REVIEW OF OPERATIONS

A review of the Company's operations during the year, and the results of those operations, are as follows:

The Company was incorporated on 4 November 2021. It listed on the Australian Securities Exchange (**ASX**) on 16 December 2021 on a conditional and deferred basis and commenced trading on a normal basis on 22 December 2021.

The Company is one of Australia's leading alternative real estate investment managers with extensive operating experience. The Group invests in real estate private credit, opportunistic real estate private equity, income producing commercial real estate and build-to-rent residential. Qualitas manages predominantly discretionary funds on behalf of institutional, wholesale and retail clients in Australia, Asia, and Europe.

Qualitas' objective is to provide Shareholders with attractive risk-adjusted returns through a combination of regular and growing dividend income and capital growth.

FUNDS MANAGEMENT

Real Estate Private Credit

Funds¹ managed by Qualitas invest in commercial real estate credit on behalf of Fund investors, including:

- senior and mezzanine loans secured by stabilised investment properties, construction projects, completed high-density residential dwellings and pre-development land; and
- lending into growing real estate sectors benefitting from strong structural growth, including build to rent (**BTR**) assets.

Real Estate Private Equity

Funds managed by Qualitas invest in real estate assets on behalf of Fund Investors with two key investment strategies across its core equity and opportunistic equity funds. Core equity funds comprise income-based Funds focused on 'needs' sectors, such as BTR and manufacturing assets, non-discretionary consumer staples, logistics and convenience retail assets, that display defensive income characteristics. They include attractive rental escalations and resilient cashflows, to provide compelling risk-adjusted returns for Fund investors.

Opportunistic equity funds comprise total return Funds focused on situational and opportunistic real estate investing, including development joint ventures, recapitalisations, distressed situations and structured or preferred equity investments.

Co-Investments and Fund Underwriting Activities

As part of Qualitas' investment management business, Qualitas utilises its balance sheet capital in support of its Funds, in order to grow its funds under management (**FUM**) and Management Fees by:

- co-investing into Funds alongside Fund investors; and
- underwriting for a fund prior to the completion of a capital raising for a fund or the launch of a new fund, following which the fund will take out or refinance the underwriting position (including by repayment or acquiring or directly pursuing the investment opportunity).

Key activities for the period include:

- Total committed funds under management increased to \$6.1bn as at 30 June 2023, up 43% on FY22. Qualitas has been successful in executing its growth strategy of attracting large mandates.
- \$3.0 billion capital deployed in FY23, up 55% on FY22 with average transaction size excluding 'AURA by Aqualand' increasing by 44% reaching \$73m.
- Funds management revenue increased to \$44.1m, up 25% on FY22 driven by strong growth in FUM and deployment.
- Funds management EBITDA excluding performance fees of \$26.8m increased 101% on FY22 with margin expansion of 11% on FY22. This is reflective of improvement in earnings quality underpinned by scale efficiency and utilisation of balance sheet capital.
- Normalised NPBT of \$31.1m, down 9% driven by lower performance fees recognised in FY23 due to timing of relevant fund maturities. Normalised NPBT excluding performance fees is up 88% on FY22, reflective of growth in core recurring funds management earnings. Statutory NPBT for FY23 of \$31.8m (FY22: \$13.5m).
- Statutory NPAT of \$22.5m, up 19% on FY22.

1. Any unlisted and listed funds or other non-fund mandates currently being managed by Qualitas and any unlisted or listed funds of other non-fund mandates that may be established and managed by Qualitas in the future

DIRECTORS' REPORT

DIRECT LENDING

Arch Finance

Qualitas' direct lending subsidiaries, Arch Finance and Peer Estate, provide commercial real estate debt to smaller borrowers and, in the case of Peer Estate, peer-to-peer platform for individual wholesale investors to provide debt financing.

DIRECTORS' REPORT

STRATEGY AND OUTLOOK

The Company acts as an investment manager with access to diversified investment opportunities across commercial real estate markets, capital structures, fund types and real estate sub-asset classes. The Company will continue to focus on growing the funds management platform and improving efficiency through attracting large capital mandates from new and existing investors and deploying into large scale investments.

While interest rates and inflation remain elevated, the Company is observing less credit availability in commercial real estate market particularly in the residential and development financing sector. Long term supply shortage in the residential sector and rising construction costs create conditions that may give rise to price growth for multi-dwelling residential assets. Well capitalised alternative financiers such as Qualitas are well positioned against the current macroeconomic backdrop as the dislocated liquidity market presents outsized return opportunities. The investment returns on Qualitas' credit funds are delivering positive inflation adjusted returns for investors on a compounding basis, while Qualitas' equity funds have the benefit of opportunistically sourcing investments with recalibrated asset values, with premiums being paid for liquidity. Qualitas' BTR equity funds aim to institutionalise what may be one of the largest and most recession-proof income streams with growth of the sector underpinned by long-term supply shortage.

The Company's operations during the period performed as expected in the opinion of the Directors.

RISKS

The Group actively identifies, assesses and manages risks consistent with its risk management framework. The Group has a strong focus on risk mitigation and management through its robust risk management and governance frameworks, and its operating structure and procedures. The following list is not a comprehensive list but summarises some of the Groups' key risks and the way they are managed.

Failure to attract and / or retain Fund investor capital

The Group's business relies heavily on attracting new fund investor capital, and retaining fund investor capital, in order to generate fees from its funds. If clients do not continue to invest in Qualitas funds or if new investors do not choose to invest in Qualitas funds, the growth in the Group's revenue may be slower than expected or may even decline.

The Group manages this risk via business development and client servicing. The Group invests in people and marketing to support its business development and client servicing, and ensures the Group adheres to its risk management framework across the investment lifecycle. Regular reporting to senior management and the Board maintains accountability across the Group.

Changing regulatory environment

The provision of financial services is highly regulated. Financial services regulation is complex and is impacted by legislation, regulation published regulatory guidance as well as regulatory views, all of which may change from time to time.

All regulatory approvals for the continued operation of the Groups' business, including licences or exemptions from licensing for Qualitas and Qualitas Funds have been obtained and Qualitas is not aware of any circumstances which are likely to give rise to the cancellation or suspension of any of those regulatory approvals.

The Group manages this risk through its internal full time legal and compliance departments, supported by regular employee formal and informal training programs. The Group further supports its regulatory management through a panel of reputable legal, tax, accounting and insurance advisors along with internal and external audit controls. Appropriate policies and procedures are in place across the Group, with transparent reporting across the Group to senior management and the Board.

Economic risks

Changes in general economic conditions, both domestic and global, weakening or downturn in the financial services or funds management industries, introduction of tax reform, new legislation, employment rates, movements in interest, credit spreads, equity risk premiums, corporate failure rates, inflation rates, currency exchange rates and national and international political circumstances may have an adverse effect on the Group's activities, as well as on its ability to fund those activities.

The Group manages this risk through its Investment Committee, that oversees investments of the Group to ensure appropriate strategies are in place to address market risk. Ongoing reviews and market intelligence are undertaken with regular and transparent reporting to senior management and the Board, as relevant.

DIRECTORS' REPORT

Climate-related and environmental risks

There are a number of climate-related factors that may affect the Group's business. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water scarcity, temperature extremes, frosts, earthquakes and pestilence) may have an adverse effect on Qualitas, or Fund investments.

The Group believes rising global carbon emissions and consequent global warming represents the greatest risk we are likely to experience this century to both investment markets and the physical well being of the global community. Accordingly, one of the Group's goals is focused on how, as a corporate citizen, it can achieve carbon neutrality, whilst at the same time influence partners and borrowers to invest in real assets with a strong sustainability focus.

Qualitas achieved Climate Active¹ certification in June 2022.

Qualitas is a signatory to the United Nations supported Principles for Responsible Investment (UNPRI). As a signatory, the Group is committed to implementing its principles which are consistent with the Group's core ESG beliefs.

The Group believes it has a significant role to play in supporting and encouraging sponsors and borrowers to invest in real assets with a strong sustainability focus. As an equity investor or joint venture partner Qualitas can exert more influence with respect to sustainability outcomes. As a lender, Qualitas' ability to influence is more limited and involves, for example, advocating for the financial and risk management benefits of sustainable development and in some cases may involve requirements around meeting minimum sustainability parameters. The Group believes that material progress in the transition to low carbon investment activities can only be made with a transparent and robust reporting system to inform investment policy.

Information technology risk, cyber risk and network integrity risk

The Group's information and technology systems, or those of its suppliers or other counterparties, may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorised persons and security breaches, usage errors, power outages and catastrophic events.

The Group manages this risk by ensuring appropriate IT protection software and detection systems are in place, along with back-up data retention. The Audit, Risk and Compliance Committee regularly receives and reviews reports on cyber risk and IT integrity.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than set out below, in the opinion of the Directors, there were no other significant changes in the state of affairs of the Group that occurred during the current reporting period.

PRINCIPAL ACTIVITIES²

The Company is an Australian alternative real estate investment manager with committed FUM of approximately \$6.1 billion as at 30 June 2023 across debt and equity Funds and other mandates. The Company specialises in managing funds focused on the real estate private credit and real estate private equity sectors. The Company Funds platform consists of 17 active funds, comprising 7 specialist commercial real estate (CRE) credit funds, and 10 specialist real estate private equity funds, which, together with other investor and non-fund mandates (Funds), manage a total \$6.1 billion of FUM. Additionally, the Company holds interests in its Funds alongside institutional, wholesale and retail investors (Fund Investors), totaling \$38.2 million (Co-Investments).

Arch Finance Unit Trust is a wholly owned entity of the Company. Arch Finance is a non-bank commercial real estate mortgage originator and lender. Arch Finance manages and originates these loans via the Arch Finance Warehouse Trust, which provides first mortgage loans secured against predominantly established income producing or owner-occupied commercial real estate.

