## REVIEW OF OPERATIONS

### Dolphin Tungsten Project

#### Key Points

- Commercial concentrate production commenced on 1 July 2023, signalling the move from a pre-production phase to production.
- The first shipment of tungsten concentrate was made in July 2023. Eight additional shipments were produced and sold during the six months ending 31 December 2023.
- Operational progress was made throughout the six months with increased production rates of higher-grade ore and improved processing plant performance, including the achievement of a new daily ore processing record in early December 2023.
- Exploration drilling was completed on Investigator 24 and Investigator 22, which successfully intersected skarn mineralisation in the mine series, further validating the exploration potential of the Grassy region. Further exploration is required to fully validate the opportunity.
- No environmental incidents occurred during the period.

Further detail can be found on the Company's website [www.g6m.com.au](http://www.g6m.com.au)

## Tungsten Market

- Ammonium Paratungstate (APT) CIF Rotterdam prices have remained strong at a range of US\$300 - \$335 per mtu (10kg of WO<sub>3</sub>) despite lower trading volumes over the period.
- APT prices are regularly quoted in industry journals and are the basis of the pricing used as a benchmark for selling WO<sub>3</sub> concentrate, prices are always quoted in a range, low - high.
- The concentrate acquired by the APT processors is conventionally a 65% WO<sub>3</sub> concentrate; therefore, the net price back to producers is somewhat lower, generally around 80% of the reported APT price, for the same quantity of contained WO<sub>3</sub>.
- As of 31 December 2023, Tungsten APT Price CIF Rotterdam was US\$300 - \$325, albeit on lower volumes as APT users continued to reduce inventories into the end of the year.
- Market conditions look strong for the remainder of the 2024 calendar year, with growth in demand expected to continue from the defence, construction, mining and energy sectors, and supply continuing to look subdued. The Dolphin Tungsten Mine (DTM) is the only new significant supply source entering the market in 2023.

## Corporate

### Key Points

- The Company successfully raised \$4.2 million (net of transaction costs) through a Share Purchase Plan (SPP) in July 2023 at \$0.14 per share.
- The Company submitted a Research & Development (R&D) tax incentive application for the year ended 30 June 2023 with AusIndustry in September 2023, resulting in a cash refund of \$14.3 million (inclusive of interest) in January 2024.
- Major shareholders continue to provide unwavering support of the Company and the DTM by providing two tranches of short-term finance in the six month period ending 31 December 2023.
- Short-term loan funding was secured via unsecured loan facilities with three of the Company's major shareholders raising \$7.0 million in September 2023. The funds will be used to fund the project during the ramp-up period.
- An additional \$8.0 million was provided via major shareholders and previous lenders in bridge finance funding to support the ramp-up activities at the DTM.
- The Company changed its registered office and principal place of business in December 2023 to Level 7, 157 Ann Street, Brisbane, Queensland, 4000.

### Capital Raising

The Company successfully raised \$4.2 million (net of transaction costs) of capital via the Share Purchase Plan (SPP) announced on 8 May 2023, issuing 30,797,893 shares at \$0.14 per share.

The SPP was strongly supported by eligible shareholders, with the Company accepting valid applications totalling \$3.7 million. The Company finalised the SPP, having raised an additional \$0.6 million by placing approximately half of the remaining SPP allocation to professional and sophisticated investors.

# DIRECTORS' REPORT (continued)

## OUTLOOK

The short-term objective of the Group is to achieve steady-state operations at DTM on King Island. The next steps are to:

- (1) Increase production of high-grade concentrate and achieve targeted shipments of concentrate.
- (2) Optimise the mine plan to bring tungsten production forward and enhance cashflows during ramp up to steady state production.
- (3) Finalise defect and modification work in the process plant to achieve consistent and stabilised run times.

In addition to the above operational matters, the Company is reviewing its short to medium term funding requirements and are in discussion with parties as to the optimum structure to adopt. Further information is provided in the Subsequent Events note of this report.

The medium-term objective is to investigate opportunities to value-add the product for supply into the upstream tungsten industry.

## SIGNIFICANT CHANGES IN STATE OF AFFAIRS

The operation commenced commercial production on 1 July 2023, signalling the move from a pre-production phase to production.

