

# ASX RELEASE

4 March 2024

---

## United States Work Zone Speed Tender Update

Acusensus Limited (ASX:ACE) (**Acusensus**) previously announced that its subsidiary, Acusensus, Inc., was the Apparent Successful Vendor in a tender run by the Washington State Department of Transportation (**WSDOT**) in the United States to identify a vendor to provide end-to-end field and back-office services to support a new state-wide speed safety camera program for work zones.

Following discussions regarding the program scope and conditions, a comprehensive program could not be delivered within the tender's constraints. WSDOT has closed the tender without making an award to any party.

This tender process has provided Acusensus with valuable insight into supplying end-to-end services (including citation processing) in the US, which will stand it in good stead as it continues to explore new opportunities to deploy its advanced technology in the US road safety market. Acusensus' FY24 guidance remains unchanged.

**END**

## About Acusensus

Acusensus is a technology company that was founded in 2018 with a mission to design and develop artificial intelligence enabled road safety solutions. Collaborating with governments and commercial stakeholders to tackle distracted driving globally is Acusensus' first priority.

Acusensus has pioneered intelligent solutions that provide anywhere, anytime digital evidence that can be used in conjunction with law enforcement to drive behavioural change and improve road safety. Acusensus technology is used to detect and provide prosecutable evidence of distracted driving (mobile phone use), seatbelt compliance, speeding, railway crossing compliance and the monitoring of vehicles of interest.

Acusensus listed on the Australian Securities Exchange in January 2023. Acusensus is headquartered in Melbourne, Australia, with offices also in Brisbane, Sydney, Las Vegas (United States) and London (UK).
