

STRICKLAND

METALS LIMITED

'Unlocking the North Eastern Flank of the Yandal Belt'

ASX Code: STK

STRICKLAND

METALS LIMITED

Forward Looking Statements

- This presentation has been prepared by Strickland Metals Limited (**STK**). The information contained in this presentation is a professional opinion only and is given in good faith. Certain information in this document has been derived from third parties and though STK has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by STK.
- This presentation is in summary form and does not purport to be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and the completeness of the information, statements and opinions contained.
- This is for information purposes only. Neither this nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of STK shares in any jurisdiction. This does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.
- To the fullest extent permitted by law, STK, its officers, employees, related bodies corporate, agents and advisors do not make any representations or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimated, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this arising out of negligence or otherwise is accepted.
- Any forward looking statements included in this document involve subjective judgment and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and may be unknown to, STK. In particular, they speak only as of the date of this document, they assume the success of STK's strategies, and they are subject to significant regulatory business, competitive and economic uncertainties and risks. Actual events may vary materially from the forward-looking statements and the assumptions on which the forward-looking statements are based. Recipients of this document are cautioned to not place undue reliance on such forward-looking.

Competent Person Statement

- The information in this presentation that relates to Exploration Results and Mineral Resources has been extracted from various STK ASX announcements and are available to view on the STK website at www.stricklandmetals.com.au or through the ASX website at www.asx.com.au (using ticker code "STK").
- STK confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Exploration Targets Cautionary Statement

- This presentation may comment on and discuss STK's exploration in terms of target size and type. The information relating to Exploration Targets should not be misunderstood or misconstrued as an estimate of Mineral Resources or Ore Reserves. The potential quantity and quality of material discussed as Exploration Targets is conceptual in nature since there has been insufficient work completed to define them as Mineral Resources or Ore Reserves. It is uncertain if further exploration work will result in the determination of a Mineral Resource or Ore Reserve.
- Any Exploration Targets referred to in this presentation are not Mineral Resources. The Potential quantity and grade of the Exploration targets are conceptual in nature and there has been insufficient exploration to determine a Mineral Resource. There is no certainty that additional exploration work will result in the estimation and reporting of Mineral Resources.

Corporate Snapshot

Board

Anthony McClure	Non-Executive Chairman
Mark Cossom	Non-Executive Director
David Morgan	Non-Executive Director
Trent Franklin	Non-Executive Director

Management

Andrew Bray	Chief Executive Officer
Richard Pugh	Geology Manager
Peter Langworthy	Technical Consultant
Sleiman Majdoub	Company Secretary

Significant Shareholders

L11 Capital Pty Ltd	10.51%
Millrose Gold Mines Ltd (and associates)	5.34%
Mr Shane Ball (and associates)	5.08%

Capital Structure

ASX Ticker	STK
Shares on issue	1,628,750,120

Other options	30,000,000
Share Price	\$0.19
Market Capitalisation (Undiluted)	~\$309mil

