General Information

The Group's main purpose is the production of platinum group metals (which primarily include platinum, palladium, rhodium, iridium and ruthenium) and associated metals (nickel, gold, copper, cobalt and silver) from its Mineral Resources and Ore Reserves on the Great Dyke in Zimbabwe. At present, the Group's mining activities are operated by Zimbabwe Platinum Mines (Private) Limited (the operating subsidiary).

REVIEW OF PERFORMANCE

Safety, Health and Environment

The Group retained certification for the following three management systems:

- ISO 45001:2018 – Occupational health and safety management system
- ISO 14001:2015 – Environmental management system
- ISO 9001:2015 – Quality management system.

Safety

The Group had two lost-time injuries (LTI) during the half year ended 31 December 2023, resulting in a lost-time injury frequency rate (LTIFR) of 0.18 per million-man hours against a tolerance of 0.25.

Zimplats board and management remain committed to ensuring a safe working environment for all employees and contractors.

Directors' report *(continued)*

Environment

No incidents relating to environmental non-compliance were recorded during the half year.

The Group continued with the quest to improve water stewardship with recycled water accounting for 38% of total water consumed. The Group is on course to achieve more than 40% by the end of the financial year.

Rehabilitation of the open pits and the tailings storage facilities progressed as planned during the period under review.

Operations

Ore mined during the half year increased by 5% to 4.0 million tonnes from 3.8 million tonnes for the same period last year. This was mainly due to pillar reclamation at Rukodzi Mine in addition to Mupani Mine production output which has increased from 1.1 Mtpa to 1.4 Mtpa.

Tonnes milled, at 3.9 million tonnes, increased by 6.4% compared to same period last year mainly due to Third Concentrator Plant mill volume optimisation.

Six elements (platinum, palladium, rhodium, gold, ruthenium and iridium) (6E) mill head grade at 3.34g/t was marginally lower compared to 3.39g/t achieved same period last year due to increased contribution of ore from lower grade mines.

6E production increased by 9% to 327 810 ounces from 300 738 ounces in the same period last year mainly due to the increase in the milled tonnage.

- Mtpa refers to million tonnes per annum
- g/t refers to grams per tonne

Metal Prices

Average prices for most of the metals declined, except for gold, iridium, silver and copper which improved compared to the same period last year as shown in the table below:

Metal	Half year ended 31 December 2023	Half year ended 31 December 2022	Variance	Year ended 30 June 2023
Platinum (US\$/ounce)	923	929	(1%)	970

Financial

- Revenue at US\$372.8 million was 32% lower than prior year comparative period as average US\$ metal prices softened during the period. Gross revenue per 6E ounce sold for the period declined by 38% to US\$1 164 from US\$1 870. Sales volumes of 6E ounces were 10% higher at 320 196 ounces compared to 291 751 in the prior period.
- Cost of sales at US\$342 million was 8% higher than the same period last year's US\$315.6 million. Consequently, gross profit margin was 8%, a 34% reduction from 42% achieved in the same period last year mainly due to the impact of higher than budget operating cost per 6E ounce in the current period.
- Cash operating cost per 6E ounce produced at US\$829, increased by 1% from the US\$822 reported in the same period last year mainly driven by local inflation and increase in labour headcount due to introduction of Third concentrator plant and pillar reclamation.

Resultantly, profit before income tax for the period at US\$14.2 million was 94% lower than US\$221.5 million recorded in the same period last year. Income tax for the half year at US\$23 million (2022: US\$61.9 million) was below prior year comparative period mainly due to lower profit before tax. However this was largely offset by the increase in deferred tax expense following the change in corporate income tax rate from 24.72% to 25.75% which resulted in loss after tax for the period of US\$8.8 million compared to a profit after tax of US\$159.6 million achieved in the same period last year.

The Group generated net cash inflows from operating activities amounting to US\$70.1 million (2022: US\$163.7 million) and paid dividends of US\$100 million (2022: US\$120 million). The Group made a draw down from the Standard Bank of South Africa Borrowing Base Facility (US\$35 million) during the six months to December 2023.

The cash and cash equivalents balance as at 31 December 2023 was US\$71.9 million (30 June 2023: US\$253.6 million and 31 December 2022: US\$293.9 million).