Options for Company Shares

On 1 August 2022 the Company granted options to Abu Dhabi Investment Authority (ADIA) under which ADIA may acquire up to 32,630,374 new ordinary shares in Qualitas, conditional on further investment mandates from ADIA of up to \$1 billion with the Group, within the option term. The exercise price of each option is the VWAP³ (per share) of shares issued since the IPO of Qualitas. The expiry date of the options is 1 August 2024⁴.

On 8 March 2023 the Company issued 817,299 options to non-executive employees to acquire ordinary shares in the Company, at an exercise price of \$2.75, under the Company's employee equity plan⁵. The options expire on 8 March 2033.

1. Climate Active is an Australian entity that drives voluntary climate action. Climate Active certification is awarded to businesses and organisations that have reached a state called carbon neutrality, in accordance with Climate Active's parameters.

2. As at 30 June 2023.

3. Options strike price is the volume weighted average price of shares issued since the IPO of Qualitas. Hence it is subject to future issuances of Qualitas shares. The current strike price of \$2.50 includes the issue of 2,016,053 Loan Shares on 6 December 2022.

4. Refer to the Company's ASX announcement on 2 May 2023.

5. Refer to Item 6 of the Company's 2022 AGM Notice.

DIRECTORS' REPORT

AFTER BALANCE DATE EVENTS

Subsequent to 30 June 2023, the Group secured an increased capital commitment from an institutional investor of \$750 million in the Qualitas Construction Debt Fund II supporting the Fund to capitalise on upcoming attractive opportunities in the CRE private credit sector. This increases the size of the Fund to approximately \$1.95 billion of committed capital and Qualitas will increase its co-investment in the Fund by a further \$5 million to \$10 million total commitment.

The Group has also since balance date secured an additional \$700 million from a wholly owned subsidiary of the Abu Dhabi Investment Authority (ADIA) for the existing Qualitas Diversified Credit Investments Fund (QDCI). The additional commitment brings QDCI's committed capital to \$1.45 billion and Qualitas committed FUM to \$7.5 billion. In August 2022, Qualitas granted options to ADIA under which ADIA may acquire up to a maximum of 32,630,374 new ordinary shares. This new mandate means ADIA can exercise its options to acquire an initial tranche of 22,841,263 ordinary shares at a strike price currently at \$2.50 per share¹ until the options expiry date of 1 August 2024.

Subsequent to year end, on 23 August 2023, the Directors declared a fully franked dividend of 5.5 cents per share which amounted to \$16,280,833 to be paid on 3 October 2023 with a record date of 12 September 2023.

There were no other matters or circumstances that have arisen since 30 June 2023 that has significantly affected, or may significantly affect:

- i) the operations of the Group in future financial period, or
- ii) the results of those operations in future financial period, or
- iii) the state of affairs of the Group in future financial period.

Likely developments in the operations of the Group, and the expected results of those operations in future financial years, have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION

The operations of the Group are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

DIVIDENDS

On 18 August 2022, the Directors declared a fully franked dividend of 4 cents per share which amounted to \$11,760,000 to be paid on 8 September 2022 with a record date of 24 August 2022.

On 22 February 2023, the Directors declared a fully franked dividend of 2 cents per share which amounted to \$5,920,321 to be paid on 4 April 2023 with a record date of 7 March 2023.

INDEMNIFICATION AND INSURANCE FOR DIRECTORS AND OFFICERS

The Group has entered into insurance contracts, which indemnify directors and officers of the Group, and its controlled entities against liabilities. In accordance with normal commercial practices, under the terms of the insurance contracts, the nature of the liabilities insured against and the amount of premiums paid are confidential. An indemnity agreement has been entered into between the Group, officers and each of the Directors named earlier in this report. Under the agreement, the Group has agreed to indemnify the Directors and officers against any claim or for any expenses or costs, which may arise as a result of the performance of their duties as directors or officers to the extent allowed by law.

NON-AUDIT SERVICES

During the year KPMG, the Group's auditor, has performed certain other services in addition to their statutory duties. Details of the audit fee and non-audit services are set out in note 33 on page 65 to the financial report. The Board has considered the non-audit services provided during the year by the auditor and, in accordance with written advice provided by resolution of the Audit, Risk and Compliance Committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001 for the reason that all non-audit services were subject to the corporate governance procedures adopted by the Group and have been reviewed by the Audit, Risk and Compliance Committee to ensure they do not impact the integrity and objectivity of the auditor.

ROUNDING OF AMOUNTS TO THE NEAREST THOUSAND DOLLARS

The Group is a Group of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (**ASIC**) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

REMUNERATION REPORT

The Remuneration Report is set out on pages 9 to 20 and forms part of this Directors' Report.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 21.

This report is made in accordance with a resolution of the Directors of the Company.

AUDITED REMUNERATION REPORT

30 JUNE 2023

LETTER FROM THE CHAIR OF THE NOMINATION, REMUNERATION AND GOVERNANCE COMMITTEE OF QUALITAS

Dear Securityholders,

On behalf of the Board of Directors, I am pleased to present the Company's Remuneration Report.

There have been some outstanding achievements over the past year, which delivered Qualitas' strong results year-on-year. The Board would like to congratulate the whole team on their hard work and the contributions they have made throughout the year.

Notable financial highlights for the year ended 30 June 2023, include:

- An increase in total committed funds under management (FUM) to \$6.1 billion. This was up 43 per cent on FY22, demonstrating Qualitas' success in executing its growth strategy of attracting large mandates.
- The deployment of \$3.0 billion in capital, up 55 per cent on FY22. Supporting this was a 44 per cent increase in the average transaction size (excluding 'AURA by Aqualand') which reached \$73 million.
- Strong growth in funds management revenue. Driven by the increased FUM and deployment, revenue increased to \$44.1 million, up 25 per cent on the prior corresponding period.

There were many more highlights during the year that underpinned the results.

FY23 REMUNERATION OUTCOMES

Qualitas' Executive Remuneration Framework aims to be market competitive and to align performance measures with the Group's strategic objectives, values and behaviours, and risk culture. We believe it is appropriately aligned with the interests of shareholders and investors in our funds.

The key components of the Framework are Fixed Remuneration, Short-Term (STI) and Long-Term Incentives (LTI), and in some instances, a legacy entitlement of Fund Participation Rights.

In relation to Executive pay in FY23, the following key comments are made, with further details provided within this Report:

- Andrew Schwartz (Group Managing Director and Co-Founder) (**Group Managing Director**) did not participate in the FY23 STI plan. His significant shareholding in the Group ensures continued alignment with long-term shareholder outcomes.
- Mark Fischer (Global Head of Real Estate and Co-Founder) and Philip Dowman (Chief Financial Officer) participated in the FY23 STI plan and achieved vesting outcomes of \$452,804 and \$82,253 respectively. The Board views these outcomes as appropriate in the context of their individual performance as well as the performance of the Group.
- The Executive LTI was offered for the first time in FY23 under the Qualitas Employee Equity Plan. The LTI for Executive employees (except for Andrew Schwartz) was offered in the form of Performance Rights with a performance period from 1 July 2022 to 30 June 2025.
- As set out in this report and prior Company disclosures, Andrew Schwartz does not participate in the LTI under the Qualitas Employee Equity Plan. In FY23, he participated in an LTI under the Loan Share Plan for the first time, which also has a performance period from 1 July 2022 to 30 June 2025.
- As outlined in the Prospectus and the FY22 Remuneration Report, our Executive key management personnel (KMP) have legacy interests in 'Fund Participation Rights', connected to the performance of certain Qualitas Funds.

We will continue to review and assess the effectiveness of our remuneration framework and policies to ensure they remain appropriate for Qualitas, market competitive, and align with shareholder expectations.

On behalf of the Board, I invite you to read the Remuneration Report and welcome any feedback you may have.

AUDITED REMUNERATION REPORT

The Company was incorporated on 4 November 2021 and first listed on the Australian Securities Exchange on 16 December 2021.

This Remuneration Report captures the Company's remuneration arrangements for the year ended 30 June 2023. Comparatives are for the period from incorporation to 30 June 2022. The Remuneration Report is presented in accordance with the requirements of the *Corporations Act 2001* (Cth) (the Act). It has been audited as required by Section 308(3C) of the Act.

1) KEY MANAGEMENT PERSONNEL

The remuneration report details the KMP remuneration arrangements for the Group, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

KMP are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including all directors. They include Non-Executive Directors and senior executives who fall within those criteria. For the year ended 30 June 2023, KMP were:

Table 1: Listing of KMP

Non-Executive Directors	Role	Term
Andrew Fairley AM	Independent, Non-Executive Chairman	Full year
Mary Ploughman	Independent Non-Executive Director	Full year
Michael Schoenfeld	Independent Non-Executive Director	Full year
JoAnne Stephenson	Independent Non-Executive Director	Full year
Brian Delaney	Non-Executive Director	Full year

Executive Director	Role	Commenced as KMP
Andrew Schwartz	Group Managing Director	Full year

Other Executive KMP	Role	Commenced as KMP
Mark Fischer	Global Head of Real Estate	Full year
Philip Dowman	Chief Financial Officer	Full year

The term Executive KMP refers to the Executive Director and Other Executive KMP.

We note that there were no changes in KMP or other material matters from close of reporting period to publishing of the report.

