; Truck Dealership refers to properties being operated as truck dealerships with a HBU consistent with that use; Other Logistics are industrial properties used for parts warehousing and vehicle logistics.

Carrying amounts that would have been recognised if land and buildings were stated at cost

If freehold land was carried at historical cost, its current carrying value would be \$250,357,000 (2021: \$235,675,000). If freehold buildings were carried at historical cost, its current carrying value (after depreciation) would be \$269,643,000 (2021: \$182,490,000).

Non-current assets pledged as security

Refer to Note 27 for information on non-current assets pledged as security by the Group.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

19 Non-current assets – Property, plant and equipment (CONTINUED)

Reconciliations

Reconciliation of the carrying amounts of each class of property, plant and equipment at the beginning and end of the year is set out below:

Consolidated 2022	Freehold land \$'000	Buildings \$'000	Construction in progress \$'000	Leasehold improvements \$'000	Plant and equipment \$'000	Total \$'000
Opening net book amount	249,962	182,490	15,825	24,394	41,703	514,374

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

19 Non-current assets – Property, plant and equipment (CONTINUED)

(a) Recognition and measurement

Property, plant and equipment

Land and buildings are shown at fair value, based on annual assessment by the Directors supported by periodic valuations by external independent valuers, less subsequent depreciation for buildings. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period or immediately prior to the initial classification of assets held for sale. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. All other property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Increases in the carrying amounts arising on revaluation of land and buildings are credited to property, plant and equipment revaluation reserve in shareholders' equity. To the extent that the increase reverses a decrease previously recognised in profit or loss, the increase is first recognised in profit or loss. Decreases that reverse previous increases of the same asset are first charged against revaluation reserves directly in equity to the extent of the remaining reserve attributable to the asset; all other decreases are charged to profit or loss.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 20(b)(i)).

Gains and losses on disposals are determined by comparing proceeds with carrying amounts. These are included in profit or loss. When revalued assets are sold, it is Group policy to transfer the amounts included in the asset revaluation reserve in respect of those assets to retained earnings.

The cost of improvements to or on leasehold properties is amortised over the unexpired period of the lease or the estimated useful life of the improvement, whichever is the shorter.

(b) Critical accounting estimates and judgements

Fair value estimation of land and buildings

Land and buildings with a carrying value of \$577.1 million (2021: \$432.5 million) are carried at fair value. Fair value inherently involves estimates and judgements to be made. The Directors determine the fair value of land and buildings at least annually and if required in contemplation of sale. The Directors' assessment is supported by formal independent valuations conducted periodically but at least every three years.

31 December 2022 (CONTINUED)

20 Non-current assets – Intangibles (CONTINUED)

(a) Impairment tests for goodwill

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (CGU), or groups of CGUs, that are expected to benefit from the synergies of the combinations. Each unit or group of units to which goodwill is allocated represents the lowest level at which goodwill is monitored for internal management purposes.

The Group has nine groups of CGUs in the Car retailing segment, grouped by the operating regions (QLD & NT, NSW, ACT, VIC & TAS, SA, WA, NZ), national retailing rights (BYD), and a National Used CGU, with the lowest level for which there are independent cash flows determined to be on an operating region or State basis.

The recoverable amount of a CGU or group of CGUs to which goodwill and other indefinite life intangible assets is allocated is determined based on the greater of its value-in-use and its fair value less costs of disposal. Fair value is determined as being the amount obtainable from the sale of a CGU in an arm's length transaction between knowledgeable and willing parties at the balance date. If relevant, this fair value assessment less costs of disposal is conducted by the Directors based on their extensive knowledge of the car and truck retailing industry including the current market conditions prevailing in the industry. The value-in-use assessment is conducted using a discounted cash flow (DCF) methodology requiring the Directors to estimate the future cash flows expected to arise from the CGU's and then applying a discount rate to calculate the present value.

The DCF model adopted by the Directors utilises cash flow forecasts derived from the 2023 financial budgets approved by the Board to help determine year one cash flows. The budgets consider all available sources of information (both external and internal).

The key assumptions determined by the Directors as being the assumptions to which the CGUs recoverable amount is most sensitive are:

Cash flow growth rates

The DCF value-in-use models include a range of cash flow growth rates applied in a second forecast year to year four that does not exceed 2.3% (2021: 2.0%) in both our Australian and New Zealand operations.

Terminal growth rates

A terminal growth rate of 2.5% is applied from year four and into the terminal period (2021: 2.0%). The terminal growth rate is not deemed to exceed the long-term average growth rate for the industry and generally accepted future consumer price index (CPI) rate.

Discount rate

A post-tax discount rate of 8.5% (2021: 8.0%) was applied to the cash flows for Australian operations and a post-tax discount rate of 8.75% (2021: 8.0%) for New Zealand, incorporating the impact of AASB 16 (IFRS 16 Leases in New Zealand) on the Group's cost of debt. Management engaged a third party specialist to provide the discount rate utilised in the DFC value-in-use models.

Whilst supply chain dynamics persist, the Group's fundamentals reflect the strength of our ongoing business, with continued growth of our new car order bank and realised benefits from our ongoing productivity and cost-out programs. The forecast growth rates and terminal growth rate have been based on consideration of historical performance and the expected future operating conditions.

Consideration of COVID-19 and the associated impacts on the automotive retail industry and the wider economy

The Group believes that the assumptions underpinning the DCF calculations used to evaluate the recoverability of goodwill and intangible assets have been adjusted to reflect reasonable estimates of the impact of COVID-19 and the risks associated with estimated cash flows. Whilst there is no impairment of the CGUs at 31 December 2022, the Directors acknowledge the continuing heightened level of uncertainty around key assumptions in the current environment.

Management have considered the market context and performance with reference to the VFACTS National Report New Vehicle Sales results for December 2022. Market new vehicle sales increased 3.0% year-to-date December 2022, compared to year-to-date December 2021. New vehicle sales is a leading indicator for Used Vehicle, Parts and Service department performance.

Consideration of climate change

In estimating recoverable amount the Group has considered the potential impacts of climate change both on the Group's business model and corporate strategy. The most significant change for vehicle retailers will be the increasing rate of demand for electric vehicles (including hydrogen fuel cell electric vehicles) in preference to internal combustion engine vehicles. This change, in isolation is not expected to significantly impact the Group's business model as the Group is pivoting to supplying a greater percentage of electric vehicles to meet consumer demand. Other impacts such as the Group's desire to meet net zero emissions over time are being considered and will be reflected in the recoverable amount as the strategy progresses. There is significant headroom in all CGUs.

