#### Acquisition of Authium Project and Re-Listing on the ASX

During the reporting period Amani entered into a binding terms sheet ("Terms Sheet") with Authium Ltd (ACN 653 683 286) ("Authium") and the major shareholder of Authium, being Annandale Street Holdings Pty Ltd (ACN 600 073 729) as trustee of the Annandale Street Holdings Trust ("Major Seller") on behalf of the shareholders of Authium (under which the Company will, on an 'arm's length commercial' basis and subject to satisfaction of various conditions precedent, acquire 100% of rights, and title, to all of the issued share capital of Authium ("Authium Shares").

For further information see ASX Announcement titled "*Agreement Signed To Acquire Major Lithium Resource Project In Nevada*" dated 21 December 2023.

#### About the Authium Clayton Ridge Lithium Project

Authium Ltd, which holds, through Authium LLC and Links Road, Inc. ("Authium Subsidiaries"), approximately 929 unpatented mining claims ("Tenements"), encompassing the Clayton Ridge lithium claystone property located at the Clayton Valley, western-central Nevada, United States of America ("Clayton Ridge Lithium Project") (together, with, amongst other things, including the Consolidation, Re-compliance and Public Offer and Secondary Offers, the "Proposed Transaction").

The Clayton Ridge Lithium Project is located in western Nevada in Esmerelda County's Clayton Valley. The Project is located next to Abermarle's Silver Peak Mine, being North America's only producing lithium mine, and is adjacent to several advanced lithium clay resources, including those owned by Century Lithium Corp (TSXV:CYP) and Noram Lithium Corp (TSXV:NRM).

Encompassing 729 lode claims and 138 placer claims over 60 square km. The Clayton Ridge Lithium Project has Mineral Resource estimates of 2.2Mt LCE (Measured and Indicated category) with drilling only represents a small portion of the highly prospective tenure. The estimates have been reported in accordance with the JORC Code (2012) guidelines.

**Mineral Resource Estimate – 2.5Mt LCE**

The Clayton Ridge Lithium Project’s mineralisation consists of lithium enriched hectorite clay that is a lacustrine clay deposit precipitated within an alkaline lake environment. Authium has delineated a substantial Mineral Resource Estimate (MRE) of 2.5Mt LCE (above 500ppm Li cut-off grade) based on 14 drill holes over three drilling campaigns (Table 1). The estimates are reported in accordance with the JORC Code (2012) guidelines. The ore body at Clayton Ridge is well understood and defined through previous drilling with homogenous mineralisation and a consistent mineralised horizon. Significant exploration upside exists in addition to the current Mineral Resource, with mineralisation open at depth and to the south.

Notes:

1. The Mineral Resource estimates are reported on an in-situ basis at 500 ppm Lithium cut off grade.
2. The conversion for LCE (Li<sub>2</sub>CO<sub>3</sub>) = Li x 5.3228.
3. Bulk density for grade-tonnage conversion = 1.7 g/cm<sup>3</sup>.
4. Tonnages are reported in metric units, grades are reported in ppm of lithium. Tonnages and grades are rounded appropriately. Rounding may result in apparent summation differences between tonnes, grade and contained mineral content. Where these differences occur, they are not considered to be material.

Location & Tenure

The Clayton Ridge project is in western-central Nevada in Esmeralda County's Clayton Valley, approximately 48 km (30 miles) southwest of Tonopah, Nevada (see figure 2). The property is on the eastern edge of Clayton Valley, with Angel Island to the west and Split Mountain and Clayton Ridge to the east. The yellow rectangle in Figure 3 depicts the location of the area/volume that has been estimated.

Geologic units possibly containing significant Li hosted sedimentary clay identified with geophysical surveys conducted in the southern portion of Authium's title holding. Follow-up geochemistry samples of outcropping white aphanitic tuff yielding results above 500ppm Li have confirmed lithium mineralisation at surface.

Future project development

Planned exploration and development activities following a successful ASX re-listing will be set out in the Company's Prospectus and include:

- Undertaking resource extension drilling in the southern portion of the Project Area.
- Completion of a bankable feasibility study for the commissioning of a 5ktpa LCE plant.
- The establishment of a pilot plant and design and permitting activities required to undertake construction.