## SUBSEQUENT EVENTS

There has not arisen in the interval between the end of the financial year and the date of this Financial Report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, except for the following:

On 4 January 2024, the Company executed an unsecured short-term loan agreement with CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis, for an advance of \$1.5 million. The purpose of the loan was to support the Company's short-term working capital requirement pending the receipt of the cash refund from the Research Development (R&D) Tax Incentive Application for the 2023 financial year. This amount was repaid following receipt of the R&D funds on 31 January 2024.

During the week commencing 11 March 2024, the Company entered into the following agreements:

- (1) Loan Agreements with two of the major shareholders under which the lenders provided a short-term facility of \$1.5 million each. The lenders include:
  - Abex Limited
  - CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis

The agreements are identical with the major terms being:

<b>Commitment</b>	Loan standby facility of \$1,500,000
<b>Term</b>	From 12 March 2024 to 30 June 2024
<b>Termination Date</b>	30 June 2024
<b>Repayment</b>	The earlier of 30 June 2024 or when a minimum of \$15 million funding is sourced
<b>Applicable Interest rate</b>	12.5% per annum
<b>Security</b>	Unsecured
<b>Purpose</b>	Funding for general working capital and corporate purposes

As at 15 March 2023, both of the loans have been drawn to \$1,000,000.

## DIRECTORS' REPORT (continued)

(2) Agreements with the following lenders who each provided a \$2.0 million R&D bridge facility in November 2023, as more fully described in Borrowing disclosure of Note A19, whereby repayment, which was due on 31 March 2024 has been deferred to 31 August 2024, with the remaining conditions remaining the same.

- Abex Limited
- CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis
- Elphinstone Holdings Pty Ltd
- D.A.CH.S Capital AG

(3) Waivers have been signed with the following lenders for relief of a financial covenant in the Loan Agreements which were in technical breach:

- Abex Limited
- CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis
- Elphinstone Holdings Pty Ltd
- D.A.CH.S Capital AG
- Pure Asset Management

No other matter or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect the company's operations, the results of those operations, or the company's state of affairs in future financial years.

### LEAD AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

A copy of the lead auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 44.

### ROUNDING OFF

The company is of a kind referred to in *Corporations Instrument 2016/191*, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

### COMPETENT PERSON'S STATEMENT

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

The Notes to the consolidated interim financial statement are set out in the following main sections:

SECTION A – KEY FINANCIAL INFORMATION AND PREPARATION BASIS

SECTION B – KEY MANAGEMENT PERSONNEL AND RELATED PARTY DISCLOSURES

## SECTION A KEY FINANCIAL INFORMATION AND PREPARATION BASIS

### A1 REPORTING ENTITY

Group 6 Metals Limited (**Company**) is a company domiciled in Australia. These consolidated interim financial statements ("interim financial statements") as at and for the six months ended 31 December 2023 comprise the Company and its subsidiaries (together referred to as the "Group"). The Group is primarily focused on mining and processing the high-grade ore from the Dolphin Tungsten Mine (DTM) on King Island.

The consolidated annual financial report of the Group as at and for the year ended 30 June 2023 is available upon request from the Company's registered office at Level 7, 157 Ann Street, Brisbane, Queensland, 4000, or the Company's website at [www.g6m.com.au](http://www.g6m.com.au).

### A2 BASIS OF PREPARATION

These consolidated interim financial statements are general purpose financial statements prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001 and with IAS 34 Interim Financial Reporting.

They do not include all of the information required for a full annual financial report. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated annual financial report of the Group as at and for the year ended 30 June 2023.

These interim financial statements were approved by the Board of Directors on 15 March 2024.

The Company is not of a kind referred to in ASIC Corporations Instrument 2016/191 dated 1 April 2016 and, in accordance with the Class Order, amounts in these interim financial statements and directors' report have been rounded to the nearest thousand dollars, or in certain cases, the nearest dollar, unless otherwise stated.

### A3 MATERIAL ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

#### **Revenue and other income**

The Group recognises sales revenue related to the transfer of promised goods when the performance obligations under the contract have been satisfied. The amount of revenue reflects the consideration to which the Group expects to be entitled to satisfy the performance obligation.