2) EXECUTIVE REMUNERATION GOVERNANCE AND STRUCTURE

Qualitas recognises the importance of retaining key talent in a globally competitive market and aligning remuneration with the interests of shareholders and investors. To assist the Board, the NRG Committee and Management to implement this remuneration philosophy, Qualitas has a Remuneration Policy that sets out a framework for the group to operate within. The policy provides the following key principles that guide Qualitas' reward structures:

- ensuring alignment with Qualitas' vision, values, and strategy, and encouraging appropriate behaviours;
- aligning the interests of Employees and Directors with company performance and achievement of business goals (both, financial and non-financial), without rewarding misconduct, or conduct negatively impacting Qualitas' reputation;
- promoting diversity and equality;
- ensuring easy to understand, and transparent, remuneration policies and practices designed to attract, retain and motivate Employees and Directors;
- including risk gateways to ensure participants act within agreed risk parameters;
- balancing competitiveness, with economical value to shareholders, in changing market conditions, recognising that for truly critical talent, generous packages should be favoured, but weighted to the long-term; and
- meeting high standards of governance and complying with all relevant legal and regulatory provisions, including having regard for the expectations of an ASX-listed entity.

The Board is accountable to Qualitas' shareholders and reviews and approves the recommendations of the NRG Committee on Qualitas' remuneration policies, incentive programs and remuneration of the Group Managing Director.

The NRG Committee's role and objectives¹ are to support and advise the Board in fulfilling its responsibilities to shareholders and employees of the Group in relation to remuneration. The NRG Committee oversees the Group's overall remuneration and incentives framework and policies, including giving appropriate consideration to the Company's performance and objectives, employment conditions and remuneration relativities.

The members of the NRG Committee are Mary Ploughman (Chair), Andrew Fairley AM and Brian Delaney.

Principles used to determine the nature and amount of remuneration

The Board, with the assistance of the NRG Committee partnered with management to structure an Executive Remuneration Framework and policy that seeks to be market competitive and to align performance measures to the achievement of the Group's strategic objectives. The executive remuneration framework operates within the key principles of the Remuneration Policy.

1. Further detail can be found in the NRG Charter on the Investor Centre on the Company website.

AUDITED REMUNERATION REPORT

3) EXECUTIVE REMUNERATION FRAMEWORK

The remuneration framework is intended to be commercially appropriate and designed to attract, retain and motivate staff, and be consistent with the objectives outlined in the business strategy. This is done through an appropriate balance between variable and fixed components and a direct connection with the remuneration of individual performance and Qualitas' performance.

The key components of the Company's remuneration framework are summarised below.

Table 2: Executive Remuneration Framework

Component	Purpose
<p>Fixed Remuneration</p> <p>Delivered in Cash, comprising:</p> <ul style="list-style-type: none"> • Base salary; • Statutory benefits (superannuation); • Other agreed benefits. 	<p>Primary reward for performing duties of job, and defined according to role, qualifications, experience, and skills against appropriate comparator group. This is reviewed annually.</p> <p>Benchmarked against comparator data, and purposefully set above median, in order to attract, retain and motivate the appropriate talent.</p>
<p>Short-Term Incentive (STI)</p> <p>Delivered in Cash, and 50% of balance over \$100,000 in Deferred Equity over two years.</p> <p>Performance tested against a scorecard of financial and non-financial measures.</p> <p>The Group Managing Director did not participate in the STI in FY23.</p>	<p>Reward to encourage performance against identified annual short-term financial and strategic objectives.</p> <p>Inclusion of risk gateway to foster acceptable risk behaviour.</p> <p>Deferred component encourages longer-term alignment with shareholders and retention.</p>
<p>Long-Term Incentive (LTI)</p> <p>Delivered in Performance Rights, subject to 3-year performance conditions to KMP except for the Group Managing Director.</p> <p>The Group Managing Director participates in an LTI under the Loan Share Plan, as described further in this report.</p> <p>The first grant was made in FY23.</p>	<p>Reward to encourage performance against long-term group-wide objectives, to align key individuals with shareholder outcomes, and to encourage retention.</p>

4) EXECUTIVE SHORT-TERM INCENTIVE (STI) PLAN

The table below provides an explanation of the terms and conditions applying to the FY23 STI.

Overview of the STI	The STI is an 'at-risk' component of senior executive remuneration whereby, if the applicable performance conditions are met, the first \$100,000 of any STI award will be paid in cash, as well as 50% of the remaining award. The other 50% of the remaining award will be paid in equity in the form of Performance Rights, which will be deferred for two further years.
Participation	Senior management and other selected employees are eligible to participate in the STI, including Global Head of Real Estate and Chief Financial Officer. Group Managing Director did not participate in the FY23 STI.
Performance period	1 July 2022 to 30 June 2023.
FY23 STI opportunity (maximum)	Global Head of Real Estate: 150% of Fixed Remuneration Chief Financial Officer: 50% of Fixed Remuneration
Performance conditions	The Board has discretion to adjust STI outcomes against conduct and financial performance gateway conditions. To receive payments under the FY23 STI, Executive performance is assessed against Personal KPI's (50%) and Group KPI's (50%), which are a combination of financial and non-financial performance conditions. The Board recognises that variable remuneration structures must encourage appropriate behaviours and not be singularly focused on single-year financial objectives.
Delivery of FY23 STI	The first \$100,000 of any vested STI award will be paid in cash, as well as 50% of the remaining award, and the remaining 50% in the form of Share Rights which will vest following a deferral period of two years (Deferred Component).
Deferred STI	The Deferred Component of the STI will be delivered in Share Rights. A Share Right is a conditional entitlement to receive a share. The number of Share Rights allocated will be calculated by dividing the Deferred Component by the 5-day VWAP immediately following release of FY23 results. Subject to the participant's continued employment for a further two years, the Share Rights will vest and entitle the participant to the equivalent number of ordinary shares. Share Rights are granted for nil consideration and no amount is payable on vesting. Share Rights do not carry dividend or voting rights prior to vesting.
Treatment of Share Rights on cessation of employment	Unless the Board determines otherwise, all Share Rights will immediately lapse upon cessation of employment prior to the end of the performance period.
Change of control	The Board may determine that all or a specified number of a senior executive's Share Rights will vest where there is a change of control event in accordance with the Qualitas Employee Equity Plan (QEEP) rules.
Clawback and preventing inappropriate benefits	The QEEP rules provide the Board with broad clawback powers if, for example, the senior executive has acted fraudulently or dishonestly or there is a material financial misstatement.

AUDITED REMUNERATION REPORT

4) EXECUTIVE SHORT-TERM INCENTIVE (STI) PLAN CONTINUED

FY23 STI PLAN OUTCOME

The Executive STI plan is intended to reward outperformance. Company and personal KPI's threshold and stretch targets set a high performance benchmark.

Company gateways:

Both the gateways were assessed as met:

- Financial gateway (achievement of financial targets) was achieved and assessed with reference to audited financial results.
- Conduct gateway were assessed as achieved for FY23. The conduct gateway was assessed with reference to Qualitas conduct, risk and compliance protocols all met.

Company KPIs (50% weighting):

Each performance condition must meet threshold (50%) to contribute to STI outcome. Based on the assessment of performance against Company KPIs, the outcome was between threshold and met for this component.

Financial Measures (25%) Threshold: 50% Stretch: 100%	Performance was measured against Net Profit Before Tax, Funds Under Management growth and IPO proceeds utilisation.
Leadership, Culture and ESG (12.5%) Threshold: 50% Stretch: 100%	Performance was measured against leadership and culture engagement survey, and Reconciliation Action Plan progress.
Capital and Governance (12.5%) Threshold: 50% Stretch: 100%	Performance was measured against strategic initiatives, investment mandates and risk tolerance (risk metric met threshold).

Individual KPIs (50% weighting):

Individual KPIs within the executive's influence and line of sight were set for Mark Fischer and Philip Dowman at the start of FY23. Targets were set in areas including IPO revenue proceeds, key strategic priorities and performance was assessed at the end of the year. Based on the assessment of performance against individual KPIs, Mark Fischer and Philip Dowman exceeded and met respectively (out of a maximum of 50%) this component.

Overall FY23 Outcomes

The following STI payments were approved by the Board for the following Executive KMP based on the assessment of the FY23 outcomes.

Table 4: FY23 STI outcomes

Name or Position	STI Opportunity \$	STI Outcome \$	STI Outcome	STI forfeited
Mark Fischer	\$900,000	\$452,804	Met	\$447,196
Philip Dowman	\$192,500	\$82,253	Mainly met	\$110,247

AUDITED REMUNERATION REPORT

5) EXECUTIVE LONG-TERM INCENTIVE (LTI) PLAN

The Company has established the Executive LTI plan to assist in the motivation, retention and reward of eligible employees.

The Executive LTI is designed to align the interests of executives with the interests of shareholders by providing an opportunity for employees to receive an equity interest in the Company subject to satisfaction of key performance conditions. Please note due to Andrew Schwartz's substantial Company shareholding, he is not eligible to participate in the Executive LTI plan to receive a grant of Performance Rights, however instead participates in the LTI Loan Plan, described below. The LTI Loan Plan contains an additional inherent condition (beyond the Executive LTI plan), as the value of the Loan must be repaid before the LTI Loan Plan will deliver any value.

Qualitas made its first grant of rights under the Executive LTI plan in FY23 (**FY23 Executive LTI Grant**). Key details of the FY23 Executive LTI Grant are set out below.

AUDITED REMUNERATION REPORT

5) EXECUTIVE LONG-TERM INCENTIVE (LTI) PLAN CONTINUED

LTI LOAN PLAN

The Group Managing Director's LTI arrangement differs to the other Executives. This is because the Group Managing Director is a substantial shareholder of the Company and as a result, would not be able to participate in the FY23 Executive LTI without significant detriment, as any equity under the Executive LTI plan would be taxed at grant.

