Chairman's Letter

Dear Fellow Shareholders,

Macarthur Minerals ("the Company") has made positive progress in the final phase for the development of its Lake Giles Project.

It has done this in very challenging equity market conditions for junior miners and recession teetering global economy.

In December 2021, the Company's Pilbara gold, copper and lithium tenements held by Macarthur's subsidiary, Macarthur Lithium was converted to a public company and listed on the ASX by way of an initial public offering (IPO) on 20 December 2021. Infinity Mining has had a successful 12 months with the identification of Lithium and Rare Earth Elements at the Tambourah South Tenement in the East Pilbara region of Western Australia. Infinity Mining is continuing an active exploration and drilling program across these Pilbara tenements, prospective for Lithium, Rare Earth Elements and key battery metals of Nickel and Copper.

In the first quarter of 2022, the Company delivered a maiden Ore Reserve and completed a Feasibility Study for its high-grade magnetite Lake Giles Iron Project confirming an economically viable project producing 3 million tonnes per annum (dry basis) of high-grade magnetite concentrate over a 25-year mine life.

Since the completion of the Feasibility Study, the Company has had three core focuses, namely:

- Establishment of the Strategic Subcommittee of the Macarthur Board to identify, qualify, and assist key potential commercial development partners understand the Lake Giles commercial potential and investment opportunity;
- Review of the mining component of the Feasibility Study was undertaken by SRK Australia where they have provided guidance to the Company on areas of focus to enhance the project outcomes; and
- A review of the potential for a major nickel sulphide system across the Lake Giles tenements. This very positive report was completed in 2023 and released to the market, seeking an interested exploration joint venture Partner.

As the Company continues to focus on core fundamentals and project delivery, we look forward to sharing the Company's progress with you and I would like to thank our shareholders for their continued and valued support.

Yours faithfully

Cameron McCall
Executive Chairman

Corporate Directory

Stock Exchange Listing

Macarthur Minerals Limited (the “Company” or “Macarthur Minerals”) is an Australian public company and is quoted on the Official List of the TSX Venture Exchange (“TSX-V”) (symbol: MMS), on the Australian Securities Exchange (“ASX”) (symbol: MIO) and on OTCQB Venture Market (“OTCQB”) (symbol: MMSDF). The Company is incorporated in Australia and registered in Queensland.

Report on Operations

WESTERN AUSTRALIAN IRON ORE PROJECTS

Lake Giles Projects

Macarthur Minerals' Lake Giles Iron Ore Projects ("Lake Giles Projects") are located on mining tenements covering approximately 62 km², 175 kilometres ("km") northwest of Kalgoorlie in Western Australia. Within the tenements, at least 33 km strike extent of outcropping banded iron formation ("BIF") occurs as low ridges, surrounded by intensely weathered and mostly unexposed granites, basalts and ultramafic rocks.

The Lake Giles Projects are situated in the Yilgarn Region of Western Australia. The Yilgarn Region is host to many significant mineral deposits that have been, or are being, mined for iron ore. The tenements cover the Yerilgee greenstone belt which is some 80 km in length and lies within the Southern Cross Province of the Yilgarn. The Lake Giles Projects are approximately 90 km from the existing Perth Kalgoorlie Railway that has a direct connection to the Port of Esperance in Western Australia, where it is intended that ore from the Projects will be shipped. Export is subject to available capacity, which is not certain. The Lake Giles Projects (comprising the Moonshine Magnetite Project and the Ularring Hematite Project) is located approximately 450 km east north- east of the coastal city of Perth, Western Australia, and approximately 115 km west of the town of Menzies. Exploration at the Ularring Hematite and Moonshine Magnetite Projects has been sufficient to allow the estimation of Mineral Resources for both projects.

Lake Giles Iron Project

On 12 August 2020 Macarthur Minerals released an updated Mineral Resource estimate for the Lake Giles Magnetite Project¹. The Mineral Resource estimates includes Measured Resources of approximately 53.9 Mt @ 30.8% Fe, Indicated Resources of 218.7 Mt @ 27.5% Fe and Inferred Resources of 997.0 Mt @ 28.4% Fe.

The resource formed the basis of a Feasibility Study that was released to the market on 11 April 2022. The feasibility study was based on a 3 Mtpa magnetite operation incorporating the Moonshine and Moonshine North magnetite deposits. The Feasibility Study confirms the commercial viability of the Project to produce 3 Mtpa (dry basis) of high-grade magnetite concentrate over a long mine life of 25 years from Proven and Probable Ore Reserves. The key production and financial outcomes are presented in the following table 1².

Table 1. Lake Giles Iron Project – Feasibility Study Production and Financials Summary

Production		
Ore mined	236.6 Mt	
Waste mined	624.9 Mt	
Total mined	861.5 Mt	
Strip ratio	2.64	
Concentrate produced	74 Mt	
Concentrate iron grade	66.1	
Plant recovery	31%	
Financials		USDm
Sales revenue	12,614	8,956
Operating Expenses	8,116	5,672
Initial Capital Expenditure		
Construction capex	801.1	568.8
Mining overburden pre-strip	61.6	43.8
Total initial capital	862.7	612.5
Future Capital Expenditure		
Sustaining capital	203	144.1
Deferred capital - Tailings	39.8	28.3

² Refer to the Company's news release dated March 21, 2022, titled "Positive Feasibility Study Results for Lake Giles Iron Project."

Capitalised non-operational waste mining	355.7	252.5
Total future capital	598.0	424.6
Closure Expenditure		
Closure and rehabilitation	58.2	41.3
Total Operating Cash Flows	3,625	2574
Taxes & Royalties		
Tax paid	873	620
Royalties	631	435
Valuation	AUDm	USDm
NPV (6%) Pre-tax	816	579
NPV (6%) Post-tax	443	314
IRR Pre-tax	13.0%	-
IRR Post-tax	10.1%	-

The Feasibility Study published on 21 March 2022 underpins a maiden Ore Reserve of 237 million tonnes, supporting a 25-year mine life. The independent technical report, entitled “NI 43-101 Technical Report and Feasibility Study, Lake Giles Iron Project, Menzies, Western Australia” with an issue date of 11 April 2022 was prepared in accordance with the requirements of National Instrument 43-101 (“NI 43-101”) and released to the market on 11 April 2022³. The technical report is filed under the Company’s profile on the System for Electronic Document Analysis and Retrieval (“SEDAR”) website at www.sedar.com (filing date: 11 April 2022) and on the Company’s website at www.macarthurminerals.com. The Mineral Reserves are presented in Table 2.

Table 2. Mineral Reserves – Lake Giles Iron Project, Moonshine and Moonshine North, DTR >15%

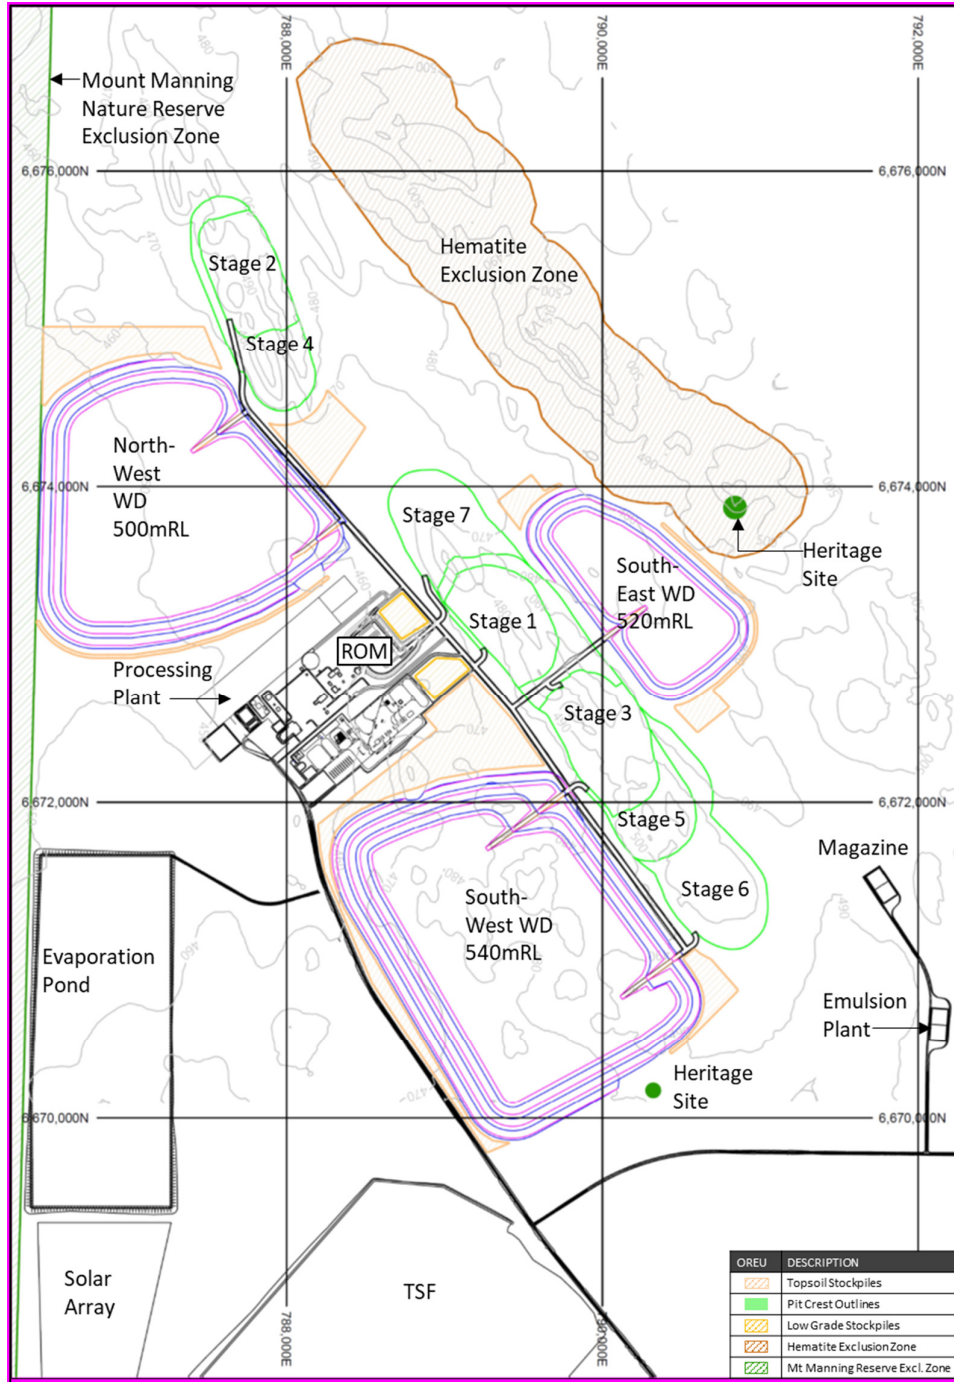

Figure 1 General site layout

On 26 March 2021, the Company made applications for two “water search miscellaneous licenses” for the purpose of exploring for groundwater to support magnetite processing for the Lake Giles Projects. The applications cover 533 km² of the Rebecca Palaeovalley up to 35 km east of the Project. Prior to these applications, the Company engaged CGG to undertake an aerial electromagnetic (“EM”) survey of the palaeochannels as announced on March 26, 2021. The survey data will be used to define groundwater drilling targets.

