REVIEW OF OPERATIONS

Investment in Lithium Energy Limited (ASX:LEL)

Lithium Energy Limited (**LEL** or **Lithium Energy**) was spun out of Strike following the successful completion of LEL's \$9 million (at \$0.20 per share) initial public offering (**IPO**) under a Prospectus (dated 30 March 2021).⁷

As at 31 December 2023 and currently, Strike is the largest shareholder of LEL with 31,010,000 shares (30.1%) (30 June 2023: 31,410,000 shares; 30.49%).

The LEL share price has traded within a range of \$0.51 (on 23 November 2023) to \$0.95 (on 3 July 2023) since 1 July 2023, with a bid price of \$0.56 (as at 31 December 2023) and a current closing price of \$0.60 (as at 12 March 2024).

Lithium Energy Limited is a battery minerals company which is developing its flagship Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland:⁸

- The Solaroz Lithium Project (LEL:90%) comprises 12,000 hectares of highly prospective lithium mineral concessions (where a JORC Indicated and Inferred Mineral Resource of lithium has been delineated⁹) located strategically within the Salar de Olaroz Basin in South America's "Lithium Triangle" in north-west Argentina. Lithium Energy shares the lithium rights in the Olaroz Salar basin with lithium carbonate producers Arcadium Lithium plc (ASX:LTM) and Lithium Argentina Corporation (TSX:LAAC). Lithium Energy has completed a Scoping Study on Solaroz and is investigating the development of a 20/40ktpa lithium carbonate equivalent (LCE) production facility using conventional evaporation ponds; Lithium Energy is also evaluating direct-lithium extraction (DLE) technologies for Solaroz.
- The Burke¹⁰ and Corella¹¹ Graphite Projects (LEL:100%) in Queensland, Australia, contains high grade JORC Indicated and Inferred Mineral Resources of graphite; Lithium Energy is investigating the proposed development of a vertically integrated battery anode material manufacturing facility in Queensland.

Further information about Lithium Energy's resource projects and activities are contained in their ASX releases, including as follows:

DIRECTORS' REPORT

Paulsens East Iron Ore Project (Pilbara, Western Australia)

(Strike – 100%)

The Paulsens East Iron Ore Project (**Paulsens East**) is located in the Pilbara region of Western Australia, ~235km by road east of Onslow (and the Port of Ashburton) and ~600km by road south of Port Hedland.

In September 2022, Strike completed a maiden shipment of 66,618 tonnes of iron ore from Paulsens East, which involved the mining of surface detrital material to produce Paulsens East Lump direct shipping iron ore (**DSO**) (grading 62% Fe), which was exported to China from the Utah Point Multi-User Bulk Handling Facility (**Utah Point**) at Port Hedland. Whilst the successful shipment of its first shipment of iron ore from Paulsens East was a significant milestone for the Company, Strike determined to pause on further shipments from Utah Point given market conditions, together with rising input costs, adversely impacting operating margins.¹²

Strike has been advancing the development of an export solution through the Port of Ashburton, Onslow (located ~235km from Paulsens East, versus ~650km to Port Hedland), including via the Port of Ashburton Consortium (**PAC**) with iron ore developer CZR Resources Ltd (ASX:CZR) and transshipment services provider CSL Australia Pty Ltd, to develop a ~5 Mtpa capacity multi-user bulk loading export facility.¹³

On 22 December 2023, the Company entered into a Share and Asset Purchase Agreement (**Agreement**) with certain parties including Miracle Iron Holdings Pty Ltd (**Miracle**) for the sale of 100% of the shares in wholly-owned subsidiary, Strike Iron Ore Holdings Pty Ltd (**SIOH**) in consideration of a cash purchase price of A\$20.5 million.¹⁴ SIOH is the parent of Paulsens East Iron Ore Pty Ltd (**PEIOPL**), the owner and operator of Paulsens East.

Given prevailing market conditions, Strike's significant (US\$7.2 million) liability owed to Good Importing International Pty Ltd (**GII**)¹⁵ and the significant financial requirements of operating iron ore projects, the Board believes that it was in the best interests of Strike shareholders to dispose of its interest in Paulsens East on the terms negotiated under the Agreement.¹⁶

Shareholders approved the disposal of Paulsens East at a General Meeting on 6 March 2024¹⁷ and the disposal was completed on 8 March 2024.

