

## Activities Report for the Quarter ending 31 March 2023

### Highlights

- AVZ's securities remained in Voluntary Suspension during the March 2023 Quarter pending a resolution and clarity of the mining and exploration rights for the Manono Lithium and Tin Project ("**Manono Project**")
- AVZ continued its high-level discussions with the DRC Government with respect to the award of the Manono Project Mining Licence (PE) to Dathcom Mining SA ("**Dathcom**") and other permits required for the Manono Project
- AVZ continued to affirm its legal rights to a 75% interest in Dathcom and its pre-emptive rights over 15% of the 25% interest held by La Congolaise D'Exploitation Miniere ("**Cominiere**") in the Manono Project, which is the subject of arbitration proceedings before the International Chamber of Commerce ("**ICC**") in Paris
- AVZ continued preparations to defend a case in the ICC brought against its subsidiary AVZ International Pty Ltd ("**AVZI**") by Jin Cheng Mining Company ("**Jin Cheng**"), a subsidiary of Zijin Mining Group Company Limited ("**Zijin**"), regarding a 15% interest in Jin Cheng purportedly acquired from Cominiere in Dathcom
- AVZ continued preparations to prosecute its case in the ICC against Dathomir Mining SARL ("**Dathomir**") to affirm AVZ's acquisition in August 2021 of a 15% interest in Dathcom from Dathomir under the Dathomir SPAs
- Received continued support from Suzhou CATH Energy Technologies ("**CATH**") with the Transaction Implementation Agreement ("**TIA**") extended by mutual agreement to 30 June 2023 in early April 2023
- The Roche Dure extension drilling program concluded with widespread, high-grade spodumene lithium mineralisation observed with all core samples despatched for assay
- Essential construction works for the construction team camp facilities at site continued

AVZ Minerals Limited (ASX: AVZ, OTC:AZZVF, “the Company”) presents its Quarterly Activities Report for the period ended 31 March 2023 and provides the following commentary and update to shareholders.

### Voluntary Suspension and Mining Licence

AVZ’s securities remained in Voluntary Suspension during the March 2023 Quarter, pending a resolution and clarity on the mining and exploration rights for the Manono Project.

The Company continued to engage with the Government of the Democratic Republic of Congo (“DRC”) with respect to the grant of the Mining Licence (PE) and Dathcom’s continuing exploration rights for the Manono Project.

On 6 February 2023<sup>1</sup>, the Company confirmed it was in receipt of two additional Ministerial Decrees from the DRC Minister of Mines, dated 28 January 2023, which had the effect of:

1. Reversing the Ministerial Decree which converted the southern portion of licence PR13359 from a Permis de Recherche (PR or Exploration Licence) to a Permis d’Exploitation (PE or Mining Licence); and
2. Reversing the Ministerial Decree which acknowledged a declaration of partial renunciation of PR13359 by Dathcom, i.e. the excluded northern portion of PR13359 that was not covered by the Ministerial Decree to convert the PR to a PE or Mining Licence.

Following the receipt of the two additional Ministerial Decrees in January 2023, Dathcom continues to hold 100% of its right, title and interest in PR13359.

The Company is the subject of a hostile third-party campaign run by parties seeking to acquire an interest in the Manono Project through questionable and irregular means, some of whom are the subject of the DRC General Inspectorate of Finance report on the management of mining asset in the DRC<sup>2</sup> and has included unauthorised access to the Company’s confidential and legally privileged information<sup>3</sup>.

The Company has received ongoing support from the Australian Embassy in Harare who are engaged with other foreign embassies in the region, who jointly share a common interest to support investment transparency in Africa’s mining industry.

AVZ made several announcements relating to its tenure of Voluntary Suspension during the March 2023 Quarter<sup>4</sup>.

### **Legal action to affirm interests in Manono Project**

AVZ undertook substantial work during the March 2023 Quarter regarding arbitration proceedings before the ICC in Paris with respect to the Company's legal rights to a 75% interest in Dathcom, the entity under which the Manono Project is held, and its pre-emptive rights over 15% out of Cominiere's 25% interest in the Manono Project<sup>5</sup>.