Top 40

53%

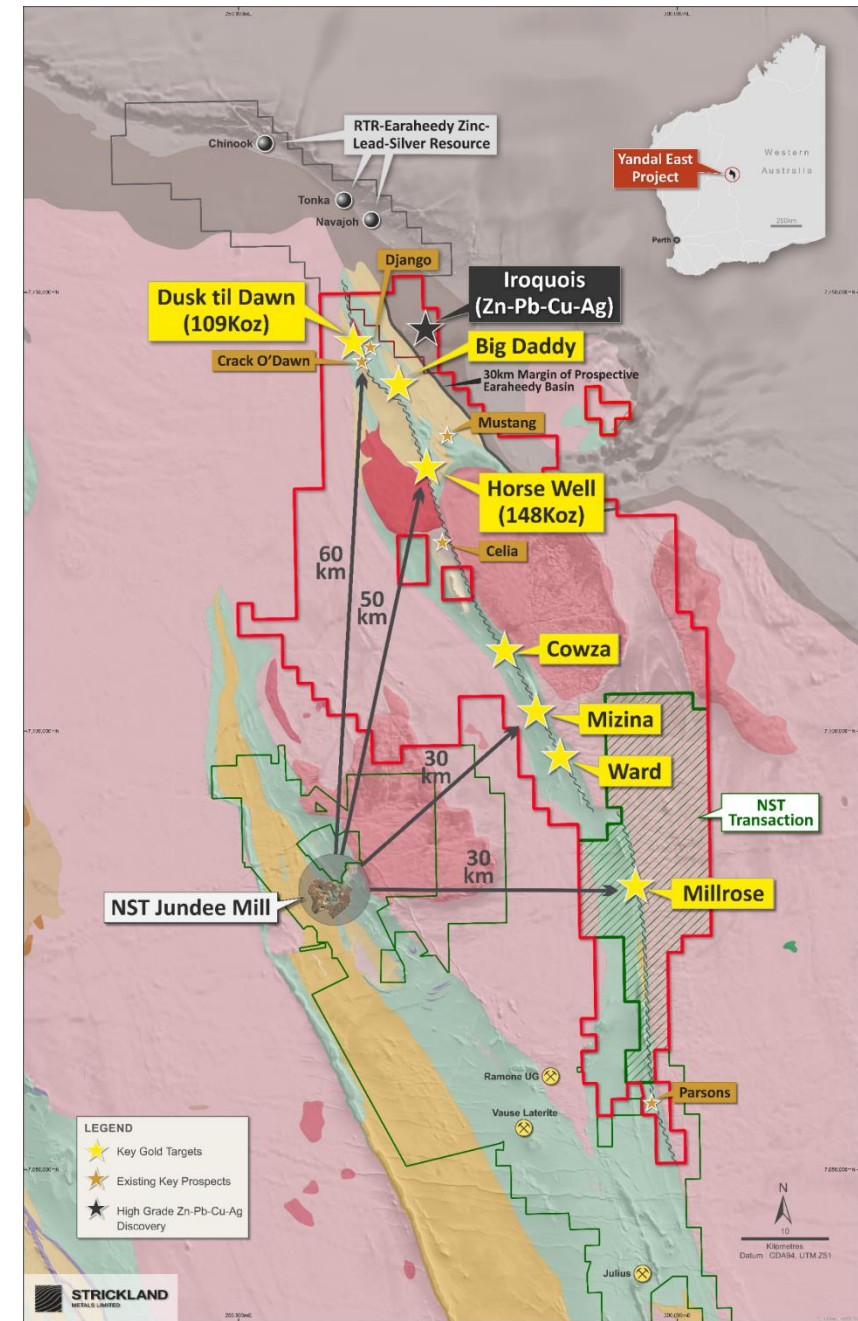

Board & Management

14%

Strickland Metals Ltd:

- ✓ Emerging tier-1 potential discovery at Marwari (and Chetak)
- ✓ Outstanding large-scale targets to be imminently tested (Rabbit Well and Great Western)
- ✓ Strong pipeline of prospects for 2024 exploration programs
- ✓ Excellent Balance Sheet - ~\$61m
- ✓ Millrose sale to NST in July 2023
- ✓ Proven management team

Marwari:

For personal use only

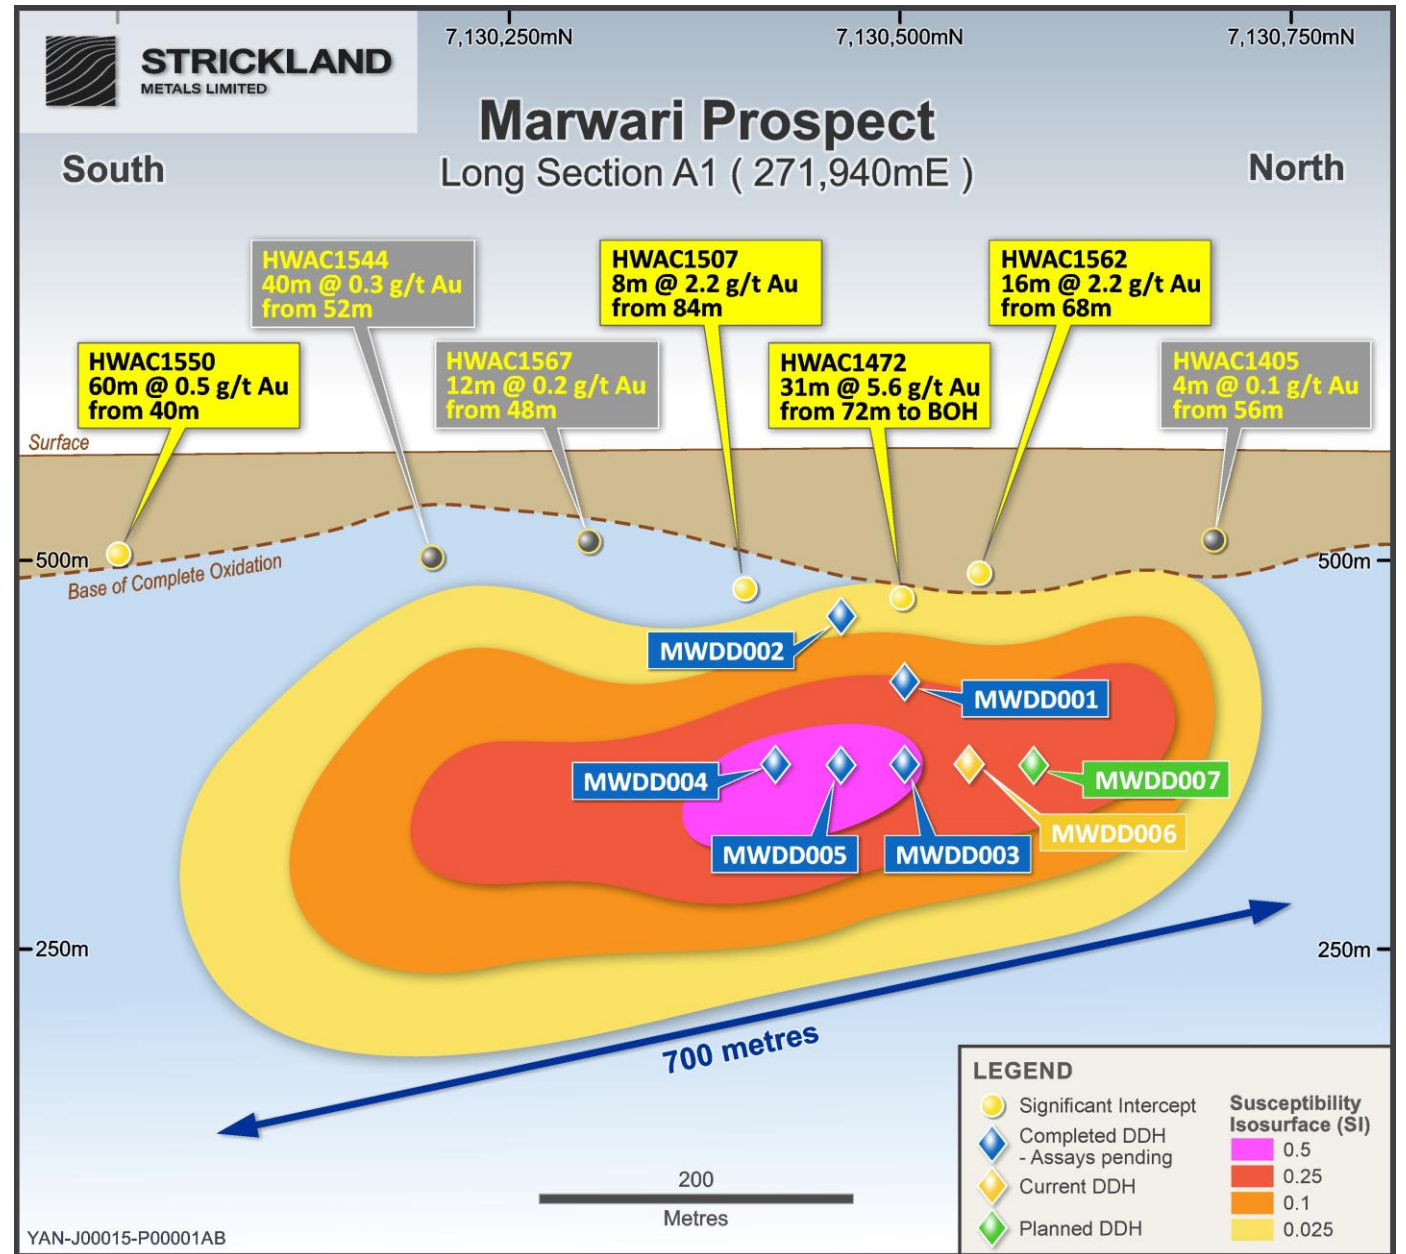

Marwari Discovery HWAC1472:
31m @ 5.6g/t Au from 72m to BOH

Six diamonds holes now complete, with three at the lab for assaying

Substantial widths (over 80m+ downhole) – anticipated true width of key zone is 40m to 50m