Ularring Hematite Project

The Ularring Hematite Project's Mineral Resources are comprised of Indicated Mineral Resources of approximately 54.5 Mt @ 47.2% Fe and approximately 26 Mt @ 45.4% Fe Inferred Resources. The Mineral Resource estimates were prepared by CSA Global on behalf of Macarthur Minerals (NI43-101 Technical Report, 2012⁴) and reported in accordance with the CIM Definition Standards for Mineral Resources and Reserves 2014.

The Company has received approval to develop an iron ore mine for the Ularring Hematite Project and associated infrastructure at the project location under the *Environmental Protection Act 1986* and the *Environmental and Biodiversity Conservation Act 1999*.

Treppo Grande & Mt Jackson Iron Ore Project

On 15 February 2018, the Company's wholly owned subsidiary, Esperance Iron Ore Export Company Pty Ltd ("EIOEC") made an application for Exploration License E77/2521 for the Treppo Grande Iron Ore Project ("Treppo Grande Project"). The Treppo Grande Project covers an area of 68 km² and is located approximately 32 km west of the Lake Giles Projects. The project is also 35 km east of Mineral Resource Ltd's (MRL) Koolyanobbing Iron Ore Operations and is in close proximity to established rail infrastructure to the Port of Esperance.

The Treppo project is located within the proposed Helena and Aurora Range National Park, part of the State Government's Plan for Our Parks initiative. Following a submission process facilitated by the Department of Mines, Industry Regulation and Safety (referred to in the Company's 2022 Annual Report), on August 15, 2022 E77/2521 was refused by the Minister for Mines pursuant to the Minister's powers in section 111A of the Mining Act 1978 (WA). The Company was notified of such refusal on September 16, 2022. In the meantime, Macarthur applied for ELA 77/3004 on September 2, 2022 as a result of the decision in True Fella Pty Ltd v Pantoro South Pty Ltd [2022] WAMW 19 (True Fella).

DMIRS has asserted that the relevant area was subject to a Section 19 exemption from mining at the time of the application (although the gazette had not yet been published) and that it intends to refuse ELA 77/3004 on the basis that there is no ground available for ELA 77/3004. As at today's date, ELA 77/3004 has not yet been refused and is still pending, and the Company is making enquiries with DMIRS regarding the exemption from mining.

WESTERN AUSTRALIAN GOLD/LITHIUM/NICKEL PROJECTS

Macarthur and Macarthur Australia Limited, a wholly owned subsidiary of Macarthur, are the substantial holder with 21.14% holding in Infinity Mining Limited (ASX: IMI). The company holds the Pilbara Projects in the Pilbara region of Western Australia and the Central Goldfields Projects located in and around the Leonora Goldfields region in Western Australia.⁵⁶

Macarthur Iron Ore Pty Ltd, a wholly owned subsidiary of Macarthur, acquired two tenements E45/4735 (Strelley Gorge) and E45/5324 (North Tambourah) from Infinity under which all non-iron ore rights are retained by Infinity pursuant to a Tenement Sale and Non-Iron Ore Rights Agreement dated 11 August 2021. Tenements EL 45/4735 (Strelley Gorge) applied for and was granted a 5 year extension of term through to 20 November 2027. In October 2022 as part of an Infinity Mining VTEM Max 967.8 line kilometre, geophysical survey, 60 late-time geophysical anomalies were identified across Strelley Gorge. Of these anomalies, two stand out (49 and 55); anomaly 55 has a noticeably higher amplitude to its surrounding anomalies. This tenement south east corner borders the Sulphur Springs VHMS deposit currently owned by Development Global Limited (Formerly Venture Resources Limited.)⁷

6 Refer to the Company's news release dated 28 October 2022, titled "Quarterly Activities Report for period ended 30 September 2022".

7 Refer Infinity Mining Limited New Release , Results of VTEM Max Survey for precious and Base metals at Panorama, Strelley George and Hillside Projects, 10 May 2023.

WESTERN AUSTRALIAN NICKEL AND COBALT PROJECTS

The Lake Giles Project (“The Project”) is located approximately 150 km northwest of the town of Kalgoorlie, 240km North of Poseidon Nickel Ltd Lake Johnston Nickel Project (ASX: POS) and 190km northwest of the Kambalda nickel province in WA (Figure 1). Additionally, the Lake Giles Project is surrounded by Dreadnought Resources Ltd Central Yilgarn Project (ASX: DRE) where they are actively exploring for nickel and gold.

The Project is owned by Macarthur Iron Ore Pty Ltd, a 100% owned subsidiary of Macarthur Minerals Limited (“Macarthur” or “the Company”).

Figure 2: Lake Giles Project Location

The Lake Giles tenements cover the Yerilgee greenstone belt located in the central part of the Southern Cross Province of the Yilgarn Archaean Craton. The region is characterized by lenticular greenstone belts often partly enveloped by foliated and gneissic granitoids. Regionally the greenstone belts consist of metamorphosed ultramafic, mafic and sediments, including BIF which are Archean in age and are commonly intruded by mafic, intermediate, and granitic rocks.

For personal use only

The prospective ultramafic rocks of the Project are interpreted to be of Kambalda komatiite type. Serpentinised olivine cumulate rocks sometimes metamorphosed to talc-carbonate occur in many places and are considered to have a high potential for the discovery of nickel sulphides. These have similar characteristics to those of the Forresteria and Lake Johnston greenstone belts. The Lake Johnston nickel mineralised bodies such as Maggie Hays, are hosted within a Kambalda style ultramafic komatiite, which is an upturned volcanic flow against a basaltic basal unit.

In Geoscience Australia's 2016 report⁸ on the 'Potential for intrusion-hosted Ni-Cu-PGE sulfide deposits'¹ they highlighted the potential as moderate to high for either or both tholeiitic intrusion-hosted and komatiite-hosted Ni-Cu-PGE sulfide deposits within the Yerilgee Greenstone Belt and hence the Lake Giles Ni Project.

During 2022/23 Macarthur completed a detailed review of the historic data and drill holes across this region and identified the following feature that would suggest a large nickel system in this region.

Historical drilling assay data has identified 319 drill holes, within MIO tenure, with highly anomalous nickel 0.1% or greater, including 150 drill holes recording 0.2% and greater indicating that there is significant potential for nickel mineralisation. Previous drilling principally targeted iron ore with approximately 50% of the drilling not yet analysed for nickel and associated elements. (Figure 2).

Significant Ni intercepts from historical drilling and trench sampling highlight the potential for economic Ni mineralisation at Lake Giles, including:

LGRC_0010 (288m): 128m @ 0.17% Ni (from 108m) including 1m @ 0.29% Ni;

LGRC_0015 (168m): 106m @ 0.15% Ni (from 62m) finished in anomalous Ni;

LGRC_0018 (370m): 103m @ 0.16% Ni (from 77m) and 23m @ 0.17% Ni (from 235m);

LGDD_054 (363m): 23.5m @ 0.85% Ni (from 4.5m) including 11.5m @ 1.03% Ni (from 10.5m); and

With Gossanous outcrop with grab samples assaying 2.61% Co and 2.01% Ni.

Seven advanced targets have been identified that are considered highly prospective for nickel mineralisation and these remain completely untested.⁹

⁸ Duffer, H., Skirrow, R.G., Champion, D.C., Hight, L.M., Czarnota, K., Coghlan, R. & Milligan, P.R. 2016. Potential for intrusion-hosted Ni-Cu-PGE sulfide deposits in Australia: A continental-scale analysis of mineral system prospectivity. Record 2016/01. Geoscience Australia, Canberra. <http://dx.doi.org/10.11636/Record.2016.001>

⁹ Refer to the Company's news release dated 9 May 2023, titled "Nickel Prospect Update: Early Indications of Significant Mineralisation".

Figure 3: Nickel target areas within MIO Tenure and historical drilling over airborne magnetics (TMI with NE AGC Shade).

Moving Forward the Company intends to assay the 41 diamond drill holes completed by Macarthur in 2019 across the Moonshine and Moonshine North targets have intersected numerous altered komatiites. In addition Macarthur now plans to carry out specific nickel targeted exploration including assaying the geotechnical diamond drill core and selected anomalous RC chips for a broad analytical suite of elements, Downhole Electromagnetic surveying (DHEM) on targeted open holes, as well as further ground-based electromagnetic surveying upon recommendation from Newexco.

NEVADA BRINE LITHIUM PROJECT

Reynolds Springs Lithium Brine Project

The Reynolds Springs lithium brine project consists of 210 new unpatented placer mining claims covering an area of 7 square miles (18 km²) located in Railroad Valley, near the town of Currant, in Nye County, Nevada (“Reynolds Springs Project”). The Reynolds Springs Project is located approximately 180 miles (300 km) north of Las Vegas, Nevada, and 330 miles (531 km) southeast of Tesla’s new Gigafactory.

A total of 206 soil samples were collected across the full extent of the Reynolds Springs Project. Lithium values in the soil samples ranged from a low of 39.3 ppm to a high of 405 ppm Li. Samples were consistently high averaging 168.3 ppm Li with 85% of samples recording over 100 ppm Li and 19% greater than 200 ppm Li. These results are considered high in comparison to the majority of non-lithium producing playas and amongst the highest we have seen outside of the Clayton Valley.

In 2018 the Company completed an assessment of downhole geophysical logs for 12 – 15 abandoned oil and gas wells that are found both within (5 wells) and in the near vicinity of the project. Several zones of high conductivity were identified that are interpreted as being indicative of brine aquifers. The Company is looking for a partner to advance exploration of this project.

For personal use only

Directors' Report

Your directors present their report together with the financial statements of the consolidated entity (referred to hereafter as the Group) consisting of Macarthur Minerals Limited ACN 103 011 436 and the entities it controlled at the end of, or during, the year ended 31 March 2023. All dollar amounts are presented in the Australian currency unless stated otherwise.

Directors

The following persons were Directors of the Company during the whole of the financial year and up to the date of this report, unless stated otherwise:

Name, Independence Status and Special Responsibilities	Experience, expertise and qualifications
Mr Cameron McCall Executive Chairman and CEO	<p>Mr McCall has a wealth of experience across the financial services and commercial property industries within Australia and internationally. He has been providing investment, equity capital raising and share trading advice for over 18 years to corporate entities and private clients at Hartleys Limited and Macquarie Bank Limited. Mr McCall has during his 40-year career built an extensive network of international and Australian based high net worth individuals and corporate entities. Mr McCall is currently running a corporate advisory business providing advice on asset acquisition and capital raising to international and Australian based organisations.</p> <p>Mr McCall is currently an Executive Chairman of Macarthur Minerals Limited (substantial shareholder of Infinity Mining) and Non-Executive Director of Infinity Mining Limited and is not considered to be independent.</p>
Mr Alan Phillips Non-Executive Director Member of Audit and Risk Committee	<p>Mr Phillips was appointed to the board on 19 October 2005. Mr Phillips was President and CEO of the Company from 31 August 2009 until his resignation from those positions on 28 April 2015. Mr Phillips continued as Executive Director until his resignation as Executive Director on 1 January 2017. Mr Phillips continues as Non-Executive Director.</p> <p>Mr Phillips has been a senior executive, director and chairman of ASX, TSX-V, TSX and AIM listed companies over a period of 40 years. Mr Phillips specializes in start-up and turnaround companies across a broad range of industries, but predominantly in the mining and exploration of copper, gold, ethanol and iron ore and technology sectors.</p>

For personal use only

Mr Andrew Suckling
Independent Director

Chairman of Audit and
Risk Committee

Mr Suckling was appointed to the board on 21 May 2019.