Directors' report (*continued*)

CAPITAL PROJECTS

The Group's capital projects programme for the half year under review focused on the following:

Maintaining Current Production Levels through Mine Replacements and Upgrades

The development and upgrade of Mupani Mine (the replacement for Ngwarati, Rukodzi and part of Mupfuti mine), is on schedule. Mupani Mine targets a production capacity of 3.6 million tonnes per annum in August 2028. A total of US\$291 million had been spent on this project as at 31 December 2023 against an approved project budget of US\$386 million. The upgrading of Bimha Mine is progressing well, having achieved nominal production capacity of 3.1 million tonnes per annum. The mine upgrade is part of the replacement of production capacity from Mupfuti Mine which is scheduled for depletion in 2027. A total of US\$77 million had been spent on this project as at 31 December 2023 against an approved project budget of US\$82 million.

Expanding Production Levels through Growth Projects

The smelter expansion project implementation continued with on site construction and delivery of manufactured equipment in the half year under review. The project targets a capacity of 380 000 tonnes of concentrates (about 538 000 6E ounces). The sulphur dioxide (SO₂) abatement project has progressed well with significant offsite equipment manufacture being complete. As at 31 December 2023, a total of US\$295.9 million (inclusive of US\$75.9 million in prepayments) had been spent on both projects against an approved budget of US\$521 million.

Refurbishing the Mothballed Base Metals Refinery

The refurbishment of the mothballed base metals refinery (BMR) at SMC progressed well with a focus on early onsite construction activities, procurement of long lead equipment and metallurgical test work. The BMR targets a capacity of 5 200 tonnes of nickel equivalent to current production volumes. As at 31 December 2023, US\$18.5 million had been spent on the project, against a project budget of US\$190 million.

185 MW Solar Plant Investment

The Solar PV Plant Phase 1A was approved by the board in March 2022. The project is planned to deliver a power output capacity of 35MWac against a total output capacity of 185MWac planned across four project implementation phases. The project has an authorized capital budget of US\$37 million. Onsite construction and equipment deliveries are in progress with a cumulative US\$35 million (inclusive of US\$19.7 million in prepayments) committed as at 31 December 2023.

EVENTS AFTER THE REPORTING PERIOD

The directors are not aware of any other subsequent events which materially impact the condensed consolidated interim financial statements.

OUTLOOK

The operating environment characterised by softening metal prices has affected the financial performance in the period under review. In response the company has instituted a number of survival strategies with stringent measures to contain costs and preserve cash. We remain focused, committed and determined to ensuring the overall success of the business.

In addition, the Group's focus on safety remains unwavering and we continue to invest in resources and technologies to ensure achievement of our zero-harm goal.

INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE SHAREHOLDERS OF ZIMPLATS HOLDINGS LIMITED

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Zimplats Holdings Limited and its subsidiaries "the Group" as at 31 December 2023 and the related condensed consolidated statement of profit and loss and other comprehensive income, condensed consolidated statement of changes in equity, condensed consolidated statement of cash flows for the six month period ended 31 December 2023 and a summary of material accounting policy information and selected explanatory notes.

Directors' Responsibility

The Directors are responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard (IAS) 34 – "Interim Financial Reporting" and the requirements of the Guernsey Companies Act.

Auditor's Responsibility

Our responsibility is to express a conclusion on this condensed consolidated financial information based on our review. We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated financial information of the Group does not present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, the consolidated financial performance, the consolidated changes in equity and the consolidated cash flows for the period then ended in accordance with International Accounting Standard (IAS) 34 – "Interim Financial Reporting" and the requirements of the Guernsey Companies Act.

Notes to the condensed consolidated interim financial statements

For the half year ended 31 December 2023

1 GENERAL INFORMATION

Zimplats Holdings Limited (the Company) is a public company domiciled in Guernsey, Channel Islands and listed on the Australian Securities Exchange (ASX). The condensed consolidated interim financial statements for the half year ended 31 December 2023 comprise of the Company and its subsidiaries (together the Group).

The Group's principal business is producing platinum group metals (which primarily include platinum, palladium, rhodium, iridium and ruthenium) and associated metals (nickel, gold, copper, cobalt and silver) mined from the Great Dyke in Zimbabwe. The Group operates mines in Ngezi and has processing plants in Selous and Ngezi.