### **Jin Cheng Dispute**

The Company continued preparations to defend a case in the ICC brought against its subsidiary AVZI) by Jin Cheng, a subsidiary of Zijin, regarding a 15% interest which Jin Cheng purportedly acquired from Cominiere in Dathcom<sup>5</sup>.

AVZI remains of the view that its jurisdictional challenge will be successful, thereby affirming that Jin Cheng does not have the right to instigate the ICC arbitration proceedings against AVZI under the Dathcom Joint Venture Agreement ("JVA") since it is not a party to the Dathcom JVA.

It should be noted that such a determination – if made by the ICC – does not finally determine whether the sale of shares from Cominiere to Jin Cheng was effective, which remains to be determined by way of separate proceedings.

### **Dathomir Dispute**

AVZ continued preparations to prosecute its case in the ICC against Dathomir to affirm AVZ's acquisition in August 2021 of a 15% interest in Dathcom from Dathomir under the Dathomir SPAs and to put an end, once and for all, to Dathomir's claims and to recover losses sustained from them<sup>5</sup>.

AVZI remained of the view that it will be successful in the Dathomir proceedings.

<sup>5</sup> Refer ASX Announcement dated 22 March 2023 titled "Arbitration Proceedings Update and Internal Financial Report Clarification"

### **Extension of Transaction Implementation Agreement (TIA) with CATH**

The Company and CATH mutually agreed to extend the completion date for its TIA<sup>6</sup> to 30 June 2023 on 4 April 2023 which followed several earlier announcements relating to its TIA with CATH during the March 2023 Quarter<sup>7</sup>.

The AVZ and CATH partnership remains strong despite the frustrations experienced by the prolonged delay of the award of the Mining Licence for the Manono Project, with both parties determined to develop the Manono Project.

### **Diamond Drilling Program at Roche Dure North-East Extension**

The Roche Dure extension drilling programme was concluded in the March quarter with future assay results expected to be of similar width and tenor, paving the way for a future updated JORC2012 compliant Mineral Resource Estimate to be estimated.

The Company received assay results from further widespread, high-grade spodumene lithium mineralisation from 17 of 53 completed resource drillholes at the Roche Dure North-East Extension.

Fifty-four samples from the third consignment of four drillholes returned values greater than 2% including five individual samples grading greater than 3% Li<sub>2</sub>O, with the highest value being from hole MO22DD009 from 56.0 to 58.0 metres downhole grading 4.39% Li<sub>2</sub>O<sup>8</sup>. One-hundred and five samples from the fifth consignment of five drillhole assay results returned values greater than 2% including seven individual samples grading greater than 3% Li<sub>2</sub>O, with the highest value being from hole MO22DD021 from 131.0 to 133.0 metres downhole grading 3.55% Li<sub>2</sub>O<sup>9</sup>.

Drilling results from Section 8,200mN provided further evidence of the Roche Dure orebody dipping at significantly shallower angles from the current orebody model (20 degrees dip to the south-east compared with an average dip of 45 degrees for the current geological model). The original drilling programme design was for 45 deep drillholes on a steep orebody and as the orebody became shallower the programme was redesigned during the drilling operations into 53 shallower holes to allow for the greater spatial coverage required over the shallower orebody.

The Roche Dure orebody remains open along strike and down dip in all directions.

### Corporate

The Company closed the March 2023 Quarter with a cash balance of A\$27.3 million.

Cash for the March 2023 Quarter was primarily used to fund the project development activities of the AVZ corporate and technical team in Perth and the Dathcom corporate and technical team in the DRC, including:

- A\$2.1 million for payroll, administration and corporate costs; and
- A\$7.3 million was capitalised as exploration and project development works, including recent drilling, and evaluation costs to the Manono Project.

Payments made to related parties as reported in the Appendix 5B (refer Items 6.1 and 6.2) for the March 2023 Quarter relate to Director’s employment, consultancy services and business expense reimbursements to our Director-related parties.

