Your directors present their half year report on the consolidated entity ("Group") consisting of PRL Global Ltd (formerly known as CI Resources Limited) ("PRG" or "Company") and the entities it controlled at the end of, or during, the half-year ended 31 December 2023.

#### Directors

The following persons were directors of PRL Global Ltd (formerly known as CI Resources Limited) for the whole of the half-year and up to the date of this report, unless otherwise stated:

Mr David Somerville
Mr Lai Ah Hong
Dato' Sri Tee Lip Sin
Mr Tee Lip Jen
Mr Adrian Gurgone
Mr Ong Keng Siew
Ms Tee Chain Tee (Alternate to Dato' Sri Tee Lip Sin)

#### Dividends

The Directors propose paying a fully franked interim dividend of 2.5 cents per share issued with the record date being set at 22 March 2024 with payment to be made on the 19 April 2024.

#### **Principal Activities**

The principal activities of the entities within the consolidated Group for the half year were:

- mining, processing and sale of phosphate rock and dust;
- trading and manufacturing of other fertiliser products
- providing earthmoving, fuel, pilotage and maintenance services to other Christmas Island organisations;
- operating a palm oil estate, processing and sale of palm oil products; and
- trading, importing and exporting of commodities

#### **Review of operations**

The Consolidated Entity is reporting a net profit for the period of \$11.19M for the half-year ended 31 December 2023 (31 December 2022: \$21.53M).

#### Financial Results

The Board is pleased to report a constructive profit result for the six months to 31 December 2023.

The well-flagged diversification strategy the Group which has been executed in recent years, and which delivered strong earnings across segments last financial year, continues to deliver with a dynamic and changing earnings mix.

The fertiliser segment, underpinned by our phosphate mine on Christmas Island, performed well with a combination of strong production being met by continuing demand from customers in the region. Approximately 360,000 tonnes of Phosphate was sold compared to 275,000 for the same period in the previous year, a good result supported by more benign weather conditions and operational improvements, despite continuing challenges from government port infrastructure. Strong additional fertiliser sales were reported out of our wholly owned subsidiary Phosphate Resources Malaysia.

# **Directors' report**

Our logistics segment, underpinned by joint venture majority-owned subsidiaries Liven Nutrients (fertilisers) and Kemoil (refined oils), continued to deliver positive contributions to earnings while also adding revenues of \$525M for the half-year compared to \$454M for the same period last year.

The resultant performance saw Fertilisers producing approximately 70% of the profit for the period and Logistics contributing approximately 30%.

As noted in previous reports, the performance of segments will not be consistent from period to period due to the unique economic drivers and markets to which each segment is exposed, leading to uncorrelated performance. The diversification strategy is designed to offset the impact of these cycles going forward.

#### Significant changes in the state of affairs of the Company

There has been a material change in the composition and nature of the Group with the completion of the sale of the wholly owned subsidiary, Cheekah-Kemayan Plantations Sdn. Bhd ("CKP") on 31 January 2024. The business of CKP represented the entirety of the Group's farming operating segment. The farming segment has been classified as a held for disposal group and a discontinued operation for the purposes of the interim financial report.

#### 6 Financial Instruments

The Directors have concluded that the fair value of financial assets and financial liabilities are not materially different to book values. The methods and assumptions used to estimate the fair value of financial instruments were:

- Receivables/payables Due to the short term nature of these financial rights and obligations, and/or market interest received/paid, their carrying values are estimated to represent their fair values.
- Derivatives The fair values of forward currency contracts are calculated by reference to current forward exchange rates for contracts with similar maturity profiles.
- Finance lease liability The fair value is the present value of minimum lease payments.
- Bank loan All the bank loans of the Group are interest bearing with floating interest rates which move in accordance with the market interest rates. Therefore the fair value of the bank loans approximates their carrying value.
- · Term deposits The carrying values of term deposits represent the fair values.
- Capital notes These investments are fair valued by reference to published bid prices.

#### (a) Forward currency contracts – Financial asset at fair value through profit or loss
