The royalty entitles Uramin to a net smelter return of 1.5% on revenue produced from sales of ore extracted. The term of the Royalty is for the life of the mining lease on the Killarney Project, subject to the availability of ore to be extracted. At the date of this report the Group is not in a position to reliably estimate the amount, if any, that would be paid to Uramin as a result of successful economic extraction of ore from the project given its exploration stage and as such this amount has not been recognised in the accounts of the Group at balance date.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act* 2001.
