## Directors' Report to shareholders For the half year ended 31 December 2023

The Directors of Sandon Capital Investments Limited (**"SNC"** or **"the Company"**) present their report together with the interim financial statements of the Company for the half year ended 31 December 2023.

Sandon Capital Investments Limited is a company limited by shares and is incorporated in Australia.

#### Directors

The following persons were Directors of the Company during the half year and up to the date of this report: Gabriel Radzyminski – Chairman

Peter Velez - Independent Non-Executive Director

Jacqueline Sullivan - Independent Non-Executive Director

#### **Principal activities**

The Company's principal activity is investing for profit. It is a listed investment company whose assets are managed by an external investment manager, Sandon Capital Pty Ltd ("**the Manager**").

Sandon Capital is an activist value manager. It seeks to buy investments at prices the Manager considers are below the intrinsic value of those investments. It looks for investments with high levels of tangible assets, marketable securities or cash, although investments may not always have these characteristics. The Manager deploys a range of activist strategies aimed at realising or improving the intrinsic value of those investments. The Manager may also take advantage of other market opportunities where it considers there are reasonable prospects for a satisfactory return.

The Company may invest in cash, term deposits, unlisted and listed securities and debt instruments.

#### **Operating Results**

The operating results reflect the corporate simplification undertaken by the Company, which involved various transactions between the Company and its subsidiaries (the "**Corporate Simplification**"). These included repayments of intercompany loans, returns of capital and dividends. The net effect of these transactions, and the impact on Net Tangible Asset, is immaterial. The section "Corporate Simplification" below provides an overview of the process. The accounting notes provide detail.

The Company recorded net investment income of \$20,661,621 (December 2022: loss \$882,798) comprising realised loss of \$22,775,520 (largely attributed to transactions involved in the Corporate Simplification) and unrealised gain of \$11,580,848 on financial assets, other revenue of \$31,856,293 (largely attributed to an intercompany dividend paid as part of the Corporate Simplification) and some interest. The transfers of securities totalling \$49,891,120 formed part of the Corporate Simplification. There is no tax payable on the intercompany transactions arising from the Corporate Simplification. For the period, the Company recorded a net profit before tax of \$18,141,990 (December 2022: loss \$2,220,353), largely attributable to the performance of the Investment Portfolio

The Company's net profit after tax was \$14,854,666 (December 2022: net loss \$819,593).

During the reporting period, the Company's cash holdings increased from \$147,121 on 30 June 2023 to \$2,638,007 on 31 December 2023. This reflected the net effect of inflows from sales of investments, borrowings, receipt of dividends and interest and outflows from purchases of investments, payment of company expenses and the payment of a total of 2.75 cents per share dividends (net of dividends reinvested) during the period.

# Directors' Report to shareholders For the half year ended 31 December 2023

### **Director's Report (continued)**

The return to shareholders for the 6-month period (measured as the change in the Net Tangible Assets/share plus dividends paid and imputation credits) was a positive return of 18.11%.

During the period, the Company issued 1,832,571 shares in respect of the Dividend Reinvestment Plan (DRP).

As at 31 December 2023 there were 140,967,091 SNC shares on issue.

### Mercantile Investment Company Limited Notes Novation

On 13 July 2023 Mercantile Investment Company Limited ("**MVT**") announced a proposed restructure of MVT's 4.8% Unsecured Notes maturing on 10 July 2026 ("**Notes**"). As the Issuer, the Notes were unsecured liabilities of MVT and were guaranteed by SNC. MVT sought, and on 7 August 2023 obtained, Noteholders approval for a restructure that resulted in SNC replacing MVT as the Issuer of the Notes (becoming the "**Novated Notes**"). The restructure was implemented by novating all the rights and obligations held by MVT in its capacity as the Issuer to SNC, resulting in SNC assuming all obligations and all liabilities in respect of the Notes.

On 10 August 2023, MVT Noteholders received the Novated Notes in SNC and these commenced trading on 11 August 2023 under ASX Code SNCHA. 290,578 notes with a fair value of \$27,023,754 were novated to SNC. For the reporting period, an interest payment of \$703,119 was made to SNCHA Noteholders. In prior reporting periods, this interest cost was reflected in the carrying value of MVT. SNC recorded the Notes at fair value on recognition and subsequently accounted for the Notes at amortised cost.

#### **Corporate Simplification**

Since acquiring MVT in 2019, the Company has borne increasing costs associated with compliance, notably audit expenses. The Company's financial reports were also perceived as complex. The restructuring of the MVT Notes, outlined above, allowed the Company to move to a more streamlined and simple corporate structure, with the aim to of reducing organisational complexity and compliance costs.

As part of the process, MVT sold its domestic and international listed and unlisted securities to SNC. Other wholly owned subsidiaries, Ask Funding Pty Ltd ("**AKF**") and Richfield International Pty Ltd ("**RIL**") were transferred from MVT to SNC.