Authium Technical Team

The Authium technical team was heavily involved in the development of the direct lithium extraction (DLE) technology at Rincon Lithium. The Rincon Lithium Project – a large, lithium-brine project located in the heart of the 'lithium triangle' in Salar Del Rincón, Salta Province, Argentina. Rincon had a long-life, scalable resource capable of producing battery-grade lithium carbonate from raw brine with a total Mineral Resource Estimate of 11.8Mt LCE.

Incoming Managing Director Todd Vains was previously the Chief Operating Officer of Rincon Ltd and was responsible for its lithium, mining and smelting operations. Mr Vains worked closely with the engineering teams in the delivery of the Rincon DLE Demonstration Plant. Additionally, Mr Cameron Stanton was the co-inventor of Rincon lithium's extraction process and was the former Technical Director of Rincon and led the engineering design and construction of the Commercial Demonstration Plant on the Rincon salar.

Rincon Limited sold the Rincon Lithium asset to Rio Tinto for \$825 Million in 2021 post the successful operation of the Commercial Demonstration Plant.

About the Proposed Transaction

The Proposed Transaction will amount to a significant change to the nature and scale of the Company's activities and, as such, the Company will be required to obtain shareholder approval under ASX Listing Rule 11.1.2 at a general meeting and re-comply with Chapters 1 and 2 of the ASX Listing Rules in accordance with ASX Listing Rule 11.1.3 ("Re-compliance"). As part of this process, the Company intends, subject to shareholder approval, to consolidate its current securities on issue on a 1 to 200 basis ("Consolidation") and to undertake the Public Offer of the Public Offer Shares (see below).

Completion of the Proposed Transaction is conditional on the Company obtaining all necessary regulatory and shareholder approvals to give effect to the Proposed Transaction and satisfying all other requirements for the reinstatement of the Company's shares on the ASX (amongst other things).

On completion of the Proposed Transaction ("Completion"), the Company will be reinstated as a lithium explorer and, in line with this new direction, the Company intends to seek shareholder approval to changes its name to 'Authium Minerals Limited'.

Terms Sheet

The Company and Authium entered into the Terms Sheet to set out the material terms and conditions of the Proposed Transaction (i.e., the sale and purchase of the Authium Shares by the Company from the Sellers), which are to be formalised in due course in a written sale and purchase agreement between the parties ("Share Purchase Agreement") and any other agreement or deed considered necessary or desirable by the parties to give effect to the Proposed Transaction ("Definitive Documentation").

The total consideration payable by the Company to the Sellers (or their nominee(s)) and/or Authium (as the context requires) as part of the Proposed Transaction is as follows:

- an exclusivity fee in the sum of \$60,000.00 (inclusive of any GST) per thirty (30) day period for each full thirty (30) day period that passes from the execution date of the Terms Sheet until the earlier of the date:

- that is no later than one-hundred and eighty (180) calendar days from the execution date of the Terms Sheet (or such other date agreed by the parties to the Terms Sheet in writing) (“Formalisation Date”); and
- of the general meeting of the Company’s shareholders to be held to approve the Transaction Resolutions, assuming that the Company obtains effective shareholder approval for all Transaction Resolutions at that meeting (“Approval Date”),

by way of immediately available funds to the Sellers’ nominee, which is capped at a total amount of \$360,000.00 (unless otherwise agreed by the Parties in writing) (“Exclusivity Fee”);

- subject to satisfaction (or waived, as permitted) of certain conditions set out in the Terms Sheet and approval by the ASX (as required):
  - an initial approval fee in the sum of \$500,000.00 (inclusive of any GST) by way of immediately available funds payable to Authium within ten (10) business days of the Approval Date (“Initial Approval Fee”); and
  - a further approval fee in the sum of \$100,000.00 (inclusive of any GST) by way of immediately available funds payable to Authium per thirty (30) day period for each full thirty (30) day period that passes from the Approval Date until the earlier of Completion and the date that is ninety (90) days from the Approval Date (“Post-Approval Period”), which is capped at a total amount of \$300,000.00 (unless otherwise agreed by the Parties in writing) (“Further Approval Fees”); and
  - the issue of up to 253,125,000 consideration shares in the ordinary share capital of the Company (on a post-Consolidation basis), being an aggregate amount of shares equal to the value of \$50,625,000.00 (i.e., with a deemed issue price per share equal to the Public Offer price per Public Offer Share, being \$0.20) to the Sellers (or their nominee(s)) at Completion (“Consideration Shares”),

(together, the Exclusivity Fee, Initial Approval Fee, Further Approval Fees and Consideration Shares are the “Consideration”).