As of 31 March 2023, the Company’s securities on issue were as follows:

<b>Quoted Securities</b>	<b>Number</b>
Ordinary Fully Paid	3,528,729,748
<b>Unquoted Securities</b>	<b>Number</b>
Performance Rights	54,541,600

\*AVZ through its wholly owned entity, AVZ International Pty Ltd (“AVZI”) has a legal 75% interest in the Manono Project. On 27 September 2021, AVZ announced that Suzhou Cath Energy Technologies (“CATH”) will earn a 24% interest in the Manono Project subject to the satisfaction or waiver of several conditions’ precedent stipulated in the Transaction Implementation Agreement (“TIA”). Since 30 November 2021, both parties have agreed on several occasions to amend the closure date for the TIA. Post reporting period on 4 April 2023, both parties agreed to amend the TIA end date to 30 June 2023.

### ABOUT MANONO LITHIUM AND TIN PROJECT

AVZ holds a 75% interest in the Manono Project, located 500km north of Lubumbashi in the south of the Democratic Republic of Congo, hosting the world class Roche Dure Mineral Resource, one of the largest undeveloped hard rock lithium deposits in the world. 10% will remain with the DRC government as per the DRC Mining Code and the 15% balance, currently belonging to the DRC government, is subject to a purchase agreement from AVZ International but is yet to be finalised.

The Manono Project is strategically positioned as a clean, sustainable source of lithium, significantly contributing to the green energy transition, feeding the global lithium-ion battery value chain. With industry leading ESG credentials, it is forecast to be one of the lowest carbon emitting hard rock mines in the world. AVZ, as operators of the Manono Project, has been admitted as an inaugural member of the DRC Battery Council.

### NO NEW INFORMATION

This document may include references to information that relates to Mineral Resources and Ore Reserves prepared and first disclosed under the JORC Code 2012. The information references the Company's previous ASX announcements noting the following:

- Mineral Resources and Ore Reserves for the Manono Lithium and Tin Operation "MLTO" or Roche Dure reference the Company's previous ASX Announcements "JORC Ore Reserves increase by 41.6% at Roche Dure" released to ASX on 14 July 2021 and "Updated Mineral Resource Estimate Includes Pit Floor "Wedge" Drill Results" released to ASX on 24 May 2021.
- Any reference to Carriere de l'Este mineral resource estimate (MRE) should be read in conjunction with the Company's previous ASX Announcement "Assays from Carriere de l'Este drilling confirms deposit a likely rival to Roche Dure" dated 16 August 2021.
- Any reference to tin exploration targets should be read in conjunction with the Company's previous ASX Announcement "Initial Exploration Target for Alluvial Placer Hosted Tin Defined at the Manono Lithium and Tin Project" dated 18 May 2021.
- The Definitive Feasibility Study (DFS) refers to the April 2020 DFS, announced to the ASX on 21 April 2020.

These announcements are available to view on the Company's website [www.avzminerals.com.au](http://www.avzminerals.com.au)

The Company confirms it is not aware of any new information or data that materially affects the information included in the relevant market announcements and, in the case of estimates of Mineral Resources and Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the relevant original market announcements.

## FORWARD LOOKING INFORMATION

This announcement contains certain forward-looking statements and comments about future events, including the Company's expectations about the Manono Project and the performance of its businesses. Forward looking statements can generally be identified by the use of forward-looking words such as 'expect', 'anticipate', 'likely', 'intend', 'should', 'could', 'may', 'predict', 'plan', 'propose', 'will', 'believe', 'forecast', 'estimate', 'target' and other similar expressions within the meaning of securities laws of applicable jurisdictions. Indications of, and guidance on, future earnings or financial position or performance are also forward-looking statements.

Forward looking statements involve inherent risks and uncertainties, both general and specific, and there is a risk that such predictions, forecasts, projections and other forward-looking statements will not be achieved. Forward looking statements are provided as a general guide only and should not be relied on as an indication or guarantee of future performance. Forward looking statements involve known and unknown risks, uncertainty and other factors which can cause the Company's actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements and many of these factors are outside the control of the Company. As such, undue reliance should not be placed on any forward-looking statement. Past performance is not necessarily a guide to future performance and no representation or warranty is made by any person as to the likelihood of achievement or reasonableness of any forward-looking statements, forecast financial information or other forecast. Nothing contained in this announcement, nor any information made available to you is, or shall be relied upon as, a promise, representation, warranty or guarantee as to the past, present or the future performance of the Company.

Except as required by law or the ASX Listing Rules, the Company assumes no obligation to provide any additional or updated information or to update any forward-looking statements, whether as a result of new information, future events or results, or otherwise.
