Mining in the Lost Dog Pit was completed in August 2023, five years from mining commencing in 2018. Crews transitioned to the MacPhersons Reward project in October 2023 and began site setup works in preparation for mining.

Cutbacks of the MacPhersons and ACAP pits commenced in November 2023 with two Beacon owned fleets pre-stripping waste on day shift only. Ore mining from the MacPhersons Gold Project was minimal (71k bcm) for the half year due to the completion of Lost Dog Panel 3 in August and pre stripping of waste in MacPhersons and Acap pits.

Total ore stockpiled at the Jaurdi project was 433kt for 13.1k contained ounces as at 31 December 2023.

Mill throughputs remained steady during the period achieving an annualised throughput of 820kt/annum. Head grade was lower than planned due to an under performance of the Lost Dog Panel 3 resource.

**EXPLORATION UPDATE**

Beacon has conducted exploration over a number of tenements during the past six months and continues to review potential acquisitions to increase the Company's resources and reserves.

The Company announced on the 18 October 2023 that it had entered into a binding agreement to acquire the Mt Dimer tenements from Aurumin Limited (ACN 639 427 099) (ASX: AUN) (Aurumin) and Aurumin's wholly owned subsidiary Aurumin Mt Dimer Pty Ltd (ACN 130 460 525) (Vendor). The acquisition of a 100% interest in the tenements from Aurumin is part of the Company's strategy of increasing the mine life at Jaurdi by acquiring projects that build mine Reserves and complement the current operations. For more information, please see ASX release dated 18 October 2023 "Beacon to Acquire Mt Dimer Tenements".

Exploration in close proximity to the Jaurdi processing plant was the focus of the past six months, particularly the MacPhersons tenements. The majority of the drilling was completed at Tycho for grade control, sterilization of waste dumps and testing for ground water.

Beacon was offered 6 mineral concessions in November 2023 in Timor Leste with plans to actively explore in the second quarter of 2024 once the term sheet is finalised.

GEKO PROJECT

Resource definition/resource extensional drilling was conducted at the western end of Geko Deposit during the past six months and a total of 9 holes were drilled.

The results indicate there is mineralisation to the west of the main Geko Deposit, however not extensive enough to warrant additional exploration expenditure.

The Group's accounting policy is as follows.

When the liability is initially recorded, the estimated cost is capitalised by increasing the carrying amount of related mining assets. At each reporting date the site rehabilitation provision, if re-measured to reflect any changes in discount rates and timing or amounts to be incurred. Additional disturbances or changes in rehabilitation costs are recognised as additions or changes to the corresponding asset and rehabilitation provision prospectively from the date of change. For closed sites, or where the carrying value of the related asset has been reduced to nil either through depreciation and amortisation or impairment, changes to estimated costs are recognised immediately in the statement of comprehensive income.

The Group will conduct a detailed estimation of the rehabilitation provision for the 30 June 2024 financial year end.

Unwinding of Discount on Provisions

The unwinding of discount on provisions represents the cost associated with the passage of time. Rehabilitation provisions are recognised at the discounted value of the present obligation to restore, dismantle and rehabilitate each mine site with the increase in the provision due to the passage of time being recognised as a finance cost.

Independent auditor's review report to the members of Beacon Minerals Limited

Report on the half-year financial report

Our conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Beacon Minerals Limited (the Company), and the entities it controlled at the half-years end or from time to time during the half-year (the Consolidated Group) does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the Consolidated Group's financial position as at 31 December 2023 and of its financial performance for the half-year then ended; and
- complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

What was reviewed?

We have reviewed the accompanying half-year financial report of the Consolidated Group, which comprises:

- the consolidated statement of financial position as at 31 December 2023,
- the consolidated statement of profit or loss and other comprehensive income for the half-year then ended,
- the consolidated statement of changes in equity for the half-year then ended,
- the consolidated statement of cash flows for the half-year then ended,
- notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and
- the directors' declaration.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the Company in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibilities of management for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
