Commenting on the 1H FY24 results, CEO and Managing Director Mr Peter McGrath said

“We are pleased to see the increase in the revenue and underlying profitability of the business in the 1st half of FY24. We are strongly encouraged by the results and opportunities of each of our three operating businesses including Global, SME telecommunications and ICT services with all three business units showing an increasing trend in monthly underlying EBITDA.”

¹ Underlying EBITDA is presented to provide an understanding of the underlying performance of the Group’s operations. It reflects the results generated from ongoing operating activities that excludes non-operating adjustments considered to be non-cash or non-recurring in nature. These exclusions include net interest, tax, non-cash share LTIP costs, depreciation, amortisation, acquisition, integration, restructuring & other one-off costs.

KEY BUSINESS HIGHLIGHTS

Financial

- Total operating revenue for 1H FY24 was \$27m and included \$5.8m from the Global business, \$11.9m from the SME Telecommunications business and \$9.3m from the ICT Services business.
- Continued focus on cost management and despite supply costs pressures, Group gross margin increased to 48% including an improvement in margin of the core Comms Group business.
- Operating expenditure held largely flat at \$9.8m compared to \$9.9m for the 1H FY23 – a strong result considering cost increases in the marketplace and despite wage and other operating cost pressures.
- The Company had cash at bank of \$2.4m at 31 December 2023 relative to \$1.8m at 31 December 2022 and \$8.1m of term loan debt (after the repayment of \$0.5m in the six month period).
- The synergy projects in the SME & ICT businesses have now been largely completed, resulting in cost savings for the Group. We continue to optimise some supplier costs in our SME business resulting in cost savings.

- All three business units have a healthy sales pipeline of quality sales deals.
- Our key partnership with Vodafone Group continues to have a positive trajectory. We have onboarded a range of services to date and expect to see some key sales deals close over the next 6 months with a number of significant deals in the sales pipeline.
- In our Global business, we continue to expand our global reach including with telco licences, particularly in the Asia Pacific region. Based on some further expected positive developments in the next few months, we plan to provide a further update on our Global business in the next quarter
- Our footprint and licence expansion in Asia is also opening up opportunities with other wholesale customers.
