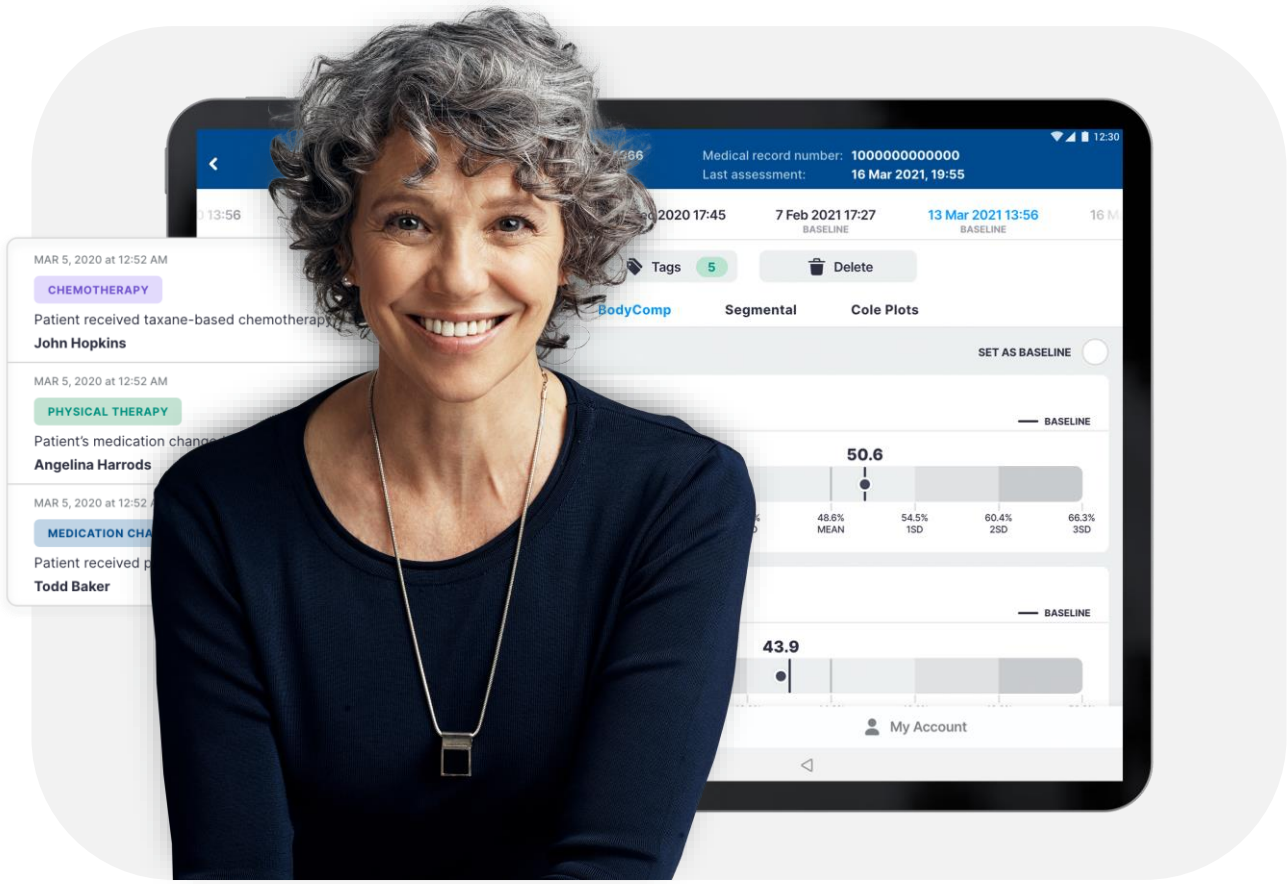
Quarterly Activities Report and Investor Presentation

APPENDIX 4C – Quarter Ended 30 June 2023

24 July 2023

ASX: IPD



Forward Looking Statements

This announcement contains or may contain forward-looking statements that are based on management's beliefs, assumptions and expectations and on information currently available to management.

All statements that address operating performance, events or developments that we expect or anticipate will occur in the future are forward-looking statements, including without limitation our expectations with respect to our ability to expand sales and market acceptance in the US and Australia including our estimates of potential revenues, costs, profitability and financial performance; our ability to develop and commercialise new products including our ability to obtain reimbursement for our products; our expectations with respect to our clinical trials, including enrolment in or completion of our clinical trials and our associated regulatory submissions and approvals; our expectations with respect to the integrity or capabilities of our intellectual property position.

Management believes that these forward-looking statements are reasonable as and when made. You should not place undue reliance on forward-looking statements because they speak only as of the date when made. ImpediMed does not assume any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. ImpediMed may not actually achieve the plans, projections or expectations disclosed in forward-looking statements. Actual results, developments or events could differ materially from those disclosed in the forward-looking statements.

Key Updates

Achieving Significant Momentum with Private Payors

First Top 5 National Payor published medical policy less than four months from update to NCCN Guidelines® for Survivorship.