Mr. Suckling is Non-Executive Chairman of the Board of Cadence Minerals PLC and has over 25 years' experience in the commodity industry. He began his career as a trader on the London Metal Exchange (LME) for Metallgesellschaft (MG). In that role, he established a trading presence in China for MG setting up a representative office in Shanghai in 1997. He then became a partner and trader with the New York based multi-billion fund manager Ospraie Management, LLC. In addition to his role as Executive Chairman at Cadence he is the founding principal and portfolio manager for Verulam, a discretionary commodity fund. Mr. Suckling is a graduate of Brasenose College, Oxford University earning a BA (Hons) in Modern History in 1993 and an MA in Modern History in 2000.

Mr Ryan Welker
Independent Director

Member of Audit and
Risk Committee

Mr Welker was appointed to the board on 1 September 2022.

Mr Welker is Chairman and Co-founder of Vitrinite, a tightly held, private, premium-hard coking coal producer in Queensland's Bowen Basin. Mr Welker brings a vast range of skills and experience to the board of Macarthur Minerals. He has worked for and supported mining and exploration companies all over the world in nearly every stage of the development and production cycle. His direct industry experience gives him a blend of capabilities where he understands the needs of mining companies of all sizes, but particularly publicly listed junior mining companies.

His previous and current positions include management, corporate development, and finance. Prior to moving back to Australia in 2019, Mr Welker worked for EAS Advisors in New York, where he advised and raised more than \$2bn for dozens of ASX, LSE, TSX and AIM listed companies. Prior to EAS, he held positions at Rio Tinto, Hancock Prospecting, Standard Bank and served as a Non-Executive Director of Mineral Resources Limited.

Directorships of other Listed Companies

Directorships of other listed companies held by directors in the last 3 years immediately before the end of the financial year are as follows:

<i>Directors</i>	<i>Company</i>	<i>Period of Directorship</i>
Cameron McCall	Infinity Mining Limited	6 February 2018 - Current
Alan Phillips	-	-
Joe Phillips	Infinity Mining Limited	5 February 2018 - Current
Andrew Suckling	Cadence Minerals PLC	21 Dec 2015 - Current
Ryan Welker	-	-

Company Secretary

Name, Independence Status and Special Responsibilities

Ms Mima Wirakara
Company Secretary

Experience, expertise and qualifications

Ms Wirakara is a professional with 15 years-experience in administrative, governance and company secretarial support services for several ASX, TSX and POMSx listed resource companies and has been instrumental in managing the Company's corporate governance and compliance, including Australian and Canadian regulatory and exchange requirements.

Ms Wirakara is currently the Company Secretary at Infinity Mining Limited (ASX: IMI).

Principal Activities

Macarthur Minerals is an Australian public company listed in Canada on the TSX-V (symbol: MMS) and Australian Securities Exchange (“ASX”) (symbol: MIO). Macarthur Minerals has three iron ore projects in the Yilgarn region of Western Australia. In addition, Macarthur Minerals has significant lithium brine interests in the Railroad Valley, Nevada, USA. There was no change in the nature of the Group’s principal activities, being mineral resource exploration and evaluation, during the year.

Dividends

No dividends were paid or recommended for payment during the financial year.

Operating and Financial Review

OPERATING RESULTS

	Year ended 31 March 2023 \$	Year ended 31 March 2022 \$
Operating Expenses	(5,787,352)	(4,757,838)
Net Profit/(Loss) for continued and discontinued operations	(4,884,815)	4,383,315

The Group’s consolidated comprehensive loss for the year ended 31 March 2023 amounted to \$4,884,815 after income tax. As an exploration and evaluation company, the Company expects to continue to report losses until such time as profit is earned from potential production activities.

FINANCIAL POSITION

Australian \$	As at 31 March 2023	As at 31 March 2022
Cash and cash equivalents	1,944,332	1,625,572
Exploration and Evaluation assets	74,230,421	73,031,754
Property, Plant and Equipment	51,104	40,732
Total Assets	80,687,512	78,481,403
Accounts payable and accrued liabilities	331,269	1,173,019
Total Liabilities	611,168	2,838,143
Net Assets	80,076,344	75,643,260
Net Working Capital ^[1]	1,698,925	(242,196)

^[1] The Net Working Capital of \$1,698,925 (2022: \$242,196 deficit) excludes those amounts attributable to the warrant liability of \$nil (2022: \$520,350).

At 31 March 2023, the Group had net assets of \$80,076,344 compared to \$75,643,260 at 31 March 2022. The increase is due largely to a Private Placement completed in April 2022. The Group’s cash and cash equivalents balance was \$1,944,332 at 31 March 2023 which was an increase of \$318,760 from 31 March 2022.

The Company has a \$20million equity finance facility with L1 Capital (“Facility”). The Facility is an “at call” facility which entitles the Company to issue shares to L1 over 36 months under “Placement Notice(s)” which may be drawn upon and applied at the Group’s discretion to meet its operating needs and minimum financial requirements regarding its tenement obligations. The Group will continue to monitor avenues to expand its key strategic assets.

During the year ended 31 March 2023, the Group raised new equity of \$4,995,188.

The Company has prepared a business plan to manage operations and expenditures over the coming twelve months, in order to ensure that the Company has sufficient funds to meet its obligations as they become due. In particular, the Company has advanced its plans for its Iron Ore projects, and lithium and gold projects.

Private Placement

On 31 March 2022, the Company announced a private placement (the “Offering or “Placement”) of A\$7.5 million with institutional and sophisticated investors with subscriptions totalling 15,000,000 fully paid ordinary shares (“New Shares”) at a price of A\$0.50 per share. For each New Share issued under the Placement one attaching option issued (“Option”). Each Option have an exercise price of A\$0.65 with an expiry date 24 months from the date of issuance. The Placement price per New Share represented a 0.1% premium to the 30-day volume weighted average price (“VWAP”) of the Company’s Australian Stock Exchange (ASX) listed shares to 28 March 2022. The New Shares rank equally with the Company’s existing ordinary shares. The Placement closed successfully on 5 April 2022.

MST Financial Services Pty Limited and EAS Advisors, LLC, acting through Odeon Capital Group LLC acted as Joint Lead Managers on the Placement received a Management & Selling Fee equal to 6% (six percent) of the gross proceeds raised under the Placement and a total of ASX 2,000,000 unlisted options exercisable at A\$0.65 expiring 2 years from the date of issue.

Board update

On 31 August 2022, Joe Phillips retired from the Board of Directors as a Managing Director.

On 1 September 2022, the Company announced the appointment of Ryan Welker as Independent Director.

Warrants

During the year, 4,101,275 warrants issued as part of the July 2019 private placement of secured convertible notes expired during the year.

Share Based Compensation

9,000,000 stock options were issued pursuant to the Company’s Share Compensation Plan (“Plan”) and 2,500,000 expired during the year. On 24 October 2022, 137,500 RSUs were forfeited and on 27 May 2022, 4,400,000 Bonus shares were issued.

Likely future developments and expected results

The Group’s key business risk associated with future plans relate to the ability to successfully develop the Company’s projects.

Environmental Regulations

The Group is subject to significant environmental regulation in respect to its exploration activities. The Group aims to ensure the appropriate standard of environmental care is achieved, and in doing so, that it is aware of its compliance with environmental legislation. The directors of the Group are not aware of any breach of environmental legislation for the year under review.

Significant Changes in State of Affairs

Other than those matters discussed regarding the issue of shares and stock options, there have been no other significant changes to the Company’s state of affairs to have occurred during the year.

Events after the reporting period

Cessation of Securities

Since 31 March 2023 and up to the date of this report, 100,000 performance-based options with an exercise price of A\$0.45 and expiring 26 October 2024 as well as 95,000 RSUs expiring 19 January 2024 were forfeited.

Apart from above, no other matter or circumstance has arisen since 31 March 2023 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Remuneration Report

This Remuneration Report outlines the remuneration arrangements in place for Key Management Personnel in accordance with the requirements of the *Corporations Act 2001 (Cth)* and its Regulations.

For the purposes of this report Key Management Personnel of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any directors of the Company.

Role of Remuneration and Nomination Committee

The Remuneration and Nomination Committee is responsible for (or in its absence the Board) overseeing performance evaluations of senior executives on an annual basis. As at 31 March 2023, the Remuneration and Nomination Committee was comprised of Andrew Suckling (Chairman), Alan Spence Phillips and Ryan Welker, the majority of whom are Independent Directors and have direct experience that is relevant to their responsibilities in executive compensation.

Share-based compensation

Issue of shares

Details of shares issued to directors and other key management personnel as part of compensation during the year ended 31 March 2023 are set out below:

Name	Date	Shares	Issue price	\$
Cameron McCall	25 May 2022	1,100,000	\$0.33	357,500
Joe Phillips	25 May 2022	1,100,000	\$0.33	357,500
Alan Phillips	25 May 2022	1,100,000	\$0.33	357,500
Andrew Suckling	25 May 2022	1,100,000	\$0.33	357,500

Options

The terms and conditions of each grant of options over ordinary shares affecting remuneration of directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of options granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise price	Fair value per option at grant date
Ryan Welker	500,000	26 Oct 2022	26 Oct 2022	26 Oct 2025	\$0.40	\$0.05
Ryan Welker	1,800,000	20 Mar 2023	20 Mar 2023	20 Mar 2026	\$0.20	\$0.06
Cameron McCall	1,800,000	20 Mar 2023	20 Mar 2023	20 Mar 2026	\$0.20	\$0.06
Alan Phillips	1,800,000	20 Mar 2023	20 Mar 2023	20 Mar 2026	\$0.20	\$0.06
Andrew Suckling	1,800,000	20 Mar 2023	20 Mar 2023	20 Mar 2026	\$0.20	\$0.06

Options granted carry no dividend or voting rights.

All options were granted over unissued fully paid ordinary shares in the company. Options vest based on the provision of service over the vesting period whereby the key management personnel becomes beneficially entitled to the option on vesting date. Options are exercisable by the holder as from the vesting date. There has not been any alteration to the terms or conditions of the grant since the grant date. There are no amounts paid or payable by the recipient in relation to the granting of such options other than on their potential exercise.

