Note 1. Reporting entity

The consolidated financial report covers DC2 Limited (**the Company**) and its controlled entities as a consolidated entity (also referred to as **the Group**). DC2 Limited is listed public company limited by shares, incorporated and domiciled in Australia. The Group is a for-profit entity. The Group's financial statements are presented in Australian dollars (AUD), which is also the Company's functional currency.

Note 2. Basis of preparation

The financial report is preliminary financial report which:

- has been prepared in accordance with ASX Listing Rule 4.3A.
- has been derived from the unaudited consolidated Annual Report which has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').
- has been prepared on historical basis, unless otherwise stated.
- is presented with values rounded to the nearest dollars in accordance with ASIC Legislative Instrument 2016/191, unless otherwise stated.
- is presented in Australian dollars, which is the functional currency of the Group. The Group has a new subsidiary operating in United Kingdom.
- adopts all new and amended Accounting Standards and Interpretations issued by the AASB that are relevant to the Group and effective for reporting periods starting on or before 1 July 2022.
- does not early adopt any new Accounting Standards and Interpretations that have been issued or amended but are not yet effective, unless otherwise stated.

DC2 has become a consolidated entity during the financial year ended 30 June 2023 subsequent to the business combination. The financial statements for the year ended 30 June 2022 are presented as a single entity.

The preliminary financial report does not include all the disclosures of the type normally included in the Annual Report. Accordingly, the unaudited Preliminary Financial Report should be read in combination with the Annual Report for the year ended 30 June 2022 and any public announcements issued by the Company in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Critical accounting estimates

The preparation of the preliminary financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

For personal use only

Note 2. Basis of preparation (continued)

Going concern

The unaudited Preliminary Financial report have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the unaudited financial statements, the Group incurred a loss of \$2,039,288 (30 June 2022: \$4,443,119) and had net cash outflows from operating of \$957,537 (30 June 2022 : \$1,494,677) and investing activities \$21,849 (30 June 2022 : \$2,784,771) respectively for the year ended 30 June 2023. As at that date, the Group had net assets of \$2,185,136 (30 June 2022: \$2,221,968). The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to secure funds by raising additional capital from equity markets and managing cash flows in line with available funds.

The Group has the ability to reduce forecast expenditure if required and it is anticipated that additional capital can be raised in the future if required. The unaudited financial report has been prepared on a going concern basis which assumes that the Company will continue to pay its debts as and when they fall due. The validity of this assumption depends on:

- The Company's ability to raise additional capital as required; and
- The Company's ability to generate cash flows from the successful operations of its primary activities.

Should the Group be unable to maintain sufficient funding as outlined above, there is material uncertainty whether or not the Company will be able to continue as a going concern and therefore, whether it will realise its assets and extinguish its liabilities and commitments in the normal course of business and at the amounts stated in the unaudited financial report. The unaudited financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

The Directors believe that the Group will be successful in the above matters and accordingly, have prepared the financial report on a going concern basis. At this time, the Directors are of the opinion that no asset is likely to be realised for an amount less than the amount at which it is recorded in the unaudited financial report at 30 June 2023.

Note 3. Critical accounting judgements, estimates and assumptions

The Group significant estimates and judgements used in this unaudited Preliminary Financial report are the same as those used in the 2022 Annual Report except the following:

Estimation of useful lives of assets

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

During the year, there was a change in the accounting estimate of depreciation of plant and equipment. The change is to reflect the life of the asset rather than being based on class of asset. During the review it was noted that, in many instances, historical depreciation rates applied by the Company result in assets being depreciated over a quicker period than their expected useful life. It was also identified that historical depreciation rates applied by the Company were more aggressive than industry norms.

Revised Depreciation Rates to be Applied from 1 July 2022

With effect from 1 July 2022, the Company will apply the following depreciation rates:

- Property improvements: 2.5 – 5.0%
- Plant & equipment – Infrastructure: 5.0 – 33.3%; and
- Plant & equipment – Office: 10.0 – 33.3%

The revised depreciation rates have been applied with effect from 1 July 2022, being in the earliest date available in the 2023 financial year.

Note 3. Critical accounting judgements, estimates and assumptions (continued)

Goodwill and other indefinite life intangible assets

The Group tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in note 2. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The Group assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Business combinations

Business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the Group taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.
