DIRECTORS' REPORT

The Directors of African Gold Ltd (African Gold or the Company) present their report on the consolidated entity consisting of the Company and its subsidiaries (the Group), together with the financial statements for the year ended 31 December 2023.

Directors

The names and details of the Company's directors in office during the financial year and until the date of this report are set out below. Directors were in office for this entire period unless otherwise stated.

Non-Executive Chairman

Evan Cranston

Evan Cranston is an experienced mining executive with a background in corporate and mining law. He is the principal of corporate advisory and administration firm Konkera Corporate and has extensive experience in the areas of equity capital markets, corporate finance, structuring, asset acquisition, corporate governance and external stakeholder relations. He holds both a Bachelor of Commerce and Bachelor of Laws from the University of Western Australia.

Other current Directorships:

Benz Mining Corp (appointed 17 September 2020)

Firebird Metals Limited (appointed 16 March 2021)

Macro Metals Limited (appointed 5 March 2024)

Previous Directorships (last 3 years):

Carbine Resources Limited (appointed 23 March 2010; resigned 31 May 2023)

Vital Metals Limited (appointed 22 October 2019; resigned 15 February 2023)

Managing Director

Phillip Gallagher

Phillip Gallagher has extensive experience in mineral exploration in West Africa having been the co-founder and managing director of ASX-listed Canyon Resources Ltd for 12 years. During his tenure, Canyon Resources completed a successful IPO, undertook numerous gold exploration programs in Burkina Faso and subsequently secured the world class Minim Martap Bauxite Project in Cameroon. Mr Gallagher led and successfully finalised negotiations with the Government of Cameroon to secure the Minim Martap Bauxite Project for Canyon Resources. He has previously held senior commercial and operational roles in both private and public companies.

Other current Directorships: Nil

Previous Directorships (last 3 years):

Canyon Resources Ltd (appointed 19 October 2009; resigned 11 July 2022)

For personal use only

Non-Executive Director

Tolga Kumova

Tolga Kumova has 16 years' experience in stockbroking, corporate finance and corporate restructuring, and has specialised in initial public offerings and capital requirements of mining focused companies. He has raised in excess of \$500 million for mining ventures, varying from inception stage through to construction and development.

Mr Kumova was a founding shareholder of Syrah Resources in 2010 and served as an Executive Director from May 2013 to October 2016, and as Managing Director from October 2014 to October 2016. During his tenure at Syrah Resources, Mr Kumova led the business from resource stage through to full funding through to development, gaining experience negotiating offtake agreements with numerous globally recognised counterparties.

Other current Directorships:

Aston Minerals Ltd (appointed 29 May 2017)

Macro Metals Limited (appointed 5 March 2024)

Previous Directorships (last 3 years): Nil

Non-Executive Director

Mathew O'Hara

Mathew O'Hara is a Chartered Accountant with extensive experience in corporate finance, accounting and governance and has been employed by, and acted as, non-executive director, company secretary and CFO of several companies in the resources sector. Prior to these roles, Mr O'Hara spent 12 years at an international public practice firm in the Corporate Finance, Advisory and Audit divisions in Melbourne and Perth gaining significant experience with ASX, TSX and AIM listed clients across a diverse range of industries. Mathew is currently Company Secretary for ASX-listed companies Patriot Battery Metals Inc, Pearl Gull Iron Limited and Peak Minerals Limited.

Other current Directorships:

Benz Mining Corp (appointed 27 April 2020)

Peak Minerals Ltd (appointed 21 June 2021)

Pearl Gull Iron Ltd (appointed 31 March 2023)

Previous Directorships (last 3 years):

Carbine Resources Limited (appointed 22 September 2018; resigned 15 July 2021)

Huntsman Exploration Inc (appointed 20 May 2021; resigned 11 May 2023)

Non-Executive Director

Peter Williams

Peter Williams was formerly Chief Geophysicist and Manager of Geoscience Technology for WMC Resources. He was one of the founding members of Independence Group Limited and developed high powered 3 component 3D TEM applications that led to the discovery of over 75,000t of nickel at the Victor Long Nickel Mine in Kambalda. Mr Williams has extensive experience in West Africa where he was the vendor of Gryphon Minerals' Banfora Gold Project, was involved in the project generation of Papillion's Mali projects and was a founding director of Ampella Mining Ltd. Mr Williams was a co-founder of the International Resource Sector Intelligence company, Intierra, and was a co-founder of the first dedicated hard rock mineral seismic company in the world, HiSeis.

Other current Directorships:

Alderan Resources Limited (appointed 13 May 2019)

Benz Mining Corp (appointed 17 September 2020)

Previous Directorships (last 3 years): Nil

Non-Executive Director

Simon Bolster (resigned 15 February 2024)

Mr Bolster is a geoscientist specialising in regolith, geochemistry and remote sensing. He has over 30 years of experience in the gold industry, and has worked in over 30 countries across 5 continents including 15 countries in Africa. Mr Bolster has worked for major mining companies including Normandy, Anglo American and Newmont where he held the roles of Consulting Geochemist and Global Manager of Remote Sensing and Spectral Geology. During his tenure with Newmont, he received an innovation award for new practical ways of mapping landscapes using 3D remote sensing techniques. He was also head of exploration for the successful Gryphon Resources in West Africa, managing teams that that resulted in new economic discoveries at a number of projects.

Mr Bolster co-founded and is Managing Director of Portable PPB Pty Ltd which is researching and developing techniques to enable gold explorers to discover gold faster and explore smarter.

Other current Directorships: Nil

Previous Directorships (last 3 years):

Riversgold Ltd (appointed 24 June 2020; resigned 10 March 2022)

Interests in the shares and options of the Company

As at the date of this report, the interests of the directors in the shares and options of African Gold Ltd were:

Name	Number of ordinary shares	Number of options over ordinary shares
Evan Cranston	3,904	-
Phillip Gallagher	112,000	4,000,000
Tolga Kumova	15,284,823	-
Mathew O'Hara	322,504	2,000,000
Peter Williams	1,620,001	2,000,000

Company Secretary

Oonagh Malone was appointed company secretary on 1 April 2020. Ms Malone is a principal of a corporate advisory firm which provides company secretarial and administrative services. She has over 10 years' experience in administrative and company secretarial roles for listed companies and is a member of the Governance Institute of Australia. She currently acts as company secretary for ASX-listed companies Aston Minerals Limited, Benz Mining Corp, Caprice Resources Ltd, Carbine Resources Ltd, RareX Ltd, and Riversgold Ltd and is a non-executive director of Peak Resources Ltd.

Dividends paid or recommended

The directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

Principal activities

The principal activities of the Company consist of exploration and evaluation of mineral resources.

For personal use only

Risk Management

The Company takes a proactive approach to risk management. The Board is responsible for ensuring that risks, including emerging risks, and also opportunities, are identified on a timely basis and the Company's objectives and activities are aligned with the risks and opportunities identified by the Board. The Board has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified by the Board. These include the following:

- Board approval of a strategic plan designed to meet stakeholders needs and manage business risk; and
- Implementation of Board approved budgets and Board monitoring of progress against those budgets.

OPERATING AND FINANCIAL REVIEW

EXPLORATION ACTIVITIES

The main focus for African Gold in 2023 was to advance the Company’s flagship Didievi Gold Project in Cote d’Ivoire, whilst continuing exploration on other projects in the portfolio. Various programs completed throughout the year continued to highlight the potential of African Gold’s West African projects.

For personal use only

Figure 1: African Gold project locations in Mali and Cote d’Ivoire

Didievi Gold Project, Côte d’Ivoire

African Gold completed various exploration on the Didievi Project throughout 2023.

In July 2023, the Company announced the results of a 422-hole auger drilling campaign (for 2,016m) on the 10km long Poku Trend, located approximately 3km to the east of the Blaffo Guetto prospect. The program was designed to identify high priority drill targets across a 9km long gold in soil anomaly coincidental with a major structure observable in the regional aeromagnetic data.

The auger drilling identified consistent 50ppb+ gold anomalism across a strike length of 6km on the Poku Trend of the Didievi Project. Within the strike length, a high priority 900m-long zone grading ≥ 0.15 g/t Au was defined, with a peak value of 0.845 g/t Au. In total, 15 holes returned peak gold values ≥ 0.1 g/t Au which is considered highly anomalous in auger drilling.

The Poku Trend lies-on a regional-scale geological structure observable in the aeromagnetic imagery, with a 10km strike length contained within the Didievi exploration permit highlighting the large-scale potential of the Didievi Project.

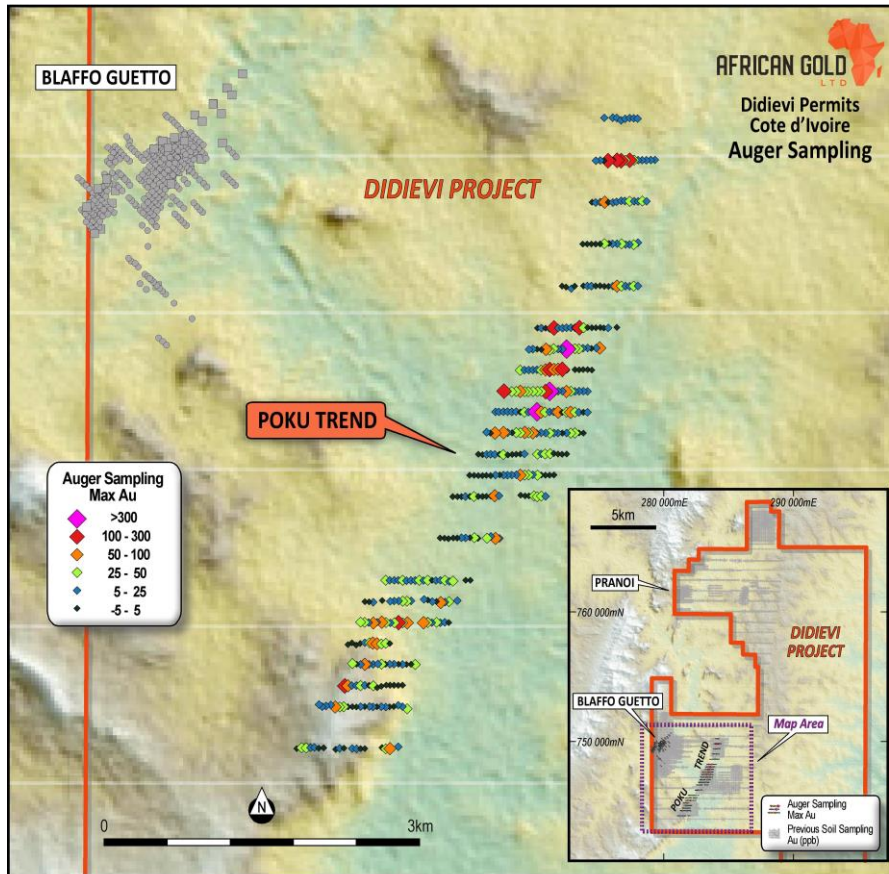

Figure 2: Location of the auger drilling program on the Poku Trend

On 17 October 2023, the Company announced the results of a trenching campaign on the Kouassi Prospect, located in the north of the Didievi Project. Intercepts from the trenching included very encouraging results of 13m at 4.03 g/t Au and 3m at 3.53 g/t Au. These results can be considered as true thicknesses as mineralisation is subvertical.

