Abbreviated explanation of results

Revenue from ordinary activities achieved by the Business totalled \$489.5 million in FY23. This result represented a decline of 31.9%, with the reduction attributable to soft market conditions caused by increasing cost-of-living pressures and consistent interest rate rises throughout the year. The decline in Revenue was driven by the Product Divisions, Mighty Ape and Kogan Marketplace, however growth was achieved in our Verticals and Kogan First.

Gross Profit of \$136.6 million declined by 26.0% year-on-year, impacted by two factors. The first factor was the reduction in Revenue mentioned above. The second factor was a lowered Gross Margin in 1HFY23 in order to correct inventory levels to the prevailing trading conditions, with inventories lowered by over 57% through FY23. Upon the correction of inventory levels, and continued growth of Kogan First and the Verticals, Gross Margin rapidly recovered, growing by 8.9pp in the 2HFY23 year-on-year.

The Business continued its operational efficiency projects during the year, achieving savings across warehousing, marketing, consulting and administrative costs. These improvements, along with strong cash flows from the correction in inventory levels, grew cash held at 30 June 2023 to \$65.4 million, from a net cash balance (after loans & borrowings) of \$31.2 million. The year also included the full repayment of all bank debt, the payment of Tranche 3 of the Mighty Ape acquisition, the acquisition of Brosa, one of Australia's largest online luxury furniture retailers, for \$1.5 million, and over \$10 million in respect of the share buy-back program that commenced in May 2023.

The Group recorded a statutory loss after tax of \$25.9 million, which reflected the following:

- Non-cash equity-based compensation expense of \$31.3 million driven by the award of options after the Group's AGM in November 2020, which are being expensed as per the accounting treatment described in the Notice of Meeting of the 2020 AGM. The strike price of these options is \$5.29¹; and
- Release of \$3.9 million of provisioning for the final payment (Tranche 4) of the Mighty Ape acquisition. The total provision value for Tranche 4 was \$11.0 million as at 30 June 2023.

These items are not considered by the Group to be representative of the underlying performance of the Business. As such, Adjusted Loss After Tax^{2,3}, of \$(7.7) million, may be a useful metric to assess underlying business performance.

Refer to the accompanying market release and the Kogan.com FY23 Results Presentation dated 22 August 2023 for further commentary.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

These preliminary consolidated financial statements relate to Kogan.com Ltd and its controlled entities ("the Group"; "Kogan.com") for the year ended 30 June 2023 and have been prepared based on the requirements of rule 4.3A of the ASX listing rules (Appendix 4E).

The accounting policies applied in these preliminary consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 30 June 2022.

In order to conform with the current year's presentation, certain comparatives have been reclassified.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Kogan.com is a company of the kind referred to in ASIC Corporations (Rounding in Financial Report) Instrument 2016/191 and in accordance with that instrument, amounts in the Financial Report are rounded to the nearest thousand dollars, except where otherwise indicated.

In preparing these financial statements, Management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Estimates and judgements that have the most significant effect on the amounts recognised in the financial statements are:

- The provisions for warranties and sales returns are based on estimates from historical warranty and sales returns data associated with similar products and services. The Group expects to incur most of the liability over the next financial year.
- The assessment of the carrying value of non-current assets, including intangible assets, is based on management's assessment of the nature of the capitalised costs and their expected continued contribution of economic benefit to the Group, having regard to actual and forecast performance and profitability.
- The provision for slow moving and obsolete inventory is based on estimates of net realisable value.
- The valuation of Goodwill based on value in use calculations.

Key estimates and judgements have not changed from those disclosed in the Group financial report for the year ended 30 June 2022.

Notes to the consolidated financial statements.

For the year ended 30 June 2023.

NOTE 2: SEGMENT INFORMATION

(i) Basis of segmentation

The Group has the following two operating divisions, Kogan.com and Mighty Ape. These operating divisions offer different products and services and are managed separately because they require different product sourcing and marketing strategies.

The Board considers the business primarily from an operating divisions perspective, and receives monthly reports that allow them to make strategic decisions about resource allocation to each. On this basis, management has identified the operating divisions as the Group's two reporting segments. The Board monitors the performance of these two segments separately. The Group does not operate under any other operating division.