Intense alteration, veining, shearing, BIF intercalated with intermediate volcaniclastics

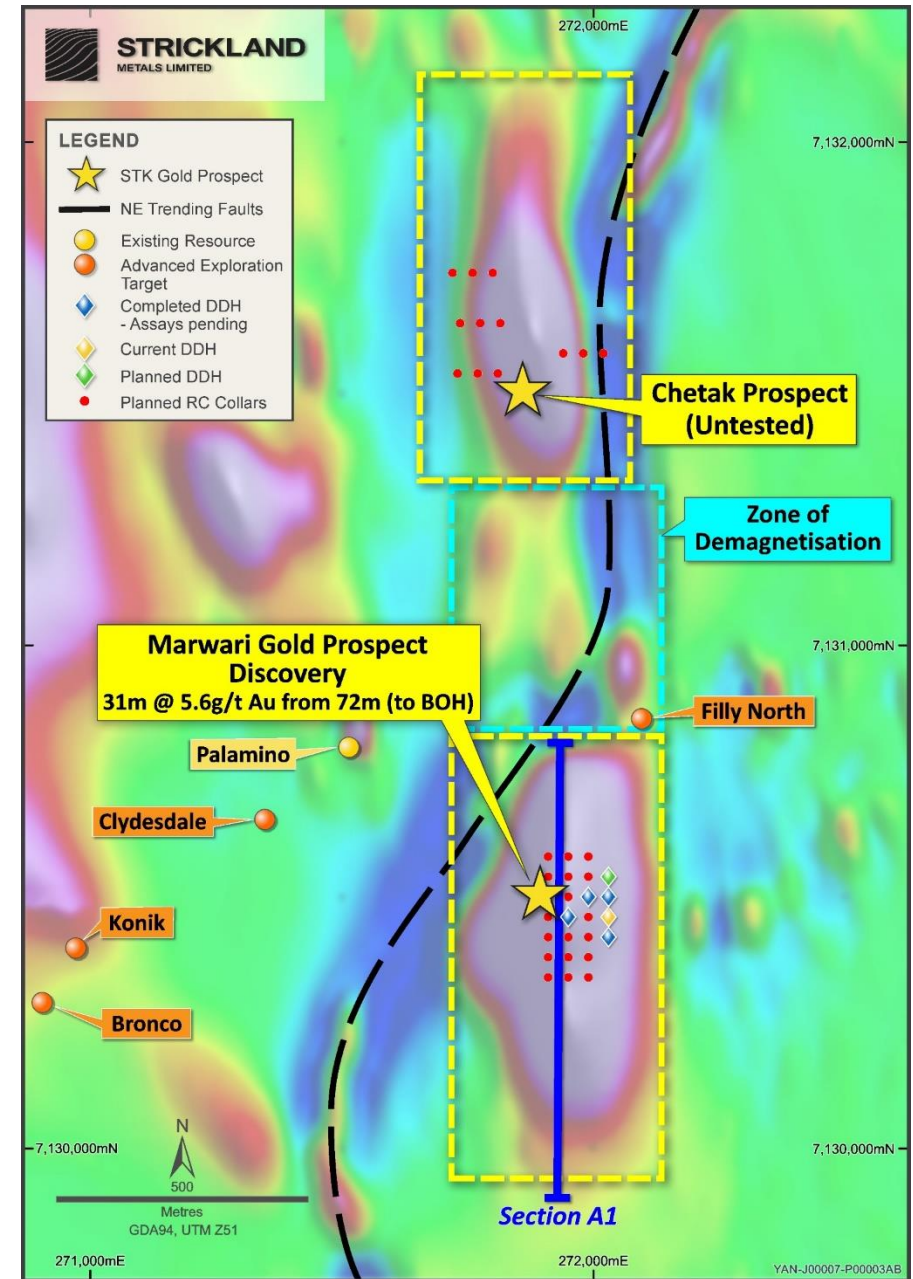

- Down dip from discovery hole

Marwari and Chetak:

- Chetak to be drilled in coming weeks (initial RC program and one diamond hole)
- Appears to be the northern extension of Marwari
- Separated by a zone of demagnetisation, which is potentially a very fertile target area
- Gives a prospective target strike length of ~2km – very significant scale