In addition to the trenching, channel sampling at the Kouassi Prospect returned 9m at 0.81 g/t Au (including 4m at 1.53 g/t Au) and 8m at 0.58 g/t Au (including 2m at 1.11 g/t Au).

The trenching program was undertaken following a detailed review of the Project and the re-evaluation of drill core, primarily drill hole DDD045, which was drilled in April 2022. The drillhole had intersected significant ore-grade mineralisation, including 6m at 1.82 g/t Au from 89m, 11m at 0.29 g/t Au from 103m and 11m at 1.85 g/t Au from 128m, including 3m at 2.74 g/t Au from 132m and 2m at 3.38 g/t Au from 137m.

The Kouassi Prospect is located approximately 14km NNE of the headline Blaffo-Guetto Prospect. Kouassi appears to be associated with a different controlling structure to Blaffo-Guetto, and also has a different host rock and mineralisation style. Mineralisation at Kouassi is hosted in stockwork quartz veins and as large blebs of arsenopyrite, within and at the contact of a quartz-feldspar porphyry unit.

As a follow up to the drill hole DDD045, two trenches were excavated at the Kouassi Prospect.

Trench 22_TR04 was excavated for a length of 80m over the projected surface expression of mineralisation encountered in drillhole DDD045, which it successfully intercepted, confirming that the mineralisation is subvertical and outcrops. The same lithologies and intense stockwork quartz veining as logged in drillhole DDD045 were observed. Best intercepts in trench 22_TR04 include 3m at 3.53 g/t Au and 13m at 4.03 g/t Au for 15m, including 2m at 16.04 g/t Au and 1m at 10.62 g/t Au. As mineralisation is subvertical, these intercepts can be considered true thicknesses.

Trench 22_TR20 was excavated for a length of 50m, three hundred metres NNW of the collar of drillhole DDD045. In total, 6 metres returned gold grades ≥ 0.1 g/t Au, with a peak value of 0.35 g/t Au (at 26-27m).

Figure 3: Cross section of trenching and diamond drill results at the Kouassi Prospect

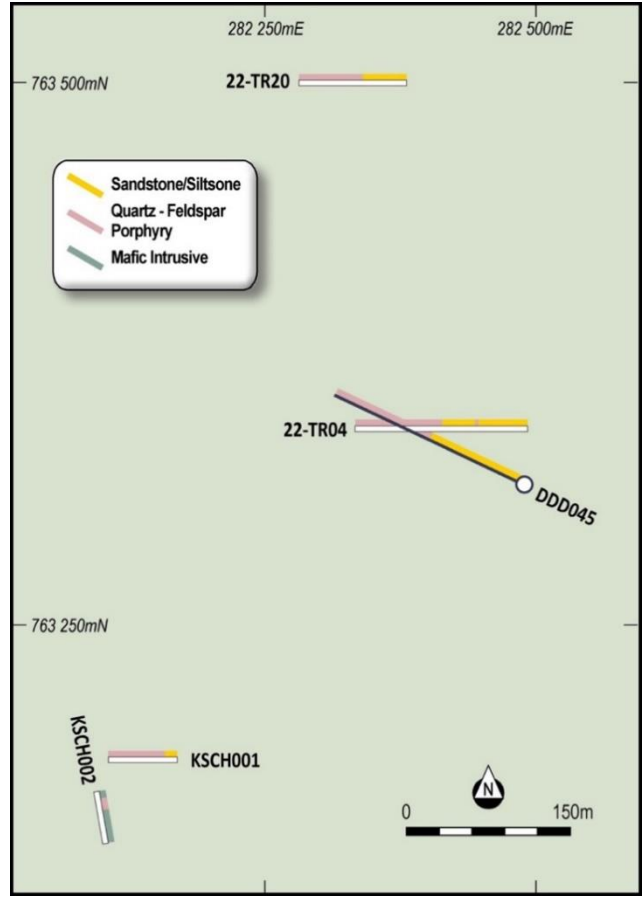

Figure 4: Location of channel sampling at the Kouassi Prospect

Subsequent to the end of the year, on 31 January 2024 the Company announced the results of a composite track lag sampling program on the eastern granite zone of the Didievi Project in Cote d'Ivoire. The objective of the program was to determine whether or not the granite occupying the eastern half of the permit was prospective, as no work had previously been undertaken over the area. Identifying any barren zones would allow the company to comfortably relinquish 25% of the Didievi permit upon renewal, as is required under the Ivorian mining code. The results returned from the lab suggested that the eastern granite zone within the permit is barren for gold as expected, allowing the company to focus its resources entirely upon the prospective zones and to comfortably relinquish 25% of the permit upon its renewal.

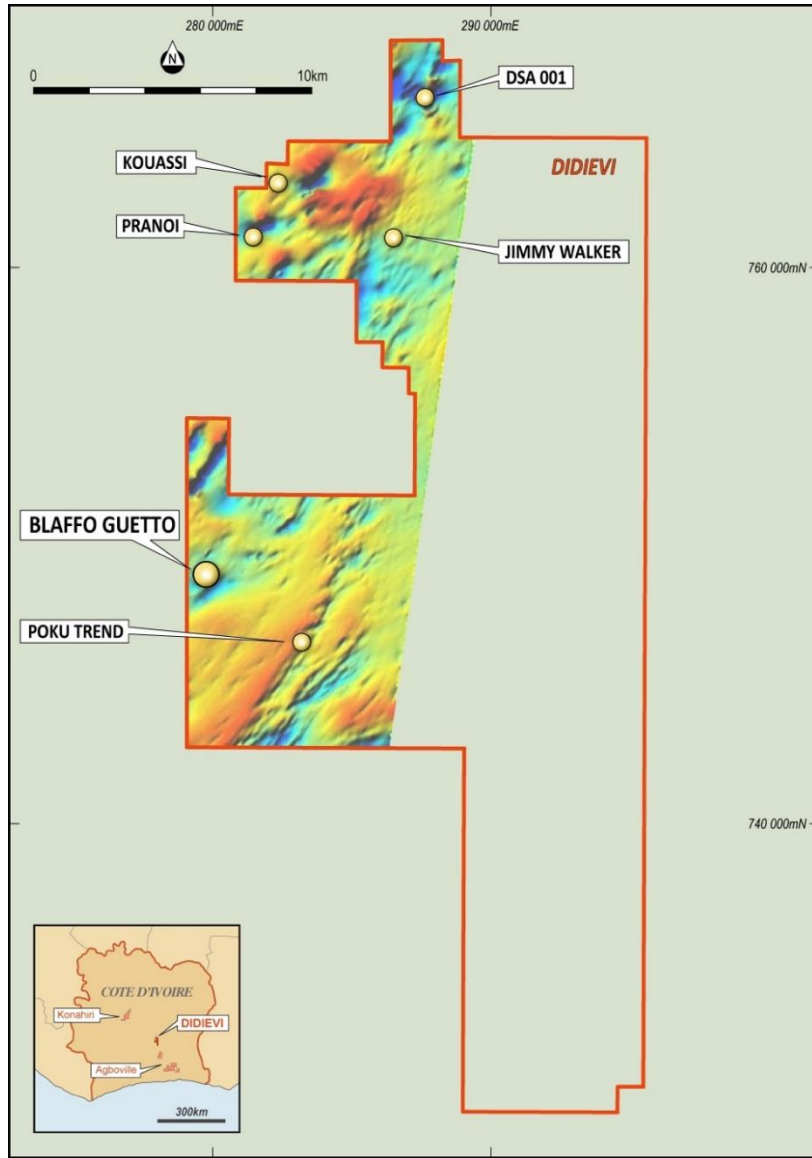

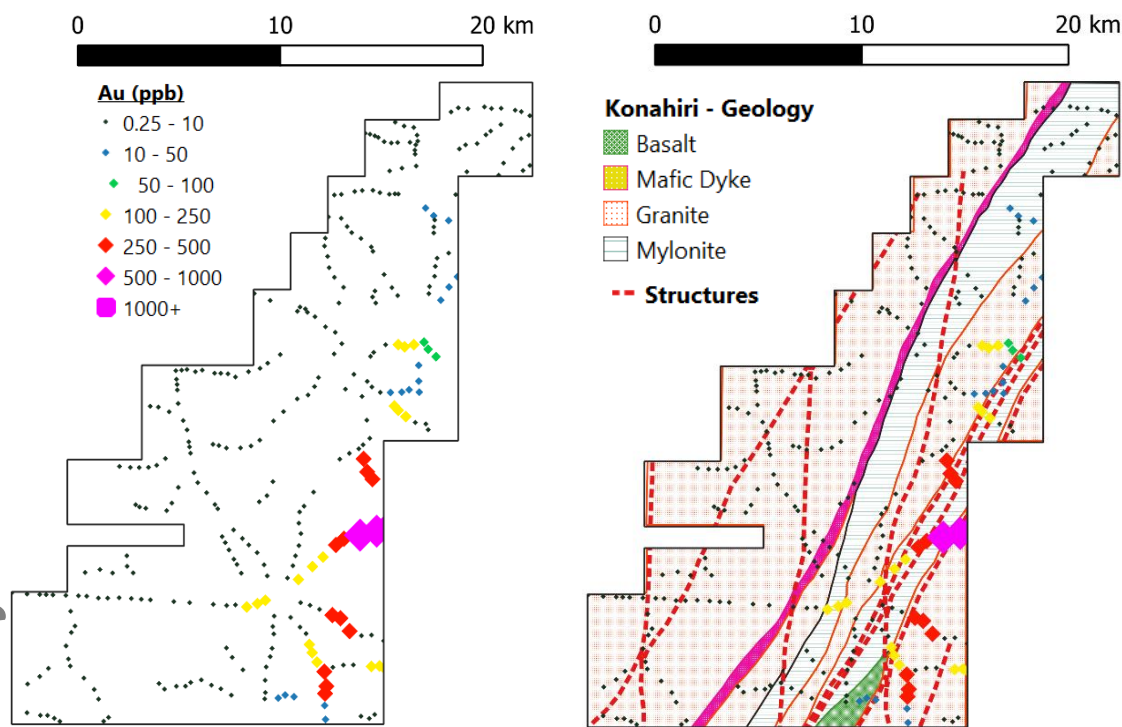

Figure 5: Location map of prospects on the Didievi Project

Konahiri Nord Project, Cote d'Ivoire

On 31 January 2024, the Company announced the results of a composite track lag sampling program on the Konahiri Nord Project in Cote d'Ivoire that was completed in late 2023.

The results returned from the survey were extremely encouraging, with a 100 ppb+ Au anomaly encountered on the eastern border of the permit over a strike length of 18km. A peak value of 1,188 ppb Au was attained (i.e. 1.18 g/t), and 10 other samples returned over 100ppb (>0.1 g/t). The results were extremely anomalous values considering the nature of the sample media, the fine sieve fraction, sample compositing and assaying by BLEG. The anomalies corresponded very closely with a mapped mylonitic unit and geological structures.