Strike received a A\$2 million deposit on execution of the Agreement in December 2023 and received A\$18 million at completion on 8 March 2024¹⁸ – a A\$0.5 million deferred consideration is payable by Miracle on 30 June 2024. Strike has also discharged the US\$7.2 million loan (A\$11.26 million) owed to GII.

DIRECTORS' REPORT

Apurimac Iron Ore Project (Peru)

(Strike – 100%)

Strike's Apurimac Iron Ore Project in Peru is recognised as one of the highest grade, large scale magnetite projects in the world with the potential to support the establishment of a significant iron ore operation.

Strike has completed two shipments (to Chinese and South American Steel Mills) of high-grade (+65% Fe) Apurimac Premium Lump shipping iron ore (**DSO**) in calendar 2021.¹⁹

Under the Agreement with Miracle (referred to above), GII has also agreed to terminate the marketing agency and offtake arrangements granted to GII in respect of Apurimac²⁰ in consideration for Strike transferring either directly or indirectly a 20% interest in Apurimac Ferrum S.A.C. (**AF**), the owner of Apurimac, to JE United Ltd (**JEL**) (a nominee/associate of GII). The investment structure in respect of the 20% interest in AF is pending finalisation and agreement with JEL. The Company notes that as a shareholder in AF, JEL will be called upon to contribute its share of funding towards the ongoing ownership costs of Apurimac and the development of Apurimac including the potential resumption of DSO mining operations.

Strike will continue to advance the development of Apurimac, including:

- (a) continuing to investigate the resumption of iron ore shipments at Apurimac, including:
 - (i) undertaking negotiations with potential purchasers of iron ore, local miners, service providers and potential funding partners; and
 - (ii) engaging with local miners, mining services providers, local community groups and leaders;
- (b) subject to various matters, including those set out in paragraph (a) above, resuming mining operations (and the sale of iron ore to local/other parties) at Apurimac;
- (c) investigating potential value-adding strategies such as procuring approvals to undertake additional resource development drilling, expanding the mineral concession portfolio and updating feasibility studies;
- (d) investigating opportunities to extract other value from Apurimac (as a strategic, large scale, high-grade iron ore deposit) via a sale (partial or whole²¹) or joint venture; and
- (e) investigating opportunities to acquire an interest or interests in complimentary iron ore mineral concessions or assets given the investment identification, exploration and project development skills of the Company.

The discharge of the GII Loan and the early termination of GII's offtake rights for iron ore mined from Apurimac provides Strike with additional flexibility in relation to either the sale of Apurimac or the potential resumption of mining operations (and the sale of iron ore to local/other parties) at Apurimac and the obtaining of project financing for the same.

²¹ It is likely that any future disposal of (a controlling interest in) Apurimac will require prior shareholder approval under Listing Rule 11.2 as a disposal of Strike's main undertaking

DIRECTORS' REPORT

ASX Listing Rule Requirements

The disposal of Paulsens East is regarded by ASX as a disposal of the Company 'main undertaking' under Listing Rule 11.2.

ASX has advised that:

- (a) in accordance with paragraph 4.7 of Guidance Note 12 (Significant Changes to Activities), Strike will be afforded a period of 6 months from the date of the Agreement (being 22 December 2023) to demonstrate to the ASX that it is compliant with Listing Rule 12.1 (which obliges a listed entity to satisfy ASX on an ongoing basis that the level of its operations is sufficient, and its financial condition adequate, to warrant its continued quotation of its securities); and
- (b) it will suspend trading in Strike's securities if Strike has not demonstrated compliance with Listing Rule 12.1 to ASX's satisfaction at the end of the 6-month period (being by 21 June 2024).

The Company considers that the increased focus on the advancement of Apurimac (as set out above) will provide a sufficient level of operations to justify the continued quotation of its securities.

If Strike is unable to satisfy ASX in relation to Listing Rule 12.1, ASX will suspend trading in Strike's securities (from Monday, 24 June 2024). Strike will remain suspended from ASX until it undertakes an acquisition and re-complies with Chapters 1 and 2 of the Listing Rules, which will involve, amongst other matters, the issue of a prospectus and making a fresh application for admission to ASX).