Values of options over ordinary shares granted, exercised and lapsed for directors and other key management personnel as part of compensation during the year ended 31 March 2023 are set out below:

Name	Value of options granted during the year	Value of options exercised during the year	Value of options lapsed during the year	Remuneration consisting of options for the year
	\$	\$	\$	%
Ryan Welker	25,535	-	-	14%
Ryan Welker	103,324	-	-	56%
Cameron McCall	103,324	-	-	14%
Alan Phillips	103,324	-	-	19%
Andrew Suckling	103,324	-	-	18%

Additional information

The earnings of the consolidated entity for the five years to 31 March 2023 are summarised below:

	2023	2022	2021	2020	2019
	\$	\$	\$	\$	\$
Other revenue	902,537	9,196,967	(3,693,845)	1,781,421	(2,387,627)
EBITDA	(4,793,476)	4,488,875	(10,345,174)	(4,086,103)	51,150,421
EBIT	(4,865,821)	4,457,452	(10,430,489)	(4,177,115)	51,117,215
Comprehensive profit/(loss) after income tax	(4,884,815)	4,451,648	(10,085,132)	(4,310,448)	51,117,215

The factors that are considered to affect total shareholders return ('TSR') are summarised below:

	2023	2022	2021	2020	2019
Share price at financial year end (\$CAD)	0.15	0.47	0.51	0.08	0.36
Total dividends declared (cents per share)	-	-	-	-	-
Basic earnings per share (cents per share)	(0.03)	0.03	(0.09)	(0.05)	0.77

Principles used to determine the nature and amount of remuneration

Remuneration Policy

The Remuneration Policy of the Group is in place to ensure that:

- Directors' and senior executives' remuneration is aligned to the long-term interests of shareholders within an appropriate control framework;
- There is a clear relationship between the executives' performance and remuneration; and
- The Policy is appropriate and effective in its ability to attract and retain the best key management personnel to run and manage the Group.

The Charter of the Committee is available on the Company's website www.macarthurminerals.com.

Remuneration Structure

In accordance with best practice corporate governance, the structure of Director and Management remuneration is separate.

Performance Based Remuneration

At present, remuneration is linked to general market levels with short-term performance components. Remuneration policy and practices are reassessed when required in order to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the Group's financial results.

Relationship between remuneration policy and group performance

The remuneration policy has been tailored to maximise goal congruence between shareholders, directors and executives. Fees for all directors and executives is not linked to Company performance. In order to align directors and shareholders interest, the directors are encouraged to hold shares in the Company.

Employment detail of members of Key Management Personnel (KMP)

The following table provides employment details of persons who were, during the financial year, members of KMP of the Consolidated Group. The table also illustrates the proportion of remuneration that was performance and non-performance based.

Name	Position held	Contract details	Non-salary cash-based incentives	Shares	Fixed salary/fees
Executive Directors					
C McCall	Executive Chairman and CEO	No fixed duration, 12 months' notice	14%	48%	38%
J Phillips*	Managing Director	No fixed duration, 12 months' notice	0%	74%	26%
Non-executive Directors					
A Phillips	Non-executive Director	No fixed duration, 3 months' notice	19%	65%	17%
A Suckling	Non-executive Director	No fixed duration, 3 months' notice	18%	63%	19%
R Welker**	Non-executive Director	No fixed duration, 3 months' notice	70%	0%	30%
Other					
A Bruton ^	Chief Executive Officer	No fixed duration, 12 months' notice	-	-	100%

* Retired 31 August 2022

** Appointed 1 September 2022

^ Retired 13 May 2022

Consultancy agreement provisions

The following executives have consultancy agreements in place which include contractual requirements to negotiate payments up to the value of 12 months in the event of a termination:

Executive Directors

C McCall	Executive Chairman and CEO	No fixed duration, 12 months' notice
J Phillips**	Managing Director	No fixed duration, 12 months' notice

** Retired 31 August 2022

Non-executive Directors

A Phillips	Non-executive Director	No fixed duration, 3 months' notice
A Suckling	Non-executive Director	No fixed duration, 3 months' notice
R Welker^	Non-executive Director	No fixed duration, 3 months' notice

^ Appointed 1 September 2022

Shares issued on the exercise of warrants

4,101,275 warrants expired during the year ended 31 March 2023. Since year end and up to the date of this report Nil warrants had been exercised.

Insurance and Indemnification of Officers

Insurance Premiums

During the financial year, the Company paid premiums of \$165,703 to insure the directors, officers and employees ("D&O Insurance") of the Company and its Australian based controlled entities. The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against persons in their capacity as directors, officers and employees of entities in the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

Indemnity of officers

The Company has provided an indemnity for each director to the maximum extent permitted by law, against any liability for legal costs incurred in respect of a liability incurred by them, by virtue of their holding office as and acting in the capacity of, an officer of the Company, except where the liability arises out of conduct involving lack of good faith.

Pursuant to an indemnity within the constitution and Deeds of Indemnity entered into with the directors and officers of the Company, the Company is indemnifying the respondent directors and officers for the reasonable legal costs of defending an action against them (subject to certain restrictions, including restrictions contained in the *Corporations Act 2001 (Cth)*).

Indemnity and insurance of auditor

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor. During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under Section 237 of the *Corporations Act 2001(Cth)* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of the proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001(Cth)*.

Non-audit Services

The Directors, in accordance with advice from the audit committee, is satisfied that the provision of non-audit services during the year is comparable with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the services disclosed in Note 30 to the financial statements did not compromise the auditor's independence.

Officers of the company who are former partners of RSM Australia Partners.

There are no officers of the company who are former partners of RSM Australia Partners.

For personal use only

Auditor Independence Declaration

A copy of RSM's independence declaration is required under section 307C of the *Corporations Act 2001 (Cth)* and is set out on page 68.

Auditor

RSM Australia Partners continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

Signed in accordance with a resolution of directors.

Cameron McCall

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Note 1: Nature and Continuance of Operations

Macarthur Minerals Limited is an Australian public company listed in Canada on the TSX Venture Exchange (“TSX-V”) (symbol: MMS), Australian Securities Exchange (“ASX”) (symbol: MIO) and OTCQB Venture Market (“OTCQB”) (symbol: MMSDF). The Company has three iron ore projects in the Yilgarn region of Western Australia. The Company also has two exploration project areas in the Pilbara, Western Australia targeting iron ore. In addition, Macarthur Minerals has lithium brine interests in the Railroad Valley, Nevada, USA.

As at 31 March 2023, the Company has the following subsidiaries (collectively referred to as the “Group”):

- 100% of Macarthur Australia Limited, which holds the following 100% subsidiaries:
- 100% of Macarthur Iron Ore Pty Ltd (“Macarthur Iron Ore” or “MIO”) which owns the Iron Ore Projects
- 100% of Macarthur Lithium Nevada Limited (incorporated in Nevada)
- 100% of Esperance Iron Ore Export Company Pty Ltd (previously Macarthur Midway Pty Ltd)
- 100% of Macarthur Marble Bar Lithium Pty Ltd (previously Bachelor Project Pty Ltd) (a dormant subsidiary); and
- 100% of Macarthur Minerals NT Pty Ltd (“MMNT”) and MMNT’s 100% subsidiary, Macarthur Tulshyan Pty Ltd.

There was no change in the nature of the Company’s principal activities during the year. On 1 January 2022, Infinity Mining Limited (“IML”) exited the Macarthur Minerals Consolidated Group and following that, IML has been accounted for as an associate of Macarthur Minerals Group. At reporting date, the Group has increased its interest in Infinity Mining Limited (IML) to 21.64% representing its holding of 24,365,802 shares.

The Company continues to maintain its corporate head office and principal place of business at Suite 1G, Building 1, Kings Row Office Park, 40 McDougall Street, MILTON QLD 4064, Australia.

The financial statements were authorized for issue on 28 June 2023 by the directors of the Company.

Note 2: Summary of Significant Accounting Policies

Material financial accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes the consolidated entity consisting of Macarthur Minerals Limited and its subsidiaries. Refer to Note 21 for details of subsidiaries.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (‘AASB’) that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

a) *Basis of preparation*

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (“AASB”) and the Corporations Act 2001 (Cth). The financial report complies with International Financial Reporting Standards (“IFRS”) adopted by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The separate financial statements of the parent entity have been presented within this financial report as permitted by the Corporations Act 2001 (Cth).

Except for cash flow information, the financial report has been prepared on an accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

b) Going concern

The financial statements have been prepared based on an assumption of going concern. The Group incurred a loss of \$4,884,815 for the year ended 31 March 2023. The Group's cash and cash equivalents balance at the reporting date is \$1,944,332. The Group's net working capital at 31 March 2023 was \$1,698,925 compared with a net working capital deficit of \$242,196 at 31 March 2022. Cash outflow from operating and investing activities amounted to \$5,642,177 in the year ended 31 March 2023. The Directors believe the going concern assumption is valid, reaching such a conclusion after having regard to the circumstances which they consider reasonably likely to affect the Group during the period of one year from the date these financial statements are approved.

The Directors believe in the Group's ability to continue as a going concern for the period assessed above due to the level of its current cash holdings and ability to generate cash inflows from a shared service arrangement with Infinity Mining Limited, the exercise of outstanding options and warrants, along with, if necessary, the Group's ability to sell shares on market from its 21.14% holding in Infinity Mining Limited.

Should the Group be unsuccessful in securing additional funds or monetizing non-core assets, there is a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern, however, notwithstanding this, the accounts have been prepared on a going concern basis.

The directors are satisfied that at the date of signing of the financial report, there are reasonable grounds to believe that the Group will be able to continue to meet its debts as and when they fall due and that it is appropriate for the financial statements to be prepared on a going concern basis. The directors have based this on the following pertinent matters:

- The directors believe that future funding will be available to meet the Group's objectives and debts as and when they fall due, including through equity placements to existing or new investors;
- The Group has approved capacity to issue additional equity under the Corporations Act 2001 and ASX Listing Rule 7.1;
- The Company's commitment to exploration expenditure is discretionary and expenditure requirements are minimal;
- The Group has capacity, if necessary, to reduce its operating cost structure in order to minimise its working capital requirements; and
- Subject to successful capital raising and/or monetization of non-core assets, the cash flow forecast for the period to July 2024 indicates sufficient cash available for planned activities and operations.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the company does not continue as a going concern.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business and at amounts that differ from those stated in the financial statements.

c) Principles of consolidation

Subsidiaries

The financial report incorporates the assets, liabilities and results of all subsidiaries controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between companies are eliminated in full on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Company. Investments in subsidiaries are accounted for at cost in the individual financial statements of the parent, refer to Note 28.

d) Mineral exploration and evaluation assets

The Company is currently in the exploration and development stage of its exploration projects and applies the following policies.

Exploration and evaluation properties

Exploration and evaluation expenditure are accumulated separately for each area of interest and capitalised to exploration and evaluation assets. Such expenditures comprise net direct costs but do not include general overheads or administrative expenditure not having a specific nexus with a particular area of interest. Expenditure in respect of any area of interest or mineral resource is carried forward provided that:

- the Company's rights of tenure to that area of interest are current;
- such costs are expected to be recouped through successful development and exploitation of the area of interest or, alternatively by its sale; or
- exploration and/or evaluation activities in the areas of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the areas are continuing.

All other exploration and evaluation expenditure are expensed as incurred. Exploration and evaluation expenditure previously capitalised but which no longer satisfies the above policy is impaired and expensed to profit and loss. Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortisation of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (or the cash-generating unit(s) to which it has been allocated, being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any).

e) Plant and equipment

Plant and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Consolidated Statements of Profit and Loss and Other Comprehensive Income/(Loss) during the financial period in which they are incurred.