The components of tax expense comprise:		
Current tax	5,544	4,694
Deferred tax	(17,761)	(11,855)
Under/(Over) provision in respect of prior year	12	(90)
Income tax (benefit) attributable to the Group	(12,205)	(7,251)

The prima facie tax on (loss)/profit from ordinary activities before income tax is reconciled to income tax as follows:

Prima facie tax payable on (loss)/profit from ordinary activities before income tax at 30% (2022: 30%):

• Consolidated Group	(11,417)	(12,812)
• Effect of expenses that are not deductible in determining taxable profit	(449)	961
• Effect of other deductibles in determining taxable profit	95	(454)

• Other	62	(60)
Income tax (benefit) attributable to the Group	(12,205)	(7,251)
The applicable weighted average effective tax rates are as follows:	32%	17%

The Group's consolidated effective tax rate for the 12 months ended 30 June 2023 was 32% (for the 12 months ended 30 June 2022: 17%). The effective tax rate is impacted by the difference in accounting versus tax treatment of the Mighty Ape Tranche 4 payment. For Australian income tax purposes, amounts paid for the acquisition of Mighty Ape shares are considered capital in nature and are therefore non-deductible, rather increasing the tax cost base of the shares. No deferred tax asset is recognised due to it being probable that the temporary difference will not reverse in the foreseeable future.

Effective tax is impacted by the differences between when an amount of revenue or expense is recognised for accounting purposes and when income and deductions are recognised under the tax laws.

NOTE 10: INTANGIBLE ASSETS (continued)

Goodwill arising on the acquisition of Mighty Ape in New Zealand of \$46.3M, has been allocated to the Mighty Ape Cash Generating Unit ("CGU") based on its expected earnings contribution to the Group arising from the acquisition.

The recoverable amount of the Mighty Ape CGU has been determined based on a value in use calculation using cash flow projections over a 5-year period based on financial budgets approved by the Group's Board for FY24 together with detailed management forecasts for future years. The projected cash flows have been updated to reflect current economic forecasts and business growth opportunities.

The Group performed its annual impairment test applying the following key assumptions:

<i>In percent</i>	FY23	FY22
Discount rate (post tax)	14.8	11.2
Terminal growth rate	2.0	2.0
EBITDA growth rate - 4 year CAGR	29.7	14.2

The increase in EBITDA growth rate is a result of the expected growth of the Mighty Ape Primate loyalty program and launch of a new Vertical in New Zealand in FY24, in addition to a number of other initiatives.

The calculation of value in use for the Mighty Ape CGU is most sensitive to the following assumptions:

- Discount rates – based on Mighty Ape's weighted average costs of capital (WACC). The discount rate was a post-tax measure estimated based on the average rates of return required by providers of debt and equity capital to compensate for the time value of money and the perceived risk or uncertainty of the cashflow, weighted in the proportion to the market value of the debt and equity capital provided.
- EBITDA growth – reflects Mighty Ape's forecasted operating and financial performance based on past experience, improvements from efficiencies and market factors such as forecast growth rate in the New Zealand online retail industry.

The estimated recoverable amount of the Mighty Ape CGU exceeded its carrying amount by \$19.5 million (2022: \$53.2 million). Management has identified that a reasonably possible change in the key assumptions identified above for financial year 2023 could cause the carrying amount to exceed the recoverable amount.

<i>In percent</i>	FY23
Discount rate (post tax)	2.2
EBITDA growth rate - 4 year CAGR	(6.4)

Merger reserve

The acquisition of Kogan Operations Holdings Pty Ltd by Kogan.com Ltd has been treated as a common control transaction at book value for accounting purposes, and no fair value adjustments have been made. Consequently, the difference between the fair value of issued capital and the book value of net assets acquired was recorded within a merger reserve of \$131.8 million.

Share-based payments reserve

The reserve of \$71.8 million (FY22: \$41.3 million) has been used to recognise the value of equity-based compensation provided to employees as part of their remuneration. The Group measured the cost of equity-based compensation with employees by reference to the fair value of the Ordinary Shares at the date at which they were granted. The fair value has been determined using a discounted cash flow valuation model, taking into account the terms and conditions upon which the equity instruments were granted.

Share buy-back

The Group commenced an on-market share buy-back program in May 2023, anticipated to remain ongoing until May 2024. The Group purchased \$10.8 million of shares by 30 June 2023, resulting in a reduction of Issued Capital.