Strike may also pursue other investment opportunities in the resource sector in Australia and overseas – the Board has considerable experience in the exploitation of resource projects (including spin-outs) and Strike may pursue investments in minerals/commodities the Board feels is appropriate for mineral exploration, evaluation and development in a similar manner to that activity undertaken by the Company to acquire and then spin-out its lithium and graphite assets to Lithium Energy Limited (ASX:LEL) in May 2021. It is likely that any future acquisitions by Strike (external to the development of Apurimac) will require Strike to re-comply with Chapters 1 and 2 of the Listing Rules.

Quarterly Reports

Further information on Strike's activities and operations during and subsequent to the end of the half year are also contained in Strike's Quarterly Activities and Cash Flow Reports lodged on ASX dated:

- 31 January 2023: Quarterly Activities and Cash Flow Report - 31 December 2023
- 31 October 2023: Quarterly Activities and Cash Flow Report - 30 September 2023; and
- 26 July 2023: Quarterly Activities and Cash Flow Reports – 30 June 2023.

MATERIAL BUSINESS RISKS

Strike's exploration and development operations will be subject to the normal risks of mineral exploration and development, and any revenues will be subject to factors beyond Strike's control. The material business risks that may affect Strike are summarised below:

Exploration Risk: Strike's resource projects are at various stages of exploration, evaluation and development. There is no assurance that future exploration will result in the discovery of an economic resource or reserve or that it can be economically exploited. Future exploration activities may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs/recovery rates, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and personnel, local communities/indigenous and existing land/lease holder stakeholder engagements, changing government regulations and many other factors beyond the control of Strike.

For personal use only

DIRECTORS' REPORT

Exploration and evaluation costs are based on certain assumptions in relation to the nature, method and timing of these activities, which are subject to significant uncertainties and, accordingly, the actual costs may materially differ. Cost estimates and the underlying assumptions may not be realised in practice, which may materially and adversely affect Strike's financial performance and or position.

Resource Estimation Risk: Resource estimates are expressions of judgement based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available. Resource estimates which depend on interpretations may require adjustment. Adjustments to resource estimates could affect Strike's future plans and ultimately its financial performance. Mineral and commodity price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render resources containing relatively lower grades uneconomic and may materially affect resource estimations.

Feasibility and Development Risks: There is risk associated with the successful commercial exploitation of resource discoveries. Such exploitation would involve securing necessary approvals from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied or in a timely manner. Advancing exploitation may involve the participation of other parties/stakeholders whose interests and objectives may differ from Strike's. There is a complex, multidisciplinary process involved to evaluate and assess development pathways and undertake feasibility-related studies to support a development proposal. Evaluations/assessments and studies and associated technical works may not achieve the results expected. Even if supported by a positive feasibility study, a project may not be successfully developed for a range of technical, commercial and or financial reasons.

Commodity Pricing Risk: The commercial prospects of Strike (in relation to the development of its current iron ore projects) is dependent principally upon the demand for iron ore and steel products, in particular in China, which is the predominant export market for junior iron ore producers.

Key Personnel: In formulating its exploration and evaluation programmes, feasibility-related studies and development strategies, Strike relies on the experience and expertise of its directors, senior executives and other senior management. There is a risk that key personnel may leave their employment, which may adversely affect the business, at least in the short term. Recruiting and retaining qualified, skilled and experienced key personnel in the minerals/commodities sectors and geography in which Strike operates may also be challenging in a strong and competitive resources sector.

Future Funding: Strike's ongoing exploration, evaluation and development activities will require substantial further funding in the future. Any additional equity capital may be dilutive to shareholders and may be undertaken at lower issue prices than the current market price. Debt financing, if available, may involve restrictive covenants which limit Strike's operations and business strategy. There is no assurance that appropriate funding, if and when needed, will be available on terms satisfactory to Strike or at all. The inability to obtain funding will adversely affect Strike and may result in some or all of its projects not proceeding or their scale and/or scope being altered or defaults in licences or permits or agreements occurring, which, if not remedied, could result in forfeiture of its tenements.

