REVIEW OF OPERATIONS

West Pilbara Gold and Base Metal Project

During the half year, Red Hill Minerals continued to advance exploration on its West Pilbara Gold and Base Metal Project. The area covers a 1,600 square kilometre contiguous package, located adjacent to the western margin of the Hamersley Basin (Figure 1).

In total, 20 RC holes were drilled during the half year for a total of 3,568 metres. Ten holes (1,678 metres) were drilled at the Barkley Gold Target. High grade intersections received during the period included:

23BKRC005

- 4 metres at 3.7 grams per tonne gold from 90 to 94 metres including:
- 2 metres at 6.4 grams per tonne gold from 91 to 93 metres.

23BKRC007

- 4 metres at 2.6 grams per tonne gold from 17 to 21 metres, and
- 4 metres at 2.1 grams per tonne gold from 88 to 92 metres.

23BKRC008

- 4 metres at 4.1 grams per tonne gold from 65 to 69 metres including:
- 2 metres at 6.6 grams per tonne gold from 65 to 67 metres.

The significant gold intersections above are interpreted to be associated with a steeply South West dipping fault related to the regional scale Deepdale Fault. Mineralisation at Barkley remains open along strike and down dip.

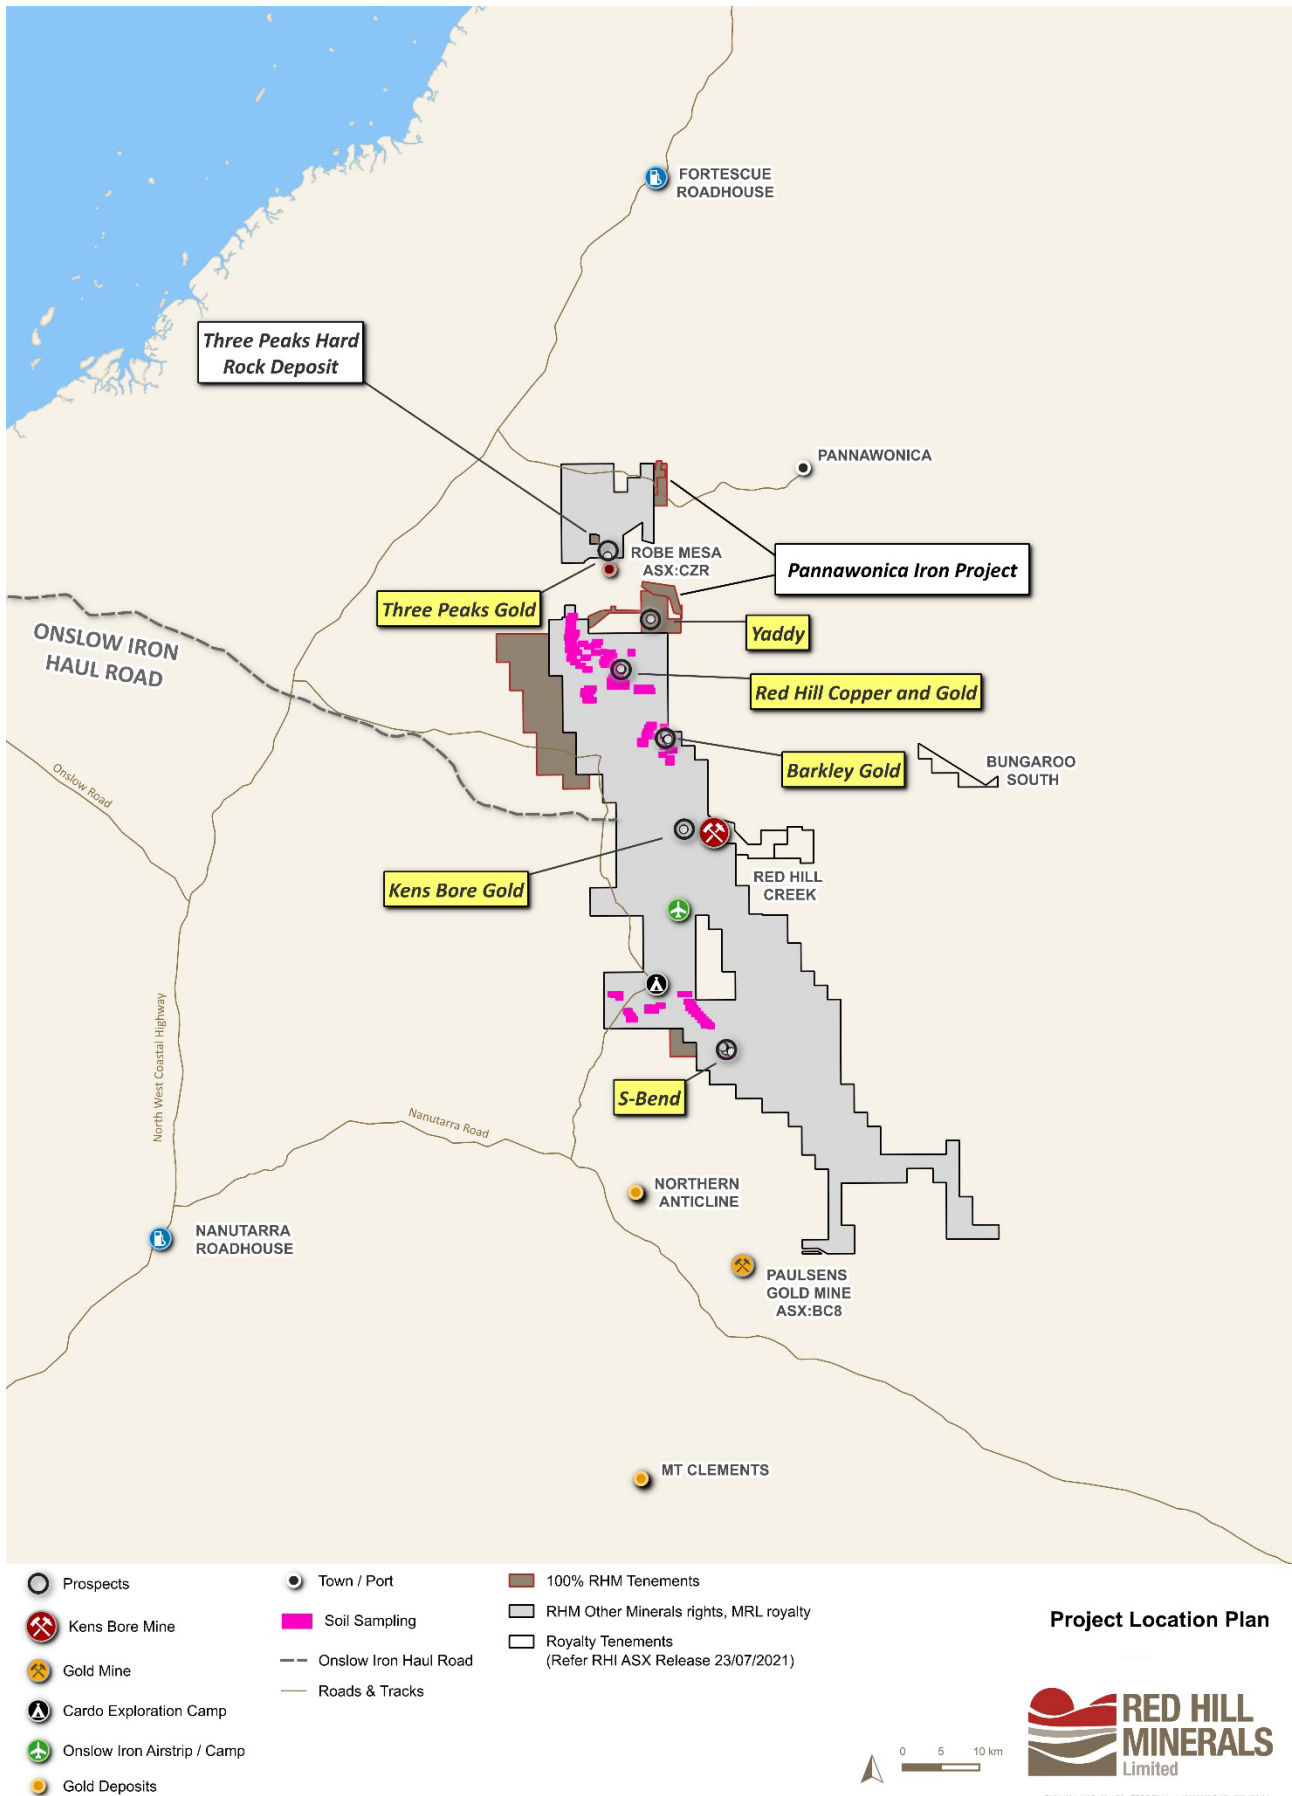

Five holes (890 metres) were drilled at the S-Bend base metal target and the remaining five holes were drilled across the Kens Bore Gold, Red Hill Copper, Three Peaks Gold and Yaddy Targets.