Instead, the Group Managing Director participated in the LTI Loan Plan, that was approved by shareholders at the 2022 Annual General Meeting (AGM). Under the LTI Loan Plan and in accordance with shareholder approval, the Group Managing Director was entitled to acquire loan shares in Qualitas.

The table below provides a summary of the terms and conditions of the Loan Plan.

Table 6: Loan Plan summary

Overview of the Loan Plan	<p>The LTI is an 'at-risk' component of senior executive remuneration. Under the Loan Plan, Loan Shares are allocated for market value consideration. A Loan is provided by the Company to fund the acquisition price of the Loan Shares.</p> <p>The Loan Shares may generally not be sold or otherwise transferred until they vest and the Loan is repaid.</p>
Loan terms	<p>The Loan is:</p> <ul style="list-style-type: none"> • interest free; • limited recourse; and • repayable on the earliest of: <ul style="list-style-type: none"> > the date Loan Shares are forfeited under the Loan Plan; > the date the Loan Shares are sold; > the expiry of the Loan (3.5 years from grant); and > any other date agreed between the Company and the Group Managing Director. <p>The Loan balance is repaid by (i) applying any after-tax dividends received on the Loan Shares; (ii) applying after-tax proceeds from the disposal of vested Loan Shares, and (iii) the Group Managing Director may choose to self-fund the repayment of the outstanding Loan balance.</p>
FY23 LTI opportunity	<p>150% of Fixed Remuneration.</p> <p>An independent valuer was engaged to provide an indicative valuation of a Loan Share. This valuation valued one Loan Share at 30.61% of the market value of one fully paid ordinary share in the Company for the FY23 grant. Therefore, the value of the Loan provided was \$4,899,816. An updated valuation will be completed prior to any future grants.</p>
Vesting conditions	<p>Loan Shares will vest following the end of the Performance Period, subject to the Group Managing Director's continuing employment and to the extent that the Performance Conditions are satisfied.</p>
Performance Period	<p>Three years, commencing on 1 July 2022 to 30 June 2025.</p>
Performance Conditions	<p>The Loan Shares will vest depending on whether a mix of financial and non-financial measures are met over the performance period. The performance conditions are the same as for the Executive LTI Performance Conditions outlined above in table 5.</p>
Treatment of Loan Shares on cessation of employment	<p>Unless the Board determines otherwise, if the Group Managing Director ceases employment during the Performance Period as a 'good leaver', he will be entitled to retain all unvested Loan Shares, in accordance with the Loan Plan rules. Any outstanding Loan balance must be repaid within six months from the date of vesting.</p> <p>If the Group Managing Director ceases employment in any circumstances where he is not considered a 'good leaver', his unvested Loan Shares will be forfeited on cessation of employment and surrendered in full satisfaction of the Loan, unless the Board determines otherwise.</p>
Change of control	<p>The Board may determine that all or a specified number of unvested Loan Shares will vest where there is a change of control event in accordance with the Loan Plan rules.</p>
Clawback and preventing inappropriate benefits	<p>The Loan Plan rules provide the Board with broad clawback power if, for example, the Group Managing Director has acted fraudulently or dishonestly or there is a material financial misstatement.</p>

AUDITED REMUNERATION REPORT

5) EXECUTIVE LONG-TERM INCENTIVE (LTI) PLAN CONTINUED

LTI LOAN PLAN CONTINUED

The Board determined that the LTI Loan Plan was appropriate for the Group Managing Director and will approve the vesting of the Loan Shares at the conclusion of the FY23 three year performance period of 1 July 2022 to 30 June 2025. The performance and vesting of the Loan Shares to the Group Managing Director will be assessed against the Performance Measures set out above in Table 5.

The Board views the Performance Measures as an appropriate balance of financial and non-financial performance measures. The number of Loan Shares that vest will depend on the level of performance achieved, and the Board retains overall discretion to determine whether vesting of Loan Shares is appropriate.

Further detail on the LTI Loan Plan is set out on pages 12 to 17 of the Qualitas 2022 Notice of Annual General Meeting and Explanatory Notes.

Other legacy awards

Employee Equity Award

As outlined in the Prospectus, selected employees were granted Share Rights at Listing which will vest in two tranches; 50% on the third anniversary of the Listing Date, and the remaining 50% on the fifth anniversary of the Listing Date, subject to the continued tenure of the participants (**Employee Equity Award**).

Philip Dowman was one of the participants in this award. He was granted Share rights with a face value of \$125,000.

Fund Participation Rights

One method used by Qualitas to incentivise key individuals to maximise performance of Funds managed, and to retain these key individuals for the life of the investment, is to award Fund Participation Rights.

Fund Participation Rights are a share of performance fees linked to the performance of a Fund, or other investment vehicle, managed by Qualitas with or without conditions, and distributed as cash payments, when the Fund matures (or similar milestone event occurs), subject to individuals remaining employed with Qualitas at the time.

While the terms of Fund Participation Rights can differ based on the circumstance, fees are typically:

- Only payable based on Performance Fee calculation reflected in final audited financial statement of the Fund, prepared in accordance with Fund's governing documents, including Information Memorandum, Trust Deed and associated documents;
- Only payable once all Performance Fees earned by Qualitas from the Fund have been received in cash;
- Only payable subject to there being no future claims against Qualitas (e.g. contingent liability), with Qualitas completely 'off-risk' on the Fund; and
- Only payable subject to the Participant's continued employment until the payment date.

As outlined in the Prospectus, Fund Participation Rights have historically been a significant component of remuneration for many Qualitas executives, including the current Executive KMP.

As a result of this, the Executive KMP have a significant value of legacy Fund Participation Rights which remain on foot. The values of these awards are variable based on performance of the individual Funds, and subject to continued employment at the date each relevant Fund matures. The Funds are scheduled to mature between January 2024 and September 2027.

Table 7: Fund Participation Rights

Fund (Maturity Date)	Andrew Schwartz \$	Mark Fischer \$	Philip Dowman \$
Total	7,616,083	5,449,770	217,721

As outlined in the Prospectus, Mark Fischer also has legacy entitlements to receive 'success payments' to the extent certain agreed Qualitas Fund milestones are met. The total value of these success payments is not expected to exceed \$300,000 and would only be paid due to successful achievement of specific milestones. During the current reporting period, Mark Fischer received a payment of \$105,000. A further \$45,000 will be paid in FY24.

Chair of each Board committee	21,000	20,000

In addition to the responsibilities associated with being a Board member, Mr Delaney will be chairing the firm's Capital Advisory Group, which has an associated fee of \$20,000 (increased to \$21,000 from 1 January 2023), representing additional time commitments and responsibilities. Mr Schoenfeld will be serving as a member of various Fund investment committees (in addition to chairing the Investment Committee of Qualitas), which has an associated fee of \$25,000 (increased to \$26,250 from 1 January 2023), representing additional time commitments and responsibilities in relation to Fund investment committees.

Non-Executive Directors may be reimbursed for all travel, hotel and other expenses properly incurred by them in attending and returning from meetings of the Directors or any committee of the Directors or general meetings of the Company or otherwise in connection with the Company's business.

Non-Executive Directors may be paid such additional or special remuneration if they, at the request of the Board, perform any extra services or make special exertions outside the scope of the ordinary duties of a Director. Expense reimbursement fees, special exertion fees and the value of equity-based remuneration will not be included in the aggregate maximum amount paid to all Non-Executive Directors.

There are no retirement benefit schemes for Non-Executive Directors, other than statutory superannuation contributions.

7) EMPLOYMENT AGREEMENTS

Remuneration and other terms of employment for Executive KMP are formalised in employment agreements which outline their duties and remuneration. All employment agreement term lengths are open-ended (i.e., ongoing until notice is provided by either party).

In the case of termination of employment by the Company or by the Executive, the Company may:

- in lieu of part or all of the notice period, elect to pay to the Executive an amount equivalent to the Fixed Remuneration for that part or all of the period of notice not given or required to be served (and, if the Company does so, the Executive's employment terminates on the date the Company notifies the Executive of its election); and
- require the Executive to perform only those Duties determined by the Company, or no Duties, during any notice period.

Following review, KMP base remuneration for FY24 has increased by 2% per Executive member (including KMP), except for the Chief Financial Officer who received a 7.8% increase for FY24 to meet market comparable salaries.

The Company was incorporated on 4 November 2021 (comparative information reflects this period) and operations commenced on 22 December 2021.

a) Statement of compliance

The consolidated general purpose financial report have been prepared in accordance with Australian Accounting Standards (**AASBs**), other authoritative pronouncements of the Australian Accounting Standards Board (**AASB**) and the Corporations Act 2001 in Australia. The consolidated financial report comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (**IASB**).

