DIRECTORS

The names and details of Constellation’s directors in office at any time during, or since the end of, the half year are as follows:

Directors

Mr Ian Middlemas	Chairman
Mr Peter Woodman	Managing Director
Mr Peter Muccilli	Technical Director
Mr Robert Behets	Non-Executive Director
Mr Mark Pearce	Non-Executive Director

Unless otherwise stated, Directors held their office from 1 July 2023 until the date of this report.

PRINCIPAL ACTIVITIES

The principal activity of the Group during the half year consisted of the exploration for minerals, including the Orpheus Project.

OPERATING AND FINANCIAL REVIEW

Operations

Orpheus Project – Fraser Range

The Group operates the Orpheus Project (Figure 1), comprising five tenements covering approximately 340km² in the Fraser Range province of Western Australia. In the Fraser Range, certain Proterozoic mafic/ ultramafic intrusion suites are prospective to host nickel-copper sulphide mineralisation. The regions main focus for exploration activity is for nickel following the Nova, Silver Knight, Mawson and Lantern discoveries.

The Orpheus Project includes a 70% interest in two mineral exploration licences (E28/2403 and E63/1281) and one mineral exploration licence application (E63/1695). Subsequent to the period, E63/1282 was surrendered by the joint venture parties. The granted exploration licences form part of a joint venture between the Company (70%) and Enterprise Metals Limited (“Enterprise”) (30%, ASX: ENT). Pursuant to the joint venture agreement, the Company is responsible for sole funding all joint venture activities on the tenements, which form part of the joint venture, up to completion of a bankable feasibility study.

Additionally, the Group has further 100% interests in two exploration licences (E28/2738 and E28/2957).

During the period, the Group completed and received results from several Ultrafine soil sampling programs within the Transline tenement portfolio of the wider Orpheus Project. The Transline tenements include E28/2738 and E28/2957 (100% Constellation) and E28/2403 (70% Constellation, 30% Enterprise).

The intention of program was to build an additional generative targeting layer to assist the progression of the targets across Transline portfolio for base metals and gold.

The results of the program confirmed promising areas of elevated coincident nickel (“Ni”) and copper (“Cu”) soil anomalies along with pathfinder elements cobalt, silver, tellurium, selenium and chromite for Ni sulphides in the Eucla Basin cover sequence. The Eucla Basin thickness is interpreted to be 60-100m based on a previous passive seismic survey undertaken by the Company. Importantly, no drilling has been undertaken where the soil anomalies have been identified.

The Ni and Cu anomalous soil results were located near Geophysical Targets 8, 9 and 10 which are interpreted to represent concealed mafic intrusions in the Proterozoic basement units (refer ASX Announcement dated 20 January 2020). Mafic intrusions in the Fraser Range are the key host unit for Ni sulphides deposits as displayed at the IGO Nova nickel mine. Other target areas of interest are for gold, with a broad low order ultrafine soil anomalies defined within tenements E28/2403 and E28/2738.

OPERATING AND FINANCIAL REVIEW (Continued)

Future exploration work programs at the Orpheus Project in the Fraser Range include:

- Further infill soil sampling at Transline being considered to better define the nickel, copper, and gold anomalism to a consistent 200m x 200m grid.
- Testing of prospective targets with air-core drilling, subject to results and interpretations from additional soil sampling. The drilling is expected to take place in the subsequent quarter, subject to heritage, pastoralist considerations and rig availability.

Figure 1: Tenement Plan – Orpheus Project.

As at the date of this report, the Company has an interest in the following projects:

Project Name	Permit Number	Percentage Interest	Status
Fraser Range, Western Australia	E63/1281	70%	Granted
	E28/2403	70%	Granted
	E63/1695	70%	Application
	E28/2738	100%	Granted
	E28/2957	100%	Granted

Business Development

Several opportunities have been reviewed during the half year, and the Company will continue in its efforts to identify and acquire suitable new business opportunities in the resources sector, both domestically and overseas. However, no agreements have been reached or licences granted and the Directors are not able to assess the likelihood or timing of a successful acquisition or grant of any opportunities.

Results of Operations

The net loss of the Group for the half year ended 31 December 2023 was \$822,866 (31 December 2022: \$652,520). This loss is predominately comprised of exploration and evaluation expenditure of \$452,602 (31 December 2022: \$359,739) attributable to the Group's accounting policy of expensing exploration and evaluation expenditure (other than expenditures incurred in the acquisition of the rights to explore) incurred by the Group.

Financial Position

As at 31 December 2023, the Group had a net current asset surplus of \$1,532,491 (30 June 2023: \$2,350,636). At 31 December 2023, the Group had cash reserves of \$1,639,764 (30 June 2023: \$2,415,108) and nil borrowings (30 June 2023: nil). At 31 December 2023, the Group had net assets of \$1,912,861 (30 June 2023: \$2,735,727) with the decrease of \$822,866 driven by the loss for the half year of \$822,866.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