Depreciation on assets is calculated as follows:

Plant & Equipment	5% to 33.33% Straight-line Method
Office Equipment	10% to 33.33% Straight-line Method
Motor Vehicles	20% to 25% Straight-line Method

The assets' residual values and useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the assets carrying amount is greater than its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Depreciation is calculated to write-off the asset's cost over its estimated useful life, commencing from when the asset is first ready for use. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are included in profit and loss.

f) Impairment of non-financial assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of six months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

h) Trade and other receivables

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

i) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Australian dollars, which is the Company's and its subsidiaries functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss, except when they are deferred in equity as qualifying cash flow or net investment hedges.

j) Foreign operations

The assets and liabilities of foreign operations are translated into Australian dollars using the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated into Australian dollars using the average exchange rates, which approximate the rates at the dates of the transactions, for the period. All resulting foreign exchange differences are recognised in other comprehensive income through the foreign currency reserve in equity.

The foreign currency reserve is recognised in profit or loss when the foreign operation or net investment is disposed of.

k) Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The considerations made in determining significant influence is similar to those necessary to determine control over subsidiaries. The Group's investment in its associate is accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate is eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss within 'Share of profit of an associate' in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

The Group's interest in Infinity Mining Limited (IML) as at 31 March 2023 was 21.14% (2022: 20.74%) representing its holding of 23,812,422 shares at 31 March 2023. The Group's interest in Infinity Mining Limited is accounted for using the equity accounting method in the consolidated financial statements.

l) Segment Reporting

The chief operating decision-maker has been identified as the Chief Executive Officer (CEO) of the Company. The Group has identified one reportable segment (the exploration of mineral resources). All such operations and substantially all the capital assets of the Group are situated in Australia as at the reporting date.

m) Leases - The Group as lessee

At inception of a contract, the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability are recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (i.e. leases with a remaining term of 12 months or less) and leases of low value assets are recognised as operating expenses on a straight-line basis over the term of the lease. Initially the lease liability is measured at the present value of the lease payments still to be paid at the commencement date. The lease payments are discounted at the interest rate implicit in the lease.

Lease payments included in the measurement of the lease liability is as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and

- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement day and any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest.

Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group anticipates exercising a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

n) Farm-outs in the exploration and evaluation phase

The Group does not record any expenditure made by the farmee on its account. It also does not recognise any gain or loss on its exploration and evaluation farm-out arrangements but redesignates any costs previously capitalised in relation to the whole interest as relating to the partial interest retained. Any cash consideration received directly from the farmee is credited against costs previously capitalised in relation to the whole interest with any excess accounted for as a gain on disposal.

o) Trades and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

p) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

Provisions are measured at the present value of managements' best estimate of the expenditure required to settle the present obligation at the reporting period date.

q) Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

r) Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

s) Employee benefits

(i) Wages and salaries, annual leave and superannuation

Liabilities for salaries, including annual leave and superannuation, expected to be settled within 12 months of the reporting date are recognised as Current Employee Benefits in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) *Other long-term employee benefits*

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(iii) *Share-based compensation*

Share-based payments to employees are measured at the fair value of the instruments issued and amortised over the vesting periods to represent the value of services rendered. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The corresponding amount is recorded to a reserve. The fair value of equity instruments is determined using the relevant options pricing model. The number of instruments expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted is based on the number of equity instruments that eventually vest.

t) *Goods and services tax*

Revenues, expenses and assets are recognised net of the amount of associated goods and services tax ("GST"), unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

u) *Income tax*

Income tax on profit or loss for the year comprises current and deferred tax. Current tax is the expected tax paid or payable on the taxable income for the year, using tax rates enacted or substantively enacted at the statement of financial position date, and any adjustment to tax paid or payable in respect of previous years. Deferred income tax is recognised, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements, as well as unused tax losses.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or when the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to

income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(i) *Deferred Tax Balances*

Deferred income tax balances have not been recognised as it has not yet become probable that they will be recovered and utilised.

(ii) *Tax consolidation legislation*

The Company and its wholly owned Australian incorporated subsidiaries are a tax-consolidated group for income tax purposes. As a consequence, all members of the tax-consolidated group are taxed as a single entity. Infinity Mining Limited (formerly Macarthur Lithium Pty Ltd) departed the Group on 1 January 2022.

v) Discontinued operations

A discontinued operation is a component of the consolidated entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the statement of profit or loss and other comprehensive income.

w) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification. An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

x) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Proceeds from warrant unit placements are allocated between shares and warrants issued. Warrants that are part of units are assigned a value based on the residual value of the unit after deducting the fair value of the common shares. Where warrants are denominated in a currency other than the Company's functional currency, they are considered a derivative liability and marked to market at each period using the Black-Scholes model.

y) Earnings per share

(i) *Basic earnings per share*

Basic earnings per share is determined by dividing net profit/(loss) after income tax attributable to ordinary equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year; adjusted for bonus elements in ordinary shares issued during the year.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares. Potential ordinary shares are treated as dilutive if their exercise price exceeds the average market price of ordinary shares during the period.

However, where their conversion would decrease the loss per share from continuing operations, then this calculation is treated as anti-dilutive.

z) Revenue recognition

The Company's only sources of revenue are other income items such as interest cost recoveries, farm out arrangements and government subsidies.

The Group recognises revenue when the amount can be readily measured, and it is probable that future economic benefit will flow to the entity (control). Interest income is recognised on a time proportion basis using the effective interest method.

aa) Fair value of assets and liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

bb) Comparative Figures

Certain comparative figures in profit and loss have been adjusted to conform to changes in presentation for the current financial year, with no impact on net loss or comprehensive loss for the year.

cc) New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 31 March 2023. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

For personal use only

Note 3: Critical Accounting Estimates and Judgements

The preparation of the financial report requires that management make judgements, estimates and assumptions that affect the reported amounts in the financial report and disclosure of contingent assets and liabilities. Estimates and judgements are continually evaluated and are based on historical experience and best available current information, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

The estimates and judgements that affect the application of the Company's accounting policies and disclosures and have a significant risk of causing a material adjustment to the carrying amounts of assets, liabilities, income and expenses are discussed below.

(i) *Exploration and Evaluation Expenditure (Note 13)*

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits are likely and is based on assumptions about future events or circumstances.

Recoverable value of exploration assets is based on the assessment of current economic conditions.

(ii) *Deferred tax assets*

The Company considers whether the realization of deferred tax assets is probable in determining whether or not to recognise these deferred tax assets, as set out in Note 7.

(iii) *Share-based payment transactions (Note 18)*

The Company measures the costs of equity-settled transactions with directors, officers, employees and consultants by reference to the fair values of the equity instrument. The fair value of equity-settled transactions is determined using the relevant Black-Scholes valuation as measured on the grant date. This model involves the input of highly subjective assumptions, including the expected price volatility of the Company's common shares, the expected life of the equity, and the estimated forfeiture rate for market-based vesting conditions.

(iv) *Warrant liability (Note 17)*

The Group uses the Black-Scholes Option Pricing Model, or other valuation models, for the valuation of warrants including expected share price volatility, interest rate, foreign currency and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Group's net loss and equity reserves.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Note 4: Financial Instruments and Financial Risk Management**Financial risk management policies**

The Company's principal financial instruments are cash and cash equivalents, the main purpose of which is to fund the Company's operations. The Company has various other financial assets and liabilities such as security deposits, other receivables, trade payables, and warrant derivatives which arise directly from its operations. It is and has been throughout the years ended 31 March 2023 and 31 March 2022, the Company's policy that no trading in financial instruments shall be undertaken. The main risks arising from the Company's financial instruments are credit risk, liquidity risk, interest rate risk, and foreign currency risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2 to the financial statements.

The Company's contracted financial instruments are summarised as:

	Note	Consolidated Carrying Amount	
		2023	2022
		\$	\$
Financial assets			
Cash and cash equivalents	9	<u>1,944,332</u>	1,625,572
Financial assets at amortised cost			
Other receivables	10	99,627	127,091
Security Deposits	11	<u>35,397</u>	56,642
		135,024	183,733
Total financial assets		<u>2,079,356</u>	<u>1,809,305</u>
Financial liabilities			
a) Financial liabilities at amortised cost			
Trade and other payables		331,269	1,173,019
Lease liability		76,725	-
Loans		-	1,000,000
		<u>407,994</u>	2,173,019
b) Financial liabilities at fair value through profit and loss			
Warrant liability	16	-	520,350
Total financial liabilities		<u>407,994</u>	<u>2,693,369</u>

a) Credit risk

The Company's primary exposure to credit risk is on its cash and cash equivalents. The Company limits its exposure to credit risk by maintaining its financial liquid assets with high-credit quality financial institutions. The Company will trade only with recognised, creditworthy third parties. Credit verification procedures will be carried out when deemed necessary and receivable balances will be monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Exposure to credit risk

The carrying amount of the Company's financial assets represents the maximum credit exposure. This amount consists of Cash and cash equivalents of \$1,944,332 (2022: \$1,625,572), Other receivables of \$99,627 (2022: \$127,091) and Security Deposits of \$35,397 (2022: \$56,642).

The Company's receivables exclude current outstanding taxation payments recoverable from the Australian Government. These statutory amounts are excluded under Accounting Standards in the above analysis.

The Company's maximum exposure to credit risk at the reporting date by geographic region was:

	2023 \$	2022 \$
Australia	1,644,773	1,022,861
Canada	434,584	786,443
	2,079,357	1,809,304

b) Liquidity risk

The Company's objective is to raise sufficient funds from equity and/or debt to finance its development and exploration activities until its operations become profitable.

The Company manages its liquidity risk by planning and budgeting its operational and growth requirements. The Company monitors its forecast cash flows and ensures funds are in place to meet its operational needs in the short to medium term. The Company has limited financial resources and there is no assurance that additional funding will be available to allow the Company to acquire, explore and develop its exploration and evaluation assets. Failure to obtain additional financing could result in delay or indefinite postponement of further exploration or development.

The Company is dependent on raising funds through equity and/or debt or disposing of interests in its mineral properties (by options, joint ventures or outright sales) in order to finance development of its exploration and evaluation assets, further acquisitions, undertake exploration and meet general and administrative expenses in the immediate and long term.

Exposure to liquidity risk

The below table analyses the Company's non-derivative financial assets and liabilities into maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contracted undiscounted cash flows.

As at 31 March 2023

	\$ Within 1 year	\$ 1 to 5 years	\$ Total
Financial liabilities	(407,994)	-	(407,994)
Net cashflow	(407,994)	-	(407,994)

As at 31 March 2022

	Within 1 year	1 to 5 years	Total
Financial liabilities	(2,173,019)	-	(2,173,019)
Net cashflow	(2,173,019)	-	(2,173,019)

Liabilities – Loan, lease liability, Interest rate risk

The Company's cash equivalents are highly liquid and earn interest at market rates. Due to the short-term nature of these financial instruments, fluctuations in market interest rates do not have a significant impact on the fair values of these financial instruments.