#### *Sale of commodities*

Sales contracts for commodities often incorporate provisional pricing.

Sales of tungsten concentrate are initially measured at the estimated sales value when control and the risks of ownership of the product are passed to the customer. The final sales value may change due to movements in commodity prices, assays, moisture content and weight between the commodity's delivery time and the end of the quotation period ('QP') stipulated in the sales contract.

Sales revenue includes revenue from contracts with customers, accounted for in accordance with AASB 15 'Revenue from contracts with customers'.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

## MATERIAL ACCOUNTING POLICIES (continued)

### *Other income*

Other income is recognised when it is received or when the right to receive payment is established.

### **Trade and other receivables**

#### *Trade receivables*

Trade receivables are initially measured at the transaction price as disclosed in the revenue accounting policy and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses (ECLs), except for provisionally priced receivables which are subsequently measured at fair value through profit or loss. Refer to the revenue accounting policy for more information regarding provisional pricing arrangements. Provisional invoices for commodity sales are due for settlement within five business days against presentation of the required documentation. Final invoices are issued within 75 days from arrival of a shipment at the Port of Destination and once all relevant factors are known, which can range from 30 to 180 days following shipment. Final invoices are due for settlement within five business days of being issued.

Collectability of trade receivables is reviewed on an ongoing basis. At the reporting date, an allowance for ECLs is recognised for receivables which are not expected to be collected. The amount of any allowance is recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. When a trade receivable for which an allowance has been recognised becomes unrecoverable, it is written off against the allowance.

The Group measures the loss allowance for trade and other receivables at an amount equal to the lifetime ECL, except where the credit risk is considered low or has not increased significantly since initial recognition, in which case the loss allowance is based on a 12 month ECL. A simplified approach is taken to accounting for trade and other receivables and records the loss allowance at the amount equal to the lifetime ECL. In applying this simplified approach, the Group uses its historical experience, external indicators and forward looking information to calculate the ECL.

#### *Other receivables*

Other receivables are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are stated at amortised cost less impairment losses.

#### *Prepayments*

Prepayments are recognised at cost.

## MATERIAL ACCOUNTING POLICIES (continued)

### Inventory

Material extracted from the mine is classified as either ore or waste. Ore represents material that, at the time of extraction, is expected to be processed into a saleable form and sold at a profit.

Stockpiled ore is subsequently processed into commodities in a saleable form of tungsten concentrate. Concentrate ready for shipment is the concentrate available for sale stored on site. Concentrate shipped is concentrate that has been shipped from King Island but has yet to arrive at the Port of International Dispatch.

Inventories are valued at the lower of cost or net realisable value. The cost of stockpiled ore, concentrate ready for shipment, and concentrate shipped is determined using a weighted average basis. Costs will include the relevant direct material, mining, processing, labour, freight, mine rehabilitation costs incurred in the extraction process and other fixed and variable overhead costs directly related to mining and processing activities. Stockpiles are measured by estimating the number of tonnes added and removed from the stockpile. Periodic surveys verify stockpile tonnages.

Net realisable value is the estimated future sales price of the product produced based on the estimated commodity price less the estimated costs of completion.

Stores and spares represent commodity consumables and other raw materials used in the production process, as well as spare parts and other maintenance supplies that are not classified as capital items and are valued at a lower cost or net realisable value.

### Overburden in advance

Overburden in advance (OBIA) is the overburden in excess of the overburden-to-ore ratio that must be removed in order to mine the ore.

Expenditure incurred to remove overburden or waste material during the production phase of an open cut mining operation is deferred to the extent it gives rise to future economic benefits. It will be recognised when the overburden removal activity is performed on each block of the mine, and these costs can be reliably measured on a block-by-block basis.

The cost of OBIA is determined using a weighted average basis. Costs will include the relevant direct material, overburden removal, mining, processing, labour, freight, mine rehabilitation costs incurred in the extraction process and other fixed and variable overhead costs directly related to mining and processing activities. The movement in OBIA is measured by estimating the bank cubic metres (BCMs) added and removed from OBIA based on survey data.