2 BASIS OF PREPARATION

The condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting'. The condensed consolidated interim financial statements have been prepared on a going-concern basis as the directors believe that the Group will continue in operation for the foreseeable future.

The condensed consolidated interim financial statements do not include all the notes of the type normally included in the annual financial statements. Accordingly, these interim financial statements should be read in conjunction with the annual financial statements for the year ended 30 June 2023 which were prepared in accordance with IFRS Accounting Standards and any public announcements made by the Company during the interim period under the ASX Listing Rules.

The condensed consolidated interim financial statements are presented in United States dollars (US\$), which is the Group's functional currency.

The condensed consolidated interim financial statements have been prepared under the historical cost convention except for the following:

- Equity instruments designated as financial assets measured at fair value through profit or loss
- Trade receivables measured at fair value
- Liabilities for cash-settled share-based payment arrangements, measured using a binomial option pricing model.

Sustainability and climate change-related disclosures

Zimplats adheres to existing legislation and financial reporting framework. The Group additionally notes the current developments in corporate sustainability reporting, particularly in relation to their financial impact. Zimplats supports the work of the IFRS International Sustainability Standards Board (ISSB) toward achieving this goal through its published sustainability disclosure standards, whose impact on the Group is currently being evaluated.

Climate change and other sustainability-related matters have been considered to the extent that these have materially impacted the carrying amounts of assets and liabilities, cash flows or the related estimates and judgements contained in the financial statements and have been disclosed in the relevant notes and Sustainability Matters section of the Integrated annual report.

3 MATERIAL ACCOUNTING POLICIES

The principal accounting policies and methods used by the Group are consistent with those of the most recent annual financial statements, except for changes due to the adoption of new or revised IFRS Accounting Standards. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in the notes where necessary.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 30 June 2023.

5 OPERATING SEGMENTS

Operating segments are reported in a manner consistent with the internal reporting provided to the chief decision maker.

The executive committee has been identified as the chief operating decision maker and is responsible for making strategic decisions, allocating resources and assessing the performance and financial position of the Group.

Notes to the condensed consolidated interim financial statements (*continued*)

For the half year ended 31 December 2023

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity's chief decision maker to make decisions about resources to be allocated to the segment and assess its performance; and
- for which discrete financial information is available.

The Group operates as a vertically integrated mining concern and is managed as a single segment. The Group's operations are based in one geographical location, Zimbabwe. The chief operating decision maker (the executive committee) makes strategic decisions based on internal reports on the Group's performance and financial position as a whole, which is shown in the primary statements. The Group has one customer, Impala Platinum Limited.

Accounting Policy

The group sells white matte or concentrate which primarily consists of platinum, palladium, rhodium, iridium, ruthenium and associated metals (nickel, gold, copper, cobalt, and silver). The products are sold to one customer, Impala Platinum Limited ('Impala'), a fellow subsidiary in South Africa, under the terms of a contract. Performance obligations included in the sales contract are assessed to allocate the transaction price to the performance obligation in order to determine revenue to be recognised.

Revenue from contracts with customers

Revenue from the sale of white matte and concentrate is recognised when the product has been delivered to Impala where it is subjected to further processing in accordance with contractual terms. This is the point at which the performance obligation is satisfied and a receivable is recognised as the consideration is unconditional and only the passage of time is required before payment is due. No element of financing is present due to short term nature of group contracts and credit terms are consistent with market practice. Prices of the individual extracted metals are based on observable spot prices. Quantities of the metals contained in the white matte and concentrate are obtained from the assay report results from both the Group and Impala and agreed by the two parties.

Revenue from movements in commodity prices

The sales price is determined on a provisional basis at the date of the sale, with adjustments made to the sale price based on the movements in quoted market prices up to the date of final pricing.

Areas of judgement and estimates

Significant judgements made in applying IFRS 15 to contracts with customers

The group recognised revenue for the half year ended 31 December 2023 amounting to US\$372.8 million (December 2022: US\$545.5 million, year ended June 2023: US\$962.3 million) for metal sales to Impala. Sales to Impala are governed by a contract which stipulates when payments are to be received and the prices to be effected. During the course of the year, assays performed by the group are compared against those done by Impala and averages for both parties are used to determine sales volume. The Group believes that, based on past experience, these assays will not vary significantly.