Figures 6 & 7: Composite track lag sampling assay results (left). Note that all sub-samples have been plotted and attributed with the assay value from the relevant composite sample. The right image shows the assays values overlying mapped geology. Note the strong correlation between the lag anomalies and the mapped structures and mylonitic unit.

Sitakili Project, Mali

On 7 September 2023, African Gold announced the results of a large-scale high-resolution Gradient Array Induced Polarisation (GAIP) geophysical survey which was completed at the Company’s 100% owned Sitakili Gold Project located in western Mali in July 2023.

The GAIP survey confirmed known very high-grade mineralisation including 6.6m at 115.5 g/t from 161.6m which corresponded with resistivity and chargeability anomalies. The survey also significantly increased the potential strike extents of the mineralisation and defined numerous new features with identical form, orientation and IP signature as the known gold lodes. The results suggest that the Sitakili Project consists of multiple, parallel gold lodes, many of which are yet to be tested. Half of the permit was surveyed, with the non-surveyed portion also containing significant artisanal mining activity.

A 1,980m RC drill program was completed by African Gold in late 2019 and returned significant and shallow anomalous gold intercepts, including:

- **9m @ 5.17 g/t gold** from 54m in 19SIR013
- **3m @ 3.07 g/t gold** from 40m and **2m @ 4.71 g/t gold** from 59m in 19SIRC006
- **6m @ 3.35 g/t gold** from 53m in 19SIRC009
- **6m @ 5.80 g/t gold** from 126m and **3m @ 2.34 g/t gold** from 117m in 19SIRC010
- **6m @ 1.97 g/t gold** from 42m in 19SIRC011

The Sitakili Project hosts extensive active artisanal gold workings, with at least three distinct mineralised quartz-feldspar porphyries documented, the largest of which extends for over 3km. The IP survey successfully mapped-out these known mineralised bodies, confirming that IP is the geophysical tool of choice at Sitakili. In addition, the GAIP survey has further extended the potential strike length of these mineralised bodies and has revealed several other features with a similar form, orientation and IP response, suggesting that there are other mineralised quartz-feldspar porphyry undercover, waiting to be drill-tested.

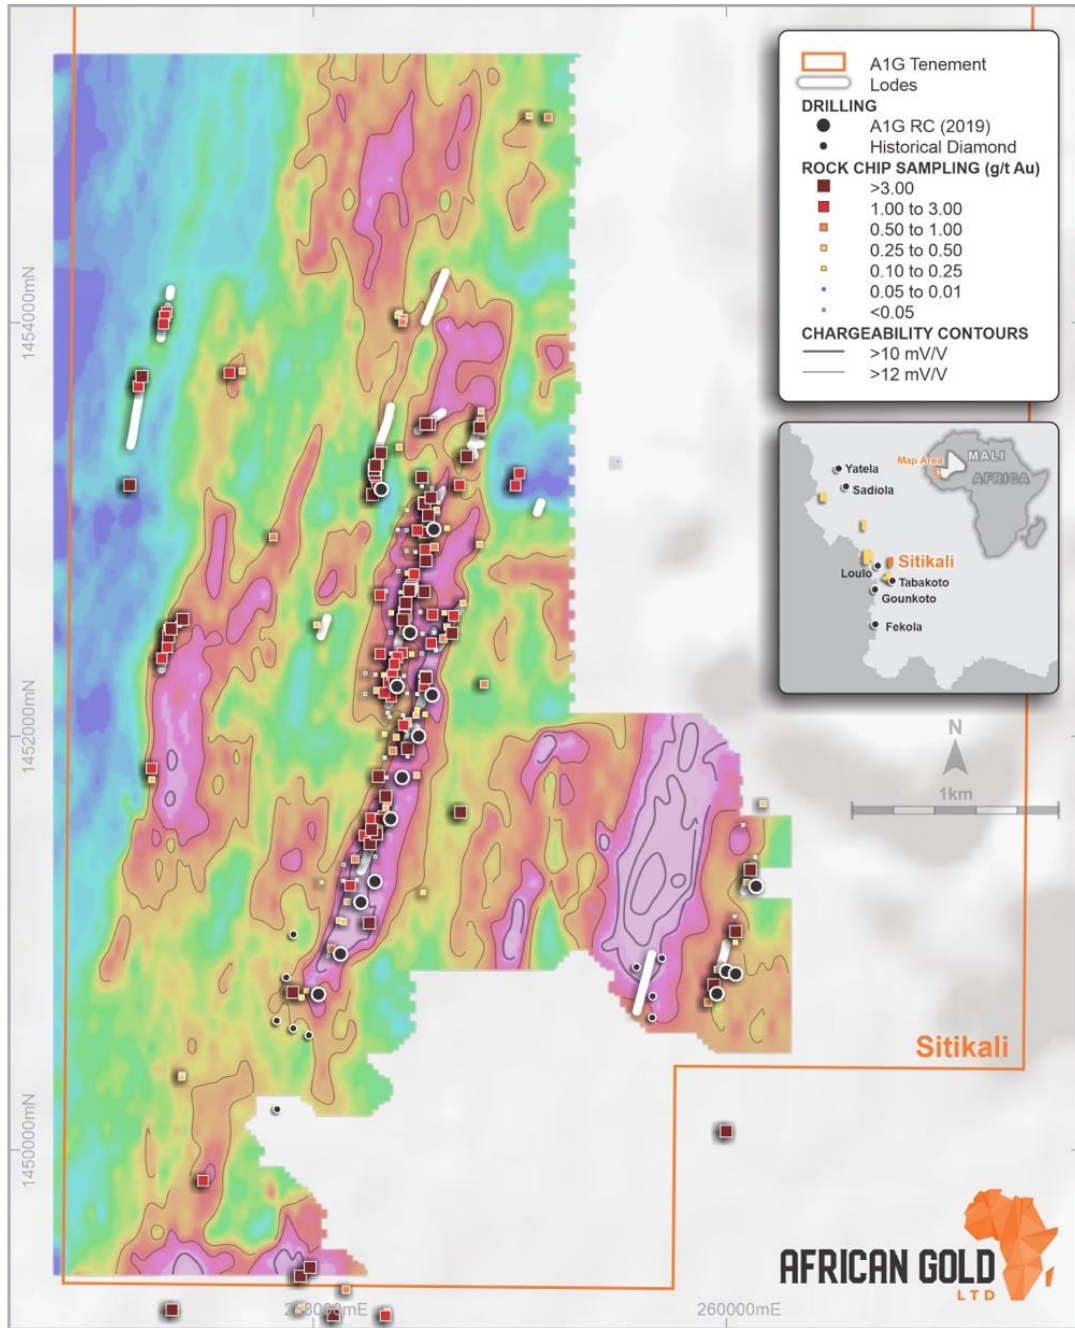

Figure 8: Gridded chargeability image with contoured values ≥ 10 mV/V. Note the excellent correlation between chargeability anomalism and the mapped mineralised gold lodes actively exploited by artisanal gold miners. The chargeability highs are interpreted to be produced by the gold-bearing sulphide minerals. Drill collars and rock chip values are also shown.