A comprehensive soil sampling program was undertaken by the Company with 2,224 soil samples collected using the UltraFine (UFF) method at high priority VTEM target areas. Sampling over prospective stratigraphy generated multiple targets for infill and extensional geochemical surveys to refine drill targets.

DIRECTORS' REPORT

Other Projects

The Company continues to consider commercial opportunities for its other projects:

- **The Pannawonica Iron Project:** The Pannawonica Iron Project is located north of the West Pilbara Gold and Base Metal project area and comprises the Company's 100% owned Redgate and Whitegate iron ore mining leases. The current Ore Reserve Statement for the Pannawonica Iron Project is 4.68 million tonnes (Mt) at 56% iron at a 54.5% iron cut-off grade within a total project Mineral Resource of 62.5 million tonnes at 53.4% iron at a 52% iron block cut-off grade.
- **The Three Peaks Hard Rock Deposit:** Red Hill Minerals continues to consider monetisation strategies for a proposed quarry within the Three Peaks Hard Rock Deposit mining lease. Previous petrographic reports and trial crushing of the porphyry rock material show that the unweathered rock is of high quality, high strength and durability and would be suitable for use as concrete aggregates, asphalt aggregates, high quality road bases, unbound pavement material and rail ballast.

Health and Safety

There were no significant safety incidents during the half year. There were no Lost-Time Injuries (LTI's) or reportable incidents recorded in the half year.

Onslow Iron Project (RHIOJV Update)