The completion of the Corporate Simplification resulted in a return of capital of \$28,834,389 and a dividend of \$29,620,677 from MVT to SNC. This dividend was offset by a realised loss of \$26,257,406 and an unrealised loss of \$3,748,049 in the current period and an unrealised gain of \$392,196 in the prior periods, resulting in an immaterial economic effect to the Statement of Profit or Loss and Other Comprehensive Income and tax.

The following wholly owned subsidiaries have not yet been, deregistered but are in the process of, being deregistered:

- Mercantile Investment Company Limited
- Murchison Metals Ltd
- Mercantile OFM Pty Ltd
- Mercantile IAH Pty Ltd
- Mercantile NZ Limited
- Wellington Merchants Ltd

IPE Pty Limited was deregistered during the six months.

### (b) Prime Broker facility

The Company can employ leverage, either by borrowing cash or shares, which can then be sold short. The Board has imposed a limit to such leverage of not more than 50% of total assets (that is 150% gross exposure). Leverage can not only magnify gains but also losses.

During the period, the Company used the services of a prime broker, a service through which the Company can borrow cash or shares, which are then secured against assets held in the prime broker's custody. The Company maintains a prime brokerage facility with Barrenjoey Markets Pty Ltd ("**Barrenjoey**", "the Prime Broker", "the PB", "PB Custody" and together "the PB Facility").

The PB Facility is secured by a first charge over the financial assets that the Company transfers, from time to time, to the PB Facility. This charge covers all of the Company's right, title and interest in the assets transferred to the PB Facility. This includes those that may be transferred to custodians and sub-custodians (by the Prime Broker) in accordance with the Prime Brokerage Agreement, and any right which arises after the date of the charges to receive cash or return of property from the parties under the Prime Brokerage Agreement, as security for payments and performance by the Company of all of its obligations to the Prime Broker under the Prime Brokerage Agreement.

Any amount drawn from the PB Facility count, along with the Notes as leverage. The PB Facility leverage rate is determined daily using the Bank Bill Swap Rate plus spread and Note interest is 4.8%.

The Company paid net interest of \$16,222 and other fees of \$48,273 to the Prime Broker during the reporting period.

#### Notes to the Interim Financial Report For the half year ended 31 December 2023

#### 9. Financial instruments measured at fair value

#### (a) Fair value hierarchy

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy (consistent with the hierarchy applied to financial assets and financial liabilities):

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

**Level 2**: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Included in Level 1 of the hierarchy are listed investments. The fair value of these financial assets is the last traded price. Where the last traded price is higher than the bid and offer spread, the offer price is used at the end of the reporting period. Where the last traded price is lower than the bid and offer spread, the bid price is used at the end of reporting period. Both last traded and offer prices exclude transactions costs.

Included in Level 2 of the hierarchy are unlisted investment companies. The fair value of an investment has been based on its net asset backing, being the underlying value of its cash, cash equivalents and investment portfolio values at the end of the reporting period.

As at 31 December 2023, the Company has four investment classified as Level 2. Two of the investments are AKF and RIL which are unlisted wholly owned subsidiaries. These have been valued at its underlying post-tax net asset backing at the end of the reporting period. The other two investments are Dawney & Co Ltd and Sietel Limited. Their values have been based on observable market data; however, these are thinly traded securities (June 23: comprised of MVT and its wholly owned subsidiaries).

Included in Level 3 of the hierarchy are unlisted securities such as shares in private companies, trusts and unlisted foreign notes. To determine the fair value of these investments, valuation techniques such as comparisons to similar investments for which market observable inputs are available, latest available net tangible assets per share, the adjusted last sale price or the fair value of the expected redemption value in the notes have been adopted.

As at 31 December 2023, the Company had seven unlisted investments classified as Level 3, representing a total of \$11,218,146.

The Company's investment in Carbon Conscious Investment Ltd (CCIL) valued at \$344,996 (June 2023: \$344,996) is based on its share of CCIL's shareholder equity.

The Company's investment in Yellow Brick Road Holdings Limited (formerly ASX code: YBR) was reclassified from a Level 1 investment to a Level 3 investment following its voluntary delisting from the ASX on 27 November 2023. YBR was valued at \$3,850,816 based on the last traded price on the ASX. The Company will review the carrying value of this investment when YBR's next financial report is released.

During the reporting period, the Company acquired MVT's holding in Foundation Life which brought the total investment to \$6,739,633 (June 2023: \$330,128). The investment is based on its share of Foundation Life's shareholder equity and ownership of Foundation Life's notes. The fair value of Foundation Life is calculated as the net tangible assets per share based on the figures reported in Foundation Life's reviewed half yearly and audited full year accounts (in March and September respectively).

### Independent Auditor's Review Report to the Members of Sandon Capital Investments Limited ABN 31 107 772 467

### Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