OBIA is classified as a non-current asset. For the purposes of assessing impairment, OBIA assets are grouped with other assets of the relevant cash generating unit (CGU).

Expenditure is charged to the statement of profit or loss and other comprehensive income on a units of production basis using the estimated average stripping ratio for the block being mined. Changes in estimate of average stripping ratios are accounted for prospectively.

## MATERIAL ACCOUNTING POLICIES (continued)

### Mine development costs and mine properties

Mine development costs include aggregate expenditure in relation to mine construction and mine development where a development decision has been made. Mine development costs are accumulated separately for each area of interest in which economically recoverable reserves have been identified, and a decision to develop has occurred. This expenditure includes direct costs, an appropriate allocation of related overheads having a specific connection with the mine development and, where applicable, borrowing costs capitalised during development. Mine development costs are only amortised once construction is completed, and the assets are available for their intended use. This is determined by the formal commissioning of the mine for production.

Once mining commences, the aggregate capitalised costs are re-classified under non-current assets as Mine Properties or an appropriate class of property, plant and equipment.

The Group undertakes regular impairment reviews incorporating an assessment of recoverability of cash generating assets. Cash generating assets relate to specific areas of interest in the Group's mine property assets. The recoverable value of specific areas of interest are assessed by value in use calculations determined with reference to the project's new (net) cash flows estimated under the Life of Mine Plan.

## A4 USE OF JUDGEMENTS AND ESTIMATES

In preparing these interim financial statements, the Company's management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from those estimates.

The significant judgements made by Management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the last annual consolidated annual financial report of the Group as at and for the year ended 30 June 2023, other than those outlined below.

### *Commercial production date*

Commercial production of concentrate commenced on 1 July 2023, signalling the move from a pre-production phase into production. In accordance with the Group's accounting policy on Mine Development Costs, aggregated capitalised mine development costs have been re-classified under non-current assets as Mine Properties from that date. Given the assets are now available for use, amortisation has commenced on a Units of Production basis using the life of mine ore tonnes as a basis.

### *Provisional pricing arrangements*

Judgement (based on external assays and measuring equipment) is required to determine the provisional transaction price for each shipment, having regard for variability in the precise quantity and quality of the commodity being delivered and estimated forward market prices at the end of quotation periods.

Value has been determined using the "expected value" method.

Further judgement will be required to determine whether variable consideration is subject to significant change. This might be relevant where the final quality of products will not be confirmed until testing at its destination.

Provisionally priced sales may be repriced, where the movement is present, at each reporting period until final pricing and settlement are agreed upon based on the final quality of products delivered and tested at their destination.

## A5 GOING CONCERN

These financial statements have been prepared on a going concern basis, which contemplates the continuity of standard business activities, the realisation of assets, and the discharge of liabilities in the ordinary course of business.

The Group incurred a pre-tax operating loss of \$3.8 million during the six month period ended 31 December 2023 (the period).

Included in the operating loss for the year is the fair value of 12,000,000 performance options (\$0.3 million) granted and vested to directors as non-cash consideration for market-based remuneration and options (\$0.7 million) granted to employees in July 2023.

During the period, the Group raised \$4.2 million (net of transaction costs) of capital via the Share Purchase Plan announced to market on 8 May 2023.

At 31 December 2023, the Group had a cash balance of \$0.6 million and a net current asset deficiency of \$47.5 million. During the period, the Group had operating cash outflows of \$10.2 million and investing cash outflows of \$15.1 million.

At 31 December 2023, the Company had undrawn loan facilities of \$2.6 million under the EOM mobile fleet facility. Total drawn debt is \$57.8 million with \$49.8 million due to mature in the next twelve months.