Following the sale of the Company's 40% interest in the Red Hill Iron Ore Joint Venture (RHIOJV) to Mineral Resources Limited ("MinRes", ASX: MIN), MinRes continued to progress the Onslow Iron Project which is designed to be a 30+ year project at a 30+ Mtpa export rate comprising a new mine, processing plant, airport, accommodation resorts, sealed 150km private haul road, port, marine infrastructure and transshipping vessel fleet.

MinRes have advised the first-ore-on-ship delivery target of June 2024 remains as scheduled.

The final \$200 million payment from MinRes for the sale of the Company's RHIOJV interest is due when the first commercial shipment of iron ore extracted from the RHIOJV tenements, departs port¹.

From that time, Red Hill Minerals will also begin to receive 0.75% FOB royalty streams from the project.

These royalty streams will be sourced from:

- i. production from the RHIOJV tenements,
- ii. production during the first 10 years only from the APIJV owned Upper Red Hill Creek tenement, and
- iii. production from the MinRes owned Bungaroo South tenement.

Corporate

At 31 December 2023, the Company had net assets of \$39.9 million (30 June 2023: \$53.3 million) and an excess of current assets over current liabilities of \$23.1 million (30 June 2023: \$38.9 million). At 31 December 2023, the Company's cash at bank totalled \$23.2 million (30 June 2023: \$39.2 million). Cash at bank decreased by \$16.1 million in line with the budgeted exploration program and dividends paid during the period.

