San Francisco area-based Life360, Inc. (Life360 or the Company) (ASX: 360) today reported unaudited financial results for the quarter and half year ended June 30, 2023. Life360 Co-founder and Chief Executive Officer Chris Hulls said: "The Life360 business has maintained growth momentum through Q2, with Global MAUs up 29% YoY and AMR up 43% to \$248.7 million. We saw good growth in Paying Circles despite the price increase for existing U.S. Android subscribers implemented in April. We added 62 thousand global net subscribers during Q2'23 compared with 73 thousand in Q1'23. The 17% year-on-year uplift in Paying Circles was supported by international Paying Circles increasing 44% YoY, with international net adds remaining at close to all-time record levels.

"We are seeing particularly encouraging results from predominantly English speaking countries (Canada, U.K., Australia) which saw Paying Circles increase 54% YoY. The launch of triple tier Membership in the U.K. is on track for early Q4'23. Our investment in the international user experience is paying off with significant gains in MAUs, Paying Circles and Revenue, and retention metrics which are closing the gap to U.S. levels.

"The April price increase for existing U.S. Android subscribers supported further gains in global ARPPC which increased 31% YoY. Android churn was largely in line with our expectations and is returning to baseline levels.

"We are seeing early promising results from Tile Membership bundling, with a greater than 10% uplift in Month 1 and Month 2 relative retention rates for subscribers who have redeemed Tile hardware. While our strategic focus with Tile remains on driving subscription revenue rather than stand-alone retail sales, we are encouraged with the 70% YoY uplift in Tile's hardware revenue from the depressed levels of a year ago, along with margin improvements. This reflects the success of our strategic initiatives to clear channel inventory and prioritize higher margin sales channels.

"Our strategy of balancing fiscal responsibility with prudent investment has underpinned the significant progress we have demonstrated in managing our cost base. Q2'23 non-GAAP operating expenses of \$48.6 million decreased 2% YoY, and 5% compared with Q1'23. Our second consecutive quarter of positive Adjusted EBITDA of \$5.7 million delivered a \$24.4 million turnaround in Adjusted EBITDA YoY. As a result of this cost management we have increased guidance to positive Adjusted EBITDA of \$9 million to \$14 million for CY23.

Our balance sheet remains strong following the final payment associated with the Tile acquisition. The cash, restricted cash and cash equivalents balance was \$64.2 million at the end of Q2'23, with positive Operating Cash flow expected for the remainder of CY23."

AMR includes the annualized monthly value of subscription, data and partnership agreements. All components of these agreements that are not expected to recur are excluded
- 3 Adjusted EBITDA is a Non-GAAP measure. For the definition of Adjusted EBITDA and the use of this Non-GAAP measure, as well as a reconciliation of Net Loss to Adjusted EBITDA, refer to the Non-GAAP Financial Measures section below

- Global ARPPC increased 31% YoY with the benefit of U.S. price increases implemented during Q4'22. International ARPPC increased 2% YoY. The marginal QoQ decline in Global and International ARPPC was largely the result of foreign exchange impacts on international revenue.
- Net Hardware Units Shipped increased 15% from the prior quarter and 42% YoY reflecting a decreased number of returns in the current period, and backdrop of weaker consumer electronics demand in Q2'22. The Company's strategy to improve retail economics and reduce promotions supported ASP which increased 9% YoY.

Gross Margin (Subscription Only)	88 %	78 %	86 %	78 %

- Q2'23 gross profit margin increased to 77% from 60% in the prior year period, reflecting the uplift in subscription only margins to 88% due to higher pricing, and the benefit from a one-time adjustment which reduced product costs recorded to cost of revenue in connection with the discontinuation of certain battery-related membership benefits. Earnings Guidance⁸

For CY23, Life360 expects to deliver:

- Core Life360 subscription revenue growth in excess of 50% YoY;
- Hardware revenue growth of 0% to 5%;
- Other revenue of approximately \$26 million;
- Consolidated revenue of \$300 million - \$310 million;
- Positive Adjusted EBITDA of \$9 million - \$14 million;
- Positive Operating Cash Flow of \$5 million - \$10 million; and
- Positive Adjusted EBITDA and Operating Cash Flow for the remaining quarters of CY23.⁹

⁸ With respect to forward looking non-GAAP guidance, we are not able to reconcile the forward-looking non-GAAP adjusted EBITDA measure to the closest corresponding GAAP measure without unreasonable efforts because we are unable to predict the ultimate outcome of certain significant items, which are fluid and unpredictable in nature. In addition, the Company believes such a reconciliation would imply a degree of precision that may be confusing or misleading to investors. These items include, but are not limited to, litigation costs, convertible notes and derivative liability fair value adjustments, and gains/losses on revaluation of contingent consideration. These items may be material to our results calculated in accordance with GAAP.

⁹ Adjusted EBITDA was previously referred to as Underlying EBITDA. For definitions of EBITDA and Adjusted EBITDA and the use of these non-GAAP measures, as well as a reconciliation of Net Loss to EBITDA and Adjusted EBITDA, refer to the Non-GAAP Financial Measures section below.

Non-GAAP Financial Measures

We collect and analyze operating and financial data to evaluate the health of our business, allocate our resources and assess our performance.

EBITDA and Adjusted EBITDA

In addition to total revenue, net loss and other results under GAAP, we utilize non-GAAP calculations of earnings before interest, taxes, depreciation and amortization (“EBITDA”) and adjusted earnings before interest, taxes, depreciation and amortization (“Adjusted EBITDA”). EBITDA is defined as net loss, excluding (i) convertible notes and derivative liability fair value adjustments, (ii) provision (benefit) for income taxes, (iii) depreciation and amortization and (iv) other income (expense). Adjusted EBITDA is defined as net loss, excluding (i) convertible notes and derivative liability fair value adjustments, (ii) provision (benefit) for income taxes, (iii) depreciation and amortization, (iv) other income (expense), (v) stock-based compensation, (vi) Form 10 transaction costs, (vii) acquisition and integration costs, (viii) non-recurring workplace restructuring costs, (ix) inventory write-offs, (x) adjustment in connection with membership benefit, and (xi) gain on revaluation of contingent consideration.

The above items are excluded from EBITDA and Adjusted EBITDA because these items are non-cash in nature, or because the amount and timing of these items are unpredictable, are not driven by core results of operations and render comparisons with prior periods and competitors less meaningful. We believe EBITDA and Adjusted EBITDA provide useful information to investors and others in understanding and evaluating our results of operations, as well as providing useful measures for period-to-period comparisons of our business performance. Moreover, we have included EBITDA and Adjusted EBITDA in this media release because they are key measurements used by our management team internally to make operating decisions, including those related to operating expenses, evaluate performance, and perform strategic planning and annual budgeting. However, these non-GAAP financial measures are presented for supplemental informational purposes only, should not be considered a substitute for or superior to financial information presented in accordance with GAAP, and may be different from similarly titled non-GAAP financial measures used by other companies. As such, you should consider these non-GAAP financial measures in addition to other financial performance measures presented in accordance with GAAP, including various cash flow metrics, net loss and our other GAAP results.

The following table presents a reconciliation of net loss, the most directly comparable GAAP measure, to EBITDA and Adjusted EBITDA:
