

16 November 2023

## **Infratil delivers \$1.2 billion first half net parent surplus, remains positive on growth outlook**

Infratil today announced a net parent surplus from continuing operations of \$1,215.1 million for the six months to 30 September 2023. The result included a \$1,064.5 million revaluation of Infratil's initial 49.95% stake in One NZ, following the acquisition of a further 49.95% stake in June this year.

Proportionate EBITDAF was \$400.0 million – a 45% increase on the \$275.6 million from the same period the previous year.

Infratil CEO Jason Boyes said that the strong performance reflects a four-month contribution following Infratil's increased ownership of One NZ - it now owns 99.9% - and increased earnings at all key operating businesses including CDC Data Centres, Manawa Energy, Longroad Energy, RHCNZ Medical Imaging, Qscan Group and Wellington Airport.

"The operating performance across our portfolio gives us the confidence to lift and narrow our FY2024 Proportionate EBITDAF guidance from \$800 - \$840 million, to \$820 - \$850 million. This is pleasing, at a time when pressure is coming on earnings across the economy."

Mr Boyes said alongside earnings growth across all our key operating businesses, we have seen considerable momentum building in a number of key assets.

"CDC is experiencing an unprecedented surge in demand for cloud and generative AI workloads, from both new and existing customers. This demand has seen CDC embark on an accelerated development plan, bringing forward 223MW of development across Canberra, Sydney, Melbourne, and Auckland. CDC is very well positioned to capture this growing demand with large campus facilities ideally suited for the rollout of multi-megawatt deployments."

The independent valuation of Infratil's CDC investment at 30 September 2023 grew strongly, increasing A\$448 million over the six months since 31 March 2023. This equates to approximately NZ\$0.58 per Infratil share, showcasing the substantial value inherent in this investment, Mr Boyes said.

One NZ EBITDAF for the period was \$279.4 million, up \$21.5 million (8.3%) from the prior year. EBITDAF margin improvement has been driven through lower brand and rebrand costs, and mobile outperformance. Mobile performance continues to reflect the benefits from higher value endless data and unlimited data plans, roaming revenues returning, and annual pricing adjustments.

"Following the sale of its passive cell tower assets in 2022, One NZ maintains an excellent working relationship with new tower company Fortysouth, and new site rollouts are progressing well. One NZ customers also enjoyed an up to 30 percent speed increase of their 5G services across the country in July, following a full network re-tune to incorporate their new 5G spectrum."

“Longroad Energy delivered a strong result for the half year with an EBITDAF contribution of US\$57.7 million, up US\$17.0 million (41.7%) from the prior period. Performance was primarily driven by Longroad’s projects in Texas which were damaged by a severe hailstorm in the prior period. The rebuild of those projects has now been completed, and they’ve been the benefactors of high merchant pricing due to extreme heat in Texas over the summer months.

“Separately, Longroad is also undertaking the largest capital works project in its history with five projects totalling 1.5GW currently under construction. Sun Streams 4 (677MW), Longroad’s largest ever solar and storage started construction on 1 November 2023, while its Serrano (444MW) project is expected to reach the project milestones required to start construction before the end of the year.

“Gurīn Energy, our pan-Asian renewable energy venture, has received one of five conditional approvals to develop 2GW of renewable energy in Indonesia as part of establishing a green electricity trading corridor between Indonesia and Singapore. This ambitious project aims to deliver 300MW of non-intermittent renewable energy to the Singapore market, commencing in 2027.”

“While a relatively new area for Infratil, the Healthcare sector is a key component of our portfolio. In New Zealand with RHCNZ Medical Imaging Group – which delivers 33% of New Zealand’s radiology services (both public and private) through Auckland Radiology, Bay Radiology and Pacific Radiology - volumes continue to track ahead of forecast and the prior year, with revenue up 12% over the prior year.

“Qscan has demonstrated robust growth, with half-year revenues surpassing the previous year by 14%, albeit slightly below budget. Volume growth has returned near to historic trends, and we anticipate additional pricing uplift in November 2023 from the added Medicare indexation.

“RetireAustralia occupancy remains high against a growing portfolio, following completion of several successful developments. Waitlists are a feature at 25 villages, with low overall vacancy of 7.6%. The near-term development pipeline remains robust, forecasting the completion of 254 independent living units in FY2024.

“Wellington Airport continues its robust recovery, with domestic and international passenger volumes standing at 86% and 72% of pre-covid levels, respectively. The reintroduction of a Wellington to Brisbane Qantas service in October has been well-received, restoring a service that was last operated seasonally in 2015.”

### **Making meaningful commitments**

Recognising the shifting landscape, our approach to sustainability continues to evolve. In August, we published our inaugural sustainability report, a comprehensive document outlining our refreshed sustainability strategy, material environmental, social, and corporate governance issues, emissions footprint, and illustrative case studies drawn from our portfolio. Mr Boyes highlighted that the sector diversity of our portfolio contributes positively to various aspects of sustainability, from renewable energy generation to the provision of healthcare services and the facilitation of connectivity.

“As a company dedicated to playing our role helping to shape a sustainable future, Infratil is proud to be the first financial institution in New Zealand to have SBTi (Science Based

Targets initiative) validation of our climate targets - an achievement that signifies our credible commitment to climate action.”

## Capital deployment

Mr Boyes said that over the six months, \$2.7 billion was deployed across the portfolio, including \$1.8 billion for the One NZ stake. The remaining capital was primarily deployed across Infratil’s existing digital and renewable businesses, with demand for digital infrastructure globally experiencing an unprecedented surge driven by developments in AI.

“The agreement reached with Brookfield in June to acquire their 49.95% stake in One NZ was undoubtedly one of the highlights from the last six months. It was the culmination of a six-year journey that began well before our initial investment in May 2019, and then ended with securing 49.95% this year.

“Alongside the 49.95% acquisition of One NZ, we completed the largest equity raise in our history, raising \$935 million at \$9.20 a share. Pleasingly for shareholders who participated in the equity raise Infratil’s shares have continued to trade strongly following the raise, closing at \$10.60 a share yesterday.

“Increasing our ownership in One NZ provides Infratil with both enhanced flexibility and a renewed focus on long-term value creation to support One’s continued success. Over the first four years, Infratil’s investment in One NZ generated a return of 25.4% per annum.

“As Infratil’s digital infrastructure platform expands globally into a growing network of partnerships, we have also increased our stake in the UK data centre platform, Kao Data. With a majority holding of 53%, our new shareholding offers streamlined ownership and will provide further support to facilitate Kao Data’s growth.

“During the period, we added to our digital infrastructure portfolio with a conditional investment in Console Connect. Subject to regulatory approvals, we have committed between US\$160 million and US\$295 million, which will result in Infratil owning between 60% to 80% of the business. Console Connect invests in new subsea fibre optic cables and simplifies the process of connecting to data centres, partners, clouds, and various applications on a global scale. Its platform serves approximately 17% of global internet over 150 countries.

Mr Boyes highlighted that Infratil retains significant liquidity to support further internal and external investment opportunities with \$1.0 billion of available capacity to fund growth, including significant undrawn corporate facilities. At 30 September, gearing was 19.7%, up from 9.8% at 31 March.

“As we head into a period which is likely to be dominated by a continuation of the macro-economic uncertainty that we are currently experiencing, we are excited about the level of opportunity for continued investment across our existing portfolio. These opportunities are likely to continue to exceed our available capital, allowing us to continue to prioritise the highest value opportunities for shareholders.

“In terms of our returns to shareholders, we will pay a partially imputed interim dividend of 7.00 cents per share, a 3.7% increase from the prior year. Over the first half of FY2024, Infratil has delivered a total shareholder return of 14.1%, while the NZX50 was down 6.6% over the period. For the 12 months to 30 September 2023, Infratil’s total shareholder return was 22.3%.

"Infratil's portfolio continues to deliver outstanding returns to shareholders, and the investments we have made this year should support future returns in line with our stated target return of 11 to 15 % per annum to shareholders over a 10-year period.

### **Investor Briefing**

There will be a briefing for institutional investors, analysts and media commencing at 10.00am. A webcast of the presentation will be available live on the below link.

### **About Infratil:**

Launched in 1994, Infratil Limited is a New Zealand headquartered, global infrastructure investment company ([NZX: IFT](#), [ASX: IFT](#)). Infratil's purpose is to invest wisely in ideas that matter and, in doing so, create long-term value for shareholders. It invests in renewables, digital infrastructure, healthcare and airports, with operations in New Zealand, Australia, Europe, Asia and the United States. With group assets currently in excess of NZ\$12 billion, Infratil targets returns to shareholders of 11-15% p.a. over the long-term.

**Infratil Interim Results Announcement**  
For the six months ended 30 September 2023

# Disclaimer

This presentation has been prepared by Infratil Limited (NZ company number 597366, NZX:IFT; ASX:IFT) (the 'Company')

To the maximum extent permitted by law, the Company, its affiliates and each of their respective affiliates, related bodies corporate, directors, officers, partners, employees and agents will not be liable (whether in tort (including negligence) or otherwise) to you or any other person in relation to this presentation

## Information

This presentation contains summary information about the Company and its activities which is current as at the date of this presentation. The information in this presentation is of a general nature and does not purport to be complete nor does it contain all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a product disclosure statement under the Financial Markets Conduct Act 2013 or the Australian Corporations Act 2001 (Cth).

This presentation should be read in conjunction with the Company's Interim Report for the period ended 30 September 2023, market releases and other periodic and continuous disclosure announcements, which are available at [www.nzx.com](http://www.nzx.com), [www.asx.com.au](http://www.asx.com.au) or [infratil.com/for-investors/](http://infratil.com/for-investors/).

## Not financial product advice

This presentation is for information purposes only and is not financial, legal, tax, investment or other advice or a recommendation to acquire the Company's securities and has been prepared without taking into account the objectives, financial situation or needs of prospective investors.

## Future Performance

This presentation may contain certain "forward-looking statements" about the Company and the environment in which the Company operates, such as indications of, and guidance on, future earnings, financial position and performance. Forward-looking information is inherently uncertain and subject to contingencies outside of the Company's control, and the Company gives no representation, warranty or assurance that actual outcomes or performance will not materially differ from the forward-looking statements.

## Non-GAAP Financial Information

This presentation contains certain financial information and measures that are "non-GAAP financial information" under the FMA Guidance Note on disclosing non-GAAP financial information, "non-IFRS financial information" under Regulatory Guide 230: 'Disclosing non-IFRS financial information' published by the Australian Securities and Investments Commission (ASIC) and are not recognised under New Zealand equivalents to International Financial Reporting Standards (NZ IFRS), Australian Accounting Standards (AAS) or International Financial Reporting Standards (IFRS). The non-IFRS/GAAP financial information and financial measures include Proportionate EBITDAF, EBITDAF and EBITDA. The non-IFRS/GAAP financial information and financial measures do not have a standardised meaning prescribed by the NZ IFRS, AAS or IFRS, should not be viewed in isolation and should not be construed as an alternative to other financial measures determined in accordance with NZ IFRS, AAS or IFRS, and therefore, may not be comparable to similarly titled measures presented by other entities. Although Infratil believes the non-IFRS/GAAP financial information and financial measures provide useful information to users in measuring the financial performance and condition of Infratil, you are cautioned not to place undue reliance on any non-IFRS/GAAP financial information or financial measures included in this presentation.

Proportionate EBITDAF represents Infratil's share of the consolidated net earnings before interest, tax, depreciation, amortisation, financial derivative movements, revaluations, gains or losses on the sales of investments, and excludes acquisition and sale related transaction costs and International Portfolio Incentive Fees. Further information on how Infratil calculates Proportionate EBITDAF can be found at Appendix Four.

## Programme

- Portfolio Composition
- Half Year Highlights
- Operating Company Updates
- Portfolio Outlook
- Sustainability
- FY2024 Guidance
- Summary

# Portfolio Composition

In the period we acquired a further 49.95% of One NZ and entered into a conditional agreement with HKT to accelerate the growth of Console Connect

## Digital

65% (+8%)

one.nz

## Renewables

18% (-3%)

## Healthcare

11% (-3%)

## Airports

6% (-2%)

# Half Year Highlights

Strong operating performance across the Group, with all key operating businesses lifting EBITDAF from the prior period

Net parent surplus

**\$1,175m**

Proportionate EBITDAF

**\$400m**

Investment

**\$2,706m**

Available capital

**\$1,035m**

Total shareholder return

**14.1%**

Partially-imputed interim dividend

**7.0cps**

# CDC Data Centres

CDC is well positioned to take advantage of growing demand for cloud and generative AI, with significant interest from new and existing customers

## Year to date

- EBITDAF for the period was A\$123.3 million, A\$25.7 million (26.3%) up from the prior period
- Construction commenced on 223MW of additional capacity in response to demand signals across CDC's customer base
- Weighted average lease term (including options) now 24.9 years, up from 24.0 years at 31 March
- Independent valuation of Infratil's shareholding increased to between A\$3.6 billion and A\$4.2 billion<sup>1</sup>, up 13.0% on the midpoint from 31 March

## Outlook

- 265MW of capacity under construction across Canberra, Sydney, Melbourne, and Auckland
- The first phase of CDC's Melbourne campus (32MW) is expected to be completed at the beginning of FY2025
- Significant portfolio of future build opportunities across all CDC geographies, sufficient to take total capacity beyond 1,050MW
- FY2024 EBITDAF guidance of A\$260 million to A\$270 million is maintained, up 23.0% at the midpoint from FY2023

1. Assumes 1,050MW of total built capacity, 268MW is in operation at 30 September 2023, 265MW is under construction and 517MW is classified as future builds. The blended cost of equity used in the valuation was 11.20% (31 March 2023: 9.60%)

With pipeline strengthened and increased certainty around regulatory settings, focus now clearly on development execution

## Year to date

- EBITDAF for the period was US\$57.7 million, up US\$17.0 million (41.7%) from the prior period
- Repowering of the 306MW Milford wind projects in Utah completed during the period
- As of 30 September 2023, construction underway of 861MW, across four projects, with Umbriel (a 202MW solar development in Texas) expected to complete by the end of FY2024
- Infratil has increased its commitment to Longroad by US\$65 million during the period, with the additional commitment to be used to fund continued development activity and further expansion of the operating base
- Independent valuation of Infratil's shareholding has increased slightly from US\$994 million to US\$999 million since 31 March 2023, with an increase in risk-free rates from 3.9% to 4.6% offsetting the increase in the longer-term pipeline

## Outlook

- Post 30 September, Longroad has announced financial close on its largest ever project, Sun Streams 4 (677MW), which has now commenced construction
- Serrano (444MW) expected to reach financial close and start construction by the end of FY2024
- 28.3GW development pipeline now includes 72 projects out to 2030
- FY2024 EBITDAF guidance of US\$50 million to US\$60 million

# Development Platforms

Tangible development progress across Infratil's broader Renewables platform during the period

- Total pipeline of projects expanded to 10GW across seven countries, with contributions from all active markets and from France for the first time
- Successful sale of an 800MW pipeline of wind and solar projects in Northern Europe
- On-going sale processes for portions of pipelines in Italy and in Germany
- Source Galileo, a joint venture with an experienced offshore wind team, has attracted investment from the Ingka Group, the world's largest IKEA retailer, and from Kansai, the utility operator from Osaka, Japan
- Infratil's equity commitment increased by €20 million during the period to €68 million

- 6.9GW pipeline across six countries
- Vanda RE, 75% owned by Gurin Energy has received conditional approval to develop 2GW of renewable energy in Indonesia to secure 300MW of non-intermittent renewable energy imports into Singapore
- Construction underway on its first 76MWp solar project in the Philippines
- Awarded two conditional renewable energy Power Purchase Agreements by the Thailand government

- Team of 13 established in Australia
- Project pipeline of 2.25GW in the nine months since establishment
- Land secured under option for a battery installation in Victoria and a land licence for a 1GW+ wind site in Queensland

# Diagnostic Imaging

Focus remains on operating performance in a challenging environment, while capturing the return of volume growth

## Year to date

- EBITDAF for the period was \$94.4 million, \$13.7 million (16.9%) up from the prior period as scan volume growth recovers across New Zealand and Australia, tempered by labour and cost pressure
- Scanning volumes have increased 5.8% on the prior period, with Qscan experiencing a 6.7% increase in volumes, and RHCNZ a 4.5% increase
- Platform EBITDAF margin is 28.6% for the period, up from 27.0% in the prior comparable period
- Three new clinics opened, one in Papamoa, New Zealand and two clinics in Australia (Newstead and Maroochydore)
- Senior management teams have been refreshed and strengthened, with new capability added across both businesses
- Implementation of major IT initiatives and the introduction of new efficiency schemes is seeing an uplift in productivity across both businesses

## Outlook

- FY2024 EBITDAF forecast range narrowed to \$180 million to \$200 million, with the top end of the range decreasing from \$220 million
- RHCNZ is executing on its efforts to improve access to advanced diagnostic services in currently under-served areas, with a new Whangarei clinic expected to open by the end of FY2024, and a new Whanganui clinic targeted for the end of next year
- Expecting further benefits to be realised from the implementation of IT and remuneration projects, as well as clinical efficiency improvements and nationalisation of best practice

# Wellington Airport

Continuing  
passenger  
recovery and  
underlying  
demand for travel  
has contributed  
to strong year on  
year earnings  
growth

## Year to date

- EBITDAF for the period was \$50.6 million, \$10.4 million (25.9%) up from the prior period
- Improved recovery following Covid has allowed for distributions to resume earlier than expected
- Passenger numbers for the period were 2.7 million, up 5.7% on the prior period
- Efforts to attract new routes are bearing fruit, including the return of Qantas' Brisbane route
- Capital works programme is progressing well, including taxiway resurfacing, development of a new airport fire station and earthquake strengthening projects
- Continued progress on sustainability over the period, rating fifth in the world for participating airports in the GRESB independent global assessment and commenced the process for setting a science-based target to reduce emissions

## Outlook

- Pricing consultation with airlines for FY2025-2029 is progressing and is expected to complete by March 2024
- FY2024 EBITDAF guidance range unchanged at \$105 million - \$110 million
- Wellington City Council to consult with the public on selling its 34% stake which we will watch with interest

# One NZ

Solid growth in Consumer and SME mobile, supported by continued capital investment in the mobile network

## Year to date

- EBITDAF for the period was \$279.4 million, up \$21.5 million (8.3%) from the prior year
- EBITDAF margin continues to expand, increasing to 29.0% from 26.6% at 31 March 2023 through lower brand and rebrand costs and mobile outperformance
- Mobile ARPU increased to \$32 from \$28 at 31 March 2023, reflecting benefits from higher value endless data and unlimited data plans, roaming revenues returning, and annual pricing adjustments
- \$123 million capital projects spend, including building and upgrading 219 4G and 5G sites across the country and implementation of a new prepaid mobile platform, which simplifies IT systems, enabling new features and supporting customer retention

## Outlook

- FY2024 EBITDAF guidance maintained at \$580 million to \$620 million, with continued momentum in mobile and forecast completion of wholesale contracts and cost out initiatives
- We continue to see a competitive but stable market structure and we remain focused on investing in our mobile network to maintain co-leadership
- Customer satisfaction continues to improve and is reported publicly through the One NZ website

## Renewed emphasis on transition to an independent power producer

### Year to date

- EBITDAF for the period is \$77.8 million, up \$7.8 million (11.1%) on the prior period
- Generation production volumes were 1,110GWh, up 13.7% from 976GWh in the prior period
- Renewed emphasis on operational performance, a realigned approach to asset management focused on delivering value, increased momentum in the generation development pipeline, and identification of cost efficiencies
- Capital expenditure programme review has led to significant savings in forecast future spend

### Outlook

- FY2024 EBITDAF guidance remains unchanged at \$120 million to \$140 million
- Landholder agreements or options in place for more than 950MW of solar and wind development projects across the North and South Islands, and an additional ~850MW of prospective wind and solar developments at advanced stages of negotiation
- Upside expected as volume of electricity currently being sold to Mercury reduces from October next year. Interest in long-term, large volume offtakes from multiple parties in relation to existing assets and planned new developments
- Lower cashflow volatility under such arrangements would provide greater flexibility in capital structure, thereby supporting development opportunities and distributions

Occupancy  
remains high  
against a growing  
portfolio, following  
completion of  
several successful  
developments

## Year to date

- Underlying Profit<sup>1</sup> for the period is A\$95.3 million, up A\$63.4 million on the prior period
- Total unit sales of 286 were up from 237 in the prior period and comprised 83 new units and 203 resales. New unit sales were driven by completion of The Verge Stage 2 and The Rise Stage 3 and represent 83% of available new stock
- Occupancy is at 92.6%, which compares favourably to the Australian industry average of 89%
- Most villages are functionally full, with waiting lists at 25 out of 28 villages
- 158 independent living apartments have been completed so far in FY2024, 66 at The Verge Stage 2 in June and 92 at The Green in October. A further 62 independent living apartments and a 10-suite Care Hub are on track for completion in Q4 FY2024
- **Outlook**
- 42 independent living apartments are under construction at Tarragal Glen and due for completion in Q4 FY2025
- A number of possible future village sites are under consideration including a new site in Brisbane with potential for 100 units and a 10-bed Care Hub
- Current development pipeline supports a development run rate of 200+ on average new units per annum over the coming three financial years

1. Underlying Profit is an unaudited non-GAAP measure which removes the impact of unrealised fair value movements on investment properties, impairment of property, plant and equipment, one-off gains and deferred taxation, while adding back realised resale gains and realised development margins

# Sustainability

Key elements of our sustainability framework have been established following market recognised frameworks and standards

- Infratil released its inaugural sustainability report in August which covers:
  - Infratil's refreshed sustainability strategy and ESG material issues – good governance of ESG issues is a prominent area of focus
  - Emissions reporting in line with the GHG Protocol and Partnership for Carbon Accounting Financials
  - Portfolio case studies to bring the key ESG issues to life
- Infratil became the first financial institution in New Zealand to have its emissions reduction targets validated by the Science Based Targets initiative ('SBTi') under the framework for financial institutions, committing to:
  - Maintain zero absolute scope 1 and 2 GHG emissions through to FY2030;
  - Reduce emissions from Board travel 25% from 2023 levels by 2030; and
  - 60% of its portfolio by fair value<sup>1</sup> setting SBTi targets by 2028, and 100% by 2030
- Infratil will shortly release its inaugural climate-related disclosures for FY2023, which addresses most of the reporting requirements of the Aotearoa New Zealand Climate Standards. Infratil will be required to produce mandatory reporting against these standards from FY2024

1. Fair value as determined by independent valuations, listed market value, or book value

# Debt Capacity & Facilities

Significant liquidity available to support investment opportunities; gearing remains at appropriate levels

(\$millions)	30 September 2023	31 March 2023
Net bank debt	609.8	(593.2)
Infrastructure bonds	1,241.0	1,085.9
Perpetual bonds	231.9	231.9
<b>Total net debt</b>	<b>2,082.7</b>	<b>724.6</b>
Market value of equity	8,493.6	6,660.6
<b>Total capital</b>	<b>10,576.3</b>	<b>7,385.2</b>
Gearing <sup>1</sup>	19.7%	9.8%
Undrawn bank facilities <sup>2</sup>	1,009.5	898.4
100% subsidiaries cash	25.2	593.2
<b>Liquidity available</b>	<b>1,034.8</b>	<b>1,491.6</b>

- Significant undrawn bank facilities remain available following funding initiatives executed during the period
- \$277 million of bonds issued in the period, raising \$155 million in new debt and refinancing \$122 million of IFT210s that matured in September 2023
- No bond maturities in the remainder of FY2024, two bond maturities in FY2025 – \$56 million in June 2024 and \$100 million in December 2024
- \$200 million of acquisition facilities for the One NZ acquisition refinanced, remaining \$200 million expected to be refinanced by the end of FY2024
- Weighted average cost of drawn debt as at 30 September 2023 was 5.70%, 79% on a fixed rate basis. Formal interest rate hedging policy in place to smooth interest costs and ensure appropriate fixed rate hedging over a 10-year debt forecast horizon

1. Gearing calculated as total net debt / total capital based on the Infratil share price at 30 September 2023.  
 2. Infratil wholly owned undrawn bank facilities and maturity profile, excluding One NZ bank facilities which are held on a standalone basis.

# Portfolio Company Debt

Gearing and interest rate exposures at appropriate levels for the current economic environment

Portfolio Company Gearing <sup>1</sup>	30 September 2023	31 March 2023
CDC Data Centres	22.3%	22.8%
One NZ	32.1%	36.1%
Fortysouth	38.1%	39.6%
Kao Data	15.9%	15.8%
Manawa Energy	23.5%	22.2%
Longroad Energy <sup>2</sup>	-	-
Galileo	-	-
Gurin Energy	-	-
Mint Renewables	-	-
RHCNZ Medical Imaging	27.8%	30.2%
Qscan Group	28.3%	28.9%
RetireAustralia	22.4%	21.8%
Wellington Airport	39.2%	42.8%
Value Weighted Average Gearing of Portfolio Companies <sup>3</sup>	24.6%	24.5%

- Gearing is monitored across the portfolio in aggregate and at the individual portfolio company level
- Gearing has remained stable across the portfolio in the period and at appropriate levels on an individual basis
- Portfolio companies in the Core / Core + infrastructure segment generally have capacity to operate at higher gearing levels given the lower volatility in cashflows for those businesses
- Exposure to interest rates is monitored across each portfolio company and managed within approved treasury policy limits. Over 75% of drawn debt is hedged on a fixed rate basis as at 30 September 2023 across the Infratil portfolio
- Interest rate hedging policy limits require higher minimum hedging levels at the front of the hedging profile (typically at least 50%) and allow for higher maximum hedge levels (typically 90-100%). Policy limits then gradually reduce across the hedging profile out to a typical maximum hedging tenor of 5-7 years

1. Gearing calculated as total net debt / total capital based on most recent independent valuations, listed equity value or book value at 30 September 2023  
2. Holding company Net Debt position, excludes non-recourse project finance borrowing  
3. Calculated based on IFT's value weighted, proportionate share of Total Net Debt / Total Capital across all portfolio companies

# FY2024 Guidance

Confidence in operating performance has resulted in a lifting and narrowing of the guidance range

## Outlook

- FY2024 Proportionate EBITDAF guidance range is lifted and narrowed to \$820 million – \$850 million (previously \$800 million to \$840 million)
- Key guidance assumptions include:
  - CDC Data Centres EBITDAF of A\$260 million – A\$270 million (unchanged)
  - One NZ EBITDAF of \$580 million – \$620 million (unchanged)
  - Manawa Energy EBITDAF of \$120 million – \$140 million (unchanged)
  - Wellington Airport EBITDAF of \$105 million – \$110 million (unchanged)
  - Diagnostic Imaging EBITDAF of \$180 million – \$200 million (previously \$180 to \$220 million)
  - Longroad Energy EBITDAF of US\$50 million – US\$60 million
  - Renewables Platform EBITDAF loss of \$60 million (previously \$50 million)
  - Contributions from Kao Data and RetireAustralia in line with FY2023
- Forecast NZD/AUD 0.9248, NZD/USD 0.6115, NZD/EUR 0.5617, and NZD/GBP 0.4857
- Guidance is based on management's current expectations and assumptions about the trading performance, is subject to risks and uncertainties, and dependent on prevailing market conditions continuing throughout the outlook period
- Guidance is based on Infratil's continuing operations and assumes no major changes in the composition of the Infratil investment portfolio

# Valuation & Incentive Fees

CDC valuation uplift and progression of Longroad development pipeline partially offset by rising risk free rates across valuations

30 September (\$millions)	FY2023 Adjusted Valuation <sup>2</sup>	Capital	Distributions	Hurdle	FY2024 Adjusted Valuation <sup>2</sup>	Incentive Fee	IRR <sup>1</sup>
<b>Annual Incentive Fee</b>							
CDC	\$3,660.3	(\$34.6)	\$17.1	(\$220.9)	\$4,160.6	\$52.4	38.8%
Longroad Energy	\$1,185.8	(\$48.0)	\$18.4	(\$74.5)	\$1,256.8	(\$6.6)	63.2%
RetireAustralia	\$431.8	-	-	(\$26.0)	\$407.2	(\$10.1)	2.6%
Galileo	\$71.2	(\$22.7)	-	(\$6.5)	\$119.9	\$3.9	20.9%
Qscan	\$370.6	-	-	(\$22.3)	\$391.4	(\$0.3)	9.0%
	\$5,719.6	(\$105.3)	\$35.5	(\$350.2)	\$6,335.9	\$39.2	

- CDC's estimated fee is based on the independent valuation as at 30 September 2023, of which Infratil's share is valued in the range of A\$3,641 million to A\$4,186 million
- Longroad Energy's estimated fee is based on an independent valuation of US\$999 million at 30 September 2023
- RetireAustralia's estimated fee is based on the independent valuation as at 30 June 2023, of which Infratil's share is valued in the range of A\$336.0 million and A\$396.5 million
- Galileo's estimated fee is based on the independent valuation as at 30 June 2023, adjusted for capital calls, of which Infratil's share is valued between €58.9 million and €76.5 million
- Qscan's estimated fee is based on the independent valuation as at 30 June 2023, of which Infratil's share is valued in the range A\$334.6 million and A\$398.1 million
- For the March 2024 incentive fee test, Kao Data and Gurin Energy will be eligible for the initial incentive fee assessment

1. IRR is calculated in NZD after incentive fees and calculated as at 30 September 2023

2. Adjusted valuation is the independent valuation less estimated sale costs and taxes

# Summary

Focused on identifying a broad spectrum of opportunities, both in our existing portfolio and externally

- Strong operating performance across the Group, with all key operating businesses lifting EBITDAF from the prior period. Guidance narrowed and lifted
- The current uncertain macroeconomic backdrop underscores the importance of maintaining a diversified portfolio
- Over the past six months we have made several important investments across our portfolio which have been focused on digital and renewables
- The 49.95% acquisition of One NZ and associated equity raise resulted in a meaningful scaling of Infratil's portfolio
- Growing demand for cloud and generative AI is creating significant customer demand at CDC resulting in a material acceleration of its development plans
- With a strong pipeline and increased certainty around regulatory settings, Longroad's focus is now clearly on development execution
- Diagnostic imaging volume growth returning, with a continued focus on delivering operational performance in a challenging environment
- Liquidity retained to support investment opportunities; gearing remains at appropriate levels

# Shareholder Returns

Infratil continues its track record of outstanding returns

## Total Shareholder Return<sup>1</sup>

Period	Return
1 Year	22.3%
5 Year	27.5%
10 Year	20.7%
Inception – 29.5 years	18.8%

1. Accumulation returns are to 30 September 2023 based on a closing share price of \$10.21, the calculation assumes that shareholders reinvest dividends on the day they are earned and participate in any rights offerings.

# Financial Summary

Net parent surplus of \$1,174.9 million driven by the revaluation of Infratil's initial 49.95% stake in One NZ

Six months ended 30 September (\$Millions)	2023	2022
Operating revenue	1,460.6	951.0
Operating expenses	(940.9)	(450.0)
Operating earnings	519.7	501.0
International Incentive fees	(37.3)	(124.4)
Depreciation & amortisation	(180.7)	(51.1)
Net interest	(155.1)	(82.3)
Tax expense	(59.6)	(77.1)
Realisations and Revaluations	1,128.1	54.7
Net surplus (continuing)	1,215.1	220.8
Discontinued operations <sup>1</sup>	(0.6)	336.5
Net surplus after tax	1,214.5	557.3
Minority earnings	(39.6)	(206.8)
Net parent surplus	1,174.9	350.5

- Operating revenue reflects the inclusion of One NZ as a consolidated subsidiary from June 2023
- Incentive fees reflect the CDC valuation uplift and progression of Longroad development pipeline, partially offset by rising risk free rates across valuations
- Increase in depreciation & amortisation and net interest primarily due to the consolidation of One NZ from June 2023
- Realisations and revaluations includes a \$1,064.5 million revaluation of Infratil's initial 49.95% stake in One NZ, following the acquisition of a further 49.95% stake in June this year

1. Discontinued operations represent businesses that have been divested, or businesses which will be recovered principally through a sale transaction rather than through continuing use

# Proportionate EBITDAF

Strong growth reflects the increase in One NZ ownership and increased earnings at all key operating businesses

Six months ended 30 September (\$Millions)	2023	2022
CDC Data Centres	64.3	51.9
One NZ	225.1	128.8
Fortysouth	5.5	-
Kao Data	(1.6)	(1.5)
Manawa Energy	39.8	35.7
Longroad Energy	34.6	21.7
Galileo	(6.1)	(4.2)
Gurin Energy	(9.1)	(6.5)
Mint Renewables	(2.9)	-
RHCNZ Medical Imaging	30.7	26.6
Qscan Group	18.2	15.2
RetireAustralia	6.3	10.9
Wellington Airport	33.4	26.5
Corporate & other	(38.2)	(29.5)
Proportionate EBITDAF <sup>1</sup>	400.0	275.6
Trustpower Retail business	(0.4)	1.8
Total	399.6	277.4

- Infratil proportionate EBITDAF up 14.1% on a like for like basis, once the increase in stake of One NZ is normalised
- CDC earnings uplift driven by increased utilisation of data centres
- One NZ upside driven by Consumer and SME mobile growth and brand fee savings
- Longroad increase due to favourable merchant pricing and return to service of Prospero 1 and 2
- RHCNZ Group and Qscan both saw higher volumes and prices in the period
- Galileo and Gurin Energy reflect increasing development
- Corporate expenses reflect increased management fees driven by Infratil share price appreciation, higher levels of drawn debt and increased shares on issue

1. Proportionate EBITDAF represents Infratil's share of the consolidated net earnings before interest, tax, depreciation, amortisation, financial derivative movements, revaluations, gains or losses on the sales of investments, and excludes acquisition or sale related transaction costs and the impact of International Portfolio Incentive Fees. CDC EBITDAF excludes RMS payments to management shareholders. Accrued payments under this scheme are included in net external debt

# Earnings Reconciliation

Proportionate EBITDAF is an unaudited non-GAAP ('Generally Accepted Accounting Principles') measure of financial performance, presented to provide additional insight into management's view of the underlying business performance.

Specifically, in the context of operating businesses, Proportionate EBITDAF provides a metric that can be used to report on the operations of the business (as distinct from investing and other valuation movements).

Six months ended 30 September (\$Millions)	2023	2022
Net surplus after tax	1,214.5	557.3
<i>less:</i> Share of earnings of associate companies <sup>1</sup>	(173.9)	(346.6)
<i>plus:</i> Proportionate EBITDAF of associate companies	153.0	207.6
<i>less:</i> Minority share of subsidiaries <sup>2</sup> EBITDAF	(98.8)	(86.2)
<i>less:</i> Realisations and revaluations	(1,128.1)	(54.7)
<i>less:</i> Discontinued operations	0.6	(336.5)
Underlying earnings	(32.7)	(59.1)
<i>add back:</i> Depreciation & amortisation	180.7	51.1
<i>add back:</i> Net interest	155.1	82.3
<i>add back:</i> Tax expense	59.6	77.1
<i>add back:</i> International Portfolio Incentive fees	37.3	124.4
Proportionate EBITDAF	400.0	275.8

1. Associates include Infratil's investments in CDC, a part period of One NZ, Fortysouth, Galileo, Kao Data, Longroad Energy and RetireAustralia
2. Subsidiaries include Infratil's investments in Gurin Energy, Manawa Energy, Mint Renewables, Wellington Airport, Qscan Group, Pacific Radiology Group and a part period of One NZ

# Movements in Net Bank Debt

The Wholly Owned Group comprises Infratil and its wholly-owned subsidiaries and excludes CDC, One NZ Manawa Energy, Mint Renewables, Wellington Airport, Qscan Group, Pacific Radiology Group, Gurin Energy, RetireAustralia, Longroad Energy, Kao Data, Galileo and Fortysouth

Wholly Owned Net Bank Debt comprises the drawn bank facilities (net of cash on hand) of Infratil's wholly owned subsidiaries

Period ended (\$Millions)	30 September 2023	31 March 2023	30 September 2022
Opening Wholly Owned Net Bank (Debt)/Cash	593.1	405.7	773.0
Manawa Energy dividends	13.6	12.0	81.6
One NZ distributions and shareholder loan interest payments	18.6	166.3	14.7

# Proportionate Investment

Strong thematic tailwinds continue to provide valuable options for growth across Infratil's portfolio

Six months ended 30 September (\$Millions)	2023	2022
CDC Data Centres	105.6	230.0
One NZ	122.4	62.4
Fortysouth	2.6	-
Kao Data	48.7	12.5
Manawa Energy	16.3	9.3
Longroad Energy	381.3	56.9
RHCNZ Medical Imaging	9.3	5.7
Qscan Group	7.4	3.7
RetireAustralia	28.5	29.5
Wellington Airport	16.3	13.2
Capital Expenditure	738.4	423.2
One NZ	1,800.0	-
Kao Data	80.8	-
Gurin Energy	45.6	11.8
Galileo	23.0	15.9
Mint Renewables	1.8	-
Clearvision	16.3	20.8
Infratil Investment	1,967.5	48.5
Total Investment	2,705.9	471.7

- CDC has capacity under construction across Canberra, Sydney, Melbourne, and Auckland
- One NZ capex included building and upgrading 219 4G and 5G sites across the country and implementation of a new prepaid mobile platform
- Kao Data is nearing completion of KLON-02 at Harlow
- Longroad Energy construction underway of 861MW, across four projects. Sun Streams 4 construction commenced in November
- RetireAustralia have completed 158 independent living apartments so far in FY2024
- Wellington Airport capital works programme progressing well, including taxiway resurfacing, development of a new airport fire station and earthquake strengthening projects
- Infratil Investment includes the acquisition of the 49.95% stake in One NZ and an additional 12.9% stake in Kao Data

# Asset Valuations

This table shows valuations of Infratil's assets. The valuation of Infratil's investments in CDC Data Centres One NZ, Longroad Energy, Galileo, RHCNZ Medical Imaging, Qscan Group, and RetireAustralia reflect the midpoint of the most recent independent valuations prepared for Infratil. In certain cases these valuations are not as at 30 September and have been adjusted to reflect cash flows between 30 September and valuation dates, but do not reflect other fair value movements.

The valuation of Manawa Energy is shown based on the market price per the NZX.

Infratil does not commission independent valuations for its other assets and these are presented at book value.

(\$Millions)	30 September 2023	31 March 2023
CDC Data Centres	4,160.6	3,660.3
One NZ	3,022.8	1,222.8
Fortysouth	227.8	207.7
Kao Data	280.0	255.7
Manawa Energy	723.2	795.2
Longroad Energy	1,674.5	1,583.4
Galileo	119.9	71.2
Gurin Energy	33.9	7.9
Mint Renewables	2.5	3.1
RHCNZ Medical Imaging	557.5	511.6
Qscan Group	391.4	370.6
RetireAustralia	407.2	431.8
Wellington Airport	651.4	667.4
Clearvision	139.6	125.2
Property	108.7	115.2
	12,501.0	10,029.1

- CDC, Longroad Energy, and RHCNZ Medical Imaging reflect the midpoint of 30 September independent valuations
- Galileo, Qscan, and RetireAustralia reflect the midpoint of 30 June independent valuations, adjusted to reflect cash flows between 30 September and the valuation date
- One NZ reflects the midpoint of 31 March independent valuation, adjusted to also include the additional \$1.8 billion invested during the period
- The fair value of Manawa Energy is shown based on the market price per the NZX
- Fortysouth, Kao Data, Mint Renewables, Wellington Airport, Clearvision and Property reflect their accounting book value as at 30 September

# Half Year Snapshot

In June we announced that we had reached an agreement to acquire an additional 49.95% stake in One NZ for \$1.8 billion, increasing our ownership from 49.95% to 99.9%.

Alongside the 49.95% acquisition of One NZ, we completed the largest equity raise in our history, raising \$935 million at \$9.20 per share.

In July we announced a conditional agreement with HKT, a leading telecommunications company in Hong Kong, to establish a strategic partnership to accelerate the growth of global connectivity platform, Console Connect.

We increased our stake in UK data centre platform, Kao Data from 40% to 53%. The new shareholding structure provides streamlined ownership and will help accelerate Kao Data's growth.

Our first Sustainability Report was released in August, focusing on the four pillars that reflect the most material ESG issues for Infratil and our stakeholders - Governance, Leadership, Climate & Nature, and People.

We became the first financial institution in New Zealand to have our science-based emissions reduction targets validated by the Science Based Targets initiative under its Financial Institutions framework.

Longroad Energy announced financial close and start of construction on its largest ever solar and storage project to date, the 677MW Sun Streams 4 project in Arizona.

Gurū Energy has been awarded one of five conditional approvals to help establish a green electricity trading corridor between Indonesia and Singapore. The project plans to deliver 300MW of non-intermittent renewable energy to the Singapore market commencing in 2027.

Galileo successfully sold its first set of projects in Ireland, totalling 0.8GW, with on-going sale processes for two pipelines of solar projects.

CDC has embarked on an accelerated development plan, with 265MW of data centre facilities currently under construction, bringing forward development across multiple locations, including Canberra, Sydney, Melbourne, and Auckland.

1 EBITDAF is an unaudited non-GAAP measure of net earnings before interest, tax, depreciation, amortisation, financial derivative movements, revaluations, and non-operating gains or losses on the sales of investments and assets. EBITDAF does not have a standardised meaning and should not be viewed in isolation, nor considered a substitute for measures reported in accordance with NZ IFRS, as it may not be comparable to similar financial information presented by other entities. Proportionate EBITDAF shows Infratil's operating costs and its share of the EBITDAF of the companies it has invested in. It excludes discontinued operations, acquisition or sale-related transaction costs and management incentive fees. A reconciliation of net profit after tax to Proportionate EBITDAF is provided in the 30 September 2023 Results Presentation.

2 Investment and capital spending by Infratil, and Infratil's share of investee company capital spending.

3 Infratil Corporate net debt.

4 Shareholder returns are 6-month returns assuming that dividends are reinvested on the date of payment.

# Half Year Review

## Joint Letter from the Chair and Chief Executive

**Over the past six months, we have made a number of important investments across our portfolio, each carefully considered and driven by our core goal of generating value for our shareholders by investing in ideas that matter.**

At Infratil, our investment philosophy is founded on identifying a broad spectrum of opportunities, both in our existing portfolio and externally, and then allocating capital to these options in a manner that optimises outcomes for you, our shareholders. This includes investing in a diversified portfolio of assets to deliver a blended return, while also understanding the level of risk associated with delivering those returns.

Our goal is to achieve shareholder returns of 11–15% per annum after tax on a rolling 10-year basis, through a mix of share price appreciation and dividend returns. Over the first half of FY2024, Infratil has delivered a total shareholder return of 14.1%, while the NZX50 was down 6.6% over the period. For the 12 months to 30 September 2023, Infratil's total shareholder return was 22.3%.

On a 10-year basis, which is consistent with the period for which Infratil sets its target return, Infratil's total shareholder return was 20.7% per annum, compared to the NZX50 which delivered a return of 9.1% over the same period.

Over the past six months we have paid the dividend declared at our FY2023 annual results announcement of 12.5 cents per share ('cps') with 4.9 cps of imputation credits, and with this report we are pleased to declare an interim dividend for FY2024 of 7.00 cps cash and 1.15 cps of imputation credits, a 3.7% increase on the prior year.

### Navigating an evolving investment environment

Infratil's shareholder returns give us continuing confidence in the investments in our target sectors – digital infrastructure, renewable energy, and advanced healthcare – despite widespread economic uncertainty. The global investment landscape continues to evolve in the wake of the pandemic. Geopolitical tensions and persistent inflation are some of the key drivers creating macro-economic headwinds. While headline inflation decreased recently, core inflation has proven to be more resistant, further prompting central banks to enact a series of interest rate hikes. Listed markets have witnessed corrections, with both the NZX and ASX experiencing declines during the period.

We are also seeing second-order impacts from the covid pandemic with a surge in travel, accelerated automation and changes in work patterns, all testament to the adaptability and resilience of economies in the face of adversity. The emergence of generative-AI, particularly within our digital infrastructure portfolio, stands out as another defining theme in the current investment landscape. At the same time, the global push to combat climate change and decarbonise the global economy has seen policy mechanisms designed to hasten the transition as governments around the world grapple with meeting their own net-zero commitments. These prevailing tailwinds are fuelling the demand for growth capital across both our digital and renewables businesses.

In the data centre domain, the exponential growth in demand has led to significant capital opportunities. However, a shortage of capital for many players in these sectors underscores the significance of Infratil's approach of maintaining a strong and flexible balance sheet. We remain focused on maintaining portfolio liquidity and flexibility, providing us with the ability to capitalise on opportunities both across the portfolio and externally as they arise. Despite the looming clouds of global and local economic uncertainty, the thematic tailwinds continue to underpin the investment across our diverse portfolio.

### A marquee investment

Undoubtedly one of the highlights from the last six months was the agreement we reached with Brookfield in June to acquire the remaining 49.95% stake in One NZ that we didn't already own. It was the culmination of a six-year journey that began well before our initial investment in May 2019, and then ended with securing 49.95% this year.

One NZ isn't just an asset; it is critical infrastructure in a modern economy. Increasing our ownership provides Infratil with both enhanced flexibility and a renewed focus on long-term value creation to support One NZ's continued success. Over the first four years, Infratil's investment in One NZ generated a return of 25.4% per annum, with the additional investment expected to deliver equity returns of 10–12%+ per annum and exhibit consistent earnings growth.

During the period, we added to our digital infrastructure portfolio with a conditional investment in Console Connect, an Asian-based top-3 global software-defined interconnection platform. Console Connect invests in new subsea fibre optic cables and simplifies the process of connecting to data centres, partners, clouds, and various applications on a global scale. Its fully automated switching and routing capabilities provide secure and efficient connectivity across the world. The platform's reach is impressive, serving approximately 17% of global internet traffic and extending its services to over 150 countries.

Subject to regulatory approvals, we have committed US\$160 million, with up to US\$295 million of additional capital over the following two years, which will result in Infratil owning between 60% to 80% of the business. Regulatory approvals include telecommunications and foreign investment regulations, as well as merger approvals in multiple jurisdictions. The anticipated completion is currently expected by the third quarter of 2024, marking a significant milestone in globally diversifying our investments.

"At Infratil, our investment philosophy is founded on identifying a broad spectrum of opportunities, both in our existing portfolio and externally, and then allocating capital to these options in a manner that optimises outcomes for you, our shareholders."

For personal use only

### Focused on a flexible, resilient capital structure

Infratil continues to enjoy strong investment community support, with our equity raise, conducted as part of the One NZ transaction, providing significant funding capacity to support investments in growth opportunities across the portfolio. The Institutional Placement and Retail Offer represented not only the largest raise Infratil has ever undertaken, but also one of the largest in New Zealand's corporate history, with the total equity raised exceeding \$935 million.

Infratil's increasing market capitalisation and liquidity has attracted new investors, including new international institutions, to our shareholder register over the past six months. While New Zealand retail ownership has decreased during this period, our robust retail investor base complements the increase in international institutional ownership. We remain committed to our retail shareholders, having recently held 15 meetings across New Zealand, attended by over 1,800 retail investors in the last six months.

We retain considerable funding capacity and flexibility to support further investment across our portfolio. Immediately following the transaction, we launched a new retail bond offer. This initiative saw \$150 million of IFT330 Bonds issued in July, while \$127.2 million of IFT340 Bonds were issued through the rollover of \$122.1 million of maturing IFT210 Bonds in September.

### Making meaningful commitments: prioritising climate action

Investors are increasingly supporting sustainable investments. A recent Responsible Investment Association Australasia report revealed that 'responsible' investment funds in New Zealand are surpassing traditional managed funds for the first time. In 2022, these responsible investment funds reached a record \$183 billion, constituting 52% of the market.

Recognising the shifting landscape, our approach to sustainability continues to evolve. In August, we published our inaugural sustainability report, a comprehensive document outlining our refreshed

sustainability strategy, material environmental, social, and corporate governance ('ESG') issues, emissions footprint, and illustrative case studies drawn from our portfolio. These case studies serve to breathe life into the key ESG issues we are focused on across our portfolio. The sector diversity of our portfolio contributes positively to various aspects of sustainability, from renewable energy generation to the provision of healthcare services and the facilitation of connectivity.

The pillar of 'Climate and Nature' stands as a cornerstone of our refreshed sustainability strategy. Society is already grappling with the impacts of climate change, as evidenced by recent extreme weather events in New Zealand and across the globe. Our investors, too, are vocal about their desire to see a future characterised by a liveable climate, resilient and sustainable infrastructure, prosperous communities with abundant job opportunities, and a thriving natural environment.

As a company dedicated to playing our role helping to shape a sustainable future, Infratil is proud to be the first financial institution in New Zealand to have SBTi (Science Based Targets initiative) validation of our climate targets - an achievement that signifies our credible commitment to climate action.

Targets are considered 'science-based' if they are in line with what the latest climate science deems necessary to meet the goals of the Paris Agreement - limiting global warming to 1.5°C above pre-industrial levels.

Our targets involve a commitment to maintaining zero absolute scope 1 and 2 GHG emissions and a target to reduce absolute scope 3 GHG emissions from business travel. In addition, we have also set a portfolio coverage target which means that each of our portfolio companies will also set their own validated targets.

Additionally, we will continue to focus on sectors that support decarbonisation, such as renewable energy, and apply our investment screening criteria, particularly with regard to high emissions intensity sectors to show our commitment to climate action in our approach and investments.

## Sector updates

### Digital Infrastructure

Demand for data centres globally is experiencing an unprecedented surge, and CDC is very well positioned to capture this growing demand with large campus facilities ideally suited for the rollout of multi-megawatt deployments.

Increasingly important is the co-locating of existing customer workloads and generative AI inference workloads within the same data centre. In this landscape, rapid project execution and the ability to respond swiftly to customer requirements are paramount. CDC has embarked on an ambitious development plan, bringing forward its substantial development pipeline across multiple locations, including Canberra, Sydney, Melbourne, and Auckland. The accelerated plan includes an increase of 223MW of facilities under construction, with further future capacity expansion now totalling 517MW.

The independent valuation of Infratil's CDC investment at 30 September 2023 grew strongly, increasing A\$448 million over the six months since 31 March 2023. This equates to approximately NZ\$0.58 per Infratil share, showcasing the substantial value inherent in this investment.

As Infratil's digital infrastructure platform expands globally into a growing network of partnerships, we have also increased our stake in the UK data centre platform, Kao Data. With a majority holding of 53%, our new shareholding offers streamlined ownership and will provide further support to facilitate Kao Data's growth.

Kao Data is scaling its presence across the UK. Notably, it has recently announced an expansion into Manchester - the planned 40MW site will support Greater Manchester's growing technology ecosystem and the UK's largest high-performance computing and artificial intelligence sectors outside of London and the Oxford-Cambridge arc.

### Renewable Energy

Our North American renewables business, Longroad Energy, is currently undertaking the largest capital works project in its history. Beyond its operational and under-construction projects - it has five projects totalling 1.5GW under construction - Longroad maintains a development pipeline spanning 28.3GW, consisting of wind, solar, and storage assets across more than 20 American states.

Recent U.S. legislation - the Inflation Reduction Act - has delivered the renewable energy sector with nearly US\$400 billion in federal funding, with the explicit goal of substantially reducing the nation's carbon emissions by the end of this decade. Longroad's pipeline is now 60% larger than it envisaged at the beginning of 2023, including both near-term and long-term projects, and positions Longroad as a substantial player in the U.S. renewable energy sector.

Sun Streams 4 and Serrano are two Arizona-based development priorities Longroad is currently working through. Sun Streams 4 started construction on 1 November 2023, while Serrano is

expected to reach the project milestones required to start construction before the end of the year. Between them, these projects will represent 1.1GW of new solar and storage facilities.

Our other renewables platforms around the world are also gaining momentum. Gurin Energy, our pan-Asian renewable energy venture, has received one of five conditional approvals to establish a green electricity trading corridor between Indonesia and Singapore. This ambitious project aims to deliver 300MW of non-intermittent renewable energy to the Singapore market, commencing in 2027. The plan includes the generation of power on the Riau Islands in Indonesia, supported by 2GW of solar photovoltaic installed capacity and approximately 4.4GWh of battery storage - making it one of the largest projects of its kind in the world.

In Northern Europe, Galileo has successfully sold its share of a pipeline of projects, totalling 0.8GW, with on-going sale processes for others. Additionally, Source Galileo, a joint venture with an experienced wind offshore team, has attracted investment from Ingka Group, the world's largest IKEA retailer, and from Kansai, the utility operator from Osaka, Japan.

Back in the Asia-Pacific region, Mint Renewables has secured land under option for a battery installation in Victoria and a land licence for a 1GW wind site in Queensland. The breadth of opportunities across these diverse platforms demonstrates the value they bring to our portfolio and the appeal they hold for external capital seeking investment.

With the sale of Manawa Energy's retail business now complete, Manawa is entering a phase focused on optimising its existing options and positioning itself to deliver long-term value for shareholders. This future potential is underpinned by a well-performing operating portfolio, particularly relevant in the context of New Zealand's accelerating renewable energy drive.

During the current period production volumes were 1,110GWh across the portfolio, up 13.7% from 976GWh in the prior period. South Island volumes displayed strength, driven by increased use of storage in preparation for an extended planned outage at Waipori and the capture of strong prices observed throughout the second quarter.

### Advanced Healthcare Infrastructure

While relatively new to Infratil's portfolio, the Healthcare sector is a key component of our portfolio. Our performance in New Zealand is in line with our expectations, while the environment in Australia has been more volatile and is taking longer to recover from the covid tail. Steady progress continues to be made in a challenging cost and labour market.

In New Zealand with RHCNZ Medical Imaging Group – which delivers 33% of New Zealand's radiology services (both public and private) through Auckland Radiology, Bay Radiology and Pacific Radiology – volumes continue to track ahead of forecast and the prior year, with revenue up 12% over the prior year. The business has seen competition impact the back end of the period, but underlying growth has more than offset this.

Qscan has demonstrated robust growth, with half-year revenues surpassing the previous year by 12%, albeit slightly below budget. Volume growth has nearly returned to historic trends, and we anticipate additional pricing uplift in November 2023 from the added Medicare indexation of 0.5%.

Our focus remains on leveraging our scale to deliver the highest level of service to patients, referrers, and funders. This commitment entails making the type of investment that smaller operators are unable to – including investment in leading IT solutions and ongoing enhancement of our capabilities and human resources. These strategic investments place us in a unique position in New Zealand to offer national service offerings to agencies such as Te Whatu Ora (Health New Zealand) and Te Aka Whai Ora (Māori Health Authority), where we can deliver a consistent world-class radiology service at a local level.

Our commitment to excellence extends to projects in both Australia and New Zealand, including continued investment in the latest state-of-the-art imaging equipment and by expanding our footprint through the opening of new clinics. The healthcare sector is a dynamic and evolving landscape, and we are well positioned to continue to partner with special medical practices to deliver these essential services.

RetireAustralia continues to perform well, with strong trading and occupancy. Waitlists are now established at 25 villages, with low overall vacancy. The near-term development pipeline remains robust, with RetireAustralia on track to achieve the completion of 254 independent living units in FY2024.

During the first quarter of 2024, the first of RetireAustralia's Care Hubs is forecast to reach practical completion (in addition to 62 independent living apartments comprising Stage 3 of 'The Verge', Gold Coast). A Care Hub is a genuine alternative to aged care, offering compassionate and person-centred care in a boutique and homelike environment. The costs are carried by the consumer and can be partially offset if they have a Home Care Package.

### Wellington Airport

Wellington Airport continues its robust recovery, with domestic and international passenger volumes standing at 86% and 72% of pre-covid levels, respectively. The reintroduction of a Wellington to Brisbane Qantas service in October has been well-received, restoring a service that was last operated seasonally in 2015.

In the coming months, the Wellington Airport team will focus on finalising its five-year pricing consultation with airlines. The new pricing structure is set to conclude by 1 March 2024, and will cover aeronautical pricing for the period 1 April 2024 to 31 March 2029.

### Outlook

The current uncertain macroeconomic backdrop underscores the importance of maintaining a diversified portfolio. Infratil's diversity encompasses the sectors in which we invest, the geographical locations we serve, and our risk tolerance within each of these areas. Often, the assets within the core of our portfolio receive less attention, as they are viewed as less risky and expected to deliver lower returns. However, they play an important role in delivering the lower end of Infratil's target long-term shareholder return target of 11-15%.

The operating performance across our portfolio gives us the confidence to lift our FY2024 Proportionate EBITDAF guidance from \$800-\$840 million, to \$820-\$850 million. This is pleasing, at a time when pressure is coming on earnings across the economy.

As we head into a period which is likely to be dominated by a continuation of the macro-economic uncertainty that we are currently experiencing, we are excited about the level of opportunity for continued investment across our existing portfolio. These opportunities are likely to continue to exceed our available capital, allowing us to continue to prioritise the highest value opportunities for shareholders.

We thank you for your continued support and are committed to delivering our best to shareholders.

# Notes to the Financial Statements

For the 6 months ended 30 September 2023

## 1 Accounting policies

### Reporting Entity

Infratil Limited ('the Company') is a company domiciled in New Zealand and registered under the Companies Act 1993. The Company is listed on the NZX Main Board ('NZX') and Australian Securities Exchange ('ASX'), and is an FMC Reporting Entity in terms of Part 7 of the Financial Markets Conduct Act 2013.

### Basis of preparation

These unaudited condensed consolidated half year financial statements ('half year statements') of Infratil Limited together with its subsidiaries and associates ('the Group') have been prepared in accordance with NZ IAS 34 Interim Financial Reporting and comply with IAS 34 Interim Financial Reporting. These half year statements have been prepared in accordance with the accounting policies stated in the published financial statements for the year ended 31 March 2023 and should be read in conjunction with the previous annual report. No changes have been made from the accounting policies used in the 31 March 2023 annual report, other than noted below, which can be obtained from Infratil's registered office or [www.infratil.com](http://www.infratil.com). The presentation currency used in the preparation of these financial statements is New Zealand dollars, which is also the Company's functional currency.

Comparative figures have been restated where appropriate to ensure consistency with the current period.

### International Tax Reform - Pillar Two Model Rules

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 March 2023.

The Group has adopted International Tax Reform – Pillar Two Model Rules – Amendments to IAS 12 that were approved by the New Zealand Accounting Standards in July 2023 and became effective 10 August 2023. The amendments provide a temporary mandatory exception from deferred tax accounting and require new disclosures in the annual financial statements relating to the Pillar Two Model Rules. The Group has applied the exception with immediate effect. As no legislation to implement the Pillar Two Model Rules had been enacted or substantively enacted at 31 March 2023 in any jurisdiction in which the Group operates and, as such, no related deferred taxes were recognised at that date, the application of the exception has no impact on the Group's interim financial statements.

## 2 Nature of business

The Group owns and operates infrastructure businesses and investments in New Zealand, Australia, the United States, Asia, United Kingdom and Europe. The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 5 Market Lane, Wellington, New Zealand.

More information on the individual businesses that make up the Group is contained in Note 4 (Operating segments) and Note 5 (Investments in associates) including the relative contributions to total revenue and expenses of the Group.

### 3 Infratil shares and dividends

#### Ordinary shares (fully paid)

	6 months ended 30 September 2023 Unaudited	6 months ended 30 September 2022 Unaudited	Year ended 31 March 2023 Audited
Total authorised and issued shares at the beginning of the period	723,983,582	723,983,582	723,983,582
Movements during the period:			
New shares issued	107,906,405	-	-
New shares issued under dividend reinvestment plan	-	-	-
Treasury stock reissued under dividend reinvestment plan	-	-	-
Share buyback	-	-	-
<b>Total authorised and issued shares at the end of the period</b>	<b>831,889,987</b>	<b>723,983,582</b>	<b>723,983,582</b>

During the period, the company issued 101.6 million new shares as part of an equity raise undertaken to partially fund the acquisition of 49.95% of One NZ (Note 6.1). Net proceeds from the raise (after transaction costs and foreign exchange movements of \$18.8 million) were \$916.1 million. Additionally, 6.3 million new shares were issued to pay \$60.0 million of incentive fees payable to Morrison & Co as consideration for management services, as announced on 22 May 2023. All fully paid ordinary shares have equal voting rights and share equally in dividends and equity. At 30 September 2023 the Group held 1,662,617 shares as Treasury Stock (30 September 2022: 1,662,617, 31 March 2023: 1,662,617).

### 4 Operating segments

Gurin Energy, Manawa Energy and Mint Renewables are renewable generation investments, Wellington International Airport is an airport investment, Qscan Group and RHCNZ Medical Imaging make up the Group's Diagnostic Imaging platform and One NZ is a digital infrastructure investment. Infratil accounts for these companies as subsidiaries. Associates comprises Infratil's investments that are not consolidated for financial reporting purposes including CDC Data Centres, Fortysouth, Galileo, Kao Data, Longroad Energy and RetireAustralia. Further information on these investments is outlined in Note 5. During the period, Infratil increased its ownership in One NZ and the company is now consolidated for financial reporting purposes (Note 6.1). The Group's investment in the Trustpower Retail business, which was previously part of Manawa Energy, was treated as discontinued operations as at 30 September 2022 and 31 March 2023. The Group's investment in Tilt Renewables was treated as a discontinued operation at 30 September 2022. All other segments and corporate predominately includes the activities of the Parent Company. The Group has no significant reliance on any one customer. Inter-segment revenue primarily comprises dividends from portfolio companies to the Parent Company.

#### Entity wide disclosure - geographical

The Group operates in two principal areas, New Zealand and Australia, as well as having investments in the United States, the United Kingdom, Asia and Europe. The Group's geographical segments are based on the location of both customers and assets.

## 6 Acquisition of subsidiaries

### 6.1 One NZ

On 7 June 2023, Infratil announced that it had reached an agreement with Brookfield Asset Management ('Brookfield'), to acquire Brookfield's 49.95% stake in ICN JV Investments Limited ('One NZ') for \$1,800.0 million, increasing Infratil's ownership from 49.95% to 99.90%. The completion of the acquisition occurred on 15 June 2023. The \$1,800.0 million was paid in cash and was allocated as \$1,572.1 million consideration for the shares, and \$227.9 million for Brookfield's portion of the shareholder loan receivable. The transaction completed on 15 June 2023, funded by existing cash reserves, external debt funding, and an equity raise.

Prior to 15 June 2023, Infratil's investment in One NZ was equity accounted under NZ IAS 28 Investments in Associates and Joint Ventures. This was on the basis that Infratil and Brookfield collectively controlled One NZ. As a result of Infratil's increased ownership, Infratil is required to consolidated One NZ from the acquisition date. As Infratil's original stake in One NZ was acquired in May 2019, NZ IFRS 3 Business Combinations requires that the acquisition of Brookfield's 49.95% stake is recognised as an acquisition achieved in stages ('step acquisition').

In a step acquisition, the fair value of the equity accounted investment in One NZ that Infratil held immediately before obtaining control is used in the determination of goodwill that will be recognised by Infratil on acquisition of the controlling share in One NZ. This treatment effectively considers that the 49.95% of the investment in One NZ that was held by Infratil, before obtaining control, is sold, and a 99.90% controlling interest in a subsidiary has been purchased. The fair value of the initial 49.95% has been calculated as \$1,235.3 million by discounting the price paid for the controlling interest with observed market control premiums. As of 14 June 2023, the carrying value of Infratil's investment in One NZ was \$170.8 million. Comparing the carrying value of Infratil's investment immediately before obtaining control to the fair value results in a gain on acquisition of \$1,064.5 million.

NZ IFRS 3 Business Combinations requires that the identifiable assets and liabilities acquired as part of a business combination are measured at fair value at the date of acquisition, with any deficit between the consideration paid (including the previously held equity investment at fair value) and the value of the net identifiable assets (or liabilities) acquired and any non-controlling interest, recognised as goodwill, with any gain recognised through profit & loss.

The acquisition accounting required under NZ IFRS 3 has not been finalised as at 30 September 2023, and therefore the amounts recorded in the financial statements are reported as provisional. This primarily relates to the requirement that the identifiable assets and liabilities acquired as part of a business combination are measured at fair value at the date of acquisition, as well as any other identified intangible assets. An independent valuer has been appointed to perform this exercise. If this exercise identifies any adjustments to the provisional amounts, or if new information obtained within one year of the date of acquisition (about facts and circumstances that existed at the date of acquisition) identifies adjustments to the provisional amounts, or any additional provisions that existed at the date of acquisition are discovered, then the acquisition accounting will be revised. The identifiable assets and liabilities acquired as part of the business combination are summarised on the next page.

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition:

	15 June 2023 Fair Value (Provisional) NZ\$Millions
Cash and cash equivalents	24.9
Trade and other accounts receivable and prepayments	303.9
Derivative financial instruments	33.3
Inventories	59.3
Income tax receivable	9.3
<b>Current assets</b>	<b>430.7</b>
Trade and other accounts receivable and prepayments	61.8
Property, plant and equipment	851.0
Right of use assets	951.5
Intangible assets	400.0
Investments in associates	20.4
Deferred tax asset	22.1
<b>Non-current assets</b>	<b>2,306.8</b>
<b>Total assets</b>	<b>2,737.5</b>
Accounts payable, accruals and other liabilities	495.1
Interest bearing loans and borrowings	9.4
Lease liabilities	55.0
<b>Current liabilities</b>	<b>559.5</b>
Interest bearing loans and borrowings	1,466.8
Accounts payable, accruals and other liabilities	106.3
Lease liabilities	867.9
Shareholder loan	448.4
<b>Non-current liabilities</b>	<b>2,889.4</b>
<b>Total identifiable assets/(liabilities) at fair value 100%</b>	<b>(711.4)</b>

Provisional goodwill arising from the acquisition has been recognised as follows:

	15 June 2023 Fair Value (Provisional) NZ\$Millions
Cash consideration	1,800.0
add: previously held equity interest (fair value)	1,235.3
add: non-controlling interest (proportionate share)	4.1
<b>Total consideration paid</b>	<b>3,039.4</b>
Total identifiable assets/(liabilities) at fair value	(711.4)
add: Shareholder loan	448.4
add: Shareholder loan accrued interest	3.7
Value of the net identifiable assets (or liabilities) acquired	(259.3)
<b>Provisional goodwill</b>	<b>3,298.7</b>

For the four months ended 30 September 2023, One NZ contributed revenue of \$664.2 million and net profit after tax of \$16.2 million. If the acquisition had occurred on 1 April 2023, management estimates that consolidated revenue and net profit after tax would have been \$976.6 million and a profit of \$6.4 million, respectively. In determining these amounts, management has assumed that the measurement adjustments, determined provisionally, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 April 2023.

Acquisition costs relating to the transaction of \$1.0 million were recognised in the Statement of Comprehensive Income for the 6 months to 30 September 2023.

## 6.2 Console Connect

On 10 July 2023, Infratil executed a conditional agreement to acquire 80% of Console Connect from Hong Kong Telecommunications ('HKT') for US\$160.0 million. Console Connect is leading telecommunications company in Hong Kong. The initial acquisition by Infratil of 80% of Console Connect is step-one of a two-step process, with HKT subsidiary PCCW Global retaining a put option to sell its enterprise and wholesale business to Console Connect as step-two of the process. Step two of the process would involve the issue of shares in Console Connect to HKT in consideration for the acquisition of PCCW's enterprise and wholesale business. At the culmination of this transaction, Infratil would own no less than 60% of the equity of Console Connect.

The Group will fund the acquisition through existing bank loan facilities. Drawdown is contingent on completion of the acquisition. Completion of the acquisition is conditional on telecommunication, foreign investment regulatory approvals and merger approvals in Australia, France, Germany, Greece, Hong Kong, Italy, Japan, Mozambique, the Netherlands, Singapore, South Africa, and the USA. Assuming those approvals are granted, completion is currently expected by Q3 2024. As such the acquisition remains incomplete at the date of signing the accounts.

## 7 Taxation

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
Net surplus before taxation from continuing operations	1,274.7	297.9	604.1

Tax effect of change in corporate tax rate on deferred tax liability	-	(0.1)	-
Recognition of previously unrecognised deferred tax	-	-	25.1
Attributed CFC and FIF income	-	32.0	-
(Over)/Under provision in prior periods	16.7	(1.5)	(22.8)
Net investment realisations	(299.4)	-	0.4
Other permanent differences	14.5	38.8	44.0
<b>Taxation expense</b>	<b>59.6</b>	<b>77.1</b>	<b>42.5</b>
Current taxation	37.4	20.1	50.5
Deferred taxation	22.2	57.0	(8.0)
Tax on discontinued operations	(0.3)	0.4	0.4

The Group operates in various jurisdictions some of which have enacted or substantively enacted tax legislation to implement the Pillar Two Model Rules. However, as the application of the Pillar Two Model Rules in respect of those jurisdictions will not apply to the financial reporting period ended 31 March 2024, there is no current tax impact in the period ended 30 September 2023 (30 September 2022: nil, 31 March 2023: nil). The Group has applied a temporary mandatory relief from deferred tax accounting in respect of the Pillar Two Model Rules and will account for it as a current tax arising under the Pillar Tax Model rules when it is incurred (see Note 1).

## 8 Goodwill

	30 September 2023 \$Millions Unaudited	30 September 2022 \$Millions Unaudited	31 March 2023 \$Millions Audited
Balance at beginning of the year	1,846.1	1,807.2	1,807.2
Goodwill arising on acquisitions	3,298.7	47.0	42.8
Goodwill disposed of during the year	-	-	-
Transfers to disposal group assets classified as held for sale	-	-	-
Effects of movements in exchange rates	3.8	37.1	(3.9)
<b>Balance at the end of the year</b>	<b>5,148.6</b>	<b>1,891.3</b>	<b>1,846.1</b>
<i>The aggregate carrying amounts of goodwill allocated to each cash generating unit are as follows:</i>			
Manawa Energy	61.8	61.9	61.9
Qscan Group	707.7	748.9	703.7
RHCNZ Medical Imaging	1,080.4	1,080.5	1,080.5
One NZ	3,298.7	-	-
	<b>5,148.6</b>	<b>1,891.3</b>	<b>1,846.1</b>

As outlined in Note 6.1, the acquisition accounting of One NZ is not finalised and therefore the goodwill relating to this business is considered provisional at 30 September 2023.

## 9 Loans and borrowings

This note provides information about the contractual terms of the Group's interest bearing loans and borrowings.

**Financing arrangements**

**Wholly owned subsidiaries**

Infratil Finance Limited, a wholly owned subsidiary of the Company, has entered into bank facility arrangements with a negative pledge agreement, which, with limited exceptions does not permit the Infratil Guaranteeing Group ('IGG') to grant any security over its assets. The IGG comprises entities subject to a cross guarantee and comprises Infratil Limited, Infratil Finance Limited and certain other wholly owned subsidiaries. These facilities are primarily used to fund the corporate and investment activities of the Company. The IGG does not incorporate the underlying assets of the Company's non-wholly owned subsidiaries and associates. The IGG bank facilities also include restrictions over the sale or disposal of certain assets without bank agreement. Liability under the cross guarantee is limited to the amount of debt drawn under the IGG facilities, plus any unpaid interest and costs of recovery.

At 30 September 2023 there was \$635.0 million of drawn debt or accrued interest payable under the IGG facilities (30 September 2022: nil, 31 March 2023: nil) and undrawn IGG facilities totalled \$1,010.0 million (30 September 2022: \$910.8 million, 31 March 2023: \$898.4 million).

**Non-wholly owned subsidiaries**

The Group's non-wholly owned subsidiaries also enter into bank facility arrangements. Amounts outstanding under these facilities are included within loans and borrowings in the table above. Wellington International Airport and Manawa Energy's facilities are both subject to negative pledge arrangements, which with limited exceptions does not permit those entities to grant security over their respective assets. One NZ, Qscan Group and RHCNZ Medical Imaging borrow under syndicated bank debt facilities, under which security is granted over their respective assets. All non-wholly owned subsidiary facilities are subject to restrictions over the sale or disposal of certain assets without bank agreement.

The various bank facilities across the Group require the relevant borrowing group to operate within defined performance and gearing ratios as is typical of debt facilities of this nature. Throughout the period the Group has complied with all debt covenant requirements as imposed by the respective lenders.

**Interest rates**

Interest rates payable on bank loan facilities are floating rate determined by reference to prevailing money market rates at the time of draw-down plus a margin. Interest rates paid during the period ranged from 4.96% to 9.24% (30 September 2022: 0.56% to 7.04%, 31 March 2023: 1.40% to 8.44%).

## 10 Infratil Infrastructure bonds

IFT330 maturing in July 2029, 6.90% p.a. fixed coupon rate	150.0	-	-
IFT340 maturing in March 2031, 7.08% p.a. fixed coupon rate	127.2	-	-
IFTHC maturing in December 2029, 7.89% p.a. variable coupon rate, reset annually from 15 December 2021	123.2	123.2	123.2
IFTHA Perpetual Infratil infrastructure bonds	231.9	231.9	231.9
<i>less:</i> issue costs capitalised and amortised over term	(8.4)	(8.5)	(7.4)
<i>add:</i> issue premium capitalised and amortised over term	0.7	1.0	0.9
Balance at the end of the period	1,465.2	1,410.3	1,311.3

**Fixed coupon**

The fixed coupon bonds the Company has on issue are at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds.

**IFTHC bonds**

The IFTHC bonds the Company has on issue are at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. The coupon for the IFTHC bonds for the period to (but excluding) 15 December 2023 is fixed at 7.89% per annum (for the period to 15 December 2022 the coupon was 4.19%). Thereafter the rate will be reset annually at 2.50% per annum over the then one year swap rate for quarterly payments.

**IFT270 bonds**

The interest rate of the IFT270 bonds is fixed at 4.85% for the first five years and then reset on 15 December 2023 for a further five years. The interest rate for the IFT270 bonds for the period to (but excluding) 15 December 2023 until the maturity date will be the sum of the five year swap rate on 15 December 2023 plus a margin of 2.50% per annum.

**IFT320 bonds**

The interest rate of the IFT320 bonds is fixed at 5.93% for the first four years and will then reset on 15 June 2026 for a further four years. The interest rate for the IFT320 bonds for the period from (but excluding) 15 June 2026 until the maturity date will be the sum of the four year swap rate on 15 June 2026 plus a margin of 2.00% per annum.

**Perpetual Infratil infrastructure bonds ('PIIBs')**

The Company has 231,916,000 (30 September 2022: 231,916,000, 31 March 2023: 231,916,000) PIIBs on issue at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. On 15 November 2022 the coupon was set at 6.45% per annum until the next reset date, being 15 November 2023 (September 2022: 3.14%, March 2023: 6.45%). Thereafter the rate will be reset annually at 1.50% per annum over the then one year swap rate for quarterly payments, unless Infratil's gearing ratio exceeds certain thresholds, in which case the margin increases. These infrastructure bonds have no fixed maturity date.

Throughout the period the Company complied with all debt covenants relating to its Bonds on issue.

At 30 September 2023 Infratil Infrastructure bonds (including PIIBs) had a fair value of \$1,353.7 million (30 September 2022: \$1,314.8 million, 31 March 2023: \$1,203.4 million).

## 11 Financial instruments

### 11.1 Fair values

Financial assets and financial liabilities are measured at their fair value, with the exception of bond debt and senior notes which are measured at amortised cost. The bond debt and senior notes have a fair value at 30 September 2023 of \$2,331.4 million (30 September 2022: \$2,386.4 million, 31 March 2023: \$2,264.1 million) compared to an amortised cost value of \$2,463.1 million (30 September 2022: \$2,493.4 million, 31 March 2023: \$2,383.7 million).

### 11.2 Estimation of fair values

The fair values of financial assets and financial liabilities are determined as follows:

- The fair value of financial assets and liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- The fair value of other financial assets and liabilities are calculated using market-quoted rates based on discounted cash flow analysis.
- The fair value of derivative financial instruments are calculated using quoted prices. Where such prices are not available, use is made of discounted cash flow analysis using the applicable yield curve or available forward price data for the duration of the instruments.

Where the fair value of a derivative is calculated as the present value of the estimated future cash flows of the instrument, the two key types of variables used in the valuation techniques are:

- forward price curve (for the relevant underlying interest rates, foreign exchange rates or commodity prices); and
- discount rates.

Valuation input	Source
Interest rate forward price curve	Published market swap rates
Foreign exchange forward prices	Published spot foreign exchange rates
Electricity forward price curve	Market quoted prices where available and management's best estimate based on its view of the long run marginal cost of new generation where no market quoted prices are available
Discount rate for valuing interest rate derivatives	Published market interest rates as applicable to the remaining life of the instrument
Discount rate for valuing forward foreign exchange contracts	Published market rates as applicable to the remaining life of the instrument
Discount rate for valuing electricity price derivatives	Assumed counterparty cost of funds ranging from 5.51% to 6.25% (30 September 2022: 3.3% to 3.5%, 31 March 2023: 3.1% to 6.1%)

The selection of variables requires significant judgement and therefore there is a range of reasonably possible assumptions in respect of these variables that could be used in estimating the fair value of these derivatives. Maximum use is made of observable market data when selecting variables and developing assumptions for the valuation techniques.

### 1.1.3 Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3)

The following tables present the Group's financial assets and liabilities that are measured at fair value.

30 September 2023	Level 1 \$Millions Unaudited	Level 2 \$Millions Unaudited	Level 3 \$Millions Unaudited	Total \$Millions Unaudited
<b>Assets per the statement of financial position</b>

There were no transfers between derivative financial instrument assets or liabilities classified as level 1 or level 2, and level 3 of the fair value hierarchy during the period ended 30 September 2023 (30 September 2022: none, 31 March 2023: none).

#### 1.1.4 Energy derivatives

Energy Price Risk is the risk that financial performance will be impacted by fluctuations in spot energy prices. The Group meets its energy sales demand by purchasing energy on spot markets, physical deliveries and financial derivative contracts. This exposes the Group to fluctuations in the spot and forward price of energy. The Group has entered into a energy hedge contract to reduce the energy price risk from price fluctuations. This hedge contract establishes the price at which future specified quantities of energy are purchased and settled. Any resulting differential to be paid or received is recognised as a component of energy costs through the term of the contract. The Group has elected to apply cash flow hedge accounting to those instruments it deems material and which qualify as a cash flow hedge.

At the time of the sale of the Trustpower Retail business to Mercury Energy ('Mercury'), Mercury and Manawa signed a pre-agreed electricity price contract for differences, under which Manawa will supply electricity to Mercury. Manawa and Mercury entered into this electricity price derivative on 2 May 2022, which on day 1 had a negative value of \$521.8 million which was deferred as per NZ IFRS 9.

During the current period \$77.6 million (cumulative to date: \$199.7 million) of the deferred day 1 value has been recognised through wholesale electricity revenue as the calibrated CFD cash flows have been realised throughout the period. These CFD cash settlements have reduced the impact of changes in wholesale electricity prices on Manawa Energy's revenue. A current period fair value gain of \$54.9 million (September 2022: \$7.2 million) has been recognised with \$52.5 million (September 2022: \$7.2 million) taken to the cash flow hedge reserve and \$2.4 million (September 2022: nil) taken to net fair value gains on derivatives. The fair value of this electricity price derivative at 30 September 2023 is \$152.3 million (31 March 2023: \$97.4 million) with a cumulative amount of \$80.3 million taken to the cashflow hedge reserve.

#### Energy price sensitivity analysis

The following table shows the impact on post-tax profit and equity of an increase/decrease in the relevant forward electricity prices with all other variables held constant:

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
<b>Profit and loss</b>			
10% increase in energy forward prices	(7.1)	(3.6)	(12.2)
10% decrease in energy forward prices	7.1	58.5	12.2
<b>Other comprehensive income</b>			
10% increase in energy forward prices	(80.8)	(112.9)	(104.4)
10% decrease in energy forward prices	80.8	112.9	104.4

The following table reconciles the movements in level 3 Electricity price derivatives that are classified within level 3 of the fair value hierarchy because the assumed location factors which are used to adjust the forward price path are unobservable.

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
<b>Assets per the statement of financial position</b>			
Opening balance	155.5	106.2	106.2

Change in inventories	4.7	-	(0.1)
Change in trade payables	2.6	(69.9)	27.1
Change in accruals and other liabilities	(50.8)	(144.0)	(99.3)
Change in current and deferred taxation	3.7	0.7	8.6
<b>Net cash flow from operating activities</b>	<b>166.4</b>	<b>(234.6)</b>	<b>(14.4)</b>

### 13 Capital commitments

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
Committed but not contracted for	84.4	149.7	135.5
Contracted but not provided for	229.8	52.3	32.8
Capital commitments	314.2	202.0	168.3

Group capital commitments are primarily associated with RHCNZ Medical Imaging's capital expenditure in relation to completion costs for new branches, branch expansion and the purchase of various new and replacement machinery, One NZ's open capital expenditure purchase orders and committed spend for Spectrum, and Wellington Airport's new fire station.

### 14 Related parties

Certain Infratil Directors have relevant interests in a number of companies with which Infratil has transactions in the normal course of business. A number of key management personnel are also Directors of Group subsidiary companies and associates.

Morrison & Co Infrastructure Management Limited ('MCIM') is the management company for the Company and receives management fees in accordance with the applicable management agreement. MCIM is owned by H.R.L. Morrison & Co Group Limited Partnership ('MCO'). Jason Boyes is a director and Chief Executive of Infratil. Entities associated with Mr Boyes have a beneficial interest in MCO.

The passive mobile tower assets sold by One NZ to Fortysouth during the year-ended 31 March 2023 have been leased back to One NZ as part of the 20-year Master Services Agreement. Following the One NZ acquisition (Note 6.1), the right-of-use asset and lease liability attributable to agreements with Fortysouth are held on the Balance Sheet at \$753.3 million and \$762.0 million, respectively. Additionally, Interest expense was \$20.6 million and right-of-use asset depreciation was \$13.2 million for the 4 months to 30 September 23 within the Statement of Comprehensive Income. The Group's share of the operating revenue for Fortysouth is included within share of associate earnings line in the Statement of Comprehensive Income. Infratil has deemed that any unrealised gains or losses for transactions between One NZ and Fortysouth are not material and will not be eliminated.

There are other related party transactions between companies within the Group. These are carried out in the ordinary course of business at the appropriate market rate. The arrangements are not deemed material for separate disclosure.

*Management and other fees paid by the Group (including associates) to MCIM, MCO or its related parties during the period were:*

	Note	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
Management fees	15	78.4	155.1	232.9
Executive secondment and consulting		0.1	0.4	1.0
Directors fees		1.5	1.0	2.8
Financial management, accounting, treasury, compliance and administrative services		0.8	0.9	1.9
Risk management reporting		-	-	-
<b>Total management and other fees</b>		<b>80.8</b>	<b>157.4</b>	<b>238.6</b>

At 30 September 2023 amounts owing to MCIM of \$8.9 million (excluding GST) are included in trade creditors (30 September 2022: \$6.4 million, 31 March 2023: \$5.7 million).

## 15 Management fees paid under the Management Agreement with Morrison & Co Infrastructure Management Limited

The day-to-day management responsibilities of the Company have been delegated to Morrison & Co Infrastructure Management Limited ('MCIM') under a Management Agreement. The Management Agreement specifies the duties and powers of MCIM, and the management fees payable to MCIM for delivering those services. These include a New Zealand Portfolio Management Fee, International Portfolio Management Fee and International Portfolio Incentive Fees.

Management fees paid under the Management Agreement during the period were:

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
New Zealand & International Portfolio Management Fees	41.1	30.9	63.3
International Portfolio Incentive Fees	37.3	124.2	169.6
	<b>78.4</b>	<b>155.1</b>	<b>232.9</b>

### International Portfolio Incentive Fees

International Investments are eligible for International Portfolio incentive fees ('Incentive fees') under the Management Agreement between MCIM and Infratil. The Agreement allows for incentives to be payable for performance in excess of a minimum hurdle of 12% per annum in three separate areas:

- Initial Incentive Fees;
- Annual Incentive Fees; and,
- Realised Incentive Fees.

To the extent that there are assets that meet these criterion, independent valuations are performed on the respective International Investments to determine whether any Incentive Fees are payable.

### International Portfolio Initial Incentive Fee

The Company's investments in Kao Data and Gurin Energy are eligible for the International Portfolio Initial Incentive Fee assessment as at 31 March 2024 (31 March 2023: Qscan Group). No International Portfolio Initial Incentive Fee has been accrued as at 30 September 2023.

### International Portfolio Annual Incentive Fee

The Company's investments in CDC Data Centres, Galileo, Longroad Energy, RetireAustralia and Qscan Group are eligible for the International Portfolio Annual Incentive fee assessment as at 31 March 2024 (31 March 2023: CDC Data Centres, Galileo, Longroad Energy, RetireAustralia).

As at 30 September 2023, it is probable that Infratil will have an International Portfolio Annual Incentive Fee (for the year to 31 March 2024) due to MCIM based on the performance of the above portfolio of assets, and as a result an amount of \$37.3 million has been provided for as at 30 September 2023 (30 September 2022: \$124.2 million, 31 March 2023: \$169.6 million).

### International Portfolio incentive fees

	6 months ended 30 September 2023 \$Millions Unaudited	6 months ended 30 September 2022 \$Millions Unaudited	Year ended 31 March 2023 \$Millions Audited
CDC Data Centres	52.4	(7.4)	38.6
Galileo Green Energy	3.9	(0.1)	(0.5)
Longroad Energy	(6.6)	132.0	136.7
RetireAustralia	(10.1)	(0.3)	(5.2)
Qscan Group	(2.3)	-	-
	<b>37.3</b>	<b>124.2</b>	<b>169.6</b>

**Payment of Annual Incentive Fees**

Any Annual Incentive Fee calculated in respect of a Financial Year is earned and paid in three annual instalments, with the second and third instalments being scaled down if the fair value of the relevant asset (including distributions, if any) is less than fair value or cost as at the 31 March for which the Incentive Fee was first calculated.

**International Portfolio Realised Incentive Fee**

There were no divestments of the Company's investment during the period to 30 September 2023 that resulted in an accrual of a realised incentive fee (30 September 2022: nil, 31 March 2023: nil).

More detail on how Management fees are calculated is included in Infratil's Annual Report.

**16 Contingent liabilities and legal matters**

The Company and certain wholly owned subsidiaries are guarantors of the bank debt facilities of Infratil Finance Limited under a Deed of Negative Pledge, Guarantee and Subordination and the Company is a guarantor to certain obligations of subsidiary companies.

**17 Events after balance date****Dividend**

On 15 November 2023, the Directors approved a partially imputed interim dividend of 7.00 cents per share to holders of fully paid ordinary shares to be paid on 19 December 2023.

# Independent Review Report

To the shareholders of Infratil Limited

## Report on the interim consolidated financial statements

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim consolidated financial statements on pages 9 to 45 do not:

- i. present, in all material respects the Group's financial position as at 30 September 2023 and its financial performance and cash flows for the 6 month period ended on that date in compliance with NZ IAS 34 Interim Financial Reporting.

We have completed a review of the accompanying interim consolidated financial statements which comprise:

- the consolidated statement of financial position as at 30 September 2023;
- the consolidated statements of comprehensive income, changes in equity and cash flows for the 6 month period then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

### Basis for conclusion

A review of interim consolidated financial statements in accordance with NZ SRE 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity* ("NZ SRE 2410") is a limited assurance engagement. The auditor performs procedures, consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

As the auditor of Infratil Limited, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

Our firm has also provided other services to the group in relation to advisory services for a Māori culture capability assessment, climate related assurance, taxation services, audit of regulatory disclosures and other assurance engagements. Subject to certain restrictions, partners and employees of our firm may also deal with the group on normal terms within the ordinary course of trading activities of the business of the group. These matters have not impaired our independence as reviewer of the group. The firm has no other relationship with, or interest in, the group.

### Use of this Independent Review Report

This report is made solely to the shareholders as a body. Our review work has been undertaken so that we might state to the shareholders those matters we are required to state to them in the Independent Review Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders as a body for our review work, this report, or any of the opinions we have formed.

## Responsibilities of the Directors for the interim financial statements

The Directors, on behalf of the company, are responsible for:

- the preparation and fair presentation of the interim consolidated financial statements in accordance with NZ IAS 34 Interim Financial Reporting;
- implementing necessary internal control to enable the preparation of a interim consolidated financial statements that is free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the review of the interim financial statements

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with NZ SRE 2410. NZ SRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the interim consolidated financial statements are not prepared, in all material respects, in accordance with NZ IAS 34 Interim Financial Reporting.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand). Accordingly, we do not express an audit opinion on these interim consolidated financial statements.

This description forms part of our Independent Review Report.

RHCNZ Medical Imaging	50.1%	30.7	26.6	54.4	32.9
Qscan Group	55.1%	18.2	15.2	33.8	33.9
RetireAustralia	50.0%	6.3	10.9	6.1	16.9
Wellington Airport	66.0%	33.4	26.5	59.1	37.3
Corporate & other	100.0%	(38.2)	(29.5)	(58.1)	(58.2)
Proportionate EBITDAF from continuing operations		400.0	275.6	531.5	474.9
Trustpower Retail business	-	(0.4)	1.8	1.8	24.2
Tilt Renewables	-	-	-	-	7.9
Proportionate EBITDAF		399.6	277.4	533.3	507.0

Proportionate EBITDAF is intended to show Infratil's share of the earnings of the operating companies in which it invests. Proportionate EBITDAF is shown from continuing operations and includes corporate and management costs, however, excludes international portfolio incentive fees, acquisition or sales-related transaction costs, and contributions from businesses sold, or held for sale. Shareholdings are shown at the most recent period end date.

## Infratil Limited

### Detailed Financial Information & Operating Metrics

*This information is intended to be read in conjunction with Infratil's Interim Report and Result's Presentation for the six months ended 30 September 2023. If you would like the Microsoft Excel version of these tables please email: [info@infratil.com](mailto:info@infratil.com)*

### Reconciliation of Net surplus after tax to Proportionate EBITDAF

NZ\$ millions	HY2024	HY2023	FY2023	FY2022
Net surplus after tax	1,214.5	557.3	891.7	1,231.7
<i>less:</i> Share of earnings of associate companies	(173.9)	(346.6)	(653.4)	(268.5)
<i>plus:</i> Proportionate EBITDAF of associate companies	153.0	207.6	389.4	347.4
<i>less:</i> Minority share of subsidiaries EBITDAF	(98.8)	(86.2)	(177.8)	(158.0)
<i>less:</i> Realisations and revaluations	(1,128.1)	(54.7)	(74.8)	(82.2)
<i>less:</i> Discontinued operations	0.6	(336.5)	(330.1)	(1,125.8)
Underlying earnings	(32.7)	(59.1)	45.0	(55.4)
<i>add back:</i> Depreciation & amortisation	180.7	51.1	107.6	91.4
<i>add back:</i> Net interest	155.1	82.3	166.8	159.5
<i>add back:</i> Tax expense	59.6	77.1	42.5	22.6
<i>add back:</i> International Portfolio Incentive fees	37.3	124.4	169.6	221.2
Proportionate EBITDAF	400.0	275.8	531.5	439.3

Proportionate EBITDAF is an unaudited non-GAAP ('Generally Accepted Accounting Principles') measure of financial performance, presented to provide additional insight into management's view of the underlying business performance. This table reconciles Proportionate EBITDAF to Infratil's net surplus after tax as presented in accordance with NZ IFRS.

Associates include Infratil's investments in CDC, two months of One NZ, Fortysouth, Kao Data, Longroad Energy, Galileo, and RetireAustralia.

Subsidiaries include four months of One NZ and Infratil's investments in Manawa Energy, Gurin Energy, Mint Renewables, RHCNZ Medical Imaging, Qscan Group and Wellington Airport.

## Infratil Limited

Property	108.7	103.0	115.2	102.5
	12,501.0	9,427.4	10,029.1	8,366.8

This table shows valuations of Infratil's assets. The valuation of Infratil's investments in CDC Data Centres One NZ, Longroad Energy, Galileo, RHCNZ Medical Imaging, Qscan Group, and RetireAustralia reflect the midpoint of the most recent independent valuations prepared for Infratil. In certain cases these valuations are not as at 30 September and have been adjusted to reflect cash flows between 30 September and valuation dates, but do not reflect other fair value movements. The fair value of Manawa Energy is shown based on the market price per the NZX. Infratil does not commission independent valuations for its other assets and these are presented at book value.

## Notes to the Financial Statements

For the 6 months ended 30 September 2023

### (1) Accounting policies

#### (A) Reporting entity

Infratil Limited ('the Company') is a company domiciled in New Zealand and registered under the Companies Act 1993. The Company is listed on the NZX Main Board ('NZX') and Australian Securities Exchange ('ASX'), and is an FMC Reporting Entity in terms of Part 7 of the Financial Markets Conduct Act 2013.

#### (B) Basis of preparation

These unaudited condensed half year financial statements ('half year statements') of Infratil Limited have been prepared in accordance with *NZ IAS 34 Interim Financial Reporting* and comply with *IAS 34 Interim Financial Reporting*. The half year statements have been prepared in accordance with the accounting policies stated in the published financial statements for the year ended 31 March 2023 and should be read in conjunction with the previous annual report. No changes have been made from the accounting policies used in the 31 March 2023 annual report which can be obtained from Infratil's registered office or [www.infratil.com](http://www.infratil.com). The presentation currency used in the preparation of these financial statements is New Zealand dollars, which is also the Company's functional currency. Comparative figures have been restated where appropriate to ensure consistency with the current period. To aid comparability certain balance sheet items have been represented from those reported in prior years to conform to the current year's presentation. Total equity remains unchanged.

### (2) Nature of business

The Company is the ultimate parent company of the Infratil Group which owns and operates infrastructure businesses and investments in New Zealand, Australia, the United States, Asia, United Kingdom and Europe. The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 5 Market Lane, Wellington, New Zealand.

### (3) Infratil shares and dividends

#### Ordinary shares (fully paid)

Total issued capital at the beginning of the period

Movements in issued and fully paid ordinary shares during the period:

New shares issued

New shares issued under dividend reinvestment plan

Treasury Stock reissued under dividend reinvestment plan

Conversion of executive redeemable shares

Share buyback

Total authorised and issued capital at the end of the period

6 months ended 30 September 2023	6 months ended 30 September 2022	Year ended 31 March 2023
Unaudited	Unaudited	Audited
723,983,582	723,983,582	723,983,582

-	-	-
-	-	-
-	-	-
831,889,987	723,983,582	723,983,582

During the period, the company issued 101.6 million new shares as part of an equity raise undertaken to partially fund the acquisition of 49.95% of One NZ. Net proceeds from the raise (after transaction costs and foreign exchange movements of \$18.8 million) were \$916.1 million. Additionally, 6.3 million new shares were issued to pay \$60.0 million of incentive fees payable to Morrison & Co as consideration for management services, as announced on 22 May 2023. All fully paid ordinary shares have equal voting rights and share equally in dividends and equity. At 30 September 2023 the Group held 1,662,617 shares as Treasury Stock (30 September 2022: 1,662,617, 31 March 2023: 1,662,617).

#### Dividends paid on ordinary shares

<b>Total other operating expenses</b>	<b>17,843</b>	<b>3,806</b>	<b>5,988</b>

(5) Net investment realisations and (impairments)

At 30 September 2023 the Company reviewed the carrying amounts of loans to Infratil Group companies to determine whether there was any indication that those assets have suffered an impairment loss. The recoverable amount of the asset was estimated by reference to the counterparties' net asset position and ability to repay loans out of operating cash flows in order to determine the extent of any impairment loss. As a result of this review the Company did not impair any loans to Infratil Group companies in the period (30 September 2022: nil, 31 March 2023: nil). These balances are within the Infratil Wholly Owned Group with entities controlled either directly or indirectly by Infratil Limited.

(6) Taxation

<b>Balance at the end of the period</b>	<b>1,465,245</b>	<b>1,410,291</b>	<b>1,311,239</b>

### Fixed coupon

The fixed coupon bonds the Company has on issue are at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds.

### Perpetual Infratil infrastructure bonds ('PIIBs')

The Company has 231,916,000 (30 September 2022: 231,916,000, 31 March 2023: 231,916,000) PIIBs on issue at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. On 15 November 2022 the coupon was set at 6.45% per annum until the next reset date, being 15 November 2023 (September 2022: 3.14%, March 2023: 6.45%). Thereafter the rate will be reset annually at 1.50% per annum over the then one year bank rate for quarterly payments, unless Infratil's gearing ratio exceeds certain thresholds, in which case the margin increases. These infrastructure bonds have no fixed maturity date. No PIIBs (September 2022: nil, March 2023: nil) were repurchased by Infratil Limited during the period.

### IFTHC bonds

The Company has 123,186,000 (30 September 2022: 123,186,000, 31 March 2023: 123,186,000) IFTHCs on issue at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. For the period to 15 December 2023 the coupon is fixed at 7.89% per annum (September 2022: 4.19%, March 2023: 7.89%). Thereafter the rate will be reset annually at 2.5% per annum over the then one year swap rate for quarterly payments.

### IFT270 bonds

The interest rate of the IFT270 bonds is fixed at 4.85% for the first five years and will then reset on 15 December 2023 for a further five years. The interest rate for the IFT270 bonds for the period from (but excluding) 15 December 2023 until the maturity date will be the sum of the five year swap rate on 15 December 2023 plus a margin of 2.50% per annum.

### IFT320 bonds

The interest rate of the IFT320 bonds is fixed at 5.93% for the first four years and will then reset on 15 June 2026 for a further four years. The interest rate for the IFT320 bonds for the period from (but excluding) 15 June 2026 until the maturity date will be the sum of the four year swap rate on 15 June 2023 plus a margin of 2.00% per annum.

Throughout the period the Company complied with all debt covenant requirements as imposed by the bond Supervisor.

At 30 September 2023 the infrastructure bonds (including PIIBs) had a fair value of \$1,353.7 million (30 September 2022: \$1,314.8 million, 31 March 2023: \$1,203.4 million).

(8) Reconciliation of net surplus with cash flow from operating activities

	6 months ended 30 September 2023  Unaudited \$000	6 months ended 30 September 2022  Unaudited \$000	Year ended 31 March 2023  Audited \$000

<b>Net cash inflow/(outflow) from operating activities</b>	<b>118,457</b>	<b>(71,924)</b>	<b>52,626</b>

(9) Commitments

There are no outstanding commitments (30 September 2022: nil, 31 March 2023: nil).

(10) Contingent liabilities

The Company and certain wholly owned subsidiaries are guarantors of the bank debt facilities of Infratil Finance Limited under a Deed of Negative Pledge, Guarantee and Subordination and the Company is a guarantor to certain obligations of subsidiary companies.

The Company has a contingent liability under the international fund management agreement with Morrison & Co International Limited in the event that the Group sells its international assets, or valuation of the assets exceeds the performance thresholds set out in the international fund management agreement.

## (11) Related parties

Certain Infratil Directors have relevant interests in a number of companies with which Infratil has transactions in the normal course of business. A number of key management personnel are also Directors of Group subsidiary companies and associates.

Morrison & Co Infrastructure Management Limited ('MCIM') is the management company for the Company and receives management fees in accordance with the applicable management agreement. MCIM is owned by H.R.L. Morrison & Co Group Limited Partnership ('MCO'). Jason Boyes is a director and Chief Executive of Infratil. Entities associated with Mr Boyes have a beneficial interest in MCO.

The Company has the following significant loans, investments and receivables to/(from)/in its subsidiaries:

## (12) Events after balance date

### Dividend

On 15 November 2023, the Directors approved a partially imputed interim dividend of 7.00 cents per share to holders of fully paid ordinary shares to be paid on 19 December 2023.

# Independent Review Report

To the shareholders of Infratil Limited

## Report on the interim financial statements

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements on pages 1 to 9 do not:

- i. present, in all material respects the company's financial position as at 30 September 2023 and its financial performance and cash flows for the 6 month period ended on that date in compliance with NZ IAS 34 Interim Financial Reporting.

We have completed a review of the accompanying interim financial statements which comprise:

- the statement of financial position as at 30 September 2023;
- the statements of comprehensive income, changes in equity and cash flows for the 6 month period then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

### Basis for conclusion

A review of interim financial statements in accordance with NZ SRE 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity* ("NZ SRE 2410") is a limited assurance engagement. The auditor performs procedures, consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

As the auditor of Infratil Limited, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

Our firm has also provided other services to the company in relation to climate assurance and other assurance engagements. Subject to certain restrictions, partners and employees of our firm may also deal with the company on normal terms within the ordinary course of trading activities of the business of the company. These matters have not impaired our independence as reviewer of the company. The firm has no other relationship with, or interest in, the company.

### Use of this Independent Review Report

This report is made solely to the shareholders as a body. Our review work has been undertaken so that we might state to the shareholders those matters we are required to state to them in the Independent Review Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders as a body for our review work, this report, or any of the opinions we have formed.

## Responsibilities of the Directors for the interim financial statements

The Directors, on behalf of the company, are responsible for:

- the preparation and fair presentation of the interim financial statements in accordance with NZ IAS 34 Interim Financial Reporting;
- implementing necessary internal control to enable the preparation of a interim financial statements that is free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the review of the interim financial statements

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with NZ SRE 2410. NZ SRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the interim financial statements are not prepared, in all material respects, in accordance with NZ IAS 34 Interim Financial Reporting.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand). Accordingly, we do not express an audit opinion on these interim financial statements.

This description forms part of our Independent Review Report.

Unaudited financial statements accompany this announcement.

Section 1: Issuer information				
Name of issuer	Infratil Limited			
Financial product name/description	Infratil Limited Ordinary Shares			
NZX ticker code	IFT			
ISIN (If unknown, check on NZX website)	NZIFTE0003S3			
Type of distribution (Please mark with an X in the relevant box/es)	Full Year		Quarterly	
	Half Year	X	Special	
	DRP applies	X		
Record date	30/11/2023			
Ex-Date (one business day before the Record Date)	29/11/2023			
Payment date (and allotment date for DRP)	19/12/2023			
Total monies associated with the distribution <sup>1</sup>	\$58,232,299			
Source of distribution (for example, retained earnings)	Retained earnings			
Currency	NZD			
Section 2: Distribution amounts per financial product				
Gross distribution <sup>2</sup>	\$0.08150991			
Gross taxable amount <sup>3</sup>	\$0.08150991			
Total cash distribution <sup>4</sup>	\$0.07000000			
Excluded amount (applicable to listed PIEs)	N/A			
Supplementary distribution amount	\$0.00522298			
Section 3: Imputation credits and Resident Withholding Tax <sup>5</sup>				
Is the distribution imputed	Partial imputation			

<sup>1</sup> Continuous issuers should indicate that this is based on the number of units on issue at the date of the form

<sup>2</sup> "Gross distribution" is the total cash distribution plus the amount of imputation credits, per financial product, before the deduction of Resident Withholding Tax (RWT).

<sup>3</sup> "Gross taxable amount" is the gross distribution minus any excluded income.

<sup>4</sup> "Total cash distribution" is the cash distribution excluding imputation credits, per financial product, before the deduction of RWT. This should include any excluded amounts, where applicable to listed PIEs.

<sup>5</sup> The imputation credits plus the RWT amount is 33% of the gross taxable amount for the purposes of this form. If the distribution is fully imputed the imputation credits will be 28% of the gross taxable amount with remaining 5% being RWT. This does not constitute advice as to whether or not RWT needs to be withheld.

If fully or partially imputed, please state imputation rate as % applied <sup>6</sup>	14.12%	
Imputation tax credits per financial product	\$0.01150991	
Resident Withholding Tax per financial product	\$0.01538836