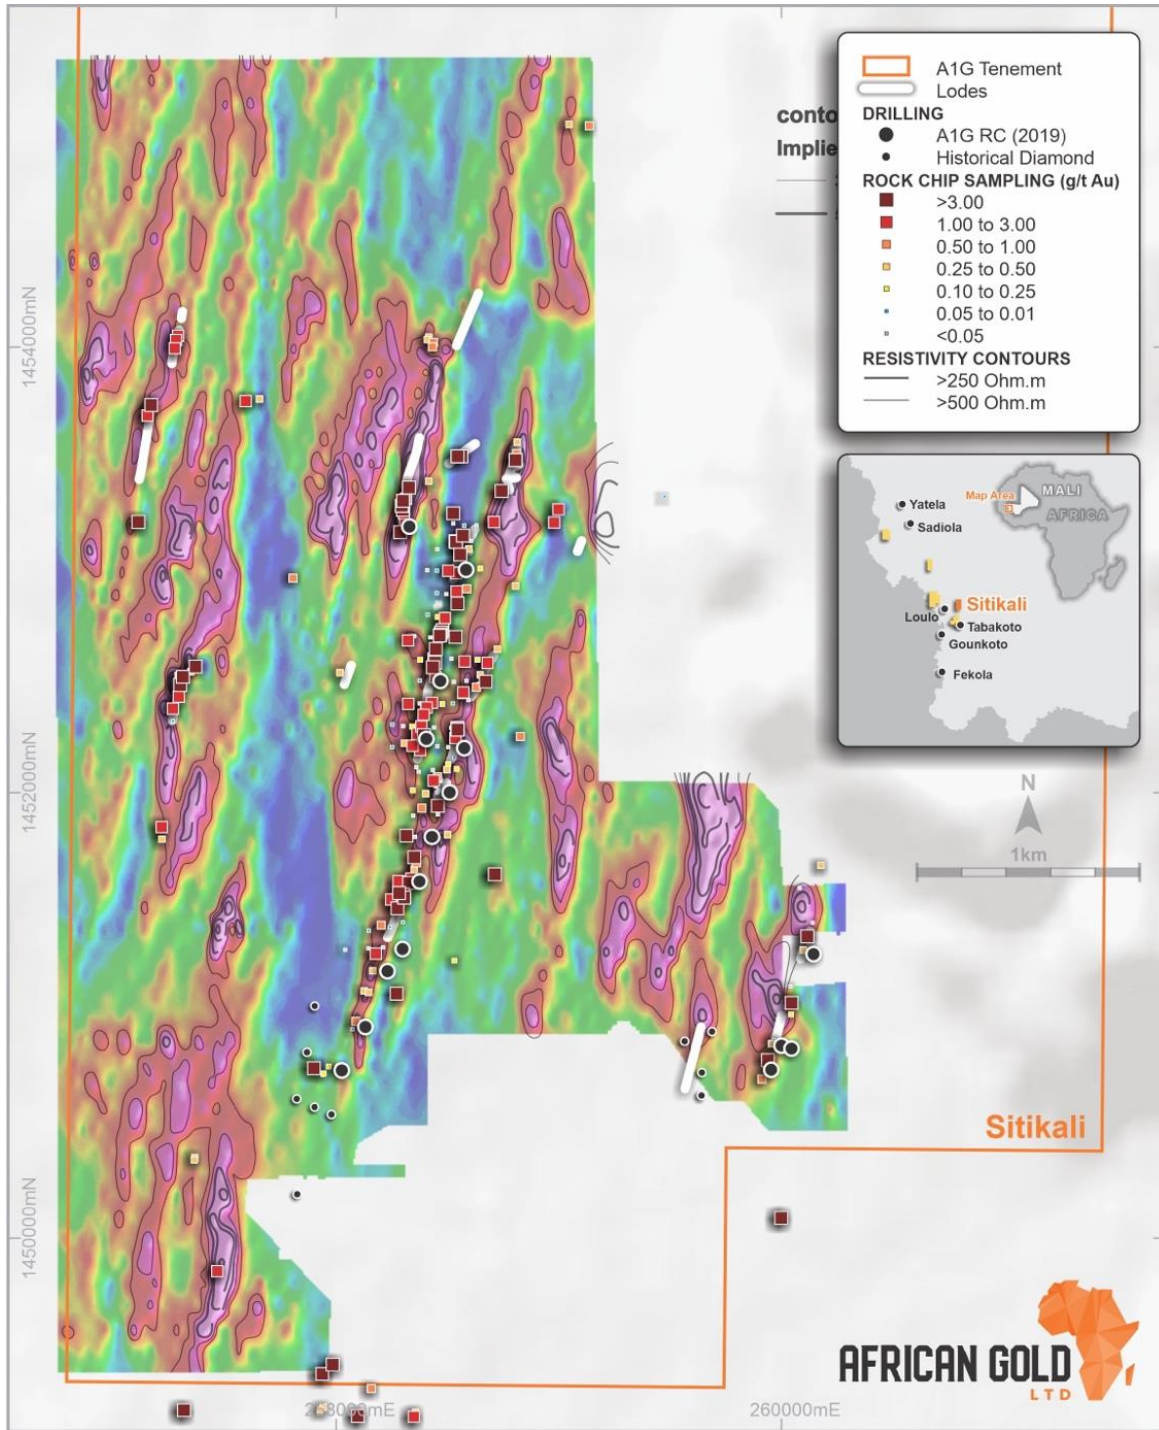

Figure 9: Gridded resistivity image with contoured values ≥ 250 Ohm.m. Note the excellent correlation between resistivity anomalism and the mapped mineralised gold lodes actively exploited by artisanal gold miners. The resistivity highs are interpreted to represent the quartz-feldspar porphyry rock unit, which is preferentially mineralised at Sitikali. Intense quartz veining and silicification which occurs during gold mineralisation will also yield strong resistivity anomalism. Drill collars and rock chip values are also shown.

The high grade and wide drill intercepts from the previous drilling program and positive results highlight the potential of the Sitikali Project which is located in the prolific and highly prospective for gold Birimian Kédougou- Kéniéba Inlier (KKI) geological zone.

Agboville Project, Cote d'Ivoire

On 25 January 2023, African Gold announced the discovery of large outcropping pegmatite intrusions, together with coincident lithium, caesium, tantalum (LCT) and rubidium anomalism in stream sediment samples on the Agboville Project, located in southern Cote d'Ivoire.

The discovery was made as part of detailed mapping and sampling campaign across the Project, focusing on the identified contact zones between the greenstone belt and granite contacts occurring on the Project. Results received from the 2022 stream sediment sampling campaign on the Project confirmed coincident lithium, cesium, tantalum (LCT) anomalies on the Project.

The Company identified two high priority catchment zones with anomalous LCT values of 72km² and 81km² each.

Figures 10, 11 & 12: Various outcropping pegmatites and spodumene on the Agboville Project

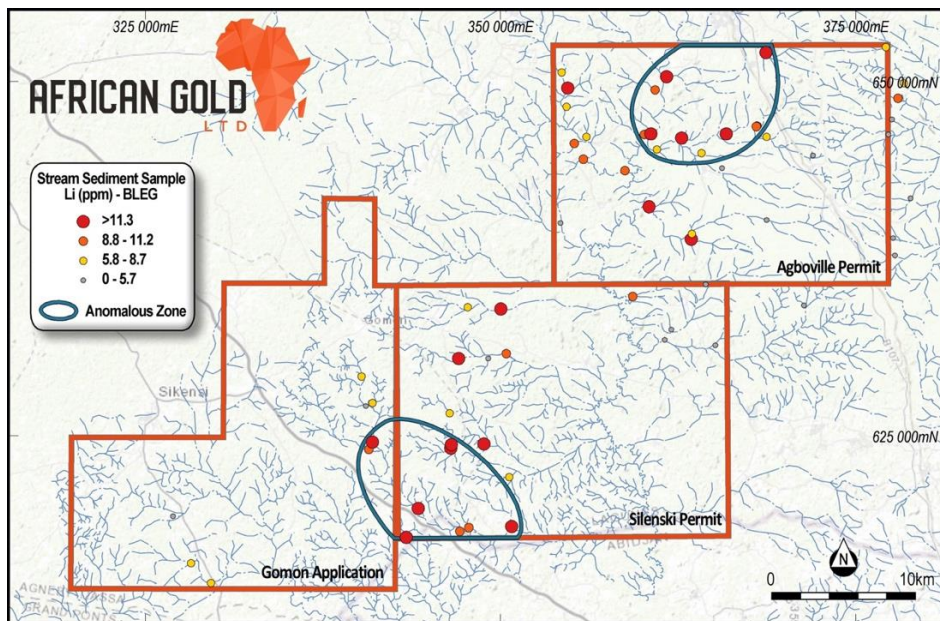

Figure 13: Stream sediment sampling Lithium results on the Agboville Project highlighting anomalous lithium zones

CORPORATE ACTIVITIES

Appointment of Exploration Manager

On 12 July 2023 the Company announced the appointment of Dr Richard Tomlinson, Ph.D. as Exploration Manager of African Gold.

Dr Tomlinson has lived in Abidjan for eight years and worked in senior geological exploration roles across West Africa since 2010. In the past seven years he has worked in senior geological exploration roles in Mali, Sudan, Gabon, Guinea and Cote d'Ivoire.

Placement of Entitlement Offer Shortfall

In October 2022, the Company announced a non-renounceable pro-rata offer of ordinary fully paid Shares at an issue price of \$0.05 each on the basis of 2 new Shares for every 5 Shares held on the Record Date (**Entitlement Offer**) and any shortfall under the Entitlement Offer (**Shortfall Offer**) (together, **the Offers**).

The shortfall under the Entitlement Offer was successfully placed and settlement of 13,696,763 new fully paid ordinary shares to raise an additional \$0.68 million (before costs) occurred during February 2023.

COMPETENT PERSON'S STATEMENT

The information in this financial report that relates to historical exploration results were initially reported by the Company in accordance with Listing Rule 5.7 on 25 January 2023, 12 July 2023, 7 September 2023, 17 October 2023 and 31 January 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

FORWARD LOOKING STATEMENT

This report may contain certain forward-looking statements and projections regarding estimated, resources and reserves; planned production and operating costs profiles; planned capital requirements; and planned strategies and corporate objectives. Such forward looking statements/projections are estimates for discussion purposes only and should not be relied upon. They are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors many of which are beyond the control of African Gold Ltd. The forward-looking statements/projections are inherently uncertain and may, therefore, differ materially from results ultimately achieved.

African Gold Ltd does not make any representations and provides no warranties concerning the accuracy of the projections and disclaims any obligation to update or revise any forward looking statements/projects based on new information, future events or otherwise except to the extent required by applicable laws. While the information contained in this report has been prepared in good faith, neither African Gold or any of its directors, officers, agents, employees or advisors give any representation or warranty, express or implied, as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. Accordingly, to the maximum extent permitted by law, none of African Gold Ltd, its directors, employees or agents, advisers, nor any other person accepts any liability whether direct or indirect, express or limited, contractual, tortious, statutory or otherwise, in respect of, the accuracy or completeness of the information or for any of the opinions contained in this presentation or for any errors, omissions or misstatements or for any loss, howsoever arising, from the use of this presentation.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no changes in the state of affairs of the Group during the year ended 31 December 2023, other than those outlined in the Review of Operations and mentioned below:

- Richard Tomlinson was appointed Exploration Manager of the Company on 1 May 2023;
- The Company issued 13,696,763 shortfall shares arising from the Company's 2 for 5 pro rata non-renounceable entitlement offer to raise approximately \$0.68 million (before costs).

REVIEW OF FINANCIAL PERFORMANCE

Operating results

The loss of the Company for the year ended 31 December 2023 after providing for income tax amounted to \$1,809,055 (2022: \$2,008,009).

Review of financial position

The net assets are \$10,304,334 as at 31 December 2023 (2022: \$11,077,905). Cash and cash equivalents at balance date amounted to \$85,159 (2022: \$1,444,986).

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There have not been any events that have arisen between 31 December 2023 and the date of this report or any other item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to materially affect the operations of the Company, the results of those operations or the state of affairs of the Company, in subsequent financial years, other than:

- Simon Bolster resigned as Non-Executive Director on 15 February 2024.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company is committed to realising value from the exploration assets acquired.

Running in parallel with the proposed evaluation and exploration of the tenements the Company's ongoing strategy will also include the identification and acquisition of projects that the Board believes will provide fundamental value to shareholders.

CORPORATE GOVERNANCE

The directors of African Gold believe that effective corporate governance improves company performance, enhances corporate social responsibility and benefits all stakeholders. Changes and improvements are made in a substance over form manner, which appropriately reflects the changing circumstances of the company as it grows and evolves. Accordingly, the Board has established a number of practices and policies to ensure that these intentions are met and that all shareholders are fully informed about the affairs of the Company.

The Company reviews all of its corporate governance practices and policies on an annual basis to ensure they are appropriate for the Company's current stage of development.

The Company's Corporate Governance Statement is available on its website at www.african-gold.com.

The Company has a corporate governance section on the website which includes details on the Company's governance arrangements and copies of relevant policies and charters.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Company is aware of its environmental obligations with regards to its exploration activities and ensures that it complies with all regulations when carrying out any exploration work. The directors have considered the National Greenhouse and Energy Reporting Act 2007 ('the NGER Act') and at the current stage of development and based on the locations of the Company's operations, the directors have determined that the NGER Act will have no effect on the Entity for the current or subsequent financial year.

The directors will reassess this position as and when the need arises. No environmental breaches have occurred or have been notified by any Government agencies during the year ended 31 December 2023.

SHARE OPTIONS AND PERFORMANCE RIGHTS

The Company granted no options (2022: 4,000,000) and no performance rights (2022: nil) during the year ended 31 December 2023. 4,000,000 options were deemed to be granted on 15 August 2022 although they were not formally issued until shareholder approval was obtained at the general meeting held on 3 February 2023.

Shares issued during or since the end of the year as a result of exercise

During or since the end of the reporting period, the Company did not issue any ordinary shares as a result of the exercise of options.

Shares under option

Unissued ordinary shares of the Company under option at the date of this report are:

Grant date	Expiry date	Exercise price	Number of options
31/08/21	31/08/24	\$0.30	6,000,000
31/08/21	31/08/24	\$0.30	2,000,000
15/08/22	03/02/26	\$0.15	2,000,000 ¹
15/08/22	03/02/26	\$0.20	2,000,000 ¹

¹ Options deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued until shareholder approval obtained at the general meeting held on 3 February 2023.

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the Company or of any other body corporate.

Indemnification and insurance of directors and officers

In accordance with the constitution, except as may be prohibited by the Corporations Act 2001, every officer of the Company shall be indemnified out of the property of the Company against any liability incurred by him in his capacity as officer or agent of the Company or any related corporation in respect of any act or omission whatsoever and howsoever occurring or in defending any proceedings, whether civil or criminal. The terms of the policy prevent disclosure of the amount of the premium payable and the level of indemnification under the insurance contract.