Subsequent to period-end, the following events occurred which have a financial impact, or potential financial impact, on the Group:

- On 4 January 2024, the Company executed an unsecured short-term loan agreement with CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis, for an advance of \$1.5 million. The loan was repaid on 31 January 2024. The purpose of the loan was to support the Company's short-term working capital requirement pending the receipt of the cash refund from the R&D Tax Incentive Application for the 2023 financial year.
- During the week commencing 11 March 2024, the Company entered into the following agreements:
  - Loan Agreements with two of the major shareholders under which the lenders provided a short-term facility amount of \$1.5 million each. The lenders include:
    - Abex Limited
    - CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis

The agreements are identical with the major terms being:

<b>Commitment</b>	Loan standby facility of \$1,500,000
<b>Term</b>	From 12 March 2024 to 30 June 2024
<b>Termination Date</b>	30 June 2024
<b>Repayment</b>	The earlier of 30 June 2024 or when a minimum of \$15 million funding is sourced
<b>Applicable Interest rate</b>	12.5% per annum
<b>Security</b>	Unsecured
<b>Purpose</b>	Funding for general working capital and corporate purposes

As at 15 March 2024, both of the loans have been drawn to \$1,000,000.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

2. Agreements with the following lenders who each provided a \$2.0 million R&D bridge facility in November 2023, as more fully described in Borrowing disclosure of Note A19, whereby repayment, which was due on 31 March 2024 has been deferred to 31 August 2024, with the remaining conditions remaining the same:
  - Abex Limited
  - CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis
  - Elphinstone Holdings Pty Ltd
  - D.A.CH.S Capital AG
  
3. Waivers have been signed with the following lenders for relief of a financial covenant in the Loan Agreements which were in technical breach:
  - Abex Limited
  - CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis
  - Elphinstone Holdings Pty Ltd
  - D.A.CH.S Capital AG
  - Pure Asset Management

Management recently updated the Life of Mine (LoM) model. The 12-month cash flow included in the LoM underpins the basis of preparation as a going concern. There is uncertainty regarding the projected sales quantities and the associated timing of cash generated by operating activities as commercial production ramps up however the Group is focussed on executing operational strategies to achieve steady state production.

Management has prepared a cashflow forecast that supports the ability of the Group to continue as a going concern, using the following assumptions:

- Securing additional funding in the next quarter to maintain operations through to steady state production and positive cashflows;
- Mine performance and operating cash flows being achieved in accordance with the assumptions used by management in the LoM model and cashflow forecast;
- The Group maintaining expenditure within available fundings; and
- Refinancing debt that matures within the next 12 months to better match the cashflow profile of the business.

The going concern basis is critically dependent upon an appropriate combination of the above funding and operational solutions being achieved. This represents a material uncertainty as to whether the Group will continue as a going concern.

Given the history of successfully negotiating previous solutions, the directors continue to deem the going concern basis as the most appropriate basis to adopt in preparing these Financial Statements.

The directors consider that the Group will continue to be able to fulfil all obligations as and when they fall due for the foreseeable future and that the realisation of assets and settlement of liabilities will occur in the ordinary course of the business. No adjustments have been made to the financial information relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

Judgement about the future is based on information available at the date of this report. Subsequent events may result in outcomes that are inconsistent with reasonable judgements at the time they were made.

#### Options

During the half year ended 31 December 2023, 159,793,952 unquoted options were issued and vested.

During the period, the Group issued 149,293,952 free attaching options for the Placement and Share Purchase Plan announced on 8 May 2023 (two free attaching options for every three new shares, rounded) including 24,119,051 free attaching options issued to the Directors who participated in the Placement. The free attaching options have an exercise price of \$0.21 and expire on 30 June 2025.

#### Employee Expenses

On 14 July 2023, the Group issued 7,500,000 options to the nominees of Managing Director and CEO, Keith McKnight and 3,000,000 unquoted options to a Key Management Personnel (KMP). The options were granted at no cost to the recipient. The fair value of the options at the Grant Date is determined using the Black Scholes model. The options expense relating to KMP options for the interim period to 31 December 2023 totals \$691,775 (2022: nil). The basis of valuation assumes the share price at Grant Date of \$0.125, whilst if valued at the 31 December 2023 share price of \$0.081, the expense would have been \$369,775.

No terms of equity settled share-based payment transactions (including options granted as compensation to key management persons) have been altered or modified by the Group during the interim period or the prior period.

There are no entitlements for the Company's option holders to participate in new issues of capital which may be offered to the Company's existing ordinary shareholders.

The Group prohibits those that are granted share-based payments as part of their remuneration from entering other arrangements that limit their exposure to losses that would result from share price decreases. Entering such an arrangement is prohibited by law.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

### RESERVE (continued)

#### Share based payments

No new performance options were granted during the period.

The fair value of performance options previously issued to directors was determined at the Grant Date using the Black Scholes model. The options expense relating to performance options is recognised incrementally at each reporting date over the vesting period. The option expense for the interim period to 31 December 2023 totals \$262,314 (2022: \$524,628).

No terms of equity settled share-based payment transactions (including options granted as compensation to key management persons) have been altered or modified by the issuing entity during the interim period or the prior period.

There are no entitlements for the Company's option holders to participate in new issues of capital which may be offered to the Company's existing ordinary shareholders.

The Group prohibits those that are granted share-based payments as part of their remuneration from entering other arrangements that limit their exposure to losses that would result from share price decreases. Entering such an arrangement is prohibited by law.

No terms of equity settled share-based payment transactions have been altered or modified by the issuing entity during the interim period or the prior period.

No new warrants were granted during the six months to 31 December 2023.

The warrants granted to Pure Asset Management in previous periods were granted at no cost to the recipient. The fair value of the warrants at the Grant Date is determined using the Black Scholes valuation model.

No terms of warrants have been altered or modified by the issuing entity during the interim period or the prior period.

There are no entitlements for the Company's warrant holders to participate in new issues of capital which may be offered to the Company's existing ordinary shareholders.

Commercial production of concentrate commenced on 1 July 2023 and moved from a pre-production phase into production. In accordance with the Group's accounting policy on mine development costs (refer to Note A3), aggregated capitalised mine development costs have been re-classified as Mine Properties under non-current assets from that date. Given the assets are now available for use, amortisation has commenced on a Units of Production basis using the life of mine ore tonnes as a basis.

## A21 CONTINGENT LIABILITIES

### *Purchase price*

North Mining Limited and Australian Tungsten Pty Ltd entered into a Sale Agreement on 18 February 2002 to purchase the Dolphin tenement. The Sale Agreement was subsequently assigned to BCKP Limited (BCKP) by a Deed of Assignment dated 28 December 2012. A Deed of Variation was signed on 11 December 2015 which revised the purchase price to be the lesser of \$500,000 and 2% of capital expenditure to mine minerals from the tenement, payable 12 months after the commencement of mining of any mineral from the tenement. The \$500,000 has been recorded as a current liability in the 30 June 2023 Financial Statements. Under the Deed of Variation, the Group has a contingent liability as BCKP may elect to relinquish the purchase price in return for an amount payable of \$250,000 if the decision to mine is taken and there is receipt of sufficient finance (at least \$1,000,000).

### *King Island Council*

On 1 July 2011, the Group entered into two agreements with King Island Council that have since been registered under Part 5 of the Land Use Planning Approvals Act 1993 (TAS). These agreements provide that the Group pay, upon commencement of operations, in each financial year, the amounts of \$50,000 inclusive of GST to the King Island Council for upgrading and improvement of Grassy infrastructure; and \$50,000 inclusive of GST to a Trust Fund, mainly for the purpose of upgrading and developing the community facilities in Grassy and surrounding areas. The Group paid the first instalments of these in advance, a total of \$100,000 inclusive of GST, on 1 July 2011. These advances are to be deducted from future payments over five years at the rate of \$20,000 per annum inclusive of GST. A current liability has been recognised in the period ended 31 December 2023 for the FY24 amounts owing to the KI Council. Future payments will be made over the operational life of the mine.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

## A22 SEGMENT REPORTING

An operating segment is a component of the Group that engages in business activities whose operating results are reviewed regularly by the Group's Board and for which discrete financial information is available.

The Group is involved solely in the mining and processing of the high-grade ore from the DTM and thus has a single operating segment.

### *Business and geographical segments*

The results and financial position of the Group's single operating segment are prepared on a basis consistent with Australian Accounting Standards and thus no additional disclosures in relation to the revenues, profit or loss, assets and liabilities and other material items have been made. Entity-wide disclosures in relation to the Group's product and services and geographical areas are detailed below.

### *Products and services*

The Group provides a single product of tungsten concentrate for sale.

### *Geographical areas*

The Groups' activities are located solely in Australia with sales being made to Europe.

## A23 SUBSEQUENT EVENTS

There has not arisen in the interval between the end of the financial year and the date of this Financial Report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, except for the following:

On 4 January 2024, the Company executed an unsecured short-term loan agreement with CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis, for an advance of \$1.5 million. The purpose of the loan was to support the Company's short-term working capital requirement pending the receipt of the cash refund from the Research Development (R&D) Tax Incentive Application for the 2023 financial year. This amount was repaid following receipt of the R&D funds on 31 January 2024.

During the week commencing 11 March 2024, the Company entered into the following agreements:

- (1) Loan Agreements with two of the major shareholders under which the lenders provided a short-term facility of \$1.5 million each. The lenders include:
  - Abex Limited
  - CJRE Maritime Pty Ltd, an entity related to Director Chris Ellis

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

The agreements are identical with the major terms being:

<b>Commitment</b>	Loan standby facility of \$1,500,000
<b>Term</b>	From 12 March 2024 to 30 June 2024
<b>Termination Date</b>	30 June 2024
<b>Repayment</b>	The earlier of 30 June 2024 or when a minimum of \$15 million funding is sourced
<b>Applicable Interest rate</b>	12.5% per annum
<b>Security</b>	Unsecured
<b>Purpose</b>	Funding for general working capital and corporate purposes

As at 15 March 2023, both of the loans have been drawn to \$1,000,000.

- (2) Agreements with the following lenders who each provided a \$2.0 million R&D bridge facility in November 2023, as more fully described in Borrowing disclosure of Note A19, whereby repayment, which was due on 31 March 2024 has been deferred to 31 August 2024, with the remaining conditions remaining the same.
- Abex Limited
  - CJRE Maritime Pty Ltd, a company associated with Director Chris Ellis
  - Elphinstone Holdings Pty Ltd
  - D.A.CH.S Capital AG
- (3) Waivers have been signed with the following lenders for relief of a financial covenant in the Loan Agreements which were in technical breach:
- Abex Limited
  - CJRE Maritime Pty Ltd, a company associated with Director Chris Ellis
  - Elphinstone Holdings Pty Ltd
  - D.A.CH.S Capital AG
  - Pure Asset Management

No other matter or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect the company's operations, the results of those operations, or the company's state of affairs in future financial years.

## DIRECTORS' DECLARATION

In the opinion of the directors of Group 6 Metals Limited and its subsidiaries ("the Group"):

- (a) the consolidated financial statements and notes set out on pages 10 - 42, are in accordance with the *Corporations Act 2001*, including:
  - i. giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the six-month period ended on that date; and
  - ii. complying with Australian Accounting Standards *AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors:

# Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors Group 6 Metals Limited

I declare that, to the best of my knowledge and belief, in relation to the review of Group 6 Metals Limited for the half-year ended 31 December 2023 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the review; and
- ii. no contraventions of any applicable code of professional conduct in relation to the review.

# Independent Auditor's Review Report

To the shareholders of Group 6 Metals Limited

## Report on the Interim Financial Statements

### Conclusion

We have reviewed the accompanying **Interim Financial Statements** of Group 6 Metals Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Group 6 Metals Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 31 December 2023 and of its performance for the **Interim Period** ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*

The **Interim Financial Statements** comprises:

- Consolidated statement of financial position as at 31 December 2023;
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the Interim Period ended on that date;
- Notes A1 to B1 comprising material accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises Group 6 Metals Limited (the Company) and the entities it controlled at the Interim Period's end or from time to time during the Interim Period.

The **Interim Period** is the 6 months ended on 31 December 2023.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We

have also fulfilled our other ethical responsibilities in accordance with these requirements.

### Material uncertainty related to going concern

We draw attention to Note A5, "Going Concern" in the Interim Financial Statements. The events or conditions disclosed in Note A5, indicate a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, whether it will realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the Interim Financial Statements. Our conclusion is not modified in respect of this matter.

### Responsibilities of the Directors for the Interim Financial Statements

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Statements that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Statements that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibilities for the Review of the Interim Financial Statements

Our responsibility is to express a conclusion on the Interim Financial Statements based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Statements does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the Interim Period ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Period Financial Statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
