Dear Investor,

PROPOSED CHANGES TO CLAREMONT GLOBAL FUND AND CLAREMONT GLOBAL FUND (HEDGED)

Equity Trustees Limited (ABN 46 004 031 298, AFSL 240975) is the responsible entity and product issuer of the Claremont Global Fund (ARSN 166 708 792, EAP03) and Claremont Global Fund (hedged) (ARSN 166 708 407, EAP01) (together, the "Funds"). Claremont Funds Management Pty Ltd (ACN 649 280 241, CAR 128920) is the investment manager of the Funds.

We are pleased to share some forthcoming changes to the Funds. The Issuer and the Manger are proposing to transition the Funds to become exchange traded managed funds ("ETMFs") quoted on the Australian Securities Exchange ("ASX"). An application has been made to the ASX to admit the Units in the Funds to be quoted on the ASX. Once the Funds have been accepted on the ASX, their units can be traded on the ASX like any other quoted security.

What do you need to do?

There is no action required by you. Your investment and holding will not be impacted by the Funds becoming ETMFs.

It is important to note that there will be no change to the objective or strategy of the Funds upon transition to ETMFs. Additionally, there are some significant differences in how investors can transact in the Funds. We have highlighted these in **Appendix 1**.

Holders who have entered the Funds directly via the PDS and hold their units on the issuer sponsored sub-register under a Securityholder Reference Number ("SRN") will continue to hold their units on the SRN, and will not be impacted by changes to mFund Settlement Service or the structures set up for the quoted units (iNAV calculation etc). After quotation, these holders may choose to transfer their units from their SRN to an account on the CHESS sub-register under a Holder Identification Number ("HIN"). See "Can I transfer between an SRN and a HIN?" below for further details.

Removal from the mFund Settlement Service

The Issuer has requested, and the ASX have subsequently granted in-principle approval for, the removal of the Funds from the mFund Settlement Service to facilitate the transition of the Funds to become ETMFs admitted to Trading Status on the ASX under the AQUA Rules.

The approval is subject to and conditional upon ASX granting approval for admission of the Funds to Trading Status on the ASX.

Consequences of removal from the mFund Settlement Service

mFund investors can sell their units on the mFund Settlement Service before the launch of the Funds as ETMFs. Prior to the launch of the ETMFs, mFund investors should note that there will be a blackout period whereby access to mFunds to buy and sell units will be suspended. We will provide actual dates in an updated announcement once the dates for the blackout period are confirmed.

Following the blackout period, it is anticipated that the Funds will launch as ETMFs in Q1 of 2024, subject to ASX approval of the admission of the ETMFs to Trading Status. Any remaining units held on the mFund after the blackout period will automatically convert to quoted units, with fractional amounts rounded down to nearest whole unit. Investors may redeem their holdings on exchange once the Funds have launched and commenced trading as ETMFs.

Dual access mechanism

If ASX grants approval for the admission of the ETMFs to Trading Status, holders will have the option to buy and sell units in the Funds either on the ASX through your broker (on-market) or directly with the Fund via the registry (off-market). Please refer to **Appendix 1** below for a comparison of transacting on-market and off-market.

Can I transfer between an SRN and a HIN?

If your Units are held directly with the Funds on the issuer sponsored sub-register (SRN) and you wish to convert or transfer your Units to a CHESSE sub-register (HIN), you will need to provide your broker with your SRN. Investors will be sent their SRN details from the Registry via their preferred correspondence method before quotation date. You are only able to convert or transfer whole Units and any residual Units will be cancelled and become assets of the Funds.

If your Units are held in an account with your broker on the CHESSE sub-register (HIN) you may wish to transfer your Units to another HIN or to transfer or to convert your Units to an account directly with the Funds on the issuer sponsored sub-register (SRN). The Registry will process transfer of Units for investors on receipt of a completed original standard transfer form.

iNAV

An indicative net asset value ("iNAV") is a measure of the intraday net asset value of the Funds. The iNAV will be published throughout the ASX Trading Day at 15 second intervals. The iNAV will be updated using a real time fair value methodology that seeks to ensure that the iNAV reflects movements in sharemarkets and currencies during the ASX Trading Day and, for securities not trading during the ASX Trading Day, quoted proxy instruments selected based on correlations with the underlying investments. The proxies and their correlations with underlying instruments are reviewed regularly and updated as required.

External market making

An external market maker will provide liquidity to investors on the ASX by acting as a buyer and seller of units in the Funds. At the end of each day the market maker will create or cancel units by applying for or redeeming its position in units bought or sold on the ASX.

Indicative timetable for removal from mFund

An indicative timetable of the removal of the Funds from the mFund Settlement Service is set out below. This is an indicative timetable only and an updated timetable will be provided closer to the launch date.