Directors' meetings

During the financial year, the following meetings of directors were held.

DIRECTOR'S NAMES	NUMBER ATTENDED	NUMBER ELIGIBLE TO ATTEND
Evan Cranston	3	3
Phillip Gallagher	3	3
Tolga Kumova	2	3
Mathew O'Hara	3	3
Peter Williams	-	3
Simon Bolster (resigned 15/2/2024)	3	3

The Board has decided there are no efficiencies to be gained from forming separate committees and hence the current board members carry out the roles that would otherwise be undertaken by a separate committee with each director excluding themselves from matters in which they have a personal interest.

Proceedings on behalf of the Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of these proceedings.

The Company was not a party to any such proceedings during the year.

Non-audit services

The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors ensure that:

- Non-audit services are reviewed and approved by the directors to ensure that the provision of such services does not adversely affect the integrity and objectivity of the auditor; and
- Audit services do not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

The total remuneration for audit and non-audit services provided during the current financial year is set out in the notes to the consolidated financial statements. No non-audit services were provided by the auditor during the year (2022: nil).

REMUNERATION REPORT (AUDITED)

INTRODUCTION

The Directors of African Gold Ltd present the Remuneration Report (the Report) for the Company and its controlled entities for the year ended 31 December 2023. This Report forms part of the Directors' Report and has been audited in accordance with section 300A of the *Corporations Act 2001*. The Report details the remuneration arrangements for African Gold Ltd's key management personnel (KMP):

- Non-executive directors (NEDs)
- Executive directors and senior executives (collectively the executives).

KMP are those persons who, directly or indirectly, have authority and responsibility for planning, directing and controlling the major activities of the Company.

The table below outlines the KMP of the Company during the financial year ended 31 December 2023. Unless otherwise indicated, the individuals were KMP for the entire financial year.

NAME	POSITION	
Evan Cranston	Non-Executive Chairman	Appointed on 22 March 2018
Phillip Gallagher	Managing Director	Appointed on 15 August 2022
Tolga Kumova	Non-Executive Director	Appointed on 1 February 2018
Mathew O'Hara	Non-Executive Director	Appointed on 1 April 2020
Peter Williams	Non-Executive Director	Appointed on 23 February 2021
Simon Bolster	Non-Executive Director	Appointed on 23 February 2021; Resigned 15 February 2024
Oonagh Malone	Company Secretary	Appointed on 1 April 2020

Remuneration Governance

The Board has decided there are no efficiencies to be gained from forming a separate remuneration committee and hence the current board members carry out the roles that would otherwise be undertaken by a remuneration committee with each director excluding themselves from matters in which they have a personal interest.

The Board considers and recommends compensation arrangements for the executive chairman, directors and senior executives; remuneration policies and practices; retirement and termination policies and practices; Company share schemes and other incentive schemes; Company superannuation arrangements and remuneration arrangements for members of the Board.

The Board obtains professional advice where necessary to ensure that the Company attracts and retains talented and motivated directors, executives and employees who can enhance Company performance through their contributions and leadership.

Remuneration Framework

The Board recognises that the Company's performance and ultimate success in project delivery depend very much on its ability to attract and retain highly skilled, qualified and motivated people in an increasingly competitive remuneration market. At the same time, remuneration practices must be transparent to shareholders and be fair and competitive, taking into account the nature and size of the organisation and its current stage of development.

The approach to remuneration has been structured with the following objectives:

- To attract and retain a highly skilled executive team at the current stage in the Company's project development and who are motivated and rewarded for successfully delivering the short and long-term objectives of the Company, including successful project delivery;
- To link remuneration with performance, based on long-term objectives and shareholder return, as well as critical short-term objectives which are aligned with the Company's business strategy;

- To set clear goals and reward performance for successful project development in a way which is sustainable, including in respect of health and safety, environment and community-based objectives;
- To be fair and competitive against the market;
- To preserve cash where necessary for exploration, by having the flexibility to attract, reward or remunerate executives with an appropriate mix of equity-based incentives;
- To reward individual performance and Company performance thus promoting a balance of individual performance and teamwork across the executive management team and the organisation; and
- To have flexibility in the mix of remuneration, including offering a balance of conservative long-term incentive instruments such as options to ensure executives are rewarded for their efforts, but also share in the upside of the Company's growth and are not adversely affected by tax consequences.

The remuneration framework provides a mix of fixed and variable "at risk" remuneration and a blend of short and long-term incentives.

The remuneration for executives has three components:

- Fixed remuneration, inclusive of superannuation and allowances;
- Short Term Incentives ("STI") under a performance-based cash bonus incentive plan; and
- Long Term Incentives ("LTI") through participation in the Company's shareholder approved equity incentive plans.

These three components comprise each executive's total annual remuneration.

EXECUTIVE DIRECTOR REMUNERATION

Fixed Remuneration

All executives receive a fixed base cash salary and other associated benefits. All executives also receive a superannuation guarantee contribution required by Australian legislation which was 11% at 31 December 2023. No executives receive any other retirement benefits.

Fixed remuneration of executives will be set by the Board each year and is based on market relativity and individual performance. In setting fixed remuneration for executives, individual performance, skills, expertise and experience are also taken into account to determine where the executive's remuneration should sit within the market range. Where appropriate, external remuneration consultants will be engaged to assist the Board to ensure that fixed remuneration is set to be consistent with market practices for similar roles.

Fixed remuneration for executives will be reviewed annually to ensure each executive's remuneration remains fair and competitive. However, there is no guarantee that fixed remuneration will be increased in any service contracts for executives.

Short Term Incentives

The executive directors and other executives are eligible to earn short-term cash bonuses upon achievement of significant performance-based outcomes aligned with the Company's strategic objectives at that time. These performance-based outcomes are considered to be an appropriate link between executive remuneration and the potential for the creation of shareholder wealth. No short-term incentives were paid during the year.

Long Term Incentives

The objective of the LTI plan is to reward executives and directors in a manner which aligns this element of remuneration with the creation of shareholder wealth. As such LTIs are made to executives and directors who are able to influence the generation of shareholder wealth and thus have an impact on the Company's performance.

The Company prohibits directors or executives from entering into arrangements to protect the value of any African Gold shares, options or performance rights that the director or executive has become entitled to as part of his/her remuneration package. This includes entering into contracts to hedge their exposure.

The following table sets out the number of share options granted to KMP during the current and previous years:

	Options		Performance Rights	
	2023	2022	2023	2022
Evan Cranston	-	-	-	-
Phillip Gallagher	-	4,000,000 ¹	-	-
Tolga Kumova	-	-	-	-
Mathew O'Hara	-	-	-	-
Peter Williams	-	-	-	-
Simon Bolster ²	-	-	-	-
Oonagh Malone	-	-	-	-

¹ Options deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued until shareholder approval obtained at the general meeting held on 3 February 2023.

² Resigned 15 February 2024.

Non-Executive Remuneration

Non-executive directors' fees are paid within an aggregate limit which is approved by the shareholders from time to time. Retirement payments, if any, are determined in accordance with the rules set out in the Company's Constitution and the Corporations Act at the time of the director's retirement or termination. Non-executive directors' remuneration may include an incentive portion consisting of bonuses and/or options, as considered appropriate by the Board, which is subject to shareholder approval in accordance with the ASX Listing Rules.

The aggregate remuneration, and the manner in which it is apportioned amongst non-executive directors, is reviewed annually. The Board considers the amount of director fees being paid by comparable companies with similar responsibilities and levels of experience of the non-executive directors when undertaking the annual review process.

The current maximum amount of non-executive directors' fees payable is fixed at \$300,000 in total, for each 12-month period commencing 1 January each year, until varied by ordinary resolution of shareholders.

Use of remuneration advisors

During the year ended 31 December 2023, the Board did not engage the services of remuneration consultants.

Voting and comments made at the company's last Annual General Meeting

African Gold received 100% of the votes in favour of its Remuneration Report for the year ended 31 December 2022. The Company received no specific feedback on its Remuneration Report at the Annual General Meeting.

Consequences of Performance on Shareholder Wealth

In considering the Company's performance and benefits for shareholder wealth, the Board has regard to the following indices in respect of the current and previous financial years:

	2023	2022	2021	2020	2019
	\$	\$	\$	\$	\$
Revenue	6,768	2,072	194	86,754	39,812
Net loss	1,809,055	2,008,009	2,532,015	715,139	983,494
Share price at end of year	\$0.027	\$0.083	\$0.185	\$0.23	\$0.17
Basic loss per share	1.08 cents	1.64 cents	2.69 cents	1.20 cents	1.90 cents
Diluted loss per share	1.08 cents	1.64 cents	2.69 cents	1.20 cents	1.90 cents

The Company commenced trading on the ASX on 14 February 2019 with an initial public offering price of \$0.20 per share.

Agreement with Managing Director

The Company has entered into an executive services agreement (MD Agreement) with Mr Phillip Gallagher pursuant to which he is engaged as a full-time employee of the Company and serves the Company as Managing Director responsible for planning, co-ordinating and implementing the Company's exploration programs in Africa with planning input from other senior exploration and executive staff, and subject to the overall control and direction of the Board.

The remuneration payable to Mr Gallagher for the services is \$220,000 per annum exclusive of statutory superannuation.

The MD Agreement commenced on 15 August 2022 and is for an indefinite term, continuing until terminated in accordance with the MD Agreement. Mr Gallagher has a notice period of 3 months.

Company secretarial agreement

The Company has an agreement with Malone Corporate Pty Ltd for the provision of company secretarial services to the Company. The Malone Corporate Agreement commenced on 1 April 2020 and will continue until terminated by mutual agreement or either party on 90 days' written notice. The Company will pay Malone Corporate fees of \$4,000 per month (plus GST) which commenced on 1 April 2020. The Malone Corporate Agreement contains additional provisions considered standard for agreements of this nature.

Number of Options	2,000,000	2,000,000
Valuation per Option	\$0.0447	\$0.0391
Valuation	\$89,404	\$78,246
Total consideration paid by option holders	-	-
Valuation less consideration paid	\$89,404	\$78,246
Less: Fair value brought to account 31/12/22	\$83,225	\$73,961
Fair value adjustment brought to account 31/12/23	\$6,179	\$4,285

The Director Options were issued to Phillip Gallagher for nil consideration. The Director Options were deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued, and therefore did not vest, until shareholder approval was obtained at the general meeting held on 3 February 2023. There were no performance conditions for these options as the Company is in an important stage of development with significant opportunities and challenges in both the near and long-term, and this option issue seeks to align the efforts of the Director in seeking to achieve growth of the share price and in the creation of shareholder value. In addition, the Board also believes that incentivising with Director Options is a prudent means of conserving the Company's available cash reserves. The Board believes it is important to offer these Directors Options to continue to attract and maintain highly experienced and qualified Directors in a competitive market.

Director	Option series	Grant date	No. of options	Value per option	Total fair value of options issued	No. of options vested
Phillip Gallagher	Director Options #1	15/08/2022	2,000,000	\$0.0447	\$89,404	-
Phillip Gallagher	Director Options #1	15/08/2022	2,000,000	\$0.0391	\$78,246	-
Total			4,000,000		\$167,650	-

There were no other transactions and balances with key management personnel of the Company, including their personally related parties, as at 31 December 2023.