Sensitivity analysis performed

The Group has performed sensitivity analysis of the reasonably possible changes in the key assumptions used in the model, including reducing cash flow growth rates from a maximum of 2.3% to a fixed growth rate of 0% applied from the second forecast year through to year five, whilst holding terminal growth rate at 2.5%. Further, the Group has sensitised the discount rate from 8.5% to 9.0% in Australian operations, and from 8.75% to 9.25% in New Zealand operations. Under each of these independent scenarios, no impairment was identified.

The CGU most sensitive to possible impairment is New Zealand. However, the directors have determined that a reasonably possible change to the key assumptions, including the Board approved Year 1 forecast, would not result in impairment.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

20 Non-current assets – Intangibles (CONTINUED)

(b) Recognition and measurement

(i) Impairment of long lived assets (excluding goodwill)

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and its value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable independent cash inflows (CGUs) and these cash flows are discounted using the estimated weighted average cost of capital of the asset/CGU. An impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease (refer Note 19(a)). Where an impairment loss subsequently reverses, the carrying amount of the asset (CGU) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment losses been recognised for the asset (CGU) in prior years. A reversal of an impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case, the reversal of the impairment loss is treated as a revaluation increase (refer Note 19(a)).

(ii) Customer relationships

Customer relationships acquired in a business combination where management believes there are contracted relationships in place that generate repeat transactions which creates future economic benefits and are amortised on a straight-line basis over the period of their expected benefit, being their finite useful life of five years. Customer relationships are made up of fleet customer arrangements in place for the new vehicle and servicing business.

(iii) Trademarks/brand names

Trademarks/brand names are valued on acquisition where management believe there is evidence of any of the following factors: an established brand name with longevity, a reputation that may positively influence a consumer's decision to purchase or service a vehicle, and/or strong customer awareness within a particular geographic location. The trademarks are valued using a discounted cash flow methodology. The majority of the Group's trademarks are considered to have an indefinite life as the Group expects to hold and support such trademarks through marketing and promotional support for an indefinite period. They are recorded at cost less any impairment.

(iv) Other intangible assets

Other intangible assets include costs associated with franchise licences which provide a benefit for more than one reporting period are amortised over the remaining term of the franchise licence. Capitalised costs associated with renewal options for franchise licences are deferred and amortised over the renewal option period. The unamortised balance is reviewed each balance date and charged to the Consolidated Income Statement to the extent that future benefits are no longer probable.

(v) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets acquired and liabilities assumed of the acquired subsidiary, associate or business at the date of acquisition. Goodwill on acquisition of subsidiaries and businesses is included in intangible assets. Goodwill on acquisition of associates is included in investment in associates. Goodwill acquired in business combinations is not amortised. Instead, goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. An impairment loss for goodwill is recognised immediately in profit or loss and is not reversed in a subsequent period. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing.

(c) Critical accounting estimates and judgements

Recoverability of goodwill and other intangibles with indefinite useful lives

Goodwill and other intangibles with indefinite useful lives of \$840.5 million (2021: \$769.9 million) are tested annually for impairment, based on estimates made by Directors. The recoverable amount of the intangibles is based on the greater of 'Value-in-use' or 'Fair value less costs to dispose'. Value-in-use is assessed by the Directors through a discounted cash flow analysis which includes significant estimates and assumptions related to growth rates, margins, working capital requirements and discount rates based on the current cost of capital. Fair value less costs of disposal is assessed by the Directors based on their knowledge of the industry and any recent market transactions. The above figures therefore reflect the estimates of the recoverable amounts post any impairment recognised during the year. Further information on the impairment test in respect of goodwill and other assets can be found in Notes 19(a) and 20(a).

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

21 Non-current assets – Deferred tax assets

Notes	Consolidated	
	2022 \$'000	2021 \$'000

Sundry items	16,668	24,422
Total amounts recognised in profit or loss	159,250	159,843
<i>Amounts recognised directly in equity</i>		
Revaluation of available-for-sale investment	(57)	–
Revaluation of property, plant and equipment	(18,020)	(8,948)
Share options trust	943	1,105
Total amounts recognised directly in equity	(17,134)	(7,843)
<i>The deferred tax expense included in income tax expense in respect of the above temporary differences resulted from the following movements:</i>		
Opening balance at 1 January 2022	152,000	162,005
Deferred tax (expense)	7(a) (4,324)	(9,334)
Adjustments recognised in the current year in relation to deferred tax in prior years prior years	7(a) (1,702)	–
Deferred tax recognised directly in equity		
Revaluation of property, plant and equipment	32(a) (6,434)	(1,500)
Disposal of property with prior period revaluation	32(a) 1,109	–
Revaluation of financial assets	32(a) (57)	–
Share options trust	32(a) (640)	253
Deferred tax recognised through a business combination		
Deferred tax assets relating to business combinations	2,164	576
Closing balance at 31 December 2022	142,116	152,000

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis. The following is the analysis of the deferred tax balances (after offset) for financial reporting purposes:

	Consolidated	
	2022 \$'000	2021 \$'000
Deferred tax liabilities	(19,784)	(11,871)
Deferred tax assets	161,900	163,871
Net deferred tax asset	142,116	152,000

At the reporting date, the Group has no unused revenue tax losses (2021: nil) available for offset against future profits. No deferred tax asset has been recognised in respect of capital losses of \$57.5 million (2021: \$116.9 million, revised to \$109.4 million following finalisation of the Group income tax return) as it is not considered probable that there will be future capital gains available to utilise the capital losses. The capital losses may be carried forward indefinitely.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

21 Non-current assets – Deferred tax assets (CONTINUED)

(a) Recognition and measurement

Deferred taxes

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, where at the time of the transaction the temporary differences did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(b) Critical accounting estimates and judgements

Deferred tax asset

Recognition and measurement of deferred tax assets require certain judgements and assumptions to be made, including but not necessarily limited to the expected realisation of certain assets and liabilities and the likelihood and timing of sufficient profits available in the future.

Other payables	233,167	247,595
	375,672	364,263

Other payables comprises of customer deposits held of \$95.1 million (2021: \$71.4 million), taxes payable of \$10.2 million (2021: \$15.4 million), accruals of \$96.6 million (2021: \$118.8 million), with the remaining balance relating to miscellaneous payables.

- 1 The average credit period on purchases of goods is 30 days.
No interest is charged on trade payables from the date of invoice.
The Group has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

Recognition and measurement

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. They are recognised initially at the fair value of what is expected to be paid, and subsequently at amortised cost, using the effective interest rate method.