Foreign Jurisdiction: Strike holds its interest in the Apurimac Project in Peru through its 100% shareholdings in Peruvian registered companies. The overseas companies are subject to risks normally associated with the conduct of business in foreign countries. Risks pertaining to Peru may include, among other things, political risk, economic environments, disruptions to logistics, access to infrastructure and services (water, power and gas), labour disputes, corruption, civil disturbances and crime, changes in law or policies, opposition to mining from environmental or other non-governmental organisations or changes in political attitudes towards mining activities.

Foreign Exchange Risk: The expenditure of Strike is and will be in Australian, United States and Peruvian currencies, exposing the Company to fluctuations and volatility of the rates of exchange between the Australian dollar, United States dollar and Peruvian Soles as determined in international markets. Strike does not currently undertake any hedging of foreign currency items, however as operations develop and expand, more sophisticated foreign exchange risk management strategies may be adopted.

DIRECTORS' REPORT

Access Risk: There may be areas of Strike's projects over which indigenous rights exist or are claimed by indigenous owners. Similarly, Strike's tenements may encroach on existing land or lease holders. As such, Strike's ability to gain access to the tenements or to progress from the exploration phase to the development and mining phases of operations, may require reaching agreement with these stakeholders to facilitate access and development, which is not assured, on terms satisfactory to Strike, or at all. Negotiations with stakeholders may also result in a delay with the development of Strike's projects.

Regulatory Risk: Strike's operations are subject to various Federal, State/Provincial and local laws and regulations, including those relating to exploration, development and mining permit and licence requirements, industrial relations, environment, land use, royalties, water, native title/indigenous and Aboriginal cultural heritage, mine safety and occupational work, health and safety. Approvals, licences and permits required to comply with such rules may be subject to the discretion of the applicable government officials/authorities. No assurance can be given that Strike will be successful in maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained in a timely manner or at all, Strike may be curtailed or prohibited from continuing or proceeding with exploration and production. Strike's business and results of operations could be adversely affected if applications lodged for relevant licences are not granted. Mineral tenements are also subject to periodic renewal, which may be subject to the discretion of the relevant government official/authority or renewal conditions (such as increased expenditure and work commitments and/or compulsory relinquishment of tenement areas). The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of Strike.

Environmental Risk: The operations and activities of Strike are subject to environmental laws and regulations. Strike is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase Strike's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige Strike to incur significant expenses and undertake significant investments which could have a material adverse effect on Strike's business, financial condition and performance.

Climate Change Risk: The operations and activities of Strike may be subject to local or international compliance regulations related to climate change mitigation efforts, specific taxation or penalties for carbon emissions or environmental damage, and other possible restraints on industry that may further impact Strike and its profitability. Climate change may also cause certain physical and environmental risks that cannot be predicted by Strike, including events such as increased severity of weather patterns, incidence of extreme weather events and longer-term physical risks such as shifting climate pattern.

Pandemic and other Public Health Risks: Future health pandemics (such as COVID-19) and other possible outbreaks of viruses/disease may have a significant adverse effect on Strike's business. The spread of such diseases amongst management, employees, contractors, suppliers and logistic networks, as well as any health related government imposed quarantine and isolation requirements, may reduce the ability to operate and have detrimental financial implications. More broadly, Strike may also be affected by the macroeconomic effects and likely ensuing financial volatility in the economies where the Company operates.

FUTURE DEVELOPMENTS

Strike intends to (subject to, amongst other matters, market conditions, Strike's financial position and commitments and the relative prospects of Strike's resource projects) advance the evaluation and development of its Apurimac Iron Ore Project in Peru. The likely outcomes of these activities depend on a range of technical and economic factors (including underlying commodity prices) and also industry, geographic and other strategy specific issues. In the opinion of the Directors, it is not possible or appropriate to make a prediction on the results of these activities, the future course of markets or the forecast of the likely results of Strike's activities.

DIRECTORS' REPORT

ENVIRONMENTAL REGULATION

Strike holds mineral tenements/concession licences issued by the relevant mining and environmental protection authorities of the various countries in which it operates (from time to time). In the course of its mineral exploration, evaluation and development activities, Strike adheres to licence conditions and environmental regulations imposed upon it by various authorities (as applicable). Strike has complied with all licence conditions and environmental requirements (as applicable) during the financial year and up to the date of this report. There have been no known material breaches of Strike's licence conditions and environmental regulations during the financial year and up to the date of this report.