The Group is of a kind referred to in ASIC *Corporations Instrument* 2016/191 and in accordance with the legislative instrument amounts in the consolidated financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

This consolidated financial report was authorised for issue by the Directors on 23 August 2023.

b) Basis of measurement

The consolidated financial report has been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value in the consolidated statement of financial position. The statement of financial position is presented on a liquidity basis.

c) Functional and presentation currency

This consolidated financial report is presented in Australian dollars, which is the functional currency of the Parent and majority of operating entities.

d) Use of estimates and judgements

The preparation of the consolidated financial report in conformity with AASBs require management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Key judgements involve:

- Credit risk (refer to Note 5(b));
- Revenue recognition (refer to Note 3(j)(ii));
- Equity-accounted investees (Refer to note 3(j)(ii)); and
- Financial asset disclosures (Refer to note 3(a)(ii))

Key assumptions and estimation uncertainties:

- the use of key assumptions underlying the recoverability of capitalised project costs. This involves estimation of forecast costs, sales and net profit from relevant projects;
- Fair value (Refer to note 4);
- Recognition and measurement of deferred tax assets and liabilities (Refer to note 3(n));
- Credit risk relating to financial assets (Expected Credit Loss) (Refer to note 5(b)); and
- Revenue recognition (refer to Note 3(j)(ii))

3 SIGNIFICANT ACCOUNTING POLICIES

a) Basis of consolidation

i) Common control transaction

The Company is the ultimate parent of the Group and consolidates Qualitas Property Partners Pty Ltd, Qualitas Investments Unit Trust and their controlled entities. The shares of Qualitas Property Partners Pty Ltd and units of Qualitas Investments Unit Trust were transferred to the Company under common control resulting in the creation of the common control reserve during the 2022 financial year.

ii) Investments in associates and jointly controlled entities (equity accounted investees)

The Group's interests in equity-accounted investees comprise equity interests in associates and joint ventures.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are recognised initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial report include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

iii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial report from the date on which control commences until the date on which control ceases.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

3 SIGNIFICANT ACCOUNTING POLICIES CONTINUED

iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

b) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash.

c) Non-derivative financial instruments

i) Recognition and initial measurement

The Group initially recognises trade and other receivables on the date that they are originated. All other financial assets and financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value adjusted for, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified and measured at amortised cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or Fair value through profit or loss (FVTPL). Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Amortised cost

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair value through profit or loss (FVTPL)

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g., non-recourse features).

Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit and loss. Any gain or loss on derecognition is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

3 SIGNIFICANT ACCOUNTING POLICIES CONTINUED

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii) Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial assets.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v) Issued capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Dividends

Dividends are recognised as a liability in the period in which they are declared.

d) Property, plant and equipment

i) Recognition and measurement

Items of office equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset.

When parts of an item of office equipment have different useful lives, they are accounted for as separate items (major components) of office equipment.

Gains and losses on disposal of an item of office equipment are determined by comparing the proceeds from disposal with the carrying amount of office equipment and are recognised net within "other income" in profit or loss.

ii) Subsequent costs

The cost of replacing a part of an item of office equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of office equipment is recognised in profit or loss as incurred.

iii) Depreciation

Depreciation is based on the cost of an asset less its residual value.

Depreciation is recognised in profit or loss on a straight-line and/or diminishing basis over the estimated useful lives of each part of an item of office equipment. The estimated useful lives for the current and comparative periods are as follows:

The estimated useful lives for the current and comparative periods are as follows:

	2023
• Furniture, fixtures and fittings	2-8 years
• Computer equipment	2-4 years
• Computer software	2-4 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

e) Intangibles

During the year, the Group acquired a funds management business for \$827,129 which resulted in the recognition of \$577,000 management rights, recorded as an intangible asset on the statement of financial position. These management rights will be amortised over 2.66 years and will be subject to impairment testing.

f) Capitalised contract costs

Capitalised contract costs comprising of revenue contract acquisition costs are initially recognised at cost and subsequently measured at cost less accumulated amortisation. The useful life of capitalised contract costs is treated as the period over which economic benefits are received by the Group, which is considered to be the term of the investment management agreement.

Capitalised contract costs currently recognised by the Group have a useful life of 10 years, which is the term of the investment management contract the costs relate to.

Incremental costs incurred by the Group are capitalised when the costs are incremental to winning a new contract with a customer and considered to be recoverable. All other costs are expensed when incurred.

Capitalised contract costs are impaired when their carrying amount exceeds the remaining amount of consideration that the Group expects to receive, less costs that relate directly to providing those services and that have not been recognised as expenses. All impairment losses are included in the carrying value of capitalised contract costs at each reporting period.

g) Impairment

i) *Non-derivative financial assets*

Financial assets which are measured at amortised cost are assessed at each reporting date to determine whether there is an impairment.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

Specific provisions relate to loans that are currently known to be impaired, based on objective evidence as a result of one or more events that have occurred after the initial recognition of the asset, otherwise known as a loss event. For loans where a loss event has occurred, the provisioning process involves review and analysis of individual loans which are assessed for impairment based on security value, loan balance outstanding and other factors deemed relevant to collectability by the Group.

Provisions are raised where objective evidence of impairment exists and the negative impact on estimated future cash flows of the asset can be reliably estimated.

An expected credit loss (**ECL**) applies to all financial assets, except for those measured at fair value through profit or loss, which are not subject to impairment assessment.

The Group measures an expected credit loss allowance at an amount equal to lifetime expected credit loss for non-loan financial assets.

For mortgage loans measured at amortised cost, expected credit loss allowances are measured on either of the following bases:

Stage 1: 12 Month ECL - Not Significantly Increased Credit Risk are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Stage 2: Lifetime ECL – Significant Increase in Credit Risk (**SICR**) are the ECLs that result from all possible default events over the expected life of a financial instrument.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both probability weighted quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information. Considerations include underlying security quality and whether the secured property is under construction, macro-economic business cycle factors and whether there is any loan subordination.

The credit risk of a financial asset is considered to have increased significantly since initial recognition if it becomes greater than 30 days overdue.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Presentation of allowance for ECL in the consolidated statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

For credit impaired loans (stage 3) the gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. This assessment is carried out at the individual asset basis.

ii) *Non-financial assets*

The carrying amounts of the Group's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

h) Inventories

Development projects

The asset includes the costs of acquisition, development, borrowings and all other costs directly related to specific projects, held for the purpose of resale. Borrowing and holding costs such as rates and taxes incurred after the completion of development and construction are expensed. The Group currently holds an investment in a land development recognised under AASB 2 that meets the definition of inventory and has been recorded at the lower of cost and net realisable value.

i) Employee benefits

Short-term benefits

Short-term employee benefit obligations are expensed as the related service is provided. Short-term benefits include salary and wages, annual leave and personal leave and are expected to be settled within 12 months of the reporting date.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

3 SIGNIFICANT ACCOUNTING POLICIES CONTINUED

ii) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods plus; that benefit is discounted to determine its present value. The discount rate is the yield at the reporting date on Corporate bonds that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

Fund participation rights are a share of performance fees linked to the performance of a fund, or other investment vehicle, managed by Qualitas. These rights are distributed as cash payments when the Funds mature (and Qualitas receives the performance fees in cash), and subject to the employee remaining employed with Qualitas at the time.

iii) Share-based payments

The grant date fair value of equity-settled share-based payment arrangements granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true up for differences between expected and actual outcomes.

Short Term Incentive Plan

The Board has determined that Qualitas' current remuneration policy for senior management and other selected employees of Qualitas will include a STI plan (**STI Plan**).

Under the STI Plan, participants will have an opportunity to receive an incentive payment calculated as a percentage of their fixed annual remuneration each year, conditional upon performance against a scorecard of financial and non financial measures. The performance measures against which each participant's STI is assessed and their relative weightings are set by the Board each year.

In addition, the Board will have discretion to reduce any STI due to poor behaviour.

Under the STI, it is intended that the first \$100,000 of any STI award will be paid in cash, as well as 50% of the remaining award. The other 50% of the remaining award will be paid in equity, which will be deferred for 2 further years. The equity will be granted subject to the terms of the Qualitas Employee Equity Plan (**QEEP**). The QEEP provides flexibility for the Group to grant options to acquire Shares, rights to acquire Shares and/or Shares as incentives (Awards), subject to the terms of individual offers.

Employee Equity Award

Selected employees were granted Share rights at Listing which will vest in two tranches; 50% on the third anniversary of the Listing Date, and the remaining 50% on the fifth anniversary of the Listing Date, subject to the continued tenure of the participants (Employee Equity Award). The number of Share rights granted to participants was calculated by dividing the face value of the individual grant by the Offer Price. The Employee Equity Award will be granted under the terms of the Qualitas Employee Equity Plan (**QEEP**).

Legacy Employee Equity Plan (Intergen)

Under a legacy employee equity plan (Legacy Employee Equity Plan), employees (and their controlled entities) were able to acquire a beneficial interest in non-ordinary shares in QPP and non-ordinary units in the Qualitas Investments Unit Trust via a limited recourse loan.

These shares and units were converted into Shares shortly prior to Completion, in accordance with the Restructure Deed, and will vest in two tranches; 50% on the third anniversary of the Listing Date, and the remaining 50% on the fifth anniversary of the Listing Date, subject to the continued tenure of the participants.

Long-Term Incentive (LTI)

• Loan Plan

The Company granted Loan Shares to the Group Managing Director as a LTI under the new Loan Plan at the Company's Annual General meeting on 18 November 2022. The LTI under the Loan Plan carries a maximum opportunity of \$1,500,000. An interest-free limited recourse loan of \$4.9m was provided by the Company to the Group Managing Director to purchase 2,016,053 newly issued shares. An independent valuation was obtained to determine the value of the loan and the maximum number of shares that were to be issued.

• Executive LTI

In line with the Prospectus, the Board approved its first grant of rights under the Executive LTI Plan during the period. The rights granted under the FY23 Executive LTI are measured against KPIs over a 3-year performance period from 1 July 2022 to 30 June 2025.

• FY23 Options Offer

Issue of 817,299 Options to acquire Ordinary Shares in the Company to certain non-Executive employees under the Qualitas Employee Equity Plan at \$2.75. Options vest and become exercisable subject to meeting Group and individual performance conditions and continued service over a five-year vesting period. The Options have an expiry date of 8 March 2033.

j) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

k) Revenue

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

i) Income from the provision of financial services

Management fees

Management fees are based on net assets under management in the Group at the end of the month. Management fee income is recognised over time as the performance obligations are satisfied by the Group. Management fees are comprised of base management fees calculated either as percentage of committed Funds under management (**FUM**) or percentage of invested FUM and transaction fees. In some instances, often single asset equity Funds, the Group may earn a management fee as a percentage of the gross asset value (**GAV**) of the underlying asset, rather than on invested FUM.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

3 SIGNIFICANT ACCOUNTING POLICIES CONTINUED

Arrangement, establishment and mandate fees

Revenue from services rendered also consists of fees for transaction structuring, advisory services, commitment fees, arranger fees and mandate fees on the provision of loans. Revenue from services is recognised in profit or loss when the services are provided or on completion of the underlying transaction.

