ASX Announcement

Titomic welcomes Anywise America as a reseller.

GENERAL BUSINESS

ADDITIVE MANUFACTURING

- Armaments
- Ballistic Protection
- Structures
- Tooling
- Embedded Sensors

COATING & REPAIR

- Metal Restoration
- Wear Resistance
- Corrosion Protection
- Conductive Coating
- Inductive Coating
- Radiation Shielding

For personal use only

Titomic Limited (ASX: TTT) ("Titomic" or "Company"), is pleased to announce that it has signed a reseller agreement with Anywise America (Anywise), a provider of technology, engineering and consulting services to government clients within the eastern states of the United States of America.

Under the terms of the agreement, Anywise will focus on reselling Titomic's D523 low-pressure cold spray systems and large-scale TKF Systems to the U.S. Department of Defense (DOD). This strategic partnership reflects Titomic's commercial strategy to scale sales efforts within the United States of America.

Anywise has also purchased a demonstrator D523 System (System), demonstrating their confidence in the technology and enabling Anywise to promote and market the System within the USA and to their broad network within the DOD.

This reseller agreement with Anywise will enable Titomic to expand its reach in the US defence industry and accelerate the adoption of its leading cold spray systems. Titomic looks forward to a successful partnership with Anywise.

Titomic's D523 system is a breakthrough in additive manufacturing technology, utilising low-pressure cold spray to produce complex and high-performance metal coatings, along with restoration of high-cost metal parts with speed and precision.

Titomic's Managing Director, Herbert Koeck, commented:

"We are delighted to partner with Anywise, an established provider of technology, engineering, and consulting services to the U.S. Department of Defense. Anywise's expertise and relationships in the US defence industry are critical to our growth in the US market, and their early commitment to Titomic's technology is a strong sign of growing demand of Titomic's products in the region."

This announcement has been authorised for release by the Board of Titomic Limited.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is an Australian public company specialising in large integrated solutions for industrial-scale metal additive manufacturing, using its patented cold spray additive manufacturing (Cold Spray AM) technology. Titomic provides Cold Spray AM solutions, OEM production and R&D services to the global Aerospace, Defence, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all of its Cold Spray AM activities from its Melbourne Head Office, as well as through local presence in the USA and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercialising technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
