

ASX Announcement

19 March 2024

ABB seeks injunction to set aside Superloop notice

Aussie Broadband Limited (ASX:ABB, **ABB**) refers to its previous announcement on 18 March 2024 regarding the notice received from Superloop Limited (ASX:SLC, **Superloop**) directing ABB to dispose of the legal and beneficial ownership in 37,621,056 fully paid ordinary shares in Superloop, or such lesser number as is required to give ABB voting power in Superloop of less than 12% (**Excess Shares**), to someone other than an associate of ABB, and to effect that disposal of the Excess Shares within 10 business days of the date of the notice (**Notice**).

After the market closed on 18 March 2024, ABB commenced proceedings in the Federal Court of Australia (Victorian Registry) (**Court**) against Superloop and each of its directors seeking both permanent and interlocutory injunctions to set aside the Notice and/or to restrain Superloop from acting upon or giving effect to the Notice.

ABB has requested that the Court hears its interlocutory application on an urgent basis.

ABB has submitted an application to the Info-communications Media Development Authority of Singapore (**IMDA**) to obtain approval for the acquisition of the Excess Shares.

ABB takes its legal obligations very seriously and will continue to work constructively to provide the IMDA with the information required to support its application for approval.

About Aussie Broadband Limited

Aussie Broadband is an Australian operated telecommunications and technology company that formed in 2008 in Morwell, Victoria.

The Company provides a broad range of solutions to residential, business, enterprise and government customers, and provides wholesale services to other telecommunications companies and managed service providers.

The Company is the 5th largest provider of broadband services in Australia and is one of only five tier 1 voice providers in Australia.

Aussie Broadband is focused on building market share in the business, enterprise & government and wholesale segments through its range of data, voice, cloud and managed solutions, whilst continuing to build share in the residential segment.