END OF REMUNERATION REPORT

Auditor's independence declaration

The lead auditor's independence declaration for the year ended to 31 December 2023 has been received and is attached to this Directors' Report.

Signed in accordance with a resolution of the Board of Directors.

Mr Phillip Gallagher
Managing Director
Perth, WA - dated 28 March 2024

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of African Gold Ltd for the year ended 31 December 2023, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

Principal activities include exploration and evaluation of mineral resources and pursuing various investment opportunities in the resources sector designed to add shareholder value by acquiring, exploring, evaluating and exploiting mineral resource project opportunities in Africa.

African Gold is incorporated and domiciled in Australia whose shares are publicly traded and listed on the 14 February 2019 on Australian Securities Exchange (ASX: A1G). The address of its registered office and its principal place of business Suite 23, 513 Hay Street, Subiaco WA 6008.

The financial statements were approved and authorised for issue by the Board of Directors on 28 March 2024.

2 Basis of presentation and statement of compliance

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. Compliance with Australian Accounting Standards results in full compliance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Board (IASB).

The financial report has been prepared on a historical cost basis.

The financial report is presented in Australian Dollars, being the functional currency of the Company.

3 Going Concern

At 31 December 2023, the Group had cash and cash equivalents of \$85,159 (2022: \$1,444,986). The Group incurred a net loss of \$1,809,055 (2022: \$2,008,009) and had cash outflows from operating and investing activities of \$2,166,952 (2022: \$3,802,759) during the year ended 31 December 2023.

The financial statements have been prepared on the basis of going concern which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The ability of the Group to continue as a going concern is dependent upon the future successful raising of the necessary funding through equity and/or debt and the successful exploitation of the Group's tenements. In the event that further funding is not available, the Group may not be able to realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

These conditions indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial report does not include any adjustments relating to the recoverability or classification of recorded asset amounts, nor the amounts or classification of liabilities that might be necessary should the Company not be able to continue as a going concern.

Since 31 December 2023, the Directors of the Company have loaned additional funds totalling \$255,000 to assist the Company in meeting its obligations. The Directors have confirmed they will not request payment of outstanding fees or loans until such time as the Company has sufficient funds to pay the amounts due to them without affecting normal operations. The Directors have also confirmed that, should the need arise, they will continue to support the Company to ensure it meets its financial obligations.

The Directors are, however, confident that further funding will be obtained to meet the Group's objectives. In addition, the Directors have considered the minimum expenditure requirements necessary in order to maintain tenements in good standing and to meet the committed expenditures for the 12 month period from the date of this report and consider the going concern basis of preparation as appropriate.

Balance at 31 December 2022	8,485,769	(66,643)	8,419,126
Balance at 1 January 2023	8,485,769	(66,643)	8,419,126
Foreign currency translation differences	-	189,950	189,950
Total comprehensive loss	-	189,950	189,950
Transactions with owners in their capacity as owners:			
Share-based payment transactions	10,464	-	10,464
Balance at 31 December 2023	8,496,233	123,307	8,619,540

Share-based payments reserve

The share-based payment reserve arises on the recognition of share-based payments through the issue or proposed issue of options or performance shares. These share-based payments may be expensed as a share-based payment expense, recognised as a capital raising cost, or capitalised.

Foreign currency translation reserve

Exchange differences relating to the translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (i.e. Australian dollars) are recognised directly in other comprehensive income and accumulated in the foreign currency translation reserve. Exchange differences previously accumulated in the foreign currency translation reserve are reclassified to profit or loss on the full disposal of the foreign operation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

13.1 Share-based payments

Year ended 31 December 2023:

During the year ended 31 December 2023, the Company made the following share-based payments:

- The 4,000,000 unlisted options granted to Phillip Gallagher, Managing Director, on 15 August 2022 were issued on 3 February 2023 following shareholder approval. As the options had been deemed to be granted on 15 August 2022 at the commencement of Mr Gallagher's employment, they had been brought to account at 31 December 2022 at a fair value of \$157,186. The valuation of the options was updated based on the issue date of 3 February 2023 resulting in an updated fair value of \$167,650. Accordingly, an additional \$10,464 has been recognised as a share-based payments for the year ended 31 December 2023 (refer Note 13.2).

Year ended 31 December 2022:

During the year ended 31 December 2022, the Company made the following share-based payments:

- Granted 4,000,000 unlisted options to Phillip Gallagher, Managing Director, with a total fair value of \$157,186 (refer Note 13.2).

Set out below is a summary of unlisted options and performance rights outstanding at 31 December 2023:

	Vested	Unvested	Grant Date	Expiry date	Exercise price \$	Fair value per unit \$	Total fair value \$
Unlisted options	5,000,000	-	22/02/21	22/02/24	0.20	0.1415 ⁽¹⁾	707,500
Unlisted options	6,000,000	-	31/08/21	31/08/24	0.30	0.1187 ⁽¹⁾	712,200
Unlisted options	2,000,000	-	31/08/21	31/08/24	0.30	0.0981 ⁽¹⁾	196,200
Unlisted options	2,000,000 ⁽³⁾	-	15/08/22	03/02/26	0.15	0.0447 ⁽¹⁾	89,404
Unlisted options	2,000,000 ⁽³⁾	-	15/08/22	03/02/26	0.20	0.0391 ⁽¹⁾	78,246

Set out below is a summary of unlisted options and performance rights outstanding at 31 December 2022:

	Vested	Unvested	Grant Date	Expiry date	Exercise price \$	Fair value per unit \$	Total fair value \$
Unlisted options	34,150,000	-	20/03/18	17/04/23	0.20	0.1503 ⁽¹⁾	5,132,745
Unlisted options	5,000,000	-	22/02/21	22/02/24	0.20	0.1415 ⁽¹⁾	707,500
Unlisted options	6,000,000	-	31/08/21	31/08/24	0.30	0.1187 ⁽¹⁾	712,200
Unlisted options	2,000,000	-	31/08/21	31/08/24	0.30	0.0981 ⁽¹⁾	196,200
Unlisted options	-	2,000,000 ⁽³⁾	15/08/22	03/02/26	0.15	0.0447 ⁽¹⁾	89,404
Unlisted options	-	2,000,000 ⁽³⁾	15/08/22	03/02/26	0.20	0.0391 ⁽¹⁾	78,246

- Valuation was determined using a Black Sholes pricing model.
- The performance rights have non-market vesting conditions only. Management estimates the number of units that are expected to vest, and the total fair value of the issuance is recognised over the vesting period (which is the period to expiry).
- Options deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued until shareholder approval obtained at the general meeting held on 3 February 2023.

For personal use only

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

13.2 Share options and performance rights issued

Share options

The Company has determined the fair value of its options awarded using the Black Scholes pricing model.

There were no options granted during the year ended 31 December 2023, however, the following options were issued on 3 February 2023 but deemed to be granted on 15 August 2022 to Phillip Gallagher, Managing Director, alongside the key inputs utilised in the pricing model, including the Company's risk-free borrowing rate and volatility of the Company's shares.

	Director Options #1	Director Options #2
Underlying value of the security	\$0.09	\$0.09
Exercise price	\$0.15	\$0.20
Deemed grant date	15/08/2022	15/08/2022
Valuation date	03/02/2023	03/02/2023
Issue date	03/02/2023	03/02/2023
Expiry date	03/02/2026	03/02/2026
Life of Options in years	3.0	3.0
Volatility	94.16%	94.16%
Risk free rate	3.1%	3.1%
Number of Options	2,000,000	2,000,000
Valuation per Option	\$0.0447	\$0.0391
Valuation	\$89,404	\$78,246
Total consideration paid by option holders	-	-
Valuation less consideration paid	\$89,404	\$78,246
Less: Fair value brought to account 31/12/22	\$83,225	\$73,961
Fair value adjustment brought to account 31/12/23	\$6,179	\$4,285

The Director Options were issued to the following Director for nil consideration:

Director	Option series	Grant date	No. of options	Value per option	Total fair value of options issued	No. of options vested
Phillip Gallagher	Director Options #1	15/08/2022	2,000,000	\$0.0447	\$89,404	2,000,000
Phillip Gallagher	Director Options #1	15/08/2022	2,000,000	\$0.0391	\$78,246	2,000,000
Total			4,000,000		\$167,650	4,000,000
Less: Fair value brought to account 31/12/22					\$157,186	
Fair value adjustment brought to account 31/12/23					\$10,464	

The Director Options were deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued, and therefore did not vest, until shareholder approval obtained at the general meeting held on 3 February 2023.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

13.2 Share options and performance rights issued (continued)

Movement in options during the year:

Expiry date	Exercise price	On issue at 1 January 2023	Granted	Exercised	Lapsed/ forfeited	On issue at 31 December 2023	Vested and exercisable at 31 December 2023
17/04/2023	\$0.20	34,150,000	-	-	(34,150,000)	-	-
22/02/2024	\$0.20	5,000,000	-	-	-	5,000,000	5,000,000
31/08/2024	\$0.30	8,000,000	-	-	-	8,000,000	8,000,000
03/02/2026	\$0.15	2,000,000 ¹	-	-	-	2,000,000	2,000,000
03/02/2026	\$0.20	2,000,000 ¹	-	-	-	2,000,000	2,000,000
Total		51,150,000	-	-	(34,150,000)	17,000,000	17,000,000

¹ Options deemed to be granted on 15 August 2022 at commencement of Mr Gallagher's employment although not formally issued until shareholder approval obtained at the general meeting held on 3 February 2023.

The weighted average remaining contractual life of the options on issue is 0.85 years (2022: 0.81 years).

The range of the exercise prices of the options on issue is \$0.15 - \$0.30 (2022: \$0.15 - \$0.30). The weighted average exercise price of options on issue is \$0.2412 (2022: \$0.2137).

The fair value of the options granted as share-based payments during the year was nil per option (2022: \$0.0419 per option as adjusted for the revaluation based on the issue date of 3 February 2024 referred to in Note 13.2).

Performance rights

There were no performance rights issued during the year ended 31 December 2023 (2022: nil).

There were no performance rights in existence at any time during the year ended 31 December 2023. The movement in performance rights during the year ended 31 December 2022 was as follows:

Grant date	Expiry date	On issue at 1 January 2022	Granted	Lapsed/ forfeited	Converted	On issue at 31 December 2022
1/11/2018	14/02/2022	1,000,000	-	(1,000,000)	-	-
Total		1,000,000	-	(1,000,000)	-	-

Eureka Gold SARL	Mali	100	100
Catalyst Resources SARL	Mali	100	100
Millerite Tanzania Limited	Tanzania	100	100

16 Risk Management Framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's principal financial instruments comprise cash. The Company has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations. It is, and has been throughout the period under review, the Company's policy that no trading in financial instruments shall be undertaken.

16.1 Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables.