Distribution from fund co-investments

Distribution income from fund co-investments is recognised when the entitlement arises.

Portfolio and Ancillary fees

Revenue from portfolio and ancillary fees relate to early repayment and discharge related fees, which are recognised on discharge of the relevant loans. Consent and loan variation fees are also included, which are recognised when the relevant loan act occurs.

Other income

Other income consists principally of income earned on underwrites provided and other adhoc fees.

ii) Performance fees

The Group is contractually entitled to performance fees for certain Funds where the rate of return to investors in a Fund exceeds a Hurdle over the life of the investment. Performance fees generally relate to the Groups' close ended Funds.

Performance fee testing against the relevant hurdle is performed annually and performance fees are only accrued when actual fund performance is well in excess of the hurdle return fund life to date.

Accrued performance fees are subsequently paid by Funds at the point when the underlying Fund is realised/closed.

iii) Distributions

The Group earns non fund management revenue in the form of distributions and changes in valuation from its direct investments, co investment activities and management of a Private SMA. The Groups' investment into listed and/or unlisted fund structures earns a distribution yield and is recognised when received.

l) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

i) As a lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate. The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurements of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or it is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Group presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the consolidated statement of financial position.

Short-term leases and leases of low value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

The Group recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other revenue'.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

3 SIGNIFICANT ACCOUNTING POLICIES CONTINUED

m) Loans and borrowings

Loans and borrowings are recognised at cost.

n) Interest income and interest expense

Interest income relates to interest income on mortgage assets, investment loans, term deposits and bank balances. Interest income is recognised as it accrues, using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset and allocating the interest income included in the effective yield over the relevant period by using an effective interest rate which reflects a constant periodic return on the carrying amount of the asset.

Prepaid interest income is recognised in the consolidated statement of financial position as deferred income.

Interest expense comprises interest on borrowings. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest rate method.

o) Income tax

Income tax expense comprises current and deferred tax. Current and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity, in which case it is recognised in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable group, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be recognised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be recognised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be recognised.

Additional income tax expenses that arise from the distribution of cash dividends are recognised at the same time that the liability to pay the related dividend is recognised.

Tax consolidation

Qualitas and its wholly owned Australian resident subsidiaries are a tax consolidated group under Australian taxation law. As a consequence of being a tax-consolidated group, all members of this group are taxed as a single entity. The head entity in the tax consolidated group is Qualitas. The members of the tax consolidated group are identified at note 30.

p) Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the consolidated statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

q) New and revised standards and interpretations not yet adopted

A number of new standards are effective for annual periods beginning after 1 July 2022 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these financial statements. The new standards are not expected to have a significant impact on the Group's financial statements. The analysis of the transitional impact of the standards is expected to be completed prior to the implementation dates. The new standards include:

- Disclosures of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to IAS 8)
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)

r) New Australian Accounting Standards and amendment standards that are effective in the current period

A number of new standards are effective for annual periods beginning after 1 July 2022 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these financial statements. The new standards are not expected to have a significant impact on the Group's financial statements. The analysis of the transitional impact of the standards is expected to be completed prior to the implementation dates. The new standards include:

- Disclosures of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to IAS 8)
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)

4 FAIR VALUE MEASUREMENTS

The Group discloses fair value measurements by level using the following fair value hierarchy:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices)
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs)

i) Fair value in an active market (Level 1)

The fair value of financial assets and liabilities traded in active markets is based on last traded prices at the end of the reporting period without any deduction for estimated future selling costs. For the majority of financial assets and liabilities, information provided by the quoted market independent pricing services is relied upon for valuation.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis. An active market is a market in which transactions for the financial asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

ii) Fair value in an inactive or unquoted market (Level 2 and Level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on the Manager's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions. For other pricing models, inputs are based on market data at the end of the reporting period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Group holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

As at 30 June 2023, the Group holds investments in Qualitas funds which are recognised as Level 2 and an investment in an unlisted entity recognised as Level 3. The fair value of Qualitas funds is estimated based on the net asset value (NAV) of the fund at reporting date. The NAV is assessed to be the best estimate of fair value for the funds given this is the transaction price that unitholders would transact upon. Where the fund is a closed-ended fund, liquidity factors are considered in estimating the fair value of the fund.

For the Level 3 investment in an unlisted entity, the Group uses a combination of management accounts, recently audited financial report and property valuations to estimate the fair value, on the basis that the value of the investment is mainly driven by the property assets held within the unlisted entity. The key input assumption in this valuation is therefore market capital rates. A 10% shift in market capital rates would have a +/- \$359k shift in the valuation of the asset. There were no transfers into or out of Level 3.

iii) Unobservable inputs used in measuring fair value (level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using various valuation techniques. If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire assessment.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

5 FINANCIAL RISK MANAGEMENT

a) Overview

The Group's activities expose it to a variety of financial risks. The Group has in place a risk management framework to identify and manage the financial risks in accordance with its investment objectives and strategy. This includes an investment due diligence process and on-going monitoring of the investments and transactions of the Group. Specific processes and controls the Group applies to manage the financial risks are detailed under each risk specified below.

Financial risk management as it relates to balance sheet investments made by the Group would fall under the realm of the Qualitas Investment Committee. In terms of other risks relating to the Group, these are captured in the Risk Register which is part of the Group's risk appetite statement which is overseen by the Audit, Risk & Compliance Committee.

b) Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts when they fall due and arises principally from the Group's mortgage assets.

Investments

The Group is exposed to credit risk through its investments, projects and other Qualitas funds. There is also credit risk exposure in the Group's other investments held at amortised cost, however these will not have a material impact to the Group's financial position.

Other Assets

The Group's exposure to credit risk for cash and cash equivalents and term deposits is low as all counterparties have a rating of A- (as determined by public ratings agencies such as Standard & Poor's, Moody's or Fitch) or higher.

Credit risk on trade and other receivables is managed through the Group's investment management activities as the significant portion of receivables relates to receivables from Qualitas funds.

Mortgage Loans

The Group is exposed to credit risk primarily on loans secured by first mortgage through its Arch Finance business.

As part of its lending policies and processes, the Group identifies and manages credit risk of mortgage loans by undertaking a detailed due diligence process prior to entering into transactions with counterparties and frequent monitoring of the credit exposures.

The Group applies a selective investment filtering and due diligence process for each loan which encompasses the:

- credit worthiness, financial standing and track record of the borrower and other transaction parties;
- quality and performance of the underlying real property security;
- macroeconomic and microeconomic market conditions;
- legal due diligence of the transaction structure;
- consideration of downside risks;
- ESG considerations

The Group identifies and monitors key risks of the loans to manage risk and preserve investor returns.

The portfolio construction adopted by the Group is implemented with the expectation of seeking to reduce the Group's exposure to both credit and market risks. The Group adheres to the portfolio investment parameters set out in the relevant funding agreements and additional internal guidelines to ensure sufficient diversification of the loan portfolio by borrower / counterparties, security ranking, loan maturity, loan to value ratio, and property sector and geography of security.

The terms of the interest-bearing notes used to fund the mortgage loans held by Arch Finance Warehouse Trust include loan eligibility criteria. This includes maximum loan-to-value ratios of 75%, geographical diversification guidelines and limits, and guidelines and limits on the type of property secured against the loans.

5 FINANCIAL RISK MANAGEMENT CONTINUED

Loans

The Group is exposed to minimal credit risk through loans provided by the Liquidity Lending Facility. The credit risks have been transferred to the Funds in the event of defaulting loans.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset held at amortised cost in the consolidated Statement of Financial Position as outlined below:

	30 June 2023 \$'000	30 June 2022 \$'000

More than 30 days past due (lifetime ECL)	4,440	149
Total	318,145	575
Total Group	405,596	575

1. The Group provided an underwrite loan to a Qualitas Fund (QREO Growth A III Sub Pty Ltd) during the period. The loan repayment was past due at the reporting date, however due to ongoing marketing the Group did not enforce the repayment of this underwrite (principle and accrued interest up to repayment date), nor default interest as it is pending ongoing marketing by the Qualitas Fund. As at 30 June 2023 the Group expects the principal and accrued interest up to the repayment date to be fully recovered based on the sell down terms being negotiated for which this underwrite position to the Fund represents. Subsequent to year end, commercial negotiations are underway and the Group expects the full loan and accrued interest to be repaid.

Carrying amount	365,869	3,499	–	369,368

The Group's accounting policy for credit impairment is outlined in Note 3(f).

To measure the expected credit loss (ECL) of the mortgage assets the Group uses a credit loss model which is calculated by multiplying the probability of default by the exposure at default multiplied by the loss given default.

The key model inputs used in measuring the ECL include:

- Exposure at Default (EAD): represents the calculated exposure in the event of a default. The EAD for mortgage loans is the principal and any interest amount outstanding at reporting date. The Group does not offer loan redraw facilities or loan commitments in its Direct Lending business and therefore there are no undrawn commitments included in the EAD.
- Probability of Default (PD): Given the Group has experienced very few losses in its history, external data has been used to determine an appropriate probability of default measure. All loans in the portfolio are assumed to have an equivalent probability of default to that of a B+ rated Corporate Bond given that the mortgage book is comprised predominately of commercial borrowers.
 - Loss Given Default (LGD): the LGD is the magnitude of the ECL in a default event. The Group considers a financial asset to be in default when:
 - the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
 - the financial asset is 90 days overdue

LGD is adjusted for factors such as the site quality of the secured property, whether the secured property is under construction and whether there is any subordination of the loan.