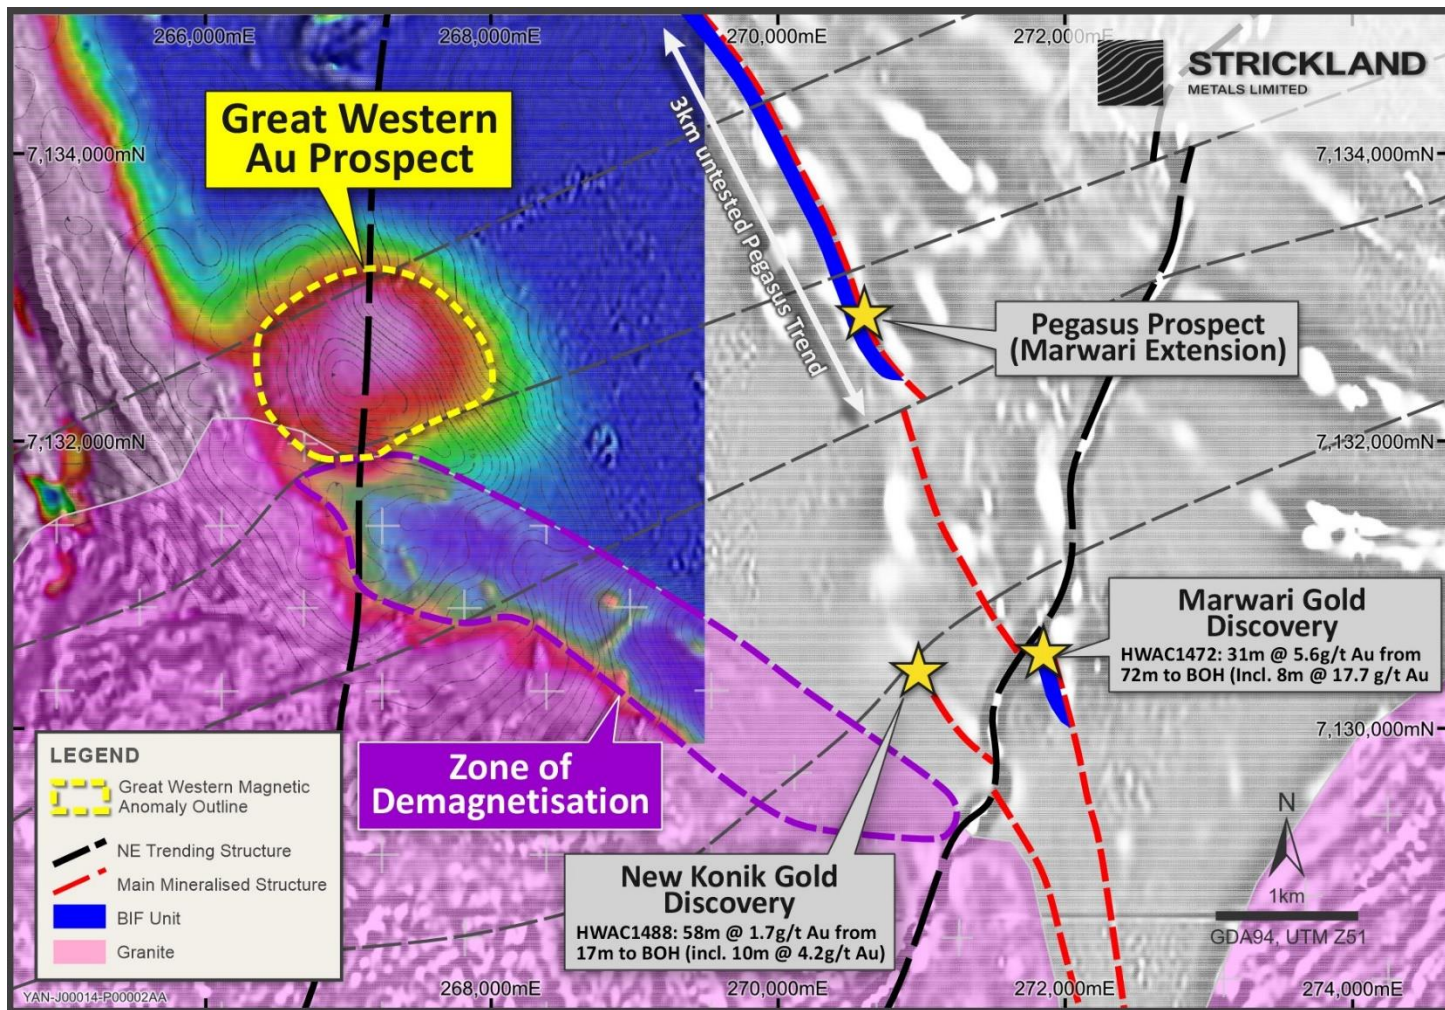

Great Western

For personal use only

- ✓ Large scale gold target
- ✓ Strong magnetic 'bullseye' feature
- ✓ Coincident surface Geochem (Au-Mo-Cu-Ag-S-Te-Sb)
- ✓ Regional granite flexure setting
- ✓ IP anomaly
- ✓ Adjacent demagnetised granite
- ✓ Proximal to significant gold mineralisation at Horse Well

Rabbit Well:

- Earraheedy Basin base metal prospect
- Major Cu-Zn-Pb-Ag (plus associated pathfinder elements) prospect

Rabbit Well

For personal use only

- Large scale base metal target
- Gravity high key to strongest mineralisation at Iroquois
- Gravity at Rabbit Well more impressive and coherent
- Strong Cu-Zn-Pb-Ag surface geochemical anomaly
- IP anomaly
- Ideal basin contact geological setting
- Stratigraphy favourable to higher grade mineralisation