23 Current liabilities – Borrowings – bailment and other current loans

(a) Bailment finance and other current loans

	Consolidated	
	2022 \$'000	2021 \$'000
Bailment finance	872,348	681,325
Capital loan	66,976	14,967
	939,324	696,292

(i) Bailment finance

Bailment finance is provided on a vehicle-by-vehicle basis by various finance providers at an average interest rate of 3.67% p.a. applicable at 31 December 2022 (2021: 2.21%). Bailment finance is repayable within a short period after the vehicle is sold to a third party, generally within 48 hours.

(ii) Interest rate risk exposures

Details of the Group's exposure to interest rate changes on interest bearing liabilities is set out in Note 33.

(iii) Fair value disclosures

Details of the Group's fair value of interest bearing liabilities is set out in Note 33.

(iv) Security

Details of the security relating to each of the secured liabilities and further information on bank loans is set out in Note 27.

b) Recognition and measurement

(i) Borrowings

Borrowings are initially recognised at fair value net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest rate method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

(ii) New motor vehicle stock and related bailment

Motor vehicles secured under bailment plans are provided to the Group under bailment agreements between the floor plan loan providers and entities within the Group. The Group obtains title to the vehicles immediately prior to sale. Motor vehicles financed under bailment plans held by the Group are recognised as trading stock with the corresponding liability shown as owing to the finance provider.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

24 Current liabilities – Net current tax liabilities

	Consolidated	
	2022 \$'000	2021 \$'000
Current income tax receivable	–	(574)
Current income tax payable	16,331	–
Net current income tax payable/(receivable)	16,331	(574)

Recognition and measurement

Please refer to Note 7(d) for recognition and measurement of tax balances.

25 Current liabilities – Provisions

	Consolidated	
	2022 \$'000	2021 \$'000
Annual leave	55,534	57,429
Long service leave	48,993	44,341
	104,527	101,770

Recognition and measurement

(i) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate taking into account the risks and uncertainties surrounding the obligation.

(ii) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave, when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of short-term employee benefits are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Contributions are made by the Group to defined contribution employee superannuation funds and are charged as expenses when incurred.

26 Current liabilities – Other current liabilities

	Consolidated	
	2022 \$'000	2021 \$'000
Deferred revenue	12,924	13,442

Deferred revenue relates to recognition of revenue in accordance with the performance obligations in certain warranty contracts.

31 December 2022 (CONTINUED)

27 Non-current liabilities – Borrowings (secured)

	Consolidated	
	2022 \$'000	2021 \$'000
Term facility	104,560	–
Capital loan	272,350	311,062
	376,910	311,062

Secured liabilities

Total secured liabilities (current and non-current) are:

	2022 \$'000	2021 \$'000
Term facility ¹	104,560	–
Capital loan ²	339,326	326,029
Bailment finance ³	872,348	681,325
	1,316,234	1,007,354

- 1 The term facility is secured by a general security agreement which includes registered first mortgages held by a security trustee over specific freehold land and buildings and a general charge over assets. This excludes new and used inventory and related receivables, letter of set off given by and on account of the parent entity and its subsidiaries, and a Corporate Guarantee and Indemnity unlimited as to amount given by the parent entity and its subsidiaries.
- 2 The capital loan is secured by registered first mortgages given by subsidiaries over specific freehold land and buildings, letter of set off given by and on account of the parent entity and its subsidiaries, and a Corporate Guarantee and Indemnity unlimited as to amount given by the parent entity and its subsidiaries.
- 3 Vehicle bailment finance reflects a liability payable to the consolidated entity's bailment financiers. This liability is represented by and secured over debtors included in current assets receivables in respect of recent vehicle deliveries to customers, and by new vehicles, demonstrator vehicles and some used vehicles all included in inventories (bailment stock). Refer to Note 11.

Refer to Note 33 for maturities.

Assets pledged as security

The carrying amounts of assets pledged as security are:

	Consolidated	
	2022 \$'000	2021 \$'000
Non-current assets pledged as security		
Freehold land and buildings – first mortgage	577,055	432,452
Other non-current assets	1,052,900	905,967
Current assets pledged as security		
Inventories	872,348	681,325
Other current assets	353,639	346,057
Total assets pledged as security	2,855,942	2,365,801

Financing arrangements

The consolidated entity has access to the following lines of credit at the balance date:

	Consolidated	
	2022 \$'000	2021 \$'000
Total facilities		
Term facility ¹	382,000	382,000
Working capital facility (includes bank overdraft) ²	30,000	30,000
Capital loan ³	472,545	449,527
Bailment finance ⁴	1,624,700	1,597,030
Bank guarantees	66,100	58,000
	2,575,345	2,516,557
Drawn at balance date		
Term facility	104,560	–
Capital loan	339,326	326,029
Bailment finance	872,348	681,325
Bank guarantees	53,408	49,257
	1,369,642	1,056,611
Undrawn at balance date		
Term facility	277,440	382,000
Working capital facility (includes bank overdraft)	30,000	30,000
Capital loan	133,219	123,498
Bailment finance	752,352	915,705
Bank guarantees	12,692	8,743
	1,205,703	1,459,946

¹ Term facility at balance date was provided on a non-amortisable (interest only) basis subject to compliance with specific covenants for a fixed term.

² Working capital facility at balance date was provided on a non-amortisable (interest only) basis subject to compliance with specific covenants and an annual review.

³ Capital loan facility at the balance date was provided on a non-amortisable (interest only) basis for a fixed term.

⁴ Dealerships utilise bailment finance to fund both new and used vehicle inventory. New vehicles are purchased from the original equipment manufacturer (OEM) using financing provided by a bailment finance provider, who retains title in the vehicle until it is subsequently sold by the dealership to the customer. Vehicle financed under bailment plans are recognised as inventory with the corresponding bailment liability owing to the finance providers.

These facilities include a combination of fixed term and open-ended arrangements and are subject to review periods ranging from quarterly to annual. The facilities are available for drawdown by specified dealerships on a vehicle-by-vehicle basis, with repayment as it relates to an individual vehicle required immediately after the vehicle is sold.

The Group also utilises the bailment finance facility to finance some of its used vehicle inventory.

31 December 2022 (CONTINUED)

28 Non-current liabilities – Provisions

	Consolidated	
	2022 \$'000	2021 \$'000
Long service leave	8,537	8,613
Other provisions	5,690	5,445
	14,227	14,058

The other provisions balance held at reporting date relates to provisions held for make good of leased property. This is for the expected cost of restoring the premises to its original condition at the end of the lease.

Recognition and measurement

(i) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate taking into account the risks and uncertainties surrounding the obligation.

(ii) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave, when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of long-term employee benefits are measured as the present value of the estimated future cash outflows to be made by the Group in respect of services provided by employees up to reporting date.