MACARTHUR MINERALS LIMITED
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023
(Expressed in Australian Dollars)

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was:

	2023 \$	2022 \$
Interest-bearing financial instruments		
Financial assets	1,979,729	1,682,214
Financial assets are comprised of:		
	2023 \$	2022 \$
Cash and cash equivalents	1,944,332	1,625,572
Security deposits	35,397	56,642
	<u>1,979,729</u>	<u>1,682,214</u>

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates on the above interest-bearing financial instruments at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2022.

	Profit or loss		Equity	
	100bp increase \$	100bp decrease \$	100bp increase \$	100bp decrease \$
31 March 2023				
Interest-bearing financial instruments	<u>19,797</u>	<u>(19,797)</u>	<u>19,797</u>	<u>(19,797)</u>
31 March 2022				
Interest-bearing financial instruments	<u>16,822</u>	<u>(16,822)</u>	<u>16,822</u>	<u>(16,822)</u>

c) Foreign currency risk

The Company's consolidated financial statements can be affected by movements in the CAD\$/USD\$ exchange rate, due to some administrative expenses and liabilities being incurred in other than in \$AUD is being the functional currency of the Company.

Exposure to currency risk

The Company's exposure to foreign currency risk at the statement of financial position date was as follows:

	CAD \$	USD \$	CAD \$	USD \$
	2023		2022	
Cash and cash equivalents	434,566	17	634,363	152,081

Security Deposits	-	-	-	-
	<u>434,566</u>	<u>17</u>	<u>634,363</u>	<u>152,081</u>
Trade and other payables	22,848	-	48,228	8,103
Employee Benefits	-	-	-	-
Warrant liability	-	-	520,350	-
Loan - Other	-	-	-	-
Lease liability	-	-	-	-
	<u>22,848</u>	<u>-</u>	<u>568,578</u>	<u>8,103</u>
Net exposure	<u>411,718</u>	<u>17</u>	<u>65,785</u>	<u>143,978</u>

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Sensitivity analysis

The following table illustrates sensitivities to the Group's exposures to changes in interest rates and exchange rates. The table indicates the impact of how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

These sensitivities assume that the movement in a particular variable is independent of other variables.

	2023		2022	
	Profit \$	Equity \$	Profit \$	Equity \$
+/-2% in interest rates	+\$39,595	+\$35,595	+\$33,644	+\$33,644
+/-5% in \$AUD/\$CAD	+/- \$20,586	+/- \$20,586	+/- \$3,289	+/- \$3,289
+/-5% in \$AUD/\$US	+/- \$1	+/- \$1	+/- \$7,199	+/- \$7,199

d) Commodity price risk

The Company's future revenues are expected to be in large part derived from the mining and sale of minerals or interests related thereto. The price of various minerals has fluctuated widely, particularly in recent years, and is affected by numerous factors beyond the Company's control including international economic, financial and political conditions, expectations of inflation, international currency exchange rates, interest rates, global or regional consumptive patterns, speculative activities, levels of supply and demand, increased production due to new mine developments and improved mining and production methods, availability and costs of mineral substitutes, mineral stock levels maintained by producers and others and inventory carrying costs. The effect of these factors on the price of various minerals, and therefore the economic viability of the Company's operations cannot accurately be predicted.

As the Company has not yet reached the production stage, its exposure to price risk has no impact on the financial statements, however price risk is a critical assumption for the Group's economic studies on its Iron Ore Projects and for impairment testing.

e) Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;
and

Level 3: Inputs that are not based on observable market data.

The fair values of the Company's cash and cash equivalents, other receivables, and accounts payable and accrued liabilities approximate carrying values, which are the amounts recorded on the consolidated statement of financial position due to their short-term nature. The Company's only financial instrument classified as fair value through profit or loss is the Warrant Liability, which is classified as Level 2 in the fair value hierarchy, refer to Note 17 for additional information.

For personal use only

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Note 5: Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of resource properties.

The Board of Directors do not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the management of capital, the Company includes shareholders' equity. The properties in which the Company currently has an interest are in the exploration and development stage, as such the Company is dependent on external financing to fund activities. In order to carry out planned exploration, conduct studies and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Refer to Note 2(b) for further information on working capital and going concern.

In addition to its lithium and iron ore exploration and evaluation activities, the Company will continue to assess new properties and seek to acquire an interest in additional properties if there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. As set out in Note 16, further equity was issued in the year. There were no other changes in the Company's approach to capital management during the year ended 31 March 2023. The Company is not subject to externally imposed capital requirements.

Note 6: Revenue and Expenses

Result for the year includes the following items:

	2023	2022
	\$	\$
a) Depreciation:		
- Depreciation – Plant and Equipment	10,450	13,443
- Depreciation – Right of Use asset	61,895	17,980
	<u>72,345</u>	<u>31,423</u>
b) Share-based compensation:		
- Share based payments	873,793	576,294
- Bonus shares issued to Executives and employees	1,430,000	151,331
	<u>2,303,793</u>	<u>727,625</u>
c) Professional fees:		
- Legal costs	170,356	78,326
- External consultants	624,155	373,948
	<u>794,511</u>	<u>452,274</u>
d) Other income includes:		
Other income:		
- Rent reimbursement	61,611	-
- Management fee income for Shared Services Agreement	80,377	-
- Accommodation cost recovery	-	19,980
- Vehicle hire income	40,000	-
- Cost Order (LPD)	103,942	75,000
- Gain on sale of FE Ltd Shares	-	1,667
- Other income	66,968	-
	<u>352,898</u>	<u>96,647</u>
e) Borrowing costs includes:		
- Interest on Convertible Notes	-	-
- Interest on Other Loans	6,143	14,538
- Interest on lease liability (Note 23)	12,851	3,785
	<u>18,994</u>	<u>18,323</u>

Total losses on Capital raising expenses	1,785,039	1,676,795
Total unrecognised deferred tax asset	10,787,924	5,915,159

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

The tax benefit of these losses will only be obtained if:

- The Company derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised.
- The Company continues to comply with the conditions for deductibility of losses imposed by the relevant tax legislation.

In particular, the Company's tax losses can be carried forward to offset its future income and the future income of members of its tax consolidated group, subject to the satisfaction of the Continuity of Ownership Test or the Same or Similar Business Test and having regard to the application of the "available fraction".

In this respect the ability to utilise tax losses in the future will be dependent on specific shareholding tracing in the years of losses and the future years of income, and future events including the business activity of the Company in future years of income.

Note 8: Earnings Per Share

Basic earnings per share is calculated by dividing net income/(loss) for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year. The following reflects the income and share data used in the total basic and diluted earnings per share computations.

Earnings per share for profit/(loss) from continuing operations

	2023 \$	2022 \$
Total profit/(loss) for the year attributable to the owners of Macarthur Minerals Limited	(4,884,815)	4,383,315

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Note 13: Exploration and Evaluation Assets

(a) The ultimate recoupment of the carrying value of exploration and evaluation assets is dependent on the successful development, commercial exploitation and financing of the areas of interest, or alternatively through sale. At 31 March 2023, the Company held 100% of the outstanding and issued share capital of Macarthur Australia. Macarthur Australia's wholly owned subsidiaries MIO holds assets which include the Iron Ore Projects. Macarthur Minerals also holds 100% of Macarthur Lithium Nevada Limited ("MLiNV"), which holds a Lithium Exploration Project in Nevada.

The carrying value of the exploration and evaluation assets relates to the Iron Ore and Lithium Projects.

Exploration expenditure of \$1,198,667 was capitalised during the year ended 31 March 2023 (2022: \$5,518,209), as per table below.

Exploration and evaluation expenditure

	Acquisition Costs \$	Capitalised Exploration Costs \$	Total \$
Balance as at 31 March 2021	4,010,636	63,502,909	67,513,545

All capitalised exploration costs represent costs incurred during the exploration and evaluation phase.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

(b) Commitments

In order to maintain its current rights of tenure for exploration and/or mining activities, the Company is required to perform minimum annual expenditure requirements specified in the tenement documents. The expenditure obligations are subject to renegotiation when an application for a mining lease and/or renewal of exploration permits are made or at other times and are subject to whether the Company decides to continue a tenement's rights until its expiry. Due to the nature of the Company's activities, it is difficult to accurately forecast the amount of future expenditure that will be necessary to incur in order to maintain present interests.

The following obligations are not provided for in the financial statements and are payable at future dates as follows:

	2023	2022
	\$	\$
Not later than one year	1,066,183	980,663
Later than one year but not later than five years	3,928,059	3,674,506
	<u>4,994,242</u>	<u>4,655,169</u>

For the financial year ending 31 March 2024, the Company may apply for exemptions against expenditure in relation to those tenements which did not have sufficient expenditure recorded against them in the prior 12 months of their term. Exemption has and may be sought on the basis that aggregate expenditure on those tenements in prior years far exceeded the minimum required. In the event that exemption for these tenements is not granted (which the Company believes is highly unlikely), the Company may have to impair/expense the value of the amount capitalised to exploration and evaluation assets for those tenements.

If exemptions being applied for are approved as outlined above, the obligations not provided for in the financial statements and are payable at future dates as follows:

	2023	2022
	\$	\$
Not later than one year	1,066,183	407,205
Later than one year but not later than five years	3,928,059	3,674,506
	<u>4,994,242</u>	<u>4,081,711</u>

Note 14: Trade and Other Payables

	2023	2022
	\$	\$
Current		
Trade payables	159,153	121,241
Other payables and accruals	172,116	1,051,778
	<u>331,269</u>	<u>1,173,019</u>

Note 15: Provisions

The liabilities recognised for employee benefits consist of the following amounts:

	2023	2022
	\$	\$
Current		
- Short term employee obligations	110,285	93,731
Non-current:		
- Long service leave entitlements	20,217	51,043
	<u>130,502</u>	<u>144,774</u>

Amounts not expected to be settled within the next 12 months

The current provision for employee benefits includes all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances. The entire amount is presented as current, since the consolidated entity does not have an unconditional right to defer settlement. However, based on past experience, the consolidated entity does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.

The following amounts reflect leave that is not expected to be taken within the next 12 months:

	2023	2022
Employee benefits obligation expected to be settled after 12 months	<u>115,058</u>	<u>100,172</u>

The current portion of these liabilities represents the Company's obligations to its current employees that relate to annual/long service leave which have vested.

Note 16: Contributed Equity and Reserves

a) Ordinary Shares

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

At the end of the year	165,653,488	146,253,488

*Bonus shares issued to Directors during the period in accordance with the Consultant Share Compensation Plan.

Details of shares issued above are outlined below:

- i. During the year, no options (2022: 2,093,203) were exercised and no warrants (2022: 4,546,150) were exercised.
- ii. On 8 April 2022, 15,000,000 shares at AUD\$0.50 per share were issued in connection with the Private Placement announced on 31 March 2022. One unit comprised of one share and one option exercisable at AUD\$0.65 per share, with an expiry date that is 24 months from the date of issuance.
- iii. During the 2023 year, 4,400,000 bonus shares at an average price of AUD\$0.33 per share were issued to Directors.