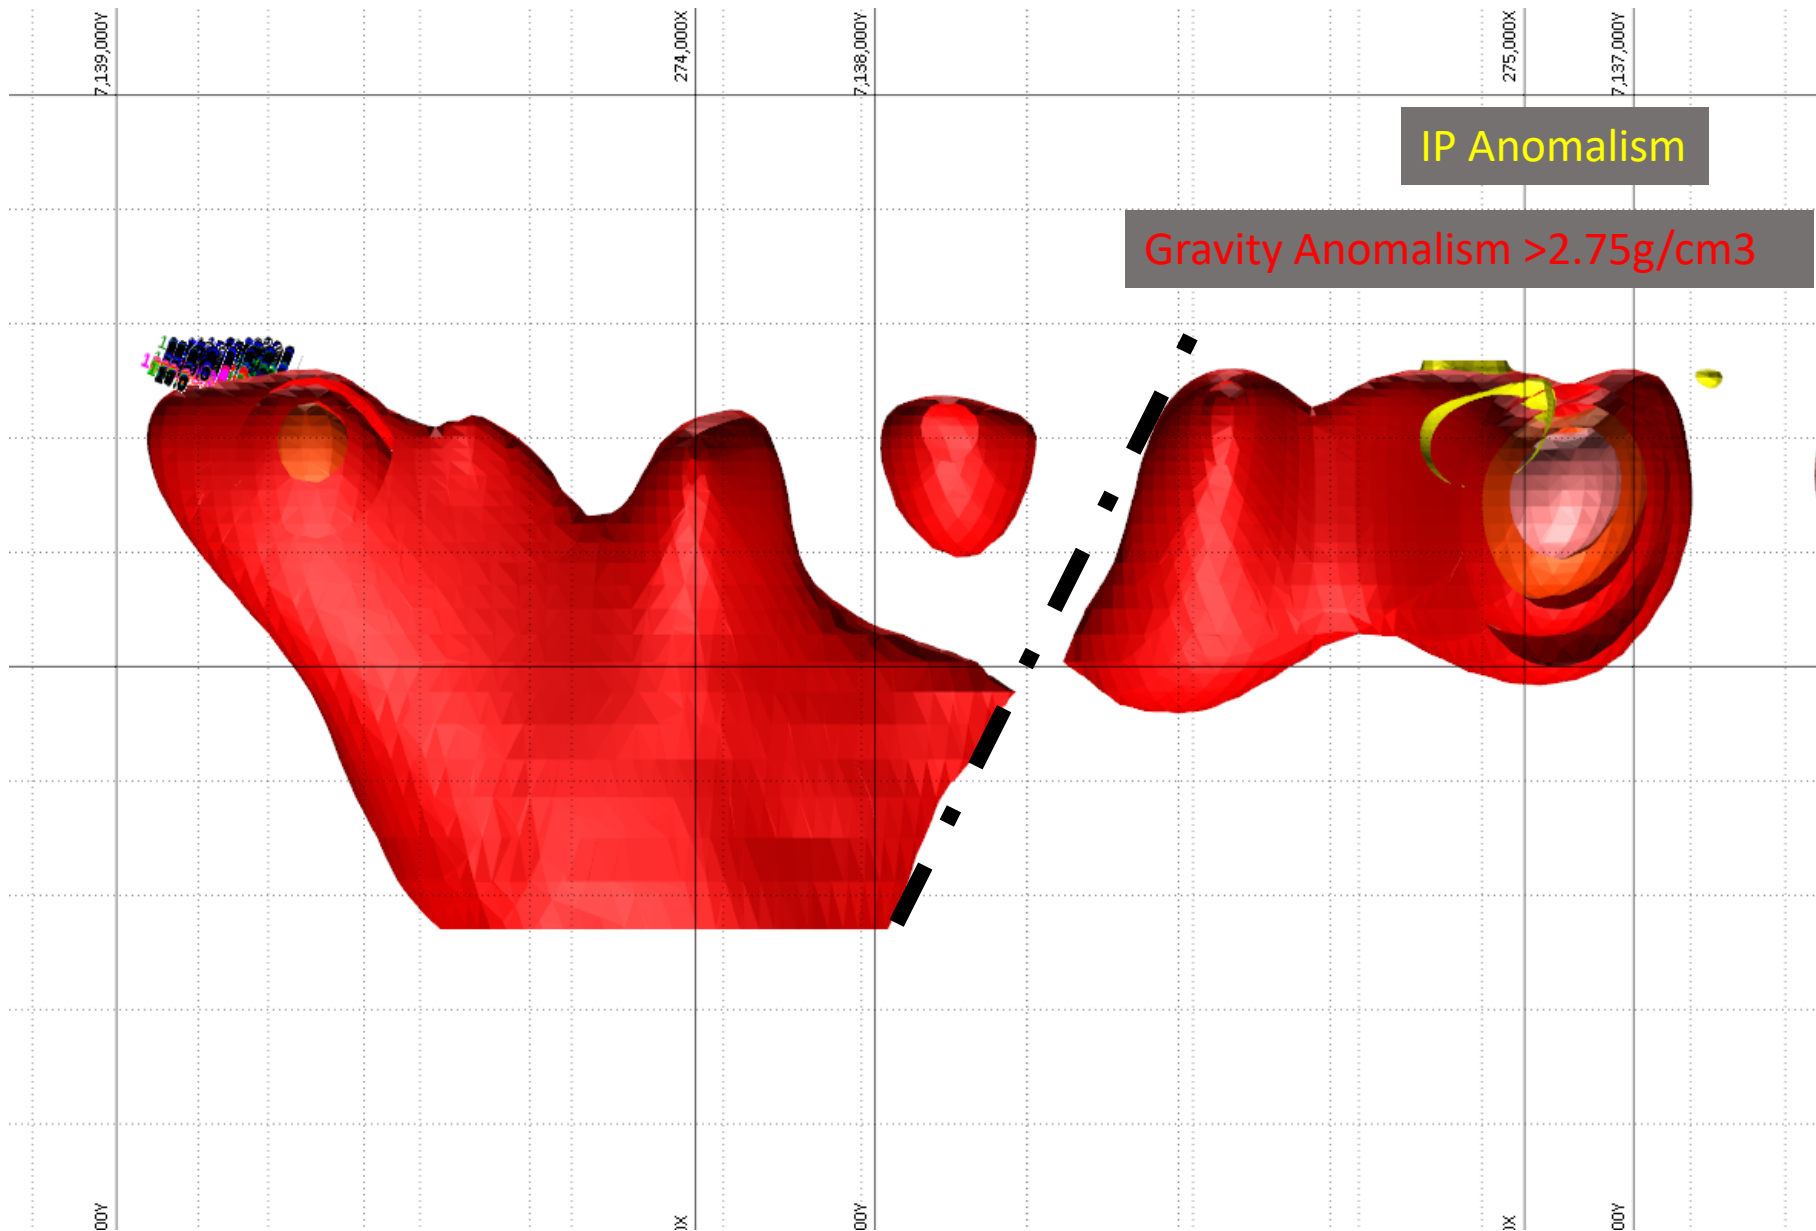

Rabbit Well:

For personal use only

Very large gravity anomaly (>2.75g/cm³) – tier 1 scale potential

Coincident Cu-Zn-Pb-Ag anomalism in shallow aircore

Main target to be drill tested imminently (diamond drilling)

For personal use only

Thank you.