The Company holds the majority of its cash and cash equivalents with banks and financial institution counterparties with acceptable credit ratings. As part of managing its credit risk on cash and cash equivalents, the majority of funds are held in Australian banks, which have a higher credit rating amongst the banks and financial institution counterparties.

The carrying amount of financial assets represents the maximum credit exposure. The maximum credit exposure to credit risk at the end of the reporting period was as follows:

Financial assets	Note	Carrying amount	Carrying amount
		2023	2022
		\$	\$
Cash and cash equivalents	4	85,159	1,444,986
Trade and other receivables	6	21,078	42,690

None of the Company's trade and other receivables are past due as at 31 December 2023 (2022: Nil).

For personal use only

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

16 Risk Management Framework (continued)

16.2 Liquidity Risk

Liquidity risk arises from the possibility that the Company might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

The Company manages liquidity risk by monitoring forecast cash flows, only investing surplus cash with major financial institutions; and comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The Board meets on a regular basis to analyse financial risk exposure and evaluate treasury management strategies in the context of the most recent economic conditions and forecasts. The Board's overall risk management strategy seeks to assist the Company in managing its cash flows. Financial liabilities are expected to be settled within 12 months.

2023	Note	Carrying amount \$	Contractual cash flows \$	6 months or less \$
Trade payables	9	538,143	538,143	538,143
Loans and borrowings ¹	11	150,000	-	-
2022				
Trade payables	9	134,411	134,411	134,411

¹ Refer to Note 3 for details of directors' representations in respect of repayment of the director loans.

Risks associated with market risk, credit risk and liquidity risk are not considered material with respect to the above items.

16.3 Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(a) Currency Risk

The Group is exposed to currency risk on purchases that are denominated in a currency other than the respective functional currencies of the Group entities, being AUD and CFA. The currencies in which these transactions are primarily denominated are AUD, CFA, EUR and USD.

The Group's investments in its Mali and Ivory Coast subsidiaries are denominated in CFA and are not hedged as those currency positions are considered to be long term in nature.

There is no material currency risk at balance date.

(b) Interest Rate Risk

The Company's exposure to market risk for changes in interest rates relates primarily to the Company's cash. Cash includes funds held in cheque accounts during the year, which earned variable interest at rates ranging between 0.95% and 1.35% (2022: 0.01% and 0.95%) depending on the bank account type and account balances these amounts are not considered material.

Loans or borrowings of the Company consist of interest-free loans from directors of \$150,000 (2022: nil) (refer Note 11).

16.4 Fair Value

The carrying amount of financial assets and financial liabilities not valued at fair value on a recurring basis approximates their fair value at balance date.

For personal use only

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

17 Loss per share

	2023 \$	2022 \$
Net loss attributable to ordinary equity holders of the Company	(1,809,055)	(2,008,009)
Weighted average number of ordinary shares outstanding during the year used in calculation of basic and diluted loss per share	166,968,718	122,248,926
Loss per share (cents per share)	(1.08)	(1.64)

Both the basic and diluted loss per share is calculated using the loss attributable to shareholders of the Company as the numerator (i.e. no adjustments to losses were necessary in 2023).

17,000,000 (2022: 51,150,000) potential ordinary shares (options & rights) have not been included in determining the diluted loss per share as they are not considered to be dilutive due to the loss position of the Company for year ended 31 December 2023.

18 Auditor remuneration

	2023 \$	2022 \$
Audit and review of financial statements		
Auditors – HLB Mann Judd (WA Partnership)	45,302	40,525
Auditor - Grant Thornton Australia (resigned February 2022)	-	6,464
Non-audit services		
Taxation services - Grant Thornton Australia	-	4,500
Total auditor's remuneration	45,302	51,489

19 Contingent liabilities

Kouroufaba Gold Project

To exercise the Earn-in Option in relation to the Kouroufaba Gold Project, the Company must either:

- Subject to future Shareholder approvals, issue Shares with the value of \$200,000 to the Seller (or its nominee) on each 12 month anniversary of the Initial Payment Date, based on a deemed issue price per Share equal to the 30 Day VWAP prior to the Shareholder meeting (Annual Acquisition Shares). The maximum number of Annual Acquisition Share tranches that must be made under the Terms Sheet is five, however, the number may be lower if the Company satisfies the Expenditure Requirement prior to the end of the fifth anniversary of the Initial Payment; or
- Pay \$150,000 cash (on a pro-rata basis) in lieu of the issue of Annual Acquisition Shares.

The decision to issue the Annual Acquisition Shares or make the cash payment is contingent on the results from exploration activities to be undertaken on the project area. The Group made its first annual payment of \$150,000 (cash) on 22nd February 2022 and second annual payment of \$200,000 (shares) on 23rd February 2023. The third annual payment of \$200,000 (shares) was approved by shareholders on 20th February 2024 and the issue of the shares will occur in due course.

The Company has also agreed to pay a net smelter return royalty of up to 2% of the production from the Kouroufaba Project to the relevant royalty holder in respect of the relevant Tenement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

20 Income tax expense

The major components of tax expense and the reconciliation of the expected tax expense based on the domestic effective tax rate of African Gold Ltd at 30% (2022: 30%) and the reported tax expense in profit or loss are as follows:

	2023 \$	2022 \$
Accounting profit before tax	(1,809,055)	(2,008,009)
<i>Income Tax Expense to Accounting Profit</i>		
Domestic tax rate for African Gold Ltd	(542,717)	(602,403)
Difference of effective foreign income tax rates	19,372	(33,177)
Expenditure not allowed for income tax purposes		
Share-based payments	3,139	47,156
Non-deductible items including foreign expenditure	95,381	75,836
Capital raising expenditure	(35,162)	-
Deferred Tax Asset not brought to account	12,065	335
Deferred Tax Asset losses not brought to account	447,922	512,253
Income tax expense (benefit)	-	-
Deductible temporary differences, unused tax losses and unused tax credits for which no deferred tax assets have been recognised are attributable to the following:		
Unrecognised deferred tax asset losses - Australia	856,448	691,355
Unrecognised deferred tax asset losses – Foreign	699,778	450,260
Unrecognised deferred tax asset temporary differences	27,784	13,442
	1,584,010	1,155,057

The deferred tax benefit of tax losses not brought to account will only be obtained if:

- The Group derives future assessable income of a nature and an amount sufficient to enable the benefit from the tax losses to be realised;
- The Group continues to comply with the conditions for deductibility imposed by tax legislation; and
- No changes in tax legislation adversely affect the Group realising the benefit from the deduction of the losses.

The above foreign unrecognised deferred tax asset losses excludes potential tax losses in relation to capitalised exploration and evaluation expenditure which will only be confirmed on engagement with the relevant tax authorities, when the need arises.

21 Related parties

Names and positions of key management personnel in office at any time during the financial year:

Name	Position
Evan Cranston	Non-Executive Chairman
Phillip Gallagher	Managing Director
Tolga Kumova	Non-Executive Director
Mathew O'Hara	Non-Executive Director
Peter Williams	Non-Executive Director
Simon Bolster	Non-Executive Director (resigned 15 February 2024)
Oonagh Malone	Company Secretary

The following table provides a summary of the nature and amount of the elements of key management personnel remuneration for the year.

	2023 \$	2022 \$
Short term benefits	536,393	499,369
Long-term employee benefits (movement in long service leave entitlements)	1,458	(5,646)
Post-employment benefits	28,309	27,042
Share-based payments (non-cash)	10,464	157,186
Total	576,624	677,951

Transactions with related parties

The following transactions were undertaken with key management personnel during the year ended 31 December 2023.

Entity	Services provided	2023 \$	2022 \$
Konkera Corporate (related party of Evan Cranston)	Accounting, drafting and administrative services	121,409	122,909
Konkera Exploration (related party of Evan Cranston)	Geological services	-	5,127
Kingslane Pty Ltd (related party of Evan Cranston)	Serviced office lease	48,000	48,000
Evan Cranston	Unsecured loan to the Company (refer Note 11)	50,000	-
Portable PPB Pty Ltd (related party of Peter Williams and Simon Bolster)	Supply of detectORE equipment and consumables and reimbursement of freight charges	83,334	-
Peter Williams	Unsecured loan to the Company (refer Note 11)	50,000	-
Mathew O'Hara	Unsecured loan to the Company (refer Note 11)	50,000	-

¹ Refer Note 13.2

There were no other transactions and balances with key management personnel of the Company, including their personally related parties, as at 31 December 2023.

The serviced office agreement does not create a lease under *AASB 16 Leases* because it does not specify or effectively enable fixed office locations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

22 Abra Resources acquisition - contingent consideration shares

On 15th November 2019, African Gold completed the acquisition of Abra Resources Pty Ltd (Abra). The terms of the purchase were released on 5 September 2019. As at 31 December 2023, no contingent consideration shares had been issued and the remaining contingent consideration shares and milestones are as shown below. No contingent consideration has been recognised as a liability or included in the cost of the asset.

- i. Tranche 1: ASX announcement by African Gold of:
 1. a JORC 2012 compliant Inferred, Indicated or Measured Resource with a minimum grade of 1.5g/t for a total of at least 500,000oz of gold located within the projects; or
 2. an announcement by the Company of the commercial production of gold from any of the projects, within 3 years of completion – number of Contingent Consideration shares 2,500,000;
- ii. Tranche 2: ASX announcement by African Gold of:
 1. a JORC 2012 compliant Inferred, Indicated or Measured Resource with a minimum grade of 1.5g/t for a total of at least 1,000,000oz of gold located within the projects; or
 2. an announcement by the Company of the commercial production of gold from any of the projects, within 4 years of completion – number of Contingent Consideration shares 5,000,000; and
- iii. Tranche 3: ASX announcement by African Gold of:
 1. a JORC 2012 compliant Inferred, Indicated or Measured Resource with a minimum grade of 1.5g/t for a total of at least 2,000,000oz of gold located within the projects; or
 2. an announcement by the Company of the commercial production of gold from any of the projects, within 5 years of completion – number of Contingent Consideration shares 5,000,000.

23 Parent entity disclosure

The following information relates to the parent entity, African Gold Ltd, as at and for the year ended 31 December 2023.

	2023 \$	2022 \$
Loss for the year	(1,619,105)	(1,962,251)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

24 Post-reporting date events

There have not been any events that have arisen between 31 December 2023 and the date of this report or any other item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to materially affect the operations of the Company, the results of those operations or the state of affairs of the Company, in subsequent financial years, other than:

- Simon Bolster resigned as Non-Executive Director on 15 February 2024.

25 Commitments

The Group is required to meet minimum expenditure commitments in relation to its tenements and keep them in good standing. The exploration commitments shown below are the Group's estimated exploration expenditure on its tenements based on proposed work programs submitted to the government mining departments in Mali and Ivory Coast as at the date of this report. The commitments below exceed the minimum expenditure to keep the tenements in good standing and assume any currently pending tenement renewals are granted.

A total expense of \$48,000 (2022: \$48,000) was recognised during the period under a serviced office agreement. The serviced office agreement does not lead to the recognition of any right-of-use asset or associated lease liability because the serviced office agreement does not specify or effectively require an identified asset.