Loss allowance	(673)	(1)	—	—	(674)

c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in market variables such as interest rates, foreign exchange rates and equity prices.

i) Price risk

Price risk is the risk that the fair value of investments will change as a result of changes in market prices, whether those changes are caused by factors specific to the individual security or factors affecting all instruments in the market.

The Group is exposed to price risk through its co-investments in Qualitas funds and other equity investments.

Prices are monitored by the Group through its investment management processes of the relevant Qualitas funds. For other equity investments, prices are monitored through regular reporting from the equity project manager.

Sensitivity analysis – price risk

At 30 June 2023, it is estimated that a 10% decrease in equity prices would decrease the Group's profit before income tax by approximately \$3,278,277 (2022: \$2,885,236), and would decrease equity by approximately \$2,294,794 (2022: \$2,019,665). A 10% increase in equity prices would have an equal but opposite effect.

ii) Currency risk

Currency risk arises as the income and value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates. As at 30 June 2023, the Group did not hold any significant assets or liabilities denominated in currencies other than the Australian Dollar and therefore was not exposed to any significant foreign exchange risk.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

5 FINANCIAL RISK MANAGEMENT CONTINUED

iii) Interest rate risk

Interest rate risk is the risk that a financial asset's value will fluctuate as a result of changes in market interest rates. The Group invests and borrows at both floating and fixed rates. Floating rate loans means that income will be impacted by the underlying base rate rises and falls and therefore the relative attractiveness to other instruments may change. There is a strong correlation between the RBA Cash Rate and the base rates upon which floating rate loans are priced. Absolute returns on floating rate loans therefore rise and fall largely in correlation with the RBA Cash Rate.

The table below summarises the Group's exposure to interest rates risks as at 30 June 2023 and 2022, including the Group's assets and liabilities at fair values.

30 June 2023	Average effective interest rate %	Carrying amount \$'000
Fixed rate instruments		
Qualitas Real Estate Income Fund Manager Loan	5.00	14,464
Variable rate instruments		
Cash and cash equivalents	1.86	171,364
Liquidity Lending Facility ¹	9.21	59,979
Mortgage loans	7.79	317,570
Interest bearing notes	5.95	(301,125)
Project funding loans	8.26	(11,356)

1. The average effective interest rate for the Liquidity Lending Facility has been annualised as the facility was established in December 2022.

The fair values are not materially different to their carrying value amount since the interest payable is either close to current market rates or the borrowings are of a short term nature.

30 June 2022	Average effective interest rate %	Carrying amount \$'000
Fixed rate instruments		
Qualitas Real Estate Income Fund Manager Loan	5.00	15,830
Variable rate instruments		
Cash and cash equivalents	0.92	183,824
Mortgage loans	4.83	369,368
Interest bearing notes	2.91	(375,923)
Project funding loans	8.01	(10,447)

iv) Sensitivity analysis - interest rate risk

At 30 June 2023, it is estimated that a general increase of one-percentage point in interest rates on variable rate instruments would increase the Group's profit before income tax by approximately \$2,364,329 (2022: \$1,553,091) and would increase equity by approximately 1,655,031 (2022: \$1,087,163).

A general decrease of one-percentage point in interest rates on variable rate instruments would have an equal but opposite effect.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT

d) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Group monitors its cash flow requirements and undertakes cash flow forecasts. The Group's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Cash flow reconciliations are undertaken monthly to ensure all income and expenses are managed in accordance with contracted obligations.

The following table shows the contractual maturities of financial assets and liabilities as at 30 June 2023 and 2022:

6 SEGMENT INFORMATION

a) Description of segments

An operating segment is a component of a Group that engages in business activities from which it may earn revenue and incur expenses, whose operating results are reviewed regularly by the Group's Managing Director who is the Group's Chief Operating Decision Maker in assessing performance and in determining the allocation of resources.

The Group has identified two operating segments being Funds Management and Direct Lending.

The Funds Management segment includes all of Qualitas' core funds management activities and includes funds management fees, performance fees and other fee income. It also includes dividends and distributions from Qualitas' Co-Investment and Direct Lending activities.

The Direct Lending segment relates to the interest income and expenses relating to activities undertaken by Qualitas' wholly owned subsidiaries Arch Finance and Peer Estate and includes costs directly attributable to Arch Finance and Peer Estate.

The segment information for the reportable segments is as follows:

Major customers

Three funds contributed more than 10% of total revenue of the Group and are included in the Funds Management segment. The total amount contributed by the three funds was \$24,681,310.79 for 2023 financial year, comprising base management, arranger and performance fees.

7 INCOME FROM THE PROVISION OF FINANCIAL SERVICES AND PERFORMANCE FEES

a) Performance Fees

	For the year ended 30 June 2023 \$'000	For the period 4 November 2021 to 30 June 2022 \$'000
Performance fees	4,284	13,758

Performance fees are variable consideration and are recognised to the extent that it is highly probable a significant reversal will not subsequently occur (variable consideration is constrained in accordance with AASB 15 *Revenue*). The Group is entitled to performance fees in accordance with its fund investment management agreements. Performance fees are typically payable by the fund when the fund has crystallised its investments and terminates. Therefore the Group recognises performance fees in relation to a fund when the fund has recognised a performance fee expense and either the fund is nearing the final stages of its investment life cycle and termination or there is limited sensitivity to valuation changes. Performance fee income is generally constrained up to the point when the final amount to be paid out of the fund is known.

Performance fees for the 2023 financial year relate to Qualitas Construction Debt Fund I, Qualitas Real Estate Opportunity Fund II (Assembly Sidecar) and other co-investment projects. Of the \$4,284,000 performance fees recognised during the period, an amount of \$10,000 was received during the year relating to a co-investment project. The balance has been recorded on the consolidated statement of financial position as accrued performance fees.

In accordance with shareholder approval at the Company's 2022 AGM, 2,016,053 ordinary shares were issued to the Group Managing Director in the form of loan shares on 6 December 2022. These are accounted for as share-based payments and as such no equity contribution has been recorded in relation to the issue of the shares. As the shares have not vested, they are classified as treasury shares and are excluded from total shares on issue. Any repayments of the loan throughout the year are recorded as equity contributions on those shares.

b) Treasury shares

When shares recognised are repurchased, the amount of consideration paid, which includes directly attributable costs, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the treasury share reserve. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

c) Dividends

On 18 August 2022, the Directors declared a fully franked distribution of 4 cents per share which amounted to \$11,760,000 to be paid on 8 September 2022 with a record date of 24 August 2022.

On 22 February 2023, the Directors declared a fully franked distribution of 2 cents per share which amounted to \$5,920,321 to be paid on 4 April 2023 with a record date of 7 March 2023.

d) Reserves

Share based payments reserve

The share based payments reserve arises on the grant of options, performance rights and deferred share rights to select employees under the Company's equity-based remuneration plans.

Common control reserve

The difference between the purchase consideration and the net assets acquired on the restructure under common control, were accounted for in equity and transferred to a common control reserve.

Treasury share reserve

The reserve for the Group's treasury shares comprised the cost of the Company's shares held by the Group. At 30 June 2023 the group held 3,260,424 shares (2022: nil).

28 SHARE BASED PAYMENT

a) Description of share-based payment arrangement

At 30 June 2023, the Group had the following share-based payment arrangements:

i) Short term incentive plan (STI)

The Board has determined that the current remuneration policy for senior management and other selected employees of the Group will include a new STI. Under the STI, participants will have an opportunity to receive an incentive payment calculated as a percentage of their Fixed annual remuneration each year, conditional upon performance against a scorecard of financial and non-financial measures. The performance measures against which each participant's STI is assessed and their relative weightings are set by the Board each year. In addition, the Board will have discretion to reduce any FY22 STI (by up to 100%) due to poor behaviour.

Under the STI, it is intended that the first \$100,000 of any STI award will be paid in cash, as well as 50% of the remaining award. The other 50% of the remaining award will be paid in equity, which will be deferred for 2 further years. The equity will be granted subject to the terms of the Qualitas Employee Equity Plan (QEPP).

The terms and conditions related to the grants under these programs are as follows, all options are to be settled by the physical delivery of shares:

Employees entitled	Number of awards at grant date (30 June 2023)	Number of awards at 30 June 2023 ²	Vesting conditions	Contractual life of awards
Key Management Personnel	51,374 ¹	214,662	Per above	2 years

Employees entitled	Number of awards at grant date (30 June 2022)	Number of awards at 30 June 2022 ³	Vesting conditions	Contractual life of awards
Key Management Personnel	163,288	163,288	Per above	2 years
All other employees	266,079	266,079	Per above	2 years

1. The number of awards is based on the share price as at 30 June 2023. These awards are yet to be issued.

2. No awards were forfeited during the year.

3. No awards were forfeited during the year.

ii) Employee Equity Award

Select employees were granted Share rights at Listing which will vest in two tranches; 50% on the third anniversary of the Listing Date, and the remaining 50% on the fifth anniversary of the Listing Date, subject to the continued tenure of the participants (Employee Equity Award). The total face value of all grants made under the Employee Equity Plan was \$2,000,000 of which \$285,000 was forfeited during the year. The number of Share rights granted to participants was calculated by dividing the face value of the individual grant by the Offer Price. The Employee Equity Award will be granted under the terms of the Qualitas Employee Equity Plan (QEPP).