29 Non-current liabilities – Deferred revenue

	Consolidated	
	2022 \$'000	2021 \$'000
Deferred revenue	15,922	16,462

Deferred revenue relates to recognition of revenue in accordance with the performance obligations in certain warranty contracts.

30 Segment information

Segments are identified on the basis of internal reports about components of the consolidated entity that are regularly reviewed by the chief operating decision maker, being the Board of Directors, in order to allocate resources to the segment and to assess its performance.

The Group has historically operated in three operating and reporting segments being (i) Car Retailing, (ii) Truck Retailing and (iii) Property. These are identified on the basis of being the components of the Group that are regularly reviewed by the chief operating decision maker for the purpose of resource allocation and assessment of segment performance. Information regarding the Group's reporting segments is presented below.

As a result of the divestment of the Daimler Trucks business in the comparative period, the Group changed the structure of its internal organisation. This resulted in a change in the composition of its reportable segments in the prior period, resulting in the Group now operating in two segments. The Truck Retailing reporting segment for the comparative period represents only Daimler Truck dealerships for the year ended 31 December 2021. All remaining non-Daimler Truck dealerships are reported in the Car Retailing segment.

The accounting policies of the reportable segments are the same as the Group's accounting policies as described in Note 1. Segment profit represents the profit earned by each segment without allocation of unrecouped corporate/head office costs and income tax. External bailment is allocated to the Car Retailing and Truck Retailing segments. Funding costs in relation to bills payable are allocated to the Car Retailing, Truck Retailing and Property segments based on notional market based covenant levels.

This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance. For the purpose of monitoring segment performance and allocating resources between segments, the chief operating decision maker monitors the tangible, intangible, and financial assets attributable to each segment. All assets are allocated to reportable segments.

(i) Car Retailing

Within the Car Retailing segment, the Group offers a diversified range of automotive products and services, including new vehicles, used vehicles, vehicle maintenance and repair services, vehicle parts, service contracts, vehicle brokerage, vehicle protection products and other aftermarket products. They also facilitate financing for vehicle purchases through third-party sources. New vehicles, vehicle parts and maintenance services are predominantly supplied in accordance with franchise agreements with manufacturers.

This segment includes a motor auction business and forklift rental business. Following the divestment of Daimler Trucks in the comparative period, the Group adjusted the composition of its reportable segments, resulting in all remaining non-Daimler Truck dealerships being reallocated to the Car Retailing segment for both the comparative and current period.

(ii) Truck Retailing

For the comparative period, this segment includes only Daimler Truck dealerships which were divested in the prior period, as detailed above. Within the Truck Retailing segment, the Group offered a diversified range of products and services, including new trucks, used trucks, truck maintenance and repair services, truck parts, service contracts, truck protection products and other aftermarket products. They also facilitated financing for truck purchases through third-party sources. New trucks, truck parts and maintenance services were predominantly supplied in accordance with franchise agreements with manufacturers.

(iii) Property

Within the Property segment, the Group acquires commercial properties principally for use as facility premises for its motor dealership operations. The Property segment charges both the Car Retailing segment, and the formerly known Truck Retailing segment, commercial rent for owned properties occupied by that segment. The Property segment reports property assets at fair value, based on annual assessments by the Directors supported by periodic, but at least triennial, valuations by external independent valuers. Revaluation increments arising from fair value adjustments are reported internally and assessed by the chief operating decision maker as profit adjustments in assessing the overall returns generated by this segment to the Group.

(a) Geographic information

The Group operates in two principal geographic locations, being Australia and New Zealand.

(c) Recognition and measurement

Operating segments

Operating segments are identified based on internal reports that are regularly reviewed by the Group's Board of Directors in order to allocate resources to the segment and assess its performance.

The Group has historically operated in three operating and reporting segments being (i) Car Retailing, (ii) Truck Retailing and (iii) Property. The Truck Retailing segment is only applicable to the comparative period due to the divestment of the Daimler Trucks business in 2021. Currently the segment of "Other" is not required.

31 December 2022 (CONTINUED)

32 Reserves and retained earnings (CONTINUED)

(c) Nature and purpose of other reserves

(i) Property, plant and equipment revaluation reserve

The property, plant and equipment revaluation reserve is used to record increments and decrements on the revaluation of non-current assets as described in Note 19(a).

(ii) Investment revaluation reserve

The investment revaluation reserve represents the cumulative gains and losses arising on assets held at FVOCI that have been recognised in other comprehensive income.

(iii) Share-based payments reserve

The share-based payment reserve is used to recognise the fair value of performance rights expected to vest and the fair value of equity expected to be issued under various share incentive schemes referred to in Notes 42 and 43.

(iv) Business combination reserve

The business combination reserve is used to recognise difference between the value of consideration paid to acquire the non-controlling interest, the carrying value of the non-controlling interest and the value of shares acquired.

The Committee oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks. The Committee is assisted in its oversight by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Committee.

The Group's principal financial instruments comprise bank loans, bailment finance, cash, short-term deposits. The main purpose of these financial instruments is to raise finance for and fund the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors which arise directly from its operations. It is, and has been throughout the period under review, the Group's policy that no speculative trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below:

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. Further, it is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures.

Trade receivables consist of a large number of customers, spread across geographical areas. The Group applies the simplified approach permitted by AASB 9, which requires expected lifetime credit losses to be recognised from initial recognition of the receivable. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience.

With respect to credit risk arising from financial assets of the Group (comprised of cash, cash equivalents, receivables, finance lease receivables and other loans receivable), the Group's maximum exposure to credit risk at balance date, excluding the value of any collateral or other security, is the carrying amount as disclosed in the Consolidated Statement of Financial Position and notes to the consolidated financial statements.

The Group's credit risk on liquid funds is limited as the counter parties are major Australian banks with favourable credit ratings assigned by international credit rating agencies.

33 Financial instruments

(a) Overview

The consolidated entity has exposure to the following key risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk (interest rate risk)

This note presents information about the consolidated entity's exposure to each of the above risks, the consolidated entity's objectives, policies and processes for measuring and managing risk, and the consolidated entity's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Directors have overall responsibility for the establishment and oversight of the consolidated entity's risk management framework.

The Directors have established an Audit and Risk Committee ("the Committee") which is responsible for monitoring, assessing and reporting on the consolidated entity's risk management system. The Committee will provide regular reports to the Board of Directors on its activities.

The consolidated entity's risk management policies are established to identify and analyse the risks faced by the consolidated entity, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the consolidated entity's activities.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

33 Financial instruments (CONTINUED)

(a) Overview (CONTINUED)

Liquidity risk

Liquidity risk is the risk that the consolidated entity will not be able to meet its financial obligations as they fall due. The consolidated entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions.