BOARD OF DIRECTORS

On 5 December 2023, Malcom Richmond retired as a Non-Executive Director of the Company²². NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the half year ended 31 December 2023

1. SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The half year financial statements are a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. These half year financial statements do not include notes of the type normally included in the annual financial statements and should be read in conjunction with the most recent annual financial statements and the Company's ASX announcements released from 1 July 2023 to the date of this report.

Basis of Preparation

The financial report has been prepared on a going concern and accrual basis and is based on historical costs modified by the revaluation of financial assets and financial liabilities for which the fair value basis of accounting has been applied. The Directors are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Consolidated Entity's ability to continue as a going concern. The Directors have a reasonable belief that the going concern assumption for the Consolidated Entity is appropriate based on, inter alia, the following matters: (a) the current cash position of the Consolidated Entity relative to its fixed and discretionary expenditure commitments; (b) the ability of the Directors to suspend or reduce personnel, corporate and administration expenses to conserve the Consolidated Entity's cash; (c) the underlying prospects and liquidity of the Consolidated Entity's significant (31.01 million) shareholding in Lithium Energy Limited (ASX:LLE), which may be sold to realise cash; (d) the discretionary nature of the Consolidated Entity's expenditure commitments vis a vis its resource projects (subject to maintaining relevant mineral tenements/concessions in good standing if the Consolidated Entity wishes to retain the same); (e) the contingent nature of the Consolidated Entity's contingent liabilities; and (f) the ability of the Consolidated Entity to undertake a capital raising; and (g) the Company entering into a Share and Asset Purchase Agreement (dated 22 December 2023) for the sale of 100% of the Paulsens East Iron Ore Project, which disposal was approved by shareholders at General Meeting on 6 March 2024 and completed on 8 March 2024, with the Company receiving \$18 million cash consideration (with a \$0.5 million deferred consideration receivable on 30 June 2024).

All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half year financial statements are consistent with those adopted and disclosed in the Consolidated Entity's financial statements for the financial year ended 30 June 2023.

New, revised or amending Accounting Standards and Interpretations adopted

The Consolidated Entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the AASB that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not mandatory have not been early adopted. These are not expected to have a material impact on the Consolidated Entity's financial statements.

The Consolidated Entity has entered into a project finance loan facility agreement to borrow US\$7.2 million to fund the Stage 1 Production at the Paulsens East Iron Ore Project (**Facility**). As at reporting date, the Facility (~A\$10.67 Million, based on an exchange rate of A\$1:00:US\$0.675) has been fully drawn. The Facility is secured over the Project assets (including the tenements) and shares in the subsidiary companies that hold the Project. The applicable interest rate is 10% pa (with payment of interest commencing on 30 June 2023 and at the end of each quarter thereafter) with 50% of the principal repayable on 31 July 2024 and the balance due on 31 October 2024. The Facility (comprising US\$7.2 million principal and US\$0.133 million accrued interest) was discharged on 8 March 2024 at a cost of A\$11.257 million, pursuant to completion of the Agreement in respect of the sale of Paulsens East (refer Notes 7 and 14).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the half year ended 31 December 2023

12. COMMITMENTS

(a) Mineral Tenements/Concessions – Commitments

(i) Australian Tenements

The Consolidated Entity is required to pay rates, rent and other annual fees to relevant Regulatory Authorities of the State (and Local) Government in respect of its granted Australian tenements. The total amount of these commitments will depend upon the number and area of granted tenements held/retained. The total amount of these commitments will depend upon the number and area of granted tenements held/retained.

(ii) Peruvian Mineral Concessions

The Consolidated Entity is required to pay annual licence fees to the Peruvian Government in respect of its granted Peruvian mineral concessions. The total amount of this commitment will depend upon the number and area of concessions held/retained and the length of time of each concession held.

13. CONTINGENCIES

(a) Directors' Deeds

The Company has entered into Access, Indemnity and Insurance Deeds with the Directors which, inter alia, indemnify them against liability incurred in discharging their duties as officers. As at the reporting date, no claims have been made under any such indemnities and, accordingly, it is not possible to quantify the potential financial obligation of the Consolidated Entity under these indemnities.