Employees entitled	Number of awards at grant date (16 December 2022)	Number of awards at 30 June 2023 ¹	Vesting conditions	Contractual life of awards

2. 414,782 shares forfeited during the period and held in a share trust. The resulting closing balance is 1,766,992.

iv) Non-Executive Director Share rights compensation

Non-Executive Directors were granted 170,000 rights as compensation for contribution to the Group prior to listing. These rights were exercised during the period ending 30 June 2023 and as such the balance of rights held at the end of the period is nil.

v) Long-Term Incentive (LTI)

Loan Plan

The Company granted Loan Shares to the Group Managing Director as a LTI under the new Loan Plan at the Company's Annual General meeting on 18 November 2022. The LTI under the Loan Plan carries a maximum opportunity of \$1,500,000. An interest-free limited recourse loan of \$4,900,000 was provided by the Company to the Group Managing Director to purchase 2,016,053 newly issued shares. An independent valuation was obtained to determine the value of the loan and the maximum number of shares that were to be issued.

Executive LTI

In line with the Prospectus, the Board approved its first grant of rights under the Executive LTI Plan during the period. The rights granted under the FY23 Executive LTI are against KPIs measured over a 3-year performance period from 1 July 2022 to 30 June 2025. The total number of LTI rights granted is 1,064,085.

FY23 Options Offer

Issue of 817,299 Options to acquire Ordinary Shares in the Company to certain non-Executive employees under the Qualitas Employee Equity Plan at \$2.75. Options vest and become exercisable subject to meeting Group and individual performance conditions and continued service over a five-year vesting period. The Options have an expiry date of 8 March 2033.

b) Measurement of fair value

i) Equity-settled share-based payment arrangements

The Fair value of the employee share purchase plan has been measured using the Black-Scholes formula. Service and non-market performance conditions attached to the arrangements were not taken into account in measuring fair value.

The requirement that the employee has to serve in order to purchase shares under the share purchase plan has been incorporated into the fair value at grant date by applying a discount to the valuation obtained. The discount has been determined by estimating the probability that the employee will stop serving based on historical behaviour

The inputs used in the measurement of the fair values at grant date of the equity-settled share-based payment plans were as follows.

34 CONTINGENT ASSETS AND LIABILITIES AND COMMITMENTS

The Group is subject to a number of obligations which, if not discharged, may give rise to potential claims or other costs. Where some loss from an actual or alleged non-performance of an obligation is more likely than not and can be reliably estimated, provisions have been made. The Group considers that the outcome of any specific enquiry which is underway as at 30 June 2023, and has not been provided for, is not expected to affect its financial position in any material way, either individually or in aggregate.

35 EVENTS OCCURRING AFTER THE REPORTING PERIOD

Subsequent to 30 June 2023, the Group secured an increased capital commitment from an institutional investor of \$750 million in the Qualitas Construction Debt Fund II supporting the Fund to capitalise on upcoming attractive opportunities in the CRE private credit sector. This increases the size of the Fund to approximately \$1.95 billion of committed capital and Qualitas will increase its co-investment in the Fund by a further \$5 million to \$10 million total commitment.

The Group has also since balance date secured an additional \$700 million from a wholly owned subsidiary of the Abu Dhabi Investment Authority (ADIA) for the existing Qualitas Diversified Credit Investments Fund (QDCI). The additional commitment brings QDCI's committed capital to \$1.45 billion and Qualitas committed FUM to \$7.5 billion. In August 2022, Qualitas granted options to ADIA under which ADIA may acquire up to a maximum of 32,630,374 new ordinary shares. This new mandate means ADIA can exercise its options to acquire an initial tranche of 22,841,263 ordinary shares at a strike price currently at \$2.50 per share until the options expiry date of 1 August 2024.

Subsequent to year end, on 23 August 2023, the Directors declared a fully franked dividend of 5.5 cents per share which amounted to \$16,280,833 to be paid on 3 October 2023 with a record date of 12 September 2023.

No significant events have occurred since the reporting period which would impact on the financial position of the Group disclosed in the consolidated statement of financial position as at 30 June 2023 or on the results and cash flows of the Group for the current reporting period ended on that date.

DIRECTORS' DECLARATION

1) In the opinion of the Directors of Qualitas Limited:

- a) The consolidated financial report and notes set out on pages 26 to 65 are in accordance with the *Corporations Act 2001*, including:
 - i) Giving a true and fair view of the Group's financial position at 30 June 2023 and of its performance for the year ended 30 June 2023;
 - ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b) There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

2) The Directors have been given the declarations required by Section 295A of the *Corporations Act 2001* from the Chief Executive Officer and Chief Financial Controller for the period ended 30 June 2023.

3) The Directors draw attention to Note 2 of the consolidated financial report, which includes a statement of compliance with International Financial Reporting Standards.

This declaration is made in accordance with a resolution of the Directors.

INDEPENDENT AUDITOR'S REPORT

Independent Auditor's Report

To the shareholders of Qualitas Limited

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of Qualitas Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2023
- Consolidated Statement of comprehensive income, Consolidated Statement of changes in equity, and Consolidated Statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters

The **Key Audit Matters** we identified are:

- Revenue Recognition of performance fee income
- Expected credit loss allowance

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of performance fee income (\$4,284,000)

Refer to Note 7a to the Financial Report

The key audit matter

The Group earns performance fee income from the funds it manages in accordance with investment management agreements, based on the performance obligations by the funds.

Recognition of performance fee income and the associated performance fee accrual is a key audit matter due to the following:

- Contribution of performance fee income to the Group's result; and
- the significant audit effort and judgement we have applied in assessing the Group's recognition and measurement of performance fee income and the associated performance fee accrual.

Complexity and judgements involved in applying the requirements of AASB 15 *Revenue from Contracts with Customers* include judgements made by the Group in:

- Assessing the underlying timing of its performance fee income recognition based on the terms of the investment management agreements, the stage of the investment lifecycle and performance of the underlying Fund.
- Estimating the expected value of variable consideration based on fund returns and fund net asset values; and
- Determining the amount for which it is highly probable that a significant revenue reversal will not subsequently occur (applying the constraint).

How the matter was addressed in our audit

Our procedures included:

- Obtaining an understanding of the performance fee income recognition process and key controls.
- Evaluating the Group's accounting policies for revenue recognition in relation to performance fee income against the requirements of AASB 15 and our understanding of the business.
- Reading the relevant investment management agreements to understand the key terms of the arrangements and the performance obligations.
- Assessing the Group's judgements in relation to the timing of revenue recognised. This included assessment of which funds the Group had recognised performance fees from, based on the stage of the investment lifecycle, expected termination and the performance to date of the underlying fund. Our assessment was based on our procedures on the underlying Funds.
- Re-calculating a sample of the estimated expected value of variable consideration in accordance with the relevant investment management agreements, including testing a sample of inputs such as fund returns and fund net asset values to underlying Fund source documentation.
- Challenged management's judgements in determining the portion of revenue constraint applied to the expected value of variable consideration. This included performing probability weighted scenario and sensitivity analysis over variable consideration and

Expected credit loss allowance (\$575,000)	
Refer to Note 5b and Note 17 to the Financial Report	
The key audit matter	How the matter was addressed in our audit
<p>Allowance for expected credit losses is a key audit matter due to:</p> <ul style="list-style-type: none"> the significance of the mortgage loans balance to the financial report; and the inherent complexity of the Group's Expected Credit Loss (ECL) model (ECL model) used to measure ECL allowances. The model is reliant on data and a number of assumptions such as defining a significant increase in credit risk (SICR). This involves significant judgement applied by the Group and required by us to challenge these assumptions incorporating forward looking information reflecting the Group's view of the future economic factors. <p>The Group's criteria selected to identify a SICR, such as a decrease in default/credit rating, are key areas of judgement within the Group's ECL methodology as these criteria determine if a forward-looking 12 month or lifetime allowance is recorded.</p> <p>AASB 9 requires the Group to measure ECLs on a forward-looking basis reflecting a range of economic factors as well as net realisable value of secured property are considered key assumptions.</p> <p>The Group's policy is to apply overlays to address ECL measurement uncertainties in their model. In the current year, this included an economic cycle overlay taking into consideration the potential impact of an inflationary and increasing interest rate economic environment. We compared the mortgage loan portfolios' underlying performance and characteristics to current economic factors, emerging risks and trends, using our knowledge of the industry. Re-performing the ECL calculation using the Group's provisioning methodology and relevant data used within the ECL models. We compared our results to the amount recorded by the Group. Tested the implementation of the group's SICR criteria by re-performing the staging assessment of loans and comparing our expectation to actual staging applied in the Group's ECL model. Performed industry comparisons of the impairment allowance coverage rates. We did this by using our knowledge of the loan portfolio and comparing the outputs of the Group's ECL model to publicly available data of comparable entities and against our industry experience.

judgemental model overlays the Group applies to the ECL model results.

- Tested the completeness and accuracy of relevant loan data and inputs used within the ECL model such as checking the year-end balances to the general ledger and arrears and loan-to-value ratios to relevant source systems.
- Challenged key assumptions used in the ECL model relating to forward-looking economic factors with reference to publicly available macro-economic information.
- Considered the sensitivity of the model by varying key assumptions such as secured property valuations and expected probabilities of default within a reasonably possible range. We did this to identify those assumptions at higher risk of bias or inconsistency in application and focus further procedures.
- We assessed the appropriateness of the Group's disclosures in the financial report using our understanding obtained from our testing and against the requirements of the accounting standard.

Other Information

Other Information is financial and non-financial information in Qualitas Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Director's Report. The Chairman and Managing Director Letter; Company Overview, Strategy, People and Environmental, Social and Governance Report; Corporate Governance Statement; Shareholder Information; and Company Directory are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*

INDEPENDENT AUDITOR'S REPORT

- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at:
https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Qualitas Limited for the year ended 30 June 2023, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 10 to 20 of the Directors' report for the year ended 30 June 2023.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.
