Fiducian funds

Our successful in-house Manage-The-Manager system of investment, continues to attract the majority of retail funds placed with us. It provides substantial diversification benefits to investors by providing them access to a range of specially selected asset managers through a single transaction. Despite media forecasts of volatility and weakness to come, financial markets remained resilient amid expectations of interest rate reductions to come in 2024. The sharp declines seen particularly in risk assets (shares) and fixed income securities were partially recovered. Our investment strategy to move close to benchmark by marginally reducing growth asset exposure and increasing fixed interest exposure has proven successful. The Zenith Survey reports our two specialist funds (Technology Fund and India Fund) and our diversified funds performances and rankings in comparison with their peer group fund managers as follows:

Community support

Community support is embedded in our DNA. Besides 16 amateur and junior sporting teams involved in soccer, women's rugby, AFL and golf, we also financially support community groups, school activities and local charitable endeavors. This expands recognition of our financial planning network. Vision Beyond AUS (VBA), the charity supported by the Fiducian Group, has continued its services in hospitals in India, Myanmar, Nepal, and Cambodia. As we go to print, more than 53,345 men, women and children living in abject poverty in these countries have now had their eyesight restored through funds and surgical equipment donated by VBA. Fiducian staff have continued to voluntarily provide accounting, administration and marketing support to VBA to ensure that every single dollar contributed by generous donors goes towards eliminating visual impairment in the world along with other service activities permitted by its constitution.

Employee diversity

Fiducian is proud to be an equal opportunity employer. It endorses diversity and currently has a number of employees that bring different skill-sets from their countries of origin. We recognize that diversity includes, but is not limited to gender, age, ethnicity and cultural backgrounds. Our diversity policy encourages persons of different gender, ethnic backgrounds, ages and skills to participate and receive recognition, reward and authority commensurate with their performance. Employees are comprised of staff from over 30 countries of origin, 18% over 55 years, and 46% female with 23% in senior roles.

The Group's current gender diversity report is available to be viewed on the Group website.

Issued capital

The Company had 31,477,623 shares on issue as at 31 December 2023. The Company did not buy back and cancel any ordinary shares on-market during the half-year and as at 31 December 2023. There were 478,255 shares available to buy back under the buy back notice announced to the ASX in June 2018.

During the half-year ended 31 December 2023, no shares were issued by the Company.

Current economic and market environment

The global economy remains sluggish as a result of increasing interest rates over the past 2 years. Pleasingly, the International Monetary Fund (IMF) reported that 'with many countries near the peak of their tightening cycles, little additional tightening is warranted' and 'inflation, both headline and underlying (core), is gradually being brought under control'. This was positive news. Consequently, many stock markets rose solidly for example, US market (S&P 500 index) (up 24%), the German market (up 20%) and the Japanese market (up 28%), while the Australian market rose by a more modest 12%. Emerging market India rose 19% while the Chinese market actually declined (by 4%).

Ongoing large deficits in many economies have resulted in high interest payments taking a larger share of total government outlays. The Ukraine and Middle East wars are also absorbing resources that could otherwise be put to productive use and economic development. Therefore, the outlook is not all blue skies, with the IMF forecasting global growth of only 2.9% which is below the long term average and a mere 1.4% contribution for the advanced economies.

Nevertheless, this year could still bring positive results for our clients, assuming that interest rates begin to decline as forecast. Indeed, this year, corporate earnings are forecast to grow by around 11% in the US, 12% in Japan, 7% in Germany, 15% in China and 14% in India (MSCI data as at 11 January, Yardeni Research).

As always, we recommend that investors should consult a Fiducian financial adviser to develop financial plans with the aim of achieving diversified investment strategies that over time could help investors realise their financial goals.

Dividend

The Board is confident that the future of the business is positive and likely to continue to strengthen through organic growth and acquisition of client bases that can benefit from the Fiducian Process. As a result the directors have resolved to pay an interim fully franked dividend in respect of the half-year ended 31 December 2023 of 18.20 cents per share based on UNPAT (31 December 2022: 12.30 cents per share based on NPAT) which is within the Company's current dividend policy range of 60% - 80% of UNPAT. The comparative period on period increase of 48% was as a result of the Company changing its dividend policy in the second half of FY2023 from a measure of NPAT to a measure of UNPAT to ensure future dividend payouts are reflective of the cash generation capacity of the business.

Auditor's independence declaration

A copy of the auditors' independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 7. KPMG remains the external auditor in accordance with Sec 327 of the Corporations Act 2001.

Rounding of amounts to nearest thousand dollars

The Company is of a kind referred to in Instrument 2016/191 issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the directors' report and financial report. Amounts in the directors' report and financial report have been rounded off to the nearest thousand dollars in accordance with that Instrument, unless otherwise stated.

In summary

The environment has been uncertain but Management has worked hard and judiciously positioned all areas of the company for future growth by utilising its vast cache of intellectual capital. Our people, our stakeholders and our shareholders should be the beneficiaries of this positioning.

This report is made in accordance with a resolution of directors.

Directors' Declaration

In the directors' opinion:

- (a) the financial statements and notes set out on pages 8 to 15 are in accordance with the *Corporations Regulations 2001*, including
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements and
 - (ii) giving a true and fair view of the consolidated entity's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (b) there are reasonable grounds to believe that Fiducian Group Limited will be able to pay its debts as and when they become due and payable.

Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Independent Auditor's Review Report

To the shareholders of Fiducian Group Limited

Report on the Interim Financial Report

Conclusion

We have reviewed the accompanying **Interim Financial Report** of Fiducian Group Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Fiducian Group Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the **Interim period** ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Consolidated statement of financial position as at 31 December 2023;
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the Interim period ended on that date;
- Notes 1 to 5 including selected explanatory notes; and
- The Directors' Declaration.

The **Group** comprises Fiducian Group Limited (the Company) and the entities it controlled at the Half year's end or from time to time during the Interim.

The **Interim Period** is the 6 months ended on 31 December 2023.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the Interim ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