(b) Paulsens East Tenement - Royalty

The Consolidated Entity had a liability to pay Orion Equities Limited (ASX:OEQ) a royalty of 2% of gross revenues (exclusive of GST) from any commercial exploitation of any minerals from the Paulsens East Iron Ore Project tenements (which includes Mining Lease M47/1583) in Western Australia (**Paulsens East**). This royalty entitlement stemmed from the Consolidated Entity's acquisition of a portfolio of tenements (including the Paulsens East tenements) from Orion in September 2005.¹

On 22 December 2023, CXM Pty Ltd (**CXM**) (a wholly-owned subsidiary of Orion) agreed to terminate and provide releases under this royalty, pursuant to an agreement whereby Strike Resources Limited (ASX:SRK) (**Strike**) had agreed to sell Paulsens East to Miracle Iron Holdings Pty Ltd (**Miracle**)², in consideration of Miracle paying \$2 million to CXM on completion of the sale (with a further \$3 million payment deferred to 30 June 2024). On 8 March 2024, CXM received \$2 million from Miracle at completion of the sale³.

(c) Government Royalties

The Consolidated Entity is liable to pay royalties to Government on production obtained from its mineral tenements/concessions.

13. CONTINGENCIES (continued)

(d) Native Title Mining Agreement

On 14 August 2020, the Company and Paulsens East Iron Ore Pty Ltd (a subsidiary of the Company) (**PEIOPL**) entered into a Native Title Mining Agreement (**Native Title Agreement**) with the PKKP Aboriginal Corporation RNTBC (**PKKPAC**). The PKKPAC holds native title on trust for the benefit of the Puutu Kuntj Kurrma and Pinikura People (**PKKP**), the traditional owners of the land on which the Consolidated Entity's Paulsens East Iron Ore Project is located in the West Pilbara region of Western Australia. The Native Title Agreement provides an agreed framework for PEIOPL to undertake its mining activities (that minimises the impact on Aboriginal Cultural Heritage with safeguards for the care and protection of the lands and rights of the PKKP) and includes a package of financial and business development related benefits for the PKKP, including upfront and milestone payments, a production payment based on the value of iron ore sales, an annual training and development allowance and opportunities for PKKP members to contract for the provision of certain support operations related to the Paulsens East Iron Ore Project. The Company will assign its interest in the Native Title Agreement to Miracle Iron Holdings Pty Ltd as a consequence of the sale of PEIOPL to Miracle², which completed on 8 March 2024³.

(e) Deferred Payments from Settlement Agreement Relating to Apurimac Ferrum SAC

Pursuant to a settlement agreement dated 30 December 2012 whereby the Consolidated Entity acquired the (50%) balance of equity interest in Apurimac Ferrum SAC (**AF**) (the holder of the Apurimac and Cusco Projects) from D&C Pesca SAC, the Consolidated Entity has a series of deferred payment obligations as outlined below.

The Consolidated Entity has payment obligations if certain milestones are achieved as follows:

- (i) **Resource Milestone Payment:** US\$2 million on the delineation of at least 500 Mt of JORC Mineral Resources at an average grade of at least 55% Fe with at least 275 Mt of contained iron having an average grade of at least 52.5% Fe, on the Apurimac Project mineral concessions.
- (ii) **Approvals Milestone Payment:** Up to US\$3 million on AF receiving all formal government environmental and community approvals for the construction and operation of an iron ore mine and required infrastructure with a design capacity of at least 10Mtpa of iron ore product, relating to the Apurimac Project mineral concessions.
- (iii) **Construction Milestone Payment:** Up to US\$5 million on formal approval of the AF Board to commence construction of an iron ore project or the commencement of bulk earthworks for an iron ore mine or processing plant, in either case with a design capacity of at least 10Mtpa of iron ore product, relating to the Apurimac Project mineral concessions.

The Consolidated Entity has royalty payment obligations as follows:

- (i) 1.5% of the net profits from sales of iron ore mined and iron ore products produced from the Apurimac Project mineral concessions.
- (ii) 2% of the proceeds of sales of other metals (on a net smelter return basis) mined from the Apurimac Project mineral concessions.

Due to the inherent uncertainty surrounding the achievement and timing of the above milestones/royalty triggers, the Consolidated Entity regards these future payment obligations as contingencies.