Strong Initial Growth in SOZO System Sales

Initial impact of NCCN Guidelines® seen through customer engagement in Q4 FY'23 and 34 SOZO System sales in the U.S.

Funded for Accelerated Growth

Resources available to accelerate the Private Payor opportunity and enable the scaled roll-out of SOZO systems in the U.S.

Impact of NCCN Guidelines® on Payor Policies[1]

Specifically Name BIS

Policies specifically name bioimpedance spectroscopy (BIS), SOZO®[2] and/or L-Dex®.

No Prior Authorisation

Policies do not require pre-authorisation for SOZO measurements, which will help streamline provider workflows.

Medical Necessity

Medical necessity determined by providers in line with PREVENT study protocol.

Strong Rates of Reimbursement

Strong reimbursement rates support customer ROI models and ImpediMed's pricing model.

Helps Establish New Standard of Care

Majority of policies not limited to breast cancer and include all cancers[3].

1. NCCN Guidelines for Survivorship updated 24 March 2023 to recommend regular screening for lymphoedema, including with BIS. 2. Since the launch of SOZO, SOZO is the only commercially available FDA Cleared BIS Device for Lymphoedema. ImpediMed's U400 is also an FDA Cleared BIS Device for Lymphoedema.
3. Refers to all cancer patients at risk of limb lymphoedema and data from the National Cancer Institute: https://seer.cancer.gov/statfacts/html/common.html

Achieving Significant Momentum with Private Payors

Coverage Policies[1]

- **Seven (7) positive medical policies published** in just four (4) months since inclusion of SOZO and BIS in the NCCN Guidelines®.
- Positive medical policies **led by Top 5 National Payor, Cigna Healthcare, and four (4) Blue Cross Blue Shield policies**.
- **Five (5) additional Regional medical policy revisions confirmed and pending.**
  - Additional Top 5 National Payors likely to accelerate with Regional Payor momentum.
- 23 Payors providing silent coverage for CPT code 93702.
  - Silent coverage and Medicare reimbursement, along with published Payor policies, moving additional states to critical mass.
- Critical mass (>80% covered lives) achieved in Michigan and Alabama.
- A handful of policies published without coverage and did not include a review of the NCCN Guidelines for Survivorship.
  - Working with Payors on review with reference to NCCN Guidelines for Survivorship.
  - Positive coverage still expected within our forecasted timelines.

Impact of Cigna Policy

50
Provides Coverage in All 50 States

38

Regulatory Landscape

501(K) Submission

- Submitted Traditional 501(k) application to FDA for Heart Failure.
  - Includes modification for removal of contra-indications for implantable pacing and cardioverter defibrillator devices.
  - 90-150 day process to complete with FDA.
- For clearance for Heart Failure (HF) and modification of the contra-indication.
- Would result in a consolidation of clearances (Lymphoedema, HF, Protein Calorie Malnutrition and Body Composition into one clearance).

Bilateral arm software update

- Currently working through an update to the SOZO software related to the bilateral arm L-Dex® assessment for patients at risk for lymphoedema in both arms.
  - Pertains to a single digit percentage of breast cancer patients.
  - Doesn't impact our core business of unilateral arm L-Dex assessments or L-Dex assessments of legs
- Since the update involves changing SOZO software, we're working with U.S., Australian and other regulatory authorities on the update.
- Will have no impact to our sales forecast or customer ROI benefit.
- The data from our SOZO Digital Health Platform helped us identify and now address this issue.

All FY'23 numbers are preliminary and unaudited. All figures are stated in Australian dollars (AUD) unless otherwise notated.

Preparing for Scale

Board Strengthened in Key Areas

- Dr Michael Seiden, MD, PhD
  - Board-Certified Medical Oncologist in U.S.
- Daniel Sharp, CFA
  - AU investor relations and capital markets expertise

Preparing for Operational Scale

- Market Access team fully built out and engaging with payors on policy updates.
- Sales, Customer Success, Medical Affairs and Manufacturing in process.

Rapidly Accelerating Sales Pipeline

- Impact of NCCN Guidelines® seen through customer engagement in Q4 FY'23.
- Building further momentum along with increased pricing.

About ImpediMed

Founded and headquartered in Brisbane, Australia with US and European operations, ImpediMed is a medical technology company that uses bioimpedance spectroscopy (BIS) technology to generate powerful data to maximise patient health. ImpediMed produces the SOZO® Digital Health Platform, which is FDA-cleared, CE-marked, and ARTG-listed for multiple indications, including lymphoedema, heart failure, and protein calorie malnutrition and sold in select markets globally.

In March 2023, the NCCN Clinical Practice Guidelines In Oncology (NCCN Guidelines®) for Survivorship were updated and reference bioimpedance spectroscopy as the recommended objective tool to screen at-risk cancer patients for early signs of lymphoedema. With the SOZO Digital Health Platform and L-Dex®, ImpediMed is the only company to offer FDA-cleared technology that uses bioimpedance spectroscopy for the clinical assessment of lymphoedema. The connected digital health platform and large, attractive cancer-related lymphoedema market present an opportunity for continued strong growth through ImpediMed's SaaS subscription-based business.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