Equity Finance Facility

In addition to the Private Placement, the Company has executed an CAD\$20 million standby equity finance facility secured under a Controlled Placement Agreement (“Equity Finance Facility”) with L1 Capital Global Opportunities Master Fund (“L1”) which remains undrawn as at 31 March 2023. The agreement entitles the Company to issue shares to L1 over 36 months (expiring 13 October 2023) under “Placement Notice(s)” at the Company’s discretion, and to receive funds for the issue of those shares at the greater of 90% of: (i) the average daily VWAP over 30 Trading Days of the Company’s Australian Securities Exchange (ASX) listed shares following delivery of a Placement Notice (Pricing Period); and (ii) the Minimum Acceptable Price nominated by the Company (provided that the discounted Minimum Acceptable Price cannot be lower than any minimum price required under the ASX Listing Rules or the TSX Listing Rules, and in any event not less than AUD \$0.20 (“Purchase Price”).

Share-based payment reserve

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

The Group has issued share options, rights and warrants on specified terms. The cost of these items is measured by reference to their fair value at the date at which they are granted and expensed over the vesting period. The fair value is determined using Option valuation models.

Share Capital Reserve

The share capital reserve records the residual value of contributed equity after deducting the fair value of the common shares issued.

Note 17: Warrant Liability

During the year ended 31 March 2023, no warrants were issued (31 March 2022 – Nil). Where the warrants have an exercise price denominated in a currency which is different from the functional currency of the Company (Australian dollar), the warrants are treated as a financial liability.

The Company's share purchase warrants are classified and accounted for as a financial liability at fair value with changes in fair value recognised in the Consolidated Statement of Profit and Loss. The warrant derivative liability is classified as level 2 in the fair value hierarchy. As of 31 March 2023, the Company had nil (2022 – 4,101,275) warrants outstanding, which are classified and accounted for as a financial liability. The Company recognised a profit of \$520,350 during the year (2022: \$4,509,641 profit) from changes in the fair value of the warrant liability.

The value of warrant liability as at 31 March 2023 is \$nil (2022: \$520,350). There are no warrants outstanding as at 31 March 2023.

The Group uses the Black-Scholes Option Pricing Model, or other valuation models, for the valuation of Warrant derivatives. Option pricing models require the input of subjective assumptions including expected share price volatility, interest rate, foreign currency and forfeiture rate.

Changes in the input assumptions can materially affect the fair value estimate and the Group's net profit/(loss) and equity reserves. The Company uses the Black-Scholes Option Pricing Model to estimate the fair value of the Canadian dollar denominated warrants, with the following assumptions:

	Year ended 31 March 2023	Year ended 31 March 2022
	<i>Weighted average</i>	<i>Weighted average</i>
Share price	-	CAD \$0.465
Exercise price	-	CAD \$0.40
Risk-free interest rate	-	2.13%
Expected life of warrants	-	0.39 years
Annualized volatility	-	75.60%
Dividend rate	-	0%

Note 18: Share Compensation Plans and Share Based Payments (refer Notes 19 and 20)

The Company, in accordance with the Company's Employee and Consultant Share Compensation Plans ("Plans") and the policies of the TSX-V, is authorized to grant incentive stock options ("Options"), award equity restricted share units, or bonus shares or issue common shares from treasury pursuant to the Company's share purchase scheme to directors, employees and consultants to acquire in aggregate up to 20% of issued and outstanding ordinary shares as at 3 August 2022, being 165,653,488 Common Shares. Both of the Plans were approved on 31 August 2022 by the shareholders and replace the Company's previous Plans.

The exercise price of the Options is fixed by the Board at no lesser than the discounted market price (as defined under the TSX-V Company Manual) of the shares on the grant date, subject to all applicable regulatory requirements. Options under the Plans can be granted for a maximum term of 5 years and may be subject to vesting criteria as determined by the Board.

The fair value of all issued Options is measured and expensed as share-based compensation at the grant date if they are fully vested upon granting, otherwise the fair value is expensed over the vesting period. A

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

corresponding increase is recorded to reserves (see Note 16). For further detail on the accounting treatment of share options refer to Note 2 accounting policies.

Note 19: Options, RSUs and Warrants**a) Options**

Share option transactions issued under the Plans, the number of share options outstanding and their related weighted average exercise prices are summarised below:

	2023		2022	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	2,500,000	\$0.28 (CAD\$0.26)	5,035,000	\$0.27 (CAD\$0.25)
Granted ¹⁰	9,000,000	\$0.26 (CAD\$0.23)	500,000	\$0.85 (CAD\$0.80)
Expired	(2,500,000)	\$0.46 (CAD\$0.42)	(30,000)	\$0.19 (CAD\$0.20)
Forfeited	-	-	(911,797)	\$0.21 (CAD\$0.20)
Exercised	-	-	(2,093,203)	\$0.20 (CAD\$0.26)
Outstanding, end of year	9,000,000	\$0.28 (CAD\$0.25)	2,500,000	\$0.28 (CAD\$0.26)
Options exercisable, end of year	9,000,000	\$0.28 (CAD\$0.25)	2,500,000	\$0.28 (CAD\$0.26)

Share options under the Company's Plans outstanding at 31 March 2023 have the following exercise prices and expiry dates:

Number of Options	Exercise Price	Expiry Date
500,000	AUD\$0.65	25 May 2024
650,000	AUD\$0.45	26 Oct 2024
150,000	AUD\$0.50	26 Oct 2024
500,000	AUD\$0.40	26 Oct 2025
7,200,000	AUD\$0.20	20 Mar 2026

The Fair value of the options granted during the period has been independently calculated at grant date using Black Scholes pricing model based on market information and excluding the impact of no-market performance conditions. The assumptions included in the valuations include the following:

Fair value and assumptions in the calculation of fair value for options issued:

Date options granted	# of options granted	Weighted average fair value of options	Risk-free interest rate	Estimated life of options	Share price at grant date	Estimated volatility of share price	Dividend Yield
22 May 2022	500,000	\$0.08	2.48%	2 years	\$0.33	83.0%	n/a
26 Oct 2022	650,000	\$0.03	3.87%	2 years	\$0.15	94.7%	n/a
26 Oct 2022	150,000	\$0.03	3.87%	2 years	\$0.15	94.7%	n/a
26 Oct 2022	500,000	\$0.05	3.87%	3 years	\$0.15	94.7%	n/a
20 March 2023	7,200,000	\$0.06	3.63%	3 years	\$0.13	96.1%	n/a
8 April 2022	17,000,000	\$0.12	2.34%	2 years	\$0.49	75.7%	n/a

¹⁰ The fair value of the 9,000,000 options granted was \$504,783.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

During the year the Company's share price has ranged from CAD\$0.12 to CAD\$0.47. The weighted average remaining contractual life for the share options as at 31 March 2023 is 1.85 years. The weighted average value of options issued in the year is AUD\$0.26 (2022: \$0.42).

During the year ended 31 March 2023

- (i) On 25 May 2022, the Company granted 500,000 performance-based options to consultants, expiring 2 years from the date of issue.
- (ii) On 26 October 2022, the Company granted 800,000 performance-based options to employees and consultants. The options expire 2 years from the date of grant.
- (iii) On 26 October 2022, the Company granted 500,000 performance-based options to employees. The options expire 3 years from the date of grant.
- (iv) On 20 March 2023, the Company granted a total of 7,200,000 performance-based options to Directors, expiring 3 years from the date of issue.
- (v) A total of 2,500,000 performance-based options expired.
- (vi) A total of 500,000 performance-based options were exercised.

During the year ended 31 March 2022

- (i) On 11 June 2021, the Company granted 500,000 options to consultants. The options expire 1 year from the date of the offer.

Options transactions with an Australian Dollar exercise price issued under the private placements and the number of options outstanding and their related weighted average exercise prices are summarised as follows:

	2023		2022	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	12,862,618	AUD\$0.88	12,862,618	AUD\$0.88
Granted ¹¹	17,000,000	AUD\$0.65	-	-
Expired	(12,862,618)	AUD \$0.88	-	-

Outstanding, end of year	17,000,000	AUD\$0.65	12,862,618	AUD\$0.88
Options exercisable, end of year	17,000,000	AUD\$0.65	12,862,618	AUD\$0.88

During the year ended 31 March 2023

- (i) On 8 April 2022, 17,000,000 options were issued with expiry 2 years from the date of issue. 15,000,000 options were issued under the private placement of AUD 7.5 million to private placement subscribers and 2,000,000 options were issued to Lead Managers as Management and Selling fee. The assumptions included in the valuations of these options include an exercise price of A\$0.65, with an expiry date 24 months from the date of issuance
- (ii) A total of 12,862,618 options expired.

During the year ended 31 March 2022

- (i) No options were issued during the year.

¹¹ Options granted included 15,000,000 to Private Placement subscribers, and 2,000,000 to Lead Managers. The total fair value of these options granted was \$2,018,918.

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

b) Restricted Share Units

RSU transactions, the number of outstanding and their related weighted average vesting prices are summarised as follows:

	2023		2022	
	Number of RSUs	Weighted Average Vesting Price	Number of RSUs	Weighted Average Vesting Price
Outstanding, beginning of year	7,082,500	\$0.87 (CAD\$0.82)	3,282,500	\$0.72 (CAD\$0.68)
Granted	-	-	5,600,000	\$0.96 (CAD\$0.90)
Vested	-	-	-	-
Forfeited	(137,500)	\$0.77 (CAD\$0.70)	(1,800,000)	\$0.90 (CAD\$0.84)
Expired	-	-	-	-
Outstanding, end of year	6,945,000	\$0.90 (CAD\$0.82)	7,082,500	\$0.87 (CAD\$0.82)

RSUs outstanding at 31 March 2023 are all exercisable and have the following vesting prices and expiry dates:

Number of RSUs	Vesting Price	Expiry Date
1,000,000	CAD\$0.65	8 Dec 2023
1,595,000	CAD\$0.70	19 Jan 2024
4,350,000	CAD\$0.90	11 Jun 2024

The weighted average remaining contractual life for the RSUs as at 31 March 2023 is 1.04 years. The weighted average value of RSUs issued in the year is \$nil (2022: \$0.22).

The following assumptions were used for the Black-Scholes valuation of RSUs granted during the year:

	Year ended 31 March 2023	Year ended 31 March 2022
	Weighted average	Weighted average
Share price	-	CAD \$0.44
Vesting/Exercise price	-	CAD \$0.82
Risk-free interest rate	-	0.32%
Expected life of RSU's	-	2.04 years
Annualized volatility	-	95.00%
Dividend rate	-	0%

During the year ended 31 March 2023

- (i) No RSU's were granted during the year.
- (ii) On 24 October 2022, 137,500 RSUs were forfeited.