For further background details, refer also to Strike's ASX Announcement dated 31 December 2012: Strike Moves to 100% Ownership of AF.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the half year ended 31 December 2023

13. CONTINGENCIES (continued)

(f) Legal Disputes Over Peru Mineral Concessions

The Consolidated Entity has successfully defended against a number of legal actions and claims made by several Peruvian parties (that have had a contractual relationship with AF) relating to the Consolidated Entity's mineral concessions in Peru. Whilst there still remain some outstanding claims and appeals, the Consolidated Entity believes that they will all eventually be dismissed, consistent with previous decisions by the relevant Peruvian authorities.

For further background details, refer also to Strike's ASX Announcement dated 1 May 2014: Strike Wins Millenium Arbitration Case in Peru.

14. EVENTS OCCURRING AFTER THE REPORTING PERIOD

(a) Sale of Paulsens East Iron Ore Project

On 8 March 2024, the Company completed the sale of wholly-owned subsidiary Strike Iron Ore Holdings Pty Ltd (**SIOH**), which, in turn, owns Paulsens East Iron Ore Pty Ltd (**PEIOPL**), the owner and operator of the Paulsens East Iron Ore Project to Miracle Iron Holdings Pty Ltd (**Miracle**). The Company received a \$2 million deposit on execution of the Share and Asset Purchase Agreement (on 22 December 2023)² and received \$18 million at completion on 8 March 2024³ – a A\$0.5 million deferred consideration is payable by Miracle on 30 June 2024.

(b) Discharge of US\$7.2 Million Loan

On 8 March 2024, the Company discharged a loan (comprising US\$7.2 million principal and US\$0.133 million accrued interest) owed to Good Importing International Pty Ltd (**GII**)⁴ at a cost of A\$11.257 million.

No other matter or circumstance has arisen since the end of the financial half year that significantly affected, or may significantly affect, the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity in future financial periods.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of Strike Resources Limited made pursuant to sub-section 303(5) of the *Corporations Act 2001 (Cth)*, we state that:

In the opinion of the Directors:

- (1) The financial statements and notes of the Consolidated Entity are in accordance with the *Corporations Act 2001 (Cth)*, including:
 - (a) giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2023 and of its performance for the financial half year ended on that date; and
 - (b) complying with Australian Accounting Standard AASB 134 "Interim Financial Reporting", *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- (2) There are reasonable grounds to believe that the Consolidated Entity will be able to pay its debts as and when they become due and payable.

On behalf of the Board,

Farooq Khan
Executive Chairman

**STRIKE RESOURCES LIMITED
INDEPENDENT AUDITOR'S REVIEW REPORT**

To the Members of Strike Resources Limited

Conclusion

We have reviewed the accompanying half-year financial report of Strike Resources Limited and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes to the financial statements including a summary of significant accounting policies, other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Strike Resources Limited is not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including independence standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical requirements in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Strike Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

STRIKE RESOURCES LIMITED

INDEPENDENT AUDITOR'S REVIEW REPORT (continued)

Directors' Responsibility for the Half-Year Financial Report

The directors of Strike Resource Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the company's financial position as at 31 December 2023 and its performance for the half year ended on that date, and complying with AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

FORWARD LOOKING STATEMENTS

This document contains "forward-looking statements" and "forward-looking information", including statements and forecasts which include without limitation, expectations regarding future performance, costs, production levels or rates, mineral reserves and resources, the financial position of Strike, industry growth and other trend projections. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "is expecting", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes", or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might", or "will" be taken, occur or be achieved. Such information is based on assumptions and judgements of management regarding future events and results. The purpose of forward-looking information is to provide the audience with information about management's expectations and plans. Readers are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Strike and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, changes in market conditions, future prices of minerals/commodities, the actual results of current production, development and/or exploration activities, changes in project parameters as plans continue to be refined, variations in grade or recovery rates, plant and/or equipment failure and the possibility of cost overruns.

Forward-looking information and statements are based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date such statements are made, but which may prove to be incorrect. Strike believes that the assumptions and expectations reflected in such forward-looking statements and information are reasonable. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. Strike does not undertake to update any forward-looking information or statements, except in accordance with applicable securities laws.