¹ Refer to Red Hill Minerals Limited ASX Release "Sale of Red Hill Iron Ore Joint Venture Interest" Announcement dated 30 July 2021.

DIRECTORS' REPORT

During the period, the Company paid the following dividends:

- Special dividend of \$0.10 per share fully franked at 30% on 18 July 2023
- Special dividend of \$0.10 per share fully franked at 30% on 5 December 2023

The Company reported a net loss after tax from continuing operations for the period of \$1.08 million (31 December 2022: \$0.94 million).

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes to the state of affairs other than those noted elsewhere in this half year financial report.

EVENTS SUBSEQUENT TO THE REPORTING DATE

Since the end of the half year, there has been no matter or circumstance that has arisen which has significantly affected or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial periods.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 31 DECEMBER 2023

1. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

The half year financial report was authorised for issue on 14 March 2024.

These interim financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This condensed half year report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Company as in the annual financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2023 and any public announcements made by Red Hill Minerals Limited during the half year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001* and the rules of the Australian Securities Exchange.

b) Basis of preparation

The interim report has been prepared on a historical cost basis. Cost is based on the fair value of the consideration given in exchange for assets. The Company is domiciled in Australia and is a for-profit entity. All amounts are presented in Australian dollars, unless otherwise noted. For the purposes of preparing the interim financial statements, the half year has been treated as a discrete reporting period.

c) Accounting policies and methods of computation

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding half year. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

d) Significant accounting judgments and key estimates

The preparation of interim financial reports requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

e) New or amended Accounting Standards

The Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current reporting period. Their adoption has not had a material impact on the disclosures and/or amounts reported in these financial statements. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

For personal use only

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 31 DECEMBER 2023

f) Voluntary change in accounting policy

Exploration and Evaluation accounting policy

The financial report for the half year ended 31 December 2023 has been prepared on the basis of a retrospective application of a voluntary change in accounting policy relating to exploration and evaluation expenditure. In previous financial periods, the costs incurred in connection with exploration areas with current rights of tenure, except for acquisition costs, were expensed to the statement of profit and loss and other comprehensive income.

The new accounting policy was adopted as of 1 July 2022 and has been applied retrospectively. Under the new policy, exploration and evaluation expenditure in relation to the West Pilbara Gold and Base Metal Project is capitalised as an exploration and evaluation asset in the year in which expenditure is incurred where the following conditions are satisfied:

- the rights to tenure of the area of interest are current; and
- at least one of the following conditions is met:
 - the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or
 - exploration and evaluation activities in the area of interest have not at the balance date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

The initial acquisition costs of the Pannawonica Iron Ore Project were capitalised as an exploration and evaluation asset, with subsequent exploration and evaluation expenditure continuing to be expensed.

In the event that an area of interest is abandoned, accumulated costs carried forward are written off in the year in which that decision is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

The Directors believe that the change in accounting policy offers users more relevant and equally reliable financial information as the policy is more transparent and less subjective, and are of the opinion that the new policy more effectively addresses the long-term exploration activities associated with certain areas of interest. Both the previous and new accounting policies comply with AASB 6 Exploration for and Evaluation of Mineral Resources.

Impact on financial statements of voluntary change in accounting policy

As a result of the change in accounting policy, prior year financial statements were required to be restated. The amounts disclosed for the half year ended 31 December 2022 are the restated numbers after the change in accounting policy for exploration and evaluation expenditure.

INDEPENDENT AUDITOR'S REVIEW REPORT

INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Red Hill Minerals Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Red Hill Minerals Limited ("the Company"), which comprises the condensed statement of financial position as at 31 December 2023, the condensed statement of profit or loss and other comprehensive income, the condensed statement of changes in equity and the condensed statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration, for the Company.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Red Hill Minerals Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Company's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REVIEW REPORT

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