The Group's overall objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts and bank loans.

The Group's ability to manage liquidity risk is not affected by the net current liability position at 31 December 2022, which is impacted by the recognition of a current liability equivalent to the present value of the lease payments under the remaining term of each lease in accordance with AASB 16. The cash commitments in relation to each lease remain unchanged. Management are of the view that the Group will continue to generate sufficient operating cash flows to meet its financial obligations as they fall due.

The Group also manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the consolidated entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and monitor market risk exposures within acceptable parameters, whilst optimising the return on risk.

(i) Interest rate risk

The Group's policy is to keep between 0% and 50% of its borrowings at fixed rates of interest. As at 31 December 2022, 23% (2021: 30%) of the Group's borrowings were at a fixed rate of interest.

(ii) Interest rate sensitivity

The sensitivity analysis below has been determined based on the exposure to interest rates for both derivative and non-derivative instruments at reporting date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management and represents management's assessment of the possible change in interest rates.

At reporting date, if interest rates had been 50 basis points higher or lower and all other variable were held constant, the Group's net profit after tax would increase/decrease by \$6.8 million (2021: \$5.0 million) per annum. This is mainly due to the Group's exposures to interest rates on its variable rate borrowings.

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

There were no changes in the consolidated entity's approach to capital management during the period.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

33 Financial instruments (CONTINUED)

(b) Credit risk

(i) Exposure to credit risk

The carrying amount of financial assets (as per Note 10) represents the maximum credit exposure. The maximum exposure to credit risk as the reporting date was:

	Consolidated	
	2022 \$'000	2021 \$'000
Trade and other receivables	279,961	233,024
Less: Allowance for expected credit losses	(4,661)	(4,064)
	275,300	228,960

(ii) Impairment losses

The aging of trade receivables at reporting date is detailed in Note 10.

(iii) Fair values and exposures to credit and liquidity risk

Detailed in the following table, the Directors consider that the carrying amounts of financial assets and financial liabilities recorded in the consolidated financial statements approximate their fair value.

	Notes	Consolidated	
		2022 \$'000	2021 \$'000
Financial assets			
Trade and other receivables net of expected credit losses	10	275,300	228,960
Cash and cash equivalents	9	190,434	197,620
Other non-current receivables	14	51,516	35,711
		517,250	462,291
Financial liabilities			
Bills payable and fully drawn advances	27	104,560	-
Capital loan	27	339,326	326,029
Vehicle bailment	27	872,348	681,325
Trade and other payables	22	375,672	364,263
		1,691,906	1,371,617

The fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).

Maturity profile

The below table provides a maturity profile for the Group's financial instruments that are exposed to interest rate risk at balance date. The amounts disclosed in the table are gross contractual undiscounted cash flows (principal and interest) required to settle the respective liabilities. The interest rate is based on the rate applicable as at the end of the financial period.

Contractual maturities of financial assets and liabilities

At 31 December 2022	Less than 1 year \$'000	1-2 years \$'000	2-3 years \$'000	3-4 years \$'000	4-5 years \$'000	5+ years \$'000	Total \$'000

(iv) Estimation of fair value

The following summarises the major methods and assumptions used in estimating the fair value of financial instruments:

Loans and borrowings

Fair value is calculated based on discounted expected future principal and interest cash flows.

Trade and other receivables/payables

For receivables/payables with a remaining life of less than one year, the notional amount is deemed to reflect the fair value. All other receivables/payables are discounted to determine the fair value.

All entities noted as members of the Deed of Cross Guarantee (DOCG) above, were parties to a Deed of Cross Guarantee with Eagers Automotive Limited pursuant to ASIC Corporations (Wholly-owned Companies) Instrument 2016/785 which has been lodged with and approved by Australian Securities and Investments Commission as at 31 December 2022. Under the DOCG each of these companies guarantee the debts of the other named companies.

All subsidiaries that are either directly controlled by Eagers Automotive Limited, or are wholly owned within the Group, have ordinary class of shares and are incorporated in Australia or New Zealand.

As a party to the deed of cross guarantee, each of the wholly-owned subsidiaries (marked *) is relieved from the requirement to prepare and lodge an audited financial report.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

35 Business acquisitions

(a) Acquisition of other businesses

The Group acquired the following businesses during the 2022 year as detailed below:

Year	Name of business	Date of acquisition	Principal activity	Proportion acquired
2022	Canberra Group	1 September 2022	Motor Vehicle Dealer	100%
2022	Newspot Group	30 September 2022	Motor Vehicle Dealer	100%

The acquired businesses did not contribute materially to the consolidated profit before tax or consolidated revenue for the period.

Allocation of purchase consideration

The purchase price of the businesses acquired has been allocated as follows:

	Canberra Group \$'000	Newspot Group \$'000	2022 Total consolidated \$'000
Cash used to acquire business, net of cash acquired	95,624	8,929	104,553
Cash used to acquire property	110,130	5,046	115,176
Total purchase consideration	205,754	13,975	219,729

Consolidated fair value at acquisition date

	Canberra Group \$'000	Newspot Group \$'000	2022 Total consolidated \$'000
Net assets acquired			
Receivables, prepayments	2,777	68	2,845
Inventory	50,130	2,300	52,430
Property	110,130	5,046	115,176
Right-of-use assets	1,599	3,047	4,646
Lease liabilities	(1,599)	(3,047)	(4,646)
Plant and equipment	10,038	1,147	11,185
Deferred tax assets	2,013	151	2,164
Creditors, borrowings and provisions	(44,351)	(1,384)	(45,735)
Net assets acquired	130,737	7,328	138,065
Acquisition cost	205,754	13,975	219,729
Goodwill on acquisition¹	75,017	6,647	81,664

1 Goodwill arose on the business combinations because as at the date of acquisition the consideration paid for the combination included amounts in relation to the benefit of expected synergies and future revenue and profit growth from the businesses acquired. These benefits were not recognised separately from goodwill as the future economic benefits arising from them could not be reliably measured in time for inclusion in these consolidated financial statements. Therefore, the amount allocated to goodwill on acquisition has been provisionally determined at the end of the reporting period, with final settlement expected to occur in the first half of 2023.

The acquired Canberra Group business contributed revenues of \$144.0 million and net profit of \$2.7 million to the group for the period from 1 September 2022 to 31 December 2022.

The acquired Newspot Group business contributed revenues of \$28.2 million and net profit of \$1.1 million to the group for the period from 30 September 2022 to 31 December 2022.