The Company notes that the parties to the Terms Sheet have also agreed that, if Completion of the Proposed Transaction does not occur within the Post-Approval Period due a breach of the Terms Sheet by the Sellers or the parties to the Terms Sheet failing to satisfy certain conditions set out in the Terms Sheet, then Authium will issue the Company (or its nominee(s)) an aggregate amount of Authium Shares equal to the total value of the Initial Approval Fee and Further Approval Fees (together, as applicable, the “Approval Fees”), with a deemed issue price of \$0.16 per Authium Share) within ten (10) business days of the end of the Post-Approval Period to repay the Company for the Approval Fees (“Repayment Shares”).

The parties to the Terms Sheet also intend to enter into any other agreement or deed, in addition to the Terms Sheet and Share Purchase Agreement, considered necessary or desirable to give effect to the Proposed Transaction. Otherwise, Completion of the Proposed Transaction is conditional on a number of conditions precedent being satisfied (or waived) by the parties to the Terms Sheet that are considered standard for transactions of this nature.

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2023

### NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These general purpose interim financial statements for half-year reporting period ended 31 December 2023 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Amani Gold Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2023, together with any public announcements made during the following half-year.

#### Significant accounting judgments and key estimates

The preparation of the interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2023.

#### (a) Accounting Policies

The accounting policies are consistent with those applied in the previous financial year and those of the corresponding interim reporting period.

#### (b) Adoption of new and revised accounting standards

The AASB has issued a number of standards and amendments to standards that are mandatory for the first time in the reporting period commenced 1 July 2023. The consolidated entity has assessed and determined that there are no new or amended standards applicable for the first time for the December 2023 half-year report that materially affect the Group's accounting policies or any of the amounts recognised in the financial statements.

#### Going Concern Basis

The financial report has been prepared on the basis of accounting principles applicable to a "going concern" which assumes the Group will continue in operation for the foreseeable future and will be able to realise its assets and discharge its liabilities in the normal course of operations.

The Group has incurred net cash outflows from operating activities for the period ended 31 December 2023 of \$1,062,186 (2022: \$879,816). At 31 December 2023, the Group had cash balances of \$4,672,353 (30 June 2023: \$6,945,529). The loss for the 31 December 2023 period was \$15,393,404 (2022: \$1,155,898).

The directors have prepared cash flow projections that support the ability of the Group to continue as a going concern.

### NOTE 3: ASSET HELD FOR SALE AND DISCONTINUED OPERATIONS

Amani Gold Limited has executed a binding term sheet (“Term Sheet”) with Mabanga Mining SARL (the “Purchaser”) for the sale of Amani Gold’s shareholding in Amani Consulting SARL, the DRC based entity that holds the Giro Gold Project for the cash payment of USD\$30M.

Under the SPA, the Purchaser shall pay the Company a total of USD\$30M pre-tax consisting of the following tranches:

- First Tranche – US\$5,000,000 payable to the Company upon execution of the Term Sheet;
- Second Tranche - US\$8,000,000 payable to the Company within one (1) year of the payment of the First Tranche;

Pursuant to the Term Sheet, the Purchaser has agreed to acquire the Company’s 850 shares (“Sale Shares”) representing 85% of the total issued share capital in Amani Consulting, the entity that holds a 65% interest in Giro Goldfields SARL, a DRC registered company and holder of the two exploitation permits comprising the Giro Gold Project. Société Minière De Kilo Moto SA (“SOKIMO”), a company wholly owned by the DRC Government holds the remaining 35% interest.

### Recognition and Measurement

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the noncurrent asset (or disposal group) is recognised at the date of de-recognition.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit or loss.

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

### Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
