One Click Group Limited (ASX: 1CG) ("Company"), a fast-growing finance and life admin technology platform, is pleased to provide shareholders with an overview of its activities for the period ended 31 March 2024 ("Quarter").

Management commentary:

Managing Director, Mark Waller said: "A key focus for the March Quarter was to continue to improve and expand the product suite available on the One Click Life fintech platform. The opportunity to simplify our customers financial life is extremely motivating for the One Click team. The quieter quarter due to the cyclical nature of demand for tax services provides us the

opportunity to focus on our fintech platforms and improve both the user experience and suite of products available.

Cash receipts were up 80% when compared to prior corresponding quarter. This is the company's quietest quarter and the bulk of cash receipts hit in the September quarter whereby the company expects a strong positive cash operating quarter and growth on the previous year where we achieved \$2.7m of revenue.

Registered users on the One Click Life platform continued to grow during the quarter with minimal marketing spend. We also continue to see demand in financial products outside of our tax products further validating our business model.

We continue to improve our One Click Verify platform with revenues on this platform continuing to grow. We will continue to seek opportunities to distribute our product both direct to market and through integrations into existing platforms with established customer bases who have a need to identify their customers."

Operational overview:

The key focus areas of the Quarter was on improving the product suites, continuing to grow registered user numbers on One Click Life and continuing to generate revenue from each of our platforms.

During the quarter we released our 2023 financial year results with key highlights being;

- 144% growth in revenue to \$3.9m in 2023 up from \$1.6m in 2022,
- 85% growth in user numbers to over 120,000 users, and
- the increase in Average Revenue Per User (ARPU) to \$32.

The work we are undertaking now to improve and expand our product suites is aimed to improving our ARPU as our user numbers grow through 2024.

One Click Life

The One Click Life tax product is the largest revenue generating product on the One Click Life platform. Due to the cyclical nature of demand for tax services, the bulk of the Company's revenue is generated in the July to September quarter with the quietest quarter being the March quarter. This has provided the ability to focus on improving the tax product and user experience on the One Click Life platform.

User acquisition was in line with expectations during the quarter. Looking ahead the number of marketing campaigns and digital marketing platforms One Click Life engages with will increase into the June quarter assisting in growing new user awareness and acquisition during 2024.

As well as improving the existing product suite available on the One Click Life platform, the company is also focussed on expanding the products available to assist customers in managing their financial lives in a simple, low cost, mobile first platform.