If the Canberra Group acquisition had occurred on 1 January 2022, consolidated pro-forma revenue and profit for the year ended 31 December 2022 would have been \$458 million and \$15 million respectively.

If the Newspot Group acquisition had occurred on 1 January 2022, consolidated pro-forma revenue and profit for the year ended 31 December 2022 would have been \$100 million and \$4 million respectively.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

35 Business acquisitions (CONTINUED)

(b) Acquisition of businesses in prior year

The Group acquired the following businesses during the 2021 year as detailed below:

Year	Name of business	Date of acquisition	Principal activity	Proportion acquired
2021	Westpoint Volkswagen	31 March 2021	Motor Vehicle Dealer	100%
2021	Armstrong Ford	1 September 2021	Motor Vehicle Dealer	100%
2021	Kelly Trotter and Heritage Motor Group	1 December 2021	Motor Vehicle Dealer	100%

The acquired businesses did not contribute materially to the consolidated profit before tax or consolidated revenue for the period.

Allocation of purchase consideration

The purchase price of the businesses acquired has been allocated as follows:

	Westpoint Volkswagen \$'000	Armstrong Ford \$'000	Kelly Trotter and Heritage Motor Group \$'000	2021 Total consolidated \$'000
Cash consideration	785	890	12,728	14,403
Total purchase consideration	785	890	12,728	14,403

Consolidated fair value at acquisition date

	2021 \$'000
Net assets acquired	
Receivables, prepayments	79
Inventory	8,025
Property, plant and equipment	604
Creditors, borrowings and provisions	(5,054)
Net assets acquired	3,654
Acquisition cost	14,403
Goodwill on acquisition¹	10,749

¹ Goodwill arose in the business combinations because as at the date of acquisition the consideration paid for the combination included amounts in relation to the benefit of expected synergies and future revenue and profit growth from the businesses acquired. Subsequent to year end, the acquisitions were finalised with no adjustment.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

35 Business acquisitions (CONTINUED)

(c) Recognition and measurement

Business combinations

The acquisition method of accounting is used for all business combinations regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given, shares issued or liabilities incurred or assumed at the date of exchange. Acquisition related costs are recognised in profit or loss as incurred. Where equity instruments are issued in an acquisition, the value of the instruments is their published market price as at the date of acquisition unless, in rare circumstances, it can be demonstrated that the published price at the date of acquisition is an unreliable indicator of fair value and that other evidence and valuation methods provide a more reliable measure of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Where the business combination is achieved in stages, the Group remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in the profit or loss.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill (refer to Note 20(b)(v)). If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in profit or loss but only after assessment of the identification and measurement of the net assets acquired.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present values as at the date of acquisition. The discount rate used is the Australian Government bond rate that matches the future maturity period.

If the initial accounting for a business acquisition is incomplete by the end of the reporting period in which the acquisition occurs, the consolidated entity reports provisional amounts for the items for which accounting is incomplete. The provisional amounts are adjusted during the measurement period (no longer than 12 months from the initial acquisition) on a retrospective basis by restating the comparative information presented in the consolidated financial statements.

(d) Critical accounting estimates and judgements

The fair value of assets and liabilities acquired in business combinations

Acquisitions made by the Group have required some judgements and estimates to be made. The Directors have judged that no significant intangible assets have been acquired in the business combinations other than Goodwill. Additionally as part of the acquisition and negotiation process, judgements have been made as to the fair value of vehicle and parts inventory, warranties and other assets and liabilities acquired.

Notes to and forming part of the Consolidated Financial Statements

31 December 2022 (CONTINUED)

36 Business divestments

(a) Business disposal and discontinued operations

The Group sold the following businesses during the 2022 year as detailed below:

Year	Name of business	Date of sale	Principal activity	Proportion disposed

Deferred tax asset				578
Net assets disposed				43,084
Total consideration received (100% cash)				92,755
Liabilities paid on our behalf				–
Sale consideration for businesses				49,256
Sale consideration for properties				43,499
Total sale consideration				92,755
Gain on sale of businesses				35,248
Gain on sale of properties				13,923
Gain on disposal of non-financial assets				307
Total gain on sale				49,478

The Directors have considered these disposals during the twelve month period to December 2022 in the context of AASB 5 and they have determined that the disclosure requirements of discontinued operations do not apply. This judgement has been made based on all of the available facts and circumstances surrounding the sale and the impact of the related segments and remaining businesses, noting, this is not a separate major line of business.

Inventory	163,530
Property, plant and equipment	15,937
Goodwill	18,516
Intangible assets	1,050
Creditors, borrowings and provisions	(166,565)
Deferred tax asset	5,072
Net assets disposed	80,196
Total consideration received (100% cash)	111,774
Liabilities paid on our behalf	308
Total sale consideration	112,082
Legal fees	(8)
Gain on sale	31,894

37 Discontinued operations

The loss from discontinued operations in the year ended 31 December 2021 relates to a provision recorded for a claim submitted prior to the end of the financial year from Anchorage Capital Partners in relation to the Refrigerated Logistics Share Sale Agreement.

There is no profit or loss from discontinued operations in the current year ended 31 December 2022.

38 Contingent liabilities

(a) Parent entity

Unsecured guarantees, indemnities and undertakings have been given by the parent entity in the normal course of business in respect of financial and trade arrangements entered into by its subsidiaries. It is not anticipated that the parent entity will become liable for any amount in respect thereof. At 31 December 2022 no subsidiary was in default in respect of any arrangement guaranteed by the parent entity and all amounts owed have been brought to account as liabilities in the consolidated financial statements.

(b) Deed of cross guarantee

Eagers Automotive Limited and all of its 100% owned subsidiaries were parties to a deed of cross guarantee lodged with the Australian Securities and Investments Commission as at 31 December 2022. Under the deed of cross guarantee each company within the Closed Group guarantees the debts of the other companies. The maximum exposure of the parent entity in relation to the cross guarantees is \$2.75 billion (2021: \$2.38 billion).