Due greater than 1 year and less than 5	-	-
Total	2,636,122	7,391,127

26 Summary of significant accounting policies

26.1 Parent entity information

In accordance with *the Corporations Act 2001*, these financial statements present the results of the Group only, and information about the parent entity is disclosed in Note 23.

26.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 December 2023. Subsidiaries are entities that are controlled by the Company. Control is achieved when the Company is exposed to, or has rights to, variable returns from its involvement with its subsidiaries and has the ability to affect those returns through its capacity to direct the activities of its subsidiaries.

Specifically, the Group controls a subsidiary if, and only if, the Group has:

- power over the subsidiary (i.e., existing rights that give it the current ability to direct the relevant activities of the subsidiary)
- exposure, or rights, to variable returns from its involvement with the subsidiary
- the ability to use its power over the subsidiary to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of a subsidiary, the Group considers all relevant facts and circumstances in assessing whether it has power over a subsidiary, including:

- the contractual arrangement(s) with the other vote holders of the subsidiary

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

- rights arising from other contractual arrangements
- the Group's voting rights and potential voting rights

The consolidated entity re-assesses whether or not it controls an entity if facts and circumstances indicate that there is a change to the elements of control. Assets, liabilities, income and expenses of a subsidiary acquired or disposed during the year are included in the consolidated financial statements from the date the consolidated entity gains control until the date the consolidated entity ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries align to their accounting policies with the Group. All consolidated entity assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

26.3 Interest Income

Interest revenue is brought to account on an accruals basis using the effective interest rate method and, if not received at the end of the reporting period, is reflected in the statement of financial position as a receivable.

26.4 Trade and Other Payables

These amounts represent liabilities for amounts owing at the end of the reporting period. The amounts are unsecured and are usually paid within 30 days of recognition.

Trade and other payables are initially recognised at fair value less transaction costs and subsequently carried at amortised cost.

26.5 Income taxes

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, the Australian Taxation Office ('ATO') and other fiscal authorities relating to the current or prior reporting periods that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases. However, deferred tax is not provided on the initial recognition of goodwill or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit. Deferred tax on temporary differences associated with investments in subsidiaries and joint ventures is not provided if reversal of these temporary differences can be controlled by the Company and it is probable that reversal will not occur in the foreseeable future.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realisation, provided they are enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised to the extent that it is probable that they will be able to be utilised against future taxable income, based on the Company's forecast of future operating results which is adjusted for significant non-taxable income and expenses and specific limits to the use of any unused tax loss or credit. Deferred tax liabilities are always provided for in full. Deferred tax assets and liabilities are offset only when the Company has a right and intention to set off current tax assets and liabilities from the same taxation authority.

26.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

26.7 Equity

Share capital is recognised at the fair value of the consideration received. Any transaction costs associated with the issuing of shares are deducted from share capital, net of any related income tax benefits.

For personal use only

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

26.8 Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

26.9 Exploration and evaluation expenditure

Exploration and evaluation expenditure incurred is either capitalised and accumulated in respect of each identifiable area of interest or expensed. The capitalised costs are only carried forward to the extent that they are valid exploration and evaluation expenditure in area of interests that have current tenement licenses belonging to the company and expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable resources and further work is intended to be performed. Accumulated costs in relation to an abandoned area will be written off in full against the profit and loss in the year in which the decision to abandon the area is made.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward capitalised costs in relation to that area of interest.

26.10 Property, plant and equipment

All classes of equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight-line basis over the estimated useful life of the specific asset as follows:

Asset	2023	2022
Equipment	3-10 years	3-10 years

Depreciation is not charged on plant until production commences.

Impairment

The carrying values of property, plant and equipment are reviewed for impairment at each balance date, with recoverable amount being estimated when events or changes in circumstances indicate the carrying value may not be recoverable. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying values of an asset or cash generating unit exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

The recoverable amount of equipment is the greater of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Derecognition

Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the Statement of Profit or Loss and Other Comprehensive Income in the period the item is derecognised.

26.11 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

For personal use only

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

26.12 Share-based payment transactions

The Company may provide benefits to individuals acting as, and providing services similar to employees (including Directors) of the Company in the form of share-based payment transactions, whereby individuals render services in exchange for shares, options or rights over shares ('equity settled transactions').

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. In valuing equity settled transactions, no account is taken of any performance conditions, other than conditions linked to the value of the shares of the Company ('market conditions').

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at the balance date. No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at the grant date.

26.13 Employee entitlements

Provision is made for employee entitlement benefits accumulated as a result of employees rendering services up to the reporting date. Liabilities arising in respect of wages and salaries, annual leave and other benefits due to be settled within twelve months of the reporting date are measured at rates which are expected to be paid when the liability is settled.

All other employee entitlement liabilities are measured at the present value of estimated payments to be made in respect of services rendered up to reporting date.

Contributions for other post-employment benefits to defined contribution plans are recognised in comprehensive income as incurred during the period in which employees render the related service.

26.14 Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

26.15 Financial instruments

i) Financial assets

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Other receivables

Other receivables, which generally have 30 day terms, are recognised initially at fair value and subsequently carried at amortised cost using the effective interest method, less an allowance for any estimated shortfall in receipt. An estimate of any shortfall in receipt is made when there is an expectation of a loss. Bad debts are written off when identified.

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under AASB 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the Company. The Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost include trade and other receivables.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e., removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

Expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss will be recognised through an allowance. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For other debt financial assets (i.e. cash on deposit at bank). The ECL is based on the 12-month ECL. The 12-month ECL is the portion of lifetime ECLs that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

ii) Financial liabilities

Trade and other payables

Liabilities for creditors and other amounts are carried at amortised cost, which is the present value of the consideration to be paid in the future for goods and services received, whether or not billed to the consolidated entity. The carrying period is dictated by market conditions but is generally less than 45 days.

Initial recognition and measurement

The Group's financial liabilities are classified, at initial recognition, as subsequently measured at amortised cost, at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value.

The Group's financial liabilities include trade and other payables and loans.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

The Group's financial liabilities are subsequently measured at amortised cost.

iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

26.16 Foreign currency transactions and balances

Transactions and balances

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the date of the transaction and foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction and non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss component of the statement of profit or loss and other comprehensive income, except where they are deferred in equity as a qualifying cash flow or net investment hedge.

Subsidiaries

On consolidation, the assets and liabilities of foreign operations are translated into Australian dollars at the exchange rate prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. Exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

26.17 Significant Estimates and Judgments

The Group has applied the following estimates and judgments pertaining to the financial report:

Share options

- (i) Volatility of share price and risk-free rate

For the purposes of the Black Scholes models used in Note 13, the Company has estimated the volatility of its share price based on other companies considered to be comparable, being junior exploration companies listed on the ASX and with African gold assets.

Performance rights

For performance rights, the Group makes a judgment around whether performance conditions, linked to exploration and evaluation activities, are more than probable to be met at which point the value of the rights are recognised either in full or over any service period. This judgment is made based on management's knowledge of the performance condition and how the Group is tracking based on exploration and evaluation activities as at the report date and with reference to subsequent events.

Exploration and evaluation

The application of the Group's accounting policy requires judgement in determining whether it is likely that future economic benefits are likely either from future exploitation or where activities have not yet reached a stage which permits a reasonable assessment of the existence of reserves.

26.18 Loss per share

Earnings per share

- (ii) Basic loss per share

Basic loss per share is calculated by dividing the loss attributable to equity holders of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

- (iii) Diluted loss per share

Diluted loss per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

26.19 Capital management

When managing capital, management's objective is to ensure the Group continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the Group. Management is constantly adjusting the capital structure to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, management may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Management considers that the total equity of the Group (contributed equity, reserves and retained earnings) is what it manages as capital.

Since 31 December 2023, the Directors of the Company have loaned additional funds totalling \$255,000 to assist the Company in meeting its obligations. The Directors have confirmed they will not request payment of outstanding fees or loans until such time as the Company has sufficient funds to pay the amounts due to them without affecting normal operations. The Directors have also confirmed that, should the need arise, they will continue to support the Company to ensure it meets its financial obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

26.20 New and amended accounting standards

The Directors have reviewed all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are relevant to the Group's operations and effective for annual reporting periods commencing on or after 1 January 2023.

The Group has adopted all the new or amended Accounting Standards and Interpretations issued by the AASB that are mandatory for the current reporting period. It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group and, therefore, no change is necessary to accounting policies.

Future effects of the implementation of these standards will depend on future details.

AASB 2021-2: Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates amends various accounting standards from 1 January 2023 to remove requirements for disclosure of immaterial accounting policies and clarify treatment of accounting estimates. This has no effect on reported balances but has required the removal of immaterial accounting policy disclosures and has changed disclosures for material estimates.

AASB 2021-5: Amendments to Australian Accounting Standards – Deferred Tax related to Assets and Liabilities arising from a Single Transaction narrows the initial recognition exemption for deferred tax balances and clarifies that the exemption does not apply to leases or decommissioning obligations. This standard is mandatorily effective from 1 January 2023 but will have no effect on reported balances unless the Group recognises deferred tax assets or liabilities.

26.21 New and amended accounting standards and interpretations issued but not yet effective

A number of new standards, amendments to standards and interpretations issued by the AASB which are not yet mandatorily applicable to the Group have not been applied in preparing these financial statements. The Group has not elected to adopt any new Accounting Standards or Interpretations prior to their applicable date of implementation.

There are no standards that are not yet effective and that would be expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of African Gold Ltd, I state that:

In the opinion of the Directors:

- (a) the consolidated financial statements and accompanying notes for the year ended 31 December 2023 are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the year ended on that date; and
 - (ii) complying with the Australian Accounting Standards (including the Australian Accounting Interpretations) and Corporations Regulations 2001;
- (b) the financial statements and notes also comply with the International Financial Reporting Standards as disclosed in Note 2;
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- (d) this declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 31 December 2023.

On behalf of the Board:

Mr Phillip Gallagher

Managing Director

Dated the 28 March 2024

INDEPENDENT AUDITOR'S REPORT

To the Members of African Gold Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of African Gold Ltd ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 3 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Carrying value of exploration and evaluation expenditure Refer to Note 7</p> <p>The Group has capitalised exploration and evaluation expenditure of \$11,064,803 as at 31 December 2023.</p> <p>Our audit procedures determined that the carrying value of exploration and evaluation expenditure was a key audit matter as it was an area which required the most communication with those charged with governance and was determined to be of key importance to the users of the financial statements.</p>	<p>Our procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> - We obtained an understanding of the key processes associated with management’s review of the carrying value of exploration and evaluation expenditure; - We obtained evidence that the Group has current rights to tenure of its areas of interest; - We substantiated a sample of additions to exploration expenditure during the year; - We enquired with management and reviewed ASX announcements and minutes of Directors’ meetings to ensure that the Company had not decided to discontinue exploration and evaluation at its areas of interest; and - We examined the disclosure made in the financial report.

Information Other than the Financial Report and Auditor’s Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group’s annual report for the year ended 31 December 2023, but does not include the financial report and our auditor’s report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 31 December 2023.

In our opinion, the Remuneration Report of African Gold Ltd for the year ended 31 December 2023 complies with Section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