During the year ended 31 March 2022

- (i) On 11 June 2021, a total of 5,500,000 restricted share units ("RSUs"), were granted to Directors as part of the executive consulting contracts entered into with the Company. The RSU's vest if the closing share price of the Company's shares on the TSX Venture Exchange is greater than CAD\$0.90 for 20 consecutive trading days. The RSU's expire on 11 June 2024.
- (ii) On 11 June 2021, a total of 100,000 restricted share units ("RSUs"), were granted to Employees. The RSU's vest if the closing share price of the Company's shares on the TSX Venture Exchange is greater than CAD\$0.90 for 20 consecutive trading days. The RSU's expire on 11 June 2024.

c) Warrants

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

Warrant transactions and the number of warrants outstanding and their related weighted average exercise prices are summarised as follows:

	Year ended 31 March 2023		Year ended 31 March 2022	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Outstanding, beginning of year	4,101,275	\$0.43 (CAD\$0.40)	25,777,188	\$0.55 (CAD\$0.52)
Granted	-	-	-	-
Forfeited	-	-	-	-
Expired	(4,101,275)	\$0.40 (CAD\$0.44)	(17,129,763)	\$0.62 (CAD\$0.59)
Exercised	-	-	(4,546,150)	\$0.43 (CAD\$0.40)
Outstanding, end of year	-	-	4,101,275	\$0.43 (CAD\$0.40)
Warrants exercisable, end of year	-	-	4,101,275	\$0.43 (CAD\$0.40)

During the year ended 31 March 2023

- (i) No warrants were issued during the year.
- (ii) 4,101,275 warrants expired.

During the year ended 31 March 2022

- (i) No warrants were issued during the year.
- (ii) 4,546,150 warrants were exercised.
- (iii) 17,129,763 warrants expired.

Note 20: Share Based Payments

The Company measures the cost of share options at fair value at the grant date using the Black-Scholes valuation, adjusted to reflect market vesting conditions, but excludes any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest, and the entity revises its estimate of options that are expected to vest at each reporting date.

The fair value calculated for options issued is expensed over their vesting period as share-based compensation and a corresponding amount is recorded to reserves. Refer to Note 19(a) for details of options granted during the year.

The following assumptions were used for the Black-Scholes valuation of stock options granted during the year. During the year options were granted in both Australian dollars (AUD) and Canadian dollars (CAD). The weighted average assumptions used in the Black-Scholes valuation have been separated based on the currency of the share price and exercise price. In the prior year, options were granted with a CAD exercise price.

	Year ended 31 March 2023	Year ended 31 March 2023	Year ended 31 March 2022	Year ended 31 March 2022
	Weighted average	Weighted average	Weighted average	Weighted average

MACARTHUR MINERALS LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – 31 March 2023

(Expressed in Australian Dollars)

The volatility measured at the standard deviation of continuously compounded share returns is based on statistical analysis of daily share prices over a commensurate period of time which approximates the expectations that would be reflected in a current market. The value of Share based payments during the year of \$873,793 (2022: \$563,035) was expensed to the statement of profit or loss and other comprehensive income.

Note 21: Related Parties***Interests in subsidiaries***

The consolidated financial statements include the financial statements of Macarthur Minerals Limited and the subsidiaries listed in the following table:

Name	Country of Incorporation	% Equity Interest	
		2023	2022
Esperance Iron Ore Export Company Pty Ltd	Australia	100	100
Macarthur Iron Ore Pty Ltd	Australia	100	100
Macarthur Minerals NT Pty Ltd	Australia	100	100
Macarthur Tulshyan Pty Ltd	Australia	100	100
Macarthur Marble Bar Lithium Pty Ltd	Australia	100	100
Macarthur Australia Limited	Australia	100	100
Macarthur Lithium Nevada Limited	U.S.A	100	100

The Company's equity interest in all subsidiaries is in direct holdings of ordinary shares. All subsidiaries operate from the Company's premises and have the same reporting date. There are no significant restrictions on the Company's ability to access or use assets, and settle liabilities, of the Group.

Balances and transactions between the Company and its wholly owned subsidiaries have been eliminated upon consolidation. Macarthur Minerals Limited is the ultimate parent entity for all entities.

Interests in Associates

Interests in associates are accounted for using the equity method of accounting. Information relating to associates that are material (IML) to the consolidated entity are set out below:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2023	2022
		%	%
Infinity Mining Limited	Australia	21.14%	20.74%

Transactions with associate

The following transactions occurred with associate:

	Consolidated	
	2023	2022
	\$	\$
Receipts for goods and services:		
Costs recoveries for services to associate	324,035	708,837

Receivable from associate

The following balances are owing at the year end date in relation to transactions with associate:

Balance owed from associate at year end	74,107	128,561
---	--------	---------

Further information is set out in Note 29.

MACARTHUR MINERALS LIMITED

Note 24. Loan from unrelated party

During February 2022, the Company entered into an unsecured loan arrangement with a third party for the amount of \$1,000,000 at an annualised percentage rate (APR) of 7.00% interest. The Company repaid this loan in April 2022.

Note 25: Commitments

Exploration expenditures

Certain future exploration expenditures are required to be undertaken by the Company as a minimum retention for exploration permits. These expenditures were set out in Note 13 to the Consolidated Financial Statements for the year ended 31 March 2023. Apart from the above, the Company has no other material commitments at the reporting period date.

Note 26: Contingent Liabilities

Security Bonds

The Company has a contingent liability of \$35,397 for bank guarantees issued for office leasing arrangements in Brisbane and corporate credit cards.

Note 27: Subsequent Events

a) Cessation of Securities

Since 31 March 2023 and up to the date of this report, 100,000 performance-based options with an exercise price of A\$0.45 and expiring 26 October 2024 as well as 95,000 RSUs expiring 19 January 2024 were forfeited.

No other matter or circumstance has arisen since 31 March 2023 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

b) Appointment of Business Development and Marketing Consultant

The Company executed an agreement on 15 June 2023 with Karlsson Group Ltd to provide business development and marketing services to the company for an initial period of six months as it progresses the Lake Giles project in Western Australia. The terms of the agreement include the issue of 800,000 shares in the company payable over four instalments (subject to agreed performance criteria), commencing with the first instalment of 200,000 shares issued on 19 June 2023.

Note 28: Parent Information

The accounting policies of the parent entity, which have been applied in determining the financial information below, are the same as those applied in the consolidated financial statements.

Refer to Note 2 for a summary of the significant accounting policies relating to the Group.

Note 31: Deed of Cross Guarantee

The following entities are party to a deed of cross guarantee under which each company guarantees the debts of the others:

Macarthur Minerals Limited
 Macarthur Australia Limited
 Macarthur Iron Ore Pty Ltd

By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare financial statements and directors' reports under Corporations Instrument 2016/785 issued by the Australian Securities and Investments Commission.

The above companies represent a 'Closed Group' for the purposes of the Corporations Instrument, and as there are no other parties to the deed of cross guarantee that are controlled by Macarthur Minerals Limited, they also represent the 'Extended Closed Group'.

There are no material differences between the amounts as per the consolidated group and the closed group.

For personal use only

Macarthur Minerals Limited
Directors' declaration

In accordance with a resolution of the directors of the Company, I declare that:

1. the financial statements and notes, as set out on pages 24 to 61 are in accordance with the Corporations Act 2001, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
 - (i) the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board and the Australian Accounting Standards as issued by the Australian Accounting Standards Board as described in note 2 to the financial statements; and
 - (ii) give a true and fair view of the financial position as at 31 March 2023 and of the performance for the year ended on that date of the consolidated group;
2. In the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
3. at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 31 to the financial statements.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the board

Cameron McCall
Chairman

INDEPENDENT AUDITOR'S REPORT To the Members of Macarthur Minerals Limited

Opinion

We have audited the financial report of Macarthur Minerals Limited, (the Company), and its subsidiaries (the Group) which comprises the consolidated statement of financial position as at 31 March 2023, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Group's financial position as at 31 March 2023 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the Corporations Regulations 2001, and
- iii. complying with the International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and International Code of Ethics for Professional Accountants (including International Independence Standards) and the ethical requirements of the International Ethics Standards Board for Accountants (IESBA Code) and the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report. We have also fulfilled our other ethical responsibilities in accordance with the Code and IESBA Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(b) in the financial report, which indicates that the Group incurred a net loss of \$4,546,547 during the year ended 31 March 2023. As stated in Note 2(b), these events or conditions, along with other matters as set forth in Note 2(b), indicate that a material uncertainty exists that may cast significant doubt over the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed this matter
<p>Carrying Value of Exploration and Evaluation Assets</p>	
<p>Refer to Note 13 in the financial statements</p>	
<p>At 31 March 2023, the Group held capitalised exploration and evaluation assets of \$74,230,421.</p> <p>We determined this to be a key audit matter due to the significant management judgement involved in assessing the carrying value in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources, including:</p> <ul style="list-style-type: none"> • whether the exploration and evaluation spend can be associated with finding specific coal resources, and the basis on which that expenditure is allocated to an area of interest; • the Group's ability and intention to continue to explore the area of interest; • which costs should be capitalised; • the existence of any impairment indicators (such as the potential that coal resources may not be commercially viable for extraction, or that the carrying value of the assets may not be recovered through sale or successful development) - and if so, those applied to determine and quantify any impairment loss; and • whether exploration activities have reached the stage at which the existence of an economically recoverable reserve may be determined. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy for compliance with Australian Accounting Standards; • Assessing whether the rights to tenure of those areas of interest are current; • Testing a sample of additions to supporting documentation and assessing whether the amounts capitalised during the year are in compliance the Group's accounting policy and relate to the relevant area of interest; • Enquiring with management and reading budgets and other documentation as evidence that active and significant operations in, or relation to, the relevant area of interests will be continued in the future; • Assessing and evaluating management's determination that exploration activities have not yet progressed to the stage where the existence or otherwise of economically recoverable reserves may be determined; • Assessing and evaluating management's assessment of whether indicators of impairment existed at the reporting date; and • Assessing the appropriateness of the disclosures in the financial statements.
<p>Equity Instruments (i.e. Share based payments and Options)</p>	
<p>Refer to Note 19 and 20 in the financial statements</p>	
<p>The Group makes equity-settled share-based payments to directors, employees and other parties for services provided. Where applicable, the fair value of the equity is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account.</p> <p>Where applicable, the number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity</p>	<p>The following audit procedures were performed to test the valuation of the share-based payments:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy for compliance with Australian Accounting Standards; • Checking the mathematical accuracy of management's computation of share based payments expense for the period; • Critically evaluating the key methods and assumptions used by management in valuing share based payments made during the period;

For personal use only

<p>instruments granted shall be based on the number of equity instruments that eventually vest. We consider this to be a key risk because of the complexity of the accounting required to value the instrument and the judgmental nature of inputs into the valuation models.</p>	<ul style="list-style-type: none"> • Agreeing data inputs used by management to value share based payments to supporting documentation including for the grant-date share price, the expected volatility, the vesting period, the risk free rate, and the number of instruments expected to vest; and • Assessing the appropriateness of the disclosures in the financial statements.
---	---

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group’s annual report for the year ended 31 March 2023, but does not include the financial report and the auditor’s report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

For personal use only

Responsibilities of the Directors for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of those charged with governance's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represent the underlying transactions and events in a manner that achieves fair presentation.

- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in in pages 16 to 20 of the Directors' Report of the directors' report for the year ended 31 March 2023.

In our opinion, the Remuneration Report of Macarthur Minerals Limited, for the year ended 31 March 2023, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Group are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards and International Standards on Auditing.

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the financial report of Macarthur Minerals Limited for the year ended 31 March 2023, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.