Plan J: EPS Performance Rights and Options – Key Executive

The Group commenced a new Earnings Per Share (EPS) based performance rights and options compensation scheme for two specific executive officers in 2015. The fair value of these performance rights and options is calculated on grant date and recognised over the period to vesting. The vesting of the performance rights and options granted is based on the achievement of specified earnings per share growth targets and interest cover thresholds. The fair value has been calculated using a binomial option pricing model based on numerous variables including the following:

Performance rights

Award date 12 June 2015

Risk-free interest rate	2.19%	2.27%	2.35%	2.46%	2.54%
Dividend yield	3.7%	3.7%	3.7%	3.7%	3.7%

Two specific executives have been granted performance rights and options under the EPS share incentive plan (Plan J). The modified grant date method (AASB 2) is applied to this incentive plan whereby the cost of the plan is determined by the value of the rights and options at grant date and the probability of the EPS targets being achieved and vesting occurring. The number of rights and options granted under the plan is as follows:

Performance rights

Number	Grant date	End performance period	Expiry date	Fair value at grant date
2,783	12-Jun-15	31-Dec-15	12-Jun-22	\$8.98
5,780	12-Jun-15	31-Dec-16	12-Jun-22	\$8.65
5,995	12-Jun-15	31-Dec-17	12-Jun-22	\$8.34
6,218	12-Jun-15	31-Dec-18	30-Sep-22	\$8.04
6,458	12-Jun-15	31-Dec-19	30-Sep-22	\$7.74

Performance options

Number	Grant date	End performance period	Expiry date	Fair value at grant date
17,605	12-Jun-15	31-Dec-15	12-Jun-22	\$1.42
33,783	12-Jun-15	31-Dec-16	12-Jun-22	\$1.48
32,678	12-Jun-15	31-Dec-17	12-Jun-22	\$1.53
31,645	12-Jun-15	31-Dec-18	30-Sep-22	\$1.58
31,250	12-Jun-15	31-Dec-19	30-Sep-22	\$1.60

21,354 options were forfeited during the year. No rights were issued, and 125,607 options were exercised during the year.

The share plan was fully expensed by the end of 2019, with a cumulative expense being recognised of \$449,959.

Plan L: Executive incentive plan – Grant of performance rights – Key Executive

The Group commenced a new performance rights compensation scheme for a specific executive officer in 2020. The fair value of these performance rights is calculated on grant date and recognised over the period to vesting. The performance rights are automatically exercised and converted to vested restricted shares on the Conversion Date, being the date that is one week after release of the Company's full-year financial results. The vesting of the performance rights granted is based on continued employment at the relevant vesting dates. The fair value was estimated by taking the market price of the Company's shares on the grant date less the present value of expected dividends that will not be received during the period.

Performance rights

Award date 17 February 2020

	31-Dec-19	31-Dec-20	31-Dec-21
Vesting date			
Share price at grant date	\$9.00	\$9.00	\$9.00
Expected life	0.0 years	0.87 years	1.87 years
Risk free interest rate	0.81%	0.81%	0.75%
Dividend yield	4.056%	4.056%	4.056%

The number of performance rights granted under the plan is as follows:

Performance rights	Number	Grant date	End performance period	Fair value at grant date
	30,000	17-Feb-20	31-Dec-19	\$9.00
	35,000	17-Feb-20	31-Dec-20	\$9.00
	35,000	17-Feb-20	31-Dec-21	\$9.00

No performance rights were forfeited or expired during the year. A total of 35,000 rights were issued during the year in respect of the 2021 performance year.

No costs of the share plan were expensed during 2022 (2021: \$133,548). The share plan was fully expensed by the end of 2021, with a cumulative expense being recognised of \$846,531.

44 Related parties

Key management personnel

Other information on key management personnel has been disclosed in the Directors' Report.

Remuneration and retirement benefits

Information on the remuneration of key individual management personnel has been disclosed in the Remuneration Report included in the Directors' Report.

Other transactions of Directors and Director-related entities

The aggregate amount of "Other transactions" with key management personnel are as follows:

(i) Mr N G Politis is a Director and shareholder of a number of companies involved in the motor industry with whom the consolidated entity transacts business. These transactions, sales of \$1,074,893 (2021: \$352,415) and purchases of \$1,005,027 (2021: \$710,876) during the last 12 months, are primarily the sale and purchase of spare parts and accessories and are carried out under terms and conditions no more favourable than those which it is reasonable to expect would have applied if the transactions were at arm's length.

Mr N G Politis has a controlling interest in WFM Motors Pty Ltd (WFM Motors) which approximately owns 27% of Eagers Automotive. WFM Motors divested of a portfolio of dealerships and properties within ACT during the financial year. The collection of dealerships and properties were sold for \$205,754,029. An independent expert was appointed and the transaction was completed at fair value.

(ii) Mr M Birrell is a Director and owner of a number of properties leased by subsidiaries of Eagers Automotive Limited. The lease transactions of \$1,412,805 (2021: \$2,076,941) have been carried out under terms and conditions no more favourable than those which it is reasonable to expect would have applied if the transactions were at arm's length. During the period \$109,956 (2021: \$105,775) was received in relation to short-term sublease arrangements.

Furthermore, during the twelve months ended 31 December 2022, Mr M Birrell purchased stock with a value of \$8,212 (2021: \$5,986) from one of the subsidiaries, with the transactions being carried out under terms and conditions no more favourable than those which it is reasonable to expect to have been applied if the transactions were at arms length.

Mr M Birrell is a Director and owner of a company involved in the provision of finance to the motor vehicle industry with whom the consolidated entity transacts business. These transactions, totalling \$89,900 (2021: \$170,753), are commissions paid to the consolidated entity and are carried out under terms and conditions no more favourable than those which it is reasonable to expect would have applied if the transactions were at arm's length.

(iii) Controlled entities may, from time to time, sell motor vehicles, parts and servicing of motor vehicles for domestic use to Directors of entities in the consolidated entity or their Director-related entities within a normal employee relationship on terms and conditions no more favourable than those which it is reasonable to expect would have been adopted if dealing with the Directors or their Director-related entities at arm's length in the same circumstances.

Wholly-owned Group

The parent entity of the wholly-owned group is Eagers Automotive Limited. Information relating to the wholly-owned group is set out in Note 34.

45 Earnings per share (CONTINUED)

(d) Recognition and measurement

Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends), divided by the weighted average number of ordinary shares, adjusted for any bonus element.

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- Costs of servicing equity (other than dividends);
- The after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- Other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares, divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

46 Reconciliation of net profit after tax to the net cash inflows from operations

	Notes	Consolidated

Dividends received during the year	(810)	(617)
Carrying amount at the end of the financial year	2,331	2,074

(c) Share of associate profit

Based on the last published results for the 12 months to 30 June 2022 plus unaudited results up to 31 December 2022.

	Consolidated	
	2022 \$'000	2021 \$'000
Profit from ordinary activities after income tax	1,067	1,130

(d) Reporting date of associates

The associates' reporting dates are 30 June annually.