At period end, deliveries to Impala for which actual prices are not yet certain are valued using average metal prices for the month of December 2023. Appropriate adjustments will be made in the following period when they fall due for payment. Total sales for the period comprise current period sales and prior period pipeline sales adjustments.

18.1 Bank Borrowings

Bank borrowings comprised US\$40 million Revolving Borrowing Base Facility with Standard Bank of South Africa Limited with a tenor of 12 months. The facility is used to mainly fund capital expenditure and any gaps in working capital. Interest is charged at Secured Overnight Financing Rate (SOFR) plus 2.85% per annum and is paid quarterly.

The Group had US\$5 million undrawn on the facility at 31 December 2023.

18.2 Leases

The Group had two leases deemed as material as at 31 December 2023, as follows:

DHI Ore and Concentrates Haulage

The Group has a contract for haulage trucks used for the transportation of ore and concentrates between Ngezi and the Selous Metallurgical Complex.

The lease contract has a period of three years from 1 November 2022 to 31 October 2025.

As at 31 December 2023, the present value of the lease liability was US\$3.7 million (30 June 2023: US\$4.7 million, 31 December 2022: US\$5.5 million) at a discount rate of 7.3%.

Old Mutual Properties - Borrowdale Office Park

The lessor and Zimplats entered into a lease agreement in which Zimplats leases premises measuring 1 146m² – situated at stand 19308, Borrowdale Office Park – 1st Floor, South block, Borrowdale, Harare for the purposes of administration offices.

The lease contract has a period of two years from 1 December 2022 to 30 November 2024. As at 31 December 2023, the present value of the lease liability was US\$0.1 million (30 June 2023: US\$0.1 million, 31 December 2022: US\$0.2 million).

19 EARNINGS PER SHARE

21 CONTINGENCIES

Contingent liabilities

At half year-end the Group had contingent liabilities in respect of matters arising in the ordinary course of business from which it is anticipated that no material liabilities will arise.

Uncertain tax matters

The Group has historically filed, and continues to file, all required income tax returns and to pay the taxes reasonably determined to be due. The fiscal legislation in Zimbabwe is volatile, highly complex and subject to interpretation. From time to time, the Group is subject to a review of its historic income tax returns and in connection with such reviews, disputes can arise with the Zimbabwe Revenue Authority ('ZIMRA') over the interpretation and/or application of certain legislation.

Significant judgement is required in determining the provision for income taxes due to the complexity and differences of interpretation of fiscal legislation, and application which may require determination through the courts. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business.

The Group recognises liabilities for anticipated tax audit issues and uncertain tax positions based on estimates of whether additional taxes will be due. The assessment is based on objective, unbiased interpretation of the fiscal legislation, informed by specialist independent tax and legal advice. Where ZIMRA as the tax authority makes an assessment that differs from that determined and initially recorded by the company, such difference in computation will impact the income tax expenses and liabilities in the period in which such determination is made.

Irrespective of whether potential economic outflows of matters have been assessed as probable or possible, individually significant matters are included below to the extent that disclosure does not prejudice the Group.

Matters before the courts

The Group filed legal proceedings in the Special Court for Income Tax Appeals and the Supreme Court of Zimbabwe in relation to various historical and current income tax matters and these cases are pending in the courts. The Group has on a without prejudice basis settled the disputed liabilities involved in these cases and therefore, no further liabilities will arise in respect of these disputed tax matters.

22 RELATED PARTIES

The Company is controlled by Impala Platinum BV which owns 87% of the ordinary shares of Zimplats Holdings Limited. The ultimate holding company is Impala Platinum Holdings Limited (incorporated in South Africa) which owns a 100% equity interest in Impala Platinum BV.

Financial liabilities			
Financial liabilities at amortised cost			
Borrowings (note 18)	38 818	4 800	5 746
Trade and other payables (excluding statutory liabilities)	136 073	128 814	96 295
	174 891	133 614	102 041

The carrying amounts of financial assets and financial liabilities which are not carried at fair value is a reasonable approximation of their fair value. The impact of discounting is not significant due to the short term nature of bank overdraft, trade and other payables.
