

Company announcement

PME signs \$20M, 8-year contract with Oregon Health & Science University

13th November 2023

HIGHLIGHTS

- **Visage to replace legacy PACS and vendor neutral archive (VNA) throughout the Oregon Health & Science (OHSU) enterprise**
- **Contract is for “full stack” - Visage 7 Viewer, Visage 7 Open Archive and Visage 7 Workflow**
- **Visage 7 platform to be implemented in the cloud**
- **Continues PME’s rapid expansion into North American academic medical centers**
- **Transaction-based model with potential upside**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a AUD \$20M, 8-year contract with Oregon Health & Science University (OHSU), the preeminent academic medical center in the state of Oregon.

OHSU includes OHSU Hospital and OHSU Doernbecher Children’s Hospital, comprising a total of 576 licensed beds. OHSU also includes a system of clinics across Oregon and southwest Washington state, employing nearly 20,000 staff.

Based on a transactional licensing model, the contract will see the company’s cloud-engineered Visage 7, including Visage 7 Open Archive and Visage 7 Workflow modules, implemented throughout OHSU providing a unified diagnostic imaging platform. Visage 7 will also provide enterprise distribution of images integrated to OHSU’s electronic health record (EHR).

Planning for the rollout is to commence immediately and will be based on Visage’s proven cloud-based implementation process, with go-live targeted Q4 of the 2024 calendar year.

“OHSU adds to our rapidly growing list of clients in the Pacific Northwest,” said Dr Sam Hupert, Pro Medicus CEO. “They also join a long list of Visage 7 clients to opt for a fully cloud-engineered solution, which, as a result of our CloudPACS strategy, is becoming the standard in the North American healthcare IT market.

Dr Hupert continued, “Our pipeline remains strong and spans all market segments. As has been the case with many of our recent contracts, this deal is for our “full-stack” comprising all three Visage products namely viewer, workflow and archive, a trend we see continuing.”