Directors' Declaration

The Directors declare that:

- (a) in the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (b) in the Directors' opinion, the consolidated financial statements and notes set out on pages 54 to 131 are in accordance with the *Corporations Act 2001*, including:
 - (i) Complying with Accounting Standards and the *Corporate Regulations 2001*, and
 - (ii) giving a true and fair view of the financial position and performance of the Company and the consolidated entity;
- (c) in the Director's opinion, the consolidated financial statements and notes are in accordance with International Financial Reporting Standards, and a statement of compliance with these standards is included in Note 1(a);
- (d) the Directors have been given the declarations required by s.295A of the *Corporations Act 2001*.

At the date of this declaration, the Company is within the class of companies affected by ASIC Corporations (Wholly owned Companies) Instrument 2016/785. The nature of the deed of cross guarantee referred to in the ASIC Corporation Instrument is such that each company which is party to the deed guarantees to each creditor payment in full of any debt in accordance with the deed of cross guarantee.

In the Directors' opinion, there are reasonable grounds to believe that the company and the companies to which the ASIC Corporation Instrument applies, as detailed in Note 34 to the consolidated financial statements will, as a group, be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee.

Signed in accordance with a resolution of the Directors made pursuant to s.295(5) of the *Corporations Act 2001*.

On behalf of the Directors

Tim Crommelin

Director

Brisbane, 23 February 2023

Independent Auditor's Report to the Members of Eagers Automotive Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Eagers Automotive Limited (the "Company") and its subsidiaries (the "Group") which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2022 and of its financial performance for the year then ended; and
- Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Deloitte.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the scope of our audit responded to the Key Audit Matter
<p>The recoverability of non-current assets including goodwill and other intangible assets</p> <p>As outlined in Note 20, the Group recognised goodwill of \$834.6 million at 31 December 2022.</p> <p>Determining the recoverable amount of the Cash Generating Units ("CGUs") to which goodwill is allocated requires management to exercise significant judgement, particularly in the current economic environment.</p> <p>We performed a risk assessment over each of the identified CGU and where risk was determined to be present, we performed further audit procedures.</p> <p>We identified three key estimates in management's value in use models that they utilise to determine the recoverability of the CGUs being:</p> <ol style="list-style-type: none"> forecast cash flows, including future growth rates; terminal growth rates; and discount rates. 	<p>In conjunction with our internal valuation specialists, our procedures included, but were not limited to:</p> <ol style="list-style-type: none"> Understanding management's process of calculating the recoverable amount of the CGUs and approval by the directors. Testing the design and implementation of the relevant key manual controls. Evaluating the Group's identification of CGUs and allocation of goodwill to the carrying value of the Group's identified CGUs. Obtaining an understanding of the methodology applied by management in developing its impairment assessment, including the underlying key assumptions. Challenging and assessing the Group's assumptions and estimates used to determine the recoverable amount, including: <ol style="list-style-type: none"> the future revenue and terminal growth rates against relevant external data and historical actuals; the discount rate applied by comparing the rate to our independently calculated range; and the profit before tax forecast against historical actuals and recent market trends. Assessing the adequacy of the financial report disclosures.

Key Audit Matter	How the scope of our audit responded to the Key Audit Matter
<p>Acquisition of the Canberra Group</p> <p>As disclosed in Notes 35 and 44, the Group acquired a portfolio of dealerships and associated property located in Canberra (referred to as the “Canberra Group”) from WFM Motors Pty Ltd and its associated entities that are a related party for a total purchase price of \$205.8 million. The acquisition completed on 1 September 2022 with goodwill of \$75.0 million arising from the transaction.</p> <p>The acquisition has been accounted for as a business combination in accordance with AASB 3 <i>Business Combinations</i>. The purchase price allocation performed requires management to exercise judgement in identifying intangible assets and determining the fair value of the identified assets and liabilities acquired.</p> <p>Additionally, as the acquisition was from a related party, the transaction was subject to shareholder approval at an Extraordinary General Meeting and an Independent Expert’s Report (“IER”) to determine if the transaction was fair and reasonable for the non-associated shareholders.</p> <p>The transaction has been provisionally accounted for at 31 December 2022.</p>	<p>Our audit procedures included, but were not limited to:</p> <ol style="list-style-type: none"> 1. Understanding the director’s process in determining that the transaction was at fair value. 2. In conjunction with our valuation specialists, evaluated management’s acquisition accounting. This included: <ol style="list-style-type: none"> i. obtaining the relevant purchase agreements to verify the purchase price and date of acquisition; ii. challenging management’s purchase price allocation methodology and identification of intangible assets; and iii. challenging and assessing management’s determination of the fair value of the assets and liabilities acquired, including obtaining the work of management’s experts and evaluating their competence. 3. Assessing the adequacy of the financial report disclosures.

Other Information

The directors are responsible for the other information. The other information comprises the Directors’ Report, which we obtained prior to the date of this auditor’s report, and also includes the following information which will be included in the annual report (but does not include the financial report and our auditor’s report thereon): the Company Profile, the 5 Year Financial Summary, the Chairman’s Letter, the Message from the CEO and the Eagers Automotive Sustainability Report, which are expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Company Profile, the 5 Year Financial Summary, the Chairman’s Letter, the Message from the CEO and the Eagers Automotive Sustainability Report, which are expected to be made available to us after that date if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and use our professional judgement to determine the appropriate action.

Deloitte.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group's audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 36 to 51 of the Directors' Report for the year ended 31 December 2022.

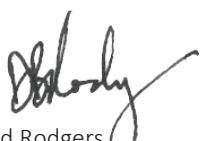

In our opinion, the Remuneration Report of Eagers Automotive Limited, for the year ended 31 December 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

WFM MOTORS PTY LTD	23 September 2019	69,536,516
VERNON CHARLES WHEATLEY	18 November 2019	15,356,763

1. As disclosed in substantial holding notices received by the Company

Shareholder Information

As at 27 March 2023 (CONTINUED)

Performance Rights and Options

156,011 unvested performance rights and 2,028,983 unvested options are on issue to 13 holders pursuant to the Company's equity incentive plans. Vesting is subject to achievement or waiver of pre-determined performance hurdles. Performance rights and options do not have any dividend or voting rights.

Employee Incentive Scheme

115,601 shares were purchased on-market during the reporting period for the purposes of our employee incentive scheme at an average price of \$11.53 per share.

On-market Buy-back

The Company does have a current on-market share buy-back.

Voting Rights

The following voting rights attach to ordinary shares, subject to the Company's constitution:

- A shareholder entitled to attend and vote at a meeting may do so in person or by proxy, attorney or corporate representative.
- On a show of hands, each shareholder entitled to vote has one vote.
- On a poll, each shareholder entitled to vote has one vote for each fully paid share and a fraction for each partly paid share.
- If a share is held jointly with two or more holders in attendance, only the holder whose name appears first in the register may vote.
