#### **Operating Results**

The total comprehensive consolidated loss for the half year was \$995,247 (31 December 2022: \$1,465,693).

#### **Review of Operations**

#### Law on geological exploration

On 22 December 2023 the draft Law on Changes and Amendments of the Law on Geological Exploration Law was discussed on National Assembly of the Republic of Srpska, and was voted on. The new law proposed by the Government of the Republic of Srpska is favourable for investors and sends a strong message that the Republic of Srpska supports geological exploration and direct foreign investment.

During the next 60-days phase of Public hearing, four consultations were held to record positive and negative sides of the proposed draft Law. Lykos, along with other companies engaged in geological exploration, as well as companies performing geological works, were invited to take part in public hearings.

The public hearing closed on 22 February 2024, and in March, the proposal of the Law with possible amendments to the draft, and in accordance with the decisions made after the public hearings, will be returned on the agenda of the Assembly of the Republic of Srpska to make a final decision on whether to adopt.

#### Sockovac & Doboj tenements

During the period, the Doboj tenement (western part of original Sockovac Project) was granted as announced on 7 November 2023. A previously completed sampling campaign confirmed presence of a wide range of precious metals and strategical minerals critical for the green energy transition (Ni, Cu, Zn). The geological analysis and planning of the exploration campaign are currently ongoing.

# Directors' Report

The Company was granted the exploration rights over the 50km<sup>2</sup> western portion of the original Sockovac Project area belonging to Municipality of Doboj upon the completion of all required community consultations and receipt of all required permits, as well as the official support and approval from Doboj Municipality to conduct the planned exploration activities. Ahead of the exploration permit issue from Ministry of Energetics and Mining of the Republic of Srpska, the Company has received permits from:

- Republic Institute for the Protection of Cultural, Historical and Natural Heritage;
- $\cdot$  The Ministry of Agriculture, Forestry and Water Management of the Republic of Srpska; and
- $\cdot$  Ministries of Spatial Planning, Civil Engineering and Ecology of the Republic of Srpska

With the grant of the exploration rights over the Doboj tenement, the Company continues its constructive negotiations with the government along with preparation of required documentation in order to apply for re-issue of the (expanded) Sockovac license that will increase the Sockovac tenement from previous 17km2 to subsequent 50km2 as soon as the Law on geological explorations is adopted what we expect on the following National Assembly of the Republic of Srpska in March 2024.

# Extended license for geological exploration of Cajnice project

In December 2023, the Cajnice project received a license extension until 8 December 2026 (the maximum extension period). The extension was granted as all legal conditions were met and more than 75% of the planned exploration works were carried out in accordance with the law.

The Company intends to resume geological activities on site and drill to confirm positive soil sample results for lead, zinc, silver and gold.

# Ongoing preparatory activities

To foster the local community support, the Company representatives actively participated in humanitarian actions and cultural, educational and sporting events to address the benefits that geological exploration and mining investments could bring. Special attention has been given to the local community in Petrovo at the Sockovac projects, to lay the solid foundations for the support of the upcoming geological exploration works.

Simultaneously, other geological preparatory works are ongoing to ensure all activities can proceed without interruption as soon as all the conditions for the start of the works are met.

# **Note 1: Material Accounting Policy Information**

## Statement of compliance

The half-year financial report is a general-purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half-year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report and announcements made by the Group. The Group is a for profit entity for financial reporting purposes under Australian Accounting Standards.

# **Basis of Preparation**

The consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, which is the functional and presentational currency of the Group.

Other than as stated below, the accounting policies and methods of computation adopted in the preparation of the half-year financial report, are consistent with those adopted and disclosed in the Group's most recent annual financial report.

These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

# Going Concern

The financial statements have been prepared on the going concern basis which assumes the Company and Group will have sufficient cash to pay its debts, as and when they become payable, for a period of at least 12 months from the date the financial report was authorised for issue.

As at 31 December 2023, the Group has net assets of \$5,864,631 (30 June 2023: \$6,851,140). During the six-month period to 31 December 2023 the Group had cash outflows from operating activities of \$940,836 (31 December 2022: \$1,013,966) and cash outflows from investing activities of \$128,3701 (31 December 2022: \$3,048,433).

The Group has prepared a cash flow forecast which indicates that the Group expects that it will incur expenditure on its tenements and corporate overheads of \$2,625,000 for the period covered by the forecast which is from February 2024 to March 2025. The forecast also anticipates that in addition to the \$800,000 raised under the Placement Offer completed in January 2024, an additional \$1,400,000 will be raised under a Non-renounceable Entitlement Offer in March 2024.

The anticipated capital raising under the Non-renounceable Entitlement Offer was completed as announced to the market on 29 February 2024.

The directors have therefore determined that it is appropriate to prepare the financial statements on the going concern basis.

# Note 1: Material Accounting Policy Information (continued)

#### New or amended Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## **NOTE 2: SEGMENT INFORMATION**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics.

The Group's sole activity is mineral exploration and resource development wholly within Bosnia & Herzegovina, therefore it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

#### **Note 7: Contingencies and Commitments**

The Group is party to a dispute with the Indirect Taxation Authority of Bosnia and Herzegovina regarding the recoverability of VAT incurred on its exploration expenditure. If the Group's claim is unsuccessful, it may be liable for up to \$1 million. However, on the advice of its lawyers, the Group is confident it will be successful and the outstanding amounts will be recovered. As a result, no liability amounts have been accrued in these financial statements in respect of this matter.

# Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
